Missouri State

Office of the Provost

Program Review

Accreditations

Missouri State University's regional accreditation is through the Higher Learning Commission. On a 10-year review cycle, Missouri State has been continuously accredited by the Higher Learning Commission since 1915. HLC accreditation is for the entire university not specific academic programs.

REVIEW HLC ACCREDITATION DATA (/HLC/)

Academic programs having an accreditation review process with similar goals as the MSU program review are given the opportunity to utilize the accreditation process as its periodic review. Reports from the accreditation evaluators are used in a manner similar to reports from an external evaluator for further deliberation by the department/program which then prepares a response. While program review is on a seven-year cycle, accreditation varies from 5–10 years. Programs may use the accreditation cycle with approval from the provost and respective deans.

In addition to the college, department and specific program, information concerning the accrediting or certifying body, year first accredited, dates of past and future site visits, and links to evaluation reports may be found. [Notification of accreditation letters \(/Provost/ProgramReview/Notification-of-Accreditation-Letters.htm\)](/Provost/ProgramReview/Notification-of-Accreditation-Letters.htm) are also available to view.

Accreditations

Accrediting Body	College / Dept.	Program	Cycle	Start of Current Cert.	Cert. Expires
AACSB International	College of Business	All B.S. in Business; All Master programs	5 years	SP 2018	FA 2023

Undergraduate Catalog

Course Numbering System and Guide to Course Descriptions

Course numbering system (Fall 2009 to present)

Number	Definition
000-099	Background courses
100-199	Lower division courses designed primarily for freshmen
200-299	Lower division courses designed primarily for sophomores
300-399	Upper division courses designed primarily for juniors

Number	Definition
400-599	Upper division courses designed primarily for seniors
600-799	Graduate courses designed primarily for master's level study
800-899	Upper-level graduate courses primarily for students in specialist or doctoral programs
900-999	Upper-level graduate courses primarily for students in doctoral programs

Course description

In addition to providing a brief description of the course content, it also includes:

- Pass/Not Pass grading options.
- Repeat limitations.
- Limitations on course applicability to degree requirements.
- Courses that have both an undergraduate and graduate version. Students enrolled in either version meet in the same room at the same time with the same instructor. The graduate level version of the course must require coursework appropriate for graduate credit. These courses are referred to as "cross-listed" courses in the class schedule.
- Periodicity indicating anticipated semester when the course may be offered.

Credit and contact hours

- *Credit hours* represent a unit of academic credit measured in semester hours. Some courses may be offered for a range of credit hours. Learn more about [credit and contact hours](#).
- *Lecture contact hours* represents the number of hours per week the class will meet in a lecture environment (based on a 15-week semester).
- *Lab contact hours* represents the number of hours per week the class will

- meet in a laboratory environment (based on a 15-week semester).
- *Clinical contact hours* represents the number of hours per week the course will meet in clinical experiences outside the classroom and may not be indicated as lab hours. Normally clinical hours will require three or more hours per week per hour of credit. Some typical clinical courses are Nursing, Occupational Therapy, and Physical Therapy.
 - Courses with no standard lecture or laboratory contact hours indicates class time is spent outside the normal classroom environment (i.e., field study, internships, practicums, research, service learning, supervised teaching, thesis, etc.)

Prerequisite and corequisite

- A prerequisite may consist of one or more background courses, a placement test score, admission to a specific program of study, or departmental permission. The student is responsible for having the appropriate prerequisites prior to the beginning of the class. If any academic department determines that a student does not have the appropriate prerequisite, registration for the class may be cancelled either prior to or after classes begin. Questions concerning the prerequisite should be directed to the academic department offering the class
- Some courses may require concurrent enrollment in another course during the same semester, referred to as a "corequisite" in the class schedule.
- Prerequisites and corequisites change over time and are not dependent on the student's catalog of graduation. The registration system will enforce prerequisites that are in effect for the semester of registration.

Variable content course

The *variable content course* statement indicates course is defined as one having in either its course title or its description any of the following terms: variable content, special topics, issues, problems, seminars, projects, independent study, or readings. Variable content courses include any courses that may be substantially different from one semester to another. Also included in this category are special problems, special projects, readings, and research

conducted on a tutorial basis with individual students. Unless otherwise stipulated in the course description, a variable content course may be taken only once for credit.

Office of the Registrar

Detailed Tuition and Fees

Summer 2021 tuition and fee information

2021-22 required student fees

Required Student Fees are a combination of Tuition and Student Services Fees.

Additional enrollment fees (#enrollmentfees) are charged for specific courses. Supplemental course fees (#supplemental) are charged for specific courses.

Tuition for regular instruction (per credit hour)

Course Level or Type (includes blended courses[†])	Missouri Resident	Non-Missouri Resident
Courses numbered 1-599	\$257.00	\$550.00

Course Level or Type <i>(includes blended courses[†])</i>	Missouri Resident	Non-Missouri Resident
Courses numbered 600-999 (not listed below)	\$320.00	\$640.00
McQueary College of Health and Human Services - ANE courses numbered 700-899	\$320.00	\$320.00

[†]Blended courses are those that integrate online and traditional face to face activities. They are assessed at the regular instruction rate and are assessed Student Services Fees. Such courses are identified with an instructional method of "blended" in the class schedule.

Tuition for Internet based instruction (per credit hour)

Course Level or Type <i>(does not include blended courses[†])</i>	Missouri Resident	Non-Missouri Resident
Internet based instruction for courses numbered 1-599	\$257.00	\$257.00
Internet based instruction for courses numbered 600-999 (not listed below)	\$320.00	\$320.00
McQueary College of Health and Human Services - ANE courses numbered 700-899	\$320.00	\$320.00
Master of Science in Information Technology: ITC 732, 734, 736, 738, 740, 742, 744, 746, 747, 748, 750, 752, 754, 756. When taken for completion of the Master of Science in Information Technology program, these courses will not be assessed the graduate-level College of Business additional per credit hour fee.	\$500.00	\$500.00

†Blended courses are those that integrate online and traditional face to face activities. They are assessed at the regular instruction rate and are assessed Student Services Fees. Such courses are identified with an instructional method of "blended" in the class schedule.

Student Services Fees

Student Services Fees are assessed in addition to tuition and are based on the total credit hours for which a student enrolls, **excluding** the credit hours associated with the sections identified as Intersession and high school dual credit. Student Services Fees for students enrolled in at least one Springfield campus course will be charged as follows on all credit hours:

Fall 2021 and Spring 2022

Credit Hours	Fee Total
1-hour load	\$194.00
2-hour load	\$247.00
3-hour load	\$299.00
4-hour load	\$351.00
5-hour load	\$402.00
6-hour load	\$456.00
7 or more-hour load	\$549.00

Summer 2022

Credit Hours	Fee Total
--------------	-----------

Credit Hours	Fee Total
1-hour load	\$121.00
2-hour load	\$165.00
3-hour load	\$212.00
4 or more-hour load	\$260.00

Online, Web Conferencing, off campus

Students enrolled only in courses identified as online or web conferencing or taught in any location other than the Springfield campus and not enrolled in Springfield campus course will be charged as follows:

Fall 2021 and Spring 2022

Credit Hours	Fee Total
1-hour load	\$30.00
2-hour load	\$60.00
3-hour load	\$90.00
4-hour load	\$120.00
5-hour load	\$150.00
6-hour load	\$180.00
7 or more-hour load	\$210.00

Summer 2022

Credit Hours	Fee Total
1-hour load	\$30.00
2-hour load	\$60.00
3-hour load	\$90.00
4 or more-hour load	\$120.00

Tuition for courses offered at BearNet locations other than Springfield including ITV instruction (per credit hour)

Course Level or Type	Missouri Resident	Non-Missouri Resident
Courses numbered 1-599	\$257.00	\$257.00
Courses numbered 600-999	\$320.00	\$320.00
EDD courses numbered 900-999	based on University of Missouri-Columbia rate	based on University of Missouri-Columbia rate

Tuition for courses offered via Web Conference (per credit hour)

Course Level or Type	Missouri Resident	Non-Missouri Resident
Courses numbered 1-599	\$257.00	\$257.00

Course Level or Type	Missouri Resident	Non-Missouri Resident
Courses numbered 600-999	\$320.00	\$320.00
EDD courses numbered 900-999	based on University of Missouri-Columbia rate	based on University of Missouri-Columbia rate

Exceptions to the above (per credit hour)

Course Level or Type	Missouri Resident	Non-Missouri Resident
High School Dual Credit	\$70.00	\$70.00
AGE 728 and AGE 738	\$175.00	\$175.00
eMINTS (Enhancing Missouri's Instructional Networked Teaching Strategies)	\$100.00	\$100.00
R-12 enrollees in SFR 791/Step-Up	\$45.00	\$45.00
EDD (Educational Leadership) 900-level courses	based on University of Missouri-Columbia rate	based on University of Missouri-Columbia rate
EGR (cooperative Engineering program) 100, 200, 201, 300, 301, 400, 401, 500, 501	based on Missouri University of Science and Technology rates	based on Missouri University of Science and Technology rates
For Education Abroad courses or exchanges administered by MSU, tuition will be assessed at the Missouri resident rate for both residents and non-		

Course Level or Type	Missouri Resident	Non-Missouri Resident
residents. This does not apply to students registered in courses administered by affiliate program providers. Additional program fees will be assessed.		

Flat fee in place of per credit hour

Course Level or Type	Missouri Resident	Non-Missouri Resident
GEN 598 and GEN 798, Active in Research	\$75.00 flat fee	\$75.00 flat fee
MIL 225 and MIL 325, Military Science Practicum	\$150.00 flat fee	\$150.00 flat fee
MS to DNAP courses: for students admitted into the MS to DNAP completion program (coded NAPM-DNAP), tuition and fees will be assessed at the flat fee rate of \$2,700 for each three-credit hour course. Refer to the 2021-2022 Fee Schedule for additional information.	\$2,700.00 flat fee	\$2,700.00 flat fee

Other Enrollment Fees (per credit hour)

These enrollment Fees will not be assessed for sections identified as High School Dual Credit, but will be assessed for internet based instruction.

William H. Darr College of Agriculture

Course Level or Type	Missouri Resident	Non-Missouri Resident

Course Level or Type	Missouri Resident	Non-Missouri Resident
AGB, AGC, AGE, AGN, AGP, AGR, AGS, and AGV courses numbered 100-199	\$15.00	\$15.00
AGB, AGC, AGE, AGN, AGP, AGR, AGS, and AGV courses numbered 200-799 (except AGE 493, 494 and 499)	\$30.00	\$30.00

Judith Enyeart Reynolds College of Arts and Letters

Course Level or Type	Missouri Resident	Non-Missouri Resident
Media, Journalism & Film Production-Intensive courses: JRN 384, 388, 478, 481, 493, and 592 MED 130, 290, 361, 365, 382, 383, 390, 461, 462, 465, 466, 472, 490, 493, 498, 561, 562, 583, 762, and 793	\$25.00	\$25.00

Undergraduate-level courses numbered 000-599 (except all NUR, and KIN 135, 493, 496, 498)	\$25.00	\$25.00
ANE courses numbered 700-899	\$25.00	\$25.00
Graduate-level courses: ATC courses numbered 600-799 BMS courses numbered 600-799 CSD courses numbered 600-999 DTN courses numbered 700-799 NUR courses numbered 700-999 OTE courses numbered 600-799 PAS courses numbered 600-799 PTE courses numbered 700-899	\$30.00	\$30.00

College of Natural and Applied Sciences

Course Level or Type	Missouri Resident	Non-Missouri Resident
Undergraduate, lower-level courses numbered 000-199: AST, BIO, CHM, CSC, GEO, GLG, GRY, HSP, MAT, MTH, PHY, PLN, and SCI Courses (except MTH 101, MTH 103, and MTH 107)	\$15.00	\$15.00
Undergraduate, upper-level courses numbered 200-599: AST, BIO, CHM, CSC, GEO, GLG, GRY, HSP, MAT, MTH, PHY, PLN, and SCI (except MTH 493, MTH 494, MTH 496, SCI 493, SCI 494, SCI 499)	\$30.00	\$30.00

Supplemental Course Fees

Supplemental course fees may be assessed on individual courses to cover the

cost of specialized supplies, equipment, or services for instructional purposes that are provided by the University to all students enrolled in the course and are in addition to routine instructional expenses. The supplemental course fees will be assessed at the time of registration. Supplemental course fees will not be assessed for sections identified as Dual Credit/High School. The Provost shall be authorized to approve additional supplemental course fees needed for selected courses during the year. View the list of [supplemental course fees](#) (</Assets/registrar/Supplemental-Course-Fees-21-22.pdf>) for 2021-2022.

More information

For comprehensive fee information, refer to the [2021-2022 Fee Schedule](#) (<https://apps.missouristate.edu/financialservices/2021-2022FeeResolution-SGF.pdf>), approved by the Board of Governors. All tuition and fees are subject to revision without notice.

Office of the Registrar

Undergraduate Catalog

Glossary of Terms

This reference guide is designed to assist in defining terms frequently used at Missouri State University and in the Undergraduate Catalog.

Academic Advisor A University employee who is committed to helping students meet their educational goals.

Academic Year Begins in August with the fall Intersession, continues through the spring semester, and concludes with the summer sessions.

Accelerated graduate program option that allows eligible juniors and seniors to take a limited number of graduate-level courses that count towards both their undergraduate and graduate degree.

Alumni Individuals who have attended or graduated from the university.

Admission to Degree Program A process required of students who have a major with specific admission requirements.

Auditing a Class A grading option that allows completion of a course without receiving credit or a traditional grade. An audited course cannot fulfill a degree requirement.

BearPass Card Student's official University identification card.

Block Classes meets for only the first or second half of the term (semester).

Board of Governors Governing body for Missouri State University appointed by the Governor of Missouri.

Boomer University mascot

Catalog University's official publication of courses, programs of study and academic policies and requirements.

Certificate Document representing that the student has completed a University Certificate.

Change of Schedule Period First five days of the term when students can add and drop classes.

Class Schedule An online listing of courses offered for a specific term.

College Group of academic departments, schools and programs administered by a college dean.

College Level Examinations Program (CLEP) Method of earning academic credit outside of traditional course offerings.

Commencement Ceremony held at the end of the fall and spring semesters to recognize candidates for graduation.

Comprehensive Major A BA or BS major that includes both a primary and secondary area of study and, therefore, does not require completion of a minor.

Core Courses Group of foundation courses required by a college, department, or specific major.

Co-requisite Two or more courses that must be taken during the same term.

Credit by Examination Method of earning academic credit outside of traditional course offerings.

Credit Hour Standard unit of measuring coursework. The unit of credit used at Missouri State is the semester hour.

Cross-Listed Courses Two or more different courses taught in the same room, at the same time, with the same instructor. Students may receive credit toward graduation for only one.

Dean (academic) Highest administrative officer of a college.

Dean's List Published list of students who have achieved a specific level of achievement established by the University.

Degree Audit Advising tool designed to assist in tracking a student's progress towards graduation.

Department Head Administrative officer holding faculty rank; responsible for a primary unit within an academic organization.

Diploma Document provided by the University certifying that the student has earned a degree.

Dual Credit Program in which students can earn college credit from Missouri State while in high school.

Dual Enrollment Refers to students who are concurrently enrolled in two or more higher education institutions.

Enrollment Status Indicates student's academic load (i.e., full-time, three-quarter time, half-time, less than half-time).

Good Standing Academic status of students who are not on probation or under suspension.

General Education Program Group of foundation courses required of all undergraduate degrees regardless of major.

Grade Point Numerical value given to grades (also referred to as quality points.)

For example, four grade points per credit hour is awarded for a grade of "A".

Grade Point Average (GPA) Calculation derived from dividing the grade points earned by the number of credits attempted.

Hold Block which prohibits students from registering for classes or receiving a transcript or diploma. Most holds are due to an unpaid financial obligation, or failure to complete a required process.

Honors, Scholastic Designation indicated on the graduates' diploma and transcript that reflects outstanding scholarship.

Honors College Program Designed to serve the needs of academically talented, high-achieving students.

Identical Courses Those courses identified by multiple course codes and/or numbers that are taught in the same classroom, at the same time, and by the same instructor. Student may only receive credit toward graduation for one.

Incomplete Grade Assigned when a student has not completed all work for a class and the instructor agrees to allow additional time for completion.

Internship Work at a business or agency related to a student's major and/or career plans for which credit hours are awarded.

Intersession Brief period (typically 1-3 weeks) between semesters when a limited number of courses are offered.

Lower Division Undergraduate courses numbered lower than 300.

Major Collection of courses and requirements that is designated as the student's primary area of specialization. Appears on the student's diploma and transcript.

Minor Collection of courses indicating additional specialization in an area of study beyond the major. Minors do not appear on the student's diploma but are listed on the student's transcript.

Mixed Credit Courses that are part of an accelerated graduate program in which students earn both graduate and undergraduate credit.

Modality How, when and where a class is taught. Refer to the class schedule.

My Missouri State Website that provides access to personal student information, email, blackboard, online registration, and much more. A BearPass login is required to access the system.

Non-Comprehensive Major A BA or BS major that requires completion of a minor in order meet graduation requirements.

Non-resident Student who does not meet requirements for classification as a Missouri resident for fee purposes in accordance with the residence policy.

Non-traditional student Typically describes evening students, married students, students with children, and students of 22 years of age or older.

Option Sub-set of courses within the major that represent a specialized area of study. Officially approved options appear on the transcript but are not printed on the diploma.

Overload Semester credit hours that exceed the maximum number of hours permitted based on the student level (undergraduate or graduate). Permission is required for an overload.

Parallel (undergraduate and graduate level) courses those courses that have both an undergraduate and graduate version (example: ACC 504 and ACC 604). Students who enroll in either course meet in the same room at the same time with the same instructor. The graduate level version of the course must require coursework appropriate for graduate credit. Parallel courses are identified in the semester class schedule as "cross-listed" courses.

Pass/Not Pass Grading option that allows students to pursue coursework without affecting their GPA.

PIE (Partners in Education) Program designed to facilitate communication between first-year students and their families. Through written consent of the student, members will have increased access to their student's information.

Postbaccalaureate A nondegree seeking classification of student who has earned a bachelor's degree and wishes to take additional classes but not

pursue an additional undergraduate degree or a graduate degree.

Prerequisite Specific requirements that must be met prior to enrolling in a given class. Prerequisites may consist of courses, test scores, or enrollment in a specific program of study.

Probation Status that indicates unsatisfactory academic progress. Students may be subject to academic load limitations and other restrictions.

Program of Study Another name for a major.

Readmission Admission process followed by a student who wishes to enroll after a absence of one full calendar year.

Registration Restriction A type of prerequisite that requires student be in a specific major in order to enroll in the class.

Reinstatement Process by which a suspended student appeals to return to the university.

Semester Also, referred to as a "term". Instructional period of 15 weeks plus a final examination period offered twice a year. Additional instructional periods include intersessions and summer sessions.

Senior Permission Allows students to take graduate coursework while still classified as an undergraduate.

Service Learning Program which allows students to earn academic credit in selected courses in exchange for meaningful and productive community service.

SOAR (Student Orientation, Advisement, and Registration)

Program designed to assist students and their families in making a successful transition to university life.

Student Services Fees Required fees assessed at the time of registration that cover the student's access to a variety of services, programs, and activities.

Suspension Status that prevents a student from enrolling in classes unless reinstatement is granted by the dean of the college of the student's major.

Syllabus Document describing the objectives, outcomes, assessment activities, and structure of a class that is made available to students during the first week of classes.

Term Another name for a semester or summer session.

Transcript Serves as the student's official academic record of classes and grades received and degrees awarded.

Transfer Credit Classes taken at another institution and accepted as college credit at Missouri State.

Transfer Student Student who has completed 24 or more transferable credit hours *after* high school graduation.

Tuition The amount of money that must be paid for classes. Other fees may be assessed in addition to tuition.

Upper Division Undergraduate courses numbered 300 and above.

"W" Grade Indicates student withdrew from (dropped) a class without academic penalty.

Freshman Admission Alternatives

[Op5.01-1 Freshman Admission Alternatives \(/Policy/Op5_01_1_FreshmanAdmissionAlternatives.htm\)](#)

Policy statement

As a selective admission institution, Missouri State University seeks to admit students with demonstrated potential for academic success. We recognize that some students have potential for success not clearly evident through standard measures of class rank, grade point average, and test scores. The following admission alternatives are available to students who do not meet the required high school core curriculum and selection index requirements as described in the [freshman admission requirements policy \(/Admissions/apply.htm\)](#).

Individual review

If you do not meet our selection index requirement you may provide additional information using our [supplemental application form](/Admissions/supplementalapp.htm) (/Admissions/supplementalapp.htm). Your information will be reviewed by our Admissions Committee, which will make the decision regarding your admission. Students who do not meet the selection index requirement and are not approved through the individual review process may be given further consideration by a secondary review committee upon the recommendation of a member of the University faculty or staff.

Summer session admission

If you meet the core curriculum requirement but do not meet the selection index requirement, you can be admitted for the summer session that begins in early June. You do not need to provide the supplemental application form for individual review by the Admissions Committee. If you choose admission under this option, you will be required to participate in a program administered by our Academic Advising and Transfer Center that will enhance your foundation for academic success. You will be expected to fulfill specific requirements of that program during the summer session to be eligible to enroll for the following fall semester.

Core curriculum exceptions

If you meet the selection index requirement but circumstances beyond your control made it impossible for you to complete the core curriculum requirement, you may write a letter requesting an exception to this requirement. Your letter must be accompanied by a letter from your counselor or another school official explaining the circumstances which prevented you from completing the core curriculum requirement. Your request will be reviewed by the Admissions Committee, which will make the decision on your admission.

Transfer admission

If you choose to begin at another college or university and earn 24 or more hours of transferable credit (completed after high school graduation) with at

least a 2.00 grade point average, you will qualify for admission in accordance with our [transfer admission policy \(/Policy/Op5_01_9_TransferAdmission.htm\)](/Policy/Op5_01_9_TransferAdmission.htm).

The Missouri State University system includes an open admission campus in West Plains. Students who do not qualify for admission to the Springfield Campus may begin at the West Plains Campus, which offers programs that enable students to transfer seamlessly to Springfield. For information on the West Plains Campus, please visit [wp.missouristate.edu \(http://wp.missouristate.edu/\)](http://wp.missouristate.edu) or call 417-255-7955.

Applicants for Admission with Criminal Backgrounds and Disciplinary History

[Op5.01-2 Applicants for Admission with Criminal Backgrounds and Disciplinary History \(/Policy/Op5_01_2_ApplicantsforAdmissionwithCriminalBackgrounds.htm\)](#)

All application forms for both undergraduate and graduate admissions shall include a question regarding an applicant's prior disciplinary and criminal history. If a student responds affirmatively, the Undergraduate and Graduate Admissions staffs and the Office of the Dean of Students will review information provided by the applicant and may request additional information and a personal interview with the applicant prior to reaching an admissions decision. The University reserves the right to deny admission to an applicant or admit with restrictions based upon the review. Failure to answer the question honestly

and accurately can result in denial of admission, rescission of admission, suspension or dismissal.

Freshman Admission Requirements

[Op5.01-3 Freshman Admission Requirements \(/Policy/Op5_01_3_FreshmanAdmissionRequirements.htm\)](#)

You will qualify for admission to Missouri State if you are (or will be) a graduate of an accredited high school and meet both the core curriculum and selection index requirements described below.

If you have a high school cumulative GPA of 3.25 or higher, then you meet the selection index requirements and a test score is not needed for admission purposes. If you do not have a cumulative GPA of 3.25 or higher, please refer to the [Selection Index \(/Policy/Op5_01_3_FreshmanAdmissionRequirements.htm#selection-index\)](#) section of this policy.

High school core curriculum

The high school core curriculum requirement is based on recommendations of the [Missouri Coordinating Board for Higher Education](https://dhe.mo.gov/policies/hs-core.php) (<https://dhe.mo.gov/policies/hs-core.php>). Students who earn high school credit for courses taken prior to their freshman year will receive credit toward high school core requirements if the previously earned credit is included on their official high school transcript.

English/Language Arts

Four units of coursework emphasizing college preparatory composition, research skills, analysis of literature, and other content of comparable or greater rigor. Speech and debate courses may be included.

Acceptable courses: English or language arts, literature, speech, debate, journalism (if writing intensive).

Unacceptable courses: student publications, broadcast media, theater.

Mathematics

Three units of coursework emphasizing college preparatory algebra and other content of comparable or greater rigor are required. Four units are recommended.

Acceptable courses: algebra I, geometry, algebra II, trigonometry, pre-calculus, math analysis.

Unacceptable courses: computer math/programming, pre-algebra, general math, consumer math, business math.

Social studies

Three units of coursework emphasizing American history, Missouri government and Missouri history as required by state statute (Missouri residents only), geography/world civilizations, and other content of comparable or greater rigor.

Acceptable courses: world history, American history, American government, state/regional history, principles of democracy, civics, psychology, sociology, economics, political science, geography.

Unacceptable courses: family relations, human development, consumer education, personal finance.

Science

Three units emphasizing college preparatory biology, chemistry, and other content of comparable or greater rigor. One unit must be a laboratory course.

Acceptable courses: biology, chemistry, physics, anatomy and physiology, botany, zoology, integrated science, physical science, earth science, environmental science.

Unacceptable courses: general science, consumer science.

Fine arts

One unit emphasizing visual arts, instrumental or vocal music, dance, theater, or other content of comparable or greater rigor. Graduates of accredited Missouri high schools meet this through completion of the fine-arts requirement for graduation.

Acceptable courses: art, music (band, orchestra, choir, music appreciation or music theory), dance, drama, theatre appreciation.

Unacceptable courses: speech, debate, mass media, arts and craft.

Academic electives

Three units.

Acceptable courses: Must be selected from foreign language and/or the areas listed above or computer science. Two units of a foreign language are strongly recommended.

Unacceptable courses: physical education, accounting, family studies, keyboarding, vocational courses.

Additional electives

Additional elective credit to bring total to 24 units (required of Missouri high school graduates).

Selection index

If you successfully complete the high school core curriculum upon graduation from high school, you will qualify for admission if you meet the requirements in the scale below.

How to use this scale

1. Using your class rank percentile and GPA on a 4.00 scale (see below if your school does not use a 4.00 scale), determine which will place you higher on this scale. For example, if your class rank percentile is 50 and your GPA is 3.23, you would use the line based on your GPA. If your school does not rank, your GPA will be used to determine your eligibility. If your school provides both a weighted and an unweighted GPA, the highest will be used to determine your eligibility for admission. Students with a 3.25 cumulative GPA or higher will be admitted without a test score on file.
2. Follow the line you identified in step 1 across the scale to determine the minimum ACT or SAT score you must have. Using the example above, a student with a class rank percentile of 50 and a GPA of 3.23 would need **either** an ACT composite or ACT superscore of 20 or higher **or** an SAT total or SAT total superscore of 1030 or higher.

A student who submits only one test score will be considered based on that score, either an ACT composite or SAT total. ACT composite is the average of the four subsection scores. SAT total is the sum of evidenced-based reading and writing score and math score.

A student who submits multiple scores will be considered based on ACT composite or superscore (calculated as the average of the highest ACT English, Reading, Math, and Science subject tests taken from all ACT tests taken and sent to the University), whichever is higher, or SAT total (sum of

the evidence-based reading and writing score and math score) or superscore total (calculated as the highest combined evidence-based reading and writing score and highest math score from all SAT tests taken and sent to the university).

Class Rank Percentile	GPA (on a 4.00 scale)	ACT Composite or ACT Superscore	SAT Total or SAT Superscore Total
64 or above	3.25 or above	Test score optional	Test score optional
56 to 63	3.04 to 3.24	20	1030
48 to 55	2.85 to 3.03	21	1060
40 to 47	2.63 to 2.84	22	1100
34 to 39	2.50 to 2.62	23	1130
Below 34	Below 2.50	Not admissible	

- 3. To calculate your class rank percentile:** Subtract your rank in class from the number of students in your class then divide that number by the number of students in your class. For example, if you are ranked 24th in your class of 200, your class rank percentile is 88 $[(200 - 24) \div 200 = 0.88$ or 88th percentile].

If your school does not grade on a 4.00 scale: If your school uses a standard grading scale with an A or A+ at the top of the scale and an F equal to 0, convert your GPA to a 4.00 equivalent by multiplying your GPA by four and dividing that number by the scale your school uses. For example, if you have a 10.50 GPA on a 12.00 scale, your converted GPA equivalent is 3.50 $[(10.50 \times 4) \div 12 = 3.50]$. If your school uses a percentage (100 point scale), this formula is not valid. Your GPA will be converted by the Office of Admissions when you apply.

Other student types

Students with transfer credit

If you have completed courses for college credit during high school or after, you are required to provide transcripts from each regionally-accredited college or university where you have enrolled as part of the admission process.

If you have completed college credit at another college or university following graduation from high school (with the exception of the summer immediately following your graduation), you will be considered a **transfer student**. Transfer student admission requirements are determined by the number of credit hours you have completed *at the time of application*:

- Transfer students with **fewer than 24 hours** of college credit must meet the requirements of this freshman admission policy.
- Transfer students with **24 hours or more** of college credit must instead meet the requirements of the [transfer admission policy](#).

Homeschooled students

Homeschooled students should refer to the [admission policy for homeschooled students](#) (/Policy/Op5_01_6_AdmissionPolicyforHomeschooledStudents.htm).

Students with high school equivalency diploma

Students who receive a high school equivalency diploma (e.g., GED) should refer to the [admission policy for students with a high school equivalency diploma](#) (/Policy/Op5_01_5_AdmissionforStudentsWithHighSchoolEquivalencyDiploma.htm).

International students

Eligibility of international students is determined by the [international student undergraduate admission policy](#) (/Policy

[/Op5_09_1_InternationalUndergraduateStudents.htm](#)).

Students who graduated three or more years ago

Students who graduated from high school three or more years previously are exempt from the selection index and core requirements.

Right to limit enrollment

The university reserves the right to limit enrollment and to admit students on a space-available basis. Students are encouraged to apply early.

Freshman admission alternatives

As a selective admission institution, our objective is to admit students with demonstrated potential for academic success. We recognize that some students have potential for success not clearly evident through standard measures of class rank, grade point average and test scores. If you do not meet the requirements listed above, please review our [freshman admission alternatives](#) ([/Admissions/admissionalternatives.htm](#)).

The Missouri State University system includes an open admission campus in West Plains. Students who do not qualify for admission to the Springfield campus may begin at the West Plains campus, which offers programs that enable students to transfer seamlessly to Springfield. For information on the West Plains campus, please visit [WP.MissouriState.edu](https://wp.missouristate.edu/) (<https://wp.missouristate.edu/>) or call [417-255-7955](tel:+1-417-255-7955) (<tel:+1-417-255-7955>).

Questions

If you have questions, please call the Office of Admissions at [417-836-5517](tel:417-836-5517) (<tel:+1-417-836-5517>) or 800-492-7900, or write to: Office of Admissions, Missouri State University, 901 S. National Ave., Springfield, MO 65897.

Graduate Students Admission Policy

[Op5.01-4 Graduate Students Admission Policy \(/Policy/Op5_01_4_GraduateStudentAdmission.htm\)](#)

The Graduate Council sets the minimum standards for full admission to graduate study. Additional requirements and higher standards may be stipulated for specific graduate programs, and applicants should check for such requirements in the departmental section of this catalog. The minimum requirements for graduate admission are:

1. A bachelor's degree from a college or university accredited by agencies recognized by Missouri State University, AND a cumulative grade point average of at least 2.75 on a 4.00 scale; OR at least a 2.75 grade point average on a 4.00 scale for the last 60 hours of academic course work; OR at least a 2.75 grade point average on a minimum of 9 hours of graduate credits; OR have a combined score of 290 (875 under the old scoring system before August 1, 2011) on the verbal and quantitative sections of the

Graduate Record Examination; *OR*

2. A bachelor's degree from a college or university NOT accredited by an agency recognized by Missouri State University, a cumulative grade point average of at least 2.75 on a 4.00 scale; *OR* at least a 2.75 grade point average on a 4.00 scale for the last 60 hours of academic course work, *AND* a combined score of 290 (875 under the old scoring system before August 1, 2011) on the verbal and quantitative sections of the Graduate Record Examination; *OR*
3. A bachelor's degree from a college or university recognized by Missouri State University, *AND* recommendation in writing by both the department head of the student's desired major area and the dean of the college in which that discipline is located, and the approval of the Dean of the Graduate College.

Policy Library

Admission Policy for Students with a High School Equivalency Diploma

[Op5.01-5 Admission Policy for Students with a High School Equivalency Diploma \(/Policy/Op5_01_5_AdmissionforStudentsWithHighSchoolEquivalencyDiploma.htm\)](#)

Students who choose to take the General Educational Development (GED) or the High School Equivalency Test (HiSET) examination will be considered for admission on the basis of their combined high school equivalency diploma test score and their ACT (or SAT) scores according to the table below.

Students who are 22 years of age or older and who have received a passing score on the GED or HiSET and thus received an equivalency diploma are exempt from the ACT/SAT requirement.

Students who have enrolled in another college or university subsequent to receiving their equivalency diploma will be considered for admission under the [transfer admission policy](/Transfer/transferadmissionpolicy.htm) (</Transfer/transferadmissionpolicy.htm>).

ACT Composite	or	SAT Total*	GED - prior to 2014	GED - 2014 and forward	HiSET
17		920	2820 - 4000	680 - 800	75 - 100
18		960	2790 - 2810	668 - 679	71 - 74
19		990	2690 - 2780	656 - 667	67 - 70
20		1030	2590 - 2680	644 - 655	63 - 66
21		1060	2480 - 2580	632 - 643	59 - 62
22		1100	2400 - 2470	620 - 631	54 - 58
23		1130	2310 - 2390	608 - 619	50 - 53
24		1160	Passing scores required		

*Sum of Evidence-Based Reading and Writing score and Math score.

Information on taking the GED can be found at ged.com (<https://ged.com/>).

Information on taking the HiSET can be found at hiset.ets.org (<https://hiset.ets.org/>).

Students are encouraged to begin the process at least six months prior to the beginning of the semester for which they plan to apply.

Admission Policy for Homeschooled Students

[Op5.01-6 Admission Policy for Homeschooled Students \(/Policy/Op5_01_6_AdmissionPolicyforHomeschooledStudents.htm\)](#)

Missouri State University welcomes and encourages the enrollment of qualified homeschooled students. We recognize the commitment that homeschooled students and their families make in completing their high school education. Missouri State University counts many graduates of home school programs among its current students and alumni.

Homeschooled students are evaluated for admission under the [freshman admission policy \(/Policy/Op5_01_3_FreshmanAdmissionRequirements.htm\)](#), as are other students and thus must meet both the core curriculum requirement and selection index requirement.

Homeschooled students are expected to provide detailed transcripts similar to those provided for traditionally-schooled students. The transcript must include

the name of each class, the semester in which it was taken, the amount of credit it is worth, and the grade received. It should also include a cumulative grade point average. Transcripts sent prior to graduation must also include in-progress courses. A cumulative GPA must also be provided. The final transcript must show a graduation date. The University may request additional information or documentation to supplement the transcript.

Students who chose to obtain a high school equivalency diploma, for example by taking the High School Equivalency Test (HSET), may qualify for admission under our [admission policy for students with a high school equivalency diploma \(/Policy/Op5_01_5_AdmissionforStudentsWithHighSchoolEquivalencyDiploma.htm\)](/Policy/Op5_01_5_AdmissionforStudentsWithHighSchoolEquivalencyDiploma.htm). This is **not** a requirement of homeschooled students seeking admission.

In all other respects, policies that apply to graduates of traditional high schools also apply to homeschooled students, including the option of seeking admission through our [freshman admission alternatives policy \(/Policy/Op5_01_1_FreshmanAdmissionAlternatives.htm\)](/Policy/Op5_01_1_FreshmanAdmissionAlternatives.htm).

Nondegree-Seeking Student Policies

[Op5.01-7 Nondegree-Seeking Student Policies \(/Policy
/Op5_01_7_NondegreeSeekingStudent.htm\)](#)

Before you register for a credit class(es), you must be admitted to Missouri State University for the term (or semester) in which you wish to take the class.

Continuing students who have been at Missouri State University within the past three terms, counting summer, are automatically admitted for the term, assuming you are in good academic standing.

Admission action is needed for the following:

- new students (have never attended MSU)
- readmit students (attended MSU at some time in the past, but not in the past three terms)
- students switching from nondegree-seeking to degree-seeking or vice

versa.

Readmission Policy

[Op5.01-8 Readmission Policy \(/Policy/Op5_01_8_Readmission.htm\)](#)

This section deals with the issues and concerns related to students who have previously attended Missouri State.

If you are a student who has attended Missouri State University as an undergraduate degree-seeking student and wish to return to MSU in that same classification **and** you have been out of classes for over one academic year, you will need to **reapply** to Missouri State. You may use the [online reapplication](https://prodssb.missouristate.edu/PROD/bwskalog.P_DisplLoginNon) (https://prodssb.missouristate.edu/PROD/bwskalog.P_DisplLoginNon) to do this and choose the **readmit application**. If you have not attended classes anywhere since you left Missouri State, and you completed the admission process when you last attended here, this is all we need in order to process your readmission and get you ready to register. If you have attended classes somewhere since you left here, we will have to have those transcript(s) sent to us so that we can process your application.

The above procedure is also applicable to those students who may have left Missouri State on probation or suspension. You may review the [reinstatement](#)

[policy](#) ([/Registrar/Catalog/acstat.htm](#)) in the catalog.

If you are a student who attended Missouri State University as a nondegree-seeking student and now wish to reapply as a degree-seeking student, please get an application from the [Office of Admissions](#) ([/Admissions/contact.htm](#)). There is not a “reclassification” application available on the web at this time. You will be required to meet the admission requirements as a degree-seeking student and provide the Office of Admissions with all transcripts necessary to process your application.

Registration information can be found on the [Office of the Registrar website](#) ([/Registrar/registration.htm](#)).

Transfer Admission Policy

[Op5.01-9 Transfer Admission Policy \(/Policy/Op5_01_9_TransferAdmission.htm\)](/Policy/Op5_01_9_TransferAdmission.htm)

You are considered a transfer student for admission purposes if you have enrolled in another regionally accredited college or university following your graduation from high school (excluding the summer immediately following your high school graduation), regardless of the number of credit hours you completed. Your eligibility for admission will be based on the number of transferable credit hours you have earned. Transferability of credit is determined by our [undergraduate transfer credit policy \(/Policy/Op3_04_45_UndergraduateTransferCredit.htm\)](/Policy/Op3_04_45_UndergraduateTransferCredit.htm).

If you have earned 24 or more hours of transferable credit following your graduation from high school, then you will qualify for admission if you have a cumulative grade point average of 2.00 or higher on your transferable credit.

If you have earned fewer than 24 hours of transferable credit following your graduation from high school, then you must meet our [freshman admission requirements \(/Admissions/apply.htm\)](/Admissions/apply.htm). You will also be required to participate in our freshman orientation program.

Students are required to provide transcripts from each regionally-accredited college or university where they have enrolled as part of the admission process.

Disability Accommodation Policy for Students

[Op5.05-1 Disability Accommodation Policy for Students \(/Policy/Op5_05_1_Accommodation.htm\)](#)

Policy statement

MSU perceives students with disabilities as a valued identity group and integral to our campus diversity. We strive to proactively create usable, equitable, inclusive learning environments. However, due to the design of a University course or program, students with disabilities may experience barriers to their full and meaningful participation. When this occurs students should request an environmental or course adaptation through the process outlined below. It is the policy of Missouri State University to comply with all applicable federal and state laws prohibiting disability discrimination.

The Disability Resource Center (DRC) is the University office responsible for the

evaluation and implementation of reasonable accommodations based on a disability. The DRC provides resources and collaborates with all students with disabilities. The DRC is the entry point for all disability resources and accommodations for the Springfield Campus. Students interested in receiving a reasonable accommodation must contact the DRC information: Meyer Library, Suite 111, 417-836-4192 (voice) or 417-836-6792 (TTY), [MissouriState.edu/Disability/\(Disability/\)](https://MissouriState.edu/Disability/(Disability/)).

On the West Plains and Mountain Grove Campuses, students should contact the **Advisement and Academic Coaching Center for Empowering Student Success (AACCESS)**, 128 Garfield, 417-255-7222, WPAACCESS@MissouriState.edu (mailto:WPAACCESS@MissouriState.edu).

Requesting accommodations

Students with disabilities who experience or anticipate barriers to their participation are encouraged to request accommodations by going through the following process. Students should request accommodations as soon as a barrier to participation is anticipated as accommodations cannot be provided retroactively. Distance learning students should follow this same accommodation process.

Students with disabilities should contact the DRC for an appointment. The purpose of the appointment is to discuss the barriers the student has experienced or anticipates.

Students should then complete the online [request for accommodation form](https://bear.accessiblelearning.com/MissouriState/ApplicationStudent.aspx) (<https://bear.accessiblelearning.com/MissouriState/ApplicationStudent.aspx>) and submit it. Students may also fill out a hardcopy form through the appropriate resource office.

Email Communications

[Op12.02-4 Email Communications \(/Policy/Op12_02_4_EmailCommunications.htm\)](#)

Definitions

Email communications: A method of exchanging messages between people using electronic devices. Email communications typically cross computer networks, primarily the Internet.

Email spam: Unsolicited message sent to more than 250 recipients that meets any of the following criteria:

- Irrelevant or inappropriate to the majority of recipients.
- Does not pertain to university business.

Mass email: message sent to an entire group of one or more of the following: faculty, staff, students, emeritus and/or alumni.

Targeted email: message directed to specific people based on a variety of attributes, including but not limited to, members of groups, role at the university,

declared major, course participant, etc.

Policy statement

Email is an official means of communication for Missouri State University. Unless law, contract, or other university policy prohibits email communication or requires another form of communication, Missouri State University may send email communications to faculty, staff, students and others within the university community to their Missouri State University email address. It is expected these emails will be read by recipients within a reasonable amount of time, as some email communications may be time-sensitive. All individuals assigned a Missouri State University email account are expected to use and maintain their email account.

Archiving

For records management purposes, the university will take technical measures to ensure emails sent or received by certain key decision-makers are preserved, including:

- Officers of the university;
- University employees delegated contracting authority to commit university resources of \$25,000 or greater; and
- Other individuals designated by the president, general counsel, director of internal audit and risk management, and/or the chief information officer.
- Additionally, at any time, emails sent or received by any member of the campus community may be preserved for purposes of investigation, liability analysis, litigation, and/or other legal analysis at the discretion of the general counsel.

Email spam

Use of the university's network and associated resources to distribute email spam is prohibited.

Mass email

- Mass emails may be sent by the office of the president, office of the provost, vice president for student affairs, vice president for administrative services, CIO, CFO, computer services, strategic communication, web strategy and development or university safety.
- Mass emails must be approved by the president, office of the provost, vice president for student affairs, vice president for administrative services, CIO, CFO, vice president for marketing and communications or the director of university safety.
- The vice president for marketing and communications sets the [guidelines and procedures](#) for mass emails.

Targeted email

- Each [officer of the university](#) shall develop a process for approving targeted emails within his/her unit that ensures appropriate use and content.
- The dean of a college is authorized to send and approve targeted emails to students who are majoring in programs offered by the college or who are enrolled in courses offered by departments in that college.
- Academic department heads are authorized to send and approve targeted emails to students who are majoring in programs offered by that department or who are enrolled in courses offered by the department.
- If a department/unit wishes to send an announcement to faculty (or a subset of faculty), they must seek the approval of the office of the provost.
- If a department/unit wishes to send an announcement to staff (or a subset of staff), they must seek the approval of the vice president for administrative services.
- If a department/unit wishes to send an announcement to students (or a subset of students), they must seek the approval of the vice president for student affairs.
- Colleges and departments should work with the computer services management information systems unit for creation of distribution lists that include the desired recipients.

- The Chair of the Faculty Senate is authorized to send and approve targeted emails to faculty in order to conduct Faculty Senate business.

Violation of this policy may result in suspension of email privileges and/or other computing resources.

Equal Opportunity and Affirmative Action Policy

[Op1.02-6 Equal Opportunity and Affirmative Action Policy \(/Policy/
/Op1_02_6_EOAAPolicy.htm\)](#)

I. Statement of principles and values

Missouri State University is committed to diversity as a core institutional value and responsibility. Diversity is central to providing and retaining a quality educational environment. As a public affairs institution, the University must develop educated persons who are equipped to contribute to the interdependent world in which we now live. The ability to adapt to rapid economic, social, and cultural changes is imperative. An understanding of diverse cultures and societies has not only become necessary to function in today's workplace, it also enriches one's life and work.

Missouri State University is committed to programs and practices that assure an environment free of the barriers of discrimination in education and employment

and that establish a collegial and just community. To achieve this end, Missouri State University views, evaluates, and treats all persons in any University-related activity or circumstance in which they may be involved, solely as individuals on the basis of their own personal abilities, qualifications, and relevant characteristics.

II. Statement of policy

Non-discrimination Policy

Missouri State University is a community of people with respect for diversity. The University emphasizes the dignity and equality common to all persons and adheres to a strict non-discrimination policy regarding the treatment of individual faculty, staff, and students. In accord with federal law and applicable Missouri statutes, the University does not discriminate on the basis of race, color, national origin (including ancestry, or any other subcategory of national origin recognized by applicable law), religion, sex (including marital status, family status, pregnancy, sexual orientation, gender identity, gender expression, or any other subcategory of sex recognized by applicable law), age, disability, veteran status, genetic information, or any other basis protected by applicable law in employment or in any program or activity offered or sponsored by the University. Sex discrimination encompasses sexual harassment, which includes sexual violence, and is strictly prohibited by Title IX of the Education Amendments of 1972.

This policy shall not be interpreted in a manner as to violate the legal rights of religious organizations or of military organizations associated with the Armed Forces of the United States of America.

The University maintains a grievance procedure incorporating due process available to any person who believes he or she has been discriminated against. Missouri State University is an Equal Opportunity/Affirmative Action/Minority/Female/Veterans/Disability/Sexual Orientation/Gender Identity employer. Inquiries concerning the complaint/grievance procedure related to sex discrimination, including sexual harassment and sexual assault, should be addressed to the [Title IX Coordinator \(/TitleIX/\)](#), Carrington Hall 205, 901 S.

National Ave., Springfield, Missouri 65897, TitleIX@MissouriState.edu (<mailto:TitleIX@MissouriState.edu>), [417-836-8506](tel:+1-417-836-8506) (tel:+1-417-836-8506), or to the Office for Civil Rights. All other inquiries concerning the grievance procedure, Affirmative Action Plan, or compliance with federal and state laws and guidelines should be addressed to the Equal Opportunity Officer, [Office for Institutional Equity and Compliance \(/Equity/\)](#), Carrington Hall 205, 901 S. National Ave., Springfield, Missouri 65897, Equity@MissouriState.edu (<mailto:Equity@MissouriState.edu>), [417-836-4252](tel:+1-417-836-4252) (tel:+1-417-836-4252), or to the Office for Civil Rights. (Res. Board Policies No. 70-11; Bd. Min. 10-28-11.)

Reasonable Accommodations

Missouri State University provides reasonable accommodations that allow applicants, employees, or qualified individuals with disabilities to perform the essential functions of a position.

Reasonable accommodations will be made unless such accommodations have the end result of placing an undue burden on the operations of the University. If reasonable accommodations would cause undue hardship or burden because of costs, the individual with a disability shall be given the option of providing the accommodation themselves or paying for the portion of the cost that poses the undue hardship or burden. Employees needing accommodations should contact their supervisor or department head, or seek assistance from the following offices at their campus:

Springfield: [Office for Institutional Equity and Compliance \(/Equity/\)](#)

Mountain Grove: [Office for Institutional Equity and Compliance \(/Equity/\)](#)

West Plains: [Director of University/Community Programs](#)

(<http://wp.missouristate.edu/ucp/>)

All other Locations: [Office for Institutional Equity and Compliance \(/Equity/\)](#)

III. Programmatic responsibility

The President of Missouri State University is charged with overall responsibility for the successful implementation of Missouri State University's equal opportunity, equal access, and affirmative action policies.

Under the authority and supervision of the President, the Equal Opportunity Officer is responsible for developing system-wide policies pertaining to equal opportunity, equal access, and affirmative action in cooperation with other University officers. The Equal Opportunity Officer is responsible for all aspects of the University system's Affirmative Action and Equal Opportunity Compliance Programs to ensure compliance with applicable laws and regulations (e.g., Executive Order 11246, Title VI and Title VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Title IX of the Higher Education Act of 1972, the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990, Vietnam Era Veterans Readjustment Assistant Act of 1974, and Age Discrimination in Employment Act of 1967 as amended). The Equal Opportunity Officer serves as a liaison with the Provost, Vice Presidents, members of the Academic Council, and other Missouri State University administrators in monitoring and recommending policies and procedures regarding equal employment and educational opportunities for faculty, staff, and students. The Equal Opportunity Officer also serves as the University's Americans with Disabilities Act Coordinator.

IV. Authority and accountability

The objectives of Missouri State University's equal opportunity, equal access, and affirmative action policies are to provide fair and consistent treatment for all members of the University community. The University is committed to increasing the recruitment, selection, and promotion of faculty and staff at the University who are racial or ethnic minorities, women, qualified individuals with disabilities, or Vietnam-era veterans. Correspondingly, the University is committed to policies and programs that increase the diversity of the student body.

The primary responsibility for achieving these objectives rests with the Provost, Vice Presidents, Chancellors, Deans and other senior administrators. The Provost, Vice Presidents, Chancellors, and Deans are responsible for: establishing goals and action-oriented programs within their units and integrating equal opportunity, equal access, and affirmative action principles and objectives into all decisions within their areas of responsibility. The Provost, Vice Presidents, Chancellors, Deans and other senior administrators are also

responsible for reviewing recommendations for hiring, compensation, promotion, transfer or reassignment, and termination to ensure compliance with the University's affirmative action program in both procedure and outcome, and for reviewing the qualifications of applicants and reasons for selection to ensure that minorities, women, and persons with disabilities are given full opportunities for hire and promotion.

Department Heads, directors, and supervisors throughout the University system are responsible for promoting equal employment opportunity and making good faith efforts to achieve affirmative action goals.

Evaluations of administrators and supervisors will include their equal employment opportunity, equal access, and affirmative action efforts and results.

V. Additional requirements of Affirmative Action programs

As a federal contractor, Missouri State University is required to develop and maintain a written affirmative action program, which is a set of specific results-oriented actions and procedures to which the University commits itself. These programs must be updated annually. Affirmative action programs for Missouri State University are available for inspection in the Office for Institutional Equity and Compliance, the Office of Human Resources, the Office of the Provost and each vice president and chancellor. The full Affirmative Action program, absent the data metric required by Section 60-741.44(k) shall be made available to employees electronically, upon request, so long as the requester is able to access the electronic version of the AAP. [Part 60-741.41]

Missouri State University shall conduct an annual self-analysis of its outreach and recruitment efforts for qualified individuals who are disabled and who are veterans.

Missouri State University shall document all of its outreach and recruitment efforts and document and retain such records for 3 years

Audits of the University Affirmative Action Program shall be consistent with

Office of Federal Contract Compliance Programs standards as established by federal law.

Expressive Activity Policy

G5.02 Expressive Activity Policy (https://www.missouristate.edu/Policy/G5_02_ExpressiveActivity.htm)

Missouri State University is committed to providing an environment where issues can be openly discussed and explored. The freedom to exchange views is essential to the mission of the university. This policy is in place to provide a community environment in which open discussion can occur without disrupting the academic mission or daily university functions, subject to constitutional time, place, and manner limitations and without unconstitutionally interfering with the rights of others.

All individuals may exercise the right of assembly, free speech, and expression throughout the outdoor areas of campus, when doing so does not disrupt the academic mission or daily university functions, and is consistent with university policy regarding time, place, and manner limitations. Expressive activities will not be limited to any specific outdoor areas on the university campus. However, the right of assembly and expression does not include unlawful activity that

endangers the safety of the campus community or that destroys university property. Expressive activities are not to unduly disrupt traffic, either vehicular or pedestrian, or violate other time, place, and manner parameters specified in this policy.

The following three locations on campus are most appropriate for outdoor forums, rallies, demonstrations and other similar activities:

1. The Bear Paw, located in the North Mall
2. Trottier Plaza, located at the northwest entrance to Robert W. Plaster Stadium
3. Strong Hall Amphitheater, located outside the east entrance to Strong Hall

Individuals are not restricted to these outdoor locations for expressive activities. Priority to use the aforementioned locations will be as follows:

1. Members of the university community with a reservation
2. Other individuals or groups with a reservation
3. Members of the university community without a reservation on a first come, first serve basis
4. Other individuals or groups without a reservation on a first come, first serve basis

Any member of the university community may reserve one of these locations through the [Event and Meeting Services Office](https://www.MissouriState.edu/Conferences/) (<https://www.MissouriState.edu/Conferences/>) (417-836-5653). All other individuals or groups may reserve one of these locations by registering with the [Office of University Safety](https://www.MissouriState.edu/Safety/) (<https://www.MissouriState.edu/Safety/>) (417-836-5509). The university encourages everyone to coordinate with the Office of University Safety before conducting expressive activity on campus so appropriate arrangements can be made.

Amplification shall be limited to activities held at the Bear Paw and will be permitted only for individuals or groups who have reserved the Bear Paw. Amplification levels must not unreasonably interfere with the university's daily operations, and shall not be permitted during the university's final examination periods.

Time, place and manner parameters

This policy will be construed and applied on a content neutral basis. The following is a list of parameters for the time, place, and manner of activities that apply to all expressive activities on campus:

- The activity may not violate local ordinances or state or federal laws.
- The activity may not unduly disrupt traffic, either vehicular or pedestrian, or interfere with the ingress or egress to or from any building.
- The activity may not create unreasonable safety risks.
- Participants in the activity must not carry or bring to the activity the following items: weapons of any kind (including but not limited to those defined in Missouri Revised Statute § 571.010), ammunition, explosives, body armor, helmets, mace/pepper spray, masks, vehicles (including but not limited to motorcycles, automobiles, all-terrain vehicles, golf carts and bicycles), torches, and any other item identified by the university as increasing the risk of injury to event attendees and the campus community, including without limitation, any item identified in [Op1.01-1 University Rules for Speakers and Facilities Usage](#).
- The activity may not deface or destroy, or create an unreasonable risk of defacing or destroying, university or other property.
- Noise levels are not to interfere with classes, meetings, campus events or operations and activities on campus. Amplification equipment shall be limited to activity held at the *Bear Paw* with a reservation. Moreover, amplification shall not be permitted during the university's final examination periods.
- No event may exceed 8 hours in length in a 24 hour day.
- The location will be left in its original condition at the conclusion of the event, and reasonable charges or deposits may be imposed to enforce this requirement.
- Expression that is obscene, defamatory, or consists of fighting words, threats of physical harm, incites imminent lawless action, or is otherwise not entitled to protection as expression is not permitted.

Generally, indoor university spaces are not appropriate for forums, rallies,

demonstrations, or similar activities; however, such activities may be permitted inside university facilities (excluding university residence halls and apartments, Greenwood Laboratory School, and university's entertainment and athletic facilities) to the extent that such activities:

- Are silent demonstrations (e.g., "sit-ins")
- Do not interfere with the reasonable operations of the specific indoor space
- Comply with campus instruction
- Do not extend beyond the business hours of the university's indoor space, or
- Do not otherwise violate any policy of the university, including this Expressive Activity Policy.

Objections to expressive activities

The university recognizes that individuals or groups may be opposed to certain expressive activities or speakers. Disagreement with different opinions is acceptable; however, use of violence or violation of law or university policy is counter to creating an environment where issues can be openly discussed. An individual or group wishing to protest an event is subject to the same standards as the presenters. Individuals who choose to listen bear the responsibility of recognizing and honoring the right of free speech.

Response to violations

Violations of this policy may result in removal from campus, police arrest, and/or criminal charges. Members of the university community are subject to judicial review and disciplinary sanctions. Students will be subject to procedures established in the Code of Student Rights and Responsibilities. Faculty and staff disciplinary procedures will be processed according to guidelines established in the Faculty Handbook and the Employee Handbook. Any police arrest and criminal charges of students, faculty, or staff are separate from university judicial review or disciplinary sanction.

Related policies

All commercial expressive activities will be subject to the restrictions found in this policy and the restrictions found in the [Commercial Advertising, Sales, Solicitation and Facilities Usage Policy](https://www.missouristate.edu/Policy/Op1_01-commercial-advertising-sales-solicitation-facilities-usage-policy.htm) (https://www.missouristate.edu/Policy/Op1_01-commercial-advertising-sales-solicitation-facilities-usage-policy.htm).

Policy Library

FERPA/Confidentiality of Student Education Records

[Op5.11-1 FERPA/Confidentiality of Student Education Records \(/Policy/Op5_11_1_FERPA_Confidentiality_of_Education_Records.htm\)](#)

Missouri State University adheres to a policy of compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), 20 U.S.C. 1232g. Eligible students have four primary rights under FERPA including the right to:

1. Right to Records Inspection

A student has a right to inspect and review any education record permitted under this policy. Education records are maintained in a number of university offices. Requests to review records must be made in writing to the responsible official of each office which maintains the records (or to the university registrar) who shall comply with a request within 45 days upon receipt. When a record contains personally identifiable information about

more than one student, a student may inspect only that information which relates to the student.

The university reserves the right to refuse to permit a student to inspect the following records:

- a. Financial records of the student's parents
- b. Confidential letters and statements of recommendation for which the student has waived the right of inspection and review
- c. Records connected with an application to attend the university or a component unit of the university if that application was denied
- d. Those records which are excluded from the FERPA definition of education records

2. Right to Consent to Disclosure of Personally Identifiable Information

The university will not release personally identifiable information in education records or allow access to those records except to the extent that FERPA authorizes disclosure without consent, including but not limited to the following:

- a. The individual student
- b. Whomever the student authorizes by providing the institution with a written release (release must be written, signed and dated, and must specify the records to be disclosed and the identity of the recipient)
- c. Any party requesting directory information (unless the student has a FERPA hold)
- d. Missouri State University officials who have a legitimate educational interest
- e. Officials of other schools in which a student seeks or intends to enroll or is enrolled
- f. Parents if parents claim the student as a dependent for tax purposes. The university will exercise this option only on the condition that evidence of such dependency is furnished to the office of the registrar and all requests for disclosures are referred to that office
- g. Persons in connection with a health or safety emergency
- h. An alleged victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense in connection with a Disciplinary Proceeding
- i. Parents regarding alcohol and drug violations of a student under 21 years of age

j. As otherwise provided in 20 U.S.C. 1232g(b) and 34 CFR Sec. 99.31

3. Right to Request an Amendment to Educational Records

A student who believes that information contained in the student's education record is inaccurate, misleading or violates privacy or other rights may request that the records be amended. The responsible official shall then decide whether or not to amend the record. If the record is not amended, the student will be advised of the right to a hearing.

Challenge Hearing Procedures

In most cases, the decision of the responsible official will be final. However, a student may elect to file an appeal in writing to the office of the registrar in order to challenge the content of the educational record. (The right to challenge grades does not apply unless the grade assigned was inaccurately recorded, under which condition the record will be corrected.)

- a. A disinterested hearing officer will be appointed who shall afford the student full opportunity to present evidence in support of the challenge.
- b. The hearing shall be held within a reasonable period of time, not to exceed thirty (30) days under normal circumstances, after the institution has received the request, and the student shall be given notice of the date, place and time reasonably in advance of the hearing.
- c. The student shall be afforded a full and fair opportunity to present evidence relevant to the issues, and may be assisted or represented by individuals of the student's choosing at the student's expense, including an attorney.
- d. The hearing officer shall render a decision within a reasonable time after the hearing, not to exceed thirty (30) days, and inform the student in writing of the outcome.
- e. The decision shall be based solely upon the evidence presented at the hearing and shall include a summary of the evidence and the reasons for the decision.
- f. If the hearing officer decides that the record is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, the student shall then have the right to place in the education record a statement commenting upon the information in the education

record and/or setting forth any reasons for disagreeing with the decision of the hearing official. Any such written explanation then becomes a part of the education record.

- g. If the education records of the student or the contested portion thereof are disclosed to any party, the explanation shall also be disclosed to that party.

4. Right to File a Complaint

Students have the right to file a complaint with the U.S. Department of Education if they believe that the university has failed to comply with the requirements of FERPA. The complaint should be in writing and sent to: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-8520.

Additional Right to Limit Disclosure of Directory Information

In addition to the four primary rights described above, currently enrolled students have the right to suppress disclosure of their directory information.

Directory information may be available through the following:

- Online directory (People Search)

A [request to exclude information from the online directory](#) may be completed by currently enrolled students.

- University Email Address Book

Currently enrolled students may request to exclude information from the University Email Address Book by submitting a FERPA Hold Request Form to the office of the registrar. This hold will remain applicable until the student submits a written request specifying otherwise. The University Email Address Book may include the student's name, email address, Instant Messenger address, classification and major.

- Sunshine Law Requests

In accordance with the Missouri Sunshine Law, the university is required to release student directory information. To be excluded from all Sunshine Law requests, students must submit a FERPA Hold Request Form by the end of the second week of the semester. This hold does not apply

retroactively to previous releases of directory information and will remain applicable until the student submits a written request specifying otherwise. To request a FERPA Hold, students must submit the FERPA Hold Request Form to the office of the registrar. General requests for student addresses will be fulfilled by providing one address for each student based on availability according to the following hierarchy: (1) residence hall; (2) current mailing and (3) primary/permanent. General requests for student telephone numbers will be generated in similar fashion.

Definitions

A student is an individual with respect to whom the university maintains education records or personally identifiable information and who is or who has been in attendance at the university. A student does not include a person who has not been in attendance.

In attendance means a student is officially registered for at least one class and that class has started.

Directory information may appear in public documents and may otherwise be disclosed by the university for any purpose in its discretion, without the student's consent. The following categories of information have been designated as directory information at Missouri State University:

1. Name (current, former, and chosen)
2. Address (residence hall, current and primary/permanent)
3. Telephone number*
4. Campus email address
5. Field of study, including majors, minors, certifications and pre-professional areas of study
6. Classification (e.g., sophomore)
7. Enrollment status (e.g., full-time, part-time or less than part-time)
8. Participation in officially recognized activities and sports, including photographs of athletes
9. Dates of attendance, including matriculation, drop and withdrawal dates
10. Degrees and certificates applied for and/or received including award date

11. Awards received, including Dean's list, scholastic honors, departmental honors, memberships in national honor societies, athletic letters and university-funded scholarships (excluding those that are need-based)
12. Previous education institutions attended

*Cell phone numbers, unless provided as a current or primary/permanent telephone number, are not considered directory information.

Contact information provided exclusively for purposes of the emergency notification system is not considered directory information.

Education records include those records which contain information directly related to a student and which are maintained by the university or by a person acting for the university. In accordance with FERPA guidelines, the following are *not* education records: law enforcement records, student employment records, medical records, and alumni records. The regulations also exclude from the definition of education records any record that is in the sole possession of the maker of the record where the record is used only as a personal memory aid for the maker and the record is not accessible or revealed to any other person (except a temporary substitute for the maker of the record).

Legitimate educational interest is the need to review an education record in order for a university official to: perform an administrative task outlined in the official's duties; perform a supervisory or instructional task directly related to the student's education; or perform service or benefit for the student such as health care, job placement or financial aid.

A university official is a person employed by the university in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff). Also considered university officials are members of the Board of Governors, a person or company with whom the university has contracted (such as an attorney, auditor or collection agent), temporary employees, student workers, and graduate assistants employed by the university.

Deceased Student Records

FERPA rights cease upon death; however, with the approval of the registrar, educational records may be released to the student's family or others with a demonstrated legitimate interest. Documentation may be required.

For Additional Information

Additional information is available on the [office of the registrar website \(/Registrar/FERPA.htm\)](#). If you have any questions regarding this policy or if you feel that your rights under FERPA are being violated, please contact the office of the registrar at 901 South National Avenue, Springfield, MO 65897 or call [417-836-5520](tel:+1-417-836-5520) (tel:+1-417-836-5520).

Academic Policies and University Requirements

Academic policies

In addition to satisfying all degree requirements below, students should be familiar with the University's [Academic Policies and Procedures](#). ([Registrar/Catalog/acreg.htm](#)). These policies may change from year to year and such changes apply to *all* future, current, continuing, and returning students. Students are encouraged to consult with their academic advisor or the Office of the Registrar if they have questions regarding an academic policy.

All Missouri State University policies regarding courses, programs, program accreditation, academic regulations and degree requirements are applicable regardless of delivery method or location.

Components of a degree program

1. [General Education Program](#)
2. A major is the student's primary area of specialization. Many majors have options which are sub-sets of courses within the major that represent an even more specialized area of study. Students who select a major with options must choose from one of the options.
3. A minor is the student's secondary area of specialization. Minors are required for all Bachelor of Arts and Bachelor of Science non-comprehensive majors and are optional for comprehensive majors and all other degrees.
4. The [General Baccalaureate Policies and Degree Requirements](#) include such requirements as catalog of graduation policy, total hours, upper division, GPA, and residence requirements.
5. All Bachelor of Arts degrees require a [27-hour core of courses](#).
6. All Bachelor of Science in Education and Bachelor of Music Education degrees require completion of the [Teacher Education Program](#) requirements.

Academic Integrity Procedures Summary

[Op3.02 Academic Integrity Procedures Summary \(/Policy/Op3_02_AcademicIntegritySummary.htm\)](#)

1. Instructor / Student Discussion: Ideally in the first step, the instructor and student meet face-to-face as soon as possible to discuss the apparent violation of the AI policy. In this, the instructor presents the student with allegation of academic dishonesty and any evidence supporting that allegation, and informs the student of intended sanction(s), consistent with those specified in the course syllabus. The student presents evidence of his/her innocence. [GO TO #2]

***Special Case: Student Not Associated With Enrollment in a Course:** Any incident of alleged academic dishonesty by a student not enrolled in a particular course should be reported directly to the Academic Integrity Council (AIC) Chair. [GO TO #4]

2A. No AI Violation Occurred: If, after this meeting, the instructor believes that no violation had occurred, the allegation(s) will be dropped. The case ends here. [STOP]

OR

2B. Violation of the AI Policy has Occurred: If the instructor still believes that the AI policy has been violated by the student, he/she must complete the violation-reporting form (available on the [Academic Integrity website \(/AcademicIntegrity/\)](#)) which provides the student with a written summary of the alleged incident and the intended sanction(s). Copies are sent to the instructor's Department Head, the AIC Chair, and the Office of the Provost to be maintained as part of AIC records.

The student has one week from the receipt of this letter (form) in which to notify the Department Head if he/she plans to appeal the instructor's accusation/sanction.

When a report of academic dishonesty is filed with the AIC, the student will receive another letter, copied to the instructor and the Department Head. This letter will verify that a report has been received from the instructor and indicate how it will be used, affirm the confidentiality of the report, reiterate the student's right to appeal, and recommend that the student review the university's AI policy. [GO TO #3]

3A. No appeal to the Department Head: Records are maintained, and the sanction(s) indicated by the instructor is(are) enforced. [STOP]

OR

3B. Appeal to Department Head: Upon receipt of the student's written appeal, the Department Head will meet separately with the student and the instructor. The Department Head must notify the instructor and the student in writing of his/her decision, and must inform the instructor and the student that **either** may appeal the Department Head's decision (in writing) to the AIC Chair within fifteen (15) academic days (days when classes are in session) from the date of the Department Head's letter. The Department Head must send a detailed report of his/her decision along with pertinent documents to the AIC Chair and the Office of the Provost. [GO TO #4]

4A. No appeal to the Academic Integrity Council: Records are maintained, and the sanction(s) indicated by the instructor is(are) enforced. [STOP]

OR

4B. Appeal to the Academic Integrity Council: The Chair of the AIC will assemble a five-member panel of faculty and student members of the Council to hear the appeal, and will notify the student, the instructor, and the Department Head in writing fifteen (15) academic days prior to the proceeding (whenever possible). An Academic Integrity Proceeding is an academic process unique to a community of scholars and is not modeled on criminal or civil legal proceedings; however, a student against whom an allegation has been lodged may be accompanied by an advisor (with prior approval from the AIC Chair). The advisor may be an attorney, but does not address the panel. [STOP]

Important note:

No grade-related sanction may be imposed until a student admits misconduct and/or forgoes appeal rights, or is found in violation after a formal proceeding. **The student must be allowed to continue attending the class in which dishonesty has been alleged until the right of appeal has been exhausted.** If an academic integrity matter is pending at the end of a semester, the instructor must assign an Incomplete (I) in the course until the matter is resolved. **A student cannot avoid a failing grade by dropping the course.** The instructor can impose a sanction of "F" or "XF" even if the student drops the class, including drops that occur prior to the no-penalty drop deadline. (See below for further information on this process.)

Reporting academic dishonesty

Anyone who has witnessed an apparent act of student academic dishonesty, or has information that reasonably leads to the conclusion that such an act has occurred or has been attempted, is strongly encouraged to report said act. Acts of apparent academic dishonesty that occur in the classroom may be reported directly to the course instructor, the instructor's Department Head, and/or the instructor's College Dean. Incidences of apparent academic dishonesty may also be reported directly to the Academic Integrity Council by contacting the Chair of the Council at 417-836-5169. Anonymous reports will not be accepted, but the identity of any person reporting a suspected instance of academic dishonesty will be held in strict confidence.

Academic Integrity records

Academic Integrity records are subject to the Family Educational Rights and Privacy Act (FERPA) and our Policy Regarding Personally Identifiable student Records. Academic Integrity records are maintained in the Office of the Provost.

Sanctions

Possible sanctions available to instructors include (but are not limited to):

- Denying credit on the assignment/exam
- Requiring additional assignments/exams
- Lowering the student's course grade
- Issuing a failing course grade of "F"
- Issuing a failing course grade of "XF," indicating failure due to academic dishonesty
- Completing the AI Policy On-line Tutorial

Course policy statement

The syllabus/course policy statement is very important in determining sanctions that can be imposed. Syllabi may reflect the instructor's personal views and class policies, but syllabi must also be consistent with the university's student *Academic Integrity Policies and Procedures*.

Following is suggested syllabus wording. This recommended wording allows an instructor to impose all sanctions available under the university policy, including the grade of "XF."

"MISSOURI STATE UNIVERSITY IS A COMMUNITY OF SCHOLARS COMMITTED TO DEVELOPING EDUCATED PERSONS WHO ACCEPT THE RESPONSIBILITY TO PRACTICE PERSONAL AND ACADEMIC INTEGRITY.

STUDENTS ARE RESPONSIBLE FOR KNOWING AND FOLLOWING THE UNIVERSITY'S STUDENT ACADEMIC INTEGRITY POLICIES AND PROCEDURES ([./AcademicIntegrity/policies-and-procedures.htm](https://academicintegrity/policies-and-procedures.htm)).

THE COMPLETE DOCUMENT IS AVAILABLE AT THE RESERVES DESK IN MEYER LIBRARY. ANY STUDENT PARTICIPATING IN ANY FORM OF ACADEMIC DISHONESTY WILL BE SUBJECT TO SANCTIONS AS DESCRIBED IN THIS POLICY.

Assigning the "XF" grade

A grade of "XF" cannot be assigned via the on-line grade submission process. To assign a grade of "XF," the instructor must send a memo stating the intention to assign an "XF" grade to the AIC Chair, and the Office of the Provost with a copy to the Department Head. A memo must also be sent if the instructor wishes to assign an "F" grade to a student who dropped the class before the no-penalty deadline. The Office of the Provost will then notify the Records Office.

Note: After a time period of at least 12 months, a student may petition to the AIC to have the "XF" removed from the transcript and replaced with a grade of "F." The decision to remove the grade of "XF" and replace it with an "F" shall rest in the discretion and judgment of a majority of the entire AIC, which will undertake a review of the records in the case, and may include additional requirements before granting the petition.

Revoking a grade/degree

If an instructor discovers academic dishonesty after final grades have been assigned and wishes to retroactively impose an “F” or “XF” grade for the course as a sanction, the instructor must send written notification to the AIC, and the Office of the Provost, with a copy to the instructor’s Department Head and Dean; and in the case of a Graduate student, with a copy to the Dean of the Graduate College. This written notice must be received by the AIC within five (5) calendar years. However, alleged academic dishonesty may be reported to the AIC regardless of how much time has passed since the alleged act. If retroactively failing a class due to academic dishonesty means that a graduated student no longer has met the requirements of the degree, the university may revoke said degree. Refer to the student *Academic Integrity Policies and Procedures* for further information.

Academic Renewal

Note: students who choose Academic Renewal may be ineligible for financial aid. Check with the [Financial Aid Office](#) ([/FinancialAid/](#)) before deciding if Academic Renewal is right for you.

[Op3.04-2 Academic Renewal \(/Policy/Op3_04_2_AcademicRenewal.htm\)](#)

Academic renewal is designed to permit students with a grade point average deficiency to remove the effects of low grades from their academic record, under the following conditions:

1. This policy applies only to undergraduate students and must be invoked prior to earning a degree at Missouri State or another institution.
2. A student enrolled at Missouri State after an absence of five years or more from college may elect academic renewal. This renewal will affect only those courses taken prior to the five-year absence and may be elected only once in a lifetime.
3. Once elected, academic renewal applies to all courses, whether passed or failed and regardless of origin, taken prior to the date chosen by the student.
4. Academic renewal does not erase the record. The grades received are removed from the GPA with an appropriate notation on the transcript indicating the renewal election. Academic renewal is a policy of Missouri State and as such may not be recognized by outside institutions or agencies.
5. Credit hours subjected to academic renewal cannot be used to meet any requirements (e.g., graduation, prerequisite, or certification).
6. Once elected, academic renewal is irrevocable. Students must consult an academic advisor prior to election of academic renewal. Final approval for all academic renewal applications will be processed by the Office of the Provost.

Procedures

DOWNLOAD THE ACADEMIC RENEWAL REQUEST FORM(/Assets/registrar/Academic-Renewal-Request.pdf)

1. Students who have ever received GI Bill benefits at *any* institution must obtain the approval and signature of the Missouri State University Veterans Affairs Certifying Official on the form.
2. Take the form to your academic advisor and obtain advisor signature.
3. Take the completed form to Meyer Library, room 116, for processing. Upon approval, the form will then be forwarded to the Office of the Registrar. Contact Blanca Mallonee, Meyer Library, room 116, 417-836-8346, or email Success@MissouriState.edu if you have questions.

Missouri State

Office of the Registrar

Undergraduate Catalog

Academic Status

[Op3.04-3 Academic Status \(/Policy/Op3_04_3_AcademicStatus.htm\)](#)

The following policy applies to undergraduate students based on their undergraduate grade point averages (GPA).*

Good standing

A student who has both a cumulative Missouri State **and** a combined (Missouri State and transfer) GPA of at least 2.00 is considered to be in good standing. Students not in good standing will be placed on academic probation or suspension.

Probation

Any student with a cumulative Missouri State **or** a combined GPA of less than 2.00 is on probation unless placed on academic suspension (see below).

The purpose of academic probation is to remind students that the quality of their cumulative academic work is unsatisfactory. Students on probation must have an advisor release prior to registering for classes. Additionally, students on probation may be ineligible for participation in organizations or activities and may be ineligible for financial aid. Students on probation are encouraged to take advantage of the resources offered by the University to ensure their academic success.

Suspension

A student who enters a semester on academic probation and fails to earn a semester GPA of 2.00 or higher will be suspended unless s/he has both a cumulative MSU GPA and a combined (Missouri State and transfer) GPA of 2.00 or higher at the end of the semester. Additionally, a student who earns a semester GPA less than 1.00 and, as a result, has a Missouri State or combined GPA of less than 2.00, will be suspended unless the dean of the college of the student's major determines that there are circumstances which warrant an exception. Individual deans establish the process by which such exceptions will be considered.

After an initial suspension, students must remain out for at least one full semester (not including summer) to be eligible for reinstatement. Students who have been suspended two or more times must remain out for at least one full year prior to being eligible for reinstatement.

Reinstatement

Reinstatement procedures are determined by the deans and the Office of Admissions. Information regarding the procedure is available from the Office of Admissions. Reinstatement is not an automatic process. Students must be approved for reinstatement by the dean of the college under which they plan to return.

**Students whose last semester of attendance was prior to fall 2010 should refer to the catalog in effect for that semester.*

© 2019 [Board of Governors, Missouri State University](#) [Contact Information](#)

<https://www.missouristate.edu/Registrar/Catalog/acstat.htm>

Missouri State

Office of the Registrar

Procedures for Adding and Dropping Classes (and Withdrawing)

- [Adding a class](#)
- [Dropping a class](#)
- [Additional Procedures for dropping all classes](#)

Procedures for adding a class or changing sections

For students *without* a registration hold:

Students without any holds that block registration may add a class or make a section change online through the [My Missouri State](https://my.missouristate.edu/) (<https://my.missouristate.edu/>) portal or through the [Office of the Registrar](mailto:registrar@missouristate.edu) (<mailto:registrar@missouristate.edu>).

For students *with* a registration hold:

- Students with any hold that prevents web registration will need to clear the hold with the appropriate office before initial registration can take place. Refer to [Hold Codes](#) for contact information.
- Students with current registration may make a change of schedule by contacting the [Office of the Registrar](#).

Special circumstances:

- If permission is required as a course prerequisite, that permission must be granted by the department before the class can be added to registration.
- Student athletes must process all registrations and change of schedules in the [Dr. Mary Jo Wynn Academic Achievement Center](#).

Changing schedule after schedule change deadline:

After the stated deadline to add/change classes, departmental approval will be required to add a class or change sections of a class. Students must go the department office which offers the class with the [Registration/Change of Schedule Form](#) ([/Assets/registrar/Change-of-Schedule-stamp-required.pdf](#)) with the proper signature and department stamp, and take the completed form to the Office of the Registrar for processing.

Procedures for dropping a class

The date each drop is completed shall be the date used in determining the refund of fees and the assignment of grades. For exception to drop after the stated deadline to drop a class, refer to the "Exception" section of the [Change of Schedule policy](#) ([/Registrar/Catalog/chnsched.htm](#)).

For students *without* a registration hold:

Students may withdraw from one or more of their classes online through their [My Missouri State](#) (<https://my.missouristate.edu/>) under the Registration tab or through the [Office of the Registrar](#) (<mailto:registrar@missouristate.edu>).

For students *with* a registration hold:

Students, including student athletes, who have a hold that prevents using the web registration system can drop the class by accessing the Holds page in [My Missouri State](#) (<https://my.missouristate.edu/>), under the Registration tab in the My Student Records channel.

Important Notes:

Drops are not allowed after the last day to drop deadline for the course. Students may find the specific deadlines for their courses through their [My Missouri State](#) (<https://my.missouristate.edu/>) portal, on the Registration tab, Refund and Drop Deadlines link.

Students should use the drop procedure judiciously as dropping courses will generally result in extending the time required to complete a degree. In addition, dropping below a full-time or half-time enrollment status may jeopardize insurance, financial aid, scholarship, athletic participation eligibility and immigration status for F-1 or J-1 students.

Students dropping a class because of a concern regarding their grade in a course are encouraged to consult with the instructor prior to dropping a course. Students who are concerned about the impact of dropping a course on their progress toward graduation are encouraged to consult with their academic advisor prior to dropping.

University athletes must process all registrations and change of schedules in the [Dr. Mary Jo Wynn Academic Achievement Center](#) (<https://missouristatebears.com/sports/2016/7/21/acia.aspx>).

Additional procedures for dropping *all* classes

Drops are not allowed after the last day to drop deadline for the course. Students may find the specific deadlines for their courses through their [My Missouri State](#) (<https://my.missouristate.edu/>) portal, on the Registration tab, Refund and Drop Deadlines link. For exception to drop after the stated deadline to drop a class, refer to the "Exception" section of the [Change of Schedule policy](#) (<https://graduate.missouristate.edu/Catalog/Change-of-Schedule.htm>).

Important information for students who withdraw from all classes during a semester:

Meal Plans: Contact the Dining Services Office regarding the refund policy for meal plans which are independent of a housing contract.

Parking: Parking permits must be returned to the [Parking Office](#) (/Transportation/Parking/) by students who wish to receive a refund of the parking permit fee.

Residence Halls: Students living in University housing must terminate their housing contract with [Residence Life, Housing and Dining Services](#) (<https://reslife.missouristate.edu/>).

Veterans: Recipients of veterans benefits must report drops to the [Veteran Student Center](#). (/Veterans/)

BearPass Card: Students who have a BearPass Card Debit Account must complete a BearPass Card Debit Account Withdrawal form which is available at the [BearPass Card Office](#) (/BearPassCard/). This form will cancel the account and authorize a refund of the account balance.

Assessment Program

[Op3.04-6 Assessment Program \(/Policy/Op3_04_6_AssessmentProgram.htm\)](#)

The assessment program at Missouri State is designed to assist in the development and maintenance of the highest quality programs and services. The information gathered in this process is used by University administrators, department heads, the faculty and staff to evaluate and improve both academic and non-academic offerings. Because the success of this program requires widespread cooperation from the entire university community, it is the policy of Missouri State that all students are expected to participate in the assessment process. This participation may include, but not be limited to: the assessment and evaluation of basic skills, general education, programs in the majors and minors, continuing education, and surveys of the various components of the students' educational experiences. The Office Of Assessment implements the University's assessment program and provides faculty with unique opportunities for enhancement of instruction and student learning.

Attendance Policy

[Op3.04-7 Attendance Policy \(Policy/Op3_04_7_Attendance.htm\)](#)

Because class attendance and course grade are demonstrably and positively related, the University expects students to attend *all* class sessions of courses in which they are enrolled. Each instructor has the *responsibility* to determine specific attendance policies for each course taught, including the role that attendance plays in calculation of final grades and the extent to which work missed due to non-attendance can be made up. On the *first day of class*, each instructor will make available to each student a written statement of the specific attendance policy for that class. The University encourages instructors not to make attendance a disproportionately weighted component of the final grade. The University expects instructors to be reasonable in accommodating students whose absence from class resulted from: (1) participation in University-sanctioned activities and programs; (2) personal illness; (3) temporary military orders or Veterans Administration medical appointments; or (4) family and/or other compelling circumstances. Instructors have the right to request documentation verifying the basis of any absences resulting from the above factors. Any student who believes that his or her final grade for a course has been reduced unfairly because of attendance factors has the right to appeal that grade under the process outlined below.

Appeal process for attendance-related grade reductions:

The process of grade appeal based upon attendance factors is intended to render a timely and peer-based judgment and is outlined as follows:

- A. The student should first attempt to resolve the grade conflict with the instructor on an informal basis. If satisfactory resolution is not reached, formal appeal should be initiated as outlined in (2) below.
- B. The student initiates the formal appeal process as follows:
 - a. The student writes a formal letter to the instructor (or to the appropriate department head if the instructor is no longer on campus) requesting a re-evaluation of his or her grade. The letter should include the following information: student's name and BearPass Number; the course code, number, and section; the year and semester the course was taken; the instructor's name; and a clear statement of the grade change request and reasons which justify the request. This formal letter must be initiated

- no later than the end of the first semester after the grade in question is received (excluding summer semester).
- b. The instructor (or the appropriate department head if the instructor is no longer on campus) must respond to the formal appeal within ten (10) school days of the receipt of the formal letter:
 - a. If it is determined that the student's request is justified, the instructor (or department head, as appropriate) will prepare a Grade Change Authorization and submit it to the department head, who will forward it to the Office of the Registrar. If the grade change is in a course taken for graduate credit, the department head must also notify the Graduate College.
 - b. If it is determined by the instructor (or department head, as appropriate) that the student's request is *not* justified, the instructor (or department head) will write a formal response to the student justifying his or her decision.
 - c. Should the student desire to continue the appeal process, he or she may request a formal hearing before the Attendance Appeal Board (AAB)¹ as follows:
 - a. The student will submit to the Office of the Vice President for Student Affairs a completed AAB Request for Hearing Form (including a release of information on grades awarded on examinations and assignments, and attendance data, for the specific course in question); the student's formal letter to the instructor (or department head, as appropriate); and the instructor's (or department head's) response.
 - b. Upon receipt of the specified documentation, the AAB will determine if the grade reduction is attendance related and potentially unreasonable and/or at variance with the instructor's stated attendance policy. If it is so determined, the AAB will convene a hearing *at the earliest possible date* based upon the schedules of the involved parties. The hearing will be conducted in an attempt to determine the facts associated with the appeal and the intent is that a recommendation will be rendered by the end of the semester in which the appeal was filed.
 - c. The AAB is advisory only. The Board will forward all documentation and its recommendation to the Provost. Based upon those data, the Provost will make a ruling to the extent that: (1) the grade should be changed including the new grade to be awarded; or (2) the grade should not be changed.

¹The Attendance Appeal Board will consist of five members as follows: The Board Chair will be the Vice President for Student Affairs or his/her designee. The Vice President for Student Affairs will also select one faculty member from among those serving on the Faculty Student Judicial Commission and three students from among those serving as Justices on the Campus Judicial Board.

Students are not automatically dropped for non-attendance. Failure to properly drop or withdraw will result in F grade(s) and a continued financial obligation.

Auditing a Course

[Op3.04-8 Auditing a Course \(Policy/Op3_04_8_AuditingaCourse.htm\)](#)

The auditing student is expected to attend class regularly and should consult with the instructor to determine what else is expected in the course. If an auditing student does not attend class regularly or does not fulfill agreed-upon expectations, the instructor may direct the Office of the Registrar to drop the student from the class. Such drops will be graded with a "W" grade and will be subject to the normal fee refund policy.

Students may audit courses to the maximum authorized academic load. A person currently not enrolled at the University must be admitted in order to register as an auditor. Courses audited are counted in the same way as courses taken for credit in determining required student fees. Credit is not awarded for auditing a class. Audited classes are excluded when determining enrollment status (full-time, half-time) and eligibility for the semester Deans List. Audited classes are included when determining need for Overload Permission.

To audit a course (or to remove a course from audit) the student must complete a form in the Office of the Registrar, Carrington Hall room 320 any time prior to the "W" grade deadline for that course. Students may not change from a credit basis to an audit basis or vice versa once the "W" grade deadline has ended.

Procedures

DOWNLOAD AUDITING A COURSE FORM(/Assets/registrar/Auditing-a-Course.pdf)

- Bring form to the Office of the Registrar, Carrington Hall Room 320. Office hours are Monday, Tuesday, Wednesday and Friday 8:00 a.m. to 5:00 p.m. and Thursday from 9:00 a.m. to 5:00 p.m.; or
- Email scanned form to Registrar@MissouriState.edu from your Missouri State email account; or
- Fax to 417-836-6334; or
- Mail to Office of the Registrar, Missouri State University, 901 S. National Ave, Springfield, MO 65897

Undergraduate Catalog

University Certificate

[Op3.04-53 Undergraduate Certificate Program Procedures \(\(Policy/Op3_04_53-undergraduate-certificate-program-procedures.htm\)](#)

General certificate policies

Certificates and options

A university undergraduate certificate generally requires 12-18 credit hours. The certificate document given to a student who earns a university certificate will contain the title of the certificate but not any option/emphasis.

Certificate usage

A certificate may not be used in lieu of a minor (or second major) to satisfy the needs of a comprehensive major.

Certificate pursuit and aid eligibility

Students may pursue a certificate and a degree concurrently or independently. Certificates and degrees can be awarded concurrently or independently.

Students should contact the office of student financial aid to determine if enrollment in pursuit of a certificate is eligible for financial aid since some certificates are eligible and others are not.

Undergraduate students who are seeking a degree and wish to add a certificate should contact either the office of the registrar or the Academic Advising and Transfer Center to declare the certificate. If the certificate has admission requirements, the student initially will be put into a pre-admission certificate code. Once the certificate's admission requirements are met, the department will submit an Admission to Degree Program to the office of the registrar to have the student's status moved from pre-admission to admission.

Certificate student classification

Undergraduate students who wish to pursue a certificate must be admitted to the university under a degree-seeking classification even in cases where the student is only pursuing a certificate.

Certificate time limit

Credit for courses completed in the undergraduate certificate more than eight years before the student's date of certificate awarding may be disallowed by the certificate department.

General certificate requirements

Catalog of certificate requirements

Students shall satisfy the certificate requirements in effect upon the original semester of certificate declaration unless the certificate has admission requirements, in which case the student shall satisfy the requirements in effect upon the semester of certificate admission.

Credit hours and GPA

All undergraduate certificates generally require a minimum of 12 credit hours. Students pursuing an undergraduate certificate must attain at least a 2.00 GPA on all courses utilized in the certificate programs. Departments may establish higher minimum GPA's as outlined in the university catalogs.

Residence requirement

Undergraduate students must complete a minimum of 6 credits of upper or lower division credits in the certificate in courses administered by the Springfield campus.

Certificate exceptions

Students who wish to appeal for exceptions to the general certificate requirements should submit an appeal to the Degrees Committee. The procedure for submitting an appeal is maintained by the office of the provost.

Printing and issuance of certificate

[Op3.04-21 Diploma/University Certificate \(/Policy/Op3_04_21_Diploma.htm\)](#)

The diploma/certificate is provided to students approximately four to six weeks after the end of the semester of graduation if all graduation requirements have been met. Any hold preventing the release of a student's transcript will also prevent the release of a student's diploma/certificate.

The diploma lists the degree earned, major(s), and the scholastic honors attained at the end of the semester of graduation. Options within majors and minors are not recorded on the diploma but are on the transcript. Students completing multiple majors in the same degree in the same semester will only receive one diploma listing all majors.

The certificate lists the level (undergraduate or graduate) and the name of the program of study.

The student name listed on a diploma or certificate must match a name on file in the University's student information system, which will be available to select in the application to graduate process. Information on adding or changing a name in the system is available in the [Change of Student Legal Information and Status Policy](#) ([/Registrar/Catalog/legalinformation.htm](#)).

All reissued diplomas and/or certificates produced on or after August 28, 2005 will bear the name Missouri State University.

The Office of the Registrar will be responsible for establishing and communicating the procedure for requesting a reissued diploma/certificate. A reissued diploma/certificate fee will be charged in accordance with the current Fee Schedule.

Procedures for requesting reissued certificate

Refer to the [Office of the Registrar](#) ([/Registrar/dupdip.htm](#)) for more information and forms.

Change of Schedule (Add/Drop)

[Op3.04-10 Change of Schedule \(Add/Drop\)/\(Policy/Op3_04_10_ChangeofSchedule.htm\)](#)

Policy

Below are policies related to adding a class, dropping a class, section changes, and exceptions. Refer to the [Procedures for Adding and Dropping Classes \(/Registrar/add-droprocedures.htm\)](#) for more information on how to add or drop a class, or withdraw from the University (drop all classes).

Adding a class

Classes may be added prior to the beginning of the semester and during the Change of Schedule Period (from the first day of classes through the end of the 100%refund period). Classes which have not yet begun (e.g., second block courses, short courses, independent study, etc.) may be added after the Change of Schedule Period has ended.

Dropping a class

Dropping all classes is considered a “withdrawal from the University.” Refer to [Procedures for Adding and Dropping Classes \(/Registrar/add-droprocedures.htm\)](#) for more information.

Classes dropped prior to the end of the Change of Schedule period will not appear on the transcript. Classes may be dropped with a “W” grade from the end of the Change of Schedule period until four weeks prior to the last day of full semester classes, after which time students may not drop. For all classes with a different duration than a full semester, the relevant deadlines can be found in the Drop and Refund page. A “W” grade indicates the student withdrew from the course without academic penalty.

Students who plan to drop a class in which academic dishonesty has alleged to have occurred should first refer to the [Academic Integrity Policies and Procedures \(/AcademicIntegrity/policies-and-procedures.htm\)](#).

Students who have a hold which prevents using the registration system can drop a class or classes by requesting a drop via the Drop With a Registration Hold Request Form found on the Holds and Add or Drop Classes links of My Missouri State.

Students are expected to complete all registered courses. Failure to properly drop classes will result in the assignment of F grades for those classes, as well as a continued financial obligation for any unpaid tuition charges for those classes. For more information, see the “Exceptions to the Required Student Fees Refund Policy” section of the fee resolution.

Section changes

As stated in the Fee Schedule, students may drop a section and add a different section of the same course during the same part of term and receive an even exchange of fees, provided the section add and drop were processed during the same transaction. Students who drop and add a section in the same course, but in a different part of term do not qualify for this fee exchange. Students who drop a special topics course and add the same course but with a different topic do not qualify for this fee exchange.

Exceptions to the policy

Exceptions to allow a drop after the stated deadline to drop a class are issued to students who have an overwhelming, unforeseen circumstance (e.g., personal medical condition, catastrophic loss) which significantly interferes with the ability to meet the academic commitments of the class or circumstances that interfere with the ability to drop the class before the deadline. In order to be considered for a request for an exception to the drop date, the student must provide appropriate documentation as early as possible but no later than the last day of the class the student is requesting to drop.

Examples of acceptable documentation regarding personal illness include:

- A letter from the student’s appropriate health care provider describing the student’s health problem, how it was unforeseen before the drop deadline, and how it interferes with successful completion of the semester. The letter should include a recommendation that the student be granted an exception to the drop deadline from the date of the onset of the health problem. Medical visit dates should be listed.
- Records of hospitalization or treatment related to the specific health condition(s) (inpatient and/or outpatient).
- Any other pertinent information that supports how the student’s acute health condition(s) interfered with the ability to meet academic commitments.

Copies of medical bills are not sufficient documentation to support an exception to the drop deadline.

Examples of acceptable documentation for other situations include:

- Copy of obituary or funeral program.
- Letter of support from a family member.
- Formal record confirming circumstance of disaster.

Documentation must provide a date (or dates) that can confirm the time-frame for which the appeal has been submitted.

Students who are approved to have a class or classes dropped because of documented extenuating circumstances after the last day to drop, will receive a “W” in the dropped courses and may appeal for a

prorated/partial refund for tuition and room and board (upon proper checkout), but not for nonrefundable fees or charges.

Requests for exceptions to the drop deadline will be considered by a committee appointed by the Provost, including the Dean of Students and Registrar (or their appointed designees). Final appeals may also be considered by the Provost or President of the University.

Procedures for Exceptions

To request an exception to the drop policy, print and complete a [Drop Exception Appeal Request form \(/Registrar/dropexception.htm\)](#), and submit along with a letter of explanation and supporting documentation as listed above to the Office of the Registrar.

Commencement

[Op3.04-13 Commencement \(/Policy/Op3_04_13_Commencement.htm\)](#)

Students who wish to participate in commencement ceremonies must do so according to the following protocol:

- spring semester graduates must participate in the spring ceremony,
- summer semester graduates, because there is not a summer ceremony, may choose to participate in either the preceding spring or following fall ceremony, and
- fall semester graduates must participate in the fall ceremony.

Students who wish to participate in a ceremony prior to their semester of graduation (except summer graduates who wish to participate in the preceding spring) may appeal to the Associate Provost for Student Development and Public Affairs (undergraduate students) or Associate Provost and Dean of the Graduate College, (graduate students). If approved, the listing of their names in the commencement program will remain in the semester of graduation.

Students who complete a University certificate program will receive a "certificate of completion." These students will not be recognized at the commencement ceremonies.

Commencement information is available on the [commencement website \(/Commencement/\)](#).

Credit for Military Education and Experience

*[Op3.04-50 Credit for Military Education and Experience](#)
([/Policy/Op3_04_50_Credit_for_Military_Education_and_Experience.htm](#))*

Missouri State University grants credit for armed service education and training according to the recommendations of the American Council on Education (ACE) as stated in "A Guide to the Evaluation of Educational Experiences in the Armed Services." No limit exists on credit awarded in this category.

Credit is also awarded for military experience based on ACE guidelines. Credit for military experience is limited to a total of 30 credit hours and a maximum of 6 credit hours in any one discipline.

Undergraduate credit for military education and experience is generally awarded consistent with the [Undergraduate Transfer Credit Policy](#) ([/Registrar/Catalog/transfercreditpolicy.htm](#)). Initial equivalencies are determined by the Office of Admissions, while the final authority for equivalencies rests with the head of the appropriate academic department at MSU. Some credit for military experience and/or education may be deemed applicable to general education requirements though not equivalent to a specific MSU course. All credit is awarded with a "Pass" grade equivalent.

Graduate credit for military education and experience is awarded in a manner consistent with the [Graduate Transfer Credit Policy](#) (<https://graduate.missouristate.edu/Catalog/Transfer-Credit-Policy.htm>) and as such may not exceed 30% of the requirements for a given program.

To be considered for credit, students should request that an official copy of their Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript be sent directly to the MSU Office of Admissions.

Veteran and current members of the military should also refer to the [Prior Learning Assessment](#) ([/Registrar/Catalog/priorlearning.htm](#)) for information regarding credit for DANTES Subject Standardized Tests (DSST), College Level Examination Program (CLEP) and other credit by examination programs.

Undergraduate Catalog

Credit Hours and Semester System

[Op3.04-16 Credit Hours and Semester System \(/Policy/Op3_04_16-credit-hours-and-semester-system.htm\)](#)

The unit of credit used at Missouri State is the semester hour. The university follows the semester system in which the academic year is divided into two instructional semesters with each having 15 weeks of instruction plus a final examination period. Additional instructional periods such as summer, intersession, blocks, sessions, short and extended class periods are offered.

Due to Federal regulations promulgated by the US Department of Education, the Higher Learning Commission requires institutions to document how they determine in-class and out-of-class time equivalencies for distance courses and therefore document how credit hours for distance courses are determined. Missouri State University's assignment and award of credit hours shall conform to commonly-accepted practices in higher education and with the federal definition of the credit hour.

FEDERAL CREDIT HOUR DEFINITION: A CREDIT HOUR IS AN AMOUNT OF WORK REPRESENTED IN INTENDED LEARNING OUTCOMES AND VERIFIED BY EVIDENCE OF STUDENT ACHIEVEMENT THAT IS AN INSTITUTIONALLY-ESTABLISHED EQUIVALENCY THAT REASONABLY APPROXIMATES NOT LESS THAN:

(1) ONE HOUR OF CLASSROOM OR DIRECT FACULTY INSTRUCTION AND A MINIMUM OF TWO HOURS OF OUT-OF-CLASS STUDENT WORK EACH WEEK FOR APPROXIMATELY FIFTEEN WEEKS FOR ONE SEMESTER OR TRIMESTER HOUR OF CREDIT, OR TEN TO TWELVE WEEKS FOR ONE QUARTER HOUR OF CREDIT, OR THE EQUIVALENT AMOUNT OF WORK OVER A DIFFERENT AMOUNT OF TIME; OR (2) AT LEAST AN EQUIVALENT AMOUNT OF WORK AS REQUIRED IN PARAGRAPH (1) OF THIS DEFINITION FOR OTHER ACTIVITIES AS ESTABLISHED

**BY AN INSTITUTION, INCLUDING LABORATORY WORK, INTERNSHIPS, PRACTICA, STUDIO WORK, AND OTHER ACADEMIC WORK LEADING TOWARD TO THE AWARD OF CREDIT HOURS.
34CFR 600.2 (11/1/2010)**

The number of credit hours awarded for courses is based on the expected time required to successfully meet the course objectives. This time is a combination of activities including in-class lecture, laboratory work, outside reading, and other academic work. The following ranges can be used to determine hours to assign to laboratory components of courses.

Credit hours	Contact hours in weekly lab (based on 15-week semester and the amount of expected out-of class effort)
1	1 to 3 hours
2	2 to 6 hours
3	3 to 9 hours
4	4 hours and above

Whereas courses taught with an online/blended format may not have specific seat time expectations, they maintain comparable quality and student learning outcomes. College courses taught in a shorter period of time than regular semester courses described in this catalog shall meet the same number of hours for both lecture and laboratories as required if offered on a semester or summer session basis.

Some courses include clinical contact hours that represent the number of hours per week the course will meet in clinical experiences outside the classroom (i.e., nursing, physical therapy, etc.). Normally clinical hours will require three or more hours per week per hour of credit.

Courses with no standard lecture or laboratory contact hours indicate class time is spent outside the normal classroom environment (i.e., field study, internships, practicums, research, service learning, supervised teaching, thesis, etc.). The numbers of credit and contact hours associated with the course are determined by the department.

Declaring or Changing a Major

[Op3.04-18 Declaring or Changing a Major \(/Policy/Op3_04_18_ChangingaMajor.htm\)](#)

If you are interested in declaring or changing a major, it is recommended that you first visit the department of the major to learn more about the program, including any admission requirements (if required).

- When you have confirmed your plans to declare or change a major, please contact the Academic Advising and Transfer Center in University Hall 109 to have the change processed on your record. It is recommended that you visit the office in person. The Academic Advising and Transfer Center will continue to accommodate phone and email requests from departmental advisors and representatives regarding major changes for students. If you are a newly admitted student and have not yet registered for classes, contact the Office of Admissions at 417-836-5517 for major changes.
- If you wish to declare or change to a major or minor in the College of Business, please contact the Business Advisement Center in Glass 276. It is recommended that you visit the office in person.
- If you wish to add a second major, you should contact the department of the major as indicated above.
- If you wish to add a minor, please visit the Academic Advising and Transfer Center in University Hall 109.

If you have any questions about declaring or changing a major, contact the Academic Advising and Transfer Center at 417-836-5258.

Admission to degree program

Some majors have specific admission requirements. If you declare or change to a major with admission requirements, you will initially be placed in a "pre-major." When you have fulfilled all of the requirements for admission to the program, the department will instruct the Office of the Registrar to update your record to show that you are admitted to the major.

College of Natural and Applied Sciences Student Success Office

The [CNAS Student Success Office](https://science.missouristate.edu/cnas-ssu.aspx) (<https://science.missouristate.edu/cnas-ssu.aspx>) can assist students in declaring or changing a major/minor/certificate offered in the College of Natural and Applied Sciences.

Degree Audits

Degree audits are designed to assist the student, advisor, and University in tracking student progress toward completion of all applicable degree requirements. This degree audit report matches completed, in-progress, and registered courses with all requirements of a specified degree program to determine which requirements have or will be met and which requirements are deficient or not yet completed. The degree audit will then list what is needed to complete the requirement. The degree audit is designed to be used as an advisement tool. Final confirmation of degree requirements is subject to University approval.

Degree Program

[Op3.04-20 Degree Program \(/Policy/Op3_04_20_DegreeProgram.htm\)](#)

A degree program consists of a major, a minor (required for non-comprehensive majors under the Bachelor of Arts and Bachelor of Science degrees), and the applicable requirements associated with the degree (see the [General Baccalaureate Degree Requirements \(/Policy/Op3_04_27_GeneralBaccalaureateDegree.htm\)](#) section of this catalog). Students completing multiple majors in the same degree are considered to have only one degree.

Students must be admitted to a degree program before completing **75 credit hours** or a hold will be placed on their record and they will not be allowed to register. Entering first-time students are required to complete GEP 101 (or UHC110 for Honors College students) in their first semester. Students are strongly encouraged to complete COM 115, ENG 110 and a Quantitative Literacy course within their first 30 hours, and are required to do so prior to earning **75 hours**.

To be admitted to a program of study that has admission requirements, students should first contact their advisor and then the departmental office of the major.

Office of the Registrar

Undergraduate Catalog

Diploma/University Certificate

[Op3.04-21 Diploma/University Certificate \(/Policy/Op3_04_21_Diploma.htm\)](#)

The diploma/certificate is provided to students approximately four to six weeks after the end of the semester of graduation if all graduation requirements have been met. Any hold preventing the release of a student's transcript will also prevent the release of a student's diploma/certificate.

The diploma lists the degree earned, major(s), and the scholastic honors attained at the end of the semester of graduation. Options within majors and minors are not recorded on the diploma but are on the transcript. Students completing multiple majors in the same degree in the same semester will only receive one diploma listing all majors.

The certificate lists the level (undergraduate or graduate) and the name of the program of study.

The student name listed on a diploma or certificate must match a name on file in the University's student information system, which will be available to select in the application to graduate process. Information on adding or changing a name in the system is available in the [Change of Student Legal Information and Status Policy \(/Registrar/Catalog/legalinformation.htm\)](#).

All reissued diplomas and/or certificates produced on or after August 28, 2005 will bear the name Missouri State University.

The Office of the Registrar will be responsible for establishing and communicating the procedure for requesting a reissued diploma/certificate. A reissued diploma/certificate fee will be charged in accordance with the current Fee Schedule.

Procedures for requesting reissued diploma/certificate

Refer to the [Office of the Registrar \(/Registrar/dupdip.htm\)](#) for more information and forms.

Enrollment Status/Reduced Course Load Policy

[Op3.04-24 Enrollment Status/Reduced Course Load Policy \(/Policy/Op3_04_24_EnrollmentStatus.htm\)](#)

Enrollment status may be reported to external agencies such as the National Student Clearinghouse. Audited classes are excluded when determining enrollment status. For official reporting purposes, Missouri State uses the following definitions:

Full-Time. Undergraduate students carrying 12 or more credit hours and graduate students carrying 9 or more credit hours in the fall or spring semester are considered full-time students. Undergraduate and graduate students carrying 6 or more credit hours during the summer session are considered full-time students.

Three-Quarter Time. Undergraduate students carrying 9-11 credit hours and graduate students carrying 7-8 credit hours during a fall or spring semester are considered three-quarter time students. Undergraduate and graduate students carrying 4-5 credit hours during the summer session are considered three-quarter time students.

Half-Time. Undergraduate students carrying 6-8 credit hours and graduate students carrying 5-6 credit hours during a fall or spring semester are considered half-time students. Undergraduate and graduate students carrying 3 credit hours during the summer session are considered half-time students.

Less Than Half-Time. Undergraduate students carrying less than 6 credit hours and graduate students carrying less than 5 credit hours during a fall or spring semester are considered less than half-time students. Undergraduate and graduate students carrying less than 3 credit hours during the summer session are considered less than half-time students.

Reduced course load policy

The University complies with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973. These laws mandate that the University provide academic accommodation for students with disabilities.

The purpose of the reduced course load policy is to allow for case-by-case consideration of requests that students with disabilities be considered full-time, three-quarter time, or half-time when taking a reduced course load due to their disability. Students must petition for this accommodation each academic year. Students obtaining approval under this policy will adhere to the current fee structure of the University, but will be considered full-time or half-time and entitled to all of the services, benefits, rights and privileges of their status. Students must be enrolled in a minimum of 6 credit hours to be approved for full-time status, 4-5 credit hours to be approved for three-quarter time status, and 3 credit hours to be approved for half-time status.

Reduced course load requests, with supporting documentation, shall be submitted to the Director of the Disability Resource Center. Supporting documentation must include a diagnostic evaluation from an appropriate professional that permits evaluation of the current need for accommodation. The Director shall review potential consequences of reduced course load with the student, including slower progress toward graduation, changes in financial aid, and changes in University billing. The Director shall encourage the student to explore potential external consequences of a reduced course load, including changes in vocational rehabilitation funding and federally regulated financial aid.

The Director shall submit the student's request, with supporting documentation, to the Office of the Provost for disposition. If the request is approved, the Office of the Registrar shall ensure that enrollment status is accurately noted on the student's record and accurately reported.

FERPA/Confidentiality of Student Education Records

[Op5.11-1 FERPA/Confidentiality of Student Education Records](#)

[\(/Policy/Op5_11_1_FERPA_Confidentiality_of_Education_Records.htm\)](#)

Missouri State University adheres to a policy of compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA). 20 U.S.C. 1232g. Eligible students have four primary rights under FERPA including the right to:

1. Right to Records Inspection

A student has a right to inspect and review any education record permitted under this policy. Education records are maintained in a number of university offices. Requests to review records must be made in writing to the responsible official of each office which maintains the records (or to the university registrar) who shall comply with a request within 45 days upon receipt. When a record contains personally identifiable information about more than one student, a student may inspect only that information which relates to the student.

The university reserves the right to refuse to permit a student to inspect the following records:

- a. Financial records of the student's parents
- b. Confidential letters and statements of recommendation for which the student has waived the right of inspection and review
- c. Records connected with an application to attend the university or a component unit of the university if that application was denied
- d. Those records which are excluded from the FERPA definition of education records

2. Right to Consent to Disclosure of Personally Identifiable Information

The university will not release personally identifiable information in education records or allow access to those records except to the extent that FERPA authorizes disclosure without consent, including but not limited to the following:

- a. The individual student
- b. Whomever the student authorizes by providing the institution with a written release (release must be written, signed and dated, and must specify the records to be disclosed and the identity of the recipient)

- c. Any party requesting directory information (unless the student has a FERPA hold)
- d. Missouri State University officials who have a legitimate educational interest
- e. Officials of other schools in which a student seeks or intends to enroll or is enrolled
- f. Parents if parents claim the student as a dependent for tax purposes. The university will exercise this option only on the condition that evidence of such dependency is furnished to the office of the registrar and all requests for disclosures are referred to that office
- g. Persons in connection with a health or safety emergency
- h. An alleged victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense in connection with a Disciplinary Proceeding
- i. Parents regarding alcohol and drug violations of a student under 21 years of age
- j. As otherwise provided in 20 U.S.C. 1232g(b) and 34 CFR Sec. 99.31

3. Right to Request an Amendment to Educational Records

A student who believes that information contained in the student's education record is inaccurate, misleading or violates privacy or other rights may request that the records be amended. The responsible official shall then decide whether or not to amend the record. If the record is not amended, the student will be advised of the right to a hearing.

Challenge Hearing Procedures

In most cases, the decision of the responsible official will be final. However, a student may elect to file an appeal in writing to the office of the registrar in order to challenge the content of the educational record. (The right to challenge grades does not apply unless the grade assigned was inaccurately recorded, under which condition the record will be corrected.)

- a. A disinterested hearing officer will be appointed who shall afford the student full opportunity to present evidence in support of the challenge.
- b. The hearing shall be held within a reasonable period of time, not to exceed thirty (30) days under normal circumstances, after the institution has received the request, and the student shall be given notice of the date, place and time reasonably in advance of the hearing.
- c. The student shall be afforded a full and fair opportunity to present evidence relevant to the issues, and may be assisted or represented by individuals of the student's choosing at the student's expense, including an attorney.
- d. The hearing officer shall render a decision within a reasonable time after the hearing, not to exceed thirty (30) days, and inform the student in writing of the outcome.
- e. The decision shall be based solely upon the evidence presented at the hearing and shall include a summary of the evidence and the reasons for the decision.
- f. If the hearing officer decides that the record is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, the student shall then have the right to place in the education record a statement commenting upon the information in the education record and/or setting forth any reasons for disagreeing with the decision of the hearing official. Any such written explanation then becomes a part of the education record.
- g. If the education records of the student or the contested portion thereof are disclosed to any party, the explanation shall also be disclosed to that party.

4. Right to File a Complaint

Students have the right to file a complaint with the U.S. Department of Education if they believe that the university has failed to comply with the requirements of FERPA. The complaint should be in writing and sent to: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-8520.

Additional Right to Limit Disclosure of Directory Information

In addition to the four primary rights described above, currently enrolled students have the right to suppress disclosure of their directory information. Directory information may be available through the following:

- Online directory (People Search)
A [request to exclude information from the online directory](#) may be completed by currently enrolled students.
- University Email Address Book
Currently enrolled students may request to exclude information from the University Email Address Book by submitting a FERPA Hold Request Form to the office of the registrar. This hold will remain applicable until the student submits a written request specifying otherwise. The University Email Address Book may include the student's name, email address, Instant Messenger address, classification and major.
- Sunshine Law Requests
In accordance with the Missouri Sunshine Law, the university is required to release student directory information. To be excluded from all Sunshine Law requests, students must submit a FERPA Hold Request Form by the end of the second week of the semester. This hold does not apply retroactively to previous releases of directory information and will remain applicable until the student submits a written request specifying otherwise. To request a FERPA Hold, students must submit the FERPA Hold Request Form to the office of the registrar. General requests for student addresses will be fulfilled by providing one address for each student based on availability according to the following hierarchy: (1) residence hall; (2) current mailing and (3) primary/permanent. General requests for student telephone numbers will be generated in similar fashion.

Definitions

A student is an individual with respect to whom the university maintains education records or personally identifiable information and who is or who has been in attendance at the university. A student does not include a person who has not been in attendance.

In attendance means a student is officially registered for at least one class and that class has started.

Directory information may appear in public documents and may otherwise be disclosed by the university for any purpose in its discretion, without the student's consent. The following categories of information have been designated as directory information at Missouri State University:

1. Name (current, former, and chosen)
2. Address (residence hall, current and primary/permanent)
3. Telephone number*
4. Campus email address
5. Field of study, including majors, minors, certifications and pre-professional areas of study
6. Classification (e.g., sophomore)
7. Enrollment status (e.g., full-time, part-time or less than part-time)
8. Participation in officially recognized activities and sports, including photographs of athletes
9. Dates of attendance, including matriculation, drop and withdrawal dates
10. Degrees and certificates applied for and/or received including award date
11. Awards received, including Dean's list, scholastic honors, departmental honors, memberships in national honor societies, athletic letters and university-funded scholarships (excluding those that are need-based)
12. Previous education institutions attended

*Cell phone numbers, unless provided as a current or primary/permanent telephone number, are not considered directory information.

Contact information provided exclusively for purposes of the emergency notification system is not considered directory information.

Education records include those records which contain information directly related to a student and which are maintained by the university or by a person acting for the university. In accordance with FERPA guidelines, the following are *not* education records: law enforcement records, student employment records, medical records, and alumni records. The regulations also exclude from the definition of education records any record that is in the sole possession of the maker of the record where the record is used only as a personal memory aid for the maker and the record is not accessible or revealed to any other person (except a temporary substitute for the maker of the record).

Legitimate educational interest is the need to review an education record in order for a university official to: perform an administrative task outlined in the official's duties; perform a supervisory or instructional task directly related to the student's education; or perform service or benefit for the student such as health care, job placement or financial aid.

A university official is a person employed by the university in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff). Also considered university officials are members of the Board of Governors, a person or company with whom the university has contracted (such as an attorney, auditor or collection agent), temporary employees, student workers, and graduate assistants employed by the university.

Deceased Student Records

FERPA rights cease upon death; however, with the approval of the registrar, educational records may be released to the student's family or others with a demonstrated legitimate interest. Documentation may be required.

For Additional Information

Additional information is available on the [office of the registrar website \(/Registrar/FERPA.htm\)](#). If you have any questions regarding this policy or if you feel that your rights under FERPA are being violated, please contact the office of the registrar at 901 South National Avenue, Springfield, MO 65897 or call [417-836-5520 \(tel:+1-417-836-5520\)](tel:+1-417-836-5520).

Final Examination Period

[Op3.04-25 Final Examination Period \(/Policy/Op3_04_25_FinalExaminationPeriod.htm\)](#)

A two-hour final examination period is scheduled for each course. This final examination period is used either for administration of final examinations or for other appropriate course terminating activities. If students must reschedule final exams because of extenuating circumstances or if they have more than three finals on the same day, they should attempt to resolve their need to reschedule by contacting the instructor(s) one week prior to the scheduled exam time. If this process is unsuccessful, the student may file a written appeal to the associate provost for student development and public affairs for assistance in reaching a satisfactory resolution.

Grade Appeals and Academic Grievances

[Op3.04-28 Grade Appeal and Academic Grievances \(/Policy/Op3_04_28_GradeAppealandAcademicGrievances.htm\)](#)

A student may request that an assigned grade be changed in accordance with the following procedures. **The change must be requested prior to the end of the semester (excluding summer) following the term in which the grade was assigned.** This process should not be used for students appealing a grade of F or XF assigned due to academic dishonesty. Refer to Academic Integrity Policies and Procedures and to the Student Academic Integrity Policies and Procedures document.

Student evaluations and assignments of final course grades are the responsibility of the faculty. The faculty member is accountable for any and all grades assigned to students; therefore, each faculty member shall maintain records to support student evaluations and grades.

Students who have reasons which can be substantiated to request grade changes must:

1. write a formal letter to the instructor (or to the appropriate department head if the instructor is no longer on campus) requesting a re-evaluation of their performance in the course; and
2. provide the following information in the letter: name and BearPass Number; course number, title, and section; semester and year taken; name of instructor; and a clear statement of the grade change request and reasons which justify the request.

Faculty members, upon receipt of a student's request for a grade change, will review their records. If it is determined that a student's request is justified, the faculty member will prepare a Grade Change Authorization and submit it to the department head, who will forward it to the Office of the Registrar. If the grade change is in a course taken for graduate credit, the department head must also notify the Graduate College. **A faculty member may not change an F grade to a W grade in those cases in which the student did not follow the proper procedures for dropping the course.**

The student can appeal a negative decision of a faculty member. The steps in the appeal process are as follows:

1. present the appeal first to the faculty member's department head;

2. then to the college dean;
3. next to the Dean of the Graduate College, if the appeal is in a course taken for graduate credit;
4. then to the Provost, who may refer the appeal to his/her designee for a hearing and recommendation;
5. finally, to the President of the University.

At any step of the appeals process, any of the above individuals can authorize a grade change, and must notify the involved individuals of their action (i.e., the department head must notify the student and the faculty member of his/her decision; the college dean must notify the department head, faculty member, and student of his/her decision; the Graduate Dean, in the case of a graduate course, must notify the college dean, department head, faculty member, and student; the Provost or designee is responsible for notifying the college dean, department head, faculty member, and student of his/her decision. If the request for grade change is appealed to the final step, the President will take action deemed appropriate and so inform the Provost, college dean, department head, faculty member, and student. It is solely the student's responsibility to appeal in the order specified at each step of the process, and the student may halt the appeal at any step.

To appeal an attendance-related grade reduction, the appeal process that is part of the Attendance Policy must be followed. That appeal process can be found in the section describing the Attendance Policy.

Requests for grade changes made after an extended period

Appeals for changes in a student's academic record that are not made within one semester (excluding summer) of receipt of grades must be submitted to the Office of the Provost. Those appeals with documented exceptional circumstances will be considered on a case-by-case basis by the Scholastic Standards and Revision of Records Committee, and the committee will make its recommendation to the Provost.

Grade re-evaluation based on exceptions to University policy

In those cases in which the grade received by the student is the result of the University policy (e.g., an F resulting from failure to remove an Incomplete grade in the time allowed or failure to officially drop a course) rather than a faculty member's evaluation of performance in a course, the student's written appeal must be directed to the Office of the Provost within one calendar year of receipt of grade(s). Such appeals will be considered by the Scholastic Standards and Revision of Records Committee, and the Committee will make its recommendation to the Provost.

This process should not be used for students appealing a grade of F or XF assigned due to academic dishonesty. Refer to Academic Integrity Policies and Procedures and to the Student Academic Integrity Policies and Procedures document.

Failure to satisfy academic standards of university, college or department

The University's colleges and departments have authority to set standards for admission of students to their programs or may deny enrollment for failure to satisfy academic standards or course/program prerequisites, even though no violation of disciplinary standards is involved. Except to the extent that cheating or plagiarism is involved, such standards are beyond the primary scope of this document. The University *Undergraduate*

Catalog and/or Graduate Catalog and relevant advisement centers or deans' offices should be consulted for academic standards and for the process of requesting a waiver(s) or appeal(s) of a decision(s) involving those standards.

Financial aid or scholarships

For disputes related to the awarding or renewal of financial aid or scholarships, the student should consult the Financial Aid Office or the particular college or department under which the award is granted to ascertain the appropriate channel of inquiry. Also the student should obtain a copy of the scholarship eligibility criteria. Such disputes can be referred for appellate review only upon the recommendation of the Vice President for Student Affairs or the Provost or their designee. Where the grounds for denial of a scholarship or financial aid involves academic dishonesty, the matter should follow the procedure described for "Academic Dishonesty by Student Enrolled in a Course."

Procedures

Students who wish to submit an appeal for a grade re-evaluation based on exceptions to University policy as described above should review the [guidelines for submitting an appeal to the Scholastic Standards and Revision of Records Committee. \(//Provost/SSRRC_procedures.htm\)](https://www.missouristate.edu/Provost/SSRRC_procedures.htm)

Undergraduate Catalog

Grade Point Average

[Op3.04-29 Grade Point Average \(/Policy/Op3_04_29_GradePointAverage.htm\)](#)

Undergraduate and graduate grade point averages are maintained. A student's Missouri State grade point average is based only on courses completed at Missouri State. A combined grade point average, based on work completed at Missouri State and in transfer, is also maintained by the office of the registrar. This combined grade point average is used in determining a student's academic standing and eligibility for graduation and scholastic honors at graduation. Refer to the sections on "[Academic Status \(/Registrar/Catalog/acstat.htm\)](#)" and "[Scholastic Honors \(/Registrar/Catalog/schlhnrs.htm\)](#)" as well as the individual degree and program descriptions for more details on grade point average requirements.

Grade point average is calculated by dividing the total quality points earned by the total credit hours attempted. The semester grade point average is calculated by dividing the quality points earned for the semester by the credit hours attempted for the semester. See "[Grading and the Credit Point System \(/Registrar/Catalog/grades.htm\)](#)" and "[Repeat Policy \(/Registrar/Catalog/repeat.htm\)](#)" sections for more details on grade point average calculation. The grade point average of graduate and nondegree-seeking students is based only on graduate level courses (those numbered 600 and above). If a graduate student enrolls in undergraduate courses, grades earned in those courses will be included in the calculation of the undergraduate grade point average.

Grading and the Credit Point System

[Op3.04-31 Grading and the Credit Point System \(/Policy/Op3_04_31_CreditPointSystem.htm\)](#)

Note: This version of the policy is **effective August 21, 2017**. Contact the [office of the registrar \(/Registrar/\)](#) for the version in effect through August 20, 2017.

Faculty are required to provide final grades for all classes and mid-semester grades for 100 and 200 level full-semester courses each semester. (Faculty have the option of providing mid-semester grades for other full-semester courses as well). Final and mid-semester grade reports are available to students online. Grades are awarded to indicate the quality of a student's work and are assigned as follows. Transfer grades begin with a "T" and are listed next to the MSU equivalent grade in the chart below.

Grade MSU / Transfer Equivalent	Interpretation	Counts in Credit Hours Earned	Grade or Quality Points Per Credit Hour	Counts in GPA Hours (used to calculate GPA)
A / TA	Outstanding work. <i>Outstanding achievement relative to the level necessary to meet course requirements. Performance was of the highest level. Excellence while meeting course objectives was sustained throughout the course. Not only was the student's performance clearly and significantly above satisfactory, it was also of an independent and creative nature.</i>	Yes	4.00	Yes
A- / TA-	Excellent work. <i>Excellent achievement relative to the level necessary to meet course requirements. Performance was clearly and significantly above satisfactory, and was creative and independent.</i>	Yes	3.70	Yes
B+ / TB+	Near excellent work. <i>Achievement was significantly above the level necessary to meet course requirements. Performance was clearly and significantly above satisfactory, and was creative and independent.</i>	Yes	3.30	Yes

Grade MSU / Transfer Equivalent	Interpretation	Counts in Credit Hours Earned	Grade or Quality Points Per Credit Hour	Counts in GPA Hours (used to calculate GPA)
B / TB	Very good work. Achievement significantly above the level necessary to meet course requirements. Performance was very good, although not of the highest level. Performance was clearly and significantly above satisfactory fulfillment of course requirements (For undergraduate students: B = meritorious; For graduate students: B = adequate).	Yes	3.00	Yes
B- / TB-	Good work. Achievement at a level just above that necessary to meet course requirements. Performance was notable.	Yes	2.70	Yes
C+ / TC+	Slightly above satisfactory work. Achievement that meets the course requirements. Performance was slightly more than adequate.	Yes	2.30	Yes
C / TC	Satisfactory work. Achievement that meets the course requirements. Performance was adequate, although marginal in quality (For undergraduate students: C = adequate; For graduate students: C = inadequate).	Yes	2.00	Yes
C- / TC-	Slightly below satisfactory work. Achievement that barely meets the course requirements. Performance has been slightly below satisfactory and was marginal in quality. A C- will not fulfill a prerequisite of a C or better on any course, nor will it meet a C or better requirement on a major.	Yes	1.70	Yes
CR / TE	Credit by Prior Learning Assessment. Student receives credit for the course from credit by assessment or examination. Prior to fall 2017 such credit was recorded with a grade of P or TP.	Yes	0.00	No
D+ / TD+	Passing work. Achievement below satisfactory in meeting course requirements. Student demonstrated below satisfactory achievement in meeting course objectives, yet fulfilled a sufficient enough portion of the course objectives that repeating the course is not necessary unless required by the academic unit.	Yes	1.30	Yes
D / TD	Minimum passing work. Achievement barely worthy of credit. Student demonstrated unsatisfactory achievement in meeting course objectives, yet fulfilled a sufficient enough portion of the course objectives that repeating the course is not necessary unless required by the academic unit.	Yes	1.00	Yes
F / TF	Failed – no credit. A failure to meet course requirements. The work of course objectives were either: 1) completed but not at a level of achievement that is worthy of credit, or 2) have not been completed and there was no agreement between the instructor and the student that the student would be awarded an "I" (incomplete).	No	0.00	Yes
I	Incomplete. Grade assigned when due to unusual circumstances a small portion of a course, such as a term paper or final examination, has not been completed. (Refer to Incomplete Grade policy for more information.)	No	0.00	No
IP	In Progress course.	No	0.00	No

Grade MSU / Transfer Equivalent	Interpretation	Counts in Credit Hours Earned	Grade or Quality Points Per Credit Hour	Counts in GPA Hours (used to calculate GPA)
NG	Grade Not Yet Available/Extended Course. Grade assigned for extended course which has not yet ended.	No	0.00	No
NP / TT	Not Pass. Student did not pass the course under the Pass/Not Pass policy.	No	0.00	No
NR	Grade Not Yet Reported. Grade not submitted by instructor on time.	No	0.00	No
P / TP	Pass. Student passed the course under the Pass/Not Pass policy. Prior to fall 2017, credit by prior learning assessment was recorded as P or TP. Credit by prior learning assessment awarded after fall 2017 is recorded with a grade of CR or TE.	Yes	0.00	No
V	Visitor. Student completed the course under the Auditing a Course policy. No hours or points assigned.	No	0.00	No
W	Withdrew. Student withdrew from course without academic penalty. Prior to fall 2009 grade was recorded as an N.	No	0.00	No
XF/TXF	Failure due to academic dishonesty.	No	0.00	Yes
XM / XT	Academic Renewal. Grades and hours have been removed from GPA calculation.	No	0.00	No
Z	Deferred grade. Assigned only to students enrolled in 600-level or higher courses, restricted to graduate theses, graduate problem courses, or graduate seminars which might not be completed within a semester. Z grades not removed within four calendar years, will be changed to a W.	No	0.00	No

Graduate Credit, Undergraduate Students Taking

[*Op3.04-51 Undergraduate Students Taking Graduate Credit*](#)
[*\(/Policy/Op3_04_51 Undergraduate Students Taking Graduate Credit.htm\)*](#)

Undergraduate students have three options for taking graduate credit prior to completion of a bachelor's degree:

Mixed Credit (Accelerated Graduate Programs): Students admitted into an approved accelerated graduate degree program may have a limited number of 600-level or higher courses counted toward both an undergraduate and graduate degree. Before enrolling in a course to be counted as both undergraduate and graduate credit (mixed credit), the undergraduate student must be accepted into the accelerated program and receive prior approval from: 1) the Graduate Program Director, 2) the Department Head of the undergraduate program, and 3) the Dean of the Graduate College. All approvals must be completed prior to the end of the Change of Schedule Period for the course(s). Although a maximum of 12 credit hours may be taken as Mixed Credit, many programs have lower limits. See the "Graduate College" section of the catalog for further information.

Mixed Credit (General): Undergraduate students who meet all the admission requirements of a graduate degree or certificate program other than the completion of a baccalaureate degree may receive permission to take up to six hours of mixed (undergraduate and graduate) credit without first being admitted to a specific graduate program. In order to qualify for this credit, the student must have completed 90 or more credit hours with a minimum cumulative GPA (MSU and combined) of 3.00. Note, however, that Individual programs may have a higher required GPA. Qualified students must receive prior approval from: 1) the Graduate Program Director of the program in which the graduate course is taken; 2) the Department Head of the undergraduate major to which the mixed credit will be applied; and 3) the Dean of the Graduate College. It should be noted that permission of the Graduate Program Director of one program does not guarantee that those approved mixed credit courses can be used in a different graduate program.

Senior Permission: Undergraduate students who have accumulated at least 90 hours from Missouri State or another accredited institution may be permitted to take a maximum of 12 credits of 600-level or higher courses

for graduate credit. Students who desire to participate in this program must receive the recommendation of the head of the department in which the course(s) are offered and the approval of the Dean of the Graduate College. To be eligible, students must have a GPA of at least 3.00 on the last 60 hours of their undergraduate course work. Students are limited to a maximum of 9 credit hours of graduate level courses and a maximum of 15 credit hours of graduate and undergraduate courses combined during a semester. Courses completed for graduate credit under Senior Permission cannot be applied toward the undergraduate degree. Graduate credit earned under Senior Permission may be applied toward a graduate degree or certificate program contingent upon approval of the Graduate Program Director.

The Graduate College and the Office of the Registrar are responsible for developing and administering procedures for students utilizing the above options. Both offices will provide information on the procedures through their websites.

Incomplete Grade

[Op3.04-33 Incomplete Grade \(/Policy/Op3_04_33_IncompleteGrade.htm\)](#)

An incomplete (or "I" grade) indicates that due to unusual circumstances a small portion of a course, such as a term paper or final examination, has not been completed. If a student is unable to complete a significant part of a course, and the drop deadline has not passed, the student may drop the course and repeat it. Otherwise, a letter grade based on the work completed should be assigned per the course's grading scale. Assigning a "W" grade is not an option available to the instructor.

In each instance where an "I" grade is assigned, the instructor of the course shall, at the end of the semester in which the "I" grade is given, indicate on the Assignment of Incomplete Grade form what the student must do to complete the course and how the completed work would affect the final grade. The original copy must be filed with the appropriate department office, one copy must be given to the student, and one copy must be retained by the instructor. Students should not re-register in the course to resolve the incomplete grade. If a student re-enrolls in a course for which they have an outstanding "I" grade, the "I" grade will be changed to an "F" grade after grading has been completed for the semester of the repeat attempt and the repeat policy will apply.

An "I" grade must be removed within one calendar year after it is received, or earlier as specified by the instructor, otherwise the "I" grade automatically becomes an "F" grade. An extension of the time limit to remove an "I" grade will be made only if a written request for such extension is submitted to the Office of the Registrar by the instructor. The student should make arrangements with the instructor or the department head for completion of the work. When the work is completed, the instructor will complete a Grade Change Authorization Form online or send a Form to the Office of the Registrar for processing. The grade may be changed from an "I" grade (or from an "F" grade if the automatic change has already occurred) to the appropriate grade earned.

Members of the military (undergraduate or graduate) who re-enroll within one year of being released from military assignment shall have one year from the date of resumption of coursework at Missouri State to remove any "I" grades pending at the time of mobilization or received as a result of mobilization.

Graduating Seniors who have incomplete grades in any course used to satisfy a graduation requirement must resolve those incomplete grades by the middle of the following semester (summer for spring graduates, fall for

summer graduates, and spring for fall graduates) or they will not graduate that semester and must reapply for a future semester of graduation.

Instructor Drop

[Op3.04-34 Instructor Drop \(/Policy/Op3_04_34_InstructorDrop.htm\)](#)

If a student does not attend by the second class meeting of a semester or summer session, and has not informed the departmental office of the intent to remain in the course, the instructor may institute proceedings to drop the student from the class. This should only be done when the space is needed for another student. A faculty member may not institute drop proceedings after the third week of class. **A student cannot drop a class merely by not attending.** The student who is dropped by the instructor will be notified of such action by the Office of the Registrar.

Overload Permission

[*Op3.04-36 Overload Permission \(/Policy/Op3_04_36_OverloadPermission.htm\)*](#)

Permission must be obtained for hours taken over the maximum allowed as per the student's level. Courses for which a student is enrolled on an audit basis are counted in hours for an overload.

Undergraduate students

Maximum*: 18 hours for fall or spring semesters. Maximum of 10 hours for summer sessions. Upon the recommendation of their advisors, students who have a 3.00 or higher GPA for a semester in which a minimum of 15 hours is carried may request permission for an overload from the dean of their college.

Obtain overload permission from: Dean of college of student's major. If major is undecided, then Associate Provost for Student Development and Public Affairs.

Graduate students

Maximum*: 16 hours for fall or spring semesters. Maximum of 10 hours per summer sessions. Also, nondegree-seeking students (excluding those seeking teacher certification) may not enroll in more than nine total hours of graduate-level courses including completed, in-progress and registered without permission from the Dean of the Graduate College.

Obtain overload permission from: Dean of the Graduate College.

Precollege students

Maximum*: Nine hours for fall or spring semesters; six hours for summer semester.

Obtain overload permission from: If enrolled in the high school based (dual credit) Program, obtain permission from The Extended Campus. If enrolled in the campus based (dual enrollment), obtain permission from the Associate Provost for Student Development and Public Affairs.

* Hours for fall include fall intersession; hours for spring include winter intersession; hours for summer include summer intersession

Pass/Not Pass Grading Option

[Op3.04-37 Pass/Not Pass Grading Option \(/Policy/Op3_04_37_PassNotPass.htm\)](#)

The Pass/Not Pass grading option is intended to provide students an opportunity to pursue specialized or outside interests without penalty or reduction of grade point average. It allows students a greater degree of participation in those courses than the audit system permits. Students earning a passing grade in courses for which they were enrolled on a Pass/Not Pass basis are given a “P” grade; those failing will receive a grade of “NP”. Pass and Not Pass grades are not used in calculating grade point averages. To place a course on Pass/Not Pass, students must complete a form in the Office of the Registrar, Carrington Hall 320, any time prior to the “W” grade deadline for that course.

Caution: Prerequisite requirements of other courses may not be met with a course completed on a Pass/Not Pass basis. The decision to take a course on a Pass/Not Pass basis cannot be reversed.

Students may take courses on a Pass/Not Pass basis under the following conditions:

1. Courses taken under the Pass/Not Pass option cannot be used to satisfy general education, major, minor, professional education, or specific degree requirements. Courses taken under the Pass/Not Pass option can be counted towards the 120 minimum credit hours and 40 hours of upper-division credit hours (as applicable) required for completion of a baccalaureate degree unless otherwise restricted.
2. Honors classes cannot be taken on a Pass/Not Pass basis.
3. The Pass/Not Pass option is not available as a choice to graduate students for graduate-level courses (600 or above). Departments may elect to offer certain non-didactic graduate courses (e.g., readings, special problems, independent study, clinical internships, research and thesis) on a Pass/Not Pass only basis.
4. Courses which are graded Pass/Not Pass only are exempt from the limitations otherwise imposed upon students by Pass/Not Pass regulations.
5. If a Pass/Not Pass student does not attend class regularly or does not fulfill agreed-upon expectations, the instructor may direct the Office of the Registrar to drop the student from the class.

Policy for Military Students and Dependents Regarding Class Drops and Refunds Associated With Active Orders

[Op3.04-48 Policy for Military Students and Dependents Regarding Class Drops and Refunds Associated With Active Orders \(/Policy/Op3_04_48_WithdrawalPoliciesforMilitary.htm\)](#)

In keeping with our commitment to serving military members and their families, Missouri State University has developed the below policies which will apply to service members as well as spouses and children of mobilized service members.

Whenever possible, normal procedures for dropping all classes (withdrawing) should be followed (see [Op3.04-10 – Change of Schedule \[Add/Drop\]\(/Registrar/Catalog/chnsched.htm\)](#)). However, if a student is unable to follow these procedures due to special circumstances the University will accept documentation from a family member of the student. Appropriate documentation (such as orders) must be provided at time of drop.

Refunds

- **Tuition/Fees.** Students who drop one or more classes during a semester due to required military service will receive a 100% credit on their account for their tuition and student service fees (supplemental fees will not be refunded) at the time of the drop regardless of regular refund schedule.
- **Parking.** If required military service occurs prior to finals and the student must drop all classes a full refund of parking fees will be credited to the student's account for that semester. If required military service occurs after finals and the student has purchased an academic year pass a full refund for the future semesters charges will be credited to the student's account. Veteran Student Services will notify Parking Administration upon request from student at time of drop for refund to student account.

- **Books.** Students who must drop all classes may receive a full refund for text books purchased at the University Bookstore. Students must request a letter from Veteran Student Services confirming military drop which should be presented to the bookstore along with the books for full refund.
- **Housing.** Students who must drop all classes may receive a prorated refund for housing based on the actual number of days room and board was used prior to drop. Veteran Student Services will notify Residence Life and Services upon request from student at time of drop for refund to student account.

Grading

Should students be mobilized at such a point in the semester that the course instructor believes that they have completed a majority of the material in their class, the instructor may assign a passing grade or initiate an “I” grade. If a passing or “I” grade is not assigned, the student will receive a W grade, even if the withdrawal took place after the last day to drop or withdraw deadline. Students will receive a 100% refund only for those classes that are officially processed as a withdrawal.

Other

Graduate students who drop all classes and have assistantships can expect their stipend to end effective the day of the drop.

All other withdrawal policies indicated in [Op3.04-10](#) ([/Registrar/Catalog/chnsched.htm](#)), apply to military students/dependents as they do for any other student.

Posthumous Degree

[*Op3.04-52 Posthumous Degree Policy \(/Policy/Op3_04_52-posthumous-degree-policy.htm\)*](#)

A degree may be posthumously awarded on behalf of a deceased student if the following conditions are met.

- The student was enrolled at the University within the 12 months preceding their death.
- The student was in good academic and disciplinary standing with the University.
- Undergraduate students must have completed at least 90 credit hours toward a degree at Missouri State and made significant progress in their major.
- Graduate students must have completed at least two-thirds of the requirements toward a degree at Missouri State.
- The request was received within two years of student's death.

Requests for exceptions to the conditions above must be approved by the Degrees Committee.

The posthumous degree must be approved by the dean of the college from which the degree is being awarded, the Provost (or designee), and the President (or designee).

The procedures for implementation of this policy will be developed and administered cooperatively by the Office of the Provost and Office of the Registrar.

Posthumous Degree Procedures

Initial recommendation of a candidate for a posthumous degree may be made by a family member of the deceased student or by the appropriate department of the faculty to the Dean of the candidate's college.

To be eligible for a posthumous degree the following conditions must be met:

- The student must have been enrolled at the University within the last 12 months
- The student must be in good standing with the University
- Undergraduate students must have completed at least 90 credit hours toward a degree at Missouri State and made significant progress in their major

- Graduate students must have completed at least two-thirds of the requirements toward a degree at Missouri State

If the Dean approves the recommendation, the Dean will be responsible for contacting the student's family to ascertain the family's wishes.

Upon Dean's approval, the recommendation is routed to the Provost for approval and then to the President for approval. Approved recommendations should be forwarded to the Office of the Registrar for processing.

If deadlines allow, the student's name will be printed in the commencement program. If the family wishes, a designated member of the student's family may participate in the commencement ceremony and receive the diploma. The designated family member will not be allowed to wear academic regalia.

Appropriate transcript comments will be posted and the posthumous degree will be recorded by the Registrar.

The diploma and final transcript will be mailed to the student's family.

Prior Learning Assessment

[Op3.04-14 Prior Learning Assessment \(/Policy/Op3_04_14_PriorLearningAssessment.htm\)](#)

Note: This version of the policy is **effective August 21, 2017**. Contact the [office of the registrar \(/Registrar/\)](#) for the version in effect through August 20, 2017.

The University recognizes that students may attain college-level competencies through a variety of extra institutional means, including rigorous high school curricula, professional or military experience, corporate training, and self-directed learning. The systematic evaluation of such competencies against established course learning outcomes is known as prior learning assessment (PLA).

Academic departments determine the specific procedures they utilize to grant course credit, course waivers, or prerequisite overrides and determine the scores or outcomes required for such consideration. Credit for prior learning may be granted on the basis of institutional assessment procedures developed by departments or through external examinations, such as Advanced Placement, CLEP, and IB tests. In the case of internally developed and administered PLA protocols, departments may collect the assessment administration fee stipulated in the current fee schedule.

Departments offering PLA options for their courses must make the following information available on their websites: a list of the courses (course code and number) for which PLA options exist; a brief description of the PLA mechanism used; basic details about the administration of the assessment (frequency, dates, times, etc.); whether an assessment fee is charged; whether students may repeat or retake an assessment; the specific scores or outcomes required to grant course credit, course waivers, or prerequisite overrides; and details about whom to contact for more information. The Office of the Provost will maintain a centralized PLA website that lists all courses with PLA options and provides links to the relevant departmental websites.

All PLA hours, whether granted through institutional assessments or external examinations, are treated as transfer credit and thus cannot be applied toward residence requirements for graduation, renewal of scholarships, or other requirements based on credit earned through the University.

No more than 30 hours of PLA may be applied to the credit hour requirement for a bachelor's degree. For graduate degrees, no more than 49% of the required semester hours may be fulfilled by combining senior

permission (up to 12 hours), courses taken prior to admission to the program (up to 30%), transfer (up to 30%), and assessment of prior learning.

PLA hours are transcribed with CR or TE grades, indicating whether they were granted on the basis of institutional assessments or external examinations, respectively. When prior learning assessment takes place prior to initial enrollment, credit will be assigned to the first term in which the student enrolls. Otherwise, credit for prior learning will be assigned to the term in which prior learning is assessed.

Students who wish to receive credit for PLA granted by other institutions must consult with the head of the MSU department that offers courses in that area or a designee of the Office of the Provost. Such requests will be evaluated on a case-by-case basis.

Undergraduate students who wish to be considered for such approval should contact the Office of Admissions regarding the procedure. Graduate students should contact the Director of the graduate program in which the credit could apply.

External examinations

Some departments grant course credit, course waivers, and prerequisite overrides on the basis of scores on external examinations, which include, but are not necessarily limited to, the following:

- [Advanced Placement \(AP\)](#)
- [College Level Examination Program \(CLEP\)](#)
- [International Baccalaureate Program \(IB\)](#)
- DANTES Subject Standardized Tests (DSST)

Students must have original (official) score reports for these examinations sent to the Office of Admissions by the testing agency to be considered for credit. For individual AP, CLEP, and IB examinations, academic departments are responsible for determining whether PLA is granted and for also determining minimum score requirements, number of credit hours, and course equivalencies.

In the case of DSST exams, the determination to grant PLA is based on American Council on Education (ACE) guidelines. Students who meet the minimum score recommended by ACE on examinations that cover subjects taught by MSU will be awarded PLA based on ACE guidelines. Academic department heads are responsible for determining whether such PLA hours will be considered equivalent to a specific MSU course or considered elective credit.

Students seeking credit for prior learning on the basis of military education and experience should consult the [Credit for Military Education and Experience Policy](#)

([/Policy/Op3_04_50_Credit_for_Military_Education_and_Experience.htm](#)).

To request graduate credit on the basis of external examinations, students should contact the director of the graduate program in which the credit could apply.

Office of the Registrar

Undergraduate Catalog

Registration

[Op3.04-39 Registration \(/Policy/Op3_04_39_Registration.htm\)](#)

The University allows currently enrolled, admitted, and readmitted/reinstated students to register well in advance of the beginning of each semester. Students can check their registration status online through [My Missouri State \(https://my.missouristate.edu/\)](#). New students are informed of registration opportunities with admission materials. Evening, online and nondegree-seeking students may seek additional registration assistance through [Missouri State Outreach \(https://outreach.missouristate.edu/\)](#).

Students who meet any one of the following criteria are required to obtain advisor release each semester prior to registration:

1. Undergraduate students who have earned fewer than 75 undergraduate credits. Since these are earned credits, in-progress credits do not apply.
2. Undergraduate students who have obtained fewer than three prior spring or fall advising releases.
3. Undergraduate students on academic probation.
4. Graduate students.

Students who are in good academic standing and plan to return within one calendar year under the same classification do not require readmission for registration. Students who have University holds that restrict registration are not permitted to register for any succeeding semester or summer term until such holds have been removed.

Individuals intending to participate in a class are not permitted to attend unless they are officially registered in those classes. Exceptions must be approved by the instructor and department head of the course, in consultation with the Office of the Registrar. Visitors, without the expectation of receiving class credit, may attend class sessions on a limited basis at the discretion of the instructor.

Once enrolled, students are required to withdraw from their courses if they will not be able to attend. Failure to do so will result in failing grades and continued financial obligations. See "[Procedures for Adding and Dropping Classes \(and Withdrawing\) \(/Registrar/add-dropprocedures.htm\)](#)" section.

Repeat Policy

[Op3.04-40 Repeat Policy \(Policy/Op3_04_40_RepeatPolicy.htm\)](#)

A student may repeat any of the courses that he or she has taken at Missouri State University. All attempts at the course and the grades earned (including those resulting in a W, I, and Z) appear on the transcript. The grade from the most recent attempt at the course, including the repeat of a Pass/Not Pass grade with a standard letter grade, (though not a W, I, or Z) will be the one that counts in GPA calculations. For example, if a student takes the course four times and gets a P, B, C, and W, in that order, then the C would be their official grade that would be used when calculating the student's grade point average. Also, a course that has been repeated will only be counted once in the student's total credit hours earned.

This policy applies to course repeat attempts taken fall 2009 and subsequent semesters. When the most recent repeat attempt was taken prior to fall 2009, the policy published in the 2008-09 Undergraduate Catalog will be applied.

The repeat policy is applicable to transfer credit as well as credit earned at Missouri State. For example, if a student earns a C in a course at Missouri State and repeats an equivalent course at another institution, the C will be removed from the calculation of the Missouri State GPA. The transfer grade, however, will be included only in the transfer and combined grade point averages. See Grade Equivalencies in the "Transfer Credit Policy" section of the catalog for further information.

Students should also be aware that even though a course prefix, number, and/or title changes, it is still considered the same course for repeat policy purposes. The Office of the Registrar maintains the complete listing of course prefix and number changes and should be contacted for such questions.

Students should also be aware that many graduate and professional schools recalculate GPAs taking into account every grade that appears on a transcript.

Students who are receiving financial aid must consider the impact of repeating classes on their eligibility for financial aid for future semesters. While repeated courses are counted when determining a student's enrollment status and annual satisfactory progress, students who fail to progress toward graduation (i.e., by increasing total hours earned) may exhaust their aid eligibility prior to graduation.

Scholastic Honors

[*Op3.04-41 Scholastic Honors \(/Policy/Op3_04_41_ScholasticHonors.htm\)*](#)

Special distinction is awarded to students who demonstrate high scholarship in completing a baccalaureate degree. Honors are conferred according to the requirements in effect at the time of graduation from the university.

Students admitted prior to fall 2004 should reference the catalog year of their admitted term for scholastic honors requirements.

Missouri State credit hours and grade point average include courses taken at the West Plains Campus prior to fall 1995. Courses taken at the West Plains Campus fall 1995 and after are considered to be transfer credit.

Requirements to be met for students graduating from the university spring 2020 and beyond

1. Completion of 30 undergraduate credit hours at Missouri State, and
2. a Missouri State grade point average of 3.50 or better, and
3. a combined (Missouri State and transfer) grade point average of 3.50 or better.

Honors will then be granted based on the lower grade point average of either Missouri State or combined as follows:

- GPA of 3.50 - 3.74 — Cum Laude
- GPA of 3.75 - 3.89 — Magna Cum Laude
- GPA of 3.90 - 4.00 — Summa Cum Laude

Requirements to be met for students graduating from the university prior to spring 2020

1. Completion of 60 undergraduate credit hours at Missouri State, and

2. a Missouri State grade point average of 3.50 or better, and
3. a combined (Missouri State and transfer) grade point average of 3.50 or better.

Honors will then be granted based on the lower grade point average of either Missouri State or combined as follows:

- GPA of 3.50 - 3.74 — Cum Laude
- GPA of 3.75 - 3.89 — Magna Cum Laude
- GPA of 3.90 - 4.00 — Summa Cum Laude

Scholastic honors

Students who meet the above GPA criteria according to the protocol below shall be honored at commencement ceremonies.

- Scholastic honors for spring and fall graduates shall be determined on the basis of their credit hour totals and grade point average(s) at the end of the semester preceding their semester of graduation (and include in-progress hours), and
- Because there is not a summer ceremony, scholastic honors for summer graduates choosing to participate in the spring ceremony shall be determined on the basis of their credit hour totals and grade point average(s) at the end of the fall semester preceding their semester of graduation (and include in-progress hours).

Students who qualify for scholastic honors shall have those honors entered on their academic record and printed on their diploma.

Student Complaint Procedures

[Op5.11-2 Student Complaint Procedures \(/Policy/Op5_11_2_StudentComplaintProcedures.htm\)](#)

Policy statement

Definitions

Appeal: The process by which a student may request an exception to a University policy or challenge a decision made by the University. Most University policies have established appeal procedures.

Complaint or grievance: Complaints and grievances are used interchangeably in the policy library, but in either case they are an expression of dissatisfaction with a University policy, the application of a policy in a particular situation, a service (or lack thereof) provided by the University, and/or the actions of a member of the University community (faculty, staff, or student). Complaints can be informal or formal.

Informal complaints are generally those handled through discussion with a representative of the unit or department on campus in which the issue originated.

Formal complaints are those submitted in writing (electronic or hard copy) to address issues that could not be resolved informally. Formal complaints should be submitted to the appropriate administrator of the office, department, or unit involved and should include a description of the issue or concern and the steps taken to resolve it through the informal process as well as the name and contact information (email and/or phone and/or address) of the complainant.

In some cases, both an appeal and a complaint may be filed about the same issue (e.g., an appeal for a refund as an exception to policy based on dissatisfaction with the actions of a member of the faculty or staff).

Policy statement

Missouri State University seeks to provide quality programs and services for the benefit of the public while ensuring compliance with all applicable laws and consistent application of all institutional policies as found in the [Policy Library \(/Policy/\)](#).

Consistent with these objectives, the University also provides avenues for individuals who wish to file an appeal or complaint. The [Policy Library](#) ([Policy](#)) provides links to a number of specific policies that provide students and others with opportunities to appeal decisions of the institution and/or file complaints. These policies include, but are not limited to, the following:

- [Code of Student Rights and Responsibilities](#)
- [Dating/Domestic Violence](#)
- [Discrimination and Harassment Complaint Procedures](#)
- [Ethics Hotline-Whistleblower Policy](#)
- [Grade Appeals and Academic Grievances](#)
- [HIPAA Complaint Process](#)
- [Sexual Assault](#)
- [Stalking](#)

Individuals who have a concern are encouraged to review the policy library for relevant policies and associated procedures. Complaints regarding discrimination, harassment or sexual misconduct shall always follow the procedures set out in those policies, and those policies shall control.

For complaints not covered by specific policies or procedures, individuals are encouraged to address their concerns through an informal complaint process by following the appropriate chain of command in accordance with the [university's organizational structure](#) ([About/organizational-chart.htm](#)). For example, complaints about an office or department (or an individual in a department or office) should be addressed to the director or department head of that unit. Individuals who are not satisfied that a complaint has been adequately addressed may pursue it to the next level within the administrative structure up through the vice president level.

Students who are unable to resolve their concern through this process may file a formal (written) complaint. A record of such complaints will be maintained at the vice president level.

Individuals who are unsure of relevant policies or procedures for addressing a specific issue or who need guidance regarding the organizational structure of the institution are encouraged to review the [Student Grievance Resources](#) ([StudentGrievance/](#)) webpage and/or to contact their academic advisor, the [Dean of Students](#) ([DOS/](#)), or [Associate Provost for Student Development and Public Affairs](#) ([StudentSuccess/](#)).

The Missouri Department of Higher Education (MDHE) serves as a clearinghouse for postsecondary student complaints. The [MDHE complaint policy](#) (<http://www.dhe.mo.gov/documents/POLICYONCOMPLAINTRESOLUTION.pdf>) contains information about the complaint process and includes instructions for how to file a formal complaint. Note that the policy provides that a student who wishes to file a complaint with the department must first exhaust all formal and informal avenues provided by the institution to resolve disputes.

Student Legal Information and Status

[Op3.04-35 Change of Student Legal Information and Status \(/Policy/Op3_04_35_change-student-legal-information.htm\)](#)

Students may change legal information such as name, marital status, social security number, date of birth, sex, guardianship (parent or legal guardian) or citizenship status by submitting suitable legal documentation along with the [Change of Student Information \(/Registrar/studentchangeinfo.htm\)](#) form to the Office of the Registrar.

Suitable legal documentation consists of documents required by the State of Missouri to make the requested change and will vary depending on the information sought to be changed and could include, but is not limited to: driver's license, official state ID card, Social Security card, certified copy of marriage license, court order from a court of competent jurisdiction, current passport or official proof of identity certified by the U.S. embassy abroad or by the appropriate foreign embassy in the United States.

When academic records are maintained on microfilm, the student's name cannot be updated on the microfilm. Students who last attended Missouri State University before 1985 have microfilm records. A [Change of Student Information \(/Registrar/studentchangeinfo.htm\)](#) form is available online.

Students are expected to keep addresses, phone numbers, personal email addresses, and emergency contact information up-to-date. The Change of Student Information form is not intended to update a student's contact information or emergency contact. Updates to students' contact information or emergency contact must be done through the [Change of Student Contact Information \(/Registrar/changeofaddress.htm\)](#) form.

All current and previous names, addresses, phone numbers, and email addresses are permanently maintained as part of the student's record.

The Office of the Registrar will be responsible for establishing and communicating the procedure for requesting a student information change.

Undergraduate Catalog

Undergraduate Transfer Credit Policy

[Op3.04-45 Undergraduate Transfer Credit Policy \(/Policy/Op3_04_45_UndergraduateTransferCredit.htm\)](#)

Introduction

Missouri State University (MSU) welcomes transfer students and endorses the "[Joint Statement on Transfer and Award of Academic Credit](https://www.acenet.edu/news-room/Pages/Joint-Statement-on-the-Transfer-and-Award-of-Credit.aspx)" approved by the American Council on Education, the American Association of Collegiate Registrars and Admissions Officers and the Council for Higher Education Accreditation. Many of the principles of that statement are inherent to this policy.

Determination of transferability

MSU awards credit in transfer for undergraduate courses completed at colleges and universities accredited by [regional accrediting associations](https://www.chea.org/regional-accrediting-organizations) recognized by the United States Department of Education (USDE).

To be accepted, coursework must have been completed at an institution after it received accreditation or during the time it was granted candidacy status for accreditation from one of the above accrediting associations

In addition, transfer credit is:

- awarded for regular academic courses taken at institutions accredited by the Association for Biblical Higher Education (ABHE). Courses such as mission, theology, doctrine, homiletics, and religious education courses are not accepted. A limited number of Bible courses (e.g., Old Testament, New Testament, Life of Christ, and Life of Paul) that are substantially similar to courses offered at MSU may be accepted. Education courses transfer only as general electives.
- awarded for courses completed at colleges and universities outside of the United States that are accredited or approved by the Ministry of Education (or other appropriate governmental agency) of the country in which they are located. Credit and placement decisions are based on recommendations of the American Association of Collegiate Registrars and Admissions Officers, NAFSA: Association of International

Educators, and selected other professional organizations and agencies that evaluate foreign educational institutions.

- generally *not* awarded for courses completed at institutions not accredited or approved as indicated above. Exceptions may be approved on a course-by-course basis by the head of the MSU department through which similar course are offered. In the case of courses that may be applicable to general education requirements at MSU but that do not have specific equivalents, exceptions must be approved by the Provost or designee. Students should contact the Office of Admissions for information on the procedure.
- not awarded for remedial courses.
- awarded for graduate credit at another institution only if approved by the head of the appropriate academic department at MSU.
- generally only awarded for vocational-technical courses if they are included in a transfer agreement with the source institution or on a case-by-case basis with approval by the Provost as applicable to an MSU degree program.
- awarded and posted to transcripts only for students who enroll at MSU subsequent to completing coursework at other institutions.

Course equivalencies

Transfer equivalencies are based on current policies and generally reflect course numbers from the MSU catalog at the time the evaluation is conducted. MSU courses and course numbers are subject to change; thus, transfer equivalencies are subject to change as well. MSU maintains a [transfer course equivalency website](https://mis.missouristate.edu/Student/transEquiv/transEquiv) (<https://mis.missouristate.edu/Student/transEquiv/transEquiv>). Established course equivalencies for most Missouri and many out-of-state institutions are included. Current MSU students who plan to take courses at other institutions are encouraged to consult with their advisors and to confirm transferability of such courses prior to enrolling.

Courses from institutions that participate in the Missouri Higher Education Core Curriculum (CORE 42) initiative that have been designated as CORE 42 courses will transfer in accordance with the statewide policy. The [MSU CORE 42 website](#) ([/GeneralEducation/core42.htm](#)) provides additional details.

Initial determination of course equivalencies

Initial determinations of transfer credit equivalencies are made by the MSU Office of Admissions through a comparison of course descriptions and/or course titles. If substantial similarity exists between a course taken at another institution and an MSU course, transfer credit will be awarded for the MSU course. If substantial similarity does not exist, but the course is in a subject matter taught at MSU under a specific subject code, elective credit will be awarded under that subject code (e.g., MTH electives for a mathematics course).

If the content of a course includes subject matter offered in more than one MSU department or if the course description does not provide sufficient information to assign the credit to a specific prefix, general elective credit will be awarded. In some such cases, the course may be designated as applicable to a specific category of the MSU general education requirements. Elective credits awarded for upper-division courses taken at four-year colleges and universities will be designated as upper-division for transfer purposes (i.e., will apply to the upper-division credit hour requirement for graduation at MSU).

Appeal of transferability or course equivalencies

The ultimate authority for transfer of credit rests with the head of the department through which similar courses are offered at MSU. Students who wish to appeal the initial evaluation or transferability of a course may do so through the online "[Transfer Credit Reevaluation and Preapproval](#)"

([/Transfer/transfercreditevaluationandpreapproval.htm](#))” system on [My Missouri State \(https://my.missouristate.edu/\)](#) through which requests are routed to the appropriate department head. This process is available only to admitted students who have conferred with an academic advisor and received an initial advisor release to register. When making an appeal, students must be prepared to provide supporting documentation (e.g., a course syllabus, course description from the other institution's catalog, examples of work).

Students who have taken courses that do not have specific equivalencies at MSU but that appear to be substantially similar to courses in the MSU general education program may appeal through the Transfer Credit Reevaluation and Preapproval system to have those courses applied to the general education program. Such appeals will be routed to the appropriate designee of the Provost for review. Students should be prepared to provide supporting documentation as indicated above. Students may also appeal to have courses applied to the CORE 42 requirement. The procedure is described on the [CORE 42 website \(/GeneralEducation/core42.htm\)](#).

Credit hour equivalencies

Credit is converted to semester hour equivalents. In converting quarter hours to semester hours, a conversion factor of two-thirds is used.

If a course at another institution is offered for fewer credit hours than an equivalent course at MSU (e.g., if a three credit hour course at another institution is substantially similar in content to a four credit hour course at MSU), the student will be given transfer credit for the equivalent course at MSU but only for the number of credit hours earned at the other institution. In such cases, the student may need to take an additional course to fulfill MSU credit hour requirements. Conversely, if the number of credit hours for a course at another institution is greater than the credit hours attached to the MSU course, the student will be given credit for the MSU course and additional elective credit to make up the difference.

Grade equivalencies

Transfer grade equivalents will be determined and recorded with the student's transfer credit. Credit will be awarded for courses in which a passing grade was earned. Grades of "F" are included in the calculation of the transfer grade point average. In all cases, transfer grades are preceded by a T (e.g., TA) on a student's MSU transcript.

Transfer grades are assigned on the basis of the MSU grading policy. Courses taken at institutions that do not use a grading system comparable to the MSU grading system (i.e., an A, B, C, D, F grading scale, regardless of whether pluses and minuses are used) will be evaluated with the transfer grade equivalents of Pass or Not Pass. "Withdraw failing" grades are calculated in a student's transfer grade point average as "F" grades. Failing grades assigned as a result of academic dishonesty will be so noted in transfer and treated as "F" grades.

Courses for which transfer credit is awarded that are taken at colleges and universities not accredited by a USDE approved regional accrediting organization or the ABHE will be treated as "Pass/Not Pass" courses for grading purposes. This includes courses taken through colleges or universities in other countries.

A student's grade point average at MSU is based only on courses completed at MSU. A transfer grade point average is carried as part of the student's total record. The MSU and transfer grade point average are combined into a combined grade point average. Refer to the MSU undergraduate catalog for details on how MSU and combined grade point averages are used (e.g., to determine eligibility for admission to programs, academic status, and graduation honors).

Repeating courses

The MSU [repeat policy](#) ([/Registrar/Catalog/repeat.htm](#)) applies to transfer credit as well as MSU credit. Transfer students also have the option to apply for academic renewal under the [academic renewal policy](#) ([/Policy/Op3_04_2_AcademicRenewal.htm](#)).

Transfer of general education requirements

MSU adheres to the guidelines set forth in [Credit Transfer: Guidelines for Student Transfer and Articulation among Missouri Colleges and Universities](#) (<https://dhe.mo.gov/files/policies/credittransfer.pdf>), approved by the Missouri Coordinating Board for Higher Education (CBHE) in June 2000 and revised in April 2013. Under these guidelines, students who transfer from Missouri public colleges and universities and Missouri private institutions that adhere to these guidelines will be considered as having met the MSU general education requirements if they complete:

- an Associate of Arts (AA) or an Associate of Arts in Teaching (AAT) degree; or,
- the Missouri CORE 42 requirement; or,
- the designated general education program at the other institution, provided that the institution certifies the student's completion of that program on an official transcript.

MSU will also honor an AA or AAT degree from any college or university accredited by a USDE-recognized regional accrediting organization. Students with an AA or AAT degree from such an institution will be exempt from the MSU general education requirements. This is a policy of MSU and may not be recognized by other institutions to which a student may subsequently transfer.

Students with a two-year degree other than an AA or AAT (for example, an Associate of Science or an Associate of Applied Science) are not exempt from MSU general education requirements on the basis of their degrees unless approved for an exception by the Provost or designee. Such students will receive a course-by-course evaluation of their transfer credit that will indicate applicability of their courses to MSU general education requirements.

Students who have a bachelor's degree from a college or university accredited by a USDE-recognized regional accrediting organization or by the ABHE and who wish to pursue an additional undergraduate degree will be exempt from all general education requirements at MSU.

Students who have completed or been exempted from the general education requirements by any of the provisions listed above are not exempt from specific course requirements for their majors, even if those courses may be used to satisfy general education requirements at MSU.

Special provisions regarding transfer of credit from two-year institutions

Students are generally awarded only lower division credit for courses completed at two-year institutions. Departments may approve individual courses for upper division credit and may require that a student complete a validation examination or course at MSU.

Professional education courses at Missouri community colleges must be approved by the Missouri Department of Elementary and Secondary Education (DESE) to be acceptable in transfer as specific equivalencies for MSU

professional education courses required for the Bachelor of Science in Education or Bachelor of Music Education degrees. Such courses that are not approved by DESE may transfer as elective credit.

If a direct equivalency is not given by an academic department, but the College of Education decides that substantial similarity exists between a course taken at the community college with the DESE approved education program and an MSU course with respect to Missouri Teaching Standards (MTS), a code will be assigned to the transfer credit associated with the community college course that will allow it to substitute for the MSU course in an undergraduate education degree program. Such credit is at the lower-division level unless otherwise specified.

The MSU [Professional Education Certification](#) ([/Certification/](#)) office maintains additional information on its website.

Transfer credit limit

No limit exists on the number of credits that may be transferred from other institutions; however, students must meet the minimum residence and upper division requirements in effect at MSU to receive a degree, as described in the MSU catalog.

Transfer of dual credit courses

Courses taken for dual credit (courses for which students receive both high school and college credit) are evaluated for transfer credit in the same manner as traditional courses offered by the institution through which they are taken. No limit exists on the number of transfer credit hours that will be awarded for dual credit courses.

Credit for military education and experience

MSU maintains a separate policy regarding [credit for military education and experience](#) ([/Policy/Op3_04_50_Credit_for_Military_Education_and_Experience.htm](#)).

Prior learning assessment/credit for experiential learning

The University recognizes that students may attain college-level competencies through a variety of extra institutional means, including rigorous high school curricula, professional or military experience, corporate training, and self-directed learning. MSU maintains a separate [prior learning assessment policy](#) ([/Registrar/Catalog/priorlearning.htm](#)) through which students may be considered for credit.

Administration of policy and right of appeal

The Provost has delegated the authority for administering this policy to the Office of Admissions. Students with questions regarding initial determinations of transferability or course equivalencies are encouraged to contact the Office of Admissions for clarification or guidance. Appeals of transferability or course equivalency decisions may be submitted as outlined under the "Appeal of transferability or course equivalencies" section of this policy. Students have a right to appeal previous decisions by contacting the MSU Articulation Officer, appointed by the Provost. The final level of appeal within the institution is the Provost. Students from Missouri public institutions have the right of further appeal as outlined in [Credit Transfer: Guidelines for Student Transfer and Articulation](#)

[among Missouri Colleges and Universities](https://dhe.mo.gov/files/policies/credittransfer.pdf) (<https://dhe.mo.gov/files/policies/credittransfer.pdf>), available on the CBHE website.

General Education Program and Requirements

Every course in the program will promote a common set of General Education objectives. The major components are Foundations and Breadth of Knowledge.

- Most students will complete the General Education Program with 45 credit hours.
- Many majors and degrees require specific General Education courses. Students should review specific major and/or degree requirements before enrolling in General Education courses.
- Students are strongly encouraged to complete their Foundations before completing 75 credit hours.
- All students are required to have a 2.00 cumulative grade point average (transfer and Missouri State combined) in their General Education Program in order to graduate.
- General Education courses may not be taken on a Pass/Not Pass basis.
- Excluding the Foundations area, students may count no more than three courses with the same course code towards the General Education requirements.

Foundations (14-16 hours)

First-year seminar

General Learning Goals: Public Affairs (GG12, GG13 and GG14), Information Literacy (GG6), and Collaboration (GG7).

Complete one course (2 hours). Must be taken during first semester on campus.

Course options:

- [GEP 101](#) First Year Foundations (2) **OR**
- [UHC 110](#) Freshman Honors Seminar (2) Note: required for Honors College students.

Focus on Written Communication and Information Literacy

General Learning Goals: Written Communication (GG3) and Information Literacy (GG6).

Complete one course (3 hours). Should be taken during first year.

Course option:

- [ENG 110](#) Writing I (3)

Focus on Oral Communication

General Learning Goals: Oral Communication (GG4) and Information Literacy (GG6).

Complete one course (3 hours). Should be taken during first year.

Course option:

- [COM 115](#) Fundamentals of Public Speaking (3)

Focus on Quantitative Literacy

General Learning Goals: Quantitative Literacy (GG5).

Complete one course (3-5 hours).

Course options:

- [MTH 130](#) Contemporary Mathematics (3)
- [MTH 134](#) Algebraic Reasoning and Modeling (3)
- [MTH 136](#) Pre-Calculus 1 (3)
- [MTH 137](#) Pre-Calculus 2 (3)
- [MTH 138](#) Pre-Calculus Mathematics (5)
- [MTH 261](#) Analytical Geometry and Calculus I (5)
- [MTH 287](#) Computational Calculus with Analytical Geometry I (3)

Focus on Written Communication and Integrative and Applied Learning

General Learning Goals: Written Communication (GG3) and Integrative and Applied Learning (GG15).

Complete one course (3 hours).

Course options:

- [AGR 320](#) Writing II: Writing in the Applied Sciences (3)
- [ENG 210](#) Writing II: Writing Across the Disciplines (3)
- [ENG 221](#) Writing II: Writing for the Professions (3)
- [ENG 310](#) Writing II: Writing for Graduate and Professional Schools (3)
- [ENG 321](#) Writing II: Beginning Technical Writing (3)
- [GLG 358](#) Writing II: Reporting Geological Information (3)
- [HST 210](#) Writing II: Historical Inquiry (3)

Breadth of Knowledge (31-33 hours)

Knowledge of Human Cultures (12 hours, four different course codes)

Focus on Social and Behavioral Sciences

General Learning Goals: Social and Behavioral Sciences (GG8).

Complete two courses (6 hours).

Course options:

- [AGR 100](#) Food Security (3)
- [ANT 125](#) Exploring our Human Ancestry (3)
- [CFD 155](#) Principles of Human Development (3)
- [CFD 163](#) Relationships in Today's Families (3)
- [CRM 220](#) Criminology (3)
- [ECO 155](#) Principles of Macroeconomics (3)
- [ECO 165](#) Principles of Microeconomics (3)
- [GRY 108](#) Principles of Sustainability (3)
- [MED 120](#) Mass Media and Society (3)
- [PSY 121](#) Introductory Psychology (3)
- [REL 131](#) Religion in America (3)
- [SOC 150](#) Introduction to Society (3)

Focus on Humanities

General Learning Goals: Humanities and the Arts (GG9).

Complete one course (3 hours).

Course options:

- [AAS 100](#) Introduction to African American Studies (3)
- [ART 271](#) History of Western Art I (3)
- [ART 272](#) History of Western Art II (3)
- [ART 273](#) Survey of the Art of Africa, Oceania, and the Americas (3)
- [ART 274](#) Survey of Asian Art (3)
- [ENG 200](#) Great Books and Instant Classics (3)
- [ENG 282](#) Literature by Women (3)
- [ENG 283](#) Folklore and Cultural Engagement (3)
- [HST 103](#) World History to Circa 1600 C.E. (3)
- [HST 104](#) World History Since 1600 C.E. (3)
- [LLT 121](#) Classical Mythology (3)

- [PHI 110](#) Introduction to Philosophy (3)
- [REL 101](#) Old Testament/Hebrew Bible (3)
- [REL 102](#) New Testament (3)

Focus on the Arts

General Learning Goals: Humanities and the Arts (GG9) and Collaboration (GG7).

Complete one course, (3 hours).

Course options:

- [ART 200](#) Art in Context (3)
- [DAN 180](#) Introduction to the Dance (3)
- [ENG 203](#) Creative Writing: Poetry (3)
- [ENG 205](#) Creative Writing: Nonfiction (3)
- [ENG 215](#) Creative Writing: Short Story (3)
- [MUS 239](#) Introduction to World Music (3)
- [THE 101](#) Introduction to Theatre and Drama Arts (3)

Knowledge of the Natural World

(7-9 hours with one course in each category (e.g., focus); with two different course codes; and at least one course must have a lab.)

Focus on Life Sciences

General Learning Goals: Life Sciences (GG10).

Complete one course (3-4 hours).

Course options:

- [BIO 100](#) Biological Sciences for Educators (4) (lab)
- [BIO 101](#) Biology in Your World (3)

- [BIO 111](#) Laboratory for Biology in Your World (1) (lab). Note: Student must have completed BIO 101 or be concurrently enrolled in both BIO 101 and BIO 111.
- [BIO 121](#) General Biology I (4) (lab)
- [BMS 100](#) Essentials in Human Biology (3)
- [BMS 101](#) Essentials in Human Biology Laboratory (1) (lab). Note: Student must have completed BMS 100 or be concurrently enrolled in both BMS 100 and BMS 101.
- [BMS 110](#) Introduction to Human Biology (3)
- [BMS 111](#) Introduction to Human Biology Laboratory (1) (lab). Note: Student must have completed BMS 110 or be concurrently enrolled in both BMS 110 and BSM 111.
- [GLG 115](#) Life of the Past (3)

Focus on Physical Sciences

General Learning Goals: Physical Sciences (GG11).

Complete one course (3-5 hours).

Course options:

- [AST 113](#) Modern Astronomy (3)
- [AST 114](#) Survey of Astronomy (4)
- [AST 115](#) Basic Astronomy (4) (lab)
- [CHM 107](#) Chemistry for the Citizen (3)
- [CHM 108](#) Chemistry for the Citizen Laboratory (1) (lab). Note: Student must have completed CHM 107 with a grade of "C" or better or be concurrently enrolled in both CHM 107 and CHM 108.
- [CHM 116](#) Fundamentals of Chemistry (4)
- [CHM 117](#) Fundamentals of Chemistry Laboratory (1) (lab). Note: Student must have completed CHM 116 with a grade of "C" or better or be concurrently enrolled in both CHM 116 and CHM 117.
- [CHM 160](#) General Chemistry I (4)
- [CHM 161](#) General Chemistry I Laboratory (1) (lab). Note: Student must have completed CHM 160 or be concurrently enrolled in both CHM 160 and CHM 161.
- [GLG 110](#) Principles of Geology (4) (lab)
- [GLG 171](#) Environmental Geology (3)
- [GRY 135](#) Principles of Weather and Climate (4) (lab)
- [GRY 142](#) Introductory Physical Geography (4) (lab)
- [PHY 100](#) Survey of Physics with Laboratory (4) (lab)
- [PHY 101](#) Physics by Inquiry for Educators (4) (lab)
- [PHY 123](#) Introduction to Physics I (4) (lab)
- [PHY 203](#) Foundations of Physics I (5) (lab)

Public Affairs (12 hours; four different course codes)

Focus on Constitutions of U.S. and Missouri and American History and Institutions

General Learning Goals: Cultural Competence (GG13) and either Community Engagement (GG12) or Ethical Leadership (GG14).

Complete two courses (6 hours) with two different course codes.

Course options:

- [HST 121](#) Survey of the History of the United States to 1877 (3) **OR**
[HST 122](#) Survey of the History of the United States Since 1877 (3)
- [PLS 101](#) American Democracy and Citizenship (3)

Focus on Cultural Competence

General Learning Goals: Cultural Competence (GG13) and either Community Engagement (GG12) or Ethical Leadership (GG14).

Complete one course (3 hours).

Course options:

- [ANT 100](#) World Cultures (3)
- [COM 260](#) Communicating with Cultural Competence (3 hours)
- [ENG 289](#) Literature, Culture, and Conflict (3)
- [GRY 100](#) World Regional Geography (3)
- [IDS 297](#) International Culture and Study Abroad (3)
- [LLT 180](#) The Heroic Quest (3)
- [MCL 100](#) Language and Culture in Global Context (3)
- [MTH 121](#) Multicultural Views of History and Mathematics (3)
- [REL 100](#) Introduction to Religion (3)
- [REL 210](#) Paths of World Religion (3)
- [SWK 219](#) Human Diversity (3)

Focus on Public Issues

General Learning Goals: Critical Inquiry (GG1), Creative Thinking and Expression (GG2), and Public Affairs (GG12, GG13 or GG14).

Complete one course (3 hours). Prerequisite: 12 completed hours.

Note: *Students who successfully complete Basic Training in any of the United States Military branches will be awarded 3 hours of transfer credit which will satisfy the Focus on Public Issues requirement.*

Course options:

- [CRM 210](#) Introduction to the American Criminal Justice System (3)
- [ECO 101](#) Economics of Social Issues (3)
- [EDC 249](#) Schooling in America (3)
- [ENG 201](#) Public Issues in Popular Culture (3)
- [ENG 222](#) Writing for Social Change (3)
- [GEO 200](#) Exploring Our Digital Earth (3)
- [ITC 200](#) Critical and Creative Thinking Using Information Technology (3)
- [KIN 210](#) Healthy Lifestyles: Preventive Approaches (3)
- [KIN 286](#) Ethics and Diversity in American Sport (3)
- [PHI 105](#) Critical Thinking (3)
- [PHI 115](#) Ethics and Contemporary Issues (3)
- [PLN 100](#) Introduction to Urban Studies (3)

-

Appeals for exceptions

The General Education Program of the University is administered by the Associate Provost for Student Success. Appeals for exceptions to the General Education Program requirements should be made to the Associate Provost for Student Success. Students who are unsatisfied with the Associate Provost's decision may appeal to the [Degrees Committee](#) ([/Provost/DegreesCommitteeGuidelines.htm](#)). Students who are unsatisfied with the Degrees Committee decision may appeal to the Provost.

42-hour general education transfer block

In accordance with the transfer policy of the Missouri Coordinating Board of Higher Education, Missouri State has identified the following 42-hour block of general education classes. Upon completion of this block, a student may submit a request through the Office of the Registrar for a 42-hour block notation to be entered on the student's transcript. If the student then transfers to another participating school in the state, the receiving institution should accept the Missouri State 42-hour block as equivalent to their own general education block. In a similar manner, if a student transfers to Missouri State with certification of a completed 42-hour general education block from another participating institution, the student will not be required to take any of the following classes at Missouri State unless they are needed to fulfill a requirement of the student's major, minor or degree.

Foundations (14 hours):

1. First Year Seminar (2)
2. Focus on Written Communication and Information Literacy; ENG 110 (3)
3. Focus on Oral Communication; COM 115 (3)
4. Focus on Quantitative Literacy (3)
5. Focus on Written Communication and Integrative and Applied Learning (3)

Breadth of Knowledge (28 hours):

1. Knowledge of Human Cultures (12)
 - a. Focus on Social and Behavioral Sciences (6)
 - b. Focus on Humanities (3)
 - c. Focus on the Arts (3)
 2. Knowledge of the Natural World (7)
 - a. Focus on Life Sciences (3)
 - b. Focus on Physical Sciences (3)
 - c. Life or Physical Sciences Lab; separate or embedded (1)
 3. Public Affairs (9)
 - a. Focus on Constitutions of U.S. and Missouri and American History and Institutions (3)
 - b. Focus on Cultural Competence (3)
 - c. Focus on Public Issues (3)
-

CORE 42 - Missouri Higher Education Core Transfer Curriculum

CORE 42 is a statewide transferable general education lower-division core curriculum of 42 semester credit hours among all Missouri's public Institutions of Higher Education (IHE). The courses are designed to ensure that all graduates from Missouri IHE possess a common core of college-level competencies, skills, and knowledge. Completion of all 42 semester credit hours will result in completion of general education at any Missouri IHE. Upon completion of this CORE 42, a student may submit a request through the Office of the Registrar for a CORE 42 notation to be entered on the student's transcript. If the student then transfers to another participating school in the state, the receiving institution will accept the Missouri State CORE 42 as equivalent to their own general education block. In a similar manner, if a student transfers to Missouri State with certification of CORE 42 from another Missouri IHE, the student will not be required to take any of the Missouri State General Education requirements unless they are a requirement of the student's major, minor, or degree.

View the list of approved MOTR courses offered at Missouri State University at: [CORE 42 at MSU website \(/GeneralEducation/core42.htm\)](https://www.missouristate.edu/GeneralEducation/core42.htm). For approved MOTR courses at other Missouri public colleges and universities go to: [Missouri Department of Higher Education CORE. \(https://journeytocollege.mo.gov/finish/transfer-credit/core-42/\)](https://journeytocollege.mo.gov/finish/transfer-credit/core-42/)

CORE 42 is comprised of at least 42 semester credit hours of courses distributed across five knowledge areas. Courses that are approved for CORE 42 contain a Missouri Transfer (MOTR) course number in the undergraduate catalog.

CORE 42 Knowledge Areas and Requirements:

1. Communications (minimum of 9 MOTR credit hours)
 - a. Written Communications (minimum of 6 MOTR credit hours)
 - b. Oral Communications (minimum of 3 MOTR credit hours)
2. Mathematical Sciences (minimum of 3 MOTR credit hours)

*MTH courses that use one of the MOTR MATH courses as a prerequisite will meet requirement for this area (i.e. Trigonometry, Calculus, etc.).
3. Social and Behavioral Sciences (minimum of 9 credit hours)
 - a. Must include minimum of 3 credit hours Civics course (MOTR POSC 101, MOTR HIST 101, or MOTR HIST 102)
 - b. Must include at least 2 disciplines (e.g., MOTR PSYC 100, MOTR HIST 101; discipline designation four letters after MOTR before the number)
4. Natural Sciences (minimum of 7 credit hours from 2 disciplines; one MOTR course with a lab component)
5. Humanities and Fine Arts (minimum of 9 credit hours; from at least 2 disciplines)
6. Additional MOTR Courses (select from any knowledge area MOTR courses to make at least 42 MOTR credit hours; approximately 5 MOTR credits).

Eligibility for CORE 42 completion instead of Missouri State University General Education is determined using the following criteria:

- Student has transferred to Missouri State University in the spring 2019 semester or later from a Missouri public college or university.
- Student has earned 12 or more transferrable credit hours at a Missouri public college or university following graduation from high school (credits earned through dual credit do not count in eligibility).

Changing your General Education Placement

- A transfer student that has been initially placed on CORE 42 because of meeting the eligibility requirements above may request to be placed instead on the Missouri State University General Education requirements. A student may submit a request through the Office of the Registrar for this change.
- A student who initially enrolls at Missouri State as a degree-seeking student during or after the Fall 2018 semester and who has transfer credits from a Missouri public institution, but who does not meet the above criteria for eligibility (i.e., and is placed under Missouri State general education requirements) may appeal to be placed under Missouri CORE 42 requirements instead (appeals made to the Associate Provost for Student Development and Public Affairs).

Office of the Registrar

Undergraduate Catalog

General Baccalaureate Degree Policies and Requirements

Effective spring 2018, the minimum credit requirement for an undergraduate degree has been reduced from 125 to 120. This applies to all undergraduate students regardless of degree or major catalog term.

NOTE: Some programs have specific requirements that total more than 120 credit hours. This change will not impact students in those programs.

[Op3.04-27 General Baccalaureate Degree Policies and Requirements](#)

[\(//Policy/Op3_04_27_GeneralBaccalaureateDegree.htm\)](#)

General degree policies

Majors and options

A major is an academic program of study. Some majors require completion of an option which is a specialized area of study within the major. The option title will appear on the student's transcript but not on the diploma.

Multiple degrees and/or multiple majors

For students with two majors, the first will determine the students' department and dean for various administrative purposes.

Students who complete the requirements for two or more majors under the same degree in the same semester will be awarded one diploma listing all majors. If either major requires a minor, the other major will fulfill this

requirement. An additional major option or university certificate will not fulfill a minor requirement.

Students who complete the requirements for two or more different degrees in the same semester will be awarded a diploma for each degree.

Multiple use of courses

Courses may be counted toward meeting the requirements in more than one area (major and minor, two majors, major and general education requirements, etc.) unless specifically prohibited by the academic departments and/or degree requirements and so stated in the catalog.

Courses completed for graduate credit other than approved mixed credit courses cannot be applied toward an undergraduate degree program, nor can courses taken for undergraduate credit be applied toward a graduate degree program.

Additional undergraduate degree and/or major

Students who have previously earned a baccalaureate degree may return to pursue an additional major or degree. A student may also pursue multiple majors and/or degrees at the same time.

A student may not receive a second baccalaureate degree with the same major (even if the option within the major is different) as a degree previously earned unless one of the degrees is an education degree (e.g., Bachelor of Science in Education or Bachelor of Music Education) and the other degree is not.

Students pursuing multiple options of the same major must graduate with the multiple options during the same semester of graduation as the student may not return in a later semester and be awarded the same major again.

Students who have earned a bachelor's degree from an institution accredited by a regional accrediting association recognized by the Council for Higher Education Accreditation (CHEA) are considered to have fulfilled general education requirements for the subsequent major/degree. Additionally, for students pursuing a subsequent degree that requires a minor, the major on the previous degree will fulfill the requirement.

Minors

Minors may only be awarded as part of an earned degree and must be of the same degree type as the degree. A minor cannot be in the same field of study as a current or previously earned major. A minor cannot be awarded independently and students cannot complete a minor post-graduation to add to a previously awarded degree.

Teacher certification

A Bachelor of Science in Education or Bachelor of Music Education degree may be granted without a recommendation for a teaching certificate if the graduate does not present evidence of good moral character as determined by the Professional Education Committee.

Time limit

Credit for courses completed in the major more than eight years before the student's date of graduation may be disallowed by the major department.

Bachelor's degree requirements

Catalog of graduation

Students shall satisfy the General Education, General Baccalaureate Degree Requirements, and Scholastic Honors requirements in effect upon first enrollment as a degree-seeking student at Missouri State. Major and minor requirements and other specific degree requirements in effect at the time the student is admitted to that program shall be satisfied. Candidates for the Bachelor of Science in Education and Bachelor of Music Education degrees must meet all Missouri state teacher certification requirements in effect at the time the certificate is granted.

If a student re-enrolls after an absence of one calendar year or more from Missouri State, requirements in effect at the time of readmission as a degree-seeking student must be satisfied. Any undergraduate student who re-enrolls at Missouri State within one year of being released from military assignment shall be allowed to continue under the same "catalog of graduation." Any undergraduate student who had been admitted to a degree program or any graduate student with an approved program of study prior to mobilization and who re-enrolls within one year of being released from military assignment shall not be subject to any additional degree requirements enacted in the interim.

Transfer students from Missouri public colleges and universities may follow the general education and general baccalaureate degree requirements in effect at Missouri State when they first enrolled (or re-enrolled after an absence of one calendar year or more) as degree-seeking students at the institutions from which they transferred. The general education catalog year for these students will be established at the point of admission on the basis of this policy. Students who elect instead to follow the general education and general baccalaureate degree requirements in effect during their first semester may do so by notifying the Office of the Registrar.

Credits and grade point average requirements

All candidates for any baccalaureate degree must meet the following minimum credits and grade point average requirements:

1. Completed a total of at least 120 semester hours of credit. (**Note:** This requirement first applies to students applying to graduate in the **spring 2018 semester**.)
2. Completed 40 hours of upper division credit (courses numbered 300 and above).
3. Attained at least a 2.00 Missouri State cumulative GPA.
4. Attained at least a 2.00 combined (MSU and transfer) GPA.
5. Attained at least a 2.00 general education GPA on all courses used to meet the student's General Education requirements.
6. Attained at least a 2.00 GPA on all courses that are required in the major.
7. Attained at least a 2.00 GPA on all courses that are required in the minor.

Candidates for the Bachelor of Science in Education and Bachelor of Music Education degrees are also required to meet the following additional grade point average requirements. All GPA requirements include both Missouri State and transfer grades.

1. Attain at least a 2.75 combined (MSU and transfer) cumulative GPA.
2. Attain at least a 3.00 GPA in the certificate subject area (major field of study).
3. Attain at least a 3.00 GPA in any additional certificate subject area.
4. Attain at least a 3.00 GPA in the professional education courses.
5. Have no grade lower than a "C" in all professional education courses.

Note: Many majors and minors require a GPA higher than the above stated minimums for admission, graduation, or both. Such requirements are listed as a part of the major or minor requirements.

Public Affairs Capstone Experience

All candidates for any baccalaureate degree must have completed a capstone experience (the equivalent of at least three cumulative credit hours) related to the major. The capstone experience allows a student to demonstrate the capacity to synthesize and apply information, demonstrate analytical, practical, and interpretive skills and promulgate ideas acquired from the major to bear on one significant summative experience, project, or class intrinsic to two elements of the public affairs mission. The capstone experiences/projects/classes will be designed and approved by individual departments or programs. The course number and credit hours assigned to the capstone experience will be determined by the department and specified within each major's requirements.

University exit survey

All students admitted into a baccalaureate degree program must complete a University Exit survey. Students must take this University Exit Survey prior to graduation and upon the completion of 102 or more credit hours.

Students who complete more than one baccalaureate degree are only required to take the survey one time. Requests for exceptions to the survey requirement due to extreme hardship should be directed to the Office of Assessment, Exit Survey Administrator. Information regarding the [University Exit Survey may be obtained online \(/Assessment/undergraduate-exit-survey.htm\)](https://assessment/undergraduate-exit-survey.htm).

Missouri Higher Education Civics Achievement Examination

In compliance with Mo. Rev. Stat. § 170.013, all undergraduate, degree-seeking students with a general education catalog semester/year of fall 2019 or later must, prior to graduation, pass an examination on the provisions and principles of American civics (Missouri Higher Education Civics Achievement Examination) with a score of seventy percent or greater.

Residence requirements

A candidate for a degree who transfers credit from another college must meet the following residence requirements:

1. Complete a minimum of at least 30 hours of courses administered by the Springfield Campus.
2. Complete at least 12 hours of upper division credit in the major in courses administered by the Springfield Campus.
3. Complete at least 6 hours of upper or lower division credit in the minor in courses administered by the Springfield Campus.
4. Complete at least 20 out of the last 30 hours in courses administered by the Springfield Campus. Students who have completed at least 90 hours in courses administered by the Springfield Campus, may petition the department head of their major to take less than 20 out of the last 30 hours on the Springfield Campus. If this petition is granted, written approval from the department head must be forwarded to the Office of the Registrar prior to the semester of graduation.

Exceptions to 20 out of the last 30 hours requirement are made for the following: a) Medical Technology majors when the last year is completed at an approved school of Medical Technology, b) Radiography

majors when the last two years are completed at an approved school of Radiologic Technology, c) Animal Science majors when the last two years are completed at the University of Missouri School of Veterinary Medicine, d) Animal Science majors when the last year is completed at the University of Arkansas-Fayetteville, e) students who participate in a Missouri State education abroad or exchange program approved by the Office of International Programs, and f) students in the West Plains Campus completion degree programs.

Appeals for exceptions

Students who wish to appeal for exceptions to the general baccalaureate degree requirements should submit an appeal to the Degrees Committee. The [procedure for submitting an appeal](#) ([/Provost/DegreesCommitteeGuidelines.htm](#)) is maintained by the Office of the Provost.

Bachelor of Arts Requirements

All students pursuing a Bachelor of Arts degree must satisfy the following degree requirements:

1. **Language Requirement.** Complete one of the following options:
 - a. Complete 12 hours in a single language offered by the Department of Modern and Classical Languages. Students with advanced proficiency in a language other than English may be exempted from this requirement with approval from the head of the Department of Modern and Classical Languages.
 - b. Complete 12 hours in American Sign Language (ASL) courses. Consult with the Department of Communication Sciences and Disorders regarding any exceptions or substitutions.
2. **World History.** Complete both [HST 103](#) and [HST 104](#). Note: may also count toward the General Education Focus on Humanities requirement.
3. **Philosophy.** Complete three hours of Philosophy. Note: [PHI 105](#) or [PHI 115](#) may also count toward the General Education Focus on Public Issues requirement.
4. **Fine Arts.** Complete six hours chosen from any of the following courses. Courses used to satisfy the Fine Arts requirement cannot be counted toward the General Education Program requirements. Note: departments of English; Modern and Classical Languages; and Theatre and Dance have additional restrictions on double-counting of courses. Refer to the department section of catalog for details.
 - a. **Art:** [ART 200](#), [271](#), [272](#), [273](#), [274](#), [387](#), [471](#), [472](#), [475](#), [476](#), [478](#), [480](#), [483](#), [484](#), [485](#), [486](#), [487](#).

Teacher Certification, Teacher Education Program and Secondary Education Requirements

The Teacher Education Program and the Secondary Education programs are interdisciplinary in nature and applicable to all students pursuing teacher certification. These programs are overseen by the Educator Preparation Provider (EPP) with a Educator Preparation Provider Council (EPPC) and numerous subcommittees. All academic departments/schools with a teacher education program participate in these committees and administer their programs in accordance with approved policies and curriculum. The following offices assist the EPP, EPPC, and the departments in administering the programs.

- **Educator Preparation Provider Head:** Dr. Chris Craig, Deputy Provost, Carrington Hall, room 209, 417-836-5022
- **Professional Education Certification:** Kim Dubree, Director, 417-836-8772
- **Education Advisement:** Juli Panza, Coordinator, 417-836-5429
- **Secondary Education Advisement:** Dr. Karen Engler, Director, 417-836-6204

Teacher education program

The professional education programs have received continuing accreditation by the Missouri Department of Elementary and Secondary Education for teacher preparation and certification. Admission to the University does not automatically qualify a student to participate in the professional component of the teacher education program. A high level of academic and professional competence is required for admission to and continuation in the teacher education program. Completion of the program is designed to lead to certification to teach in Missouri public schools.

Postbaccalaureate teacher certification

Students who have already obtained a bachelor's degree and are seeking Missouri state teacher certification should contact the [Teacher Certification Office \(/Certification/\)](#), 417-836-8772. This office provides a program evaluation service for initial certificates, advisement and assistance to gain certification and/or additional endorsements.

Diversity component

Diversity coursework is required through professional and program-specific courses. Students must consult with the program or department of major for specific program requirements that may meet this diversity component.

Professional liability

All candidates for professional education programs at Missouri State University are required to have professional liability insurance coverage before being placed in the initial practicum, and/or subsequent clinical and field experiences. The proof of coverage must accompany all other required documentation prior to placement. No exceptions may be granted. For more information, refer to [Professional Liability Insurance \(/ProfessionalEd/Compliance/professional-liability-insurance.htm\)](#).

Transition points

All students pursuing Missouri certification are required to meet a series of Transition Points that will be assessed, evaluated, and monitored throughout the teacher education program with assistance and guidance from faculty. There are five distinct Transition Points students meet from entry to their education program to follow up post graduate training.

Transfer credit

To apply transfer credit in educational methods courses to the degrees of Bachelor of Science in Education, Bachelor of Music Education, or Bachelor of Science – Modern Language with an option in Teacher Certification, a student enrolled at Missouri State should contact their academic advisor for assistance.

Certification eligibility requirements

Completion of certification requirements is a four-step process. Students who receive a certification recommendation must meet the standards for certification eligibility as outlined below:

- A. **Requirements for Eligibility to Enroll in Professional Education Courses:** Before a student can enroll in the introductory methods courses (ECE 304, ELE 302, KIN 200, MUS 200, SEC 302, or SPE 310), the student must:
 - a. Meet with academic advisor to determine whether completion of EDC 150 transfer section is required.
Note: For Agriculture Education, Early Childhood Education, Elementary Education, Music Education, Physical Education, and Special Education majors, competency is covered in major requirements.
 - b. Complete Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI Fingerprinting Background Check prior to any clinical experience placement. For more information, refer to [Compliance Documents Required for Practicum, Internship or Student Teaching](#).

B. Requirements for Admission to and Continuance in the Teacher Education Program: Students who plan to complete teacher certification requirements must be admitted to the Teacher Education Program. Eligibility is automatically monitored when enrolling in EDC 150 transfer section, ECE 304, ELE 302, KIN 200, MUS 200, SEC 302, or SPE 310. Admission to the Program is required before students are allowed to begin additional courses in the professional education component (with the exception of EDT 365 which may be taken concurrently with EDC 345, ELE 302, SEC 302, or SPE 310).

The criteria used to determine admission to the Teacher Education Program are outlined below. In addition to having completed at least 45 semester hours (secondary and middle school majors) or 30 semester hours (early childhood, elementary, and special education majors) of university coursework, the student must have:

1. Earned a combined (Missouri State and transfer) GPA of 2.75 or higher. A major (certificate subject area) GPA of 2.75 or higher is also required for students in History (Social Science), and a major (certificate subject area) GPA of 3.00 and passing score on the piano proficiency exam are also required for all students in Music education.
2. Earned a composite score or superscore of 20 or better on the ACT or earned a passing score on all four sub-tests of the [Missouri General Education Assessment \(MoGEA\)](#).
3. Earned a grade of "C" or higher in COM 115.
4. Completed ECE 304, ELE 302, KIN 200, MUS 200, SEC 302, or SPE 310, with a grade of "C" or higher. Note: A grade of "B" or higher is required in ELE 302 or transfer equivalent for Elementary Education majors.
5. Completion of Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI Fingerprinting Background Check prior to any clinical experience placement. For more information, refer to [Compliance Documents Required for Practicum, Internship or Student Teaching](#).
6. Completed Disposition Checklist and Student Contract.

Upon completion of the above requirements, a student's record is reviewed and submitted to the Educator Preparation Provider Council (EPPC) for admission to Teacher Education. A student's qualifications for continuance in the Teacher Education Program is subject to review and change by the EPPC at any time while the student is enrolled. Students should check with their advisor or department head for any additional program specific requirements.

C. Requirements for Assignment to Supervised Teaching (effective fall 2017 and after): Successful completion of supervised teaching is a requirement for teacher certification. The criteria used to determine eligibility for Supervised Teaching are outlined below. The student must have:

1. Been admitted to the Teacher Education Program and completed Transition Point #1 and Transition Point #2.
2. Current and valid TB test.
3. Current and valid Professional Liability Insurance.
4. Completion of Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI Fingerprinting Background Check prior to any clinical experience placement. For more information, refer to [Compliance Documents Required for Practicum, Internship or Student Teaching](#).
5. A combined (Missouri State and transfer) GPA of 2.75 or higher for all college level coursework completed.
6. Completed at least 15 hours at Missouri State.
7. Completed all courses in the major (certificate subject area) with a combined (Missouri State and transfer) GPA of 3.00 or higher.

8. Completed all Professional Education courses with a grade of "C" or higher (Elementary Education majors are required to have a grade of "B" or higher).
9. Complete all degree requirements except supervised teaching, or have an approved exception on file.
10. Attempted the [Missouri Content Assessment \(MoCA\)](#) in the certification area (must be passed for certification recommendation).
11. Been recommended by the student's advisor. The recommendation shall be based upon the applicant's character, personality, and potential for teaching.
12. Been recommended by the department in which the student is completing an undergraduate major or seeking certification. For those students completing a degree which involves significant work in more than one department (i.e., Speech and Theatre Education) the departmental recommendation will come from the department in which the greatest number of hours is completed. For those students who have already completed a degree, the departmental recommendation will come from the department which would normally provide the majority of the course work for that certification.

D. Requirements for Certification Recommendation (effective fall 2017 and after): To be recommended for an initial Missouri teaching certification, the student must have:

1. Successfully completed Supervised Teaching
2. Met all Missouri teacher certification requirements which are in effect at time of certification. These requirements are normally met by persons earning the degrees of Bachelor of Science in Education, Bachelor of Music Education, or Bachelor of Science – Modern Language with an option in Teacher Certification.
3. Completed all Professional Education courses with a combined (Missouri State and transfer) GPA of 3.00 or higher and no grade lower than "C" (Elementary Education majors require no grade lower than "B").
4. A combined (Missouri State and transfer) GPA of 3.00 or higher in the major (certificate subject area) and for each additional area of endorsement.
5. Successful completion of the [Missouri Educator Gateway Assessments \(MEGA\)](#) as established by the Missouri Board of Education.
6. Completed Transition Point #3.

The Missouri Department of Elementary and Secondary Education (DESE) will require a current and valid FBI background check prior to issuing a certificate.

Secondary Education (Certifiable grades 9-12 and K-12)

All students must be admitted to the Teacher Education Program and to Supervised Teaching. Refer to procedures stated above.

In order to meet Missouri state teacher certification requirements, candidates for the degrees of Bachelor of Science in Education, Bachelor of Music Education, or Bachelor of Science – Modern Languages with an option in Teacher Certification are required to meet the following GPA requirements. All GPA requirements include both Missouri State and transfer grades.

1. at least a 3.00 GPA in the major (certificate subject area) which includes all courses listed under C below
2. at least a 3.00 GPA in any additional certificate subject area

3. at least a 3.00 GPA in the Professional Education courses and no grade lower than “C” in all Professional Education courses

Additional State Board of Education certification rules require successful completion of the [Missouri Educator Gateway Assessments \(MEGA\) \(/Certification/MEGA.htm\)](#) as established by the Missouri Board of Education.

The curriculum for secondary (9-12 and K-12) teaching leads to the degree of Bachelor of Science in Education, Bachelor of Music Education, or Bachelor of Science – Modern Languages with an option in Teacher Certification and carries with it an Initial Professional Certificate (IPC) to teach in the state of Missouri.

A. [General Education Program](#) (45-49 hours)

- B. Specific major requirements may also meet General Education Requirements. See the content discipline department for course listing. Students must also satisfy the following requirements which may be met through General Education coursework.

1. Prerequisite for Professional Education courses is PSY 121.
2. International students must provide documentation of completion of coursework in the following:
 - a. English Composition, two (2) courses, each a minimum of two (2) semester hours;
 - b. U.S. History, three (3) semester hours; and
 - c. U.S. Government, three (3) semester hours
3. Admission to the Teacher Education Program requires completion of COM 115 with a grade of “C” or higher.

- C. Complete a subject area major not less than 30 hours or a comprehensive major of not less than 50 hours. See discipline department for major requirements. Although not required, minors must be no less than 15 hours. Note: Students who wish to be certified in an additional area of certification should check the state and departmental requirements in that area.

- D. Professional Education Courses (Music Education and Physical Education majors must refer to the department section of the catalog for admission to Teacher Education Program and degree requirements.) The program outlined below has been designed to prepare teachers and to meet the requirements for Missouri state teacher certification. Note: A grade of “C” or higher is required in each course.

1. Required Core (25-35 hours):
 - a. SEC 302(3) General Methods of Instruction in the Middle and Secondary Schools. Note: Music Education majors satisfy this requirement by completion of MUS 200(3); Physical Education majors satisfy this requirement by completion of KIN 200(3).
 - b. PSY 360(3) Educational Psychology
 - c. EDC 345(3) Introduction to Multicultural Education and Diversity
 - d. SPE 340(2) Educational Alternative for Exceptional Students. Note: Music Education majors satisfy this requirement by completion of MUS 340(2); Physical Education majors satisfy this requirement by completion of KIN 468(4).
 - e. RDG 474(3) Reading and Writing in the Content Fields
 - f. RDG 574(3) Analysis and Correction of Difficulties in Literacy. Note: B-12 and K-12 (Art and Design, Family and Consumer Sciences, Music, Physical Education and Modern Language) majors are not required to complete this course.
 - g. Teaching Methods Course (3-6). Courses are specified within the Professional Education section of the major requirements. Note: A teaching methods course is required for each area of certification.
 - h. Supervised Teaching (8-12). Courses are specified within the Professional Education section of the major requirements.
2. Additional required competencies or equivalent course(s) required for major
 - a. EDC 150(0) Introduction to Teaching. EDC 150 is required for students who completed a beginning teaching methods/field experience course at another institution and who wish to apply course

- credit toward completion of the SEC 302 requirement. Note: Agriculture Education, Music Education, and Physical Education majors cover competencies in major requirements.
- b. EDC 350(3) School and Society. Note: Family and Consumer Sciences Education, Music Education, Physical Education, and Speech and Theatre Education majors cover competencies in major requirements.
- c. EDT 365(3) Educational Applications of Technology and Media. Note: Agriculture Education, English Education, Family and Consumer Sciences Education, History (Social Science) Education, Mathematics Education, Music Education, Physical Education, and Speech and Theatre Education majors cover competencies in major requirements.
- d. SFR 486(3) Management and Assessment in the Middle and Secondary Classroom. Note: Agriculture Education, English Education, Mathematics Education, Music Education, Physical Education, and Speech and Theatre Education majors cover competencies in major requirements.
- E. Most programs leading to teacher certification require more than the University minimum of 120 hours for graduation. It is the student's responsibility to meet all degree requirements for the Bachelor of Science in Education-Secondary in specific subject area major areas. Refer to the program requirements for each major.

Missouri State

Office of the Registrar

Undergraduate Catalog

Office of Education Abroad

Eligibility requirements

In order to participate in a semester or year-long approved Education Abroad opportunity, students must meet the following eligibility requirements: a minimum 2.5 cumulative GPA at the time of application, 30 credit hours of university coursework completed at the time of application, enrollment as a full-time student on the Springfield campus the semester prior, and good judiciary standing with the university. Additional eligibility requirements may apply depending on the program.

In order to participate on a short-term faculty-directed program, participants must be in good judiciary standing and obtain approval from the faculty program director.

Receiving academic credit

Students participating in an approved Education Abroad opportunity, where coursework is completed at a host institution, are eligible to transfer credit back to Missouri State University. All transfer coursework must be approved by the appropriate academic department head(s), and will be evaluated as Pass/Not Pass grades only.

Students expecting to transfer coursework from a host institution will be enrolled in placeholder courses during the term they are abroad. Once the Office of Education Abroad receives the official transcript from the host institution, the Office of Admissions is notified and the transfer credit is awarded. Students who complete coursework abroad that is not approved by an academic department are eligible to receive general elective credit.

Undergraduate

[Global Studies \(BA\)](#) 

General information

Global Studies can broadly be defined as the study of global issues (i.e., population growth, poverty, diseases, environmental degradation, conflicts) and trends such as globalization and interdependence in their economic, political cultural and social dimensions, area studies, and the acquisition of foreign languages skills. As such, students pursuing a major in Global Studies and, for example, a minor in Area Studies, will become familiar with these issues, trends, and areas, and strive to acquire a high level of proficiency in a foreign language. More broadly, it means understanding the increasingly global nature of every aspect of life and how this affects the local environment in the United States as well as in other countries.

**When applicable*
4. 15 hours in Regional Studies with at least one course in each of the following five regions. The following courses may apply to various regions depending upon course content: [ANT 330](#), [ECO 397](#), [ENG 362](#), [GRY 305](#) or [PLS 338](#).
 - a. Africa: [ANT 332\(3\)](#); [ART 273\(3\)*](#), [486\(3\)](#), [488\(3\)**](#); [ENG 363\(3\)](#); [GRY 507\(3\)](#); [HST 323\(3\)](#), [335\(3\)](#); [PLS 550\(3\)](#).
 - b. Asia: [ANT 334\(3\)](#); [ART 274\(3\)](#), [374\(3\)](#); [ECO 345\(3\)](#); [HST 381\(3\)](#), [571\(3\)](#); [LLT 215\(3\)](#); [MUS 372\(1\)***](#); [PHI 314\(3\)](#); [PLS 545\(3\)](#); [REL 355\(3\)](#), [357\(3\)](#), [360\(3\)](#).

c. Europe: [ART 272\(3\)](#); [ENG 361\(3\)](#); [HST 350\(3\)](#), [353\(3\)](#), [355\(3\)](#), [361\(3\)](#), [559\(3\)](#); [LLT 225\(3\)](#); [PLS 343\(3\)](#), [547\(3\)](#); [REL 340\(3\)](#).

d. Latin America and Caribbean: [ART 273\(3\)*](#), [485\(3\)](#), [487\(3\)](#); [HST 350\(3\)](#), [587\(3\)](#), [588\(3\)](#); [PLS 548\(3\)](#).

e. Middle East: [ART 471\(3\)](#); [HST 370\(3\)](#), [371\(3\)](#), [543\(3\)](#); [PLS 544\(3\)](#); [REL 330\(3\)](#), [350\(3\)](#).

*ART 273 may satisfy only one requirement in the major, either Africa or Latin America/Caribbean region.

**ART 488 may satisfy this requirement if focus is on Africa.

***MUS 372 may satisfy this requirement if ensemble is in Chinese Music.

5. Six hours beyond the 12-hour Bachelor of Arts foreign language requirement, for a total of 18 hours in one modern foreign language: Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Russian, or Spanish. Other modern languages may be accepted upon the recommendation of the Head of the Modern and Classical Language department. The language requirement and language courses may partially or fully be fulfilled with courses taken as part of education abroad experience or at another American university or college. Students also have the opportunity to acquire proficiency certificates reflecting their level of foreign language competency and, according to their level, will be able to test out of part or all foreign language requirements.
6. Public Affairs Capstone Experience requirement: [GBL 499](#) Internship or an approved Education Abroad experience for three hours.
7. Minor required (or second major). Note: no more than nine hours may count toward both the major and a minor.
8. Double majors: Students wishing to pursue the Global Studies major and another major (no minor required) may only count up to nine hours in both majors.
9. [Specific Bachelor of Arts Degree Requirements](#)

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Global Studies

Eligible Missouri State undergraduate students may apply for admission to the Master of Global Studies program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-global-studies.htm) (<https://graduate.missouristate.edu/Catalog/prog-global-studies.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

General information

The mission of the Missouri State University Honors College is to create an academic environment that is stimulating, challenging, and conducive to undergraduate learning and development. The Honors College fosters this environment by:

- Attracting exceptional students from Missouri, the U.S., and around the world who have a demonstrated record of intellectual curiosity and academic success;
- Matching students with outstanding faculty instructors in small course settings that foster collaboration, engagement, and discourse;
- Developing critical thinking skills through a rigorous program of multi and interdisciplinary instruction with an emphasis upon research and academic writing;
- Supporting the university's Public Affairs mission by complementing the classroom experience with academic and social

Admission requirements

Full-time, degree-seeking undergraduate students are eligible for admission to the Honors College per the following policies:

1. Membership is offered by invitation to all first-time in college students who have an ACT composite score of 27 or higher (or an SAT composite score of 1220 or higher) and who have graduated in the top 10 percent of their high school class or have a high school grade point average (GPA) of 3.90 or higher. Students admitted to the Honors College will be assigned to either the General Honors Program or the Accelerated Honors Program, based upon college-level course work completed prior to entry:
 - a. Students who enter the Honors College with fewer than 30 completed credit hours will be admitted to the General Honors Program
 - b. Students who enter the Honors College with 30 or more completed credit hours will be admitted to the Accelerated Honors Program
2. Students who do not satisfy the automatic eligibility requirements may apply for admission to the Honors College after completing at least one semester at the University. Applicants must submit a completed application form, a statement of purpose, a writing sample, and a recommendation letter from an MSU faculty member. Applications for admission will be reviewed in January and July and qualified candidates will be offered admission on a space available basis. Students are encouraged to apply prior to their fourth semester at the University. Students admitted to the Honors College will be assigned to either the General Honors Program or the Accelerated Honors Program, based upon college-level course work completed prior to entry.
3. Transfer students may apply for admission to the Honors College following admission to the University. Applicants must submit a completed application form, a statement of purpose, a writing sample, and a recommendation letter from a faculty instructor. Applications for admission will be reviewed in January and July and qualified candidates will be offered admission on a space available basis. Students who have completed course work in honors programs/colleges may be able to apply previous honors course work towards Honors College requirements. Transfer students admitted to the Honors College will be assigned to the Accelerated Honors Program, unless they have completed fewer than 30 credit hours, in which case they will be assigned to the General Honors Program.
4. International students who did not receive a diploma from a United States high school may be admitted to the Honors College if they satisfy the following criteria:
 - a. TOEFL IBT score of 100 or higher or IELTS score of 7.0 or higher; and
 - b. Completion of at least one of the following options:
 - i. ACT composite score of 27 or higher or SAT combined score of 1220 or higher;

- ii. Successful completion of the International Baccalaureate Diploma;
- iii. British A-Levels course work: C average or higher (two course minimum);
- iv. British AS-Levels course work: C average or higher (four course minimum);
- v. French Baccalaureate: overall average of 10 or higher;
- vi. Score of 100 or higher on the English portion of China's National College Entrance Exam;
- vii. Completion of 12 or more hours at an American college/university with a 3.00 or higher GPA.

Students who are exempt from completing the TOEFL or IELTS exams and/or who did not have the opportunity to enroll in the academic programs outlined in point two may contact the Director of the Honors College and request a formal review of their academic qualifications.

International students who completed a diploma at a United States high school will be admitted under the guidelines outlined in Admissions Section A (see above).

The program

Students admitted to the Honors College will be assigned to either the General Honors Program or the Accelerated Honors Program, based upon college-level course work completed prior to entry.

Honors College Courses

Honors College (UHC) courses

UHC 110 Freshman Honors Seminar

General Education Course (First-year Seminar).

This seminar will be on a topic of intellectual significance. The student will be required to use the library, research, and faculty resources available in the University. Satisfies the First-Year Foundations requirement in the Basic Required Courses of General Education. Open to Honors College members only. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

UHC 300 Honors Service Learning

Prerequisite: 30 hours and concurrent registration in a course designated as a service learning offering; open to Honors College members only.

This service component for an existing course incorporates community service with classroom instruction to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; students should investigate possible placements through the Center for Citizenship and Service Learning prior to registration. Graded Pass/Not Pass only. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring, Summer

UHC 350 Honors Study Abroad

Prerequisite: permission; open to Honors College members only.

A variable content course with topics involving the interdisciplinary study of other cultures while living and studying in an international venue. Through history, language, literature, sociology and other disciplines the student will acquire a deeper understanding of another culture and of the American culture. When appropriate, this course may be cross-listed with other study abroad and international travel courses. May be repeated once with content change. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

UHC 396 Honors Independent Study

Prerequisite: permission; open to Honors College members only.

Students should consult with a faculty member of the department who specializes in the subject and with the faculty member's consent present a written proposal to the department head and the Honors College for final approval. Proposals should be presented for approval before final registration for the semester in which the independent study is to be done. Only one approved independent study program may be taken in any semester. When appropriate, this course may be cross-listed with independent study courses in other academic departments. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

UHC 397 Honors Colloquia

Prerequisite: 50 hours or permission; open to Honors College members only.

This course will explore in depth an interdisciplinary topic of intellectual significance related to the University's Public Affairs Mission. Emphasis is placed upon discussion and individual research projects. When appropriate, this course may be cross-listed with special topics courses in other academic departments. May be repeated once with content change. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

UHC 398 Honors Undergraduate Research

Prerequisite: permission; open to Honors College members only.

Allows students to gain research experience by working with an individual faculty member either as a research assistant or as a primary researcher working under faculty supervision. Students should consult with a faculty member of the department who specializes in the subject and with the faculty member's consent present a written proposal to the department head and the Honors College for final approval. Proposals should be presented for approval before final registration for the semester in which the research is to be done. Only one approved undergraduate research project may be taken in any semester. When appropriate, this course may be cross-listed with undergraduate research courses in other academic departments. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

UHC 399 Honors Internship/Apprenticeship

Prerequisite: permission of supervising instructor, the Honors College and the host institution; open to Honors College members only.

This course provides students with the opportunity to obtain practical and theoretical knowledge in a variety of career fields through the completion of a supervised internship experience. Students are expected to complete 45 hours of work with an approved organization and to complete corresponding academic reflection projects under the supervision of a departmental faculty member. Students should consult with a faculty member of the department who specializes in the subject and with the faculty member's consent present a written proposal to the department head and the Honors College for final approval. Proposals should be presented for approval before final registration for the semester in which the internship is to be done. Only one approved internship may be taken in any semester. When appropriate, this course may be cross-listed with undergraduate internship courses in other academic departments. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

UHC 410 Senior Honors Seminar

This seminar will explore in depth a topic of intellectual significance that lends itself to exploration from a number of different disciplines. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

UHC 499 Honors Distinction Project

Prerequisite: permission; open to Honors College members only.

The Honors Distinction Project is a creative capstone project prepared in accordance with the requirements for the Honors Distinction the Major program. Student will complete a significant intellectual project in the major under the supervision of a departmental faculty member. Students should consult with a faculty member of the department who specializes in the subject and with the faculty member's consent present a written proposal to the department head and the Honors College for final approval. Proposals should be presented for approval before final registration for the semester in which the Distinction Project is to be done. When appropriate, this course may be cross-listed with senior research project courses in other academic departments. May be repeated to a maximum of eight hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-4			Upon demand

MAKE YOUR MISSOURI STATEMENT.

Missouri State

Office of the Registrar

Undergraduate Catalog

The Program

Students admitted to the Honors College will be assigned to either the General Honors Program or the Accelerated Honors Program, based upon college-level course work completed prior to entry.

General Honors Program

The General Honors Program is designed for students who enter the Honors College with fewer than 30 completed credit hours. The program includes courses designed to facilitate completion of both general education and major requirements.

- A. General Honors Core Curriculum (minimum 18 hours)
 - 1. [UHC 110](#) *Freshman Honors Seminar* (2 hours);
 - 2. Three General Honors courses to be selected from a menu of Honors College offerings (9-15 hours);
 - 3. One Honors Experiential Learning Experience (1-3 hours)
 - a. [UHC 300](#) *Honors Service Learning*
 - b. [UHC 350](#) *Honors Study Abroad*
 - c. [UHC 396](#) *Honors Independent Study*
 - d. [UHC 398](#) *Honors Undergraduate Research*
 - e. [UHC 399](#) *Honors Internship/Apprenticeship*
 - 4. [UHC 397](#) *Honors Colloquia* (3 hours)
 - 5. [UHC 410](#) *Senior Honors Seminar* (3 hours)

Students who complete all General Honors Core Curriculum requirements and earn a final institutional GPA of 3.25 or higher are eligible to graduate from the Honors College after they satisfy all other University degree requirements. Final transcripts and diplomas will include the notation "Bachelor of _____ (with possible grade point honors such as *cum laude*, *magna cum laude*, *summa cum laude*) in the Honors College."

- B. Distinction in the Major Option (minimum 12 hours)

Students who complete the Core Curriculum have the opportunity to continue their honors studies and to

earn Distinction in the Major by self-designing a rigorous program of course work culminating in a final distinction project. Students must complete a minimum of 12 hours of honors course work in their major, including a minimum of 3 hours of UHC 499 *Honors Distinction Project*. Students may propose appropriate combinations of the following courses:

1. [UHC 396](#) *Honors Independent Study* (1-3 hours);
2. [UHC 398](#) *Honors Undergraduate Research* (1-3 hours);
3. [UHC 410](#) *Senior Honors Seminar* (3 hours);
4. [UHC 499](#) *Honors Distinction Project* (3-4 hours)

*Students who have completed the General Honors Core Curriculum may double-count one section of UHC 396, UHC 398, or UHC 410 towards the Distinction in the Major requirements.

Students interested in earning Distinction in the Major must complete a course and project proposal under the guidance of a faculty member in their major department. The proposal must be approved by the Department Head for the major and by the Director of the Honors College before a student may register for honors course sections. Distinction proposals must be approved prior to the beginning of a student's senior year.

The Honors Distinction Project must be submitted to the Honors College on the final day of classes prior to a student's graduation.

Students who complete all General Honors Core Curriculum requirements, all Distinction in the Major requirements, and earn a final institutional GPA of 3.25 or higher are eligible to graduate from the Honors College after they satisfy all other University degree requirements. Final transcripts and diplomas will include the notation "Bachelor of _____ (with possible grade point honors such as *cum laude*, *magna cum laude*, *summa cum laude*) in the Honors College with Distinction in _____."

Accelerated Honors Program

The Accelerated Honors Program (minimum 19 credit hours) is designed for students who enter the Honors College with 30 or more completed credit hours. The program includes a primary emphasis upon the completion of major requirements and the production of a final distinction project in six or fewer semesters. Students must complete the following requirements:

A. Completion of one of the following Honors elements

1. All first-time in college students, regardless of class standing, must complete [UHC 110](#) *Freshman Honors Seminar* (2 hours). This course satisfies the University's First-Year Foundations General Education requirement and must be completed during the first semester of study;
2. Transfer students and MSU students admitted to the Honors College after completing [GEP 101](#) *First-Year Foundations* must complete one General Honors course or one Honors Experiential Learning course of their choice (see General Honors Program Section A above).

B. [UHC 397](#) *Honors Colloquia* (3 hours);

C. [UHC 410](#) *Senior Honors Seminar* (3 hours);

D. Students must complete a minimum of 12 hours of honors course work in their major, including a minimum of 3 hours of UHC 499 *Honors Distinction Project*. Students may propose appropriate combinations of the following courses:

1. [UHC 396](#) *Honors Independent Study* (1-3 hours);

2. [UHC 398](#) *Honors Undergraduate Research* (1-3 hours);
3. [UHC 499](#) *Honors Distinction Project* (3-4 hours)

Students must complete a course and distinction project proposal under the guidance of a faculty member in their major department. The proposal must be approved by the Department Head for the major and by the Director of the Honors College before a student may register for honors course sections. Distinction proposals must be approved prior to the beginning of a student's senior year.

The Honors Distinction Project must be submitted to the Honors College on the final day of classes prior to a student's graduation.

Students who complete all Accelerated Honors Program requirements and earn a final institutional GPA of 3.25 or higher are eligible to graduate from the Honors College after they satisfy all other University degree requirements. Final transcripts and diplomas will include the notation "Bachelor of _____ (with possible grade point honors such as *cum laude*, *magna cum laude*, *summa cum laude*) in the Honors College with Distinction in _____."

Additional Requirements and Regulations

- A. In order to remain in good standing in the program, a student must maintain a 3.25 cumulative institutional GPA or higher and enroll in 12 or more credit hours per semester. Members should normally carry no more than two honors classes in any one semester and must take at least one honors class each semester until they have completed the General Honors Core Curriculum. Students who complete the General Honors Core Curriculum maintain good standing in the program by maintaining a 3.25 cumulative institutional GPA.
- B. The Director of the Honors College will review the academic progress of all students at the end of each semester. Students who do not achieve the required 3.25 cumulative institutional GPA will be given one semester to achieve that level, provided it is mathematically possible. Students who cannot achieve a 3.25 cumulative institutional GPA or who fail to reach a 3.25 for two consecutive semesters will be ineligible to continue in the program. Students who are removed from the program may apply for readmission after one semester if their academic performance satisfies program requirements. Students who are removed from the program a second time are not eligible for readmission.
- C. Advanced Placement, CLEP, Dual Credit, and International Baccalaureate credits are available in some departments of the University. These credits and courses will not carry honors designations or satisfy Honors College program requirements.
- D. Honors courses may not be taken on a Pass/Not Pass or Audit basis.
- E. In certain departments it may not be practical to offer a separate honors section or honors course due to low student demand. In such cases an Honors Component of one credit hour can be added to a regular course or section to recognize honors work. Students should consult with a professor of the department who specializes in the subject and with the professor's consent present a written proposal to the department head and the Honors College for final approval. Proposals should be presented for approval before final registration for the term in which the component is to be done. Only one approved Honors Component may be taken in any semester.
- F. Students who are not members of the Honors College may be allowed to enroll in honors courses on a space available basis provided they have both a 3.50 cumulative GPA and permission of the Director of the Honors College.

[Individualized Major](#) (BA, BAS, BS)

General Information

The Bachelor of General Studies degree is an interdisciplinary degree program designed for students with broad interest and capabilities rather than a focused area of specialization.

The individualized major is intended for students with a clear sense of direction, motivation and strong concept of an educational program that will best serve the individual's needs. This major shall be described individually, specifying the area(s) of emphasis.

Interdisciplinary Studies Courses

Interdisciplinary Studies (IDS) courses

IDS 101 Interdisciplinary Seminar

Variable content, variable credit course that is offered to the participants of Missouri State University summer academies and others that host interdisciplinary seminars as part of their program/institution.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

IDS 118 Enhancing Learning Techniques for College and Life

Designed for any student who wishes to develop stronger study and learning techniques such as note taking, test taking and preparation, time management, text study, memory and concentration. Cannot be used to satisfy any General Education Program requirement or any major or minor requirement. Cannot receive credit for both IDS 118 and RDG 107.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

IDS 120 Exploring Majors and Careers

Designed to assist students in learning the process for making meaningful academic and career choices that are aligned with their unique strengths, interests, values, and personality. Students will participate in self-assessments, major and career exploration, and decision-making activities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

IDS 250 Special Topics: International Travel Course

A variable content course with topics involving a foreign travel component. Course offerings represent selected and interdisciplinary subjects. Some courses under this designation may be interdepartmental and team-taught. May be repeated as the topics change.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

IDS 275 Resident Assistant Seminar

Designed to facilitate new Resident Assistants in developing the skills necessary to work with students living in the residence halls.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

IDS 280 Student/Life Leadership

The course will focus upon the study and practical application of student and student organization leadership skills and the knowledge of campus and community resources. Students will become actively involved in leadership as they participate in individual and group learning experiences.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

IDS 297 International Culture and Study Abroad

General Education Course (Focus on Cultural Competence).

An interdisciplinary study of other cultures while living and studying in an international venue. Through history, language, literature, sociology and other disciplines the student will acquire a deeper understanding of another culture and of the American culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

IDS 310 Leadership Seminar

Designed for the study and practical application of leadership skills that will benefit student leaders working with a variety of campus programs and students. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

IDS 320 Job Search Preparation and Career/Life Planning

Assists students who have selected an academic major and who are beginning internship, part-time, or full-time job searches, or who are making decisions on graduate and professional school. The course is designed to help students in developing a career plan and investigating the work world in terms of the students' career/life goals. Students will learn the dynamics of decision-making, the importance of gaining experience in their field of interest, and job search skills. They will engage in career research, resume writing, interviewing, networking and other career development practices. Quantity of course content supports need for 2 hour/week format.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

IDS 350 British Life and Culture

Through a historical and topical format students will study the interdisciplinary aspects of Great Britain. Lectures will be enhanced through British lecturers and field trips illustrative of the lectures. Missouri-London Program only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

IDS 397 International Culture and Study Abroad

An interdisciplinary study of other cultures while living and studying in an international venue. Through history, language, literature, sociology and other disciplines the student will acquire a deeper understanding of another culture and of the American culture. May be repeated once with content change. Variable Content Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

IDS 499 Senior Integrating Experience

Prerequisite: permission of Associate Provost for Student Development and Public Affairs.

This course provides a structure for assessing individualized majors. Students will be advised of the need to include a senior integrating experience in their individualized major program. The student's Faculty Advisory Committee must approve the proposed experience during the individualized major hearing. One or more of the committee members will oversee the experience, and will provide verification of its satisfactory completion to the Associate Provost for Student Development and Public Affairs . The student will then receive a passing grade for the course. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Upon demand

Bachelor of General Studies

Bachelor of General Studies

The Bachelor of General Studies degree (BGS) is an interdisciplinary degree that requires completion of coursework in two or three departments in place of one major or a major with a minor. No mention of the department areas is included on the transcript or diploma, but a degree plan and graduation check will verify that all the specific requirements have been met.

Procedure for Seeking Candidacy

The BGS degree is by definition appropriate for those who through several years of interdisciplinary and focused study have learned that their interests are not well served within a single academic major. For this reason, the degree is not an available option for freshmen or sophomore students. Admission to the BGS program requires at least 75 hours of college credit including transfer and dual credit hours.

Both former and current students who wish to pursue this degree must identify a faculty or professional staff advocate who is willing to endorse their entrance into the degree program. In most instances, this advocate should come from one of the departments that will be a part of the degree plan. This advocate may also serve as an advising resource for the student. Additional advising resources will be available through the Academic Advising and Transfer Center and the Associate Provost for Student Success.

All applicants for the BGS degree program must submit a written essay to the Associate Provost for Student Success which summarizes the students' educational background and explains how the degree program would be personally beneficial in ways that a traditional BA or BS degree program would not. A subcommittee of the Council on General Education and Intercollegiate Programs serves as the BGS Admissions Committee to review and act on the application materials.

Program requirements

1. Significant coursework from two or three specific departments (minimum 45 hours):

- a. If three departments, a minimum of 15 hours from each.
 - b. If two departments, a minimum of 21 hours each plus three additional hours in one of the departments to reach the 45 hour minimum.
 - c. At least 18 of these hours must be upper division.
 - d. At least nine of these hours must be 400 level or above.
 - e. The Public Affairs Capstone requirement of one of the specific departments.
 - f. A grade of C or better in all courses used in the BGS areas of emphasis.
2. Additional hours to bring the upper division total to at least 40.
 3. Additional electives to bring the total hours to at least 120.
 4. All General Baccalaureate Degree requirements except those applying to majors and options and multiple degrees and/or multiple majors.

Individualized Major

Procedures for seeking candidacy

1. Complete GEP 101 (or UHC 110 for Honors College students) in the first semester. Students are strongly encouraged to complete COM 115, ENG 110, and a Quantitative Literacy course within their first 30 hours.
2. Apply through the Academic Advising and Transfer Center, University Hall, room 109, for admission to an individualized major.
 - a. The student shall submit a written statement of intention, aims and background, and transcripts of prior work (minimum 2.00 grade point average required). In some cases, a personal interview or supporting information (such as faculty recommendations) may be required.
 - b. A student accepted to pursue an individualized major selects three faculty advisors from departments in which the student will work. No two faculty members shall represent the same department. These faculty members shall comprise the student's advisory committee. The student shall designate one member as the major advisor.
 - c. It shall be the responsibility of this advisory committee to approve the student's degree program. It is also the responsibility of this committee to evaluate the student's transcript and determine the number of credit hours previously earned which will be applied toward the hours required for this major. The approved program, including a recommended title, shall be submitted to the Academic Advising and Transfer Center for final approval
3. A minimum of 25 credit hours must be completed after the advisory committee has approved the degree program.
4. All agreements shall be filed as a part of the student's degree program. Any alteration of the degree program must be approved by the advisory committee.

Individualized Major (Comprehensive)

Bachelor of Arts

Major requirements (45 hours)

1. Major of not less than 45 hours with not less than 15 hours of upper division credit. The approved program must include a Public Affairs Capstone Experience (minimum of 3 hours) that will be approved by the faculty advisory committee.
2. Senior Integrating Experience: [IDS 499\(0\)](#).

Missouri State Outreach

Missouri State Outreach works with academic departments and colleges throughout the University to provide a wide range of credit courses at both the Springfield campus and off-campus sites beyond the Springfield campus, using technology-based delivery systems and traditional off-campus instruction delivery systems. The academic programs offered undergo the same academic review and scrutiny as academic programs offered in traditional settings.

Interactive video (BearNet)

Technology-based courses may be offered via BearNet at the following sites:

- Cassville MO – Crowder College-Cassville Campus
- El Reno OK – Redlands Community College
- Hollister MO – Ozarks Technical Community College-Table Rock Campus
- Lebanon MO – Ozarks Technical Community College-Lebanon Campus
- Miami OK – Northeastern Oklahoma A&M College
- Mountain Grove MO – Missouri State-Mountain Grove Campus
- Neosho MO – Crowder College-Neosho Campus
- Nevada MO – Crowder College-Nevada Campus
- Nixa MO – Nixa Public Schools Faught Administration Center
- Waynesville MO – Ozarks Technical Community College-Waynesville Campus

Personalized Minor

A student whose educational objectives cannot be best served by existing minors may design a personalized minor suited to individual needs. The student, after completing a minimum of 30 hours, must petition in writing the department head of the area in which the minor is to be taken. This petition is prepared in consultation with the student's advisor and the department of the minor; it includes a list of the proposed courses to be taken with a detailed statement of justification. The department head may accept or reject the petition. When the proposal is agreed upon by both the student and the department head, a personalized program is written and forwarded to the Office of the Registrar, Carrington Hall, room 320.

Pre-Professional Programs

The university provides prerequisite courses and degrees for students seeking entrance into professional schools. Students are regularly admitted to leading schools in all professional areas. Because admission to most professional schools is highly competitive, students are urged to work closely with an academic advisor on the selection of courses and the sequence in which they are to be taken. Although there are general guidelines for each profession, students should contact the professional program(s) they intend to pursue for specific admission criteria.

Pre-engineering

The Department of Mathematics, the Department of Physics, Astronomy and Materials Science, and the collaborative Engineering Program share student advisement for all pre-engineering areas. Most students select a major in one of the two departments or continue on with the collaborative Engineering Program. Contact either department or the Engineering Program Office for more information.

Pre-health professions

The University provides pre-professional education for a variety of health occupations. Some of these professional programs require the completion of a bachelor's degree while others encourage students to apply much earlier in their educational careers. Students may decide on any major area offered by the University, provided they complete the admission requirements for their chosen professional program. In those departments most heavily involved in providing the required academic background, special advisors have been trained for each of the various health areas.

Pre-law

Pre-law students draw on courses, facilities, and services from throughout the University, but primarily those in the Colleges of Humanities and Public Affairs, Arts and Letters, and Business. Many professors have expertise in law-related subjects, teaching in areas such as political science, economics, history, philosophy, the sciences,

and business administration, among others. The Academic Advising and Transfer Center can assist, direct, and inform students seeking admission to law school.

Certificates

The University certificate programs are designed for those who wish to complete a recognized concentration of study in an area. Each certificate program is a focused combination of courses designed to significantly increase competency in the stated discipline area. Completion of the certificate will be reflected on the student's transcript. All candidates must satisfy the [University Certificate Policies and Requirements](#) ([/Registrar/Catalog/certificate.htm](#)).

General information

Darr Agricultural Center

The Center serves as a laboratory and field experience classroom for the study of livestock management, equine studies, horticulture, agronomy, animal science, and wildlife conservation and management.

Learn more: [Darr Agricultural Center](https://Ag.MissouriState.edu/Facilities.htm#dac) (<https://Ag.MissouriState.edu/Facilities.htm#dac>)

Fruit Experiment Station

The Station, operated on the Mountain Grove Research Campus, conducts plant science research programs as well as advisory programs in commercial fruit crops and public education. Learn more: [Fruit Experiment Station](https://Ag.MissouriState.edu/StateFruit/) (<https://Ag.MissouriState.edu/StateFruit/>)

Agriculture Courses

Agriculture (General) (AGR) courses

AGR 100 Food Security

General Education Course (Focus on Social and Behavioral Sciences).

An examination of policies and technology that affect food security for the United States in a global setting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGR 108 Topics in Agriculture

A course designed to treat specific areas of agriculture to meet specialized student needs. Treatment of the subject will include consideration of historical, theoretical, scientific, and application aspects. Variable content course. May be repeated to a maximum of four hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

AGR 110 Agriculture Orientation

Introduction to the educational opportunities, facilities, services, and activities with specific emphasis toward the William H. Darr College of Agriculture. Course designed for students interested in Agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

AGR 118 Leadership

A course for entering freshmen students to examine leadership through the observation and analysis of leaders in various career paths. To demonstrate leadership through class projects.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

AGR 157 Principles of Agricultural Mechanization

Engineering and mechanical principles; their application to agriculture equipment, systems and concepts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGR 200 Mini Agriculture

A course designed to treat specific areas of agriculture to meet specialized student needs. Treatment of the subject will include consideration of historical, theoretical, scientific and application aspects. Variable content course. May be repeated to a maximum of four hours provided the same topic is not duplicated. 1(1-0) D. Approved recurring course topic: Floral Design I. Basic concepts and elements of floral design. Specific emphasis on aesthetics, color, shape, space and texture. 1(1-0) D. Approved recurring course topic: Floral Design II. Assist student to develop his or her unique individual style of advanced floral design. Expansion on basic concepts and elements. Specific emphasis placed on aesthetics, color, shape, space and texture. 1(1-0) D. Approved recurring course topic: Home and Garden Insects. Basic concepts of pest control appropriate for residences and businesses. 1(1-0) D. Approved recurring course topic: Rodeo Techniques. Provide students with an appreciation for and general knowledge of rodeo history, events, organizations, economic impact on today's society and future direction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

AGR 250 Agricultural Communications

Recommended Prerequisite: ENG 110 and COM 115. Introduces the scope and applications of communications and journalism as they relate to agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGR 299 Special Topics

Prerequisite: permission of instructor.

Special study of agricultural topics not treated in other courses. Variable content course. May be repeated to a maximum of five hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-5			Upon demand

AGR 300 Food and Agricultural Chemistry

Prerequisite: C- or better in BIO 101 or BIO 121 or BIO 122 or BMS 100 or CHM 107 or CHM 116 or CHM 160.

Chemistry, sources and importance of biological materials used for food, fiber, and feed for man and domestic animals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGR 301 Agriculture Transfer Student Orientation

An integrative experience which addresses public affairs issues and individual choices promoting academic success for first semester William H. Darr College of Agriculture transfer students. Required of all sophomore, junior, and senior transfer students during their first two semesters at Missouri State who have not taken GEP 101/UHC 110.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

AGR 305 Agriculture Calculations

In this course, students will become familiar with mathematical concepts and calculations often encountered in upper division agriculture courses and in the agriculture industry. These include basic mathematical functions, unit conversions, percentages, scientific notation, feed conversions, algebraic equations, and more. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring, Summer

AGR 313 Beekeeping

Prerequisite: permission of instructor.

Fundamentals needed for the amateur to establish and maintain honey bees and produce a surplus honey crop.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

AGR 320 Writing in the Applied Sciences

Prerequisite: ENG 110 and 45 hours.

General Education Course (Focus on Written Communication and Integrative and Applied Learning).

Strategies for accessing information. Writing proposals, progress reports, final reports, manuals, and online documents for the Applied Sciences.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGR 330 Statistical Applications in Agriculture

Recommended Prerequisite: MTH 130 or higher. Collection, display, analysis and application of agricultural data, including measurement of location and dispersion, probability, normal distribution, sampling, sampling distributions, hypothesis testing, analysis of variance, correlation and regression analysis. Computer statistical packages will be used for simulation study and agricultural data analysis. Applications are specific to Agriculture. Cannot receive credit toward a degree for more than one of the following courses: AGR 330, IPE 381, MTH 340, PSY 200, QBA 237, REC 328, SOC 302.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

AGR 357 Agricultural Power

Recommended Prerequisite: MTH 130 or higher. Principles of operation, construction and utilization of power units.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGR 367 Agricultural Machinery

Recommended Prerequisite: MTH 130 or higher. Principles of construction, operation, selection and utilization of farm field equipment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGR 370 Animal Welfare, Animal Rights, and the Ethics of Food Production

Animal welfare, animal rights, and the ethics of using animals for food, fiber, research, and entertainment will be discussed. The question of sustainability as it pertains to meat animal production, water quality, energy used to produce different food stuffs, and how agriculture affects the environment will also be addressed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGR 377 Agricultural Structures and Systems

Recommended Prerequisite: MTH 130 or higher. Functional and structural design of unified structures and systems for agricultural enterprises.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGR 399 Special Topics

Special study of agricultural topics not treated in other courses. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated. Approved recurring course topic: Principles of Horseshoeing. Horseshoeing techniques including safe use of tools and handling of horses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGR 490 Career Preparation in Agriculture

Recommended Prerequisite: 60 hours. Presentation, discussions and analysis of professional and technical topics in Agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

AGR 499 Internship in Agriculture

Prerequisite: permission of instructor.

Supervised agricultural work experience. A paper describing and analyzing the experience required. May be repeated to a maximum of 10 hours. 1-8, D. Approved recurring course topic: Internship-Equine. An academic program to integrate class experience with actual practice and to provide students with hands-on experience in businesses or agencies which employ agriculture majors. 1-8, D. Approved recurring course topic: Internship-Horticulture. An academic program to integrate class experience with actual practice and to provide students with hands-on experience in businesses or agencies which employ agriculture majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-8			Upon demand

AGR 599 International Study in Agriculture

Faculty-led study course that will include travel to a foreign country as part of further learning of world agricultural systems. Paper and/or other classroom-related work required in addition to travel. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGR 696 International Study in Agriculture

Faculty-led study course that will include travel to a foreign country as part of further learning of world agricultural systems. Paper and/or other classroom-related work required in addition to travel. Variable content course. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGR 790 Introduction to Agricultural Research Methods

Prerequisite: permission of instructor.

This course is designed to provide an introduction to the process of research. The course will address planning, conducting, and reporting research; and development of good consumers of research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGR 796 Science Internship

Completion of an internship project (80 hours/credit hour, 6 credit hours maximum) at a discipline-related business, nonprofit organization, or government agency, approved and supervised by both the departmental and internship advisors. Includes a formal report in the appropriate professional format, and an oral presentation at an approved venue. Graded Pass/Not Pass only. No more than 6 hours may count toward a master's degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

AGR 797 Seminar

Prerequisite: permission of advisor.

In-depth study in an area of agriculture, culminating in an extensive scholarly presentation. May be repeated to a maximum of three hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

AGR 798 Research

Prerequisite: permission of instructor.

Supervised research in agriculture. May be repeated, but not more than six hours may be counted toward a master's degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

AGR 799 Thesis

Prerequisite: permission of instructor.

Demonstration of the capacity for research and independent thought culminating in a thesis. May be repeated but no more than six hours may be counted a master's degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

General Agriculture

Major(s)

General Agriculture (BAS)

Bachelor of Applied Science

Major requirements (53 hours):

1. Associate of Science or Associate of Applied Science degree from an accredited institution. Contact the College of Agriculture for details.
2. [AGN 115\(3\)](#) or [AGP 103\(3\)](#); [AGN 215\(3\)](#); [AGB 144\(4\)](#); [AGR 157\(3\)](#); [AGR 301\(1\)](#); [AGS 101\(4\)](#).
3. 35 hours of upper-division coursework in agriculture to include Public Affairs Capstone Experience requirement of [AGR 499](#) (3), Internship.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

General Agriculture (Comprehensive) (BS)

Bachelor of Science

Major requirements (52-53 hours):

Major core (28-29 hours):

1. Specific General Education Requirements: [AGR 100\(3\)](#); [BIO 101\(3\)](#) and [111\(1\)](#) or [BIO 121\(4\)](#); [CHM 107\(3\)](#) and [108\(1\)](#) or [CHM 116\(4\)](#) and [117\(1\)](#) or [CHM 160\(4\)](#); [PSY 121\(3\)](#); [GEP 101\(2\)](#) or [UHC 110\(2\)](#) or [AGR 301\(1\)](#).

2. [AGS 101\(4\)](#); [AGN 115\(3\)](#) or [AGP 103\(3\)](#); [AGN 215\(3\)](#); [AGB 144\(4\)](#); [AGR 157\(3\)](#); [AGR 300\(3\)](#) or [CHM 201\(3\)](#) and [202\(2\)](#).
3. Three additional hours from each of the following three areas: Agriculture Business, Animal Science, Environmental Plant Science.
4. Public Affairs Capstone Experience Requirement: Three hours of [AGR 499](#), Internship.

Complete one of the following options:

Agricultural Communications option (24 hours):

1. [COM 209\(3\)](#) or [MED 120\(3\)](#); [JRN 270\(3\)](#); [AGB 394\(1\)](#) and [494\(1\)](#).
2. 16 additional hours of courses with ENG, MED, COM, or JRN course codes in consultation with advisor.

Agriculture option (24 hours):

Six hours of Agriculture courses from each of the following four areas: Agricultural Business, Animal Science, Environmental Plant Science, Natural Resources.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)

General Agriculture

Bachelor of Science

1. [AGN 115](#) or [AGP 103\(3\)](#), [AGB 144\(4\)](#), [AGS 101\(4\)](#).
2. Additional hours in Agriculture to total at least 20 hours.

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) (<https://graduate.missouristate.edu/Catalog/prog-agriculture.htm>) for program details.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer

to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) (https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](/Registrar/mixedcredit.htm) (/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) (https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](/Registrar/mixedcredit.htm) (/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Agribusiness, Agricultural Education and Communications Courses

Agricultural Business (AGB) courses

AGB 144 Agricultural Economics I

Characteristics of our economic system and basic economic concepts with applications to agriculture. Effects on agriculture by money and banking systems, monetary and fiscal policies, government policies, and international trade.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	2	Fall, Spring

AGB 314 Legal Aspects of Agriculture

Recommended Prerequisite: 30 hours. Legal framework impinging upon decision making of farm business including farm ownership and transfer, taxation, business organization, losses, and regulations of land and water use.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGB 334 Marketing Agricultural Products

Recommended Prerequisite: AGB 144 or ECO 165. Marketing functions and agencies involved in the movement of farm products from producers to consumers. Explains how the economic behaviors of the farmers, marketing agents and consumers affect the organization and performance of the food markets.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring, Summer

AGB 344 Financing Agriculture

Recommended Prerequisite: AGB 144. Capital requirements and sources and uses of each type of credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGB 354 Land Economics

Recommended Prerequisite: AGB 144. Principles and institutions affecting the allocation of land resources among uses and users.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Summer

AGB 364 Introduction to Agricultural Risk Management: Commodity Futures and Options

Recommended Prerequisite: AGB 334. Introduction to the economic theory, organization, and operating principles of agricultural commodity futures markets. The course will give students the opportunity to explore, through theory and practice, the relationship between cash, futures, basis, exchange and local contracts, and other course concepts. Emphasis is placed on speculating, hedging, and investing in agricultural markets.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGB 374 Agricultural Business Management

Recommended Prerequisite: AGB 144. A study of agricultural firm management including planning, organizing, directing, controlling and coordinating functions used to attain business goals. The role of finance and type of business organization including agricultural cooperatives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGB 384 Agricultural Selling

Recommended Prerequisite: AGB 334. Principles of selling with application to agricultural inputs and products. Attitudes, value systems, and behavioral patterns that relate to agricultural sales. Relationship of sales to marketing, selling strategies, preparing for sales calls, making sales presentations, handling objections, and closing sales. Analysis of the buying or purchasing process. Evaluation of agri-selling as a possible career choice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

AGB 394 Agricultural Industry Study

Prerequisite: concurrent enrollment in AGB 494 for 1 credit hour; completion of 60 hours including 6 hours in agricultural business; and permission of instructor.

A five-day study alternating between St. Louis and Kansas City to examine the management process of a variety of agricultural businesses. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring, Summer

AGB 399 Special Topics in Agribusiness, Education and Communications

Special study in an identified area of agricultural business, education or communications not treated in other courses. Variable content course. May be repeated to a maximum of 12 hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGB 444 American Agricultural Policy

Recommended Prerequisite: AGB 144. Description and analysis of economic problems of US Agriculture. History and significance of government programs to support farm prices and incomes, conserve land resources, encourage adequate food supplies and expand U.S. agricultural trade.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGB 494 Problems in Agricultural Business

Prerequisite: permission of instructor.

Student selects a specific topic, prepares an outline, makes an investigation and presentation under the supervision of an agricultural business staff member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

AGB 499 Internship in Agribusiness, Agricultural Education and Communication

Course in supervised agricultural work experience. A program to integrate class experience with actual practice and to provide students with hands-on experience in agricultural businesses or agricultural communications agencies. Variable content course. May be repeated to a maximum of eight hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-8			Fall, Spring, Summer

AGB 514 International Agricultural Trade

Prerequisite: AGB 334 or MKT 350.

Gains from trade, agricultural trade policies of exporters and importers, exchange rates, multilateral trade negotiations, preferential trade agreements, technical barriers and environmental regulations and trade. May be taught concurrently with AGB 614. Cannot receive credit for both AGB 614 and AGB 514.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGB 524 Agricultural Prices

Prerequisite: AGB 334.

Factors influencing the level and movement of agricultural commodity prices and prices of agricultural inputs. May be taught concurrently with AGB 624. Cannot receive credit for both AGB 624 and AGB 524.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGB 534 Production Economics

Prerequisite: AGB 144.

Application of economics of production in agricultural and business management, examination of the relationships between inputs and outputs, and impact of technology selection on business profitability. May be taught concurrently with AGB 634. Cannot receive credit for both AGB 534 and AGB 634.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGB 574 Advanced Agricultural Risk Management

Recommended Prerequisite: AGB 364. This course explores theory and practice of agricultural risk management in production, market, finance, human, legal, and institutional risk. Students will construct an applicable risk management plan while developing tools and problem solving skills in identifying ways to mitigate risk. May be taught concurrently with AGB 674. Cannot receive credit for both AGB 574 and AGB 674.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGB 584 Farm Business Management

Prerequisite: AGB 144.

Economic principles applied to the organization and operation of agricultural units; tools of decision-making; and factor allocation. May be taught concurrently with AGB 684. Cannot receive credit for both AGB 684 and AGB 584.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

AGB 594 Agricultural Entrepreneurship

This course is designed to explore the best foundational knowledge of owning your own business within the expansive industry that is agriculture. Course will cover various facets of entrepreneurship from resource evaluation to budgets and marketing. By the end of the course, not only will each student have an understanding of entrepreneurship but will also have a completed business plan built on that knowledge. Real world applications will also be explored through guest speakers from the local agricultural community and current event discussions. While most applications will be agriculturally focused, all topics that are discussed can be applied to other sectors of the business world. May be taught concurrently with AGB 694. Cannot receive credit for both AGB 594 and AGB 694.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGB 614 International Agricultural Trade

Recommended Prerequisite: AGB 334 or MKT 350. Gains from trade, agricultural trade policies of exporters and importers, exchange rates, multilateral trade negotiations, preferential trade agreements, technical barriers and environmental regulations and trade. May be taught concurrently with AGB 514. Cannot receive credit for both AGB 514 and AGB 614.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGB 624 Agricultural Prices

Recommended Prerequisite: AGB 334. Factors influencing the level and movement of agricultural commodity prices and prices of agricultural inputs. May be taught concurrently with AGB 524. Cannot receive credit for both AGB 524 and AGB 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGB 634 Production Economics

Prerequisite: AGB 144.

Application of economics of production in agricultural and business management, examination of the relationships between inputs and outputs, and impact of technology selection on business profitability. May be taught concurrently with AGB 534. Cannot receive credit for both AGB 634 and AGB 534.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGB 674 Advanced Agricultural Risk Management

Recommended Prerequisite: AGB 364. This course explores theory and practice of agricultural risk management in production, market, finance, human, legal, and institutional risk. Students will construct an applicable risk management plan while developing tools and problem solving skills in identifying ways to mitigate risk. May be taught concurrently with AGB 574. Cannot receive credit for both AGB 574 and AGB 674.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGB 684 Farm Business Management

Recommended Prerequisite: AGB 144. Economic principles applied to the organization and operation of agricultural units; tools of decision-making; and factor allocation. May be taught concurrently with AGB 584. Cannot receive credit for both AGB 584 and AGB 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

AGB 694 Agricultural Entrepreneurship

This course is designed to explore the best foundational knowledge of owning your own business within the expansive industry that is agriculture. Course will cover various facets of entrepreneurship from resource evaluation to budgets and marketing. By the end of the course, not only will each student have an understanding of entrepreneurship but will also have a completed business plan built on that knowledge. Real world applications will also be explored through guest speakers from the local agricultural community and current event discussions. While most applications will be agriculturally focused, all topics that are discussed can be applied to other sectors of the business world. May be taught concurrently with AGB 594. Cannot receive credit for both AGB 694 and AGB 594.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Agricultural Communications (AGC) courses

AGC 183 Introduction to Agricultural Communications

Prerequisite: ENG 110.

Students will gain a basic understanding of the agricultural communications field, specifically in relation to issues in agriculture. Students will gain a broad understanding of agricultural communications, including a basic understanding of available communication mediums such as print media, audio, video and social media.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGC 293 News Writing in Agriculture

Prerequisite: ENG 110 or AGC 183.

Through the publication of the 'Ag Review', students will develop a basic understanding of news writing and Associated Press Style, specifically in the context of agricultural topics. The 'Ag Review' is a tradition in the School of Agriculture, and allows students to gain experience in journalistic writing, editing and publishing of the news magazine.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGC 303 Event Communications for Agricultural Organizations

Prerequisite: ENG 110 and AGR 320 (or Writing II equivalent).

Students will understand how to organize and run a successful press room for an agricultural organization's event. The class is centered around the Missouri FFA Convention press room at Missouri FFA Convention. Students learn the skills needed to perform in the press room during the lecture portion and spend the week of convention applying their skills to help run the press room.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGC 313 Feature Writing for Agricultural Publications

Prerequisite: ENG 110 and AGR 320 (or Writing II equivalent).

Students will learn how to effectively use the feature writing style, specifically in relation to agriculture publications and topics. Students will understand the different types of feature stories, how to identify story ideas, interview sources and write stories they could potentially publish in an agriculture, food or natural resources related publication which differs from other publications due to the complexities of the industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGC 323 Media in Agriculture

Prerequisite: AGC 183 or AGR 320 (or writing II equivalent).

Students will understand how to integrate multiple media platforms to share a targeted message, with specific focus on social media, radio and video. Agricultural organizations utilize social media and other multimedia platforms to relay information to their consumers. Agricultural communications professionals have had to adapt to the shift of media trends, which include the up rise of technology. Students will apply the skills learned in this course to better reach target audiences within the agricultural industry using multimedia platforms.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGC 333 Layout and Design for Agricultural Publications

Students will learn the fundamentals of Adobe Creative Cloud software, especially InDesign and Illustrator, while grasping basic graphic design principles in the context of agriculture. Specifically, students can apply class content to agricultural entities in their lives. Examples could include creating a graphic design portfolio for a family farm including a logo, brochure, business cards, etc.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGC 343 Agricultural Photography

Students will have an understanding of manual camera settings, photo composition and basic photo editing skills in Photoshop. Ideal for students who will have basic photography requirements in their job. Examples of relevant careers include event photography, livestock photography, communications specialist, etc.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGC 373 Online Communication for Agricultural Organizations

This course explores online media and communication for agricultural organizations including Web design principles, basic Web coding, and social media skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGC 393 Public Relations in Agriculture

Prerequisite: ENG 110 and AGR 320 (or Writing II equivalent).

Students will learn the role public relations plays in agriculture through study of the history, theory and modern application of public relations. After initial study, students will apply their knowledge to create a public relations plan for an agricultural organization.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGC 493 Capstone in Agricultural Communications

Prerequisite: AGC 313 and AGC 333.

Students will understand the process of developing and publishing a feature magazine including both writing and design

of the magazine. For the writing portion, students will be responsible for story idea development, interviews, executing writing and editing. The design portion will include photography and content layout. Another component of the course will be selling advertisements to help offset printing costs. Advertisements are sold to community businesses by students, who potentially could also work with the business to create the advertisement itself. May be taught concurrently with AGC 693. Cannot receive credit for both AGC 493 and AGC 693.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGC 499 College of Agriculture Communications Internship

Internship course within the College of Agriculture to manage and produce digital media content. Students will apply knowledge attained in previous coursework to assist in planning and executing a communications plan and its components.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	1	Spring

AGC 693 Capstone in Agricultural Communications

Prerequisite: AGC 313 and AGC 333.

Students will understand the process of developing and publishing a feature magazine including both writing and design of the magazine. For the writing portion, students will be responsible for story idea development, interviews, executing writing and editing. The design portion will include photography and content layout. Another component of the course will be selling advertisements to help offset printing costs. Advertisements are sold to community businesses by students, who potentially could also work with the business to create the advertisement itself. Graduate students will be required to serve on the editorial team, write extra content and reach accelerated advertising goals. May be taught concurrently with AGC 493. Cannot receive credit for both AGC 493 and AGC 693.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Agricultural Education (AGE) courses

AGE 318 Introduction to Agricultural Education

Recommended Prerequisite: 30 hours. Building an acquaintance with the aims, philosophy, functions, opportunities and demands of agricultural education programs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

AGE 337 Agricultural Mechanics Practices

Shop processes and techniques required for the construction, repair, and maintenance of agricultural facilities and equipment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

AGE 493 Supervised Teaching (Secondary Agriculture)

Prerequisite: completion of all methods courses in Agriculture; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in AGE 494.

Student observes then teaches agriculture classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5-6			Spring

AGE 494 Supervised Teaching (Secondary Agriculture)

Prerequisite: concurrent enrollment in AGE 493.

Student observes, then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5-6			Spring

AGE 498 Problems in Agricultural Education

Prerequisite: permission of instructor.

Student selects a specific topic, prepares an outline, makes an investigation and presentation under the supervision of an agricultural education staff member. May be repeated with permission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGE 499 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate master's level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

AGE 508 Teaching Adults in Vocational Education

Rise of the adult education movement; learning abilities, educational interests and vocational needs of adults; problems and procedures in organizing and operating adult education programs; relationship of adult education to public school education. Identical with AGV 527. Cannot receive credit for AGV 527 and AGE 508. May be taught concurrently with AGE 608. Cannot receive credit for both AGE 608 and AGE 508.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGE 518 Agriculture Education Special Topics

Prerequisite: permission of instructor.

Special study of agricultural education topics not covered in other courses. May be repeated to a maximum of five hours provided the same topic is not duplicated. May be taught concurrently with AGE 628. Cannot receive credit for both AGE 628 and AGE 518.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGE 548 Agriculture in the Classroom

Course is designed to help elementary teachers better appreciate the importance of agriculture in their student's lives and to better understand Missouri agriculture. Course stresses integration of resources available from the agricultural industry across the curriculum. May be taught concurrently with AGE 648. Cannot receive credit for both AGE 648 and AGE 548.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Summer

AGE 558 Teaching of Agriculture

Prerequisite: SEC 302 and EDC 350 and 20 hours in agriculture and admission to the teacher education program.

Establishing objectives and organizing the course, selecting textbooks and equipment, securing and using teaching aids; using workbooks and notebooks, planning field trips, selecting and supervising projects. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take AGE 493 or AGE 494. Cannot be taken Pass/Not Pass. May be taught concurrently with AGE 658. Cannot receive credit for both AGE 658 and AGE 558.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGE 568 Course and Program Building in Agricultural Education

Prerequisite: AGE 318 and AGE 558; and 60 hours.

Organization and analysis of agricultural instruction courses and programs; including the adoption of resource materials to meet individual student needs. May be taught concurrently with AGE 668. Cannot receive credit for both AGE 668 and AGE 568.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGE 578 Methods of Teaching Agricultural Management

Prerequisite: AGE 318 and AGE 558; and 60 hours.

Identification, development, and utilization of supervised agriculture experience programs in Agricultural Education that includes methods of teaching program management, record keeping, and appropriate methodologies. May be taught concurrently with AGE 678. Cannot receive credit for both AGE 678 and AGE 578.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGE 588 Methods of Teaching Agricultural Laboratory Management

Prerequisite: AGE 318 and AGE 558; and 60 hours.

Prepare prospective agricultural science teachers to determine subject matter, methods of teaching, and organization of equipment and facilities as applied to agricultural laboratories in high schools. May be taught concurrently with AGE 688. Cannot receive credit for both AGE 688 and AGE 588.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

AGE 608 Teaching Adults in Vocational Education

Prerequisite: permission of instructor.

Rise of the adult education movement; learning abilities, educational interests and vocational needs of adults; problems and procedures in organizing and operating adult education programs; relationship of adult education to public school education. Identical with AGV 627 and SEC 627. Cannot receive credit for AGV 627 and SEC 627 and AGE 608. May be taught concurrently with AGE 508. Cannot receive credit for both AGE 508 and AGE 608.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGE 628 Agriculture Education-Special Topics

Prerequisite: permission of instructor.

Special study of agricultural education topics not covered in other courses. May be repeated to a maximum of five hours provided the same topic is not duplicated. May be taught concurrently with AGE 518. Cannot receive credit for both AGE 628 and AGE 518.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGE 648 Agriculture in the Classroom

Course is designed to help elementary teachers better appreciate the importance of agriculture in their student's lives and to better understand Missouri agriculture. Course stresses integration of resources available from the agricultural industry across the curriculum. May be taught concurrently with AGE 548. Cannot receive credit for both AGE 548 and AGE 648.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Summer

AGE 658 Teaching of Agriculture

Prerequisite: SEC 302 and EDC 350 and teacher certification students must be admitted to the teacher education program.

Establishing objectives and organizing the course, selecting textbooks and equipment, securing and using teaching aids; using workbooks and notebooks, planning field trips, selecting and supervising projects. A grade of "C" or better is required in this course in order to take AGE 493 or AGE 494. May be taught concurrently with AGE 558. Cannot receive credit for both AGE 558 and AGE 658.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGE 668 Course and Program Building in Agricultural Education

Prerequisite: AGE 318 and AGE 658.

Organization and analysis of agricultural instruction courses and programs; including the adoption of resource materials to meet individual student needs. May be taught concurrently with AGE 568. Cannot receive credit for both AGE 568 and AGE 668.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGE 678 Methods of Teaching Agricultural Management

Prerequisite: AGE 318 and AGE 658.

Identification, development, and utilization of supervised agriculture experience programs in Agricultural Education that includes methods of teaching program management, record keeping, and appropriate methodologies. May be taught concurrently with AGE 578. Cannot receive credit for both AGE 578 and AGE 678.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGE 688 Methods of Teaching Agricultural Laboratory Management

Prerequisite: AGE 318 and AGE 658.

Prepare prospective agricultural science teachers to determine subject matter, methods of teaching, and organization of equipment and facilities as applied to agricultural laboratories in high schools. May be taught concurrently with AGE 588. Cannot receive credit for both AGE 588 and AGE 688.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

AGE 718 Topics in Agricultural Education

Prerequisite: permission of instructor.

Current developments and trends in teaching agricultural education as well as new developments in resources and techniques. May be repeated, however, only nine hours will count towards the graduate program of study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGE 728 Induction Year Teaching I

Prerequisite: permission of instructor.

Course for the professional development of first-year teachers of agriculture. The course focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

AGE 738 Induction Year Teaching II

Prerequisite: AGE 728.

Course for the professional development of second-year teachers of agriculture. The course is a continuation of AGE 728 and focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

Technology Education (AGT) courses

AGT 416 Principles of Teaching Industrial Education

Prerequisite: EDC 150 and SEC 302 and 60 hours; and admitted to teacher education program or teacher certification.

Instructional methods of attaining the objectives of technology education and vocational industrial technical education; design of individualized instruction and classroom and laboratory management; techniques of problem solving and applied critical thinking/decision-making; construction of tests; student evaluation; and use of visual aids. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take AGT 493 or AGT 494. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGT 420 Technology Education for the Classroom

Prerequisite: AGT 416 or concurrent enrollment; EDC 150 and SEC 302; and 60 hours; and admitted to Teacher Education Program or teacher certification.

Techniques, constructional activities, instructional materials and critical thinking/problem solving activities used in teaching technology education in elementary and secondary schools. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take AGT 493 or AGT 494. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

AGT 493 Supervised Teaching (Secondary Technology)

Prerequisite: completion of all method courses in Technology; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for student teaching; and concurrent enrollment in AGT 494.

Student observes then teaches industrial technology classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Spring

AGT 494 Supervised Teaching (Secondary Technology)

Prerequisite: concurrent enrollment in AGT 493.

Student observes then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. The course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Spring

AGT 499 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate master's level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

AGT 521 Selection and Organization of Industrial Education

Prerequisite: AGT 416 or concurrent enrollment; and AGT 420 or concurrent enrollment.

Selection and arrangement of units to teach; preparation of informational and job assignments; selection, purchase and arrangement of laboratory equipment; dispensing of supplies and keeping of adequate records. Course typically taken in same semester as AGT 416 and AGT 420. Identical with AGV 521. Cannot receive credit for both AGT 521 and AGV 521. May be taught concurrently with AGT 621. Cannot receive credit for both AGT 621 and AGT 521.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGT 621 Selection and Organization of Industrial Education

Prerequisite: AGT 416 or concurrent enrollment; and AGT 420 or concurrent enrollment.

Selection and arrangement of units to teach; preparation of informational and job assignments; selection, purchase and arrangement of laboratory equipment; dispensing of supplies and keeping of adequate records. Course typically taught in same semester as AGT 416 and AGT 420. Identical with AGV 621. Cannot receive credit for both AGT 621 and AGV 621. May be taught concurrently with AGT 521. Cannot receive credit for both AGT 521 and AGT 621.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

Agricultural Vocational (AGV) courses

AGV 520 Occupational Analysis

Analysis and breakdown of broad occupations or specific jobs into basic elements for instructional purposes. May be repeated to a maximum of two hours provided the same topic is not duplicated. May be taught concurrently with AGV

620. Cannot receive credit for both AGV 620 and AGV 520.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

AGV 521 Selection and Organization of Industrial Education

Selection and arrangement of units to teach; preparation of informational and job assignments; selection, purchase and arrangement of laboratory equipment; dispensing of supplies and keeping of adequate records. Course typically taken in same semester as AGT 416. Identical with AGT 521. Cannot receive credit for both AGV 521 and AGT 521. May be taught concurrently with AGV 621. Cannot receive credit for both AGV 621 and AGV 521.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 522 Philosophy of Vocational Education

Philosophical foundations of vocational education; philosophies of vocational education in the contemporary school. May be repeated to a maximum of three hours provided the same topic is not duplicated. May be taught concurrently with AGV 622. Cannot receive credit for both AGV 622 and AGV 522.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 523 Guidance for Vocational Development

Materials, procedures, and problems involved in the guidance of individuals in the selection of, preparation for, and advancement in a vocation. May be repeated to a maximum of three hours provided the same topic is not duplicated. May be taught concurrently with AGV 623. Cannot receive credit for both AGV 623 and AGV 523.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 525 Organization and Management in Vocational Education

A systematic approach to defining and measuring occupational knowledge, skills and attitudes based upon an occupational analysis, instructional methodology, evaluation, and program standards. May be taught concurrently with AGV 625. Cannot receive credit for both AGV 625 and AGV 525.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 526 Coordination of Cooperative Education

Problems and procedures in organizing and operating part-time cooperative and evening occupation programs. May be repeated to a maximum of two hours provided the same topic is not duplicated. May be taught concurrently with AGV 626. Cannot receive credit for both AGV 626 and AGV 526.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

AGV 527 Teaching Adults in Vocational Education

Rise of the adult education movement, learning abilities, educational interests, and vocational needs of adults; problems and procedures in organizing and operating adult education programs; relationship of adult education to public school education. Identical with AGE 508. Cannot receive credit for AGV 527 and AGE 508. May be taught concurrently with AGV 627. Cannot receive credit for both AGV 627 and AGV 527.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 528 Measurement and Evaluation of Vocational Education Programs

Means for assessing specific program needs as determined from occupational surveys and other demographic data; follow-up techniques to evaluate the overall effectiveness of the program to the manpower needs in a given labor market area. Identical with SEC 528. May be repeated to a maximum of three hours with departmental approval provided the same topic is not duplicated. May be taught concurrently with AGV 628. Cannot receive credit for both AGV 628 and AGV 528.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 576 Teaching of Industrial/Vocational Subjects

Instructional methods and techniques of teaching industrial/vocational education subjects; attaining objectives of career and technical education, design and evaluation of instructional units; classroom and laboratory management; and development of evaluative instruments. May be taught concurrently with AGV 676. Cannot receive credit for both AGV

676 and AGV 576.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 620 Occupational Analysis

Analysis and breakdown of broad occupations or specific jobs into basic elements for instructional purposes. May be repeated to a maximum of two hours provided the same topic is not duplicated. May be taught concurrently with AGV 520. Cannot receive credit for both AGV 520 and AGV 620.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

AGV 621 Selection and Organization of Industrial Education

Selection and arrangement of units to teach; preparation of informational and job assignments; selection, purchase and arrangement of laboratory equipment; dispensing of supplies and keeping of adequate records. Course typically taken in same semester as AGT 416. Identical with AGT 621. Cannot receive credit for both AGV 621 and AGT 621. May be taught concurrently with AGV 521. Cannot receive credit for both AGV 521 and AGV 621.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 622 Philosophy of Vocational Education

Philosophical foundations of vocational education; philosophies of vocational education in the contemporary school. Identical with SEC 622. May be repeated to a maximum of three hours provided the same topic is not duplicated. May be taught concurrently with AGV 522. Cannot receive credit for both AGV 522 and AGV 622.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 623 Guidance for Vocational Development

Materials, procedures, and problems involved in the guidance of individuals in the selection of, preparation for, and advancement in a vocation. May be repeated to a maximum of three hours provided the same topic is not duplicated. May be taught concurrently with AGV 523. Cannot receive credit for both AGV 523 and AGV 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 625 Organization and Management in Vocational Education

A systematic approach to defining and measuring occupational knowledge, skills and attitudes based upon an occupational analysis, instructional methodology, evaluation, and program standards. May be taught concurrently with AGV 525. Cannot receive credit for both AGV 525 and AGV 625.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 626 Coordination of Cooperative Education

Problems and procedures in organizing and operating part-time cooperative and evening occupation programs. Identical with SEC 626. May be repeated to a maximum of two hours provided the same topic is not duplicated. May be taught concurrently with AGV 526. Cannot receive credit for both AGV 626 and AGV 526.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

AGV 627 Teaching Adults in Vocational Education

Rise of the adult education movement, learning abilities, educational interests, and vocational needs of adults; problems and procedures in organizing and operating adult education programs; relationship of adult education to public school education. Identical with AGE 608 and SEC 627. Cannot receive credit for AGV 627 and AGE 608 and SEC 627. May be taught concurrently with AGV 527. Cannot receive credit for both AGV 527 and AGV 627.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 628 Measurement and Evaluation of Vocational Education Programs

Means for assessing specific program needs as determined from occupational surveys and other demographic data; follow-up techniques to evaluate the overall effectiveness of the program to the manpower needs in a given labor market area. Identical with SEC 628. May be repeated to a maximum of three hours with departmental approval provided the same topic is not duplicated. May be taught concurrently with AGV 528. Cannot receive credit for both AGV 528 and AGV 628.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 676 Teaching of Industrial/Vocational Subjects

Instructional methods and techniques of teaching industrial/vocational education subjects; attaining objectives of career and technical education, design and evaluation of instructional units; classroom and laboratory management; and development of evaluative instruments. May be taught concurrently with AGV 576. Cannot receive credit for both AGV 576 and AGV 676.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 724 Organization and Administration of Vocational Education

Prerequisite: permission of instructor.

Problems, procedures and local, state and federal relationships in the organization and administration of vocational education in the contemporary school. Identical with SFR 724. May be repeated to a maximum of three 3 hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGV 726 Seminar in Industrial Education

Prerequisite: permission of instructor.

Presentation and discussion of professional or technical problems in the organization and management of programs and facilities in industrial education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGV 760 Special Investigations

Prerequisite: permission of instructor.

The student, in consultation with the advisor, selects for in-depth study an area determined by the interest/career objectives of the student. Based on demand and timeliness of the subject, a cluster study group may engage in a joint investigation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-5			Upon demand

Agricultural Business

Major(s)

Agricultural Business (Comprehensive)

Bachelor of Science

Major requirements (63-71):

Major core:

1. Specific General Education Requirements: [MTH 134\(3\)](#) or higher; [PSY 121\(3\)](#); [GEP 101\(2\)](#) or [UHC 110\(2\)](#) or [AGR 301\(1\)](#).
2. [AGN 115\(3\)](#) or [AGP 103\(3\)](#); [AGN 215\(3\)](#); [AGB 144\(4\)](#); [AGB 314\(3\)](#) or [LAW 231\(3\)](#); [AGB 334\(3\)](#), [354\(2\)](#), [364\(3\)](#), [374\(3\)](#), [394\(1\)](#), [494\(1\)](#); [AGB 514\(3\)](#) or [ECO 565\(3\)](#) or [MKT 474\(3\)](#); [AGB 524\(3\)](#); [AGB 444\(3\)](#) or [AGR 499\(2\)](#); [AGR 330\(3\)](#) or [QBA 237\(3\)](#); [AGR 490\(1\)](#); [ACC 201\(3\)](#).
3. One course from: [COM 315\(3\)](#); [MGT 286\(3\)](#); [AGB 384\(2\)](#).
4. [CHM 107\(3\)](#) and [108\(1\)](#); or [CHM 116\(4\)](#) and [117\(1\)](#); or [CHM 160\(4\)](#).
5. Public Affairs Capstone Experience Requirement will be fulfilled by completion of [AGB 394\(1\)](#), [AGB 494\(1\)](#), and [AGR 490\(1\)](#).

Complete one of the following options:

Agricultural Enterprise Management option (18 hours):

1. [AGB 344\(3\)](#) or [534\(3\)](#) or [584\(3\)](#); [ENT 584\(3\)](#).
2. 12 hours from one of the following groups:
 - a. Animal Science: [AGS 101\(4\)](#), [161\(3\)](#), [301\(3\)](#), [302\(3\)](#), [306\(3\)](#); [310\(3\)](#) or [311\(3\)](#); [316\(3\)](#), [342\(2\)](#), [346\(2\)](#), [361\(3\)](#), [402\(2\)](#), [432\(3\)](#), [442\(3\)](#), [446\(3\)](#), [451\(3\)](#), [452\(3\)](#), [461\(3\)](#), [511\(3\)](#); [AGP 365\(3\)](#) or [370\(3\)](#).
 - b. Natural Resources: [AGN 335\(3\)](#), [405\(3\)](#), [455\(3\)](#); [AGP 485\(3\)](#).
 - c. Environmental Plant Science: [AGP 303\(3\)](#), [333\(3\)](#), [353\(3\)](#), [363\(3\)](#), [365\(3\)](#), [370\(3\)](#), [393\(3\)](#), [403\(3\)](#), [441\(3\)](#), [543\(3\)](#), [573\(3\)](#), [575\(2\)](#), [583\(3\)](#).

Agricultural Finance and Management option (22 hours):

1. [ACC 211\(3\)](#); [AGB 344\(3\)](#), [584\(3\)](#); [AGS 101\(4\)](#).
2. Two courses from: [ACC 311\(3\)](#); [AGB 534\(3\)](#); [ECO 305\(3\)](#); [FIN 266\(3\)](#), [380\(3\)](#), [485\(3\)](#); [MGT 340\(3\)](#), [345\(3\)](#); [RMI 211\(3\)](#), [415\(3\)](#).
3. One course from: [AGN 335\(3\)](#); [AGP 303\(3\)](#), [353\(3\)](#), [365\(3\)](#), [370\(3\)](#), [485\(3\)](#), [583\(3\)](#); [AGS 311\(3\)](#).

Agricultural Marketing and Sales option (16 hours):

1. [AGB 344\(3\)](#) or [534\(3\)](#) or [584\(3\)](#); [AGS 101\(4\)](#).
2. Two courses from: [MKT 351\(3\)](#), [354\(3\)](#), [355\(3\)](#), [360\(3\)](#); [MGT 340\(3\)](#) or [345\(3\)](#).
3. One course from: [AGN 335\(3\)](#); [AGP 303\(3\)](#), [353\(3\)](#), [365\(3\)](#), [370\(3\)](#), [485\(3\)](#), [583\(3\)](#); [AGS 311\(3\)](#).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)

Agricultural Business

Bachelor of Science

1. [AGB 144\(4\)](#), [394\(1\)](#).
2. Additional courses from the following to total at least 20 hours in Agricultural Economics: [AGB 334\(3\)](#), [344\(3\)](#), [354\(2\)](#), [374\(3\)](#), [524\(3\)](#), [534\(3\)](#), [584\(3\)](#).

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-agriculture.htm\)](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) for program details.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm\)](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm\)](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Agricultural Communications

Major(s)

Agricultural Communications (Comprehensive)

Bachelor of Science

Major requirements (65 hours):

1. Specific General Education requirements: [AGR 100\(3\)](#); [BIO 101\(3\)](#) and [111\(1\)](#) or [BIO 121\(4\)](#); [CHM 107\(3\)](#) and [108\(1\)](#) or [CHM 116\(4\)](#) and [117\(1\)](#) or [CHM 160\(4\)](#); [GEP 101\(2\)](#) or [UHC 110\(2\)](#) or [AGR 301\(1\)](#).
2. General Agriculture courses: [AGS 101\(3\)](#); [AGN 115\(3\)](#) or [AGP 103\(3\)](#); [AGN 215\(3\)](#); [AGB 144\(4\)](#); [AGR 490\(1\)](#).
3. Three additional upper division hours from each of the following three areas:
 - a. Agricultural Business (AGB).
 - b. Animal Science (AGS).
 - c. Environmental Plant Science and Natural Resources (AGP/AGN).
4. Agricultural Communications courses: [AGC 183\(3\)](#), [293\(3\)](#), [313\(3\)](#), [323\(3\)](#), [333\(3\)](#), [343\(3\)](#), [373\(3\)](#), [393\(3\)](#), [493\(3\)](#), [499\(1\)](#); [AGR 499\(2\)](#); [COM 209\(3\)](#).
5. Public Affairs Capstone Experience Requirement will be fulfilled by completion of [AGC 493\(3\)](#).
6. In consultation with advisor, select an additional 9 hours in courses numbered 300 or higher from the following subject codes: AGB, AGN, AGP, AGR, AGS, COM, JRN, MED, MGT, MKT.

University level requirements:

Bachelor of Science

1. [AGC 183\(3\)](#).
2. Three courses from: [AGC 293\(3\)](#), [303\(3\)](#), [313\(3\)](#), [323\(3\)](#), [333\(3\)](#), [343\(3\)](#), [373\(3\)](#), [393\(3\)](#).
3. Additional hours from number 2 or the following to total at least 17 hours in the minor: [AGB 334\(3\)](#), [374\(3\)](#), [384\(2\)](#), [394\(1\)](#), [444\(3\)](#), [494\(1-3\)*](#), [584\(3\)](#), [594\(3\)](#).

*Section titled Ag Leadership Theory/Advocacy.

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) (<https://graduate.missouristate.edu/Catalog/prog-agriculture.htm>) for program details.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Agricultural Economics Certificate

Agricultural Economics

This certificate is jointly offered by the Department of Economics and the Department of Agribusiness, Agricultural Education and Communication. The certificate is designed for students who aspire to have careers with government, business, or NGOs related to agricultural economics.

This certificate is administered by the Department of Economics.

Program requirements (11-12 hours)

1. Two courses from: [ECO 409\(3\)](#), [450\(3\)](#), [540\(3\)](#).
2. Two courses from: [AGB 354\(2\)](#), [364\(3\)](#), [444\(3\)](#), [524\(3\)](#).
3. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Agriculture Education

Major(s)

Agriculture Education

Bachelor of Science in Education (Certifiable grades 9-12)

Major requirements (52-53 hours):

1. Specific General Education requirements: [BIO 101\(3\)](#) and [111\(1\)](#); [CHM 107\(3\)](#) and [108\(1\)](#) or [CHM 116\(4\)](#) and [117\(1\)](#) or [CHM 160\(4\)](#); [PSY 121\(3\)](#); [GEP 101\(2\)](#) or [UHC 110\(2\)](#) or [AGR 301\(1\)](#).
2. [AGB 144\(4\)](#), [334\(3\)](#); [AGE 337\(3\)](#); [AGP 103\(3\)](#) or [AGN 115\(3\)](#); [AGN 143\(3\)](#), [215\(3\)](#); [AGN 335\(3\)](#) or AGR 383(3)-course deleted-see advisor; [AGP 303\(3\)](#) or [AGP 333\(3\)](#) or [AGP 543\(3\)](#); [AGS 101\(4\)](#).
3. [AGE 318\(2\)](#), [568\(3\)](#), [578\(2\)](#), [588\(2\)](#).
4. Area of Specialization: Students must select a minimum of 20 hours of Agriculture courses to complete 45 hours of Technical Agriculture required by the State Department of Education. These courses must consist of any agriculture course not required as a major or Professional Education requirement.
5. Public Affairs Capstone Experience Requirement will be fulfilled by completion of AGE 493(6) and 494(6).

Professional Education requirements (35 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Teaching methods and supervised teaching (15 hours): [AGE 558\(3\)](#), [493\(6\)](#), [494\(6\)](#).
2. Additional [Professional Education Required Core and Competencies](#) (20 hours).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval for supervised teaching; and recommendation for certification which includes following GPA requirements. All GPA requirements include both Missouri State and transfer grades.
 - a. at least a 2.75 GPA on all course work attempted at all colleges attended.
 - b. at least a 3.00 GPA in the certificate subject area (major field of study) which includes all courses listed under major requirements.

- c. at least a 3.00 GPA in any additional certificate subject area.
- d. at least a 3.00 GPA in the professional education courses which includes all courses in number 1 and 2; and no grade lower than a "C" in all professional education courses.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)

Agriculture

Bachelor of Science in Education (Non-Certifiable)

1. One course from each of the following six areas: Agriculture Economics; Animal Husbandry; Soils and Field Crops; Dairy Husbandry; Horticulture; and Poultry Husbandry.
2. Additional courses to total at least 24 hours in agriculture. Students should confer with an agriculture advisor before scheduling for advice on courses to meet their special needs.

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). International Agricultural Leadership Certificate

International Agricultural Leadership

This certificate allows visiting students to complete a 12-hour program in Agriculture. The program will focus on building the skills necessary to translate local agricultural knowledge and leadership into a learning framework, which can be applied to a variety of settings.

Admission requirement

Students must be concurrently enrolled in an eligible program through the International Leadership Training Center (ILTC) or be enrolled in a recognized Education Abroad experience.

Program requirements (12 hours)

1. [AGR 499\(2\)](#), [AGP 496\(2\)](#); [AGR 100\(3\)](#) or [AGB 494\(3\)](#).
2. Five additional hours of agriculture or other approved courses in consultation with an agriculture and ILTC/Education Abroad advisor.
3. All candidates must satisfy the [General University Certificate Requirements](#).

Bachelor of Science in Agriculture degree with a major in Poultry Science (University of Arkansas-Fayetteville)

This program will provide an educational pathway leading to a Bachelor of Science degree with a major in Animal Science from Missouri State University and a Bachelor of Science in Agriculture degree with a major in Poultry Science from University of Arkansas-Fayetteville.

Students considering this program should consult with their advisor in the Department of Animal Science.

Contact

Department head

[Gary W. Webb, PhD](#)

(<https://search.missouristate.edu/people>

[/garywebb](#))

Office

To be eligible to apply to this transfer degree program at University of Arkansas-Fayetteville, students must:

1. Declare the Animal Science major at Missouri State University.
2. Successfully complete a preapproved block of required courses within the major with a grade of C or better in all courses.
3. Complete Missouri State coursework with a minimum 2.75 GPA.
4. Submit an official Missouri State University transcript with final grades to University of Arkansas-Fayetteville.

Students will complete a minimum of 30 hours at University of Arkansas-Fayetteville to complete their Missouri State University Animal Science major. The Missouri State University policy that require students to complete 20 out of the last 30 hours at MSU will be automatically waived.

To be eligible for graduation at Missouri State University, students must:

1. Complete all Missouri State University general education and general baccalaureate degree requirements.
2. Apply to graduate at Missouri State University during their last semester at University of Arkansas-Fayetteville.
3. Submit a final transcript to Missouri State University for transfer evaluation and verification of degree requirements.

Pre-Professional Curriculum in Veterinary Medicine

Students considering the Pre-Veterinary Program should consult with the Pre-Veterinary advisor in the College of Agriculture. Learn more: [Pre-Veterinary Program](http://ag.missouristate.edu/PreVet/) (<http://ag.missouristate.edu/PreVet/>)

Option I: To be eligible to apply to the College of Veterinary Medicine at the University of Missouri, a minimum of 64 hours must be completed including the following courses:

1. CHM 160(4), 161(1), 170(3), 171(1), 201(3), 202(2), 352(3).
2. COM 115(3); ENG 110(3); MTH 138(5) or 136(3) and 137(3); PHY 123(4) and 124(4).
3. 10 hours of biological sciences: BIO 212(2) and 213(1); and BIO 380(5) are recommended.
4. Additional 10 hours of coursework in the social sciences and humanities.

Option II: By completing this option of approximately 100 hours, a student may apply for a BS degree with a major in Animal Science from Missouri State University after successfully completing the first two years in the College of Veterinary Medicine at the University of Missouri-Columbia.

1. General Education Requirements (45 hours)
2. Science and Mathematics Requirements (38-47 hours): BIO 212(2) and 213(1); or BIO 312(3) and 313(2), BIO 380(5); CHM 160(4),* 161(1),* 170(3), 171(1), 201(3), 202(2), and 352(3); MTH 138(5)* or 136(3)* and 137(3)*; and PHY 123(4)* and 124(4).

Animal Science Courses

Animal Science (AGS) courses

AGS 101 Animal Science

An introductory course in principles of management and care of livestock and companion animals, including basic biology, genetics, nutrition, reproduction, industry structure, management practices and production systems. Concurrent enrollment in AGS 102 is recommended.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGS 102 Animal Science Laboratory

This laboratory course will support the concepts presented in a 100-level animal science course by offering hands-on practice of the various skills used in animal based agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

AGS 161 Introduction to Horses

Scope and role of the horse industry. Responsibilities of ownership; selection, breeds-development and uses; basic care-nutrition, health care, conditioning; and facilities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGS 162 Introduction to Riding

This is an introductory course with a focus on safe and effective techniques for both English and Western riding. Students that ride must not exceed 20% of the horse's weight and must be able to lift 50 lbs. Students are responsible for transportation. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 163 Introduction to Hunt Seat Equestrian Competition

Prerequisite: AGS 162 or permission of instructor.

This course is for students who have limited or no experience in equestrian competition in the hunt seat discipline. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 263 or AGS 363. May be repeated for a total of 2 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 164 Introduction to Stock Seat Equestrian Competition

Prerequisite: AGS 162 or permission of instructor.

This course is for students who have limited or no experience in equestrian competition in the stock seat discipline. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 264 or AGS 364. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 185 Introduction to Companion Animal Science

An introduction to companion animal biology through consideration of the anatomy, nutrition, behavior, husbandry, and reproduction of companion animals. Course content is largely focused on cats and dogs, although other mammals, birds and reptiles commonly kept as pets will be discussed. Legal, economic, and ethical issues associated

with companion animals will be addressed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGS 191 Evaluation and Performance Appraisal of Horses

Detailed evaluation of athletic performance of horses; influence of training and other environmental effects, heredity, and conformation; use of racing and performance records, visual appraisal, and industry trends; oral and written defense of judgments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

AGS 196 Dairy and Meat Animal Evaluation

Comparative judging including selection, grading, and classification of dairy cattle, or beef cattle, swine and sheep. Variable content course. May be repeated to a maximum of four hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall

AGS 251 Introduction to the Beef Industry

Prerequisite: AGS 101.

Overview of the U.S. and global beef industry with regard to beef production and consumption. Standard management decisions for seedstock, commercial cow-calf, stocker, and feedlot sectors of the beef industry. Basics of reproduction, breeding and genetics, nutrition, health, and growth related to beef cattle.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGS 262 Introduction to Riding II

Prerequisite: AGS 162 or permission of instructor.

This is an intermediate-level riding course with a focus on developing more advanced skills for riding horses. Students may ride hunt seat, stock seat, or both seats during the semester. Students that ride must not exceed 20% of

the horse's weight and must be able to lift 50 lbs. Students are responsible for transportation to the Darr Center.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall, Spring, Summer

AGS 263 Intermediate Hunt Seat Equestrian Competition

Prerequisite: permission of instructor.

Recommended Prerequisite: AGS 163. This course is for students who have a moderate amount of experience in equestrian competition in the hunt seat discipline. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 163 or AGS 363. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 264 Intermediate Stock Seat Equestrian Competition

Prerequisite: permission of instructor.

Recommended Prerequisite: AGS 163 or 164. This course is for students who have a moderate amount of experience in equestrian competition in the stock seat discipline. Events to be covered will include horsemanship and ranch horse events. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 164 or AGS 364. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 301 Physiology of Farm Animals

Recommended Prerequisite: AGS 101 and BIO 101 and 111 and CHM 116 and 117. Basic physiology of farm animals with special emphasis on systems related to the economic importance of domestic animals such as the mammary, reproductive, endocrine, and other systems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 302 Reproductive Physiology

Prerequisite: AGS 101 and C- or better in BIO 101 or BIO 121 or BIO 122 or BMS 100 or CHM 107 or CHM 116 or CHM 160.

Physiological principles of reproductive processes in domestic animals (production and companion) including sperm and ova production, estrus, fertilization, gestation, and parturition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGS 306 Veterinary Science

Recommended Prerequisite: AGS 101. Functional anatomy, diseases and parasites of farm animals; sanitation; disease prevention and control.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGS 310 Animal Nutrition

Prerequisite: AGS 101 and C- or better in BIO 101 or BIO 121 or BIO 122 or CHM 107 or CHM 116 or CHM 160.

Key topics include the basic fundamentals of nutrition and comparative nutrition of farm animals. Anatomy and physiology of the digestive system and basic metabolism will also be covered along with the characteristics, digestion and functions of the basic nutrients.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGS 311 Feeds and Feeding

Prerequisite: AGS 101; and MTH 130 or higher; and C- or better in BIO 101 or BIO 121 or BIO 122 or BMS 100 or CHM 107 or CHM 116 or CHM 160.

Feedstuff composition and formulation of rations and feeding management of livestock and companion animals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGS 316 Animal Breeding

Prerequisite: AGS 101; and C- or better in MTH 130 or higher; and C- or better in BIO 101 or BIO 121 or BIO 122 or BMS 100 or CHM 107 or

CHM 116 or CHM 160.

Principles of heredity applied to the improvement of farm animals; variation, selection, inbreeding and crossbreeding.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGS 341 Food Safety

This course will help students develop an understanding of the role of chemical, microbial, and biological safety of food from farm production units through processing and shipping. Students will learn the principles of sanitation, inspection, and regulations as well as current and emerging concerns in the area of public health and food safety. Lab will reinforce information covered in lecture. Hands on activities will help facilitate the reinforcement of material.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGS 342 Meat Science and Products

Recommended Prerequisite: AGS 101 and either CHM 116 and 117 or CHM 160. Processing, inspection, grading, preservation and nutritive value of meats and meat products.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

AGS 346 Dairy Products

Recommended Prerequisite: AGS 101 and either CHM 116 and 117 or CHM 160. Processing, inspection, grading, preservation and nutritional value of dairy products.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

AGS 361 Horse Management and Training

Recommended Prerequisite: AGS 161 or previous experience with horses. Survey of management and basic handling of horses. Feeding management, health care and equine enterprise management are emphasized. Instruction in fitting for show or sale, practical horse psychology and training for basic performance is given.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring, Summer

AGS 362 Riding Instruction

Prerequisite: AGS 162.

This is an advanced-level riding course with a focus on developing skills necessary for basic riding instruction. Students may ride hunt seat, stock seat, or both seats during the semester. Students are responsible for transportation and payment of horse care fee.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Spring

AGS 363 Advanced Hunt Seat Equestrian Competition

Prerequisite: permission of instructor.

Recommended Prerequisite: AGS 263. This course is for students who are ready to compete in advanced levels of equestrian competition in the hunt seat discipline. Events to be covered will include over fences classes. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 163 or AGS 263. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 364 Advanced Stock Seat Equestrian Competition

Prerequisite: permission of instructor.

Recommended Prerequisite: AGS 263 or 264. This course is for students who are ready to compete in advanced levels of equestrian competition in the stock seat discipline. Events to be covered will include reining and ranch horse events. Students are responsible for transportation to the Darr Center. A horse care fee will be charged. This course cannot be taken concurrently with AGS 164 or AGS 264. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring, Summer

AGS 365 Equine-assisted Activities and Therapies

Recommended prerequisite: AGS 162 or AGS 262 or experience handling horses. Introduction to equine-assisted activities and therapies and the role of the horse in these programs. Focus on the development of horses and volunteers to work in equine-assisted therapy programs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

AGS 366 Livestock Enterprise Management

Prerequisite: AGS 101 or permission of the instructor; and MTH 130 or greater or AGR 305.

This course will provide students, especially those pursuing an Animal Science major or Equine Studies minor, an opportunity to learn and apply concepts of livestock nutrition, handling, care, and business management that will be pertinent to their success within the professional livestock industry. Course will focus on the relationship between the livestock and business concepts of operating a livestock facility. Course will be primarily lecture with hands-on activities to help demonstrate concepts and reinforce comprehension of material.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGS 385 Companion Animal Nutrition and Reproduction

Recommended Prerequisite: AGS 185. Application of the reproductive and nutritional management of companion animals. Course will focus on reproductive anatomy and physiology of dogs and cats as pertaining to both breeding and population control. Discussion of nutritional requirements and management of companion animals will focus on dog and cats through different life stages. Course will include some discussion of nutritional issues in commonly kept "pocket pets". Materials will be addressed through discussion and hands on labs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGS 389 Companion Animals in Society

This course explores the current role of companion animals in cultures throughout the world, as well as historical functions and influences of companion animals in the United States. Covered topics include evolution of companion animals, current issues with companion animals, use of animals for service and assistance, global growth of the pet industry, and roles of companion animals in developing countries.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 391 Animal Industry Tour

This course will provide students an opportunity to see and meet people actively working in sustainable animal production businesses or doing research in sustainable animal based agriculture. Students and faculty will travel across the country meeting production agriculturalists, scientists, and teachers from a wide variety of locations. May be repeated to a maximum of four hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

AGS 396 Advanced Dairy and Meat Animal Evaluation

Recommended Prerequisite: AGS 196. Continuation of AGS 196 with special emphasis on comparative judging and giving of oral reasons. Variable content course. May be repeated to a maximum of four hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Spring

AGS 399 Special Topics in Animal Science

Special study of animal science topics not treated in other courses. Variable content course. May be repeated to a maximum of twelve hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

AGS 402 Applied Reproductive Techniques

Prerequisite: AGS 302.

Techniques of artificial insemination, pregnancy determination, semen processing and collecting, and embryo transfer. Planning and management for successful artificial breeding programs. Additional Saturday field trips may be required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall, Spring

AGS 432 Sheep and Goat Science

Recommended Prerequisite: AGB 144 and AGN 115 and AGS 301 and AGS 311. Applications of the principles of nutrition, physiology and genetics to sheep and goat management. Wool and mohair production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 442 Swine Science

Recommended Prerequisite: AGS 311. Applications of the principals of nutrition, physiology and genetics of swine management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGS 446 Dairy Production

Recommended Prerequisite: AGS 311. Efficient dairy farm enterprise organization, feed supplies, economical rations, breeding record analysis, labor-saving buildings and equipment, herd replacements, health and other management problems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall (even-numbered years)

AGS 451 Poultry Science

Recommended Prerequisite: AGS 101. Broiler production, market turkey production, egg production and processing of poultry products.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGS 452 Cow-Calf Production

Prerequisite: AGS 101 or AGB 144 or AGN 115 or AGP 103; and 60 hours.

Management of the cow-calf enterprise including grazing management, reproduction, genetics, nutrition, and animal health. Costs of production, financial statements, and partial budgeting evaluate profitability of management practices. Hands-on experience managing beef cows through calving and rebreeding.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGS 453 Stocker and Feedlot Cattle Production

Prerequisite: AGS 101 or AGB 144 or AGN 115 or AGP 103; and 60 hours.

Management of post-weaning growing and finishing beef cattle including grazing management, nutrition, genetics, and animal health. Financial aspects of purchasing feeder cattle, marketing fat cattle, and risk management of stocker and feedlot enterprises. Hands-on experience managing calves post-weaning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGS 461 Equine Nutrition and Physiology

Recommended Prerequisite: AGS 310; or AGS 311 and AGS 301 or AGS 302. Nutrition and physiology for the production, management and use of the equine. May be taught concurrently with AGS 661. Cannot receive credit for both AGS 461 and AGS 661.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 462 Equine Reproductive Management

Prerequisite: AGS 302 or permission of instructor.

Students will learn the physiology of reproduction in the equine. To enhance learning, students will gain hands-on experience in semen collection and processing, artificial insemination, estrous cycle manipulation and foaling management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	1	Spring, Summer

AGS 485 Companion Animal Management and Behavior

Prerequisite: AGS 385.

Students will learn how an understanding of innate and learned behaviors in dogs and cats can be applied in shelter and breeding settings. Students will learn the fundamentals of socialization periods, behavioral assessments, and

training. Students will learn to assess environmental factors that lead to behavior issues and apply this knowledge to improving environments and providing enrichment in facilities that house dogs and cats. Students will gain an understanding of how behavior affects the human-animal bond.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGS 492 Problems in Animal Science

Prerequisite: permission of instructor.

Assigned investigations dealing with current problems in animal science supervised by an agricultural staff member. Student prepares outline, investigates the sources of information concerning the subject, and summarizes his/her findings in a written report. May be repeated with permission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

AGS 496 Ranch Management Experience

Prerequisite: 46 hours and permission of instructor.

Students will develop managerial skills through a manager-in-training position at Missouri State University's Journagan Ranch or other approved, privately-held ranch. Students, along with the ranch manager and the instructor, will design a special project in which the student will evaluate a change in management practices at the ranch. Student may not work at a ranch owned by their family. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-6			Fall, Spring, Summer

AGS 497 Animal Science Undergraduate Capstone Project

Prerequisite: 90 hours; AGS 101 and 102; and at least three of the following; AGS 301, 302, 306, 310, 311, 316, 366, 432, 452, 453, 461, 485.

Students, working closely with an animal science faculty member, will demonstrate the capacity to synthesize and apply information, and demonstrate analytical, practical, and interpretive skills by completing a robust management plan for a livestock or companion animal operation. The plan will include health care, nutrition, reproduction, marketing, acquisition of property, facilities and equipment, labor, and financial analysis. In addition, students will complete a written report to include how the operation addresses at least two elements of the MSU public affairs mission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring, Summer

AGS 498 Animal Science Undergraduate Research Experience

This is a research project conducted under the supervision of a faculty member to enhance an undergraduate curriculum in animal science. Students will participate in one of two experiences which can include: 1) assisting with a research project under the supervision of a faculty member, 2) conducting an undergraduate research project under the supervision of a faculty member. Forty hours of participation are required per credit hour. Students will complete a written report of the experience and a presentation of results to include statistical analysis and importance of information to animal agriculture and two elements of the MSU public affairs mission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

AGS 499 Animal Industry Internship

Prerequisite: 60 hours; AGS 101 and 102; and at least two of the following; AGS 301, 302, 310, 311, 316.

Course will integrate class experience with actual practice and provide students with hands-on experience in livestock or companion animal enterprises or agencies which employ animal science majors. Students are required to complete 80 hours of experience for paid internships or 40 hours for non-paid internships per credit hour enrolled. Students are expected to complete a daily log of activities, a summary paper, and a summary presentation. Internship hours may not be granted for enterprises the student is previously involved with such as prior/currently held employment positions or enterprises owned and operated by family or other relations. Variable content course. May be repeated for a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

AGS 511 Animal Nutrition and Metabolism

Prerequisite: C- or better in AGR 300 or CHM 201; and C- or better in AGS 310 or CHM 352.

Utilization and metabolism of nutrients by domestic animals; role of vitamins and minerals. May be taught concurrently with AGS 611. Cannot receive credit for both AGS 611 and AGS 511.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 611 Animal Nutrition and Metabolism

Prerequisite: C- or better in AGR 300 or CHM 201; and C- or better in AGS 310 or CHM 352.

Utilization and metabolism of nutrients by domestic animals; role of vitamins and minerals. May be taught concurrently with AGS 511. Cannot receive credit for both AGS 511 and AGS 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 661 Equine Nutrition and Physiology

Recommended Prerequisite: courses in animal nutrition and physiology. Topics covered will include nutrition and both reproductive and exercise physiology for the production and management of the equine. May be taught concurrently with AGS 461. Cannot receive credit for both AGS 661 and AGS 461.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 712 Special Topics in Animal Science

Prerequisite: permission of instructor.

Special study in an identified area of animal science not treated in other courses. Recent advances and new research techniques will be discussed. May be repeated to a maximum of six hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGS 716 Mammalian Reproductive Physiology

Recommended Prerequisite: AGS 302. Comparative anatomy and physiological processes of reproduction with an emphasis on domestic and laboratory animals. Fertilization through embryonic development, pregnancy, and growth to sexual maturity, reproductive efficiency and application of reproductive technology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 752 Advanced Cow-Calf Production

Students will gain knowledge in current cow-calf management practices through reading of current and classic scientific literature. Students will engage in discussion of scientific research publications on topics of cattle nutrition, forages and grazing management, reproduction, genetics and breeding, and animal health. Students will gain verbal and written communication skills through oral presentations, and writing of review papers and project proposals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGS 753 Advanced Stocker and Feedlot Cattle Production

Students will gain knowledge in current stocker/feedlot cattle management practices through reading of current and classic scientific literature. Students will engage in discussion of scientific research publications on topics of cattle nutrition, forages and grazing management, animal growth and body composition, beef carcass merit, and animal health. Students will gain verbal and written communication skills through oral presentations, and writing of review papers and project proposals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

Animal Science

Major(s)

Animal Science (Comprehensive)

Bachelor of Science

Major requirements (60 hours):

1. Specific General Education requirements:
 - a. [BIO 101\(3\)](#) and [111\(1\)](#) or [BIO 121\(4\)](#).
 - b. [CHM 107\(3\)](#) and [108\(1\)](#); or [CHM 116\(4\)](#) and [117\(1\)](#); or [CHM 160\(4\)](#) and [161\(1\)](#).
 - c. [GEP 101\(2\)](#) or [UHC 110\(2\)](#).
 - d. [MTH 130\(3\)](#) or higher.
2. [AGB 144\(4\)](#); [AGP 103\(3\)](#) or [AGN 115\(3\)](#); [AGP 365\(3\)](#) or [370\(3\)](#); [AGR 300\(3\)](#) or [CHM 201\(3\)](#); [AGR 490\(1\)](#); [AGS 101\(3\)](#), [102\(1\)](#), [301\(3\)](#), [302\(3\)](#), [310\(3\)](#), [311\(3\)](#), [316\(3\)](#), [366\(3\)](#); [AGS 432\(3\)](#) or [452\(3\)](#) or [453\(3\)](#) or [461\(3\)](#).
3. Public Affairs Capstone Experience Requirement: [AGS 496\(3\)](#) or [497\(3\)](#) or [498\(3\)](#) or [499\(3\)](#).
4. 18 hours from the following two groups of courses including at least eight hours from Group A, five hours from Group B, and an additional five hours from Groups A or B:
 - a. Group A courses: [AGS 161\(3\)](#), [162\(1\)](#), [163\(1\)](#), [164\(1\)](#), [185\(3\)](#), [191\(2\)](#), [196\(2\)](#), [251\(2\)](#), [262\(2\)](#), [263\(1\)](#), [264\(1\)](#), [306\(3\)](#), [341\(3\)](#), [342\(2\)](#), [346\(2\)](#), [361\(3\)](#), [362\(2\)](#), [363\(1\)](#), [364\(1\)](#), [365\(2\)](#), [385\(3\)](#), [389\(3\)](#), [391\(2\)](#), [396\(2\)](#), [399\(3\)](#), [402\(3\)](#), [432\(3\)](#), [442\(3\)](#), [446\(3\)](#), [452\(3\)](#), [453\(3\)](#), [461\(3\)](#), [462\(1\)](#), [485\(3\)](#), [492\(1-3\)](#), [511\(3\)](#).
 - b. Group B courses:
 - [AGB 314\(3\)](#), [334\(3\)](#), [344\(3\)](#), [354\(2\)](#), [364\(3\)](#), [374\(3\)](#), [384\(2\)](#), [394\(1\)](#), [444\(3\)](#), [494\(1-3\)](#), [499\(1-8\)](#), [514\(3\)](#), [524\(3\)](#), [534\(3\)](#), [574\(3\)](#), [584\(3\)](#), [594\(3\)](#).

2. [General Baccalaureate Degree Requirements](#)

Minor(s)

Animal Science

Bachelor of Science

1. [AGS 101\(3\)](#), [102\(1\)](#), [311\(3\)](#).
2. Additional courses in Animal Science to total at least 20 hours.

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) (<https://graduate.missouristate.edu/Catalog/prog-agriculture.htm>) for program details.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Companion Animal Management Certificate

Companion Animal Management

This certificate provides a program for students who desire an education that exposes them to companion animals. Some students in disciplines outside of agriculture may desire this certificate if they intend to incorporate companion animals into mental or physical therapy programs.

Admission requirements

To be admitted, students must submit a personal statement explaining their reasons for seeking the certificate and how the program will meet their professional goals. It is highly recommended that a student has had a college level math and English course.

Program requirements (15 hours)

1. [AGS 185\(3\)](#), [385\(3\)](#), [389\(3\)](#), [485\(3\)](#).
2. Internship: [AGR 499\(3\)](#) with approval of advisor and an emphasis in companion animals, specifically at a small animal veterinary clinic, animal shelter, training facility, or breeding operation.
3. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Companion Animal Science

Minor(s)

Companion Animal Science

Bachelor of Applied Science

Bachelor of Arts

Bachelor of Science

A minor in Companion Animal Science provides students with a broad foundation of knowledge in the physiology, anatomy, nutrition, reproduction, welfare, behavior, and husbandry of companion animals. The minor prepares students for all aspects of care and management of companion animals. Pre-veterinary students can utilize the curriculum in preparing for veterinary school.

1. Complete [AGS 101\(3\)](#), [102\(1\)](#), [185\(3\)](#), [310\(3\)](#), [385\(3\)](#), [389\(3\)](#), [485\(3\)](#).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-agriculture.htm\)](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) for program details.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm\)](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm\)](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Environmental Plant Science and Natural Resources Courses

Agricultural Natural Resources (AGN) courses

AGN 115 Sustainable Agriculture and the Environment

This course examines the practice of agro-ecology: the interface of management, biology, and the environment in our effort to produce food, feed, and fiber for a rapidly growing human population. Consequences of historical and current practices, as well as strengths and weaknesses of alternative practices that attempt to employ more knowledge of biology and ecology, will also be evaluated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGN 143 Introductory Forestry

Introduction to field of forestry. In addition to traditional topics of species identification, biology and timber management, this course examines the sociological, environmental, political and industrial influences on domestic and international management of forest resources.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGN 215 Soils

Recommended Prerequisite: CHM 107 or 116 or CHM 160. Physical, chemical and biological activities within the soil as related to moisture, temperature, drainage, and tillage.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGN 216 Soils Lab

Recommended Prerequisite: AGN 215 or concurrent enrollment. Laboratory and computer methods for evaluation of the physical, chemical and biological properties of soil.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

AGN 323 Intermediate Forestry

Recommended Prerequisite: AGN 143. This course encompasses topics of forestry science including tree identification, Missouri forest products, integrated wildlife management, hardwood and shortleaf pine management, timber sales, urban forestry and more. The course is centered on in-field examples and field work. Each student will also compile a forestry management plan as a final project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGN 335 Soil Conservation and Water Management

Recommended Prerequisite: AGP 103 or AGN 115 or AGN 215. The history and policies surrounding management of soil and water resources will be considered, but the majority of class time will be used addressing the processes of erosion and nutrient loss, and the practices used to conserve natural resources and sustain productivity/function of cropland, pasture, urban, and wild landscapes. May be taught concurrently with AGN 635. Cannot receive credit for both AGN 335 and AGN 635.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGN 336 Dendrology and Wood Science

Prerequisite: AGN 143.

Dendrology includes the study of plant taxonomy, with emphasis in identification, species associations, morphology, and range of tree and woody shrub species. This course will focus on dendrology of tree species common to Missouri and surrounding states, and the identification of cellular features of both hardwood and softwood species and of tree species based on wood characteristics alone.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGN 343 Measurements and Sampling for Forest Management

Prerequisite: AGN 143.

Theory and practice of forest sampling and cruising techniques including: stratified and non-stratified sampling systems with fixed plots, variable plots, and tree measurement techniques. Special emphasis is placed on practical application of forest measurements through field experience and computer-based learning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	2	4	Fall

AGN 345 Forest Ecosystems

Prerequisite: AGN 143.

This course will focus on factors affecting forest structure and composition, the effects of environmental gradients on plant species distribution, the dynamics of vegetation communities over time, and key ecosystem-level processes such as the cycling of carbon and nutrients.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGN 351 Game Bird Production

Production and management of quail, pheasants and other game birds.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

AGN 353 Wildland Fire Management

Recommended Prerequisite: AGN 143. This course provides basic knowledge of wildland and prescribed fire management and utilizes the National Wildfire Coordination Group (NWCG) entry level courses to prepare for NWCG firefighter qualification. Subjects include fireline leadership, organization, suppression tactics, fire weather, fire suppression, prescribed fire tools, natural cover fuels, and an introduction to the use of prescribed fire for wildlife habitat management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

AGN 405 Soil Fertility and Plant Nutrition

Prerequisite: AGN 215.

Principles of soil fertility, amendments and factors affecting nutrient availability and plant growth. May be taught concurrently with AGN 605. Cannot receive credit for both AGN 405 and AGN 605.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGN 455 Soil Genesis, Morphology and Classification

Recommended Prerequisite: AGN 215. Pedogenetic processes that are responsible for genesis, morphology, and classification of the twelve orders of soil taxonomy will be covered along with interpretation of water relationships, site characteristics, soil classification and land use. May be taught concurrently with AGN 655. Cannot receive credit for both AGN 455 and AGN 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

AGN 465 Environmental Soil Science

Recommended Prerequisite: AGN 215. Application of soil physical, chemical, and biological properties influencing agriculture, natural resources, and environmental science. Students will determine site suitability for agricultural and engineering purposes using information from onsite evaluations, soil survey, and other appropriate resources. May be taught concurrently with AGN 665. Cannot receive credit for both AGN 465 and AGN 665.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGN 495 Problems in Plant Science and Natural Resources

Prerequisite: permission of instructor.

Assigned investigations, dealing with current problems in plant science and soil science supervised by an agricultural staff member. Student prepares outline, investigates sources of information concerning the subject, and summarizes the findings in a written report. May be repeated with permission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

AGN 543 Silviculture

Prerequisite: AGN 143.

This course will examine natural tree and stand development, as well as fundamentals of forest stand dynamics, site productivity, stand density and tree growth. As such, this course will provide a scientific and practical basis for concepts such as regeneration techniques, density management, wildlife habitat management and other silvicultural principles. May be taught concurrently with AGN 643. Cannot receive credit for both AGN 543 and AGN 643.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGN 605 Soil Fertility and Plant Nutrition

Prerequisite: AGN 215.

Theoretical and applied aspects of soil fertility emphasizing ion transport, nutrient availability, and root absorption in soils-plant environments. May be taught concurrently with AGN 405. Cannot receive credit for both AGN 605 and AGN 405.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGN 635 Soil Conservation and Water Management

The history and policies surrounding management of soil and water resources will be considered, but the majority of class time will be used addressing the processes of erosion and nutrient loss, and the practices used to conserve natural resources and sustain productivity/function of cropland, pasture, urban, and wild landscapes. May be taught concurrently with AGN 335. Cannot receive credit for both AGN 635 and AGN 335.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGN 643 Silviculture

This course will examine natural tree and stand development, as well as fundamentals of forest stand dynamics, site productivity, stand density and tree growth. As such, this course will provide a scientific and practical basis for concepts such as regeneration techniques, density management, wildlife habitat management and other silvicultural principles. May be taught concurrently with AGN 543. Cannot receive credit for both AGN 543 and AGN 643.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGN 655 Soil Genesis, Morphology and Classification

Recommended Prerequisite: AGN 465. Pedogenetic processes, macromorphology, micromorphology, redoximorphic features, and classification as related to soil taxonomy, with GIS applications for use of soil survey information discussed, if time allows. May be taught concurrently with AGN 455. Cannot receive credit for both AGN 655 and AGN 455.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

AGN 665 Environmental Soil Science

Recommended Prerequisite: AGN 215. Application of soil physical, chemical, and biological properties influencing agriculture, natural resources, and environmental science. Students will determine site suitability for agricultural and engineering purposes using information from onsite evaluations, soil survey, and other appropriate resources. May be taught concurrently with AGN 465. Cannot receive credit for both AGN 465 and AGN 665.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGN 699 Special Topics in Natural Resources

Special study in an identified area of natural resources not treated in other courses. Recent advances and new research techniques will be discussed. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGN 725 Advanced Soils Interpretations

Recommended Prerequisite: AGN 465. Field interpretation of physical and chemical properties, water relationships, and soil landscape relationships.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Upon demand

AGN 730 Advanced Topics in Natural Resources

Prerequisite: permission of instructor.

An advanced topic in natural resources will be addressed via faculty lectures and student projects. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

Agricultural Plant Science (AGP) courses

AGP 103 Plant Science

An introduction to the fascinating world of plant science and plant physiology including the areas of food and ornamental crops and sustainable agriculture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGP 104 Plant Science Laboratory

Prerequisite: AGP 103 or concurrent enrollment or permission of instructor.

Provides opportunities for 'hands-on' application of concepts of plant science through the use of basic plant science research and production practices.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

AGP 121 Introduction to Wine

An introduction to wine in the modern world. History, classification, production and the geography of wine. The basics of wine appreciation will also be examined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGP 300 Wine Appreciation for Consumers

Prerequisite: must be 21 years of age or older.

Students participate in a series of tastings designed to introduce them to the major wine types and the range of styles within those types. Tests and other materials will be available online.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

AGP 303 Suburban Horticulture

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Horticultural concepts and their application to the growth and maintenance of fruit, vegetables and ornamentals common to most homes. Will not count toward the Environmental Plant Science major or Horticulture minor. May be taught concurrently with AGP 603. Cannot receive credit for both AGP 303 and AGP 603.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 323 Plant Structure and Function

This course explores concepts in plant anatomy and introductory physiology to understand how plants grow and develop in their environment. The laboratory portion includes hands-on experiments in plant growth, mineral nutrition, water relations, photosynthesis, and growth regulator responses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 325 Herbaceous Plants

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Nomenclature, identification, characteristics and cultural requirements of indoor and outdoor herbaceous ornamental plants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 333 Landscape Design

Development and drafting of designs for residential, business, and recreational landscapes. Concepts focus on incorporating plants and materials to create aesthetic, functional, low-maintenance, sustainable and environmentally-friendly landscaping.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

AGP 353 Turf Science

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121. A scientific approach to the physiology of turfgrass in response to the environment, and the selection, establishment, maintenance and pest management relevant to utility, lawn and sports turf. Field trips required. May be taught concurrently with AGP 653. Cannot receive credit for both AGP 353 and AGP 653.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 363 Landscape Plants

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121. Identification, classification and adaptation of common trees, shrubs and groundcovers used for landscape purposes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 365 Grain Crops for Food, Feed and Energy

Prerequisite: AGP 103 or AGN 115.

Adaptation, production, and utilization of the major grain crops for human and animal (livestock and wildlife) consumption and energy production. May be taught concurrently with AGP 665. Cannot receive credit for both AGP 365 and AGP 665.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 370 Forage Crops for Animals and the Environment

Prerequisite: AGP 103 or AGN 115.

Adaptation, production and utilization of the major forage crops for grazing, hay, and silage production, as well as their effects on environmental quality and wildlife. May be taught concurrently with AGP 670. Cannot receive credit for both AGP 370 and AGP 670.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGP 393 Fruit Production

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121. The culture and management of tree fruit, grapes, strawberries and other small fruit. Nuts, tropical and subtropical fruits, sustainable management, and production technology are also addressed. May be taught concurrently with AGP 701. Students cannot receive credit for both AGP 393 and AGP 693.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 399 Special Topics Plant Science

Special study in an identified area of plant science not treated in other courses. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGP 403 Nursery Management

Recommended Prerequisite: AGP 363 or BIO 334 or BIO 339. General principles and practices involved in the commercial production, management, and marketing of landscape plants. Field trips required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall (odd-numbered years)

AGP 425 Hydroponic Systems

Recommended Prerequisite: AGP 103 and AGP 104 and AGN 405 and AGP 453. This course focuses on the "growing" industry of hydroponics, and includes the different methods and systems used to grow plants without soil, and the science of plant nutrition and production. In the hands-on lab, students plan, build, and manage hydroponic systems for growing plants and apply entrepreneurial strategies for associated business plans. Field trips include visiting local hydroponic growers. May be taught concurrently with AGP 625. Cannot receive credit for both AGP 425 and AGP 625.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 433 Advanced Landscape Design

Prerequisite: AGP 333; and AGP 325 or AGP 363.

Concepts and development of sustainable landscapes for residential, commercial and government land, including rain gardens, green roofs, riparian buffer zones, prairie and wetlands, plus more in-depth coverage of specialized landscape areas such as water gardens and Japanese-style gardens. Training in use of landscape design 2D/3D software is included.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall (even-numbered years)

AGP 441 Vegetable Production

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Methods and practices of home and commercial vegetable production with an emphasis on using environmentally-friendly production and maintenance techniques to optimize yield and quality of vegetables. The purpose of this course is to familiarize students with the practices required for commercial production of a wide variety of vegetables. May be taught concurrently with AGP 641. Cannot receive credit for both AGP 441 and AGP 641.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 442 Vegetable Production Practicum

Prerequisite: AGP 441 or concurrent enrollment.

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121. Exposing students to basic and advanced principles of growing vegetable crops, this is a hands-on immersion in vegetable production, including crop planning, preparing the garden/field, creating and/or maintaining healthy garden soils, crop propagation, multiple methods of constructing plant support and season-extension structures, cultural care including pest control, fertilization and attracting beneficial organisms to the soil and plants, harvesting, and proper postharvest techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Spring

AGP 444 High Tunnel Crop Production

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Site selection, design, construction, management, and production methods of crops grown in high tunnels. Sustainable production methods are emphasized. May be taught concurrently with AGP 644. Cannot receive credit for both AGP 444 and AGP 644.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 453 Crop Physiology

Prerequisite: AGP 323.

General, stress-related and post-harvest physiology of horticulture and agronomic crops in relationship to their environments. May be taught concurrently with AGP 633. Cannot receive credit for both AGP 453 and AGP 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 455 Plant Molecular Biology

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. This course encompasses detailed coverage of nucleic acids, plant genomes, gene structure and expression, DNA replication and repair, and cell reproduction. Students will also be exposed to the major molecular underpinnings of plant survival with topics from primary literature, such as regulation of photosynthesis, nitrogen metabolism, drought response, and cold tolerance. Bioinformatics will also be introduced. May be taught concurrently with AGP 655. Cannot receive credit for both AGP 455 and AGP 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 460 Site Specific Techniques in Agriculture and Natural Resources

Recommended Prerequisite: 12 hours of AGN or AGP courses. An overview of the theory and application of site-specific techniques used in agriculture and natural resources with emphasis on precision agronomy. Techniques will include: guidance systems, remote sensing, drone operation, variable rate application, and yield monitoring. May be taught concurrently with AGP 660. Cannot receive credit for both AGP 460 and AGP 660.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGP 485 Weed Science

Recommended Prerequisite: AGP 103 or AGN 115 or AGN 365 or AGN 370; and BIO 121 or BIO 101 and 111; and either CHM 107 or CHM 116 or CHM 160. Identification, physiology and impacts of invasive plants and crop weeds and methods for their control in natural and agroecosystems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 496 Independent Study in Fruit Science

The student, with the approval of the instructor, conducts an in-depth literature review and writes a paper on a subject within the area of fruit production, fruit processing, or fruit marketing. May be repeated to a maximum of three hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGP 499 Internship in Plant Science and Natural Resources

Course will integrate class experience with actual practice and provide students with hands-on experience in businesses or agencies which employ Plant Sciences and Natural Resources majors. Students are required to complete at least 80 hours per each credit hour enrolled for a paid internship, or at least 40 hours per credit hour for a non-paid internship. Students are also expected to complete a daily log of activities, a summary paper, and summary presentation of their internship experience. May be repeated to a maximum of 10 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-8			Fall, Spring, Summer

AGP 511 Viticulture

Recommended Prerequisite: AGP 103. Grapevine growth, development and adaptation of grape species and hybrids is covered. Focus is on vineyard establishment and management for wine production. Concepts relate to all wine growing regions with emphasis on grape production in the Midwest and Eastern United States. May be taught concurrently with AGP 611. Cannot receive credit for both AGP 511 and AGP 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 513 Insects Affecting Horticulture and Forestry Crops

Prerequisite: permission of instructor.

Identification, life histories and control methods of insects affecting gardens, ornamental plants, orchards and forests. May be taught concurrently with AGP 613. Cannot receive credit for both AGP 513 and AGP 613.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

AGP 543 Greenhouse Management

Recommended Prerequisite: AGP 103. Factors involved in site selection, construction, and management of greenhouses and other controlled-environment structures for production of floriculture and food crops. Sustainable production methods are emphasized. May be taught concurrently with AGP 663. Cannot receive credit for both AGP 543 and AGP 663.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGP 573 Plant Propagation

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121; CHM 107 or CHM 116 or CHM 160. Practices employed by fruit and ornamental plant producers in propagation of plants, including seeds, cuttings, layerings, grafting and micropropagation. May be taught concurrently with AGP 673. Cannot receive credit for both AGP 573 and AGP 673.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 575 Plant Breeding and Genetics

Recommended Prerequisite: AGP 103 or AGN 115. Application of genetic principles to the improvement of crop plants. Includes self-pollinated, cross-pollinated, and asexually-propagated crops. May be taught concurrently with AGP 675. Cannot receive credit for both AGP 575 and AGP 675.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGP 576 Plant Breeding and Genetics Lab

Prerequisite: AGP 575 or concurrent enrollment.

Laboratory activities related to plant breeding and genetic improvement of crop plants. May be taught concurrently with AGP 676. Cannot receive credit for both AGP 576 and AGP 676.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

AGP 580 Plant Biotechnology

This course provides lecture and hands-on exposure to general plant biotechnology, including DNA and RNA extraction, cloning and sequence analysis of DNA fragments, detection of plant viruses by polymerase chain reaction (PCR) and generation of genetically-modified plants. May be taught concurrently with AGP 680. Students cannot receive credit for both AGP 580 and AGP 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 581 Applied Entomology

Principles of insect life; careful study of a number of common insect pests, their identification and control.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 583 Plant Pathology

Recommended Prerequisite: 9 hours of plant science (AGP). Diseases and physiological disorders of fruit, vegetables, agronomic crops and ornamental plants. Emphasis is placed on the interactions between plants and pathogenic organisms, on environmental factors that cause plant diseases, and on disease control methods that reduce or eliminate the need for chemical applications. Students will gain insight into the techniques to manage plant diseases, and the impact plant diseases have on humans and the environment. May be taught concurrently with AGP 683. Cannot receive credit for both AGP 583 and AGP 683.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 584 Insect Identification

Recommended Prerequisite: AGP 581 or concurrent enrollment. Identification of insect and other arthropod pests of crops, forest, feed, livestock and buildings, as well as beneficial insects/arthropods.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

AGP 585 Weed Ecology and Management

Recommended Prerequisite: AGN 115 or AGP 103 or AGP 365 or AGP 370; and BIO 121 or BIO 101 and 111; and either CHM 107 or CHM 116 or CHM 160. Ecology, physiology and impacts of invasive plants and crop weeds and methods for their control in natural and agroecosystems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 586 Weed Identification

Recommended Prerequisite: AGP 585 or concurrent enrollment. Identification of crop, pasture and invasive weeds of mid-south central U.S. and methods for their control.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

AGP 603 Suburban Horticulture

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Horticultural concepts and their application to the growth and maintenance of fruit, vegetables and ornamentals common to most homes. Will not count toward the Environmental Plant Science major or Horticulture minor. May be taught concurrently with AGP 303. Cannot receive credit for both AGP 603 and AGP 303.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGP 611 Viticulture

Grapevine growth, development and adaptation of grape species and hybrids is covered. Focus is on vineyard establishment and management for wine production. Concepts relate to all wine growing regions with emphasis on grape production in the Midwest and Eastern United States. May be taught concurrently with AGP 511. Cannot receive credit for both AGP 611 and AGP 511.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 613 Insects Affecting Horticulture and Forestry Crops

Prerequisite: permission of instructor.

Identification, life histories and control methods of insects affecting gardens, ornamental plants, orchards and forests. May be taught concurrently with AGP 513. Cannot receive credit for both AGP 613 and AGP 513.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

AGP 625 Hydroponic Systems

Recommended Prerequisite: AGP 103 and AGP 104 and AGN 405 and AGP 453. This course focuses on the "growing"

industry of hydroponics, and includes the different methods and systems used to grow plants without soil, and the science of plant nutrition and production. In the hands-on lab, students plan, build, and manage hydroponic systems for growing plants and apply entrepreneurial strategies for associated business plans. Field trips include visiting local hydroponic growers. May be taught concurrently with AGP 425. Cannot receive credit for both AGP 625 and AGP 425.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 633 Crop Physiology

Recommended Prerequisite: AGP 323. General, stress-related and post-harvest physiology of horticulture and agronomic crops in relationship to their environments. May be taught concurrently with AGP 453. Cannot receive credit for both AGP 453 and AGP 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 641 Vegetable Production

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Methods of commercial vegetable production with an emphasis on using sustainable production techniques to optimize yield and quality of vegetables. The purpose of this course is to expand knowledge in commercial vegetable production. May be taught concurrently with AGP 441. Cannot receive credit for both AGP 641 and AGP 441.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 644 High Tunnel Crop Production

Recommended Prerequisite: AGP 103 or AGN 115 or BIO 101 and 111 or BIO 121. Site selection, design, construction, management, and production methods of crops grown in high tunnels. Sustainable production methods are emphasized. May be taught concurrently with AGP 444. Cannot receive credit for both AGP 444 and AGP 644.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 653 Turf Science

Recommended Prerequisite: AGP 103 or BIO 101 and 111 or BIO 121. A scientific approach to the physiology of turfgrass in response to the environment, and the selection, establishment, maintenance and pest management relevant to utility, lawn and sports turf. Field trips required. May be taught concurrently with AGP 353. Cannot receive credit for both AGP 353 and

AGP 653.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 655 Plant Molecular Biology

This course encompasses detailed coverage of nucleic acids, plant genomes, gene structure and expression, DNA replication and repair, and cell reproduction. Students will also be exposed to the major molecular underpinnings of plant survival with topics from primary literature, such as regulation of photosynthesis, nitrogen metabolism, drought response, and cold tolerance. Bioinformatics will also be introduced. May be taught concurrently with AGP 455. Cannot receive credit for both AGP 455 and AGP 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 660 Site Specific Techniques in Agriculture and Natural Resources

Recommended Prerequisite: 12 hours of AGN or AGP courses. An overview of the theory and application of site-specific techniques used in agriculture and natural resources with emphasis on precision agronomy. Techniques will include: guidance systems, remote sensing, drone operation, variable rate application, and yield monitoring. May be taught concurrently with AGP 460. Cannot receive credit for both AGP 460 and AGP 660.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

AGP 663 Greenhouse Production

Recommended Prerequisite: AGP 103. Factors involved in site-selection, construction and management of greenhouses and other controlled-environment structures for production of floriculture and food crops. Sustainable production methods are emphasized. May be taught concurrently with AGP 543. Cannot receive credit for both AGP 663 and AGP 543.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 665 Grain Crops for Food, Feed and Energy

Adaptation, production, and utilization of the major grain crops for human and animal (livestock and wildlife) consumption and energy production. May be taught concurrently with AGP 365. Cannot receive credit for both AGP 665 and AGP 365.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 670 Forage Crops for Animals and the Environment

Prerequisite: AGP 103 or AGN 115 or equivalent.

Adaptation, production and utilization of the major forage crops for grazing, hay, and silage production, as well as their effects on environmental quality and wildlife. May be taught concurrently with AGP 370. Cannot receive credit for both AGP 670 and AGP 370.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

AGP 673 Plant Propagation

Recommended Prerequisite: AGP 103; and AGN 115 or BIO 121; and CHM 107 or CHM 116 or CHM 160. Practices employed by fruit and ornamental plant producers in propagation of plants, including seeds, cuttings, layerings, grafting and micropropagation. May be taught concurrently with AGP 573. Cannot receive credit for both AGP 673 and AGP 573.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 675 Plant Breeding and Genetics

Recommended Prerequisite: AGP 103 or AGN 115. Application of genetic principles to the improvement of crop plants. Includes self-pollinated, cross-pollinated, and asexually-propagated crops. May be taught concurrently with AGP 575. Cannot receive credit for both AGP 675 and AGP 575.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

AGP 676 Plant Breeding and Genetics Lab

Prerequisite: AGP 575 or AGP 675 or concurrent enrollment.

Laboratory activities related to plant breeding and genetic improvement of crop plants. May be taught concurrently with AGP 576. Cannot receive credit for both AGP 676 and AGP 576.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

AGP 680 Plant Biotechnology

This course provides lecture and hands-on exposure to more in-depth concepts in plant biotechnology, including DNA and RNA extraction, cloning and sequence analysis of DNA fragments, detection of plant viruses by polymerase chain reaction (PCR) and generation of genetically-modified plants. May be taught concurrently with AGP 580. Cannot receive credit for both AGP 580 and AGP 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

AGP 683 Plant Pathology

Recommended Prerequisite: 9 hours of plant science (AGP). Continued study into diseases and physiological disorders of fruit, vegetables, agronomic crops and ornamental plants. Emphasis is placed on the interactions between plants and pathogenic organisms, on environmental factors that cause plant diseases, and on disease control methods that reduce or eliminate the need for chemical applications. Students will gain insight into the techniques to manage plant diseases, and the impact plant diseases have on humans and the environment. May be taught concurrently with AGP 583. Cannot receive credit for both AGP 683 and AGP 583.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 685 Weed Ecology and Management

Prerequisite: AGP 103 or AGN 115; and BIO 101 or BIO 121; and CHM 107 or CHM 116 or CHM 160.

Recommended Prerequisite: AGP 353 or AGP 365 or AGP 370 or AGP 393 or AGP 441. Ecology, physiology and impacts of invasive plants and crop weeds and methods for their control in natural and agroecosystems. May be taught concurrently with AGP 585. Cannot receive credit for both AGP 685 and AGP 585.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 693 Fruit Production

Prerequisite: permission of instructor.

The culture and management of perennial fruit crops adapted to temperate climates. Physiology, technology, and research

as it applies to modern production practices will be emphasized. May be taught concurrently with AGP 393. Students cannot receive credit for both AGP 693 and AGP 393.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

AGP 699 Special Topics in Plant Science

Special study in an identified area of plant science not treated in other courses. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGP 700 Plant Science Colloquium

Prerequisite: permission of graduate coordinator.

A series of oral presentations on new developments in plant science. Presentations to be made by faculty members, students, and guest speakers from industry and academe. May be repeated, but not more than two hours may be counted toward the MS degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring, Summer

AGP 721 Enology

Recommended Prerequisite: BIO 310. The course will study the chemistry, microbiology, and technology of modern wine production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 722 Enology Lab

Prerequisite: AGP 721.

Laboratory techniques in assessing wine production methods and quality.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall

AGP 730 Advanced Topics in Plant Science

Prerequisite: permission of instructor.

An advanced topic in plant science will be addressed via faculty lectures and student projects. Examples of proposed topics include: Improved Disease Resistance in Viticulture, and Application of Field Collected Data to Computer Analysis. Variable content course. May be repeated to a maximum of nine hours provided the same topic is not duplicated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

AGP 731 Plant Genetic Engineering

Prerequisite: permission of instructor.

Principles, methodology, and commercial applications of plant biotechnology. Includes brief introduction to nucleic acid structure, gene regulation, and genome organization in eukaryotic and prokaryotic organisms.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

AGP 753 Plant Stress Physiology

Prerequisite: permission of instructor.

The effects of environmental stresses on plant physiological functions and plant growth, plus cultural methods to help plants adapt to stress.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

AGP 773 Plant Growth Regulation

Prerequisite: permission of instructor.

The role of natural and synthetic plant hormones and related compounds in the growth, reproduction and cultivation of plants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

International Plant Science Certificate

International Plant Science

This certificate allows visiting students to complete a 12-hour program in Plant Science. The program will focus on building a foundation of knowledge and skills necessary to support careers and graduate studies in domestic and international agricultural enterprises encompassing plant sciences.

Admission requirements

Students must be concurrently enrolled in an eligible program through the International Leadership Training Center (ILTC) and approved by the certificate advisor.

Program requirements (12 hours)

1. Complete at least 12 hours from the following courses or additional courses taught by Missouri State University faculty and approved by the certificate advisor: [AGN 115\(3\)](#), [AGP 323\(3\)](#), [AGP 365\(3\)](#), [AGP 455\(3\)](#), [AGP 580\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Major core (48-50 hours):

1. Specific General Education requirements: [AGR 301\(1\)](#) or [GEP 101\(2\)](#) or [UHC 110\(2\)](#); [BIO 101\(3\)](#) and [111\(1\)](#) or [BIO 121\(4\)](#); [GLG 110\(4\)](#) or [GLG 171\(3\)](#) or [GRY 135\(4\)](#) or [GRY 142\(4\)](#).
2. [AGB 144\(4\)](#); any AGB course numbered 300 or higher (1-3); [AGN 115\(3\)](#), [143\(3\)](#), [215\(3\)](#), [216\(1\)](#), [335\(3\)](#), [405\(3\)](#), [465\(3\)](#); [AGP 499\(3\)](#), [581\(3\)](#), [583\(3\)](#), [585\(3\)](#); [AGR 490\(1\)](#); [AGS 101\(3\)](#); [GEO 363\(4\)](#).
3. [CHM 116\(4\)](#) and [117\(1\)](#); or [CHM 160\(4\)](#).
4. Public Affairs Capstone Experience Requirement will be fulfilled by completion of [AGP 499\(3\)](#).

Complete one of the following options:

Forestry option (15-16 hours):

1. [AGN 336\(3\)](#), [343\(4\)](#), [543\(3\)](#); [AGP 323\(3\)](#).
2. One course from: [AGN 323\(3\)](#), [345\(3\)](#), [353\(2\)](#).

General Natural Resources option (15 hours):

1. Six hours from: [AGN 543\(3\)](#), [AGP 353\(3\)](#), [365\(3\)](#), [370\(3\)](#), [393\(3\)](#), [441\(3\)](#).
2. Nine hours from: [AGN 343\(4\)](#), [345\(3\)](#), [351\(2\)](#), [455\(3\)](#); [AGP 323\(3\)](#), [399\(1-3\)](#), [453\(3\)](#), [460\(3\)](#); [AGR 300\(3\)](#), [599\(1-3\)](#); [AGS 102\(1\)](#); any additional [GEO](#) course numbered 300 or higher(1-3); [GRY 351\(3\)](#).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Agriculture

Eligible Missouri State undergraduate students may apply for admission to the Agriculture program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 credit hours from approved graduate-level courses may be counted towards both the undergraduate and graduate degrees (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-agriculture.htm) (<https://graduate.missouristate.edu/Catalog/prog-agriculture.htm>) for program details.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Natural and Applied Science

Eligible Missouri State undergraduate students may apply for admission to the Master of Natural and Applied Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-natural-and-applied-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Plant Science

Eligible Missouri State undergraduate students may apply for admission to the Plant Science program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm) (<https://graduate.missouristate.edu/Catalog/prog-AG-plant-science.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Soil Science Certificate

Soil Science

This certificate provides a program for students and professionals to obtain credentials in soil-related disciplines.

Program requirements (15 hours)

1. [AGN 215\(3\)](#), [216\(1\)](#), [335\(3\)](#), [455\(3\)](#), [465\(3\)](#).
2. Additional courses from following to total at least 15 hours in the certificate: [AGN 405\(3\)](#), [AGN 495\(1-3\)*](#), [AGP 399\(1-3\)*](#); [AGR 499\(1-3\)**](#) or [AGP 499\(1-3\)**](#); or other AGN, AGP, or AGR courses 300-level and above, as approved by certificate advisor.
3. All candidates must satisfy the [General University Certificate Requirements](#).

*Topic must be approved by certificate advisor. Up to three hours may be applied toward the certificate.

**Internship must be approved by certificate advisor and involve obtaining practical knowledge and applied experiences in soil science. Up to three hours of internship may be applied toward the certificate.

Completion Requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Sustainable Food Production Certificate

Sustainable Food Production

This certificate provides information to grow plant-based produce for human consumption using sustainable cropping system practices. Students who complete this certificate will obtain fundamental knowledge of successful plant production systems and gain practical, hands-on experiences in growing food.

Program requirements (15 hours)

1. [AGP 441\(3\)](#).
2. Three hours from: [AGP 393\(3\)](#), [425\(3\)](#), [444\(3\)](#), [543\(3\)](#).
3. Three-hour internship: [AGP 499](#) Internship in Plant Science and Natural Resources or [AGR 499](#) Internship in Agriculture. Internship must be approved by certificate advisor and involve obtaining practical knowledge and applied experiences in plant-based food production. Up to six hours may be applied toward the certificate.
4. Additional courses from the following to total 15 hours: [AGB 584\(3\)](#), [AGB 594 \(3\)](#), [AGN 405\(3\)](#), [AGN 495\(1-3\)**](#), [AGP 365\(3\)](#), [AGP 399\(1-3\)**](#), [AGP 442\(2\)](#), [AGP 573\(3\)](#), [AGP 581\(3\)](#), [AGP 583\(3\)](#), [AGP 585\(3\)](#), or other AGN, AGP, or AGR courses 300-level and above, as approved by certificate advisor.
5. All candidates must satisfy the [General University Certificate Requirements](#).

**Topic must be approved by certificate advisor. Up to six hours of AGP 399 may be applied toward the certificate. Up to three hours of AGN 495 may be applied toward the certificate.

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Wildlife Conservation and Management

Major(s)

Wildlife Conservation and Management (Comprehensive)

Bachelor of Science

This major is offered in cooperation with the Biology Department.

Major requirements (65-68):

1. Specific General Education Requirements: [BIO 121\(4\)](#); [GLG 110\(4\)](#) or [GLG 171\(3\)](#) or [GRY 142\(4\)](#); [GRY 100\(3\)](#) or [GRY 108\(3\)](#); [MTH 130\(3\)](#) or higher numbered mathematics course listed in the General Education Quantitative Literacy requirement.
2. Agriculture requirements:
 - a. [AGN 115\(3\)](#) or [AGP 103\(3\)](#); [AGN 143\(3\)](#), [215\(3\)](#), [335\(3\)](#); [AGP 365\(3\)](#) or [AGP 370\(3\)](#) or [AGN 543\(3\)](#); [AGP 581\(3\)](#); [GEP 101\(2\)](#) or [UHC 110\(2\)](#) or [AGR 301\(1\)](#).
 - b. Two courses from: [AGB 354\(2\)](#), [AGN 351\(2\)](#), [AGN 465\(3\)](#), [AGP 583\(3\)](#), [AGP 585\(3\)](#).
3. Biology requirements:
 - a. [BIO 121\(4\)*](#), [122\(4\)*](#), [334\(3\)](#), [339\(2\)](#), [367\(3\)](#), [368\(1\)](#); [BIO 373\(3\)](#) or [BIO 532\(3\)](#).
 - b. Two courses from: [BIO 370\(4\)](#), [573\(3\)](#), [575\(3\)](#), [576\(3\)](#), [577\(3\)](#).
4. [CHM 116\(4\)](#) and [117\(1\)](#); or [CHM 160\(4\)](#) and [161\(1\)](#).
5. 10 additional hours in courses numbered 200 or higher in Agriculture and/or Biology.
6. [AGR 490\(1\)](#) or [BIO 302\(1\)](#) or [BIO 494\(1\)](#); [BIO 492\(0\)](#).
7. Public Affairs Capstone Experience Requirement will be fulfilled by completion of [BIO 373\(3\)](#) or [BIO 532\(3\)](#) and two courses from 3b.

Art and Design Courses

Art (ART) courses

ART 098 Topics in Art and Design

A variable content course consisting of lectures and/or studio projects. Cannot be used to fulfill a major requirement in the Art and Design Department. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

ART 100 2D Design

An introduction to the study of the elements of art and the principles of design relating to the formal and conceptual organization of the two-dimensional surface. The instructional process includes lecture, critique, and supervised studio practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 101 Three-Dimensional Design

An introduction to the study of the elements of art and principles of design using a variety of materials, techniques, forms, and concepts relating to the organization of three-dimensional space. Instructional process

includes lecture, critique, and supervised studio practice, along with emphasizing how to handle equipment and tools properly.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 110 Introduction to New Media

An introduction to new media, this course will address formal and conceptual image-making within the digital arts spectrum. The instructional process focuses on studio practice, development of technical skill, and introduction to digital art, new media/electronic art, and time-based arts as the three main components of the course. The instructional process includes lecture, critique, and supervised studio practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 115 Drawing I

Basic elements and principles of drawing. A problematic approach to the process of seeing and drawing through an applied investigation of natural and man-made forms.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	0	6	Fall, Spring	PERF 105D - Studio Art-Introduction to Drawing.

[Access the CORE 42 portal](#)

ART 200 Art in Context

General Education Course (Focus on the Arts).

In this art appreciation course students will learn how to look at objects of art and to appreciate the value such objects hold in society. This course introduces the elements of art and the principles of design and is intended to enhance an interest, appreciation, and understanding of the visual arts in the context of their cultures. Does not count toward fulfilling any requirement for majors or minors in the Department of Art and Design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
--------------	-----------------------	-------------------	-------------------	---------------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	ARTS 100 - Art Appreciation.

[Access the CORE 42 portal](#)

ART 202 Intermediate Design

Prerequisite: ART 100 and ART 101 and ART 115.

A presentation in greater depth of major theories of art and design with emphasis on color theory and systems. Structured studio design problems applying and investigating such theories.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 210 Digital Arts I

Prerequisite: ART 110.

Exploration of digital art forms, focusing on the interrelationship of digital technology and art and culture. The goal of the course is to weave technical skills into creative vision.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 212 Ceramics I

An introduction to handbuilding, wheel and firing processes, including raku. Fundamentals of ceramic materials, equipment, and preparation of clay and glazes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	0	6	Fall, Spring	PERF 105C - Studio Art - Ceramics.

[Access the CORE 42 portal](#)

ART 215 Drawing II

Prerequisite: ART 115.

Continuation of drawing fundamentals in greater depth and exploration of additional media.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 223 Metals-Jewelry I

Introduction to non-ferrous metal fabrication processes including piercing, soldering and finishing. Fundamentals of tools, materials, and jewelry concepts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 225 Painting I

Prerequisite: ART 100 and ART 115 and ART 215.

Basic investigation of materials, techniques, and visual concepts important to the process of painting. Emphasis on understanding visual elements through work which includes study from the still-life and model.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 226 Watercolor for the Non-Art Majors

To acquaint the student with the essential characteristics of the materials used in watercolor painting and to familiarize the student with the techniques used in applying transparent pigment to various prepared surfaces. This course will not fulfill the requirements for a major or a minor in art.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 230 Computer Animation I

Prerequisite: ART 100 or ART 110.

Exploration of visual expression through the use of sequential images. Experience with a wide range of digital processes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 235 Sculpture I

Prerequisite: ART 101.

Development of fundamental sculpting processes and shop safety. Experience with a range of media and techniques related to wood and metal fabrication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 242 Printmaking I

Prerequisite: ART 100 and ART 115 and ART 215.

Beginning problems in printmaking.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 243 Relief Print

Prerequisite: ART 215.

An exploration of the relief processes through the mediums of linocut and woodcut.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 253 Fibers

Prerequisite: ART 100.

Introduction to two and three-dimensional fiber techniques and structures. Emphasis will be placed on using a variety of techniques in the execution of assigned problems. Experimental use of materials will be encouraged. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 254 Introduction to Digital Photography for Non-Photography Majors and Minors

An introduction to photography as visual expression for students not seeking a major or minor in Photography. This course covers the use of a digital camera and software to explore aesthetics and concepts particular to the medium of photography. This course is open to all students, but will not fulfill major requirements for the BFA degree with a major in Art, with an option in Photography or requirements for a minor in Photography.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 255 Introduction to Analog Photography

Introduction to photography as visual expression. This course covers the use of an analog camera and darkroom techniques to explore aesthetics and concepts particular to the medium of photography. Camera is provided

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 271 History of Western Art I

General Education Course (Focus on Humanities).

A survey of Western art and the cultures that produced it from Prehistory through the Gothic period.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	ARTS 101 - Art History I.

[Access the CORE 42 portal](#)

ART 272 History of Western Art II

General Education Course (Focus on Humanities).

A survey of Western art and the cultures that produced it from the Gothic Period to the Second World War.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	ARTS 102 - Art History II.

[Access the CORE 42 portal](#)

ART 273 Survey of the Art of Africa, Oceania, and the Americas

General Education Course (Focus on Humanities).

A survey of the art and architecture produced by the cultures of Africa, Oceania, and the Americas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ART 274 Survey of Asian Art

General Education Course (Focus on Humanities).

A survey of the art objects and the cultures which produced them, primarily those of India, China, and Japan.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ART 300 Fundamentals of Collaboration in Electronic Arts

Prerequisite: permission of the instructor based on passing Candidacy Review in Electronic Arts.

Exploration of aesthetic and communication issues involved in producing work in interdisciplinary electronic media.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 301 Introduction to Video Game Design

Prerequisite: 30 hours; and eligible for Writing II; and permission of instructor.

An introduction to the main elements of video game design (including setting, story, goals, narrative, mechanics, and level design) and the structure and responsibilities of a game development team. The emphasis will be on game designs that could be implemented by a small team within one year. Students will design a game and create a design document. Identical with CSC 301. Cannot receive credit for both ART 301 and CSC 301.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

ART 302 Introductory Video Game Development for Artists and Animators

Prerequisite: ART 301 or CSC 301; and ART 330.

Hands-on introduction to video game development software, emphasizing the process to prepare and import 3D assets from previously learned software packages. Students may collaborate with CSC 303 students to experience industry-typical workflow between designers, artists and programmers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

ART 310 Digital Arts II

Prerequisite: ART 210.

This course explores intermediate digital art practices and concepts, focusing on production and theory with an emphasis on creative expression. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 312 Ceramics II

Prerequisite: ART 101 and ART 212.

A continued investigation of the potter's wheel as a tool to create ceramic forms. Greater exploration of surface enhancement materials, and processes including basic glaze chemistry and firing operations. Evidence of expanded individuality in the understanding of advanced technique and sensitivity to form expected.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 313 Ceramics III

Prerequisite: ART 312.

Advanced studio and firing responsibilities. Must be repeated to a total of 6 hours. The first three credit hours: a continued investigation of hand-building techniques as a way to create ceramic forms and exploring further development of surface treatments. When repeated, the second three credit hours: advanced problems associated with clay and form and surface treatment. Evidence of expanded individuality in the understanding of advanced technique and sensitivity of form expected. Must be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 314 Special Topics in Ceramics

Prerequisite: ART 212.

Specialized studies in ceramics to include subjects in such areas as raku, salt firing, kiln building, glaze formulations, handbuilding, etc. Subject of course to be selected by the instructor. Variable content course. May be repeated to a maximum of 12 hours when course content changes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 315 Drawing III

Prerequisite: ART 215.

Problems of greater visual and conceptual complexity. More emphasis given to development of individual qualities. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 316 Life Drawing

Prerequisite: ART 215.

Drawing the human figure with emphasis on anatomy, structure, and form. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 320 Graphic Narrative

Prerequisite: ART 115 or permission of instructor.

Intermediate study in the literature and technique of graphic narrative and practical experience in writing and illustrating comics. Identical with ENG 316. Cannot receive credit for both ART 320 and ENG 316.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ART 322 Jewelry and Metalsmithing

Prerequisite: ART 101 and ART 223.

Further exploration of metal fabrication processes. Introduction to jewelry scale casting and to silversmithing techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 323 Jewelry, Metals, and Enameling

Prerequisite: ART 101 or concurrent enrollment; and ART 223.

Further exploration of metal fabrication and smithing processes. Introduction to enameling and other color techniques on metal.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 324 Metals and Jewelry III

Prerequisite: ART 322 and ART 323.

Advanced problems in metals. Greater exploration of materials and techniques with an emphasis on individual problem-solving. May be repeated to a maximum of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 325 Painting II

Prerequisite: ART 225.

Problems of greater visual and conceptual complexity. More emphasis given to development of individual qualities. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 326 Painting with Water-Based Media

Prerequisite: ART 225.

A course which introduces and explores one or more water-based media such as watercolor, gouache, casein and acrylic. Media emphasis to be determined by the instructor. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 330 Computer Animation II

Prerequisite: ART 230.

Further exploration of visual expression in animation. Advanced techniques in the manipulating of forms and animation. Advanced techniques in the manipulating of forms and surfaces within the digital 3D environment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 331 Computer Animation III

Prerequisite: ART 330 and permission of instructor.

Priority will be given to those students who have successfully completed the Computer Animation Emphasis Candidacy Review for the BFA in Art or the BS in Electronic Arts. Further exploration of visual expression in animation. Advanced techniques in animating within the digital 3D environment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 335 Sculpture II

Prerequisite: ART 235.

Working from personal concepts, students create sculptures while building on skills gained in previous classes and learn new processes and techniques to work in a variety of materials.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 336 Figure Modeling

Prerequisite: ART 100 and ART 101 and ART 215.

Modeling the human figure with emphasis on anatomy, structure and form by exploring the usage of clay, wax or plaster. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 342 Printmaking II

Prerequisite: ART 242.

Advanced problems in printmaking. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 343 Lithography

Prerequisite: ART 242.

Exploration of stone lithography as an expressive means toward creating hand-pulled prints. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 350 Citizenship and Service-Learning in Art History

Prerequisite: 30 hours and two art history courses and concurrent registration in a 300- or 400-level Art History course designated as a service-learning offering.

This one-hour service component for an existing course incorporates community service with classroom instruction in art history to provide an integrated learning experience, addressing the practice of citizenship and promoting an awareness of and participation in public affairs. Includes 40 hours of service benefiting an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives. Graded Pass/Not Pass only. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Upon demand

ART 354 Medium Format Photography

Prerequisite: ART 255.

An investigation of technical and aesthetic issues of medium format photography. Emphasis on the development of expressive photographic images.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 355 Large Format Photography

Prerequisite: ART 255.

An investigation of technical and aesthetic issues of large format photography. Emphasis on the development of expressive photographic images.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 356 Color Photography

Prerequisite: ART 255.

An investigation of technical and aesthetic issues of color photography. Emphasis on the development of expressive photographic images.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 357 Special Topics in Photography

Prerequisite: ART 255 and permission.

Various approaches to broaden the photographic experience. Possible subjects may include, but are not limited to non-silver photographic processes, community-based documentary projects, and study abroad options. Subject of course to be selected by the instructor. Variable content course. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 358 Studio Photography

Prerequisite: ART 254 or ART 359.

An investigation of technical, aesthetic, and conceptual issues of studio photography with emphasis on portrait, constructed environment, and still-life photography.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 359 Digital Photography I

Prerequisite: ART 254 or ART 255.

An investigation of technical and aesthetic issues of digital photography including the use of a digital camera, film scanning, software, and digital output. The development of expressive photographic images, an exploration of the potentials of the medium, and the evolution of a body of work are emphasized.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 360 Introduction to Art Education

Prerequisite: ART 100 and ART 101 and ART 215.

Introduction to the field of art education and the role of visual arts in education; survey of issues, theories, and trends; review of content, materials, and approaches through discussion, research, studio experiences, critical writing, observation of classes, and analysis of models for teaching art in elementary and secondary schools.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Spring

ART 366 Elementary Art Education

Prerequisite: ART 360.

Overview of artistic growth of children; survey of philosophies, issues, methods, materials, resources, processes, and strategies for teaching art and integrating it into the school curriculum; unit and lesson planning, assessment, and evaluation. Lecture, discussion, studio, and classroom observations. Credited only for BSEd.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Fall

ART 377 History of Graphic and Applied Design

Prerequisite: ART 271 or ART 272 or ART 273 or ART 274.

An historical and critical examination of design from its beginnings to the present with emphasis on communication design in the industrial and post-industrial periods. Will not count as Art History elective for the BFA in Art.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ART 387 History of Photography

Prerequisite: ART 272.

The development and history of photography as an artistic medium.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 388 The Museum: History and Perspectives

Prerequisite: ENG 110 and permission of instructor.

This course offers a broad introduction to the museum as a cultural site and museum studies as a discipline with focus on theoretical issues. Identical with MST 388. Cannot receive credit for both ART 388 and MST 388.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 390 Art History Teaching Assistant

Prerequisite: permission of instructor.

Under the direct guidance of the faculty member, the student will assist in teaching, supervising, and/or grading course materials. May be repeated to a maximum of three hours. Graded Pass/Not Pass only. Does not count toward the BA or BSEd in Art and Design or BFA in Art or BFA in Design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0-1			Upon demand

ART 399 Individual Instruction

Prerequisite: senior or postbaccalaureate standing; 12 sequential hours in same studio area and permission of instructor.

Independent work on special projects approved by studio advisor. Repeatable to a maximum of six hours in any studio area.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 401 Teaching of Art

Prerequisite: ART 366; and EDC 350 or concurrent enrollment; and admitted to teacher education program.

Artistic and aesthetic growth of adolescents; survey of philosophies, issues, methods, materials, resources, processes, and strategies for teaching art in secondary schools; observation; unit and lesson planning; microteaching. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take ART 490 or ART 491. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Spring

ART 407 Art Internship

Prerequisite: permission of instructor.

Student will complete actual job assignments while working for outside organizations under the supervision of an art faculty member. May be repeated to a maximum of six hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ART 410 Seminar in Digital Arts

Prerequisite: ART 310.

Advanced research in digital arts, with emphasis on developing personal vision. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 425 Painting III

Prerequisite: ART 325.

An advanced-level course utilizing a combination of structured and self-directed approaches. Students will continue to develop formal skills and will be encouraged to explore issues of content and visual aesthetics, while developing an individual point-of-view. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 430 Computer Animation IV

Prerequisite: ART 331.

Individual problems in animation and advanced techniques. Emphasis will be placed on the development of a personal point of view.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

ART 431 Professional Practices in Computer Animation

Prerequisite: ART 430.

Lecture, discussion and assignments for students seeking careers in computer animation. Presentation skills will be emphasized. Students will be required to write and perform research, as well as continue to develop their portfolio.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

ART 432 Computer Animation V

Prerequisite: ART 431.

Individual portfolio development in animation. Emphasis will be placed on the development of a personal point of view. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 435 Sculpture III

Prerequisite: ART 335.

Students develop personal concepts and methodologies and learn advanced techniques and processes to produce sculpture. May be repeated to a maximum of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 454 Digital Photography II

Prerequisite: ART 359.

A continued investigation of technical, aesthetic, and conceptual issues of digital photography including advanced approaches to image creation deemed relevant to current practices. The development of expressive photographic images, an exploration of the potentials of the medium, book design, and the evolution of a body of work are emphasized. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 455 Advanced Photography Seminar

Prerequisite: 12 hours in emphasis and permission of the instructor.

Pursuit of advanced photographic projects. Emphasis on development of personal vision. A study of historical and contemporary critical issues in photography. Must be taken at least once with ART 499. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 460 Critical Studies in Art Education

Prerequisite: ART 366 and ART 401.

Review of theories and issues concerning the study of aesthetics, art history, and art criticism in art education; survey of methods; observation of various models; generation of materials, resources, and strategies for implementation; teaching experiences utilizing strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Fall

ART 466 Art Education Practicum

Prerequisite: 30 hours of Art and ART 366 and ART 401.

Observation and classroom teaching experiences; writing unit and lesson plans; classroom motivation, management, and discipline; evaluation and exhibition of student art work; ordering supplies and equipment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Fall

ART 469 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

ART 471 Islamic Art

Prerequisite: ART 271 or ART 273 or ART 274.

A survey of the art produced in the lands under the influence of the Islamic religion. May be taught concurrently with ART 671. Cannot receive credit for both ART 471 and ART 671.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 472 Medieval Art

Prerequisite: ART 271.

Painting, sculpture, and architecture of Europe from the fourth century through the fourteenth century. The course emphasizes the development of a distinctly European art and culture. May be taught concurrently with ART 672. Cannot receive credit for both ART 472 and ART 672.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 475 Art of the Renaissance

Prerequisite: ART 272.

A survey of painting, sculpture, and architecture in Europe from 1300-1575. May be taught concurrently with ART 675. Cannot receive credit for both ART 475 and ART 675.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 476 Women and Art

Prerequisite: ART 271 or ART 272.

The course examines women's roles and contributions in the history of art and culture. May be counted toward the Gender Studies minor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 478 Baroque Art

Prerequisite: ART 272.

The major figures and developments in art and architecture from Mannerism through the Rococo in Italy and Northern Europe. May be taught concurrently with ART 678. Cannot receive credit for both ART 478 and ART 678.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 480 Modern Art

Prerequisite: ART 272.

A study of the objects, artists, ideas, and movements which are a part of the modern and late modern tradition from the mid 19th Century through the period following the Second World War. May be taught concurrently with ART 680. Cannot receive credit for both ART 480 and ART 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ART 483 Modern Architecture and Urban Forms

A survey of the historical, social, political, economic and technological forces that have shaped the forms and styles of architecture and cities from the time of the Industrial Revolution to the present.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 484 Contemporary Art

Prerequisite: ART 272.

This course will emphasize the issues raised during the transition to "Post-Modern" culture in the last decades of the 20th Century and the beginning years of the 21st Century. The approach and the assignments will employ theoretical and critical as well as historical thinking. May be taught concurrently with ART 684. Cannot receive credit for both ART 484 and ART 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 485 Art of Mesoamerica

Prerequisite: ART 273.

The art and architecture of Mesoamerica and the cultures that produced it. May be taught concurrently with ART 685. Cannot receive credit for both ART 485 and ART 685.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 486 Art of Africa

Prerequisite: ART 273.

The art and architecture of Africa and the cultures that produced it. May be taught concurrently with ART 686. Cannot receive credit for both ART 486 and ART 686.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 487 Art of the Americas

Prerequisite: ART 273.

The art and architecture of North America, Central America, and South America and the cultures that produced it. May be taught concurrently with ART 687. Cannot receive credit for both ART 487 and ART 687.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 488 Basic Conservation of Art and Artifacts

Prerequisite: ART 273 and permission of instructor.

This course combines advanced art historical study and research of art and artifacts with a hands-on introduction to basic conservation techniques. Identical with MST 488. Cannot receive credit for both ART 488 and MST 488.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

ART 490 Supervised Teaching

Prerequisite: completion of all method courses in Art Education; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching.

Student observes then teaches art classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Student must participate in the program exit exhibition, "Students of Students Show". Course will not count toward the major GPA. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
12			Fall, Spring

ART 492 Art and Theory

Prerequisite: 6 hours of art history at the 300- or 400- level; and permission of instructor.

This course will introduce students to a range of critical art theories from the late 19th Century through the 21st Century, addressing what has been thought and written about art from various perspectives. Public Affairs Capstone Experience course. May be taught concurrently with ART 692. Cannot receive credit for both ART 492 and ART 692.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 494 Independent Study in Art History

Prerequisite: appropriate survey course (ART 271 or ART 272 or ART 273 or ART 274); and permission of instructor (granted only in special circumstances).

Individual projects and special problems in Art History. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 495 Internship in Art History

Prerequisite: permission of instructor.

Students will complete various duties as assigned with a variety of art history-related organizations. These areas include local museums, galleries, and/or visual resource-media collections. Variable content course. May be

repeated to a maximum of six hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

ART 496 Selected Topics in Art History

Prerequisite: permission of instructor.

The specific topics will change from semester to semester depending upon the interest of students and professors, e.g. German Expressionism, History of Photography, The School of Paris, Cubism and its Progeny, Pre-Columbian Art in North America. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 497 Selected Topics in Art and Design

Prerequisite: ART 100 and ART 101 and permission of instructor.

Advanced problems involving the application of art and design fundamentals in either two or three dimensional projects will be explored. May be repeated to a total of 9 hours when course content changes. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ART 498 Senior Project in Electronic Arts

Prerequisite: ART 300 and permission of instructor.

Admission to this course is contingent upon the successful completion of the Electronics Arts junior portfolio review and the achievement of a "C" or better grade in all required option courses completed at the time of the junior portfolio review. Under advisement from faculty, EA students will form production teams consisting of computer animation, video, interactive new media and audio studies students. Each team will produce a broadcast-quality project over two semesters. The first semester will be spent in pre-production preparations for the approved senior project. The second semester will involve production and post-production of the approved project. This course must be repeated in sequence for a total of six hours across a single academic year. Identical with MED 498. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

3	2	2	Fall, Spring

ART 499 Senior Exhibition

Prerequisite: senior standing; and completion of BFA in Art Candidacy Review; and 3.00 GPA in the art studio BFA emphasis area; and permission of studio advisor.

Must be taken concurrently with upper division course in area of emphasis. A presentation of work that reflects the technical, aesthetic, and conceptual issues from the area in which the majority of art course work has been taken. Coursework includes the development of professional artistic practices including resume construction, artist's statements, preparation and installation of an exhibition, development of exhibition proposals, and any additional content deemed relevant to prepare the student for a career in the visual arts. This work must demonstrate the attainment of a level of conceptual and technical maturity judged by a committee of the art studio faculty to meet qualitative standards required for the granting of the BFA degree in Art. Cannot be taken Pass/Not Pass. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	2	Fall, Spring

ART 590 Art Studio Workshops for Art Educators

Focused study in specific studio area, emphasis on upgrading skills and extending understanding of aesthetic and visual qualities. Variable content course. May be repeated to a maximum of six hours. May be taught concurrently with ART 690. Cannot receive credit for both ART 690 and ART 590.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-3			Fall, Spring

ART 598 Seminar in Art Education

In-depth study of specific topics and/or interaction with leaders in the fields of aesthetics, art criticism, art history, art making, and art education. Variable content course. May be repeated to a maximum of six hours. May be taught concurrently with ART 698. Cannot receive credit for both ART 698 and ART 598.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Summer

ART 606 Historical Perspectives in Art Education

The emphasis of this course will be to develop a series of papers directed at critical examinations of historical and current philosophical perspectives in Art Education. A variety of research methods are incorporated in the course and qualitative research is emphasized. The concluding component of the course is the development of a paper suitable for publication or presentation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ART 615 Contemporary Curriculum and Pedagogy in Art Education

This course will emphasize pedagogical and curricular issues in Art Education designed to enhance professional skills. Students will investigate a variety of topics germane to personal teaching practices, including but not limited to: social, historical, pedagogical, philosophical, and evaluative topics within particular cultural contextualization.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	1	Spring

ART 619 Societal Influences in Art Education

In this course, the emphasis will be placed on historical and contemporary cultural views of Native Americana in the Southwest. The curriculum will address, from primary sources, the studio processes that reflect Native American aesthetic, critical, historical, and cultural components. This course is designed to provide a foundation of knowledge and pragmatic skills to enhance pedagogy. This course will emphasize visual research as a reciprocal aspect of studio production. Students will investigate the social, historical, pedagogical, philosophical, and evaluative topics germane to teaching Southwest Native American cultural contextualization. This course will include an introduction to cultural issues, diversity, and related perspectives in education. Examination of individual differences in ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, and geographic area in the context of education and society. Development of skills, knowledge, and dispositions related to teaching and learning in varied settings with diverse learners required of all educators to be effective in a global society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	1	Spring

ART 671 Islamic Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The art and architecture produced in the lands under the influence of the Islamic religion. May be taught concurrently with ART 471. Cannot receive credit for both ART 671 and ART 471.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 672 Medieval Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

Painting, sculpture, and architecture of Europe from the fourth century through the fourteenth century. The course emphasizes the development of a distinctly European art and culture. May be taught concurrently with ART 472. Cannot receive credit for both ART 672 and ART 472.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 675 Art of the Renaissance

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

A survey of painting, sculpture, and architecture in Europe from 1300-1575. May be taught concurrently with ART 475. Cannot receive credit for both ART 675 and ART 475.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 676 Women and Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The course examines women's roles and contributions in the history of art and culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 678 Baroque Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The major figures and developments in art and architecture from Mannerism through the Rococo in Italy and Northern Europe. May be taught concurrently with ART 478. Cannot receive credit for both ART 678 and ART 478.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 680 Modern Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

A study of the objects, artists, ideas, and movements which are a part of the modern and late modern tradition from the mid 19th Century through the period following the Second World War. May be taught concurrently with ART 480. Cannot receive credit for both ART 680 and ART 480.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ART 684 Contemporary Art

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

This course will emphasize the issues raised during the transition to "Post-Modern" culture in the last decades of the 20th Century and the beginning years of the 21st Century. The approach and the assignments will employ theoretical and critical as well as historical thinking. May be taught concurrently with ART 484. Cannot receive credit for both ART 684 and ART 484.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 685 Art of Mesoamerica

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The art and architecture of Mesoamerica and the cultures that produced it. May be taught concurrently with ART 485. Cannot receive credit for both ART 685 and ART 485.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 686 Art of Africa

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The art and architecture of Africa and the cultures that produced it. May be taught concurrently with ART 486. Cannot receive credit for both ART 686 and ART 486.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 687 Art of the Americas

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

The art and architecture of North America, Central America, and South America and the cultures that produced it. May be taught concurrently with ART 487. Cannot receive credit for both ART 687 and ART 487.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 690 Art Studio Workshops for Art Educators

Focused study in specific studio area, emphasis on upgrading skills and extending understanding of aesthetic and visual qualities. Variable content course. May be repeated to a maximum of six hours. May be taught concurrently with ART 590. Cannot receive credit for both ART 590 and ART 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-3			Fall, Spring

ART 692 Art and Theory

Prerequisite: 3 hours of art history at the undergraduate upper division level or graduate level and permission of instructor.

This course will introduce students to a range of critical art theories from the late 19th Century through the 21st Century, addressing what has been thought and written about art from various perspectives. May be taught

concurrently with ART 492. Cannot receive credit for both ART 692 and ART 492.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ART 698 Seminar in Art Education

In-depth study of specific topics and/or interaction with leaders in the fields of aesthetics, art criticism, art history, art making, and art education. Variable content course. May be repeated to a maximum of six hours. May be taught concurrently with ART 598. Cannot receive credit for both ART 598 and ART 698.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Summer

ART 699 Exploratory Graduate Studio

Prerequisite: permission of instructor.

Students enrich their individual research by improving their current technical proficiencies and/or by implementing new artistic methods in an exploratory setting. In this studio, students add innovative approaches to their practice while accessing the skills of graduate faculty. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

ART 700 Historical Perspectives in Art Education

A history of ideas in art education and the individuals who have made significant contributions to the field; overview of beliefs, values, and practices and the role of art and art education in society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ART 701 Directed Graduate Studio I

Prerequisite: admission to the MFA in Visual Studies program and permission of instructor.

Mentored graduate research in visual art/design in preparation for thesis development. Students work one-on-one with faculty who supervise their research through the development of theory, technique, and/or concepts. Course content to be determined by the student under the supervision of a graduate faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 702 Directed Graduate Studio II

Prerequisite: ART 701 and permission of instructor.

Continuation of ART 701. Mentored graduate research in visual art/design in preparation for thesis development. Students work one-on-one with faculty who supervise their research through the development of theory, technique, and/or concepts. Course content to be determined by student under the supervision of a graduate faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 703 Directed Graduate Studio III

Prerequisite: ART 702 and permission of instructor.

Continuation of ART 702. Mentored graduate research in visual art/design in preparation for thesis development. Students work one-on-one with faculty who supervise their research through the development of theory, technique, and/or concepts. Course content to be determined by student under the supervision of a graduate faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 704 Directed Graduate Studio IV

Prerequisite: ART 703 and permission of instructor.

Continuation of ART 703. Mentored graduate research in visual art/design in preparation for thesis development. Students work one-on-one with faculty who supervise their research through the development of theory, technique, and/or concepts. Course content to be determined by student under the supervision of a graduate faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 705 Interdisciplinary Graduate Critique

Prerequisite: permission of instructor.

Interdisciplinary graduate critique class that emphasizes the development of individual studio research. Students discuss and develop conceptual, technical, and aesthetic practices in an interdisciplinary critique forum that nurtures cross-disciplinary awareness and approaches. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ART 710 Professional Practices

Prerequisite: permission of instructor.

A comprehensive study in theoretical and practical aspects of succeeding as a practicing artist or designer both inside and outside the academic setting. Students will survey the procedure and common practices expected of the artist or designer as a productive member of the professional community and educator in the field. This course should be taken before the Thesis course at the end of the student's graduate career.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ART 720 Introducing Art Criticism/Aesthetics/Culture

This course offers philosophical and critical inquiry focusing on aesthetic theories and art criticism as they apply to historical and contemporary settings. The course will provide an overview of the history of aesthetics in the Western and Non-Western tradition that will focus on the central questions of: defining beauty, evaluating the artistic object, determining what external factors are relevant to aesthetic judgments, and analyzing the inter-relationships between artist, audience, and artistic object. Some of the major topics in the course include various definitions of art, the nature of aesthetic experience, and the relationship between art and morality. This course also examines how the western conception of art and aesthetic experience can differ from that held by members of non-western cultures. The major topics to be considered are: philosophical foundations, mimetic theory, expressionistic theory, formalistic theory, pragmatic theory, relativist vs. objectivist theory, philosophical Foundations, art and politics, art and culture, art and religion, art and censorship.

ART 730 Art Processes for Special-Needs Populations

This course examines the history of Special Education in the American public education system, as well as what it means to be a student with a special need today. This course is designed to provide an overview of the special education process while focusing on various types of learners with special needs, including children with disabilities, gifted learners, and children at risk. Topics include: legal requirements and laws, partnering with parents/families, topics on public laws relating to individuals with disabilities, categories of exceptionality, identification and intervention, collaboration, identification and assessment of children, inclusion, coordinating with various agencies and specialists, and planning, delivering, and documenting educational services. This course focuses on the legal, social and cultural implications of having students with special needs in school in America today. The current trend in American schools is the full inclusion of students with disabilities into the general education environment, making it the responsibility of the classroom teacher to effectively integrate all students into the classroom. This course aims to teach about the Individual Education Plan (IEP) that is developed for every student in special education, and how to use that as a teaching tool.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Spring

ART 740 Artistic Practices I

In this course, the student will examine, develop, and enhance studio production, media manipulation, and technical proficiency. Personal and professional artistic development will include procedural, aesthetical, critical, historical, and cultural components. An exploration of the evolution and translation of visual and textual research into personal, thematic imagery will be the essential component of this course. To provide a broad base for experiential knowledge, this course will emphasize visual research as a reciprocal aspect of studio production. In this manner, critical and analytical responses to topics are designed to provide a catalyst for visual and textual reactions. Specifically, students will investigate social, historical, pedagogical, philosophical, and evaluative topics germane to personal thematic development of imagery.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Summer

ART 745 Artistic Practices II

This course offers strategies based on the growth of artistic expression, creative philosophies of and contemporary issues in visual arts. This course prepares students to create art through research on aesthetics

and various processes. This course aims to examine, develop, and enhance studio production, media manipulation, and technical proficiency. Personal and professional artistic development will include procedural, aesthetic, critical, historical, and cultural components. An analytical reflection both in studio and in written form of the personal explorations (visual and textual research into personal, thematic imagery) will be the essential component of this course. This course will continue the personal, experiential knowledge, emphasizing visual research as a reciprocal aspect of studio production. Critical and analytical responses to personal topics provide a catalyst for visual and textual reactions. Students will continue to investigate personally relevant socio-cultural, philosophical, historical and contemporary imagery germane to personal thematic development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Summer

ART 760 Contemporary Issues and Current Trends in Art Education

Critical examination of current issues and theories concerning the teaching of art; analysis of relationships between historical purposes and current practice; interpretation and evaluation of recent research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ART 761 Educational Research Methodology

In this course, the student will examine current philosophical, curricular, and pedagogical issues in Art Education. Critical and analytical responses to topics are designed to provide a catalyst for visual and textual reactions. Specifically, students will investigate social, historical, pedagogical, philosophical, managerial and evaluative topics germane to understanding art practices and contemporary research. Survey of research methods; research design and evaluation; problems of interpretation and application; and, development of a formal research proposal are major components of this course. In this course, assistance is given in the development of a research proposal that may become the basis for a Master's Thesis, either textual or visual or a combination. This will be determined during this course with advice from the Graduate Committee.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ART 764 Thesis Preparation in Studio I

The major goal of this course is to develop a prospectus that includes annotated references, a detailed outline for the thesis, and preliminary work on the written thesis or studio component. Through this course, graduate

students should be able to advance their knowledge and experience in the studio through increasing levels of accomplishment. This course provides students with an opportunity to explore media and technique at higher levels of practice and creativity. The culminating research and creative experience for the MAE student is the written thesis preparation or studio practice. This research opportunity allows the graduate student to pursue focused investigation into a topic relative to their particular interests and needs. The studio/thesis combines visual and written research with the primary objective of creating a body of artwork supported by a written explication. Under the supervision of a graduate faculty member, graduate students in this course will develop a research problem and write a thesis statement. Some of the course topics are advanced compositional structures, integration of an increasingly large set of formal principles, emulation of historical styles, and approaches in various forms of art.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Fall

ART 765 Thesis Preparation in Studio II

This course aims to assist students complete their exhibition catalogue that includes annotated references, a detailed outline for the studio component. This course will be split into two sections; preparation for the required MAE exhibition and advanced professional practices. However, the focus will center on the preparation for studio production. This class will be conducted in a lecture/seminar format. Students will have the opportunity for input about additional topics covered in this class. Guest speakers, hands-on workshops, class discussions and demonstrations will supplement lectures. The culminating research and creative experiences for the MAE student is the studio practice. This research opportunity allows the graduate student to pursue focused investigation into a topic relative to their particular interests and needs in studio art. The studio combines visual and written explanation with the primary objective of creating a body of artwork supported by a written explanation. Under the supervision of a graduate faculty member and graduate committee, graduate students will complete the body of work in studio. The instructor will formally review the studio component in the beginning stages with the responsibility of assessing the ideation, style, technique, and media that will best communicate the purpose of the artwork.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Spring

ART 766 Written Thesis Preparation I

This course is a continuation of ART 761 wherein the students will continue to examine current philosophical, curricular, and pedagogical issues in Art Education. Critical and analytical responses to topics are designed to provide a catalyst for visual and textual reactions. Specifically, students will investigate social, historical, pedagogical, philosophical, managerial and evaluative topics germane to understanding art practices and contemporary research. In this course, the development of the research proposal is required, which will become the Thesis. This will be determined during this course with advice from the Graduate Committee.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Fall

ART 767 Written Thesis Preparation II

Prerequisite: ART 766.

This course is a continuation of ART 766 wherein the student will continue to examine current philosophical, curricular, and pedagogical issues in Art Education. Critical and analytical responses to topics are designed to provide a catalyst for thesis development. Specifically, students will investigate social, historical, pedagogical, philosophical, managerial and evaluative topics germane to understanding art practices and contemporary research. Use of selected research methods; research design and evaluation; interpretation and application; and development of the thesis are major components. Selection of the Graduate Committee is required in this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Spring

ART 783 Practicum in Art Education and Educational Workshops

Prerequisite: ART 360 and ART 366 and 30 hours of studio art.

Observation and classroom teaching experiences; writing unit and lesson plans; classroom motivation, management and discipline; educational seminar workshops; and exhibition of K-12 student artworks.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Fall

ART 785 Independent Study

Prerequisite: portfolio review of work in selected studio area.

Independent work in one studio area, directed and critiqued by studio advisor. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

ART 788 Exhibition Presentation

Prerequisite: ART 765.

This course provides a critical backdrop for graduate students working towards their final graduation requirements and preparation for professional practice. The MAE exhibition is considered a professionally installed exhibition and is similar to all other exhibits that are scheduled in a gallery setting in regard to deadlines, contractual agreements, and required support materials. It is required that students adhere to all deadlines and requirements in a responsible and professional manner. Students are expected to be fully prepared for all aspects of the exhibition including: completed artwork and required support materials; professional presentation of work; installation of their own work and help with overall exhibit layout; adherence to arranged gallery schedule for installation, take down, and needed gallery repairs. The successful completion of the MAE degree requires a professional installation and presentation of a graduate level thesis body of work in a formal public exhibition with an oral presentation, a fully researched exhibition catalogue in critical support of the work and a formal oral defense. This course consists of facilitated discussions; writings, readings, oral presentations, guided research, and other academic activities related to the MAE students' studio concentrations and final exit requirements. The class aims to help students deepen their relationship to their work, and to develop an ease with, and appetite for, theoretical discourse and critical dialogue to help sustain their practice in the long-term.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Summer

ART 789 Exhibition Presentation

Prerequisite: ART 766.

Concepts, theories, and methodologies presented throughout the graduate program (ART 761 Educational Research Methodology, ART 766 Written Thesis Preparation I, and ART 767 Written Thesis Preparation II) are placed within a framework and are organized philosophically and instructionally to assist students with the completion of the thesis. The preparation of the thesis is anchored in a set of beliefs that guide program development and instruction, which is primarily the role of reflective decision-making. The reflective and analytical aspect may include, but not be limited to: 1) finding clear and fruitful ways of characterizing; 2) careful, well-informed consideration of possibilities or alternatives for action; and 3) thoughtful assessment of choices made and implemented. Exhibition site will be determined in consultation with the instructor. Exhibition can be on-line or on-site. This course is structured to develop student knowledge, skills, dispositions, and personal attributes associated with successful art education practice. Competencies will focus on relevant knowledge, pedagogical and professional practice, and personal attributes. The components of this course reflect the National Art Education Association (NAEA), the United States Society for Education through Art (USSEA), and The International Society for Education through Art (InSEA), which provided topics germane to contemporary teaching, learning and assessing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	1	Summer

ART 794 Independent Study in Art History

Prerequisite: permission of instructor (granted only in special circumstances).

Individual projects and special problems in Art History. May be repeated to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ART 795 Graduate Internship in Art History

Prerequisite: permission of instructor.

Student will complete various duties as assigned with art history-related organizations. These include local museums, galleries, and/or various resource-media collections. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ART 797 Teaching Practicum

Prerequisite: permission of instructor.

This course will address topics unique to university art and design faculty and professional practices in various fields teaching visual studies. Successful completion of this course is needed to participate in Missouri State University's Teaching Assistant Program or to become a Per Course (or adjunct) instructor while enrolled in the MFA program. Students will survey topics pertaining to effective university level instruction through the exploration of course development, organization and public communication skills. Topics such as how and why students learn, where to find teaching resources and how to refine a learning environment will be discussed through a variety of formats and activities in the class. A mentor/mentee program will also be a component of this course to allow students to shadow experienced professors and learn through observation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

ART 798 Graduate Interdisciplinary Seminar

Prerequisite: permission of instructor.

Seminar exploration of current theoretical, formal, and conceptual problems in interdisciplinary approaches to visual art/design through discussion and critique. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

ART 799 Graduate Studio Thesis

Prerequisite: permission of instructor.

Concentrated activity in the major field of study in preparation for the thesis exhibition/presentation. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

Design (DES) courses

DES 202 Graphic Design Systems

Prerequisite: ART 101 and ART 110 and ART 215; Missouri State GPA of at least 2.50; and a major GPA of at least 2.50.

Abstract and theoretical applications of design systems including grid information, various symmetries, and printed page formats.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 210 Introduction to Computer Graphic Design

Prerequisite: ART 100 and ART 101 and ART 110 and ART 215; and Missouri State GPA of at least 2.50; and a GPA of 2.50 or higher in the major.

An introduction to methods of image creation and visual communication via available computer graphic software packages. Emphasis will be placed on the use of the computer as a production tool for graphic designers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 220 Materials and Techniques for Sequential Art

Prerequisite: ENG 216; and C or better in both DES 301 and DES 303; and Missouri State GPA of at least 2.50; and a GPA of 3.00 or higher in the major; and admitted to BFA in Design, Sequential Art option.

A study of methods and materials used in traditional sequential art.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 250 Materials and Techniques for Illustration

Prerequisite: ART 101 and ART 110 and ART 215; and Missouri State GPA of at least 2.50 and a GPA of 3.00 or higher in the major; and admitted to BFA Design.

A study of methods and materials used in traditional illustration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 300 Graphics for the Non-Design Major

Prerequisite: ART 110 or COM 209.

An investigation of how basic design principles relate to graphic communication as well as the study of processes used in preparing designs for reproduction. The student will apply this knowledge in a number of assigned design problems. Course will not count toward the BFA degree in Design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall, Spring

DES 301 Graphic Production

Prerequisite: C or better in both DES 202 and DES 210 and concurrent enrollment in either ART 202 or ART 255.

The study of materials and mechanical processes required for single, multiple, and four-color print production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 303 Basic Typography

Prerequisite: C or better in both DES 202 and DES 210 and concurrent enrollment in either ART 202 or ART 255.

Introduction to basic typographic forms and their use in visual communication. The application of design principles to the setting of type. Visual experiments with typographic elements.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 320 Intermediate Sequential Art

Prerequisite: ART 315 or concurrent enrollment; and C or better in DES 220.

Intermediate study in the literature and techniques of sequential art with practical experience in writing and illustrating comics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 323 Literature of Sequential Art

Prerequisite: ENG 110.

An overview of the literature of graphic narrative (also known as comics/sequential art) from proto-comics to the graphic novel. Identical with ENG 323. Cannot receive credit for both DES 323 and ENG 323.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

DES 330 Communication Design/Methodology

Prerequisite: C or better in both DES 301 and DES 303 and admitted to BFA Design degree program.

Investigation of the design process and its methodology through different forms of visual communication. Development of students' ability to present visually different ideas or information.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 331 Advanced Typography

Prerequisite: C or better in both DES 301 and DES 303 and admitted to BFA Design degree program.

Application of typography in different fields of visual communication and publication design. Exploration of the relationship between meaning, content, and typographic layout.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 332 Image Design

Prerequisite: either ART 225 or ART 315 (or concurrent enrollment in ART 225 or ART 315); and C or better in both DES 330 and DES 331.

Production of graphic images in relation to written information and/or specific subjects, ideas or messages.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 340 Web Design for Design Majors

Prerequisite: DES 330.

Basic knowledge of web design using HTML, including information architecture and image optimization for the web.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 345 Basic New Media Design

Prerequisite: DES 210 or ART 210.

Course will focus on basic knowledge of new media design and production. The course covers interactive interface design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Upon demand

DES 350 Illustration

Prerequisite: ART 315 (or concurrent enrollment in ART 315) and C or better in DES 250 and admitted to BFA Design degree program.

The study of various approaches and techniques of illustration for print and publication, including an introduction to digital illustration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 420 Advanced Sequential Art

Prerequisite: ART 377; and ART 225 or concurrent enrollment; and C or better in DES 320.

Advanced study in the literature and technique of sequential art and practical experience in writing and illustrating comics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 430 Advanced Graphics

Prerequisite: ART 377; and either ART 225 or ART 315 (or concurrent enrollment in ART 225 or ART 315); and C or better in DES 332.

The completion of advanced projects in graphic communication, including corporate and product identity, public service and editorial design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 440 Advanced Web Design for Design Majors

Prerequisite: DES 340.

Advanced skills in web design particularly focusing on interactive flash websites with multimedia content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 452 Intermediate Illustration

Prerequisite: ART 377 and ART 225 (or concurrent enrollment in ART 225) and C or better in DES 350.

The study of illustration as a communicative tool. Students will be assigned problems using various media.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

DES 490 Professional Design Practicum

Prerequisite: C or better in either DES 430 or DES 452.

A design workshop for the development and production of materials for portfolio. Preparation of a Final Project containing design work for a non-profit organization or a selected design issue, a written thesis related to it and public presentation of this project. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 497 Special Topics in Design

Prerequisite: Missouri State GPA of at least 2.50 and a GPA of 3.00 or higher in the major and admitted to Art or Design degree program and permission of the instructor.

The specific topics will change from term to term depending upon the interest of students and professors, e.g. Scientific Illustration, Comic Book Illustration, Art Direction, Book Arts, History of the Book, Letterpress Printing. May be repeated to a total of 9 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

DES 499 Design Internship

Prerequisite: Missouri State cumulative GPA of at least 2.50 and a GPA of 3.00 or higher in the major and admitted to Design degree program and permission of Design Program Coordinator.

Student will complete actual job assignments for outside organizations under the supervision of a design faculty member. May be repeated to a total of 6 hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

Museum Studies (MST) courses

MST 350 Citizenship and Service-Learning in Museum Studies

Prerequisite: 30 hours and two MST courses or museum studies track area courses and concurrent registration in a 300- or 400-level MST course designated as a service-learning offering.

This one-hour service component for an existing course incorporates community service with classroom instruction in an area relevant to museum studies to provide an integrated learning experience, addressing the practice of citizenship and promoting an awareness of and participation in public affairs. Includes 40 hours of service benefiting an external community organization, agency, public service provider, or event benefiting the community. Approved placements and/or service assignments will vary depending on the course topic and learning objectives. Graded Pass/Not Pass only. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Upon demand

MST 380 Museum Collections Management

Prerequisite: ENG 110.

This course explores the development, storage, and preservation of museum collections.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MST 381 Museum Exhibits

Prerequisite: ENG 110.

This course explores museum exhibit development, design, and preparation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MST 382 Museum Programs

Prerequisite: ENG 110.

This course explores museum educational programs and outreach.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MST 388 The Museum: History and Perspectives

Prerequisite: ENG 110 and permission of instructor.

This course offers a broad introduction to the museum as a cultural site and museum studies as a discipline with focus on theoretical issues. Identical with ART 388. Cannot receive credit for both MST 388 and ART 388.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MST 488 Basic Conservation of Art and Artifacts

Prerequisite: ART 273.

This course combines advanced art historical study and research of art and artifacts with a hands-on introduction to basic conservation techniques. Identical with ART 488. Cannot receive credit for both MST 488 and ART 488.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

MST 495 Museum Studies Internship

Prerequisite: permission of instructor.

Students will complete various duties as assigned with one of a variety of museum studies-related organizations. These organizations may include, but are not limited to: museums, galleries, interpretive centers, archives, and visual resource-media collections. Variable content course. May be repeated to a total of six hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MST 496 Selected Topics in Museum Studies

Prerequisite: ENG 110 and permission of instructor.

The specific topics will change from semester to semester depending upon the interest of students and professors, e.g. museum management, museum registration methods, controversy in museums. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MST 501 Natural History Museum Techniques

Techniques in the development of natural history museum displays including making models, design of displays, writing educational text, and other techniques. Course will be taught off-site at the Bull Shoals Field Station and Chase Studio. Identical with BIO 501. Cannot receive credit for both MST 501 and BIO 501.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

Art

Major(s)

Art

Bachelor of Fine Arts

Admission requirements

In addition to completing Foundations courses (ART 100, 101, 110, 115). Note: ART 215 is required for some areas of emphasis. Students must pass the Candidacy Review for BFA in Art. A selection of work from Foundation and Studio Core areas is to be submitted to a committee of the art studio faculty for review during the first semester of the student's junior year. Students must have a 3.00 or higher GPA in the major and a Missouri State cumulative GPA of at least 2.50 to be admitted to candidacy. Student records will be encumbered at seventy-five hours if the student has not yet been admitted to a degree program. It is the student's responsibility to apply for the review which is held during the fall and spring semesters. ART 499, Senior Exhibition, cannot be taken unless the Candidacy Review has been passed. Transfer students with more than sixty hours completed must apply for candidacy during their first semester.

Major requirements (76 hours)

Major core (55-61 hours)

1. Foundations (12 hours): [ART 100\(3\)](#), [101\(3\)](#), [110\(3\)](#), [115\(3\)](#).
2. Studio Core (15 hours): Complete five courses with at least one from each of the three groups below:
 - a. [ART 202\(3\)](#), [215\(3\)](#), [225\(3\)](#), [242\(3\)](#).
 - b. [ART 212\(3\)](#), [223\(3\)](#), [235\(3\)](#).
 - c. [ART 210\(3\)](#), [230\(3\)](#), [255\(3\)](#).

3. Art History (15 hours): [ART 271\(3\)](#), [272\(3\)](#); [ART 273\(3\)](#) or [274\(3\)](#); and six hours art history electives chosen with advisement.
4. Senior Exhibition (4 hours): [ART 499\(4\)](#) A presentation of work that reflects the technical, aesthetic, and conceptual issues from the area in which the majority of art course work has been taken. Coursework includes the development of professional artistic practices including resume construction, artist's statements, preparation and installation of an exhibition, development of exhibition proposals, and any additional content deemed relevant to prepare the student for a career in the visual arts. This work must demonstrate the attainment of a level of conceptual and technical maturity judged by a committee of the art studio faculty to meet qualitative standards required for the granting of the BFA degree in Art.
5. Public Affairs Capstone Experience will be fulfilled by completion of [ART 499\(4\)](#).
6. Art and Design Electives (9-15 hours): additional courses from across the Art and Design course offerings in studio, design, art history, art education, or aesthetics ([PHI 320\(3\)](#)) outside of the area of emphasis (option), nine hours of which must be at the 300 level or higher, chosen with approval of advisor, bringing the total number of hours in Art and Design to no fewer than 76. Students with an emphasis in computer animation may use [MED 365\(3\)](#) towards fulfillment of this requirement. ART 200 cannot be used to satisfy this requirement.

Complete one of the following options (Studio Emphasis area):

15-21 hours 300 level or higher required.

3D Studies option:

1. Required: [ART 212\(3\)](#), [223\(3\)](#), [235\(3\)](#).
2. Additional hours from: [ART 312\(3\)](#), [313\(6\)](#), [314\(3-12\)](#), [322\(3\)](#), [323\(3\)](#), [324\(3-12\)](#), [335\(3\)](#), [336\(3-9\)](#), [399\(3-6\)](#), [435\(3-12\)](#).

Computer Animation option:

1. Required: [ART 330\(3\)](#), [331\(3\)](#), [430\(3\)](#), [431\(3\)](#).
2. Additional hours from: [ART 432\(3-6\)](#), [399\(3-6\)](#).

Digital Arts option:

1. [ART 310\(3-6\)](#), [399\(3-6\)](#), [410\(3-9\)](#).
2. Additional hours from: [ART 330\(3\)](#), [331\(3\)](#), [430\(3\)](#), [431\(3\)](#) and [DES 345\(3\)](#).

Drawing option:

1. Required: [ART 315\(3-9\)](#), [316\(3-9\)](#).
2. Additional hours from: [ART 399\(3-6\)](#).

Painting option:

1. Required: [ART 325\(3-6\)](#).
2. Additional hours from: [ART 326\(3-9\)](#), [399\(3-6\)](#), [425\(3-9\)](#).

Photography option:

1. Select from: [ART 354\(3\)](#), [355\(3\)](#), [356\(3\)](#), [357\(3\)](#), [358\(3\)](#), [359\(3\)](#), [399\(3\)](#), [454\(3\)](#), [455\(3-6\)](#).

Printmaking option:

1. Required: [ART 342](#)(3-9).
2. Additional hours from: [ART 343](#)(3-9), [399](#)(3-6).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)

Art

Bachelor of Arts
Bachelor of Science

1. [ART 100](#)(3), [101](#)(3), [115](#)(3).
2. Additional nine hours in art and/or design (should be chosen with advisement) to total at least 18 hours in the minor. ART 200 cannot be used to satisfy this requirement.

Art Education

Major(s)

Art Education

Bachelor of Science in Education (Certifiable grades K-12)

Admission requirements

In addition to completing Foundations courses (ART 100, 101, 110, 115) students must have a combined GPA (Missouri State and transfer combined) of at least 2.50, GPA in Art Education of 2.50, and a grade of "C" or better in ART 360. Application for admission to the degree program may be made after completion of 30 hours and must be made *before* 75 hours have been completed.

Major requirements (66 hours):

Note: three hours may double count toward General Education requirements.

1. Specific General Education requirement: [ART 271\(3\)](#) or [272\(3\)](#) or [273\(3\)](#) or [274\(3\)](#).
2. Foundations (12 hours): [ART 100\(3\)](#), [101\(3\)](#), [110\(3\)](#), [115\(3\)](#).
3. Art History (9 hours):
 - a. [ART 272\(3\)](#), [273\(3\)](#).
 - b. One course from [ART 480\(3\)](#), [484\(3\)](#), [485\(3\)](#), [486\(3\)](#), [487\(3\)](#).
4. Studio Art (30 hours):
 - a. [ART 212\(3\)](#), [215\(3\)](#), [225\(3\)](#), [235\(3\)](#), [242\(3\)](#) or [243\(3\)](#), [253\(3\)](#), [255\(3\)](#).
 - b. Three courses from: [ART 210\(3\)](#), [223\(3\)](#), [312\(3\)](#), [315\(3\)](#), [322\(3\)](#), [323\(3\)](#), [325\(3\)](#), [335\(3\)](#), [342\(3\)](#), [359\(3\)](#), [DES 300\(3\)](#), [PHI 320\(3\)](#); or two courses plus [ART 354\(3\)](#) or [355\(3\)](#) or [356\(3\)](#).
5. Art Education (15 hours): [ART 360\(3\)](#), [366\(3\)](#), [401\(3\)](#), [460\(3\)](#), [466\(3\)](#).
6. Public Affairs Capstone Experience will be fulfilled by completion of [ART 490\(12\)](#).

Professional Education requirements:

Note: A grade of "C" or better in each course is required for state certification.

1. Teaching methods and supervised teaching: [ART 360\(3\)](#), [366\(3\)](#), [401\(3\)](#), [466\(3\)](#), [490\(12\)](#).
2. Additional [Professional Education Required Core and Competencies](#) (23 hours).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval for supervised teaching; and recommendation for certification which includes following GPA requirements. All GPA requirements include both Missouri State and transfer grades.
 - a. at least a 2.75 GPA on all course work attempted at all colleges attended.
 - b. at least a 3.00 GPA in the certificate subject area (major field of study) which includes all courses listed under major requirements.
 - c. at least a 3.00 GPA in any additional certificate subject area.
 - d. at least a 3.00 GPA in the professional education courses which includes all courses in number 1 and 2; and no grade lower than a "C" in all professional education courses.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Art Education

Eligible Missouri State undergraduate students majoring in Art Education may apply for admission to the Master of Art Education program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 9 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-art-education.htm) (<https://graduate.missouristate.edu/Catalog/prog-art-education.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([Registrar/Catalog/undergraduate-students-taking-graduate-credit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Missouri State

Office of the Registrar

Undergraduate Catalog

Design

Major(s)

Design

Bachelor of Fine Arts

Admission requirements

In addition to completing Foundations courses (ART 100, 101, 110, 115) students must have a GPA of 2.50 or higher in the major and a Missouri State cumulative GPA of at least 2.50 to pass the Advisory Review administered by the Design Program Coordinator in the spring of the freshman year for provisional admission to the program.

In the spring of the sophomore year students must apply for Candidacy Review. A committee of Design faculty will administer this review. A student must submit a portfolio consisting of 12-20 pieces selected from Foundations and Design Core courses including: ART 115 or 215, ART 202, DES 202, 210, 301, 303 and may include additional work chosen with faculty advisement. Students must choose an option at this time: Graphic Design, Illustration, or Graphic Design and Illustration. This is a competitive program—if students are not accepted into the program they may consider repeating courses and/or doing additional work and reapplying for admission the following spring, but acceptance is not guaranteed. Students must have a GPA of 3.00 or higher in the major and an Missouri State cumulative GPA of at least 2.50 to be admitted to candidacy.

Transfer students choosing the BFA in Design must apply for admission to the program. The application with portfolio and transcript must be made to the Design Program Coordinator in the spring semester for admission to the program in the fall. (Students are not encouraged to apply for spring admission.) The Design Program Coordinator in consultation with the Design faculty will review the application with portfolio and transcript. Students must receive permission from the Design Coordinator before enrolling in any Design course. To be admitted to the Design Program transfer students must have a GPA of 2.50 or higher in the major if transferring 12 hours or less in the major, or a GPA of 3.00 or higher in the major if transferring more than 12 hours in the

major. All transfer students must have a combined (Missouri State and transfer) GPA of at least 2.50 to be admitted to the program.

Design internships

DES 499, Design Internship, may be arranged through the Office of Cooperative Education, and may be used to fulfill art or design electives by design majors. Permission to take an internship for credit must be obtained before the work is done. For more information on how to enroll in DES 499 contact the Design Program Coordinator.

Major requirements (78-93 hours):

Major core (60 hours):

1. Foundations (12 hours): [ART 100\(3\)](#), [101\(3\)](#), [110\(3\)](#), [115\(3\)](#).
2. Design core (18 hours): [ART 202\(3\)](#), [215\(3\)](#); [DES 202\(3\)](#), [210\(3\)](#), [301\(3\)](#), [303\(3\)](#).
3. Art History (15 hours): [ART 271\(3\)](#), [272\(3\)](#); [ART 273\(3\)](#) or [274\(3\)](#); [ART 377\(3\)](#); and a 300- or 400- level Art History course(3), chosen with advisement.
4. Studio Art (12 hours): [ART 225\(3\)](#), [255\(3\)](#), [315\(3\)](#), [ART 235\(3\)](#) or [242\(3\)](#).
5. Professional Design Practicum (3 hours): [DES 490\(3\)](#).
6. Public Affairs Capstone Experience will be fulfilled by completion of [DES 490\(3\)](#).

Complete one of the following options:

Graphic Design option (18 hours):

1. [DES 330\(3\)](#), [331\(3\)](#), [332\(3\)](#), [340\(3\)](#), [430\(3\)](#).
2. Three hours in Design from: [DES 345\(3\)](#), [440\(3\)](#), [497\(3\)](#), [499\(3\)](#).

Illustration option (18 hours):

1. [DES 250\(3\)](#), [350\(3\)](#), [452\(3\)](#).
2. Six hours of [DES 497\(3\)](#) Special Topics in Illustration. May not repeat the same topic.
3. Three hours from: Photography-[ART 354\(3\)](#), [355\(3\)](#), [356\(3\)](#), [357\(3\)](#), [358\(3\)](#); Printmaking-[ART 242\(3\)*](#), [243\(3\)](#), [342\(3\)](#), [343\(3\)](#); Drawing and Painting-[ART 315\(3\)*](#), [316\(3\)](#), [325\(3\)](#), Digital Imaging-[ART 310\(3\)](#), [410\(3\)](#); Computer Animation-[ART 230\(3\)](#); Design-[DES 345\(3\)](#), [497\(3\)](#)-may not be same topic; [DES 499\(3\)](#).
* [ART 315](#) and [ART 242](#) cannot be counted both here and toward the Studio Art requirement, however, [ART 315](#) may be repeated.

Sequential Art option (18 hours):

1. Sequential art (9 hours): [DES 220\(3\)](#), [320\(3\)](#), [420\(3\)](#).
2. Graphic literature and writing theory (6 hours): [ENG 216\(3\)](#), [DES 323\(3\)](#).
3. Three hours of electives from: any creative writing or literature course with approval of advisor (3); Photography-[ART 354\(3\)](#), [355\(3\)](#), [356\(3\)](#), [357\(3\)](#), [358\(3\)](#); Printmaking-[ART 242\(3\)*](#), [243\(3\)](#), [342\(3\)](#), [343\(3\)](#); Drawing and Painting-[ART 315\(3\)*](#), [316\(3\)](#), [325\(3\)](#), Digital Imaging-[ART 310\(3\)](#), [410\(3\)](#); Computer Animation-[ART 230\(3\)](#); Design-[DES 345\(3\)](#), [497\(3\)](#)-may not be same topic.
[ART 315](#) and [ART 242](#) cannot be counted both here and toward the Studio Art requirement.

Graphic Design and Illustration option (33 hours):

1. 15 hours in graphic design: [DES 330\(3\)](#), [331\(3\)](#), [332\(3\)](#), [340\(3\)](#), [430\(3\)](#).
2. Nine hours in illustration: [DES 250\(3\)](#), [350\(3\)](#), [452\(3\)](#).
3. Six hours of [DES 497\(3\)](#) Special Topics in Illustration. May not repeat the same topic.
4. Three hours of design electives: [DES 345\(3\)](#), [440\(3\)](#), [497\(3\)](#) Special Topics in Illustration. May not repeat the same topic, [DES 499\(3\)](#).

Undergraduate Catalog

Electronic Arts

Major(s)

Electronic Arts (Comprehensive)

Bachelor of Science

This program is offered in conjunction with the Department of Media, Journalism & Film.

Admission requirements

Complete the following 9 hours with a GPA of 3.00 or higher before making a portfolio application to the program:

1. Foundation courses (6 hours): two courses from [ART 110\(3\)](#), [MED 365\(3\)](#), [MUS 216\(3\)](#). Students must complete the foundation course required in their option area before submitting their portfolio application to the program. Required foundation course for each option:
 - a. Audio Studies: [MUS 216\(3\)](#).
 - b. Computer Animation Studies: [ART 110\(3\)](#).
 - c. Interactive New Media Studies: [ART 110\(3\)](#).
 - d. Video Studies: [MED 365\(3\)](#).
2. Pre-admission core course (3 hours): one course from [ART 210\(3\)](#), [ART 230\(3\)](#), or [MED 361\(3\)](#). Note: Computer Animation students must complete ART 230 and Interactive New Media students must complete ART 210.

Note: All Electronic Media majors must complete all three foundation courses to satisfy graduation requirements.

Initial portfolio review

Portfolio must include three examples of audio, video, interactive new media, and/or computer animation work; one work must come from outside the option area to which the student is applying; and two of the three works coming from a course with the Electronics Arts program. Students seeking admission to the Electronic Arts program in the area of Computer Animation Studies must include at least one work from ART 230 or ART 330. Specific guidelines are required for portfolios. See advisor or the Electronic Arts Coordinator for details.

Major requirements (69 hours)

Major core (51 hours)

1. [ART 110\(3\)](#), [MED 365\(3\)](#), [MUS 216\(3\)](#).
2. One course from: [ART 210\(3\)](#), [ART 230\(3\)](#), [MED 361\(3\)](#) or [MED 382\(3\)](#). Note: course **cannot** be double-counted toward the student's selected 18 hour option.
3. [ART 300\(3\)](#).
4. Six hours from [ART 498\(3\)](#) or [MED 498\(3\)](#).
5. Complete 12-15 hours from the following history and/or theory courses: [ART 271\(3\)](#), [272\(3\)](#), [273\(3\)](#), [274\(3\)](#), [480\(3\)](#), [484\(3\)](#), [492\(3\)](#); [MED 300\(3\)](#), [304\(3\)](#), [325\(3\)](#), [355\(3\)](#), [374\(3\)](#), [375\(3\)](#), [412\(3\)](#), [454\(3\)](#), [470\(3\)](#), [570\(3\)](#), [580\(3\)](#), [581\(3\)](#); [MUS 239\(3\)](#), [241\(3\)](#). Note: chosen courses may only be used once in the major.
6. With advisor approval, complete 18-21 hours of additional supporting electives (courses not already used to fulfill a major requirement) to best augment the major option. Choose from: [ART 100\(3\)](#), [101\(3\)](#), [115\(3\)](#); any [ART](#) or [DES](#) or [MED](#) or [MUS](#) course.
7. Successful completion of the junior portfolio review and the achievement of a "C" or better grade in all required option courses completed at the time of the junior portfolio review must be achieved before admission to ART 498/MED 498, Senior Project in Electronic Arts, will be granted.
8. Public Affairs Capstone Experience will be fulfilled by completion of [ART 498\(3\)](#) or [MED 498\(3\)](#).

Complete one of the following options (18 hours):

Audio Studies option

Refer to Department of Media, Journalism and Film section of catalog.

Computer Animation Studies option

Department of Art and Design

1. [ART 230\(3\)](#); [MED 465\(3\)](#) or [MED 466\(3\)](#).
2. 12 hours with advisor approval from: [ART 330\(3\)](#), [ART 331\(3\)](#), [ART 430\(3\)](#), [ART 431\(3\)](#), [ART 432\(3-6\)](#), [ART 399\(3-6\)](#). Computer Animation Studies students must complete ART 230 before making a portfolio application to the program.

Interactive New Media Studies option

Department of Art and Design

1. [ART 210\(3\)](#), [ART 310\(3\)](#), [ART 410\(3\)](#).

2. Nine hours from: [MED 290\(3\)](#), [MED 355\(3\)](#), [MED 466\(3\)](#), [MED 492\(3\)](#), [MED 595\(1-3\)](#), [DES 202\(3\)](#), [DES 340\(3\)](#), [ITC 260\(3\)](#). DES 202 or DES 340 should be taken only after successful completion of initial portfolio review. Interactive New Media Studies students must complete ART 210 before making a portfolio application to the program.

Video Studies option

Refer to Department of Media, Journalism and Film section of catalog.

Museum Studies Certificate

Museum Studies

This certificate is for students who are interested in pursuing a career in a museum studies, archival studies, library studies, or other related fields. The certificate is designed to teach students the basics about museum work and to provide insight into today's museum world.

Program requirements (12 hours)

1. [ART 273\(3\)](#) and [MST 388\(3\)](#) and [MST 488\(3\)](#); or [MST 388\(3\)](#) and any two of the following: [MST 380\(3\)](#), [MST 381\(3\)](#), [MST 382\(3\)](#).
2. After the completion of at least two of the above three courses, students must complete [MST 495\(3\)](#). The internship is supervised by the Museum Studies Program Coordinator; however, if the student is also doing a Museum Studies minor, the internship is supervised by the respective track area advisor.
3. All candidates must satisfy the [General University Certificate Requirements](#).

Program restrictions

The cross-listed courses ART/MST 388 and ART/MST 488 may not be double-counted between an Art History major and a Museum Studies minor and/or a Museum Studies Certificate. In the event that a student is both an Art History major and a Museum Studies minor and/or doing the Museum Studies Certificate, these two courses will count only for the Museum Studies minor and the Museum Studies Certificate and NOT also for the Art History major.

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Missouri State

Office of the Registrar

Undergraduate Catalog

Museum Studies

Minor(s)

Museum Studies

Bachelor of Arts

Bachelor of Fine Arts

Bachelor of Science

Program Advisors:

- Dr. Billie Follensbee, Art and Design, Museum Studies Program Coordinator
- Dr. Mitzi Kirkland-Ives, Art and Design
- Dr. Michelle Bowe, Biology
- Ms. Melanie Carden-Jessen, Geography, Geology and Planning
- Dr. Elizabeth Sobel, Sociology and Anthropology
- Dr. F. Scott Worman, Sociology and Anthropology

The Museum Studies minor is an interdisciplinary minor that will introduce students to the variety of careers available in museum studies as well as provide some basic background training in a variety of museum-related fields, allowing students to expand or continue their studies at the undergraduate or graduate level or by working in museums themselves. This minor is also appropriate for students interested in public affairs, community development, or other fields leading to a career working with governmental or private institutions. By providing students with some background education in a variety of types of museums, how museums operate, and the role of different types of museums, students will develop an appreciation for these and other public and private institutions.

1. Required Courses (9 hours): [MST 388\(3\)*](#), [495\(3\)](#), and either [MST 488\(3\)*](#) or [380\(3\)](#) or [381\(3\)](#) or [382\(3\)](#). With advisor approval, [MST 496\(3\)](#), Special Topics in Museum Studies, may substitute MST 488, 380, 381 or 382. Students must register for either the ART course code or the MST course code for 388 and 488; the ART course code will count as an Art History course, while the MST course code will count as a Museum

Studies course.

Students completing a museum- or archives-related internship(s) in any one of the track area disciplines may substitute this for the MST 495 internship, provided the internship consists of three credit hours total and fulfills all of the requirements for MST 495, and with the approval of a Museum Studies advisor.

*ART/MST 388 and ART/MST 488 may not be double-counted between a Museum Studies BA option, a Museum Studies minor, and/or a Museum Studies certificate and an Art History and Visual culture BA option and a Museum Studies minor. In the event that a student is doing both an Art History and Visual culture BA option and a Museum Studies minor and/or certificate, these two course will count only for the Museum Studies minor and/or certificate.

2. Complete nine additional hours from one of the following tracks. Only two electives may overlap with courses used for any major or minor. Appropriate substitutions are allowed within a track with the approval of a Museum Studies advisor.
 - a. Art History Track: Appropriate prerequisite ([ART 272](#) or [ART 273](#)) and two of the following: [ART 471\(3\)](#), [475\(3\)](#), [476\(3\)](#), [478\(3\)](#); [480\(3\)](#) or [484\(3\)](#); [485\(3\)](#), [486\(3\)](#), [487\(3\)](#).
 - b. Biology Track: Two taxonomy courses and selected courses from the following, for a total of 8 to 10 hours: [BIO 485\(1-3\)](#), [501\(2\)](#), [509\(4\)](#), [527\(1-4\)](#), [561\(2\)](#), [562\(4\)](#), [564\(2\)](#).
 - c. Geoscience Track: Select one [GRY course](#), one [GLG course](#), and one additional course from the following: [GEO 363\(4\)](#); [GRY 301\(3\)](#), [318\(3\)](#), [320\(3\)](#), [348\(3\)](#); [GLG 314\(3\)](#), [332\(3\)](#), [333\(4\)](#), [350\(3\)](#), [412\(4\)](#), [415\(4\)](#); [PLN 573\(3\)](#).
 - d. Anthropology-Archaeology Track: [ANT 305\(3\)](#) and two of the following: [ANT 345\(3\)](#), [351\(3-6\)](#), [355\(3\)](#), [360\(3\)](#), [375\(3\)](#), [397\(1-3\)](#) (when applicable), [490\(1-6\)](#) (when applicable), [545\(3\)](#), [550\(3\)](#), [555\(3\)](#), [598\(3\)](#) (when applicable).
 - e. Anthropology-World Cultures Track: [ANT 100\(3\)](#) or [303\(3\)](#) and two of the following: [ANT 330\(1-3\)](#), [332\(3\)](#), [334\(3\)](#), [490\(1-6\)](#) (when applicable).
 - f. Anthropology-Native Americans Track: Three of the following: [ANT 325\(3\)](#), [330\(1-3\)](#), [351\(3-6\)](#), [360\(3\)](#), [490\(1-6\)](#) (when applicable), [505\(3\)](#), [525\(3\)](#), [598\(3\)](#) (when applicable).

Visual Art and Culture

Major(s)

Visual Art and Culture (Non-Comprehensive)

Bachelor of Arts

Major requirements (39-42 hours)

Major core (18 hours):

1. Art History core (9 hours): [ART 272\(3\)](#), [273\(3\)](#); [ART 271\(3\)](#) or [274\(3\)](#).
2. Studio Art core (6 hours):
 - a. One foundation course (3 hours): [ART 100\(3\)](#), [101\(3\)](#), [110\(3\)](#), [115\(3\)](#).
 - b. Any studio art course (3 hours).
3. Art and Theory course (3 hours): [ART 492\(3\)](#).
4. Public Affairs Capstone Experience will be fulfilled by completion of: [ART 492\(3\)](#).
5. Minor required (or second major).
6. [Specific Bachelor of Arts Degree Requirements](#)

Complete one of the following options:

Art History and Visual Culture option (21 hours):

1. Core course (3 hours): In addition to the Art History Core courses, complete three additional hours in art history from: [ART 271\(3\)](#) or [274\(3\)](#).
2. Art History (18 hours): In consultation with advisor, complete 18 hours in at least five of the following areas of art history:
 - a. Area I: [ART 471\(3\)](#), [472\(3\)](#).
 - b. Area II: [ART 475\(3\)](#), [478\(3\)](#).

- c. Area III: [ART 480\(3\)](#).
- d. Area IV: [ART 377\(3\)](#), [387\(3\)](#), [483\(3\)](#).
- e. Area V: [ART 485\(3\)](#), [487\(3\)](#).
- f. Area VI: [ART 486\(3\)](#).
- g. Area VII: [ART 388\(3\)*](#), [488\(3\)*](#).
- h. Area VIII: [ART 476\(3\)](#), [484\(3\)](#).

With advisor's approval, [ART 496\(3\)](#), Special Topics in Art History, may substitute for a course in one of the areas.

**ART/MST 388 and ART/MST 488 may not be double-counted between an Art History and Visual Cultural option or Art History minor and a Museum Studies option, minor and/or certificate. In the event that a student is doing both the Art History and Visual Culture option and the Museum Studies option, both the Museum Studies option and the Art History minor, both the Art History minor and the Museum Studies minor, and/or certificate, or both the Art History and Visual Culture option and the Museum Studies minor, these two courses will count only for the Museum Studies option, minor, and/or certificate.*

Museum Studies option (22-24 hours):

1. Museum Studies core courses (9 hours): [MST 388\(3\)*](#), [488\(3\)*](#), [495\(3\)](#).
2. Three courses from following, in consultation with advisor (7-9 hours): [MST 350\(1\)](#), [380\(3\)](#), [381\(3\)](#), [382\(3\)](#), [496\(3\)](#).
3. Art History (6 hours) in at least two of the following areas:
 - a. Area I: [ART 471\(3\)](#), [472\(3\)](#), [475\(3\)](#), [478\(3\)](#).
 - b. Area II: [ART 377\(3\)](#), [387\(3\)](#), [476\(3\)](#), [480\(3\)](#), [483\(3\)](#), [484\(3\)](#).
 - c. Area V: [ART 485\(3\)](#), [486\(3\)](#), [487\(3\)](#).

With advisor's approval, [ART 496\(3\)](#), Special Topics in Art History, may substitute for a course in one of the areas.

**ART/MST 388 and ART/MST 488 may not be double-counted between an Art History and Visual Cultural option or Art History minor and a Museum Studies option, minor and/or certificate. In the event that a student is doing both the Art History and Visual Culture option and the Museum Studies option, both the Museum Studies option and the Art History minor, both the Art History minor and the Museum Studies minor, and/or certificate, or both the Art History and Visual Culture option and the Museum Studies minor, these two courses will count only for the Museum Studies option, minor, and/or certificate.*

Studio Art option (21 hours):

1. Foundations (9 hours): In addition to the Studio Art Core courses, complete nine additional hours from: [ART 100\(3\)](#), [101\(3\)](#), [110\(3\)](#), [115\(3\)](#).
2. Studio Emphasis (9 hours): In addition to the Studio Art Core courses, complete nine additional hours, chosen with approval of advisor, in one of the following studio areas: ceramics, digital arts, drawing, metals/jewelry, painting, photography, printmaking, or sculpture.
3. Art and Design electives (3 hours): In addition to the core courses, complete three additional hours, chosen with approval of advisor, in art history, design, or studio art. ART 200 cannot be used to satisfy this requirement.

Communication Courses

Communication (COM) courses

COM 100 Introduction to Majors in Communication

This course is intended for new or prospective Communication majors and minors. The course informs students about programs of study in Communication and assists students in making decisions regarding degree programs and career plans. This is an elective course that will not count towards major or minor requirements. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

COM 115 Fundamentals of Public Speaking

General Education Course (Focus on Oral Communication).

Instruction and practice in researching, composing, and delivering formal and informal speeches in a variety of public contexts. Representative topics include: ethics in public speaking; listening; library research; outlining; delivery; writing in an oral style; evaluation of public address; and analyzing and adapting to audiences. The course emphasizes informative and persuasive speaking.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	COMM 110 - Fundamentals of Public Speaking.

[Access the CORE 42 portal](#)

COM 120 Fundamentals of Debate

A survey of fundamental principles of debate, including research techniques, argument invention and construction, refutation, and strategy. This course is taught in relationship to current debate topics, and is not limited to participants on the debate team. May be repeated to a total of 12 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	COMM 220 - Argumentation and Debate.

[Access the CORE 42 portal](#)

COM 205 Interpersonal Communication Theory and Skills

Theory and practice in the principles and skills of interpersonal communication within a variety of contexts. Representative topics include: perception; self-concept development; verbal and nonverbal communication; effective listening techniques; conflict resolution; and sensitivity to cultural and gender differences.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	COMM 120 - Interpersonal Communication.

[Access the CORE 42 portal](#)

COM 206 Introduction to Health Communication

An introductory survey of contemporary health communication issues, including patient-provider communication, health ethics, health organizations, health campaigns, and health and the media.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 209 Survey of Communication Theory

A survey of selected theoretical approaches to understanding mediated and non-mediated human communication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 210 Communication Research Methods

Prerequisite: COM 209.

A survey of the quantitative and qualitative methods most commonly used for research in communication. Topics include the nature of the research process; research ethics; academic vs. applied research; evaluating research; and a discussion of specific research methods such as experimental design, statistical interpretation, survey research, individual and group interviewing, sampling and polling, content analysis, ethnography, and qualitative analysis techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 260 Communicating with Cultural Competence

General Education Course (Focus on Cultural Competence).

A cultural competence-based approach to contemporary intercultural communication issues in the United States. Topics include consideration of communication practices as they relate to ethnicity, race, religion, gender, sexuality, family structure, social class, age, and ability.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	SBSC 101 - Introduction to Intercultural Communication.

[Access the CORE 42 portal](#)

COM 300 Professional Development in Communication

Prerequisite: COM 115 and COM 209.

This course assists Communication students to assess their abilities and qualifications, to research professional opportunities, and to prepare for job searching and career planning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

COM 305 Service Learning in Communication

Prerequisite: 30 hours and concurrent registration in a communication course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in communication to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

COM 307 Gender and Communication

This course examines theory and research on gender and communication. Its purpose is to help students explore how gender and communication are interrelated, how these concepts intertwine with other aspects of our identities, and how these factors play out in their own lives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 309 Principles of Public Relations

Recommended Prerequisite: COM 115 and COM 209. Study of the development, planning, and implementation of communication programs and campaigns. Emphasis on the professional practices and ethical standards important to effective communication within organizations, and between organizations and their publics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 311 Introduction to Conflict Resolution Studies

This course surveys the causes and nature of conflict, the role of communication skills in conflict management, formal and informal conflict resolution/management processes and techniques, careers in conflict management, and professional ethics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 315 Advanced Speaking in Professional Settings

Prerequisite: COM 115.

An advanced course focused on developing competence in a variety of professional speaking situations. Content areas include speaking in live and mediated contexts, interacting with an audience, and providing feedback to others.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 320 Principles of Advanced Debate

A survey of principles of debate, including counterplans, criticism, deep refutation, and other advanced strategies. This course is taught in relationship to current debate topics, and is not limited to participants on the debate team. May be repeated to a total of 12 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 321 Inter-Collegiate Debating

Open only to those chosen to debate as University representatives. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

COM 322 Introduction to Argumentation

Prerequisite: COM 115.

Fundamental theories of argument. This course will meet the secondary teaching certification requirements for a minimum of 2 semester hours in debate. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 325 Nonverbal Communication

This course examines the methods of research in nonverbal communication, the types or subcodes of nonverbal behaviors, and the application of nonverbal behaviors in social situations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 326 Effective Listening

Prerequisite: COM 115 and COM 209.

The purpose of this course is to prepare the student to understand listening attitudes and behavior and to build a program for improvement in listening skills through application of listening theory to practical situations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 328 Persuasion

Prerequisite: COM 115.

Recommended Prerequisite: COM 209 and COM 210. Modern theories of persuasion with some evaluation of specific case studies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 332 Small Group Communication

Prerequisite: COM 115 and COM 209.

Recommended Prerequisite: COM 210. Basic theory and techniques of oral interaction in group activities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 336 Communication in Organizations

Prerequisite: COM 115 and COM 209.

Recommended Prerequisite: COM 210. Analysis of communication processes as they occur within organizations. Students study both the effects of the organizational context on communication as well as the role of communication in shaping organizational life and effectiveness.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 338 Communication Strategies for Recruitment in Organizations

Prerequisite: COM 115.

This course will examine communication as a tool for successful recruitment (e.g., interviewing and networking) in organizations. This specialty course will advance students' ability to be competitive for various careers and to be knowledgeable of the role of communication in career-related strategies. Students will develop skills to be applied as both an applicant and an employer. Topics include: phases of the interview process, event and career networking, employment research strategies, and applicant presentation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 350 The Rhetorical Tradition and Contemporary Applications

Prerequisite: COM 115 and COM 209 and COM 210.

A survey of rhetorical theories and methods from the classical period until present. The relevance of the rhetorical tradition to contemporary communication theory and practice is stressed. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 360 Intercultural Communication Theory and Research

Prerequisite: COM 209 and COM 210 and COM 260.

A survey of intercultural communication theory, research, and contemporary applications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 368 Communicating Culture and Identity

Prerequisite: COM 260.

This course is a communication-based exploration of U.S. cultural diversity, including the study of ethnicity, gender, sexuality, class, cultural ritual, custom, everyday conversation, and social interaction as manifestations of cultural diversity. This course may be taught from a variety of perspectives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 379 Writing for Public Relations

Recommended prerequisite: JRN 270. Study and preparation of copy for press releases, newsletters, brochures, annual reports, and other written public relations communications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 390 Communication and Aging

Communication theories as they apply to the aging process. Examination of the effects of communication on the self-esteem, self-perception, well-being, and quality of life of the elderly. Study of communication between the elderly, the elderly and the young, and the elderly and their caregivers in a variety of contexts, including in one-on-one, family, and mediated situations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 397 Topics in Communication

A course covering a single topic within the field of Communication; subject will vary according to student demand and faculty availability. Examples include Conflict and Conflict Management, and Gender Differences. May be repeated up to a total of 6 hours with permission of department. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

COM 405 Interpersonal Communication

Prerequisite: COM 115 and COM 205 and COM 209.

Recommended Prerequisite: COM 210. A survey of contemporary interpersonal communication theories and issues within a variety of contexts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

COM 417 Teaching of Speech and Theatre

Prerequisite: EDC 350, SPE 340, EDT 365, 12 hours in communication and 12 hours in theatre.

Scope and objectives of the speech and theatre program in secondary schools; organization and administration of curricular and co-curricular programs; general instruction methodology. Completion of Checkpoint II for the Professional Portfolio is a component of this course. This course is recommended to be completed the fall semester before student teaching. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take COM 490 or COM 491. Cannot be taken Pass/Not Pass. Identical with THE 417. Cannot receive credit for both COM 417 and THE 417.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 436 Communication and Leadership

Prerequisite: COM 115; and 60 hours.

In-depth study of the relationship between communication and leadership within organizations and the development of specific communication competencies associated with effective leadership.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 437 Advanced Organizational Communication

Prerequisite: COM 115 and COM 209 and COM 336; and 60 hours.

In-depth examination of a specific organizational communication topic. Topics will vary from semester to semester and may include: Conducting a Communication Audit, Communication Training and Development, Symbolism in Organizations, Interorganizational Collaboration and Communicating Organizational Change. Public Affairs Capstone Experience course for Organizational Communication majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 439 Techniques and Cases in Public Relations

Prerequisite: COM 210 and COM 309.

Recommended Prerequisite: COM 336. Communication theories and techniques of message preparation as applied to the function of organizational promotion.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 459 Social Media Analytics for Public Relations

Prerequisite: COM 115 and COM 209; and Communication majors must complete COM 210.

This course focuses on the application of social media monitoring tools and teaches students to become social media analysts to create real-time content and engagement with various publics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

COM 468 Ethnography in Communication Research

Prerequisite: COM 260 and COM 360; and declared Intercultural Communication major.

This course focuses on the study and application of ethnography in communication as a research method. The course serves as the capstone for the Intercultural Communication major.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 469 Global Public Relations

This course develops an understanding of the global perspective of public relations with an emphasis on corporate and agency public relations practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

COM 479 Strategic Communication for Events

The foundational application of communication theories in the area of social, professional, recreational, personal, educational, and commercial special events. This course offers a comprehensive study of staging, implementing, budgeting and marketing activities in an event-centered society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

COM 490 Supervised Teaching (Secondary Speech and Theatre)

Prerequisite: COM 417; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in COM 491.

Student observes then teaches speech and theatre classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Cannot count toward the major GPA. Identical with THE 490. Cannot receive credit for both COM 490 and THE 490.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

COM 491 Supervised Teaching (Secondary Speech and Theatre)

Prerequisite: Concurrent enrollment in COM 490.

Student observes then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Cannot count toward the major GPA. Cannot receive credit for both COM 491 and THE 491. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

COM 493 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

COM 494 Conflict Internship

Prerequisite: COM 205 and COM 311 and COM 511 or COM 521; and permission of instructor.

This course allows students an applied opportunity to integrate theoretical material on conflict and dispute resolution in a variety of contexts in which conflict occurs. Meeting minimum prerequisite requirements does not

guarantee internship placement. May be repeated to a maximum of six hours with permission of the Internship Coordinator. May be taught concurrently with COM 794. Cannot receive credit for both COM 494 and COM 794.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

COM 495 Communication Internship

Prerequisite: 60 hours; and COM 115 and COM 209; and nine additional COM hours; and major/minor minimum GPA of 3.00; and declared Communication major or minor or declared undergraduate certificate in Conflict and Dispute Resolution; and permission of Internship Coordinator.

Supervised pre-professional field experience related to communication studies. Meeting minimum prerequisite requirements does not guarantee internship placement. May be repeated to a maximum of 6 hours with permission of Internship Coordinator. No more than three hours may be applied to a Communication minor. No more than one hour may be applied to the Undergraduate Certificate in Conflict and Dispute Resolution. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

COM 496 Independent Study in Communication

Prerequisite: COM 115 and COM 209; and permission of instructor.

Supervised independent study exploring in-depth selected areas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

COM 500 Service Learning in Communication

Prerequisite: permission of instructor and concurrent enrollment in a communication, media, or journalism course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in communications to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated. May be taught concurrently with COM 600. Cannot receive credit for both COM 600 and COM 500.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

COM 506 Family Communication

This course is intended to provide students with an in-depth examination of communication as it functions in family systems. May be taught concurrently with COM 607. Cannot receive credit for both COM 607 and COM 506.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 507 Health Communication and Culture

The examination of intercultural communication concepts in the health care context. Emphasis will be on understanding the health needs of diverse populations, Western health practices, non-Western health practices, and the conflicts that can emerge when cultures collide. May be taught concurrently with COM 604. Cannot receive credit for both COM 507 and COM 604.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

COM 508 Patient-Provider Communication

This course explores the nature of patient-provider interactions in health care contexts. Emphasis is placed on traditional and non-traditional health care providers, their patients, and interpersonal communication theories specific to health care interactions. May be taught concurrently with COM 608. Cannot receive credit for both COM 508 and COM 608.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

COM 509 Communication Campaigns

Prerequisite: permission of instructor.

This course is designed to provide students with hands-on experience researching, planning, executing, and evaluating communication campaigns with actual clients. Variable content course. May be repeated once for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 511 Conflict and Communication

Equips students to understand the dynamics of interpersonal conflict and its resolution in a variety of community settings. Students will learn to analyze their own conflict styles and to develop self-regulation strategies for collaborative outcomes. The course covers conflict theory and research and allows opportunities to apply this information to current issues in community and organizational settings and within diverse populations. Lectures/discussions by scholars, community leaders, and/or agency personnel who deal with conflict as well as simulations of conflict situations will be provided. The Public Affairs Capstone Experience for students in the Conflict and Interpersonal Communication major will be fulfilled by completion of COM 511. May be taught concurrently with COM 611. Cannot receive credit for both COM 611 and COM 511.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 512 Communication and Diversity in the Workplace

Exploration of current theory and research regarding communication and diversity in the workplace. Study of practical applications for the assessment and training of communication skills relative to culture, race, sex, age, disability, sexual orientation and other diversity issues. Emphasis is placed on improving understanding of communication similarities and differences among diverse population groups. Includes readings, class discussion, observation, and/or class projects about assessment and training in communication skills in a diverse workplace. May be taught concurrently with COM 617. Cannot receive credit for both COM 617 and COM 512.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 513 Ethical Issues in Communication

Ethical theories and justification models are studied and then related to ethical decision making in a variety of communication contexts, including interpersonal communication, group communication, organizational communication, and public communication. The course will examine the components of good ethical decision making in communication, as well as obstacles that can stand in the way of responsible choices. May be taught concurrently with COM 619. Cannot receive credit for both COM 619 and COM 513.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 519 Bateman Competition PRSSA

Prerequisite: COM 115 and COM 209 and COM 210; and permission of instructor.

This course aims to prepare students for advanced public relations problem-solving. At the end of this course, students will research, develop and execute a strategic public relations plan by competing in the national Public Relations Student Society of America Bateman Case Study Competition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 521 Communication, Mediation, and Negotiation

Explores the communicative foundation for understanding the processes of mediation and negotiation as methods for resolving conflict, with an emphasis on interpersonal and organizational conflict. The course covers theories and concepts pertaining to mediation and negotiation, particularly alternative dispute resolution, and provides students the opportunity to apply concepts through a variety of experiential activities. May be taught concurrently with COM 621. Cannot receive credit for both COM 621 and COM 521.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 523 Contemporary Topics in Conflict

Prerequisite: COM 311 or COM 511 or permission.

An in-depth exploration of a specific topic in conflict. Topics will vary from semester to semester and may include but are not limited to the following: Dialogue and Facilitation, Conflict and Communication Coaching, Advanced Mediation, Family Conflict, Communication and Restorative Processes, Conflict Management in Schools, and Peace and Conflict. Variable content course. May be repeated to a maximum of nine hours with permission of the department. May be taught concurrently with COM 623. Cannot receive credit for both COM 523 and COM 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

COM 532 Teaching Debate

Prerequisite: COM 322.

This course prepares the student to teach various forms of debate in a high school setting. It will explore all major forms of high school debate, including CX Policy Debate, L/D Debate, parliamentary, and Public Forum debate. May be taught concurrently with COM 631. Cannot receive credit for both COM 631 and COM 532.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 534 Teaching Individual Events

Prerequisite: THE 323.

This course prepares the student to teach various individual events common in a high school setting. It will explore all major high school individual events, including Foreign and Domestic Extemporaneous Speaking, Original Oratory, Poetry, Prose, Dramatic Interpretation, Humorous Interpretation, Radio Speaking, Storytelling, and Student Congress. May be taught concurrently with COM 633. Cannot receive credit for both COM 633 and COM 534.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 536 Directing Forensics

Prerequisite: COM 532 and COM 534.

Problems in coaching and conducting forensic contests. May be taught concurrently with COM 635. Cannot receive credit for both COM 635 and COM 536.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

COM 550 Political Communication

Examination of the communication process in modern political campaigns. Emphasis is placed on the role of communication strategies and tactics in political organization, message formation, fund raising, and mass media usage. May be taught concurrently with COM 650. Cannot receive credit for both COM 650 and COM 550.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 552 Communication Technology and Politics

This course focuses on how communication technology contributes to the political process including campaigns, discourse, and information gathering. Heavy emphasis is placed on the distribution, reception, and process of political information through all communication technology, including social media, in terms of both theory and practice. May be taught concurrently with COM 652. Cannot receive credit for both COM 652 and COM 552.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 554 Presidential Rhetoric

Prerequisite: COM 115; and Communication majors must complete COM 209 and COM 210 and COM 350.

Examination of rhetoric used in governance, with a primary focus on presidential rhetoric. Emphasis is placed on history of presidential address, genre expectations for common presidential topics, political speechwriting, and rhetorical norms for legislative and judicial rhetoric. May be taught concurrently with COM 654. Cannot receive credit for both COM 554 and COM 654.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

COM 566 Social Movement Communication

Prerequisite: COM 115 and COM 209.

Examination of social movement communication with emphasis on functionalist, dramaturgic, and symbolic convergence theories. Study of movements' use of communication to generate discontent, mobilize and coordinate support, defend themselves and attack opponents, and negotiate with external groups. Critical analysis of collective actions such as student, civil rights, identity, labor, religious, feminist, lesbian/gay, and utopian movements. May be taught concurrently with COM 660. Cannot receive credit for both COM 660 and COM 566.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

COM 597 Studies in Communication Theory and Practice

In-depth examination of a specific communication topic. May vary from semester to semester and, with permission of the department, may be repeated to a total of 12 hours. Variable content course. May be taught concurrently with COM 698. Cannot receive credit for both COM 698 and COM 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 600 Service Learning in Communication Graduate Study

Prerequisite: permission of instructor and concurrent enrollment in a communication, media, or journalism course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in communications to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated. May be taught concurrently with COM 500. Cannot receive credit for both COM 600 and COM 500.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

COM 604 Health Communication and Culture

The examination of intercultural communication concepts in the health care context. Emphasis will be on understanding the health needs of diverse populations, Western health practices, non-Western health practices, and the conflicts that can emerge when cultures collide. May be taught concurrently with COM 507. Cannot receive credit for both COM 604 and COM 507.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

COM 607 Family Communication

This course is intended to provide students with an in-depth examination of communication as it functions in family systems. May be taught concurrently with COM 506. Cannot receive credit for both COM 506 and COM 607.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 608 Patient-Provider Communication

This course explores the nature of patient-provider interactions in health care contexts. Emphasis is placed on traditional and non-traditional health care providers, their patients, and interpersonal communication theories specific to health care interactions. May be taught concurrently with COM 508. Cannot receive credit for both COM 608 and COM 508.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

COM 611 Conflict and Communication

Equips students to understand the dynamics of interpersonal conflict and its resolution in a variety of community settings. Students will learn to analyze their own conflict styles and to develop self-regulation strategies for collaborative outcomes. The course covers conflict theory and research and applies these ideas to current community and organizational settings and diverse populations. Lectures/discussions by scholars, community leaders, and/or agency personnel who deal with conflict as well as simulations of conflict situations will be provided. May be taught concurrently with COM 511. Cannot receive credit for both COM 511 and COM 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 617 Communication and Diversity in the Workplace

Exploration of current theory and research regarding communication and diversity in the workplace. Study of practical applications for the assessment and training of communication skills relative to culture, race, sex, age, disability, sexual orientation and other diversity issues. Emphasis is placed on improving understanding of communication similarities and differences among diverse population groups. Includes readings, class discussion, observation, and/or class projects about assessment and training in communication skills in a diverse workplace. May be taught concurrently with COM 512. Cannot receive credit for both COM 512 and COM 617.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 619 Ethical Issues in Communication

Ethical theories and justification models are studied and then related to ethical decision making in a variety of communication contexts, including interpersonal communication, group communication, organizational communication, and public communication. The course will examine the components of good ethical decision making in communication, as well as obstacles that can stand in the way of responsible choices. May be taught concurrently with COM 513. Cannot receive credit for both COM 513 and COM 619.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 621 Communication, Mediation, and Negotiation

Explores the communicative foundation for understanding the processes of mediation and negotiation as methods for resolving conflict, with an emphasis on interpersonal and organizational conflict. The course covers theories and concepts pertaining to mediation and negotiation, particularly alternative dispute resolution, and provides students the opportunity to apply concepts through a variety of experiential activities. May be taught concurrently with COM 521. Cannot receive credit for both COM 521 and COM 621.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 623 Contemporary Topics in Conflict

An in-depth exploration of a specific topic in conflict. Topics will vary from semester to semester and may include but are not limited to the following: Dialogue and Facilitation, Conflict and Communication Coaching, Advanced Mediation, Family Conflict, Communication and Restorative Processes, Conflict Management in Schools, and Peace and Conflict. Variable content course. May be repeated to a maximum of nine hours with permission of the department. May be taught concurrently with COM 523. Cannot receive credit for both COM 523 and COM 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

COM 631 Teaching Debate

This course prepares the student to teach various forms of debate in a high school setting. It will explore all major forms of high school debate, including CX Policy Debate, L/D Debate, parliamentary, and Public Forum debate. May be taught concurrently with COM 532. Cannot receive credit for both COM 532 and COM 631.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 633 Teaching Individual Events

This course prepares the student to teach various individual events common in a high school setting. It will explore all major high school individual events, including Foreign and Domestic Extemporaneous Speaking, Original Oratory, Poetry, Prose, Dramatic Interpretation, Humorous Interpretation, Radio Speaking, Storytelling, and Student Congress. May be taught concurrently with COM 534. Cannot receive credit for both COM 534 and COM 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 635 Directing Forensics

Problems in coaching and conducting forensic contests. May be taught concurrently with COM 536. Cannot receive credit for both COM 536 and COM 635.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

COM 650 Political Communication

Examination of the communication process in modern political campaigns. Emphasis is placed on the role of communication strategies and tactics in political organization, message formation, fund raising, and mass media usage. May be taught concurrently with COM 550. Cannot receive credit for both COM 550 and COM 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 652 Communication Technology and Politics

This course focuses on how communication technology contributes to the political process including campaigns, discourse, and information gathering. Heavy emphasis is placed on the distribution, reception, and process of

political information through all communication technology, including social media, in terms of both theory and practice. May be taught concurrently with COM 552. Cannot receive credit for both COM 652 and COM 552.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 654 Presidential Rhetoric

Examination of rhetoric used in governance, with a primary focus on presidential rhetoric. Emphasis is placed on history of presidential address, genre expectations for common presidential topics, political speechwriting, and rhetorical norms for legislative and judicial rhetoric. May be taught concurrently with COM 554. Cannot receive credit for both COM 554 and COM 654.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

COM 660 Social Movement Communication

Examination of social movement communication with emphasis on functionalist, dramatic, and symbolic convergence theories. Study of movements' use of communication to generate discontent, mobilize and coordinate support, defend themselves and attack opponents, and negotiate with external groups. Critical analysis of collective actions such as student, civil rights, identity, labor, religious, feminist, lesbian/gay, and utopian movements. May be taught concurrently with COM 566. Cannot receive credit for both COM 566 and COM 660.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

COM 698 Studies in Communication Theory and Practice

In-depth examination of a specific communication topic. May vary from semester to semester and, with permission of the department, may be repeated to a total of 12 hours. Variable content course. May be taught concurrently with COM 597. Cannot receive credit for both COM 597 and COM 698.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 701 Introduction to Graduate Studies

Introduction to graduate study in communication. Topics include an overview of the field, introduction to relevant journals, library skills, professional associations, planning a program of study, and how to satisfy the research requirement.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 702 Theory and Research in Communication

Survey of communication theory, models, and research. Topics include perception, construction of meaning, language and symbol systems, interpersonal discourse, relationships, small group interaction, and organizational communication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 703 Professional Communication Skills

Prerequisite: admission to the MBA program.

This course seeks to enhance students' awareness and appreciation of communication processes in business and professional settings. An emphasis is placed on improving skills in interpersonal relations, teamwork, and professional presentation. Skills and applications related to communication competence and impression management from the individual's perspective working within the contextual enabling and constraining of organizational hierarchy are underscored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

COM 705 Health Communication

Examination of communication theory in the health care context. Emphasis will be on communication effectiveness in health care professional/client relationships, in addition to message practices in small group, organizational, and mediated health campaign settings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 706 Rhetorical Theory

The study of rhetorical theories from the pre-Socratic period to the contemporary period.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

COM 710 Contemporary Communication Education

Examination of current practices and trends in Communication Education. Graduate teaching assistants in communication are required to take this course during the first semester of the assistantship. Course is only open to graduate teaching assistants in the Department of Communication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

COM 712 Quantitative Research Methods in Communication

Quantitative research methodology in human communication. This course is designed to teach students how to read, interpret, and conduct research that uses numerical data. Some descriptive and inferential statistical analysis included. Students will design and carry out communication research using the methods they have learned.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 713 Public Relations Campaigns

This course is designed to provide students with an opportunity to explore the interface of profit and non-profit organizations with television, radio, newspapers and the internet to enhance organizational effectiveness. The course is project based focusing on developing specific media resources to meet strategic organizational communication goals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 714 Qualitative Research Methods in Communication

Qualitative research methodology in human communication. This course is designed to teach students how to read, interpret, and conduct various types of qualitative research. Students will design and carry out communication research using the methods they have learned.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

COM 716 Rhetorical Research Methods in Communication

Rhetorical criticism methodologies in human communication research. This course is designed to teach students how to read, interpret, and conduct various types of rhetorical criticism. Students will develop and complete a rhetorical criticism using the methods they have learned.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 718 Applied Communication Research Methods

Prerequisite: permission of instructor.

In-depth examination of a specific applied communication research methodology including: survey research, media criticism, communication audits, in-depth interviewing, and focus group interviewing. Topic will vary semester to semester. May be repeated but only 3 hours will count toward the degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 722 Argumentation as Communication

Argumentation as related to decision making, conflict resolution and negotiation in business, industry, government, and education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 724 Theories of Interpersonal Communication

Topics include theories, concepts, models of interpersonal communication, interpersonal discourse, relationships, resolving conflicts, verbal message analysis, interpreting nonverbal message.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 732 Theories and Concepts of Small Group Communication

Survey of theories and concepts related to communication in small groups. Topics include group development, roles, norms, leadership, cohesiveness, decision making, conflict, interaction analysis, and research approaches to small group communication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 736 Concepts and Analysis of Communication in Organizations

Advanced study of communication in organizations. Application of traditional and contemporary theories of communication and organizations in current research and practice. Particular attention is given to the symbolic nature of organizing and to the analysis of organizational culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 739 Concepts and Analysis of Public Relations

Examination of concepts which underlie practices in public relations. Analysis of current practices and issues important in public relations for corporations, not-for-profit organizations, government agencies, and educational institutions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 794 Conflict Internship

Prerequisite: 6 hours of conflict courses; admission to the graduate certificate in Conflict and Dispute Resolution; and permission.

This course allows students an applied opportunity to integrate theoretical material on conflict and dispute resolution in a variety of contexts and settings in which conflict occurs. May be taught concurrently with COM 494. Cannot receive credit for both COM 794 and COM 494.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

COM 795 Communication Internship

Prerequisite: 12 graduate hours in Communication; and permission of department.

Independent projects in the various areas of communication. May be repeated to a maximum of 6 hours with permission of the department.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

COM 796 Independent Study

Prerequisite: permission of advisor.

Study may be reading project or a practical application of theories. May be repeated to a maximum of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

COM 797 Seminar: Communication Theory

Special topics in history, theory and criticism of communication. Topic may vary from semester to semester. With permission, may be repeated for a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

COM 799 Masters Thesis

Prerequisite: completion of 9 graduate hours in communication; and permission of the Director of Graduate Studies and admission to the thesis option; and complete 3 graduate hours in research methods or be concurrently enrolled in one of the following courses: COM 712, COM 714, COM 716, or COM 718.

Independent research and study connected with preparation of thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

Minor(s)

Communication

Bachelor of Arts

Bachelor of Science

1. [COM 209\(3\)](#).
2. 12 hours of COM elective courses (six hours of which must be chosen from courses numbered 300 or higher) to bring total to at least 15 hours. COM 115 or transfer equivalent cannot be used to satisfy the 12 hours of COM electives in this minor.

A minimum of 9 credit hours not counted as requirements on any Department of Communication major or other Department of Communication minor is required for the completion of any minor in the Department of Communication.

Students with a BA or BS in any non-comprehensive communication major **may not** select any minor within the Department of Communication to meet their minor requirement.

Although a minor is not required for the BS in Socio-Political Communication, BS in Public Relations, or BSED in Speech and Theatre Education, students may select the Ethical Leadership minor in the Department of Communication as an optional minor.

Conflict and Dispute Resolution Certificate

Conflict and Dispute Resolution

This certificate provides concentrated training in conflict processes that can be applied to a variety of degree and professional areas. Students completing this program will have a better understanding of the dynamics of conflict and the skills to effectively manage conflict in a wide range of settings.

Admission requirements

To be admitted students must have completed at least 30 hours and have a minimum GPA of 3.00. Meeting the minimum application requirements does not guarantee admission to the certificate.

Program requirements (16 hours)

1. [COM 205\(3\)](#) and [COM 311\(3\)](#).
2. Complete either [COM 511\(3\)](#) or [521\(3\)](#).
3. One hour of internship experience that directly relates to conflict and its application in professional settings. Students must have completed [COM 311](#) and either [COM 511](#) or [COM 521](#) or equivalent conflict courses before enrolling in the internship. In most instances, certificate students will enroll in [COM 494](#), Conflict Internship, to fulfill the internship requirement. Other internship courses may be substituted with approval of the certificate advisor.
4. Six hours of elective credits with advisor approval. The intent of these electives is to allow students to focus on conflict processes that are specific to their professional interest area. Courses in the 6 hour elective requirement allow a more discipline specific focus than is found in the core.
5. All candidates must satisfy the [General University Certificate Requirements](#).

Interfaith Engagement Certificate

Interfaith Engagement

This certificate is jointly offered by the Department of Religious Studies and the Department of Communication and is designed to equip students to participate in interfaith activities and to increase their cultural competence with religious diversity. The program will assist students in developing the knowledge base and communication skills to engage people with different orientations in and around religion. Students who complete this certificate will acquire a background to work with religious diversity in settings in the United States and across the globe.

This certificate is administered by the Department of Religious Studies.

Program requirements (16 hours)

1. Required Core Courses (select two courses with two different course codes - 6 hours):
 - a. [COM 205\(3\)*](#) or [COM 260\(3\)*](#).
 - b. [REL 100\(3\)*](#) or [REL 210\(3\)*](#).
2. One course in Communication Skills: [COM 205\(3\)*](#), [COM 260\(3\)*](#), [COM 326\(3\)](#), [COM 332\(3\)](#), [COM 336\(3\)](#), [COM 511\(3\)](#), [COM 513\(3\)](#).
3. One course in Human Experience: [REL 100\(3\)*](#), [REL 332\(3\)](#), [REL 338\(3\)](#), [REL 346\(3\)](#), [REL 347\(3\)](#), [REL 368\(3\)](#), [REL 370\(3\)](#), [REL 378\(3\)](#), [PSY 533\(3\)](#).
4. One course in Religious Diversity: [REL 131\(3\)](#), [REL 210\(3\)*](#), [REL 330\(3\)](#), [REL 340\(3\)](#), [REL 342\(3\)](#), [REL 344\(3\)](#), [REL 350\(3\)](#), [REL 353\(3\)](#), [REL 355\(3\)](#), [REL 357\(3\)](#), [REL 360\(3\)](#).
5. Engaged Learning Experience (1 hour): [REL 399](#) Independent Study or another approved course. Students in this program select a one-credit hour course that engages them in interfaith activities outside of the classroom. The director of the certificate program will assist the student in identifying an appropriate engaged interfaith project that is consistent with the aims of the certificate. The program offers a variety of engaged learning experiences through campus and community partners. Service-Learning courses may be used to count for this requirement, subject to approval by the program director. Students may also propose their own engaged learning experience, which is subject to approval by the director of the certificate program. To request permission to enroll in the required independent study course, REL 399 or an appropriate alternative, contact the Director of the Undergraduate Certificate in Interfaith Engagement.

6. All candidates must satisfy the [General University Certificate Requirements](#).

*Courses may only apply to one area of the certificate program.

Completion requirement

Attain a GPA of 2.50 or higher in the courses used to complete the certificate requirements.

Non-profit Leadership Certificate

Non-profit Leadership

This certificate is jointly offered by the Department of Sociology and Anthropology, Department of Communication, and School of Social Work. This certificate prepares students for leadership in non-profit organizations by equipping them to take management roles in these types of organizations and by learning about the nature of non-profit organizations and essential skills for administering programs at non-profit organizations. This certificate is essential for students who envision creating a non-profit organization or plan to be involved in the development or supervision of community-based programs.

This certificate is administered by the Department of Sociology and Anthropology.

Program requirements (12 hours)

1. One course in introduction to non-profit organization from: [SOC 430\(3\)](#), [SWK 543\(3\)](#).
2. One course in non-profit leadership from: [COM 436\(3\)](#), [PLS 255\(3\)](#), [SOC 492\(3\)](#).
3. Two courses in essential skills in non-profit leadership from: [ACC 201\(3\)](#), [COM 315\(3\)](#), [COM 336\(3\)](#), [COM 566\(3\)](#), [ENG 572\(3\)](#), [GER 470\(3\)](#), [GER 480\(3\)](#), [SWK 595\(3\)](#).
4. All candidates must satisfy the [General University Certificate Requirements](#).

Organizational Communication

Organizational Communication (Non-Comprehensive)

Bachelor of Science

Major requirements (36 hours):

Note: three hours may double count in General Education requirements.

Students pursuing an Organizational Communication major (non-comprehensive) must complete a minimum of nine credit hours not counted as requirements on any other major in the Department of Communication.

1. Specific General Education requirement: [COM 115\(3\)](#).
2. Departmental requirements (9 hours): [COM 209\(3\)](#), [210\(3\)](#), [350\(3\)](#).
3. Communication practices (6 hours): [COM 205\(3\)](#), [315\(3\)](#).
4. Organizational communication requirements: [COM 332\(3\)](#), [336\(3\)](#); [360\(3\)](#) or [512\(3\)](#); [338\(3\)](#) or [436\(3\)](#); [437\(3\)](#), [511\(3\)](#) or [521\(3\)](#).
5. Public Affairs Capstone Experience will be fulfilled by completion of [COM 437\(3\)](#).
6. Minor required (or second major).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Communication

Eligible Missouri State undergraduate students may apply for admission to the Communication program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to

the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-communication.htm) (https://graduate.missouristate.edu/Catalog/prog-communication.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](/Registrar/mixedcredit.htm) (/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Professional Studies

Eligible Missouri State undergraduate students may apply for admission to the Master of Professional Studies program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/professionalstudies.htm) (https://graduate.missouristate.edu/Catalog/professionalstudies.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](/Registrar/mixedcredit.htm) (/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Speech and Theatre Education

Major(s)

Speech and Theatre Education

Bachelor of Science in Education (Certifiable grades 9-12)

Major requirements (47 hours):

Students interested in teaching speech and theatre at the secondary level may choose one of two options: One option emphasizes communication (see below) and the other emphasizes theatre (see Department of Theatre and Dance). Both options meet state certification requirements for Speech and Theatre Education.

Note: Nine hours may double count toward the General Education requirements.

Major core (35 hours):

1. Specific General Education requirements: [COM 115\(3\)](#), [MED 120\(3\)](#), [PSY 121\(3\)](#).
2. Core: [COM 115\(3\)](#), [322\(3\)](#), [532\(3\)](#), [534\(3\)](#), [536\(2\)](#); [THE 130\(3\)](#), [150\(2\)](#), [151\(1\)](#), [222\(3\)](#), [323\(3\)](#), [430\(3\)](#); [MED 120\(3\)](#).
3. Public Affairs Capstone Experience will be fulfilled by completion of [COM 491\(6\)](#).

Communication Option (12 hours):

1. [COM 205\(3\)](#), [209\(3\)](#).
2. Six hours from: [COM 307\(3\)](#), [320\(3\)](#), [321\(3\)](#), [328\(3\)](#), [332\(3\)](#), [336\(3\)](#), [350\(3\)](#), [405\(3\)](#), [511\(3\)](#), [512\(3\)](#), [521\(3\)](#); [THE 505\(3\)](#), [506\(3\)](#), [510\(3\)](#), [515\(3\)](#), [530\(3\)](#), [541\(3\)](#), [542\(3\)](#).

Professional Education requirements (32 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Teaching methods and supervised teaching (15 hours): [COM 417\(3\)](#), [490\(6\)](#), [491\(6\)](#).
2. Additional [Professional Education Required Core and Competencies](#) (17 hours).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval for supervised teaching; and recommendation for certification which includes following GPA requirements. All GPA requirements include both Missouri State and transfer grades.
 - a. at least a 2.75 GPA on all course work attempted at all colleges attended.
 - b. at least a 3.00 GPA in the certificate subject area (major field of study) which includes all courses listed under major requirements.
 - c. at least a 3.00 GPA in any additional certificate subject area.
 - d. at least a 3.00 GPA in the professional education courses which includes all courses in number 1 and 2; and no grade lower than a "C" in all professional education courses.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Program requirements and restrictions

Placement requirement

An ACT English score of 18 or higher or an SAT English score of 471 or higher will meet the prerequisite for enrolling in ENG 110. Students with an ACT English score of 17 or lower or an SAT English score of 470 or lower must enroll in ENG 100.

Restriction on use of English courses for majors and minors in the Department of English

1. English courses counted toward the major cannot be counted toward the minor.
2. English courses counted toward the major or minor cannot be counted toward the BA Fine Arts requirement.
3. With the exception of ENG 310 and ENG 321, English courses counted toward the major or minor cannot be counted toward the General Education requirements.

ENG 110 Writing I

Prerequisite: [appropriate placement score](https://www.missouristate.edu/GeneralEducation/English_Placement.htm) (https://www.missouristate.edu/GeneralEducation/English_Placement.htm) or ENG 100.

General Education Course (Focus on Written Communication and Information Literacy).

An introduction to college-level writing in which students develop critical reading and writing skills. The emphasis in reading has students locating, evaluating, and synthesizing information in an analytical and ethical manner. The emphasis in writing develops students' understanding of the ways writers generate and express ideas of different purposes to various kinds of audiences across a range of context, including social, academic, and professional. Students work on argumentation, rhetorical analysis, and editing for clarity, style, and conventions.

ENG 131 Introduction to Careers in Technical and Professional Writing

Survey of career possibilities and the job market in technical and professional writing. Consideration of document types, formats, conventions, and development processes including discourse strategies, technology tools, collaborative writing, legal and ethical obligations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Spring

ENG 184 Mini Literature

Topics in literature, such as detective fiction, Missouri writers, new fiction. Check semester class schedule for topics offered. Course may be repeated, provided topic and title are different, to a maximum of 6 hours. May be counted toward General Education Humanities requirement for those following a general education catalog prior to fall 1997. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

ENG 190 Language Skills

Development of specific writing skills in selected areas of composition, such as sentence grammar and structure, punctuation and capitalization, spelling, diction and dictionary use, outlining and organization. Not a composition course. Check semester class schedule to determine topics being offered. Course may be repeated, provided topic and title are different, to a maximum of 3 hours. Will not satisfy the general education requirement in English. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

ENG 191 Grammar Skills

Development of specific skills in American English grammar (including sentence structure, punctuation, capitalization, spelling, and diction). Students will explore and discuss grammar and usage in written communication. Not a composition course. Cannot be used to satisfy any General Education requirement in English or any requirement in the Bachelor of Science in Education degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

ENG 200 Great Books and Instant Classics

General Education Course (Focus on Humanities).

The works that society calls its "great books" tell us much about how the society views itself. Popular forms of linguistic expression, though sometimes less celebrated, similarly reflect a culture's sense of itself. Examining a range of texts, time-honored and otherwise, from numerous critical perspectives, this course explores how literatures reflect the values of the societies that create and enjoy them. Appropriate for students in all majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring, Summer	LITR 100 - Introduction to Literature.

[Access the CORE 42 portal](#)

ENG 201 Public Issues in Popular Culture

Prerequisite: 12 hours.

General Education Course (Focus on Public Issues).

A writing-intensive course that examines contemporary public issues through a variety of cultural expressions, from fiction, poetry, television and comics, to political discourse, folklore, web-based media, and song lyrics, among other popular genres. Exploring issues from these multiple viewpoints, the course will investigate the various underlying value systems that both inform the rhetorical construction of the texts and influence the attitudes and behaviors of their readers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 203 Creative Writing: Poetry

Prerequisite: ENG 110.

General Education Course (Focus on the Arts).

Introduction to the theory, art, cultural context, craft, and process of poetry writing. Analysis of the full stylistic range of the modern poem and practical experience in writing in the form, with focus on the process form of writing through revision and the collaborative workshop experience.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent

ENG 287 Life Stages in Literature

Prerequisite: ENG 110.

Study of poetry, fiction, drama, biography, and autobiography selected to explore how factors such as historical era, ethnicity, religion, social class, family structure, and gender shape one's experience of life stages; emphasis on class discussion and various kinds of writing, some of it autobiographical; an introductory literature course for English majors and non-majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 289 Literature, Culture, and Conflict

General Education Course (Focus on Cultural Competence).

This course explores how literature imagines cultural identities, conflicts within and between cultural groups, and efforts to resolve these conflicts. For the purposes of this course, culture will be understood in terms of such categories as nation, region, language, race, ethnicity, religion, social class, family structure, gender, sexuality, age, and disability. Through the critical analysis of literature and through personal reflection on literary texts, students will learn to recognize, describe, and understand their own and others' cultures, the histories of these cultures, and their divergences and convergences. Students will also consider how knowledge of multiple cultures can form a foundation for ethical decision-making and action in a variety of public arenas. Appropriate for student in all majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	LITR 105 - Multicultural Literature.

[Access the CORE 42 portal](#)

ENG 291 Introduction to Teaching English to Speakers of Other Languages TESOL

Prerequisite: ENG 110 and 30 hours; and concurrent enrollment in ENG 300.

Introduction to basic concepts in Teaching English to Speakers of Other Languages (TESOL), including bilingualism, second language acquisition, current methods and materials used to teach ESOL, and language policy in the U.S.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Spring

ENG 296 Introduction to Linguistics

Prerequisite: ENG 110.

Introduction to fundamental concepts of linguistic theory as they apply to languages of the world, especially English. Areas covered include phonology, morphology, syntax, and semantics, and some applied areas, such as language variation, change, and acquisition, disorders, and language and culture. Students cannot receive credit for both ENG 296 and ENG 591.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 300 Service Learning in English

Prerequisite: 30 hours and concurrent registration in an English course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in English. It provides an integrated learning experience, addressing the practice of citizenship and promoting an awareness of and participation in public affairs. It includes 40 hours of service that benefits an external community organization, agency or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

ENG 301 Seminar in English Studies and Public Affairs

Prerequisite: ENG 235; and must be taken in the senior year or by permission (with a minimum of 75 hours completed).

Explores how literature shapes and is shaped by public debates, cultural heritages, and community needs. Course Unit 1, "Writers, Writing, and Leadership," examines writers' and literary institutions' interventions in crises of leadership, types of writing that have developed to fill voids in leadership, and/or, literary representations of leadership. Unit 2, "Writing Cultures and Intercultural Encounters," considers writers' efforts to imagine or

represent cultures and cross-cultural relations. Unit 3, "Texts and Their Communities," focuses on the relations between texts and their audiences, the development of literary communities and institutions, and/or the process of writing or editing a text for a particular local community. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 302 English Transfer Student Orientation

Designed to acclimate transfer students into the English Department by helping them to achieve academic success and by integrating the public affairs mission into their studies. For sophomore, junior, and senior transfer students with declared English Department majors during their first two semesters at Missouri State who have not taken CEP 101/UHC 110. Transfer students with declared English minors are also eligible to enroll. Cannot be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

ENG 303 Creative Writing: Poetry II

Prerequisite: ENG 203.

An intermediate course, aimed at developing skills and extending knowledge begun in ENG 203.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 305 Creative Writing: Nonfiction II

Prerequisite: ENG 205.

Intermediate study in the nonfiction genre. Variable content course with a focus in a specific subgenre of nonfiction, such as memoir, travel writing, personal cultural criticism, and narrative nonfiction. Students will read and analyze works and write within the subgenre. May be repeated to a total of 6 hours when the topic varies. Approved Recurring Topic: Memoir. Focused study of the craft of memoir. This course will introduce students to the various subgenres of memoir, including book-length memoir, graphic memoir, flash nonfiction, and traditional short memoir as published in literary magazines or collections, to prepare students' writing for a variety of opportunities in literary publication. Students will participate in a workshop environment to develop original memoirs. Approved Recurring Topic: Narrative Nonfiction. Focused study of the craft of narrative nonfiction. This course will introduce students to the various characteristics of narrative nonfiction, including book-length and

shorter works. Students will participate in a workshop environment to develop original works of narrative nonfiction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 310 Writing II: Writing for Graduate and Professional Schools

Prerequisite: 45 hours and ENG 110 or equivalent.

General Education Course (Focus on Written Communication and Integrative and Applied Learning).

Practice in writing genres common to both graduate and graduate/professional school writing, including documented research writing and proposals (including significant work examining current problems through cross-disciplinary viewpoints), letters of application, admission essays, and vitae.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 312 Introduction to Shakespeare

Prerequisite: ENG 110.

Selected representative plays and poems of Shakespeare.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 315 Creative Writing: Fiction II

Prerequisite: ENG 215.

Intermediate-level work in short story writing. Introduction to the theory, techniques, and terminology of novella and novel writing. Individual conferences.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 316 Graphic Narrative II

Prerequisite: ENG 216 or permission of instructor.

Intermediate study in the literature and technique of graphic narrative and practical experience in writing and illustrating comics. Identical with ART 320. Cannot receive credit for both ENG 316 and ART 320.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 321 Writing II: Beginning Technical Writing

Prerequisite: 45 hours and ENG 110 or equivalent.

General Education Course (Focus on Written Communication and Integrative and Applied Learning).

Experience in community engagement through client-based projects in which students synthesize information and apply skills learned in this and other classes. Using primary and secondary research, students solve problems by developing employment materials, brochures, instructions, graphics, manuals, or other professional documents. Emphasis on audience analysis, including multicultural considerations, as well as on presenting information clearly, concisely, and ethically in both prose and visuals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 322 Advanced Writing for Social Change

Prerequisite: ENG 222.

Students will expand upon advocacy writing principles learned in ENG 222 by creating materials to address social problems. Students will evaluate advocacy campaigns of existing nonprofit organizations. Students will create advocacy materials through an integrated service learning experience.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 323 Literature of Sequential Art

Prerequisite: ENG 110.

An overview of the literature of graphic narrative (also known as comics/sequential art) from proto-comics to the graphic novel. Identical with DES 323. Cannot receive credit for both DES 323 and ENG 323.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 325 Creative Writing Playwriting II

Prerequisite: ENG 225.

Intermediate-level work in playwriting. Analysis of dramatic structure. Practice in writing one-act and full-length scripts. Workshop staged readings of student scripts. Marketing strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 326 Advanced Argument Writing

Prerequisite: 12 hours.

Study and practice in developing persuasive written argument through the use of rhetorical strategies to articulate various positions to specific audiences. Focus on the understanding and use in writing of evidence, experience, opinion, and reasoning, including an understanding of several rhetorical strategies such as burden of proof; generalization; analogy; authority; equivocation; oversimplification; slippery slope and ad hominem argument.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 330 Studies in Literature

Prerequisite: ENG 110.

Examination of literary modes such as humor, satire, fantasy, tragedy, or genres such as essay, short story, biography. May be repeated for up to 6 hours with variable topics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 334 Literature for Children

Prerequisite: ENG 110.

Study of various genres-poetry, picture books, traditional stories, modern realistic and fantasy fiction, nonfiction--appropriate for early childhood and elementary grades; criteria for selection. Satisfies a requirement for Early Childhood and Elementary Certification.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 336 Literature for Middle School

Prerequisite: ENG 110.

Study of various genres-poetry, illustrated books, modern realistic and fantasy fiction, drama, nonfiction--appropriate for middle school (grades 5-9); criteria for selection.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 338 Literature for Young Adults

Prerequisite: ENG 110 and 60 hours.

Study of various genres-poetry, realistic and fantasy fiction, nonfiction, drama, film--appropriate for secondary school; criteria for selection. Satisfies a requirement for Secondary English Certification.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 339 Writing for Children and Young Adults

Prerequisite: ENG 110.

Introductory practice writing in genres such as literary folk tales, fantasy, realistic fiction, nonfiction, picture book texts, and poetry for young readers at different stages of maturity. Emphasizes the writing process as well as the final product.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 340 Survey of English Literature I

Prerequisite: ENG 110.

Representative authors, movements, ideas, and styles in English literature from the beginning to 1790.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	LITR 102A - British Literature-Beginning to 18th Century.

[Access the CORE 42 portal](#)

ENG 363 Introduction to African Literature

Prerequisite: ENG 110.

Survey of representative works of fiction, poetry, drama, folklore, personal narratives, and essays from various countries on the African continent written in or translated into English. Identical with AAS 363. Cannot receive credit for both ENG 363 and AAS 363.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 366 Popular Fiction

Prerequisite: ENG 110 or equivalent.

Reading and discussion of such popular fiction genres as detective/crime, romance, sci-fi/fantasy, horror, Western, and/or espionage. Some attention to these fictions' histories, connections to other popular culture, and relationships to "literary" fiction

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 373 Writing with Technology

Prerequisite: ENG 110 or equivalent; and 45 hours.

Explores the ethical use of software and hardware tools that professional writers use in the workplace to create and distribute technical information. Students will produce projects to gain a hands-on understanding of the tools used in developing online help and printed documentation, working with graphics, and other relevant areas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 377 Scientific and Technical Editing

Prerequisite: ENG 110 and 60 hours.

The process of creating a new piece of writing by clarifying, reducing, expanding, and synthesizing materials written by others. Emphasis on audience adaptation; professional ethics; and document organization, style, and mechanics through a client-based editing project. Focus on building author-editor relationships while managing the editing cycle.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 385 Ozarks Traditions

Prerequisite: ENG 283.

The course will introduce elements of folklore theory applicable to museum and performance presentation, and include reading and examination of folk worlds within the Ozarks context. Major genres covered may include ballad, legend, folk tale, and folk song.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 386 Literature of the Ozarks

Prerequisite: ENG 110.

Survey of representative works of fiction and poetry focusing on the Ozarks or Ozarks characters.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 390 Modern English Grammar

Prerequisite: 60 hours.

The structure of American English, with emphasis on current descriptive approaches to English grammar.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 405 Teaching of Middle and High School English

Prerequisite: 30 hours in English, admitted to teacher education program, and ENG 521.

Students will study theoretical perspectives about the teaching of English and develop methods for teaching and assessing literature, the English language, and media in middle and secondary English classrooms. Particular emphasis will be placed on designing units of study. A required clinical field experience under the instruction of faculty and mentorship of an experienced English classroom teachers will provide students with opportunities to engage in a cycle of planning instruction, teaching, assessing student learning, gathering feedback about the effectiveness of their instructional decision-making, and reflecting in order to adjust future instruction and professional interactions. Credited only on BEd (Secondary). A grade of "C" or better is required in this course in order to take ENG 432 or ENG 433. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6	4	2	Fall, Spring

ENG 421 Advanced Technical Writing

Prerequisite: ENG 321.

Practice in planning and managing projects. Emphasis is researched-based audience analysis, document design, and usability testing, including ethical considerations. Students complete a client-based design project and supporting documents. Emphasis on practical and marketable skills. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 422 Career Focus in Professional Writing

Prerequisite: ENG 373 and ENG 377 and ENG 421.

A capstone course emphasizing reflection and synthesis of concepts from previous courses. Focus on skills associated with the smooth transition from an academic study of professional writing to the professional workforce. Students prepare a portfolio that demonstrates their integration of course and program outcomes and complete individual research projects related to the three pillars of the Public Affairs mission, including topics ranging from ethical and legal issues to globalization and localization. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 432 Supervised Teaching (Secondary English)

Prerequisite: ENG 405; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in ENG 433.

Student observes then teaches English classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5-6			Fall, Spring

ENG 433 Supervised Teaching (Secondary English)

Prerequisite: concurrent enrollment in ENG 432.

Student observes then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities and attends both individual and group conferences. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5-6			Fall, Spring

ENG 434 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

ENG 435 Advanced Literary Theory: From Antiquity to the Present

Prerequisite: 60 hours.

Literary theory from antiquity to the present. Emphasis on history and application of contemporary literary theories / schools to writing about literature and culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 455 African American Drama

Prerequisite: ENG 110.

Study of African American drama from the antebellum period to the present, with emphasis on the intersections of dramatic art and such social and cultural movements as abolitionism, the Harlem Renaissance, and the Black Arts Movement. Identical with AAS 455. Cannot receive credit for both ENG 455 and AAS 455.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 464 English Studies Internship

Prerequisite: declared major or minor in the Department of English and permission of Internship Coordinator.

Supervised work experience related to English studies. Meeting minimum prerequisite requirements does not guarantee internship approval. Students are required to work a minimum of 45 hours for each credit hour. Students must submit applications no later than one month prior to the beginning of the semester in which they undertake the internship. Cannot be repeated more than 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

ENG 473 Writing with Technology II

Prerequisite: ENG 373.

Builds on concepts students learn in ENG 373. Students will gain hands-on practice working with more-advanced tools and features that professional writers use to produce technical documents. Topics may include, but are not limited to, desktop publishing, web-page creation, single sourcing, and accessibility.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 483 Folklore and Literature

Prerequisite: ENG 283.

Reading and examination will emphasize folklore as a definitive characteristic of varied North American literary texts. Fictional, visual, and audio texts may be examined. This course will offer readings focusing on Folklore in Literature (e.g., Children's Literature, Local Color Literature), literature presenting immigrant, ethnic, and social groups of North American regions such as the Ozarks, Appalachians, or Maritimes, or other topics of student interest.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Prerequisite: ENG 110.

Introduction to what folklore is, its types, why it varies between folk worlds; basic folklore research methods. Influence of folklore on other forms of literature.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 487 Analysis of Scientific Literature

Prerequisite: ENG 110 and 60 hours.

Examines the history and development of scientific writing. Students survey a broad selection of scientific literature to better understand the cultural and ethical implications of science writing as they apply to both the field of scientific and technical writing and the broader society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 491 History of the English Language

Prerequisite: 60 hours.

Historical development of the English language from its Indo-European roots to present-day American English. Considers written language as a source of evidence, language as a cultural artifact, and the dynamics of linguistic/cultural contact.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 494 Dialects of American English

Prerequisite: 60 hours.

Regional, social, and ethnic variation in American English. Incorporates linguistic geography and sociolinguistic approaches, and considers relevant political and educational issues.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 500 Advanced Writing: Nonfiction

Prerequisite: ENG 305 or ENG 321.

Group discussion and criticism. Individual writing projects. Students lacking a course prerequisite must submit two manuscripts for consideration when applying for permission. May be organized around one or more of the following nonfiction genres: creative nonfiction, magazine writing, and popular science writing. May be repeated for a total of 6 hours. May be taught concurrently with ENG 604. Cannot receive credit for both ENG 604 and ENG 500.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 501 Advanced Writing: Fiction

Prerequisite: ENG 315.

Group discussion and criticism. Individual writing projects. Students lacking the course prerequisite must submit two manuscripts for consideration when applying for permission to enroll in the course. May be repeated to a total of 6 hours. May be taught concurrently with ENG 601. Cannot receive credit for both ENG 601 and ENG 501.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 503 Advanced Writing: Poetry

Prerequisite: ENG 303.

Group discussion and criticism. Individual writing projects. Students lacking the course prerequisite must submit two manuscripts for consideration when applying for permission to enroll in the course. May be repeated to a total of 6 hours. May be taught concurrently with ENG 607. Cannot receive credit for both ENG 607 and ENG 503.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 505 Methods in Teaching English to Speakers of Other Languages TESOL

Prerequisite: ENG 595.

Contemporary approaches to teaching grammar, reading, writing, listening, and speaking for students who are learning English as a second language. Includes material design, development, and evaluation; student assessment; integration of all components into a unified TESOL curriculum. May be taught concurrently with ENG 605. Cannot receive credit for both ENG 605 and ENG 505.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 506 Advanced Writing: Drama

Prerequisite: ENG 225.

Group discussion and criticism. Individual writing projects. Students lacking a prerequisite must submit two manuscripts for consideration when applying for permission to enroll in the course. May be repeated to a total of 6 hours. May be taught concurrently with ENG 606. Cannot receive credit for both ENG 606 and ENG 506.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 508 Creative Writing Project

Prerequisite: ENG 500 or ENG 501 or ENG 503.

Directed development of a substantial work of poetry, fiction, or non-critical prose, prepared for publication. May be taught concurrently with ENG 609. Cannot receive credit for both ENG 609 and ENG 508.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 510 Chaucer

Prerequisite: 60 hours.

The Canterbury Tales and other works by Chaucer; social, historical, literary, and linguistic background of late Middle Ages. May be taught concurrently with ENG 615. Cannot receive credit for both ENG 615 and ENG 510.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 512 The British Novel

Prerequisite: 60 hours.

Works by major figures in the development of the British novel, such as Fielding, Austen, Dickens, George Eliot, Hardy, Lawrence, and Woolf; major criticism of the genre. May be taught concurrently with ENG 618. Cannot receive credit for both ENG 618 and ENG 512.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 513 Shakespeare

Prerequisite: 60 hours.

Selected plays and poems of Shakespeare, representative criticism, and Shakespeare's theatre and milieu. May be taught concurrently with ENG 613. Cannot receive credit for both ENG 613 and ENG 513.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 514 British Drama

Prerequisite: 60 hours.

Representative British plays from pre-Renaissance times to present, including such authors as Marlowe, Congreve, Wilde, and Shaw. May be taught concurrently with ENG 614. Cannot receive credit for both ENG 614 and ENG 514.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 517 The American Novel

Prerequisite: 60 hours.

Works by major figures in the development of the American Novel, such as Twain, James, Howells, Dreiser, Lewis, Hemingway, Faulkner, and Warren; major criticism of the genre. May be taught concurrently with ENG 617. Cannot receive credit for both ENG 617 and ENG 517.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 519 American Drama

Prerequisite: 60 hours.

Development of American Drama to the present; emphasis on 20th century, including such authors as O'Neill, Wilder, Hellman, Williams, Miller, and Albee; major criticism of the genre. May be taught concurrently with ENG 619. Cannot receive credit for both ENG 619 and ENG 519.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 520 Composition and Rhetoric in High School and Junior College

Prerequisite: ENG 235; and admitted to the Teacher Education Program.

A survey of current writing and evaluation practices. Training in the teaching and evaluating of oral and written composition. The student will have an opportunity to examine methods currently taught in area high schools. May be taught concurrently with ENG 629. Cannot receive credit for both ENG 629 and ENG 520.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 521 Writing for Teachers

Prerequisite: 60 hours.

A course intended to develop the writing of prospective and in-service teachers and to explore the means by which writing can be encouraged, developed, and assessed. May be taught concurrently with ENG 631. Cannot receive credit for both ENG 521 and ENG 631.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 523 Writing Center Theory and Practice

Prerequisite: 60 hours.

Collaborative workshop designed to prepare individuals for teaching one-to-one in a writing center environment. May be taught concurrently with ENG 623. Cannot receive credit for both ENG 623 and ENG 523.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 525 History of Rhetoric

Prerequisite: 60 hours.

Study of historical trends important to the development of written discourse and writing instruction. Survey of theory from classical antiquity through the nineteenth century. May be taught concurrently with ENG 627. Cannot receive credit for both ENG 627 and ENG 525.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 526 Rhetorics for the 21st Century

Prerequisite: 60 hours.

Study of rhetorical theory and argument in civic, private, professional and digital spaces. Application may include, but is not limited to, literary criticism, literacy, technical writing and composition. May be taught concurrently with ENG 628. Cannot receive credit for both ENG 526 and ENG 628.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 533 Studies in Children's Literature

Prerequisite: 60 hours.

A study of significant themes (such as gender, ethnicity, or childhood) or genres (such as children's poetry, the picture book, and the literary folktale and historical fiction) in literature for the young. May be repeated when content varies. May be taught concurrently with ENG 633. Cannot receive credit for both ENG 633 and ENG 533.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 534 Historical Perspectives in Children's Literature

Prerequisite: 60 hours.

Study of one or more periods in the historical development of children's literature, such as the Golden Age of children's classics, twentieth-century British children's literature, and the novels for children since 1950. Variable content course. May be repeated when content varies. May be taught concurrently with ENG 634. Cannot receive credit for both ENG 634 and ENG 534.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 536 Young Adult Novel

Prerequisite: 60 hours.

Study of various kinds of novels written for young people; includes historical perspectives; emphasizes developments since the "New Realism" of the 1960s. May be taught concurrently with ENG 636. Cannot receive credit for both ENG 636 and ENG 536.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 539 Advanced Writing for Children and Young Adults

Prerequisite: ENG 339.

Group discussion and criticism. Individual writing projects. Students lacking the course prerequisite must submit two manuscripts for consideration when applying for permission to enroll in the course. May be taught concurrently with ENG 639. Cannot receive credit for both ENG 639 and ENG 539.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 540 Small Press Production

Prerequisite: 60 hours.

Introduction to the world of small press publishing. A Moon City Press publication project will be executed from inception to official publication, covering all the steps leading to completion. Steps include manuscript review, contracting, editing, design, marketing, and distribution. Student participants will be designated as official editors of the project. Variable content course. May be repeated to a total of six hours with permission and when projects change. May be taught concurrently with ENG 640. Cannot receive credit for both ENG 540 and ENG 640.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 541 Renaissance Literature

Prerequisite: 60 hours.

Sidney, Spenser, Donne, Milton, and other major non-dramatic writers; literary developments, 1500-1660. May be taught concurrently with ENG 641. Cannot receive credit for both ENG 641 and ENG 541.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 543 Restoration and 18th Century Literature

Prerequisite: 60 hours.

Dryden, Swift, Pope, Johnson, and other significant writers; literary developments, 1660-1798. May be taught concurrently with ENG 643. Cannot receive credit for both ENG 643 and ENG 543.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 544 British Romantic Literature

Prerequisite: 60 hours.

Blake, Wollstonecraft, Dorothy Wordsworth, William Wordsworth, Coleridge, Byron, Mary Shelley, Percy Bysshe Shelley, Keats; cultural backgrounds and literary developments, 1798-1837. May be taught concurrently with ENG 642. Cannot receive credit for both ENG 642 and ENG 544.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 546 Victorian Literature

Prerequisite: 60 hours.

Tennyson, Browning, the Rossettis, Hardy, and other British Victorian writers; literary developments, 1837-1901. May be taught concurrently with ENG 646. Cannot receive credit for both ENG 646 and ENG 546.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 547 Modern British Literature

Prerequisite: 60 hours.

Significant works from several genres by authors such as Conrad, Yeats, Greene, Lessing, and Stoppard; literary developments, 1901-present. May be taught concurrently with ENG 645. Cannot receive credit for both ENG 645 and ENG 547.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 548 Major British Authors

Prerequisite: 60 hours.

Study of several major works by one or two British writers, such as Marlowe and Jonson, Johnson and Boswell, George Eliot and Hardy, Yeats and T.S. Eliot, Amis and Larkin; the intellectual milieu of their works. May be taught concurrently with ENG 649. Cannot receive credit for both ENG 649 and ENG 548.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 551 Literary Publication

Prerequisite: ENG 303 or ENG 315 or ENG 325.

Practical experience with the literary publication process, including the editing work that goes into literary journals and the process of submitting and publishing creative work. Students will be introduced to such various aspects of the literary market and other opportunities for creative writers, as conferences and writing workshops. Students will learn about the publishing process through such University publications projects as the English Department's Moon City Press. May be taught concurrently with ENG 651. Cannot receive credit for both ENG 551 and ENG 651.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 553 American Romantic Literature

Prerequisite: 60 hours.

Significant works from several genres by authors such as Cooper, Poe, Irving, Thoreau, Emerson, Hawthorne, Melville, and Whitman; literary developments to 1855. May be taught concurrently with ENG 652. Cannot receive credit for both ENG 652 and ENG 553.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 554 Topics in Ethnic American Literature

Prerequisite: 60 hours.

Focus on one or more of the following: African American literature, Asian American literature, Latina/o literature, Native American literature, the literatures of European American immigrant groups, and relevant literary criticism. May be repeated up to 6 hours if content varies. May be taught concurrently with ENG 654. Cannot receive credit for both ENG 554 and ENG 654, for the same course content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

ENG 557 American Realism

Prerequisite: 60 hours.

Significant works from several genres by authors such as Twain, Howells, James, Crane, and Frost; literary developments, 1855-1914. May be taught concurrently with ENG 656. Cannot receive credit for both ENG 656 and ENG 557.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 558 Major American Authors

Prerequisite: 60 hours.

Study of several major works by one or two writers, such as Emerson and Thoreau, Frost and Dickinson, Sexton and Lowell; the intellectual milieu of their works. May be repeated when content varies. May be taught concurrently with ENG 661. Cannot receive credit for both ENG 661 and ENG 558.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 559 Modern American Literature

Prerequisite: 60 hours.

Significant works from several genres by authors such as Fitzgerald, Hemingway, Lowell, Roethke, Bellow, and O'Connor; literary developments, 1914-present. May be taught concurrently with ENG 659. Cannot receive credit for both ENG 659 and ENG 559.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 562 Contemporary American Poetry/Fiction

Prerequisite: 60 hours.

A survey of contemporary American poetry or fiction, which encompasses a selection of significant authors and traces the history and development of various literacy theories, schools and movements, from New Criticism through more recent trends in both narrative and lyric modes (poetry) and Post-Modern narrative techniques (fiction). Variable content course. May be repeated up to 6 hours if topic is different. May be taught concurrently with ENG 662. Cannot receive credit for both ENG 562 and ENG 662 unless topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 563 Literature and Medicine

Prerequisite: 60 hours.

This course examines literary representations of health and illness, ability and disability, and cultural practices of healing. Drawing on major theoretical movements in medical humanities, students will situate literary texts within the ethical situations and institutional structures of their community and culture. May be taught concurrently with ENG 663. Cannot receive credit for both ENG 563 and ENG 663.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 564 Place-Conscious Reading and Writing

This course emphasizes the study of place, specifically, enacting literacy practices focused upon the cultural, economic, and environment sustainability of a learning locale. Students will also explore local networking strategies and ways of spurring public action to improve their own literacy and the literacy of their students at the local or regional level. May be taught concurrently with ENG 664. Cannot receive credit for both ENG 564 and ENG 664.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

ENG 565 Literature and Language Workshop

Prerequisite: 60 hours.

Variable topics related to the use of writing and literature in the classroom. Number of class hours determined by length of workshop. May be repeated for a total of 6 hours. May be taught concurrently with ENG 665. Cannot receive credit for both ENG 665 and ENG 565.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

ENG 568 Major World Authors

Prerequisite: 60 hours.

Study of several major works by one or two writers, such as Aristophanes and Sophocles; Ibsen and Strindberg; the intellectual milieu of their works. May be repeated when content varies. May be taught concurrently with ENG 668. Cannot receive credit for both ENG 668 and ENG 568.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 570 Writing in the Health Professions

Prerequisite: 60 hours; and ENG 321 or ENG 310 or equivalent.

Rhetorical analysis and production of a broad range of document genres, including public health campaigns, grant proposals, medical reports, and patient information materials. Students research and present their findings on current issues in the field. Emphasis on audience analysis, document design principles, and ethical considerations. May be taught concurrently with ENG 678. Cannot receive credit for both ENG 678 and ENG 570.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 572 Writing Grant Proposals

Prerequisite: Writing II and 60 hours.

Studying and applying basic elements of grant-proposal writing, including identifying potential funding sources, aligning projects with goals of funders, writing a compelling statement of need, and establishing a credible method of accomplishing goals as well as a reasonable budget and timeline. Emphasis on tailoring proposals to prospective funders in concise, persuasive writing. May be taught concurrently with ENG 672. Cannot receive credit for both ENG 572 and ENG 672.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 573 Writing for the Web

Prerequisite: 60 hours.

Explores the professional writer's role in creating web pages and sites designed to deliver information. Topics include planning, user analysis, organization, structure, presentation, content development, writing style, and accessibility accommodation. May be taught concurrently with ENG 679. Cannot receive credit for both ENG 573 and ENG 679.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 574 Technical Writing Internship

Prerequisite: ENG 421 and permission of instructor.

Projects in technical writing, combining academic training and supervised work experience in business, industry, government, academia, or nonprofit organizations. Students are required to work a minimum of 135 hours. May be taught concurrently with ENG 694. Cannot receive credit for both ENG 694 and ENG 574. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 575 Topics in Professional Writing

Prerequisite: ENG 421 and 60 hours.

Covers a single topic within the field of professional writing. The subject will vary according to student demand and faculty availability. Examples include writing for the legal profession, writing proposals, regulatory writing, developing training materials, and ethics in professional writing. Approved Recurring Course Topic: Data Displays in Technical Documents. Practice in developing data displays. Students identify appropriate data displays for given contexts, use design principles to organize and display data effectively, and evaluate data displays for accuracy and ethical presentation. May be repeated to a total of 6 hours when the topic varies. Variable content course. May be taught concurrently with ENG 684. Cannot receive credit for both ENG 684 and ENG 575 unless topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 580 Gender Issues in Language and Literature

Prerequisite: ENG 110 and 60 hours.

Consideration of gender issues from the standpoint of literary history, genre, composition/rhetoric, linguistics, or feminist theory. May be repeated to a total of 6 hours if topic is different. May be taught concurrently with ENG 682. Cannot receive credit for both ENG 682 and ENG 580.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 583 Themes in Folkloristics

Prerequisite: 60 hours.

A topical course investigating the relationship of folklore and daily life through reading and examination of the field and its genres as a global discipline. Consideration of lived-environments such as occupational, educational, and popular culture settings or themes. May be repeated to a total of 9 hours if topic is different. May be taught concurrently with ENG 683. Cannot receive credit for both ENG 683 and ENG 583.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 590 Grammatical Analysis

Prerequisite: 60 hours; and ENG 296 or ENG 390 or ENG 591.

Advanced study of English morphology and syntax using a variety of current approaches, including phrase-structure, transformational, discourse-based, and semantic-based grammars. May be taught concurrently with ENG 690. Cannot receive credit for both ENG 690 and ENG 590.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 591 Linguistic Theory

Prerequisite: 60 hours.

A specialized survey of linguistics intended for graduate and advanced undergraduate students. Areas covered include, but are not limited to, phonology, morphology, syntax, semantics, discourse, pragmatics, language change, and language variation. Students cannot receive credit for both ENG 296 and ENG 591. May be taught concurrently with ENG 691. Cannot receive credit for both ENG 691 and ENG 591.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 592 Sociolinguistics for Language Teaching

Prerequisite: 60 hours; and ENG 296 or ENG 390 or ENG 591.

Various sociolinguistic topics, with an emphasis on those relevant for language teaching, such as language attitudes; standard languages; literacy; language variation; multilingualism; language planning and policy; and language maintenance and loss. May be taught concurrently with ENG 688. Cannot receive credit for both ENG 688 and ENG 592.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 593 Studies in Linguistics

Prerequisite: 60 hours; and ENG 296 or ENG 390 or ENG 591.

Topics in linguistics including history of linguistics, language acquisition, or transformational grammars. May be repeated to a total of 9 hours if topic is different. May be taught concurrently with ENG 689. Cannot receive credit for both ENG 689 and ENG 593.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 595 Principles of Second Language Acquisition

Prerequisite: 60 hours and ENG 296 or ENG 390 or ENG 591.

The processes of both first and second language acquisition, with an emphasis on Teaching English to Speakers of Other Languages (TESOL) and bilingualism. Includes the theory behind and history of TESOL methodologies, as well as contemporary theoretical issues in TESOL. May be taught concurrently with ENG 695. Cannot receive credit for both ENG 695 and ENG 595.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 596 Materials and Assessment in Teaching English to Speakers of Other Languages TESOL

Prerequisite: 60 hours and ENG 595.

Practical and theoretical perspectives in specific areas in TESOL, including speaking, grammar, composition, and critical reading. Consideration of material design and student assessment. May be taught concurrently with ENG 696. Cannot receive credit for both ENG 696 and ENG 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 597 Practicum in Teaching English to Speakers of Other Languages TESOL

Prerequisite: ENG 505 and ENG 596.

Application of coursework in TESOL with individualized experience based on students' needs and background, especially in composition, grammar, and pronunciation. May be taught concurrently with ENG 697. Cannot receive credit for both ENG 697 and ENG 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ENG 598 Early English Language and Literature

Prerequisite: 60 hours.

Special topics in Old and Middle English language and literature, including an understanding of the linguistic structure of early English, experience in working with a variety of medieval English texts, and application of various linguistic and literary theories to the study of Old and Middle English writing. May be repeated to 6 hours if topic is different. Will not count toward any teacher certification requirement. May be taught concurrently with ENG 698. Cannot receive credit for both ENG 698 and ENG 598.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 599 Advanced Seminar in Literature

Prerequisite: ENG 235, and Writing II General Education Course, and 80 hours.

Study of contemporary methodologies in literary criticism and preparation of a seminar paper, which may extend work from a previous course. Emphasis on presenting and publishing scholarly work. This course is strongly recommended for anyone considering graduate study in Literature. Graduating seniors are given enrollment priority.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 601 Advanced Writing: Fiction

Group discussion and criticism. Individual writing projects. May be repeated to a total of 6 hours. May be taught concurrently with ENG 501. Cannot receive credit for both ENG 501 and ENG 601.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 604 Advanced Writing: Nonfiction

Group discussion and criticism. Individual writing projects. May be organized around one or more of the following non-fiction genres: creative nonfiction, magazine writing, stylistics, and popular science writing. May be repeated for a total of 6 hours. May be taught concurrently with ENG 500. Cannot receive credit for both ENG 500 and ENG 604.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 605 Methods in Teaching English to Speakers of Other Languages (TESOL)

Contemporary approaches to teaching grammar, reading, writing, listening, and speaking for students who are learning English as a second language. Includes material design, development, and evaluation; student assessment; integration of all components into a unified TESOL curriculum. May be taught concurrently with ENG 505. Cannot receive credit for both ENG 505 and ENG 605.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 606 Advanced Writing: Drama

Group discussion and criticism. Individual writing projects. May be repeated to a total of 6 hours. May be taught concurrently with ENG 506. Cannot receive credit for both ENG 506 and ENG 606.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 607 Advanced Writing: Poetry

Group discussion and criticism. Individual writing projects. May be repeated to a total of 6 hours. May be taught concurrently with ENG 503. Cannot receive credit for both ENG 503 and ENG 607.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 609 Creative Writing Project

Prerequisite: permission of instructor.

Directed development of a substantial work of poetry, fiction, or non-critical prose, prepared for publication. May be taught concurrently with ENG 508. Cannot receive credit for both ENG 508 and ENG 609.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 613 Shakespeare

Selected plays and poems of Shakespeare, representative criticism, and Shakespeare's theatre and milieu. May be taught concurrently with ENG 513. Cannot receive credit for both ENG 513 and ENG 613.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 614 British Drama

Representative British plays from pre-Renaissance times to present, including such authors as Marlowe, Congreve, Wilde, and Shaw. May be taught concurrently with ENG 514. Cannot receive credit for both ENG 514 and ENG 614.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 615 Chaucer

The Canterbury Tales and other works by Chaucer; social, historical, literary, and linguistic background of late Middle Ages. May be taught concurrently with ENG 510. Cannot receive credit for both ENG 510 and ENG 615.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 617 The American Novel

Works by major figures in the development of the American Novel, such as Twain, James, Howells, Dreiser, Lewis, Hemingway, Faulkner, and Warren; major criticism of the genre. May be taught concurrently with ENG 517. Cannot receive credit for both ENG 517 and ENG 617.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 618 The British Novel

Works by major figures in the development of the British novel, such as Fielding, Austen, Dickens, George Eliot, Hardy, Lawrence, and Woolf; major criticism of the genre. May be taught concurrently with ENG 512. Cannot receive credit for both ENG 512 and ENG 618.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 619 American Drama

Development of American Drama to the present; emphasis on 20th century, including such authors as O'Neill, Wilder, Hellman, Williams, Miller, and Albee; major criticism of the genre. May be taught concurrently with ENG 519. Cannot receive credit for both ENG 519 and ENG 619.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 623 Writing Center Theory and Practice

Collaborative workshop designed to prepare individuals for teaching one-to-one in a writing center environment. May be taught concurrently with ENG 523. Cannot receive credit for both ENG 523 and ENG 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 627 History of Rhetoric

Study of historical trends important to the development of written discourse and writing instruction. Survey of theory from classical antiquity through the nineteenth century. May be taught concurrently with ENG 525. Cannot receive credit for both ENG 525 and ENG 627.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 628 Rhetorics for the 21st Century

Study of rhetorical theory and argument in civic, private, professional and digital spaces. Application may include, but is not limited to, literary criticism, literacy, technical writing and composition. May be taught concurrently with ENG 526. Cannot receive credit for both ENG 526 and ENG 628.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 629 Composition and Rhetoric in High School and Junior College

Prerequisite: teacher certification students must be admitted to the Teacher Education Program.

A survey of current writing and evaluation practices. Training in the teaching and evaluating of oral and written composition. The student will have an opportunity to examine methods currently taught in area high schools. May be taught concurrently with ENG 520. Cannot receive credit for both ENG 629 and ENG 520.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 631 Writing for Teachers

A course intended to develop the writing of prospective and in-service teachers and to explore the means by which writing can be encouraged, developed, and assessed. May be taught concurrently with ENG 521. Cannot receive credit for both ENG 631 and ENG 521.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 633 Studies in Children's Literature

A study of significant themes (such as gender, ethnicity, or childhood) or genres (such as children's poetry, the picture book, and the literary folktale and historical fiction) in literature for the young. May be repeated when content varies. May be taught concurrently with ENG 533. Cannot receive credit for both ENG 533 and ENG 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 634 Historical Perspectives in Children's Literature

Study of one or more periods in the historical development of children's literature, such as the Golden Age of children's classics, twentieth-century British children's literature, and the novels for children since 1950. Variable content course. May be repeated when content varies. May be taught concurrently with ENG 534. Cannot receive credit for both ENG 534 and ENG 634.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 636 Young Adult Novel

Study of various kinds of novels written for young people; includes historical perspectives; emphasizes developments since the "New Realism" of the 1960s. May be taught concurrently with ENG 536. Cannot receive credit for both ENG 536 and ENG 636.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 639 Advanced Writing for Children and Young Adults

Group discussion and criticism. Individual writing projects. May be taught concurrently with ENG 539. Cannot receive credit for both ENG 539 and ENG 639.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 640 Small Press Production

Introduction to the world of small press publishing. A Moon City Press publication project will be executed from inception to official publication, covering all the steps leading to completion. Steps include manuscript review, contracting, editing, design, marketing, and distribution. Student participants will be designated as official editors of the project. May be repeated to a total of six hours with permission and when projects change. Variable Course Content. May be taught concurrently with ENG 540. Cannot receive credit for both ENG 540 and ENG 640.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 641 Renaissance Literature

Sidney, Spenser, Donne, Milton, and other major non-dramatic writers; literary developments, 1500-1660. May be taught concurrently with ENG 541. Cannot receive credit for both ENG 541 and ENG 641.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 642 British Romantic Literature

Blake, Wollstonecraft, Dorothy Wordsworth, William Wordsworth, Coleridge, Byron, Mary Shelley, Percy Bysshe Shelley, Keats; cultural backgrounds and literary developments, 1798-1837. May be taught concurrently with ENG 544. Cannot receive credit for both ENG 544 and ENG 642.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 643 Restoration and 18th Century Literature

Dryden, Swift, Pope, Johnson, and other significant writers; literary developments, 1660-1798. May be taught concurrently with ENG 543. Cannot receive credit for both ENG 543 and ENG 643.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 645 Modern British Literature

Significant works from several genres by authors such as Conrad, Yeats, Greene, Lessing, and Stoppard; literary developments, 1901-present. May be taught concurrently with ENG 547. Cannot receive credit for both ENG 547 and ENG 645.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 646 Victorian Literature

Tennyson, Browning, the Rossettis, Hardy, and other British Victorian writers; literary developments, 1837-1901. May be taught concurrently with ENG 546. Cannot receive credit for both ENG 546 and ENG 646.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 649 Major British Authors

Study of several major works by one or two British writers, such as Marlowe and Jonson, Johnson and Boswell, George Eliot and Hardy, Yeats and T.S. Eliot, Amis and Larkin; the intellectual milieu of their works. May be taught concurrently with ENG 548. Cannot receive credit for both ENG 548 and ENG 649.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 651 Literary Publication

Practical experience with the literary publication process, including the editing work that goes into literary journals and the process of submitting and publishing creative work. Students will be introduced to various aspects of the literary market and other opportunities for creative writers, such as conferences and writing workshops. Students will learn about the publishing process through University publications projects such as the English Department's Moon City Press. May be taught concurrently with ENG 551. Cannot receive credit for both ENG 651 and ENG 551.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 652 American Romantic Literature

Significant works from several genres by authors such as Cooper, Poe, Irving, Thoreau, Emerson, Hawthorne, Melville, and Whitman; literary developments to 1855. May be taught concurrently with ENG 553. Cannot receive credit for both ENG 553 and ENG 652.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 654 Topics in Ethnic American Literature

Focus on one or more of the following: African American literature, Asian American literature, Latina/o literature, Native American literature, the literatures of European American immigrant groups, and relevant literary criticism. May be repeated up to 6 hours if content varies. May be taught concurrently with ENG 554. Cannot receive credit for both ENG 654 and ENG 554, for the same course content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

ENG 656 American Realism

Significant works from several genres by authors such as Twain, Howells, James, Crane, and Frost; literary developments, 1855-1914. May be taught concurrently with ENG 557. Cannot receive credit for both ENG 557 and ENG 656.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 659 Modern American Literature

Significant works from several genres by authors such as Fitzgerald, Hemingway, Lowell, Roethke, Bellow, and O'Connor; literary developments, 1914-present. May be taught concurrently with ENG 559. Cannot receive credit for both ENG 559 and ENG 659.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 661 Major American Authors

Study of several major works by one or two writers, such as Emerson and Thoreau, Frost and Dickinson, Sexton and Lowell; the intellectual milieu of their works. May be repeated when content varies. May be taught concurrently with ENG 558. Cannot receive credit for both ENG 558 and ENG 661.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 662 Contemporary American Poetry/Fiction

A survey of contemporary American poetry or fiction, which encompasses a selection of significant authors and traces the history and development of various literary theories, schools and movements, from new Criticism through more recent trends in both narrative and lyric modes (poetry) and Post-Modern narrative techniques (fiction). Variable content course. May be repeated up to 6 hours if topic is different. May be taught concurrently with ENG 562. Cannot receive credit for both ENG 562 and ENG 662.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 663 Literature and Medicine

This course examines literary representations of health and illness, ability and disability, and cultural practices of healing. Drawing on major theoretical movements in medical humanities, students will situate literary texts within the ethical situations and institutional structures of their community and culture. May be taught concurrently with ENG 563. Cannot receive credit for both ENG 563 and ENG 663.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 664 Place-Conscious Reading and Writing

This course emphasizes the study of place, specifically, enacting literacy practices focused upon the cultural, economic, and environment sustainability of a learning locale. Students will also explore local networking strategies and ways of spurring public action to improve their own literacy and the literacy of their students at the local or regional level. May be taught concurrently with ENG 564. Cannot receive credit for both ENG 664 and ENG 564.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

ENG 665 Literature and Language Workshop

Prerequisite: permission of instructor.

Variable topics related to the use of writing and literature in the classroom. Number of class hours determined by length of workshop. May be repeated for a total of 6 hours. May be taught concurrently with ENG 565. Cannot receive credit for both ENG 665 and ENG 565.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

ENG 668 Major World Authors

Study of several major works by one or two writers, such as Aristophanes and Sophocles; Ibsen and Strindberg; the intellectual milieu of their works. May be repeated when content varies. May be taught concurrently with ENG 568. Cannot receive credit for both ENG 568 and ENG 668.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 672 Writing Grant Proposals

Studying and applying basic elements of grant-proposal writing, including identifying potential funding sources, aligning projects with goals of funders, writing a compelling statement of need, and establishing a credible method of accomplishing goals as well as a reasonable budget and timeline. Emphasis on tailoring proposals to prospective funders in concise, persuasive writing. May be taught concurrently with ENG 572. Cannot receive credit for both ENG 572 and ENG 672.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 678 Writing in the Health Professions

Rhetorical analysis and production of a broad range of document genres, including public health campaigns, grant proposals, medical reports, and patient information materials. Students research and present their findings on current issues in the field. Emphasis on audience analysis, document design principles, and ethical considerations. May be taught concurrently with ENG 570. Cannot receive credit for both ENG 570 and ENG 678.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 679 Writing for the Web

Explores the professional writer's role in creating web pages and sites designed to deliver information. Topics include planning, user analysis, organization, structure, presentation, content development, writing style, and accessibility accommodation. May be taught concurrently with ENG 573. Cannot receive credit for both ENG 573 and ENG 679.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 682 Gender Issues in Language and Literature

Consideration of gender issues from the standpoint of literary history, genre, composition/rhetoric, linguistics, or feminist theory. May be repeated to a total of 6 hours if topic is different. May be taught concurrently with ENG 580. Cannot receive credit for both ENG 580 and ENG 682.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 683 Themes in Folkloristics

A topical course investigating the relationship of folklore and daily life through reading and examination of the field and its genres as a global discipline. Consideration of lived-environments such as occupational, educational, and popular culture settings or themes. May be repeated to a total of 9 hours if topic is different. May be taught concurrently with ENG 583. Cannot receive credit for both ENG 583 and ENG 683.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 684 Topics in Professional Writing

Covers a single topic within the field of professional writing. The subject will vary according to student demand and faculty availability. Examples include writing for the legal profession, writing proposals, regulatory writing, developing training materials, and ethics in professional writing. May be repeated to a total of 6 hours when the topic varies. Variable content course. May be taught concurrently with ENG 575. Cannot receive credit for both ENG 575 and ENG 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 688 Sociolinguistics for Language Teaching

Various sociolinguistic topics, with an emphasis on those relevant for language teaching, such as language attitudes; standard languages; literacy; language variation; multilingualism; language planning and policy; and language maintenance and loss. May be taught concurrently with ENG 592. Cannot receive credit for both ENG 592 and ENG 688.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 689 Studies in Linguistics

Topics in linguistics including history of linguistics, language acquisition, or transformational grammars. May be repeated to a total of 9 hours if topic is different. May be taught concurrently with ENG 593. Cannot receive credit for both ENG 593 and ENG 689.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 690 Grammatical Analysis

Advanced study of English morphology and syntax using a variety of current approaches, including phrase-structure, transformational, discourse-based, and semantic-based grammars. May be taught concurrently with ENG 590. Cannot receive credit for both ENG 590 and ENG 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 691 Linguistic Theory

A specialized survey of linguistics intended for graduate and advanced undergraduate students. Areas covered include, but are not limited to, phonology, morphology, syntax, semantics, discourse, pragmatics, language change, and language variation. Students cannot receive credit for both ENG 296 and ENG 691. May be taught concurrently with ENG 591. Cannot receive credit for both ENG 591 and ENG 691.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 694 Technical Writing Internship

Projects in technical writing, combining academic training and supervised work experience in business, industry, government, academia, or nonprofit organizations. Students are required to work a minimum of 135 hours. May be taught concurrently with ENG 574. Cannot receive credit for both ENG 574 and ENG 694.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 695 Principles of Second Language Acquisition

The processes of both first and second language acquisition, with an emphasis on Teaching English to Speakers of Other Languages (TESOL) and bilingualism. Includes the theory behind and history of TESOL methodologies, as well as contemporary theoretical issues in TESOL. May be taught concurrently with ENG 595. Cannot receive credit for both ENG 595 and ENG 695.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 696 Materials and Assessment in Teaching English to Speakers of Other Languages (TESOL)

Practical and theoretical perspectives in specific areas in TESOL, including speaking, grammar, composition, and critical reading. Consideration of material design and student assessment. May be taught concurrently with ENG 596. Cannot receive credit for both ENG 596 and ENG 696.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 697 Practicum in Teaching English to Speakers of Other Languages (TESOL)

Application of coursework in TESOL with individualized experience based on students' needs and background, especially in composition, grammar, and pronunciation. May be taught concurrently with ENG 597. Cannot receive credit for both ENG 597 and ENG 697.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ENG 698 Early English Language and Literature

Special topics in Old and Middle English language and literature, including an understanding of the linguistic structure of early English, experience in working with a variety of medieval English texts, and application of various linguistic and literary theories to the study of Old and Middle English writing. May be repeated to 6 hours if topic is different. Will not count toward any teacher certification requirement. May be taught concurrently with ENG 598. Cannot receive credit for both ENG 598 and ENG 698.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 700 Introduction to Research Methods in English

Provides an introduction to research methods and writing within the broadly defined discipline of English Studies. It focuses on ways of developing research problems and questions, designing studies, and conducting, reading and evaluating research. Students will also learn to present their research in verbal and written formats including the abstract, proposal, conference presentation, and publishable essay.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 701 Graduate Fiction Workshop

Prerequisite: ENG 601 or permission of instructor.

Group discussion and criticism. Individual writing projects. Intensive reading and writing assignments designed to enhance students' ability to compete in the publishing world and in application to further graduate study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 702 Service Learning in English II

Prerequisite: concurrent enrollment in an English course designated as a service-learning offering.

This service component for an existing course incorporates community service with classroom instruction. It provides an integrated learning experience, addressing the practice of citizenship and promoting an awareness of and participation in public affairs. It includes a minimum of 40 hours of service that benefits an external community organization or public-service provider. Approved service placements and assignments will vary depending on the course topic. May be taken once for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

ENG 703 Practicum in Teaching Composition

Writing, evaluation of student essays, discussion of current theory and practice in teaching college composition. Credit from this course will not count toward the MA in English or the MS in Ed (ENG) degrees. Required of graduate teaching assistants their first two semesters of appointment. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ENG 704 Teaching Writing Online

An intensive study of the theory and practice associated with teaching composition online. Students will examine key ideas in the field as well as the benefits and challenges of online pedagogy. Students will have the opportunity to study and design online instructional materials.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Summer, Spring (odd-numbered years)

ENG 707 Graduate Poetry Workshop

Prerequisite: ENG 607 or permission of instructor.

Group discussion and criticism. Individual writing projects. Intensive reading and writing assignments designed to enhance students' ability to compete in the publishing world and in application to further graduate study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 708 Creative Writing Project II

Prerequisite: permission of instructor.

Directed development of a substantial work of poetry, fiction, or non-critical prose. This work may be submitted as a degree paper in partial fulfillment of the research requirement in English.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 710 Seminar: Fiction

Significant genres, authors, and developments in prose fiction. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 711 Seminar: Poetry

Significant genres, authors, and developments in poetry. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 712 Seminar: Drama

Detailed study of selected plays and dramatists. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 720 Seminar: Composition Theory

Detailed study of contemporary composition theory in university freshman writing. Open to all graduate students. Graduate teaching assistants must take ENG 720 during their first year of appointment, unless they have taken ENG 520 as undergraduates.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 721 Theory of Basic Writing

Study of issues, problems, and pedagogical strategies appropriate to teaching composition to students with limited English proficiency.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 722 Literacy Theory and Composition

An introduction to literacy theory and its application to the teaching of composition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 725 Seminar: Composition and Rhetoric

Topics in the application of rhetorical theory to the teaching of writing. May be repeated up to 9 hours if the content is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

ENG 726 Issues in Professional Writing

Study of some aspect of professional writing not ordinarily offered in the curriculum. Students read, discuss, and write about selected books or other documents related to the field. May be repeated to a total of 6 hours if topic is different. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 730 Ozarks Writing Project

Prerequisite: permission of instructor.

An intensive course in the writing process and the writing curriculum, designed for experienced K-16 teachers across the disciplines using the National Writing Project model. Readings of current theory and research will be related to participants' experiences as writers and as teachers. May be repeated for up to six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Summer

ENG 732 Seminar: Issues and Trends in English Education

Study of some aspects of English Education not ordinarily in the curriculum. Students read, discuss, and write about selected books and articles related to the field. Variable content course. May be repeated for a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 735 Seminar: Children's Literature

Detailed study of selected works, authors, or themes in children's/young adult literature. May be repeated to a total of 9 hours if topic is different. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 744 Seminar: English Literature Before 1798

Detailed study of selected works, authors, or themes in English literature up to the Romantic Movement. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 748 Seminar: English Literature After 1798

Detailed study of selected works, authors, or themes in English literature since 1798, including the Romantic Movement. May be repeated to a total of 9 hours if the topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 757 Seminar: Early American Literature

Detailed study of selected works, authors, or themes in American Literature to 1900. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 758 Seminar: 20th Century American Literature

Detailed study of selected works, authors, or themes in American Literature, 1900 to the present. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 770 The Teaching of Technical and Professional Writing

Theory and practice of teaching college courses in technical and professional writing. Some consideration of in-service writing courses for business, science, industry, and government.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 771 Professional Writing

Theory and practice of writing and analyzing documents in business, science, and industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 772 Introduction to Technical Writing

Theory and practice in technical communication and workplace writing. Students will write and analyze documents in business, science, and industry. Using primary and secondary research, students solve problems by developing employment materials, brochures, instructions, graphics, manuals, or other professional

documents. Practice in document design, usability testing, planning and managing projects, and/or communication in management and leadership. Emphasis on audience analysis, including multicultural considerations, as well as on presenting information clearly, concisely, and ethically in both prose and visuals. Recommended for students who do not have a background or undergraduate degree in Technical/Professional Writing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 773 Writing for the Computer Industry

Study and practice in developing user-centered computer system documentation. Topics include working with workplace and user communities to develop content; formatting, organizing, and designing information; and user analysis and testing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 774 Professional Writing Internship

Prerequisite: permission of instructor.

Projects in technical and professional writing, combining academic training and supervised work experience in business and industry. Students are required to work a minimum of 150 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 775 Designing Technical Documents

Producing, analyzing, and adapting technical documents to meet the needs of diverse clients.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 777 Professional Editing

Current practices in editing and publishing in hard-copy and electronic formats. Group and individual projects involving diverse fields, audiences, and formats; topics include copyediting, content editing, usability editing, author-editor relations, and the production process.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 780 Seminar: Intellectual Backgrounds of Literature in English

Relation of basic intellectual and social ideas to the form, content, production/publication, and distribution of selected literary works or genres. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 781 Rhetorical Criticism

Study of rhetorical and metalinguistic approaches to analyzing literature, with applications of theory to particular works.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ENG 785 Seminar: Critical Theories

Literary criticism, with emphasis upon modern, critical practice; application of theory to particular problems. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 786 Seminar: Form and Theory of Poetry and Prose

Designed for creative writers. Detailed study of traditional literary forms in poetry, drama, or fiction and the new forms that have grown out of them. Discussion of interaction between structure and content. Variable Content

Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENG 792 Linguistics in Rhetoric and Composition

Applications of linguistic models to rhetorical theory and/or the teaching of composition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENG 793 Seminar: Linguistics

Topics in historical, theoretical, or applied linguistics. May be repeated to a total of 9 hours if topic is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 796 Seminar: Assessment in Teaching English to Speakers of Other Languages (TESOL)

Prerequisite: ENG 605 and ENG 695.

Advanced course on assessment issues as they affect English language learners. Includes regulations related to the assessment and testing of English learners, language proficiency assessment, classroom-based assessment, and the creating and evaluation of language testing instruments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENG 797 Advanced Practicum in Teaching English to Speakers of Other Languages (TESOL)

Prerequisite: ENG 605 and ENG 695.

Application of coursework in TESOL with individualized teaching experience with English learners. Includes reflective practice and the implementation of a culminating project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

ENG 799 Thesis

Prerequisite: permission of the Director of Graduate Studies in English.

Independent research and study connected with preparation of thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

Children's and Young Adult Literature Certificate

Children's and Young Adult Literature

This certificate is designed for those interested in pursuing a career in library or literary studies, publishing, education, and related fields. The certificate provides a foundation for analyzing children's and young adult literature, and the historical and cultural contexts in which they are written.

Admission requirement

Combined GPA (Missouri State and transfer) of 2.0 or better.

Program requirements (12 hours)

1. [ENG 334\(3\)](#), [338\(3\)](#).
2. Two courses from: [ENG 339\(3\)](#), [533\(3\)](#), [534\(3\)](#), [536\(3\)](#), [539\(3\)](#) for a total of not fewer than 12 hours in the certificate.
3. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Editing and Publishing Certificate

Editing and Publishing

This certificate will provide students an understanding of the editing and publication processes related to small press publishing, literary magazine publishing, professional editing, and the larger literary publishing industry through both classroom learning and experience with the Department of English's Moon City Press and Moon City Review. This understanding provides a foundation for literary publication, preparing students for professional work in this field, including but not limited to large publishing houses, small independent presses, literary agenting and representation, editing and proofreading, entrepreneurship, and the non-profit arts sector.

Program requirements (12 hours)

1. Core: [ENG 540\(3\)](#), [551\(3\)](#).
2. One advanced creative writing course from: [ENG 500\(3\)](#), [501\(3\)](#), [503\(3\)](#).
3. One course from: [ENG 338\(3\)](#), [354\(3\)](#), [355\(3\)](#), [363\(3\)](#), [366\(3\)](#), [377\(3\)](#), [386\(3\)](#), [483\(3\)](#), [517\(3\)](#), [536\(3\)](#), [547\(3\)](#), [554\(3\)](#), [559\(3\)](#), [562\(3\)](#), [563\(3\)](#), [564\(3\)](#), [572\(3\)](#), [574\(3\)](#); [575\(3\)](#) with permission from the instructor; [583\(3\)](#).
4. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

English Education

Major(s)

English

Bachelor of Science in Education (Certifiable grades 9-12)

Major requirements (42 hours):

Note: nine hours may double count in General Education requirements.

1. Specific General Education requirements needed to meet state certification: [ENG 110\(3\)](#), [321\(3\)](#); [PSY 121\(3\)](#).
2. [ENG 235\(3\)](#), [338\(3\)](#), [390\(3\)](#), [520\(3\)](#), [521\(3\)](#); [ENG 491\(3\)](#) or [494\(3\)](#).
3. One course from: [ENG 350\(3\)](#), [351\(3\)](#), [517\(3\)](#), [519\(3\)](#), [553\(3\)](#), [557\(3\)](#), [558\(3\)](#), [559\(3\)](#), [562\(3\)](#).
4. One course from: [ENG 354\(3\)](#), [355\(3\)](#), [455\(3\)](#).
5. One course from: [ENG 340\(3\)](#), [341\(3\)](#), [362\(3\)](#), [512\(3\)](#), [541\(3\)](#), [543\(3\)](#), [544\(3\)](#), [546\(3\)](#), [547\(3\)](#), [548\(3\)](#), [568\(3\)](#).
6. One additional 400 or 500-level ENG elective course (3), not taken to fulfill another major or Professional Education requirement.
7. [ENG 312\(3\)](#). Students may substitute [ENG 513](#) for ENG 312 but may not count ENG 513 as their required 500-level ENG elective course.
8. Public Affairs Capstone Experience will be fulfilled by completion of [ENG 432\(6\)](#) and [ENG 433\(6\)](#).

Professional Education requirements (38 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Teaching methods and supervised teaching (18 hours): [ENG 405\(6\)](#), [ENG 432\(6\)](#), [ENG 433\(6\)](#).
2. Additional [Professional Education Required Core and Competencies](#) (20 hours).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval

for supervised teaching; and recommendation for certification which includes following GPA requirements. All GPA requirements include both Missouri State and transfer grades.

- a. at least a 2.75 GPA on all course work attempted at all colleges attended.
- b. at least a 3.00 GPA in the certificate subject area (major field of study) which includes all courses listed under major requirements.
- c. at least a 3.00 GPA in any additional certificate subject area.
- d. at least a 3.00 GPA in the professional education courses which includes all courses in number 1 and 2; and no grade lower than a "C" in all professional education courses.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Restriction on use of English courses for majors and minors in the Department of English

1. English courses counted toward the major cannot be counted toward the minor.
2. English courses counted toward the major or minor cannot be counted toward the BA Fine Arts requirement.
3. With the exception of ENG 310 and ENG 321, English courses counted toward the major or minor cannot be counted toward the General Education requirements.

Accelerated graduate program in Secondary Education/English

Eligible Missouri State undergraduate students may apply for admission to the Secondary Education/English program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/program-secondary-education-english-emphasis.htm\)](https://graduate.missouristate.edu/Catalog/program-secondary-education-english-emphasis.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Graphic Narrative Certificate

Graphic Narrative

This certificate will provide students an understanding of the craft and literature of graphic narrative, also known as sequential art, comics, and cartooning. This area of study builds students' skills in creative writing, drawing techniques and materials, and knowledge of graphic narrative literature, history, and critical/theoretical approaches. This certificate benefits students with a variety of professional interests, including but not limited to creative writing, literature and scholarship, publication and editing, illustration, animation, film-making, and/or English education. Students will take courses both in the Department of English and the Department of Art and Design to complete this certificate.

Program requirements (12 hours)

1. [ENG 216\(3\)](#), [316\(3\)](#), [323\(3\)](#); [DES 220\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

2. English courses counted toward the major or minor cannot be counted toward the BA Fine Arts requirement.
3. With the exception of ENG 310 and ENG 321, English courses counted toward the major or minor cannot be counted toward the General Education requirements.

Accelerated graduate program in Writing-Technical/Professional Writing Track

Eligible Missouri State undergraduate students may apply for admission to the Technical/Professional Writing track within the Writing program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-writing.htm\)](https://graduate.missouristate.edu/Catalog/prog-writing.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Rhetoric and Argument Writing Certificate

Rhetoric and Argument Writing

This certificate is designed to provide students a focused understanding of the historical and contemporary assumptions of rhetorical scholarship, and practice in developing persuasive written argument through the use of rhetorical strategies to articulate various positions to specific audiences. This advanced understanding of rhetoric and practice in argument writing provides a foundation for the study and practice of law, public affairs, social justice, business, and communications.

Students will complete core courses in argument writing and historical or contemporary rhetorical theory. Students will enhance this core through an elective specific to related fields.

Linguistics Program

Programs

Undergraduate

Linguistics (Minor)

General information

The Linguistics minor is an interdisciplinary program jointly offered by the College of Arts and Letters and Department of Sociology and Anthropology and is administered by the College of Arts and Letters. The Linguistics Committee administers the program, provides advisement, and considers requests for elective substitutions. The committee consists of five faculty members who teach courses in the minor, appointed by the Provost. The chair of the committee, elected by committee members, approves applications to degree program and, after consultation with committee members, approves course substitutions.

Missouri State

Office of the Registrar

Undergraduate Catalog

Media, Journalism and Film Courses

Journalism (JRN) courses

JRN 270 Introduction to Journalism

Prerequisite: Eligibility for ENG 110.

Study of the purposes and forms of journalism. Includes writing the basic types of stories. Typing skills required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

JRN 300 Special Topics in Journalism

A course upon a single topic of current interest. May be repeated with permission of the department to a total of 6 hours if topics are different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

JRN 305 Service Learning in Journalism

Prerequisite: 30 hours and concurrent registration in a journalism course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in journalism to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

JRN 370 News Reporting and Writing

Prerequisite: JRN 270.

Instruction and practice in gathering news material, writing news reports, and editing copy. Includes introduction to news beats and specialized reporting techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

JRN 374 Opinion Writing

Prerequisite: JRN 270.

Instruction and practice in writing editorials, opinion columns, news analyses and critical reviews.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

JRN 375 Feature Writing

Prerequisite: JRN 270.

Practice in writing feature articles for print and online publications, including human interest stories, news features, personality profiles, how-to articles and historical pieces.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

JRN 376 Business Reporting

Prerequisite: JRN 270.

Instruction and practice in gathering information and writing business-related articles. The course covers interviewing and reporting techniques used to write business stories, including enterprise and trend stories as well as company profiles. The student also will gain an understanding of the importance of business news to public affairs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

JRN 381 Broadcast News Writing

Prerequisite: JRN 270.

Instruction and practice in basic scripting technique and writing skills needed to be a broadcast journalist. Through writing, students will examine the fundamentals of news judgment and the organizational style of storytelling for radio and television formats.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

JRN 384 Broadcast Performance

Prerequisite: JRN 381.

The development of disciplines controlling vocal and visual mechanics as well as interpretative performance for announcers, newscasters, interviewers and narrators of various radio and television situations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

JRN 388 Electronic News Gathering

Prerequisite: JRN 381.

Instruction and practice in news gathering techniques for television. Students will learn the basics of video production (shooting, editing, lighting, etc.) and reporting as well as advanced storytelling techniques, including solo reporting, recording natural sound packages, and live shot production and reporting. Emphasis is placed on gaining expertise in shooting and editing techniques as they apply to news.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

JRN 407 Media Law

History and application of the speech and press clause of the First Amendment; libel law, privacy law, copyright and other legal matters relating to mass media; relation of media law to journalistic ethics. May be taught concurrently with JRN 607. Cannot receive credit for both JRN 407 and JRN 607.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

JRN 476 Copy Editing and Design

Prerequisite: JRN 370.

Principles and practices of copy-editing and rewriting news stories, headline writing, use of graphics, and makeup for print and online newspapers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

JRN 477 Publications

Prerequisite: JRN 270.

Design and production of tabloids, magazines, newsletters, and brochures using desktop publishing techniques; survey of printing processes and type selection; use of color, graphics, and photographs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

JRN 478 Mobile Journalism

Prerequisite: JRN 270.

Instruction and practice in multimedia reporting and publishing for mobile screens, including digital still photography, video, audio, social media, and text. The course will also address content management systems for

the web, compatibility for mobile display, ethics, and legal concerns. Note: Students must have a current smartphone.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall, Spring

JRN 481 Multi-platform News Producing

Prerequisite: JRN 381.

Instruction and practice in multi-platform news producing. Students will learn news judgment, how to create a rundown, and how to make critical decisions that are essential to producing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

JRN 492 Independent Study in Journalism

Prerequisite: JRN 270 and permission of instructor.

Supervised independent study exploring topics determined by the student in consultation with journalism faculty member. May be repeated to a total of 6 hours with permission of the department.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

JRN 493 Practicum in Journalism

Prerequisite: permission of instructor.

Students will work with faculty supervisor on equipment-based journalism projects. Particular focus on leadership and communication skills, as well as using technology appropriate to the professional workplace. Variable content course. May be repeated to a total of 6 hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

JRN 572 Public Affairs Reporting

Prerequisite: JRN 370.

Capstone course on instruction and practice in advanced reporting techniques, including gathering material and writing in-depth stories on public affairs issues, with an emphasis on state and local government.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

JRN 590 Issues in Journalism

Prerequisite: 60 hours.

A variable content course addressing topics of current interest as well as timeless issues. May be repeated to a total of 6 hours with permission if topic is different. May be taught concurrently with JRN 690. Cannot receive credit for both JRN 690 and JRN 590.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

JRN 592 Newscast Practicum

Prerequisite: JRN 384 and JRN 388 and permission of instructor.

Practical on-air experience with a student-run news program. Students will produce, report, anchor and work as studio crew for a weekly show. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

JRN 595 Journalism Internship

Prerequisite: 60 hours and permission of instructor.

Work experience with a professional news organization. The student will be provided an educational opportunity not available through classroom experience. The instructor must approve all necessary paperwork before the student may begin the internship. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

JRN 607 Media Law

History and application of the speech and press clause of the First Amendment; libel law, privacy law, copyright and other legal matters relating to mass media; relation of media law to journalistic ethics. May be taught concurrently with JRN 407. Cannot receive credit for both JRN 407 and JRN 607.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

JRN 690 Issues in Journalism

A variable content course addressing topics of current interest as well as timeless issues. May be repeated to a total of 6 hours with permission if topic is different. May be taught concurrently with JRN 590. Cannot receive credit for both JRN 590 and JRN 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

JRN 695 Journalism Internship

Prerequisite: permission of instructor.

Work experience with news organizations. The student will be provided an educational opportunity not available through classroom experience. The instructor must approve all necessary paperwork before the student may begin the internship. May be repeated for a total of 6 hours. May be taught concurrently with JRN 595. Cannot receive credit for both JRN 595 and JRN 695.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

Mass Media (MED) courses

MED 120 Mass Media and Society

General Education Course (Focus on Social and Behavioral Sciences).

The course examines theories and issues related to mass media. Students will understand the media's role through historical, present and future trends as agents of social change and cultural influence. The course will examine the media as an industry and its critical role as the fourth estate in American democracy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	1	Fall, Spring	SBSC 100 - Introduction to Mass Communications.

[Access the CORE 42 portal](#)

MED 130 Fundamentals of Media Convergence

An exploration of the role and impact of convergence across all areas of journalism and media. Emphasis will be placed on the teaching of audio, video, web and social media skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 274 Introduction to Film

General Education Course (Focus on Humanities).

The aesthetic and technical perspective of all types of motion pictures (narrative, non-narrative, experimental), using a number of selected domestic and foreign films as examples. Written analyses are required. Viewing of selected films outside of class time may be required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	1	Fall, Spring	FILM 100 - Introduction to Film Studies.

[Access the CORE 42 portal](#)

MED 290 Fundamentals of Multimedia Design

A broad exploration of multimedia design via readings and creative experiences. The following areas are considered: fundamental design principles, effective multimedia design, implementation and implications of multimedia, evaluation of existing multimedia examples, and collaboration in a group multimedia project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall, Spring

MED 300 Special Topics in Media

A course upon a single topic of current interest. May be repeated to a total of 6 hours if topics are different. Topics may include: Asian Horror Cinema; Great Directors; Sci-Fi Noir; The Films of the Coen Brothers; Dungeons and Dragons; Promoting Yourself in the Digital Age; Miyazaki!; Disney Animation: The Golden Age; Warner Bros. Animation: The Golden Age; Steadicam Practicum; Selling Your Idea: The Art of the Pitch; Collaborate: Make a Web Series; Storytelling Across All Media; Reality TV and Genre; Writing the Short Film.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MED 304 Mass Media Theory

Prerequisite: MED 120.

An examination of the history, development, and current state of mass communication theory and its relationship to the ways in which mediated messages are delivered and received.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 305 Service Learning in Media

Prerequisite: 30 hours and concurrent registration in a media course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in media to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

MED 320 Understanding the Broadcast Industry

Prerequisite: MED 120.

An overview of national and local broadcast operations, including a detailed examination of national and local broadcast operations including organizational structure, management functions, program production and distribution strategies, program management, sales, promotion and research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 325 Media History

The development and growth of U.S. mass media from their origins through the development of the internet. Emphasis will be placed on changing technologies, changing socio-political roles and changing structure of the mass media industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 345 Fundamentals of Media Production

Prerequisite: open to all students except Digital Film and Television Production, Mass Media (Comprehensive) and Electronic Arts majors.

This course is designed for students who are not majoring in Digital Film and Television Production, Mass Media (Comprehensive) or Electronic Arts. The course will provide an opportunity to learn and practice basic film and video production techniques while applying knowledge from lectures. The individual and group projects completed in the course will emphasize preproduction planning and creative use of the camera, lighting, sound and editing. Students will learn a wide range of practical production strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	2	Fall, Spring

MED 355 Social Media

Prerequisite: MED 120.

An overview of how social media are changing the ways we communicate, collaborate and create through digital media. Students will examine the historical, theoretical and practical implications of social media on human communication through a series of critical readings, media presentations and practical encounters with social networking.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 360 Beginning Screenwriting

Prerequisite: ENG 110.

An introduction to the fundamental craft of writing for film and television. Students will learn format, structure, and the principles of character-based storytelling, as well as the basics of the film and television industry. Combining lectures and workshops, students will focus on scene work before outlining and completing a short film script. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 660. Cannot receive credit for both MED 360 and MED 660 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 361 Introduction to Sound Recording for Digital Film and TV

Prerequisite: MED 365.

A foundational-level production course introducing recording/mixing techniques and technologies of production sound in digital film and television. Lectures will focus on basic acoustics and audio electronics, the aesthetics of the sound medium and sound as art in digital film and television. Students will learn critical-listening skills and gain recording/mixing experience in all aspects of field sound production including field sound recording equipment and setup, microphone placement and boom operation, and mixing with single and multiple microphones on the set. Students will also learn how to solve production problems and prepare production sounds for post-production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 365 Digital Film and Media Production

Prerequisite: major in Digital Film and Television Production, Film and Media Studies, or Electronic Arts, or permission of instructor.

A study of visual aesthetics and production techniques used in film and video. Students will learn image, motion design, sound, and nonlinear concepts that will be reinforced through video production exercises.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MED 374 History of Film I

An examination of the evolution of film technique and theory from 1895 to World War II. Emphasis is placed on the social impact of film and on the artistic and technical aspects of the medium. Viewing of selected films outside of class may be required. May be taught concurrently with MED 674. Cannot receive credit for both MED 374 and MED 674.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 375 History of Film II

An examination of the evolution of film technique and theory from World War II to the present. Emphasis is placed on the social impact of film and on the artistic and technical aspects of the medium. Viewing of selected films outside of class may be required. May be taught concurrently with MED 675. Cannot receive credit for both MED 375 and MED 675.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 381 Broadcast Writing

Prerequisite: ENG 110.

An examination of the principles and production techniques involved in writing broadcast copy. Three areas will be investigated in depth: copywriting for radio and television, news writing and feature story preparation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 382 Audio Production

Theory and practice of audio production techniques, procedures, and aesthetics. Emphasis is placed on audio production in a studio setting, including mic selection and placement, mixing boards and signal flow, and digital audio production techniques and technologies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Upon demand

MED 383 Television Production

Prerequisite: MED 365 or JRN 388.

Orientation to and practical experience in creating TV production in the professional studio setting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MED 385 Client-Based Video Production

Prerequisite: MED 345 or MED 365.

This intermediate-level production course focuses on how to work with a client when producing video packages for business, corporate, commercial, and other forms of non-fiction media production. Students will learn how to interview a client to find out their needs, then go through the pre-to-post production process on how to create original content packages for the client. This course is geared toward creating viable content for the students' demo reels, and will work with a community partner to produce real-world videos for use by the organization(s) the course will be working with during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	1	Fall

MED 390 Interactive Web Design

Prerequisite: MED 290.

An overview of multimedia design and multimedia-specific concepts. The course will look at multimedia design standards on multiple levels; content design and creation, user experience, navigation, interface, functionality, interactivity, multimedia integration, etc. Students will create and publish a website.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall, Spring

MED 412 Documentary Storytelling

Students gain a general understanding of the history and theory of documentary film by investigating the major creative approaches, the impact of technological advances in filmmaking, and the differences and similarities between nonfiction and fiction narratives in film. Students learn to write effective film criticism – to craft a well-reasoned critical analysis of a documentary film.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 454 Media Analysis and Criticism

Prerequisite: MED 120; and COM 209 or MED 304.

The political, cultural, economic and social impact of the American media and their content as they affect and influence the individual and the culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 461 Sound Editing

Prerequisite: MED 365.

An introduction to the theoretical and practical principles of sound editing for digital film and TV post-production. Students will be exposed to sound-design ideas and learn sound-editing skills and techniques using a professional sound-editing program. Students will design and build soundtracks for digital film and TV with both aesthetic and technical considerations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall, Spring

MED 462 TV/Film Producing

An in-depth examination of the producer's various roles in television and film production. Practical experience with script breakdowns, scheduling and budgets will provide the student with an understanding of the various aspects of production and how the development and structure of the script can affect the production's outcome.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MED 463 Writing Adaptations for Television and Film

Study and practice in adapting material for television or film. During the course, students will select a source to adapt and will outline and begin writing their script. Variable content course. May be repeated when project changes. May be taught concurrently with MED 663. Cannot receive credit for both MED 463 and MED 663 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 464 Genre Writing for Film and Television

An overview of the expectations and requirements of various genres in both film and television. Students will study past, present and possible future trends of each genre in the professional marketplace. The course will focus on what defines audience expectations as students write for different genres. Variable content course. May be repeated when project changes. May be taught concurrently with MED 664. Cannot receive credit for both MED 464 and MED 664 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 465 Principles of Cinematography

Prerequisite: MED 365.

The fundamental theoretical and practical principles of using the camera and lighting for film and video. Studio and location lighting, camera techniques, and aesthetics will be explored in depth. Students will light and shoot a variety of exercises designed to illustrate the theoretical, practical, and aesthetic issues explored in this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MED 466 Editing for Film and Television

Prerequisite: MED 365.

An examination of the theoretical, historical, and practical principles involved in editing narrative film and video. Students will learn intermediate editing techniques. Editing theory and aesthetics will be addressed through a series of editing exercises pulled from feature films and television series. Issues of narrative clarity, dramatic focus, pacing, and effective storytelling will be emphasized.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MED 470 Special Topics in Film

An examination of special topics from historical or current interest in film. Subject will vary from semester to semester depending on student interest and faculty availability. Examples: Experimental Films, Science Fiction and Horror in Film, Film as Propaganda, The Image of Minorities in Film, the French New Wave, Film Criticism. Viewing of selected films outside of class may be required. Variable Content Course. May be repeated to a total of 6 hours. 3(3-1) D. Approved recurring course topic: Animation. An examination of the history and aesthetics of animation, including both commercial and independent animation. Animation techniques (cel, computer, pixilation, cut-out, etc.), national animation industries (Hollywood, Japanese, Eastern European, etc.), and significant issues of contemporary animation studies will be covered. Written research essays are required, and film viewing outside of class may be required. 3(3-1) D. Approved recurring course topic: Asian Cinema. An examination of the art and industry of Asian cinema, looking at the histories and aesthetic features of the films (both mainstream and alternative) of the major filmmaking nations of Asia, as well as the practical and social factors involved in filmmaking in Asia. Written research essays are required, and film viewing outside of class may be required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Upon demand

MED 472 Directing the Short Film

Prerequisite: MED 365.

An examination of the theoretical, historical and practical fundamentals of film directing. Students will explore techniques for successful script/scene analysis, visualization, collaboration with cast and crew, and set management. Via a series of short but increasingly complex projects, students will gain an understanding of what it takes to successfully lead a production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MED 483 Intermediate Production

Prerequisite: permission of instructor.

Secondary level of multi-camera or film-style production. Students serve as production assistants and crew members, generally on a larger project being led by students in a senior-level capstone or electronic arts course, under the supervision of and in tandem with another class.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

MED 490 Advanced Interactivity Multimedia Design

Prerequisite: MED 290.

An advanced study of interactive multimedia design based on human-computer interaction principles. Course will include the creation of a project incorporating interactivity as a core element. Topics may include mobile applications, site-specific multimedia design, trans-media, advanced physical interactivity, or advanced Flash design. May be repeated to a total of 6 hours if topics are different. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (even-numbered years)

MED 492 Independent Study in Electronic Media

Prerequisite: admission to a departmental major, permission of instructor and 6 hours of upper division MED or JRN coursework.

Supervised independent study exploring selected areas determined by the student in consultation with the media faculty. Course work may include readings, term papers, or projects. May be repeated to a total of 6 hours with permission of the department.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MED 493 Practicum in Electronic Media

Prerequisite: permission of instructor.

Students will work closely with faculty supervisor to produce and create film, television, or internet projects. Particular focus on leadership and communication skills, as well as using technology appropriate to the

professional workplace. Variable content course. May be repeated to a total of 6 hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MED 498 Senior Project in Electronic Arts

Prerequisite: ART 300 and permission of instructor.

Admission to this course is contingent upon the successful completion of the Electronics Arts junior portfolio review and the achievement of a "C" or better grade in all required option courses completed at the time of the junior portfolio review. Under advisement from faculty, EA students will form production teams consisting of computer animation, video, interactive new media and audio studies students. Each team will produce a broadcast-quality project over two semesters. The first semester will be spent in pre-production preparations for the approved senior project. The second semester will involve production and post-production of the approved project. This course must be repeated in sequence for a total of six hours across a single academic year. Identical with ART 498. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MED 512 Documentary Film Practicum

Prerequisite: MED 345 or MED 365.

Students study documentary techniques in video, audio, and photography leading to the development of a formal documentary project proposal. Emphasis is placed on idea development and pre-production with journalistic research standards. Students will have the opportunity to contribute to documentary projects currently in production as well as complete several, short documentary production exercises.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 561 Sound Mixing

Prerequisite: MED 461.

An in-depth exploration of the art of sound design for digital film and TV. Students will learn how to carry out the aesthetic considerations of sound through the mixing process. Emphasis will be placed on advanced sound editing for sub- and final mixing, mix engineering, sound-effect processing and surround-sound practice.

Students will learn how to mix a movie's dialogue, sound effects, ambience and music into stereo and surround tracks. May be taught concurrently with MED 661. Cannot receive credit for both MED 561 and MED 661.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 562 Digital Filmmaking

Prerequisite: MED 461 or MED 462 or MED 465.

A film-style production class in high-definition digital filmmaking. Students will form small production teams to plan, design, and produce short narrative films. May be taught concurrently with MED 662. Cannot receive credit for both MED 662 and MED 562.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MED 565 Intermediate Screenwriting

Writing the feature film screenplay. Students will study format, structure, and the effective tools of screenwriting. The course will include discussion of feature films and their screenplays, as well as the business of professional screenwriting. Students will create a premise, outline their projects, and write the first act of a feature-length film. Variable content course. May be repeated when project changes. May be taught concurrently with MED 667. Cannot receive credit for both MED 565 and MED 667 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 566 Writing for Television

This course will focus on the foundations of structure, character, conflict, dialogue, and setting, and how to apply these elements to storytelling on the small screen. Students will learn to pitch their ideas effectively to writer-producers and then outline, write, and polish a spec script for a currently running television series. Variable content course. May be repeated when project changes. May be taught concurrently with MED 668. Cannot receive credit for both MED 566 and MED 668 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 567 Rewriting Film and Television Scripts

Prerequisite: MED 565 or MED 566.

An examination of the many phases of rewriting television or feature length screenplays for professional submission. Students will rewrite and workshop their scripts with an eye toward the current marketplace. Variable content course. May be taught concurrently with MED 669. Cannot receive credit for both MED 567 and MED 669 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 568 Writing the Web Series

Prerequisite: permission of instructor.

An advanced practicum in conceiving and collaboratively writing an original episodic series for the web. Students will work together in an intimate writers' room atmosphere to develop original web series for future production at Missouri State. Emphasis will be on sustainable premises, filmable budgets, and compelling character-based conflicts. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 671. Cannot receive credit for both MED 568 and MED 671 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 569 Advanced Screenwriting

Prerequisite: MED 565 or MED 566, and permission of instructor.

Focus on group discussion and criticism. Students either build on past work to complete a feature length screenplay or else write a new television pilot and series bible. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 672. Cannot receive credit for both MED 569 and MED 672 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 570 Film Theory

An analysis of the art of film by using classical and contemporary film theory to investigate such aspects as the relationship between form and content, visual style and the nature of pictorial motion. Weekly screenings and discussions of short films, excerpts, complete classics and contemporary films. May be taught concurrently with MED 670. Cannot receive credit for both MED 670 and MED 570.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 580 Media in Politics

Prerequisite: MED 120; and COM 209 or MED 304.

An in-depth examination of the role of print and electronic media in American politics. Emphasis is placed on media coverage of government, social issues, and political campaigns. The course examines both the strategies of paid media and the media's coverage of politics as news. May be taught concurrently with MED 680. Cannot receive credit for both MED 680 and MED 580.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 581 Issues in Media Ethics

Prerequisite: MED 120 and MED 304.

An investigation of fundamental ethical issues and their implications for media practitioners. Responsibilities of media practitioners to the public, advertising agencies, the government, and special interest groups will be examined. Special attention will be paid to the possibility of conflict between the business of media and general ethical considerations. May be taught concurrently with MED 681. Cannot receive credit for both MED 681 and MED 581. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 582 Advanced Producing

Prerequisite: MED 462; (students with credit for MED 365 may request permission of instructor).

This course will present the essential components of entrepreneurial producing, including obtaining investors, pre-sales, international co-financing and production, business negotiations, collaborating with unions and film commissions, procuring A-List talent, and others. Students will workshop an existing feature film with the intentions of "pitching" a modern remake to ideal investors and distribution outlets. Students will design a

comprehensive package - including financing, budgeting, marketing and distribution strategy - that is realistic in the contemporary marketplace. May be taught concurrently with MED 684. Cannot receive credit for both MED 582 and MED 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 583 Advanced Television Production

Prerequisite: MED 383.

Principles, skills, and techniques involved in advanced television production. Practical experience in writing, producing, directing and editing non-fiction television content for a video-magazine, news show, and/or promotions. May be taught concurrently with MED 683. Cannot receive credit for both MED 583 and MED 683.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

MED 595 Media Internship

Prerequisite: 60 hours and permission of instructor.

Work experience with a professional media organization. The student will be provided an educational opportunity not available through classroom experience. The instructor must approve all necessary paperwork before the student may begin the internship. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

MED 597 Advanced Studies in Media

Prerequisite: permission of instructor.

In-depth examination of a special topic in media. Variable content course. May be repeated to a total of 6 hours. May be taught concurrently with MED 697. Cannot receive credit for both MED 697 and MED 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 610 Playwriting I

An introduction to the craft of playwriting with a focus on process. Students learn dramatic structure, complete writing assignments, and analyze their scripts in workshops before ultimately writing and revising a 20-30 minute one-act play.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 660 Beginning Screenwriting

An introduction to the fundamental craft of writing for film and television. Students will learn format, structure, and the principles of character-based storytelling, as well as the basics of the film and television industry. Combining lectures and workshops, students will focus on scene work before outlining and completing a short film script. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 360. Cannot receive credit for both MED 360 and MED 660 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 661 Sound Mixing

An in-depth exploration of the art of sound design for digital film and TV. Students will learn how to carry out the aesthetic considerations of sound through the mixing process. Emphasis will be placed on advanced sound editing for sub- and final mixing, mix engineering, sound-effect processing and surround-sound practice. Students will learn how to mix a movie's dialogue, sound effects, ambience and music into stereo and surround tracks. May be taught concurrently with MED 561. Cannot receive credit for both MED 661 and MED 561.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 662 Digital Filmmaking

Prerequisite: MED 461 or MED 462 or MED 465.

A film-style production class in high-definition digital filmmaking. Students will form small production teams to plan, design, and produce short narrative films. May be taught concurrently with MED 562. Cannot receive credit for both MED 662 and MED 562.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MED 663 Writing Adaptations for Television and Film

Study and practice in adapting material for television or film. During the course, students will select a source to adapt and will outline and begin writing their script. Variable content course. May be repeated when project changes. May be taught concurrently with MED 463. Cannot receive credit for both MED 663 and MED 463 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 664 Genre Writing for Television and Film

An overview of the expectations and requirements of various genres in both film and television. Students will study past, present and possible future trends of each genre in the professional marketplace. The course will focus on what defines audience expectations as students write for different genres. Variable content course. May be repeated when project changes. May be taught concurrently with MED 664. Cannot receive credit for both MED 664 and MED 464 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 667 Intermediate Screenwriting

Writing the feature film screenplay. Students will study format, structure, and the effective tools of screenwriting. The course will include discussion of feature films and their screenplays, as well as the business of professional screenwriting. Students will create a premise, outline their projects, and write the first act of a feature-length film. Variable content course. May be repeated when project changes. May be taught concurrently with MED 565. Cannot receive credit for both MED 667 and MED 565 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 668 Writing for Television

This course will focus on the foundations of structure, character, conflict, dialogue, and setting, and how to apply these elements to storytelling on the small screen. Students will learn to pitch their ideas effectively to writer-producers and then outline, write, and polish a spec script for a currently running television series. Variable content course. May be repeated when project changes. May be taught concurrently with MED 566. Cannot receive credit for both MED 668 and MED 566 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 669 Rewriting Film and Television Scripts

Prerequisite: permission of instructor.

An examination of the many phases of rewriting television or feature length screenplays for professional submission. Students will rewrite and workshop their scripts with an eye toward the current marketplace. Variable content course. May be taught concurrently with MED 567. Cannot receive credit for both MED 669 and MED 567 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 670 Film Theory

An analysis of the art of film by using classical and contemporary film theory to investigate such aspects as the relationship between form and content, visual style, and the nature of pictorial motion. Weekly screenings and discussions of short film excerpts, complete classics and contemporary films. May be taught concurrently with MED 570. Cannot receive credit for both MED 570 and MED 670.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 671 Writing the Web Series

An advanced practicum in conceiving and collaboratively writing an original episodic series for the web. Students will work together in an intimate writers' room atmosphere to develop original web series for future production at Missouri State. Emphasis will be on sustainable premises, filmable budgets, and compelling character-based conflicts. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 568. Cannot receive credit for both MED 568 and MED 671 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 672 Advanced Screenwriting

Prerequisite: MED 667 or MED 668 or permission of Instructor.

Focus on group discussion and criticism. Students either build on past work to complete a feature length screenplay or else write a new television pilot and series bible. Variable content course. May be repeated up to 6 hours when project changes. May be taught concurrently with MED 569. Cannot receive credit for both MED 672 and MED 569 for the same project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 674 History of Film I

An examination of the evolution of film technique and theory from 1895 to World War II. Emphasis is placed on the social impact of film and on the artistic and technical aspects of the medium. Viewing of selected films outside of class may be required. May be taught concurrently with MED 374. Cannot receive credit for both MED 674 and MED 374.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 675 History of Film II

An examination of the evolution of film technique and theory from World War II to the present. Emphasis is placed on the social impact of film and on the artistic and technical aspects of the medium. Viewing of selected films outside of class may be required. May be taught concurrently with MED 375. Cannot receive credit for both MED 675 and MED 375.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 680 Media in Politics

An in-depth examination of the role of print and electronic media in American politics. Emphasis is placed on media coverage of government, social issues, and political campaigns. The course examines both the strategies of paid media and the media's coverage of politics as news. May be taught concurrently with MED 580. Cannot receive credit for both MED 580 and MED 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 681 Issues in Media Ethics

An investigation of fundamental ethical issues and their implications for media practitioners. Responsibilities of media practitioners to the public, advertising agencies, the government, and special interest groups will be examined. Special attention will be paid to the possibility of conflict between the business of media and general ethical considerations. May be taught concurrently with MED 581. Cannot receive credit for both MED 581 and MED 681.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MED 683 Advanced Television Production

Prerequisite: MED 383.

Principles, skills, and techniques involved in advanced television production. Practical experience in writing, producing, directing and editing non-fiction television content for a video-magazine, news show, and/or promotions. May be taught concurrently with MED 583. Cannot receive credit for both MED 683 and MED 583.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

MED 684 Advanced Producing

This course will present the essential components of entrepreneurial producing, including obtaining investors, pre-sales, international co-financing and production, business negotiations, collaborating with unions and film commissions, procuring A-List talent, and others. Students will workshop an existing feature film with the intentions of "pitching" a modern remake to ideal investors and distribution outlets. Students will design a comprehensive package - including financing, budgeting, marketing and distribution strategy - that is realistic in the contemporary marketplace. May be taught concurrently with MED 582. Cannot receive credit for both MED 684 and MED 582.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 695 Media Internship

Prerequisite: permission of instructor.

Work experience with a professional media organization. The student will be provided an educational opportunity not available through classroom experience. The instructor must approve all necessary paperwork before the student may begin the internship. May be repeated to a total of 6 hours. May be taught concurrently with MED 595. Cannot receive credit for both MED 595 and MED 695.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

MED 697 Advanced Studies in Media

Prerequisite: permission of instructor.

In-depth examination of a special topic in media. Variable content course. May be repeated to a total of 6 hours. May be taught concurrently with MED 597. Cannot receive credit for both MED 597 and MED 697.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MED 704 Theory and Research in Mass Communication

Survey of theories, models and research in mass communication. Topics include propaganda, attitude change, agenda setting and media effects research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 711 Fundamentals of Screenwriting

An introduction to the fundamental craft of writing for film, television, and the web. Students learn format, structure, and the principles of character-based storytelling, as well as some basics of the film and television

industry. Combining lectures and workshops, students focus on scene work before outlining and completing a short film script.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 712 Feature Film Writing I

The course will include discussion of feature films and their screenplays, as well as the business of professional screenwriting. Students will create a premise, outline their projects, and write the first act of a feature-length film.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 713 Feature Film Writing II

Prerequisite: MED 712.

Students workshop and complete the scripts for the feature films begun in MED 712.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 714 Writing Episodic Television

Prerequisite: MED 711.

Focus on the television industry and how to apply the fundamentals of screenwriting to episodic storytelling for the small screen. Students will learn to pitch their ideas effectively to writer-producers and then outline, write, and polish a spec script for a currently running television series.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

MED 715 Rewriting

Prerequisite: MED 713.

An examination of the many phases of rewriting feature-length screenplays for professional submission. Students will rewrite and workshop their scripts with an eye toward the current marketplace.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Summer

MED 716 Writing Episodic Pilots

Prerequisite: MED 714 or permission of instructor.

Students will analyze successful series pilots and learn about the process and demands of creating an original television or web series. After selecting an original premise, students then design a series bible, and write a completed pilot episode for a unique television or web series.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MED 717 Portfolio Script I

Prerequisite: permission of instructor.

Intensive workshop of a new feature film script, full-length play, series pilot, or equivalent work aimed for the current marketplace. This course will include pitching, premise selection, in-class staged readings, and roundtable feedback sessions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MED 718 Portfolio Script II

Prerequisite: MED 717.

Advanced workshop of the revised feature film script, full-length play, series pilot, or equivalent work developed in MED 717. Students will complete extensive rewrites and polishes to prepare the script for professional submission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 719 Portfolio Review

Prerequisite: MED 718 or permission of instructor.

Students will prepare their professional writing portfolio, completing multiple rewrites and polishes to get all components (two features, two shorts, a pilot and spec TV script, and a one-act play) ready for professional submission.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MED 762 TV/Film Producing and Marketing

An in-depth examination of the producer's various roles in television and film production. Practical experience with grant writing, script breakdowns, scheduling, budgets, and business plan development will provide the student with an understanding of the various aspects of production and how the development and structure of the script can affect the production's outcome.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MED 764 Visual Storytelling

An introductory course in cinematic storytelling. Students will write, shoot, and edit short video production projects, analyzing and discussing them in class.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MED 765 Directing for Film and Stage

An examination of the basic principles, skills, and techniques of directing for both film and the stage. Students will explore techniques for successful script/scene analysis, visualization, collaboration with cast and crew, and set management. They will also learn procedures in selecting, analyzing, casting, and producing a play. Through hands-on assignments students will gain practical experience in both areas of directing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MED 766 Pre-Production Practicum for Stage and Screen

Prerequisite: MED 684 and MED 762.

Practicum in pre-production for both web series and stage projects.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MED 767 Staged Production

Prerequisite: MED 766.

Practicum in staging productions for web series and theater.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MED 781 Producing the Short Film

Prerequisite: permission of instructor.

Practicum in producing a short narrative film. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 782 Producing the Web Series

Prerequisite: permission of instructor.

Practicum in producing a narrative scripted web series. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 783 Producing the Multicam Show

Prerequisite: permission of instructor.

Practicum in producing multicamera studio projects. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 784 Producing the Documentary

Prerequisite: permission of instructor.

Practicum in producing either short or feature documentary project. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 785 Producing the Longform Narrative

Prerequisite: permission of instructor.

Practicum in producing components of feature films. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 786 Producing the Stage Play

Prerequisite: permission of instructor.

Practicum in theater producing. Students will work closely with faculty supervisor. Variable topic course. May be repeated to a total of six hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 792 Independent Study in Media

Prerequisite: permission of instructor.

Supervised independent study in research of theories or application of learning through a creative project. Variable content course. May be repeated to a total of 6 hours if the content of the research or the project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 793 Practicum in Producing or Production

Students will work closely with faculty supervisor to produce and create film, television, or internet projects. Particular focus on leadership and communication skills, as well as using technology appropriate to the professional workplace. Variable topic course. May be repeated to a total of 6 hours with permission of the department when project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MED 794 Practicum in Playwriting

Prerequisite: permission of instructor.

Supervised independent writing project in playwriting. Variable content course. May be repeated to a total of six hours if the content of the research or the project is different.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Digital Film and Television Production

Major(s)

Digital Film and Television Production (Comprehensive)

Bachelor of Science

Major requirements (60 hours):

Note: three hours may double count in General Education requirements.

1. Specific General Education requirement: [MED 120\(3\)](#).
2. Departmental required courses: [MED 130\(3\)](#), [304\(3\)](#), [581\(3\)](#); [JRN 407\(3\)](#).
3. Public Affairs Capstone Experience will be fulfilled by completion of [MED 581\(3\)](#).
4. General Mass Media courses:
 - a. [MED 274\(3\)](#), [454\(3\)](#).
 - b. Theory—three hours from: [MED 355\(3\)](#), [570\(3\)](#).
 - c. History—three hours from: [MED 325\(3\)](#), [374\(3\)](#), [375\(3\)](#).
5. Digital Film and Television Production courses:
 - a. Beginning Production: [MED 365\(3\)](#).
 - b. Screenwriting: [MED 360\(3\)](#); three hours from: [MED 464\(3\)](#), [565\(3\)](#), [566\(3\)](#).
 - c. Audio Production—three hours from: [MED 361\(3\)](#), [382\(3\)](#), [461\(3\)](#).
 - d. Editing: [MED 461\(3\)](#) or [466\(3\)](#).
 - e. Intermediate Production—nine hours from: [MED 383\(3\)](#), [462\(3\)](#), [465\(3\)](#), [466\(3\)](#), [472\(3\)](#), [483\(3\)](#), [582\(3\)](#).
 - f. Capstone Production—three hours from: [MED 561\(3\)](#), [562\(3\)](#), [583\(3\)](#).
 - g. Six additional hours from [MED 300](#), [470](#), [492](#), [595](#), [597](#) or any JRN or MED courses.
6. No course may be used to satisfy more than one requirement within the Digital Film and Television Production major.

7. Note: Students majoring in Digital Film and Television Production cannot complete a minor in Mass Media. They may select, as an optional minor, Film Studies, Journalism, Screenwriting or any other BS minor.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Communication

Eligible Missouri State undergraduate students may apply for admission to the Communication program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-communication.htm) (<https://graduate.missouristate.edu/Catalog/prog-communication.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Dramatic Writing

Eligible Missouri State undergraduate students may apply for admission to the Dramatic Writing program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-dramatic-writing.htm) (<https://graduate.missouristate.edu/Catalog/prog-dramatic-writing.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Professional Studies

Eligible Missouri State undergraduate students may apply for admission to the Master of Professional Studies program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/professionalstudies.htm) (<https://graduate.missouristate.edu/Catalog/professionalstudies.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([/Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Documentary Filmmaking Certificate

Documentary Filmmaking

This certificate will allow students to focus primarily on non-fiction storytelling productions for video or multimedia presentation. Emphasis will be placed on production methods and understanding journalistic research standards as well as history and theory of the form. Through electives, students will be able to concentrate on presentation method (multimedia or video) and professional skill (cinematography or audio).

Program requirements (15 hours)

1. [MED 345\(3\)](#) or [365\(3\)](#).
2. [JRN 388\(3\)](#) or [478\(3\)](#). Note: Students pursuing this certificate may request a waiver of the prerequisites for JRN 388 or JRN 478.
3. [MED 412\(3\)](#) and [512\(3\)](#).
4. [MED 361\(3\)](#) or [462\(3\)](#) or [465\(3\)](#).
5. All candidates must satisfy the [General University Certificate Requirements](#).

Electronic Arts

Major(s)

Electronic Arts (Comprehensive)

Bachelor of Science

This program is offered in conjunction with the Department of Art and Design.

Admission requirements

Complete the following 9 hours with a GPA of 3.00 or higher before making a portfolio application to the program:

1. Foundation courses (6 hours): two courses from [ART 110\(3\)](#), [MED 365\(3\)](#), [MUS 216\(3\)](#). Students must complete the foundation course required in their option area before submitting their portfolio application to the program. Required foundation course for each option:
 - a. Audio Studies: [MUS 216\(3\)](#).
 - b. Computer Animation Studies: [ART 110\(3\)](#).
 - c. Interactive New Media Studies: [ART 110\(3\)](#).
 - d. Video Studies: [MED 365\(3\)](#).
2. Pre-admission core course (3 hours): one course from [ART 210\(3\)](#), [ART 230\(3\)](#), or [MED 361\(3\)](#). Note: Computer Animation students must complete ART 230 and Interactive New Media students must complete ART 210.

Note: All Electronic Media majors must complete all three foundation courses to satisfy graduation requirements.

Initial portfolio review

Portfolio must include three examples of audio, video, interactive new media, and/or computer animation work; one work must come from outside the option area to which the student is applying; and two of the three works coming from a course with the Electronics Arts program. Students seeking admission to the Electronic Arts program in the area of Computer Animation Studies must include at least one work from ART 230 or ART 330. Specific guidelines are required for portfolios. See advisor or the Electronic Arts Coordinator for details.

Major requirements (69 hours)

Major core (51 hours)

1. [ART 110\(3\)](#), [MED 365\(3\)](#), [MUS 216\(3\)](#).
2. One course from: [ART 210\(3\)](#), [ART 230\(3\)](#), [MED 361\(3\)](#) or [MED 382\(3\)](#). Note: course **cannot** be double-counted toward the student's selected 18 hour option.
3. [ART 300\(3\)](#).
4. Six hours from [ART 498\(3\)](#) or [MED 498\(3\)](#).
5. Complete 12-15 hours from the following history and/or theory courses: [ART 271\(3\)](#), [272\(3\)](#), [273\(3\)](#), [274\(3\)](#), [480\(3\)](#), [484\(3\)](#), [492\(3\)](#); [MED 300\(3\)](#), [304\(3\)](#), [325\(3\)](#), [355\(3\)](#), [374\(3\)](#), [375\(3\)](#), [412\(3\)](#), [454\(3\)](#), [470\(3\)](#), [570\(3\)](#), [580\(3\)](#), [581\(3\)](#); [MUS 239\(3\)](#), [241\(3\)](#). Note: chosen courses may only be used once in the major.
6. With advisor approval, complete 18-21 hours of additional supporting electives (courses not already used to fulfill a major requirement) to best augment the major option. Choose from: [ART 100\(3\)](#), [101\(3\)](#), [115\(3\)](#); any [ART](#) or [DES](#) or [MED](#) or [MUS](#) course.
7. Successful completion of the junior portfolio review and the achievement of a "C" or better grade in all required option courses completed at the time of the junior portfolio review must be achieved before admission to ART 498/MED 498, Senior Project in Electronic Arts, will be granted.
8. Public Affairs Capstone Experience will be fulfilled by completion of [ART 498\(3\)](#) or [MED 498\(3\)](#).

Complete one of the following options (18 hours):

Audio Studies option

Department of Media, Journalism and Film

1. [MED 461\(3\)](#), [MED 561\(3\)](#), [MUS 100\(2\)](#), [MUS 316\(3\)](#).
2. Seven hours from: [MED 361\(3\)](#), [MED 382\(3\)](#), [MED 492\(1-3\)](#), [MED 595\(1-3\)](#); [MUS 103\(3\)](#), [MUS 137\(1\)](#), [MUS 327\(2\)](#), [MUS 399\(1-3\)](#), [MUS 416\(3\)](#), [MUS 529\(3\)](#), [THE 558\(3\)](#). Audio Studies students must complete MUS 216 before making a portfolio application to the program.

Computer Animation Studies option

Refer to Department of Art and Design section of catalog.

Interactive New Media Studies option

Refer to Department of Art and Design section of catalog.

Video Studies option

Department of Media, Journalism and Film

1. [ART 230\(3\)](#), [MED 465\(3\)](#).
2. 12 hours from: [MED 360\(3\)](#), [MED 462\(3\)](#), [MED 466\(3\)](#), [MED 472\(3\)](#), [MED 492\(1-3\)](#), [MED 562\(3\)](#), [MED 565\(3\)](#), [MED 567\(3\)](#), [MED 582\(3\)](#), [MED 583\(3\)](#), [MED 595\(1-3\)](#). Video Studies students must complete MED 365 before making a portfolio application to the program.

- Council for the Accreditation of Educator Preparation – Modern Language/Teacher Certification in Chinese, French, German, Japanese, Latin, and Spanish (BS)

General information

The Department of Modern and Classical Languages (MCL) dedicates itself to providing the linguistic and cultural foundations necessary for students to flourish in the Twenty-first Century. Our courses prepare students to present themselves as educated citizens in the global village, schooled in the ancient traditions and the modern societies of West and East, experienced in understanding and communicating across borders and at home everywhere in a changing world.

The Department offers classes in more than a dozen different languages – both modern and classical – as well as courses on related topics, such as literature, film, culture, and translation. Students in MCL programs participate in a variety of activities which complement the Department's academic programs, such as language clubs, conversation tables, honor societies, and community outreach activities. MCL also offers education abroad opportunities, allowing students to improve the languages they study and acquire global competence in authentic contexts.

Initial placement

Initial placement refers to the specific level at which students begin coursework in a language in the department. Proper initial placement safeguards the integrity of the department's lower-division courses,

Website

MissouriState.edu/MCL/ (/MCL/)

recognizes students' prior learning experiences, and helps them save time and money. The department has adopted and enforces the following guidelines with respect to initial placement:

- Students with no prior experience in a language must enroll in the 101-level course.
- Students with transfer credit in a language (including dual credit) must enroll in the next course in the sequence, may not take the placement exam, and are not eligible to receive retroactive credit.
- Students who have studied a language in high school (without receiving dual credit), heritage speakers (students who have grown up speaking a language other than English in their homes), and other non-native speakers with prior exposure to a language must take the placement exam adopted by the department prior to enrollment in their initial language course. If no placement exam has been adopted, students must consult with a faculty member who will assess their proficiency and make an initial placement determination.
- Students whose placement exam scores are very high and who wish to begin above the 202 level may request that a faculty member assess their proficiency and eligibility for higher initial placement.
- Native speakers (students who were raised and educated in communities and countries where the language is spoken) must consult with departmental faculty for a determination of appropriate initial placement.
- Students must initially enroll in the course indicated by their placement score or faculty proficiency assessment. However, an initial placement may be adjusted downward or upward upon request by the student and with faculty approval.
- The department head has the authority to approve student requests for exceptions to the above placement guidelines.

Retroactive credit

Students who bypass levels in a language sequence as a result of initial placements determined through placement exam scores or faculty proficiency assessments may request retroactive credit for lower courses in the sequence if they complete the course into which they are initially placed with a B or better. Students who intend to major or minor in a language program may receive up to 12 hours of retroactive credit. Otherwise, the limit is 6 hours.

Accelerated pathway – Spanish minor

Because the Department recognizes that many students have acquired proficiency in Spanish as a result of previous exposure to and experience with the language, it has established an accelerated pathway for completion of the minor. The accelerated pathway allows students with demonstrated language abilities to begin at a higher point in the regular sequence. Eligible students must complete their first course (usually SPN 312) with a B or better to receive nine hours of retroactive credit. They then complete the minor by passing two additional upper-division Spanish electives.

Learners from the following groups may be eligible for the accelerated pathway, pending verification of their language proficiency:

- Heritage speakers - learners raised in Spanish-speaking households who completed secondary education in the United States.
- Native speakers - learners who completed secondary education in countries where Spanish is the primary language.
- Other speakers with advanced proficiency - learners who have developed high degrees of functional language ability because of intensive study or long-term residency in Spanish-speaking countries.

Students interested in pursuing the accelerated pathway should call the MCL office and request an appointment with the department head for an eligibility assessment.

Teacher certification

In conjunction with the College of Education, the Department offers a variety of fully accredited teacher certification options, including the Bachelor of Science in Modern Language, post-baccalaureate certification, and graduate-level alternatives.

The Foreign Language Institute

By combining students and instructional resources from Missouri State University and other area universities, the Foreign Language Institute (FLI) allows students to study languages that otherwise might not be available in the region. Missouri State University students may enroll in and receive academic credit for FLI courses in less commonly taught and critical languages, such as Arabic, Chinese, Italian, Japanese, Korean, Russian, and Portuguese. The FLI is jointly administered by the Department of Modern and Classical Languages and International Programs.

Program requirements and restrictions

Bachelor of Arts language requirement

All students pursuing a Bachelor of Arts degree must complete a language requirement of 12 hours. Students may complete 12 hours in a single language offered by the Department of Modern and Classical Languages to meet this requirement. Students with advanced proficiency in a language other than English may be exempted from this requirement with approval from the head of the Department of Modern and Classical Languages.

Bachelor of Arts fine arts restriction

Literature courses in this department will count toward the Fine Arts requirement provided those courses have not also been used to meet the foreign language requirement.

Modern and Classical Languages Courses

Arabic (ARB) courses

ARB 101 Elementary Arabic I

This course is the first part of the introductory sequence in Arabic. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Arabic-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

ARB 102 Elementary Arabic II

Prerequisite: C or better in ARB 101.

This course is the second part of the introductory sequence in Arabic. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Arabic-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

ARB 201 Intermediate Arabic I

Prerequisite: C or better in ARB 102.

This course is the first part of the intermediate sequence in Arabic. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Arabic-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ARB 202 Intermediate Arabic II

Prerequisite: C or better in ARB 201.

This course is the second part of the intermediate sequence in Arabic. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Arabic-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ARB 297 Special Topics in Arabic

Prerequisite: permission of instructor and department head.

Topics of selected interest in Arabic studies, including travel courses to Arabic-speaking countries. The specific subject matter and/or international component may vary according to resources and demand. Variable content course. May be repeated, as topics change, to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

ARB 305 Advanced Arabic Proficiency Skills

Prerequisite: C or better in ARB 202.

Readings and discussions in modern standard Arabic, continuing the method used in teaching ARB 201 and 202. Enhances communicative skills by providing intensive practice in reading, writing, listening, speaking and active control of grammar and vocabulary.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Chinese (CHI) courses

CHI 101 Elementary Chinese I

This course is the first part of the introductory sequence in Chinese. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Chinese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

CHI 102 Elementary Chinese II

Prerequisite: C or better in CHI 101.

This course is the second part of the introductory sequence in Chinese. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Chinese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent

3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

CHI 201 Intermediate Chinese I

Prerequisite: C or better in CHI 102.

This course is the first part of the intermediate sequence in Chinese. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Chinese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

CHI 202 Intermediate Chinese II

Prerequisite: C or better in CHI 201.

This course is the second part of the intermediate sequence in Chinese. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Chinese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CHI 297 Special Topics in Chinese

Prerequisite: permission of instructor and department head.

Topics of selected interest in Chinese studies, including travel courses to Chinese-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. Variable content course. May be repeated, as topics change, to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

CHI 311 Chinese Reading and Conversation

Prerequisite: CHI 202.

A course designed to develop and refine students' conversational and reading skills through short speeches, group discussion, free conversation and reading. Variable content course. May be repeated, as content changes, to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CHI 312 Chinese Reading and Composition

Prerequisite: CHI 202.

This course is designed to help students strengthen and expand their reading and writing skills in Chinese through the reading of authentic Chinese articles, grammar review, and writing practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CHI 410 Translation

Prerequisite: CHI 312.

Activities and exercises focused on oral and written translation for career fields. May be repeated once with different content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CHI 415 Business and Professional Chinese

Prerequisite: CHI 312 or above.

Introduction to Chinese language and culture as used in business and selected professions. Variable content course. May be repeated once with different content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CHI 498 Seminar Course in Chinese

Prerequisite: C or better in CHI 202 or permission of instructor and department head.

Supervised independent study in Chinese language, literature, and culture. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

French (FRN) courses

FRN 101 Elementary French I

This course is the first part of the introductory sequence in French. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of French-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 101 - French I.

[Access the CORE 42 portal](#)

FRN 102 Elementary French II

Prerequisite: C or better in FRN 101.

This course is the second part of the introductory sequence in French. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of French-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 102 - French II.

[Access the CORE 42 portal](#)

FRN 201 Intermediate French I

Prerequisite: C or better in FRN 102.

This course is the first part of the intermediate sequence in French. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of French-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FRN 202 Intermediate French II

Prerequisite: C or better in FRN 201.

This course is the second part of the intermediate sequence in French. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of French-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FRN 297 Special Topics in French

Prerequisite: permission of instructor and department head.

Topics of selected interest in French studies, including travel-courses to French-speaking countries. The specific subject matter and/or inter-national component may change from semester to semester according to resources and demand. Variable content course. May be repeated, as topics change, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

FRN 300 Service Learning in French

Prerequisite: 30 hours and concurrent registration in a French course at the 202 level or above.

This service learning component for the existing French curriculum incorporates community service with classroom instruction to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service providing instruction or other community service in the Springfield-area schools and other community groups. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

FRN 311 French Conversation

Prerequisite: FRN 201.

Oral practice in short speeches, group discussion and free conversation. May be repeated, as content changes, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FRN 312 French Grammar and Composition

Prerequisite: FRN 202.

Review of French grammar with writing practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FRN 316 French for the Professions

Prerequisite: FRN 312.

This course provides students with the fundamental French language skills needed in the professional field to communicate with French-speaking individuals. The course emphasizes specialized vocabulary building, role-play, and an understanding of francophone cultures. The linguistic and cultural insights learned in this course will prepare students to function in a complex multilingual and multicultural society. Topics may include French for health, social services, law enforcement, diplomacy, tourism, education, business, and communications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

FRN 324 Topics in Francophone Linguistics

Prerequisite: FRN 312.

This course develops students' understanding of issues in Francophone linguistics by exploring such topics as phonetics and phonology, morphology and syntax, semantics, history of the language, and regional and social language variation. The emphasis will most often be on the area of phonetics and phonology. May be repeated once with different content. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 326 Culture Populaire

Prerequisite: FRN 202.

History and culture of France and francophone countries; includes geography, philosophy and arts. May be repeated, as content changes, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FRN 335 L'Esprit francais

Prerequisite: FRN 312 or permission of instructor.

Through the study of artistic works, including fine arts, cinema, and literature, students will become more familiar with the origins, lives and influences of the most prominent Francophone figures and symbolic icons. Students will learn how to read, analyze, interpret, and discuss a wide selection of works and concepts in French; and to synthesize the material into an accurate and coherent picture of French literary and cultural developments. Variable content course. Repeatable up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 381 French Literature from the Middle Ages to the Enlightenment

Prerequisite: FRN 312.

A survey of authors, movements, ideas, and styles, e.g., Villon, Montaigne, Rabelais, Pascal, Rousseau.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 382 French Literature of the 19th and 20th Centuries

Prerequisite: FRN 312.

A survey of representative work, e.g., Hugo, Flaubert, Camus.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 410 Translation

Prerequisite: FRN 312.

Activities and exercises on oral and written translation focusing on career fields. May be repeated as course content changes up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 412 Le Cinema francophone

Prerequisite: FRN 312 or permission of instructor.

A study of culture, language, and literature through francophone film. Repeatable up to 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 414 Le Francais Vivant

Prerequisite: FRN 202.

A course designed to increase French fluency and comprehension, emphasizing modern, useful French as it is spoken today by natives. Students will explore the French language in a broad range of real everyday situations. Topics include idiomatic expressions, slang, spoken contractions, French non-verbal communication, and the language of the internet. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FRN 415 Vivre et Travailler en francais

Prerequisite: FRN 312 or permission of instructor.

Social and business interactions in the francophone world. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FRN 495 Advanced Undergraduate Seminar in French

Prerequisite: FRN 312 and FRN 326 or permission of instructor.

Study of advanced topics relating to language and proficiency development or literary and cultural themes in French or Francophone cultures. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 498 Seminar Course in French

Prerequisite: permission of instructor and department head.

Supervised independent study in literature, linguistics or other restricted topics. May be repeated for maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FRN 510 Advanced Translation

Prerequisite: FRN 312 and FRN 410, or permission of instructor.

This course builds on the translation skills acquired in prior coursework, centering on comparative study of French and English in the domains of syntax, stylistics and pragmatics, and their practical application in translation. May be taught concurrently with FRN 610. Cannot receive credit for both FRN 510 and FRN 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

FRN 524 Advanced Topics in Francophone Linguistics

Prerequisite: FRN 324.

This course focuses on specific issues in Francophone linguistics. Topics may include the study of French in its social and political contexts, French phonetics and phonology, French syntax and morphology, language variation and change in the French-speaking world, historical perspectives, and developments in theoretical and applied French linguistics. May be taught concurrently with FRN 624. Cannot receive credit for both FRN 524 and FRN 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

FRN 590 Advanced French Grammar

Prerequisite: FRN 312 or permission of instructor.

Students improve their mastery of complex grammatical features in French through the analysis of authentic spoken and written texts. Through iterative processes of text development, they will produce advanced narratives on different themes. May be taught concurrently with FRN 690. Cannot receive credit for both FRN 590 and FRN 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

FRN 610 Advanced Translation

Prerequisite: permission of instructor.

This course builds on the translation skills acquired in prior coursework, centering on comparative study of French and English in the domains of syntax, stylistics and pragmatics, and their practical application in translation. May be taught concurrently with FRN 510. Cannot receive credit for both FRN 510 and FRN 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

FRN 624 Advanced Topics in Francophone Linguistics

Prerequisite: ENG 691 or MCL 691 or permission of instructor.

This graduate seminar focuses on specific issues in Francophone linguistics. Topics may include the study of French in its social and political contexts, French phonetics and phonology, French syntax and morphology, language variation and change in the French-speaking world, historical perspectives, and developments in theoretical and applied French linguistics. May be taught concurrently with FRN 524. Cannot receive credit for both FRN 524 and FRN 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

FRN 690 Advanced French Grammar

Prerequisite: permission of instructor.

Students improve their mastery of complex grammatical features in French through the analysis of authentic spoken and written texts. Through iterative processes of text development, they will produce advanced narratives on different themes. They will also explore theories pertaining to the acquisition of language structures, and related approaches to teaching grammar to second-language learners. May be taught concurrently with FRN 590. Cannot receive credit for both FRN 690 and FRN 590.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

FRN 725 Seminar in Francophone Literature and Culture

This course will enhance students' language proficiency and cultural competence through the interpretation and analysis of selected literary, philosophical, and cultural texts from the Francophone tradition. Variable content course. May be repeated once with changed content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FRN 735 Advanced French Proficiency

This course designation is used to grant credit for prior learning on the basis of established proficiency assessments. No more than three hours of FRN 735 credit may be applied toward the requirements of any master's program or certificate.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-12			Upon demand

German (GRM) courses

GRM 101 Elementary German I

This course is the first part of the introductory sequence in German. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of German-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

GRM 102 Elementary German II

Prerequisite: C or better in GRM 101.

This course is the second part of the introductory sequence in German. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational

communicative modes while continuing to explore the cultural perspectives, products, and practices of German-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

GRM 201 Intermediate German I

Prerequisite: C or better in GRM 102.

This course is the first part of the intermediate sequence in German. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of German-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

GRM 202 Intermediate German II

Prerequisite: C or better in GRM 201.

This course is the second part of the intermediate sequence in German. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of German-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

GRM 297 Special Topics in German

Prerequisite: permission of instructor and department head.

Topics of selected interest in German studies, including travel-courses to German-speaking countries. The specific subject matter and/or inter-national component may change from semester to semester according to

resources and demand. May be repeated, as topics change, to a maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

GRM 300 Service Learning in German

Prerequisite: 30 hours and concurrent registration in a German course at the 202 level or above.

This service component for the existing German curriculum incorporates community service with classroom instruction to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service providing instruction or other community service in the Springfield-area schools and other community groups. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

GRM 304 Conversational Strategies

Prerequisite: GRM 201.

This course will introduce students to strategies for conversing in the target language. Emphasis will be placed on building vocabulary, developing listening comprehension skills, learning how to construct discussions and to use appropriate expressions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

GRM 311 German Reading and Conversation

Prerequisite: GRM 202.

A structured course designed to develop and refine students reading and conversational skills. May be repeated, as content changes, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 312 German Composition

Prerequisite: GRM 311.

A writing intensive course designed to introduce students to a variety of text types. Emphasis is placed on recognizing the differences among the texts and student practice in preparing similar original texts. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 320 German Cinema

Prerequisite: GRM 202.

The survey of major films produced in Germany serves as a basis for the study of German culture, German language, and German literature. Course emphasizes the way that film content and theme development are useful in analyzing German language usage and culture in selected films. Subject will vary from semester to semester. Examples: History and Culture Through Film; From Novel to Film; East German Film; The Image of Women in Film. Repeatable up to 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 325 Kulturkunde der deutschsprachigen Lander

Prerequisite: GRM 202.

An introduction to major historical periods and cultural movements of the German-speaking countries. Study includes geography, history, philosophy and the arts. Variable content course. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 400 Praktikum

Prerequisite: permission of instructor.

A focused course that students can combine with other German classes in order to pursue a special interest within the normal course content. May be repeated with a different content to a maximum of 3 credit hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

GRM 410 Translation

Prerequisite: GRM 312.

Activities and exercises focused on oral and written translation on career fields.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 415 German for Professional and Business Use

Prerequisite: GRM 311 or above.

Focus on advanced speaking and reading proficiency for applied use in professional fields such as administration, international relations, global studies and business.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 455 Masterpieces of 19th Century German Literature

Prerequisite: GRM 311 or above.

Selected works or authors from the 19th century. May be repeated once with a different topic. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 465 Masterpieces of 20th Century German Literature

Prerequisite: GRM 311 or above.

Selected works or authors from the 20th century. May be repeated once with a different topic. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 475 Topics in German(ic) Literature and Culture

Prerequisite: GRM 311 or above.

Selected topics in German(ic) literature and culture. May be repeated once with a different topic. Variable content course. May be taught concurrently with GRM 375. Students enrolled in GRM 475 will complete more advanced assignments. Cannot receive credit for both GRM 375 and GRM 475.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 485 Thematic Approaches to German Literature

Prerequisite: GRM 311 or above.

A survey of German literature across multiple centuries from the perspective of a particular theme. May be repeated once as topics change. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 495 Advanced Undergraduate Seminar in German

Prerequisite: GRM 312 and GRM 325 or permission of instructor.

Study of advanced topics relating to language and proficiency development or literary and cultural themes in German-language cultures. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRM 498 Seminar Course in German

Prerequisite: permission of instructor and department head.

Supervised independent study in literature, linguistics or other restricted topics. May be repeated for no more than 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

Greek (GRK) courses

GRK 101 Elementary Ancient Greek I

Essentials of grammar and vocabulary building through reading and writing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 102 Elementary Ancient Greek II

Prerequisite: C or better in GRK 101.

Continuation of GRK 101.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 201 Intermediate Ancient Greek I

Prerequisite: C or better in GRK 102.

Continuation of GRK 102 with increased emphasis on reading.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 202 Intermediate Ancient Greek II

Prerequisite: C or better in GRK 201.

Introduction to Greek literature; analysis of its subjects, forms, and ideals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 297 Special Topics in Greek

Prerequisite: permission of instructor and department head.

Topics of selected interest in Greek studies, including travel courses to Greek-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. Variable content course. May be repeated, as topics change, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

GRK 301 Studies in Greek Prose

Prerequisite: C or better in GRK 201.

An introduction to ancient Greek prose: study of the New Testament and/or such writers as Xenophon, Herodotus, Plato, and Lysias. May be repeated once with changed content. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 302 Studies in Greek Poetry

Prerequisite: C or better in GRK 201.

An introduction to ancient Greek poetry: study of works by such writers as Homer, Sophocles, and Euripides. May be repeated once with changed content. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

GRK 498 Seminar Course in Ancient Greek

Prerequisite: C or better in GRK 202 and permission of instructor and department head.

Supervised independent study in Greek literature and translation. May be repeated for a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

GRK 503 Advanced Greek Translation

Prerequisite: GRK 202.

Advanced training in the skills of translating and explicating texts in classical and koine Greek. May be repeated to 9 hours if topic varies. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Hebrew (HBW) courses

HBW 101 Elementary Biblical Hebrew I

The essentials of grammar and vocabulary building of Ancient Hebrew through reading and writing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

HBW 102 Elementary Biblical Hebrew II

Prerequisite: C or better in HBW 101.

Continuation of HBW 101.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

HBW 201 Intermediate Biblical Hebrew I

Prerequisite: C or better in HBW 102.

Continuation of HBW 102, with increased emphasis on reading.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

HBW 202 Intermediate Biblical Hebrew II

Prerequisite: C or better in HBW 201.

Introduction to Ancient Hebrew Literature; analysis of its subject, forms and ideals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

HBW 297 Special Topics in Hebrew

Prerequisite: permission of instructor and department head.

Topics of selected interest in Hebrew studies, including travel courses to Hebrew-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. May be repeated, as topics change, to a maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Hindi (HIN) courses

HIN 101 Elementary Hindi I

This course is first part of the introductory sequence in Hindi. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Hindi-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

HIN 102 Elementary Hindi II

This course is second part of the introductory sequence in Hindi. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Hindi-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Italian (ITL) courses

ITL 101 Elementary Italian I

This course is the first part of the introductory sequence in Italian. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Italian-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

ITL 102 Elementary Italian II

Prerequisite: C or better in ITL 101.

This course is the second part of the introductory sequence in Italian. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Italian-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

ITL 201 Intermediate Italian I

Prerequisite: C or better in ITL 102.

This course is the first part of the intermediate sequence in Italian. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Italian-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITL 202 Intermediate Italian II

Prerequisite: C or better in ITL 201.

This course is the second part of the intermediate sequence in Italian. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Italian-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITL 297 Special Topics in Italian

Prerequisite: permission of instructor and department head.

Topics of selected interest in Italian studies, including travel courses to Italian-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. May be repeated, as topics change, to a maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Japanese (JPN) courses

JPN 101 Elementary Japanese I

This course is the first part of the introductory sequence in Japanese. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Japanese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

JPN 102 Elementary Japanese II

Prerequisite: C or better in JPN 101.

This course is the second part of the introductory sequence in Japanese. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Japanese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

JPN 201 Intermediate Japanese I

Prerequisite: C or better in JPN 102.

This course is the first part of the intermediate sequence in Japanese. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Japanese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

JPN 202 Intermediate Japanese II

Prerequisite: C or better in JPN 201.

This course is the second part of the intermediate sequence in Japanese. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and

presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Japanese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

JPN 297 Special Topics in Japanese

Prerequisite: permission of instructor and department head.

Topics of selected interest in Japanese studies, including travel courses to Japanese-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. May be repeated, as topics change, to a maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

JPN 311 Japanese Reading and Conversation

Prerequisite: JPN 202.

This course is designed to further develop and refine students' reading and speaking skills through readings of short texts, group discussions, and free conversation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

JPN 312 Japanese Reading and Composition

Prerequisite: JPN 202.

This course is designed to help students strengthen and expand their reading and writing skills in Japanese through the reading of authentic Japanese articles, grammar review, writing and Kanji practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Korean (KOR) courses

KOR 101 Elementary Korean I

This course is the first part of the introductory sequence in Korean. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Korean-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

KOR 102 Elementary Korean II

Prerequisite: C or better in KOR 101.

This course is the second part of the introductory sequence in Korean. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Korean-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

[Access the CORE 42 portal](#)

KOR 201 Intermediate Korean I

Prerequisite: C or better in KOR 102.

This course is the first part of the intermediate sequence in Korean. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Korean-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

KOR 202 Intermediate Korean II

Prerequisite: C or better in KOR 201.

This course is the second part of the intermediate sequence in Korean. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Korean-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

KOR 297 Special Topics in Korean

Prerequisite: permission of instructor and department head.

Focus on particular aspects of Korean language and/or culture. May also be used to recognize intermediate-level proficiency or as a transfer equivalent for coursework completed at accredited domestic or international institutions. Variable content course. May be repeated, as topics change, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Language and Literature (LLT) courses

LLT 102 Scientific and Medical Terminology

A study of technical terminology as derived from Greek and Latin elements. Does not fulfill any language requirement.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

LLT 121 Classical Mythology

General Education Course (Focus on Humanities).

A study of Greek and Roman myths and legends as they appear in art, music and literature, especially epic and tragedy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	LITR 201 - Mythology.

[Access the CORE 42 portal](#)

LLT 180 The Heroic Quest

General Education Course (Focus on Cultural Competence).

Human societies have long used the theme of the quest for self-knowledge as a vehicle to assess their own cultures and to explore ethical situations arising in civic life. This course examines texts from diverse cultural traditions in which protagonists confront their inherited identity of culture and language, providing a broader perspective on self-discovery in our own society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

LLT 215 Asian Cultural Studies

A survey of Asian civilization, touching on history, literature, language, art, religion, philosophy, and culture. Course may focus on either China or Japan. May be repeated once with changed content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 225 German Cultural Studies

This course presents major historical periods and cultural movements as background information necessary to the study of the literature and culture of the German speaking countries. Major movements of art, literature, music, history, and philosophy will be treated. In order to count for any German major or minor, course must be taken concurrently with a GRM course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 240 Epics From Classical Antiquity

A comparative study of epic poems in the ancient Mediterranean area. Epics considered will be used to present differing cultural views and how these views have affected and formed the western heroic tradition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 271 Special Topics in German(ic) Literature in English Translation

This is a variable content course. May be repeated once for credit. In order to count for any German major or minor, course must be taken concurrently with a GRM course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 296 Major Authors in Translation

A course in comparative literature offered in English translation covering one of the following areas: (a) Asian, (b) Germanic, (c) Latin America, (d) Latin and Greek, (e) Romance, and (f) Slavic. May be taken once under each of the six titles. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 321 Comparative Mythology

Comparison of the ancient myths of Greece, Rome, Northern Europe, Mesopotamia, Egypt, the Far East, and the Americas. Readings are taken from ancient sources and modern interpretation. Lectures, discussion and writing assignments will deal with major deities and heroes, the ancient mystery religions and creation epics, with emphasis on cultural background borrowings, common structures of myth, and methods of interpretation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LLT 325 Greek Civilization

A survey of Greek civilization. Lectures will be based on art, archaeology, literature, and history of classical Greece and will include private life, personal religion, the professions, and literature's reflection of culture. Slide lectures.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LLT 326 Roman Civilization

A survey of Roman civilization. Lectures will be based on the art, archaeology, literature, and history of ancient Rome and will include private life, personal religion, the professions, and literature's reflection of culture. Slide lectures.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Latin (LTN) courses

LTN 101 Elementary Latin I

Grammar and pronunciation; vocabulary study through reading and derivative study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LTN 102 Elementary Latin II

Prerequisite: C or better in LTN 101.

Continuation of LTN 101.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LTN 201 Intermediate Latin I

Prerequisite: C or better in LTN 102.

Continuation of LTN 102, with increased emphasis on reading.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LTN 202 Intermediate Latin II

Prerequisite: C or better in LTN 201.

Introduction to Latin literature, analysis of its subjects, forms and ideals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LTN 312 Latin Composition

Prerequisite: LTN 202.

Review of grammar with practice in writing, giving emphasis to style.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 450 Readings in Roman Public Affairs

Prerequisite: LTN 202.

Readings in authors (Cicero, Seneca, Cato, inter alios) and genres (oratory, philosophy, letters) treating Roman civic life. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 451 Roman Elegy and Lyric

Prerequisite: LTN 202.

Designed to introduce students of classics to prominent Latin lyric poets (Catullus and Horace), and to the major works of the elegiac writers (Ovid, Propertius and Tibullus, inter alios). Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 460 Roman History

Prerequisite: LTN 202.

Intensive reading in one or more major historical writers from the time of Caesar to the reign of Trajan: Livy, Nepos, Sallust, Suetonius, or Tacitus. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 461 Roman Epic

Prerequisite: LTN 202.

Designed primarily to provide students of the Classics with a sense of appreciation for Rome's masterpiece, Vergil's Aeneid, as well as some of the writing of other epic authors, e.g. Lucan, Statius, Valerius Flaccus, et al. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 470 Roman Letters and Personal Life

Prerequisite: LTN 202.

A study of works reflecting the Roman way of life outside the political arena, including personal letters of Pliny, the Roman novel (Petronius and Apuleius), and the Philosopher's meditations on friendship, old age, and other aspects of the human condition (Cicero, Seneca). Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 471 Roman Satire

Prerequisite: LTN 202.

Works of Roman satire by such authors as Horace, Petronius, Persius, Martial, and Juvenal. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 480 Research in Latin Literature

Prerequisite: LTN 202.

A writing project designed to develop skills necessary for research in original texts of ancient authors. Must be taken in conjunction with LTN 450, 451, 460, 461, 470, 471 or 485. May be repeated once for a maximum of 2 hours. Does not count toward the 12-hour B.A. language requirement.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

LTN 485 Patristics and Late Latin Writers

Prerequisite: LTN 202.

Introduction to post-Roman Latin used from Christian period through the Renaissance. Readings from sources such as St. Augustine, Jerome, Carmina Burana, Medieval fables, Erasmus, and Sir Thomas More. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 499 Independent Studies in Latin

Prerequisite: permission of instructor and department head.

Supervised independent study in literature, linguistics or other restricted topics. May be repeated for maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

LTN 525 Seminar in Latin Literature

Prerequisite: 60 hours and permission of instructor or department head.

Selected topics in Latin literature such as genre studies, period studies, or concentration on one or more authors. May be repeated once with changed content. Variable content course. May be taught concurrently with LTN 625. Cannot receive credit for both LTN 625 and LTN 525.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LTN 625 Seminar in Latin Literature

Selected topics in Latin literature such as genre studies, period studies, or concentration on one or more authors. May be repeated once with changed content. Variable content course. May be taught concurrently with LTN 525. Cannot receive credit for both LTN 525 and LTN 625.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Modern and Classical Languages (MCL) courses

MCL 100 Language and Culture in Global Context

General Education Course (Focus on Cultural Competence).

This course presents a survey of a variety of world languages and the cultures that share them. Class discussions and readings emphasize the connections between languages and geopolitical, historical, and cultural themes, which will also allow students an exploration of academic and professional career opportunities in fields that require language skills and cultural competency.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MCL 197 Introduction to a Foreign Language

Special elementary studies in a foreign language and culture. May be repeated, as topics change, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 297 Intermediate Studies in a Foreign Language

Special intermediate studies in a foreign language and culture. May be repeated, as topics change, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 303 Coping with Culture

This course is designed to introduce students to a discipline-specific (e.g., Hotel and Restaurant Management; Agribusiness; International Finance, Business and Banking; Languages for Vocalists, Scientists, et al.; Travel Industry; Medical Professions, etc.) understanding of cultural differences and to provide them with a limited vocabulary specific to their discipline. It gives students a rudimentary idea of how languages (e.g., French, German, Spanish) work, and helps them achieve a basic level of expression in these languages in situations relative to their profession. In this semester-long course, students rotate every five weeks from one language instructor to another.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MCL 310 Introduction to Translation and Interpreting

Prerequisite: CHI 202 or FRN 202 or GRM 202 or SPN 202 or permission of instructor.

This non-language-specific course introduces students to key concepts in translation and interpreting theory and practice, including terminology and concepts from linguistics applicable to translation, the role of translation and interpreting in local and global nonprofit and professional contexts, and information about training and certification programs. This course provides a conceptual foundation for other, language-specific courses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MCL 397 Advanced Studies in a Foreign Language

Special advanced studies in a foreign language and culture. May be repeated, as topics change, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 400 Foreign Language Practicum

Prerequisite: permission of instructor.

A focused and applied course that students can combine with other language classes in order to pursue a special interest. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 410 Translation Capstone Project

Prerequisite: permission of instructor and department head.

Students work closely with a partner or client from the community and a faculty mentor from their language area to complete a substantial, professional-grade translation project that integrates the theoretical concepts and practical skills obtained in previous translation-related coursework.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

MCL 413 Teaching of Foreign Languages

Prerequisite: equivalent of 12 hours in foreign language, EDC 350, and admitted to Teacher Education Program.

Teaching of foreign languages in secondary schools; practical application of techniques and methods. The practical application includes a practicum with teaching and observation components. Credited only on BSEd

(Secondary). A grade of C or better is required in this course in order to take MCL 493 or MCL 496. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Fall

MCL 491 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

MCL 493 Supervised Teaching Seminar

Prerequisite: MCL 413; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; approval for supervised teaching; all course work required for the major in Modern Languages-Teacher Education Option completed; minimum combined (Missouri State and transfer) GPA of 2.75; minimum GPA of 3.00 in Modern Language of Certification, with no grade lower than a "C"; minimum GPA of 3.00 in professional education; and concurrent enrollment in MCL 496.

A seminar focused on the analysis of diverse aspects of teaching modern languages, to include second-language proficiency and literacy development, student learning and assessment, and field experiences during student teaching. Topics may include: Proficiency, Best Practices, The Job Search, Professional Development, Diversity, Assessment, and Classroom Management. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

MCL 495 Languages and Society Capstone

Prerequisite: permission of instructor or department head.

In this capstone course for modern languages majors, students work closely with a faculty mentor from their language area to complete a project or degree paper which relates their previous coursework and other language-intensive experiences (such as Education Abroad) to the University's public affairs mission. The course may also include other kinds of assessments designed to measure the degree to which students have mastered program-specific learning outcomes. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MCL 496 Supervised Teaching

Prerequisite: concurrent enrollment in MCL 493.

Student observes then teaches under the direction of the cooperating teacher and university supervisor. Student participates in school-related activities and attends both individual and group conferences. The course will include regular meetings with the University supervisor. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. The course will also include submission of the required state performance assessment from the supervised teaching. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
10			Fall, Spring

MCL 497 Superior Studies in a Foreign Language

Special superior studies in a foreign language and culture. May be repeated, as topics change, to a maximum of 6 hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 499 Program Assessment

Prerequisite: permission of instructor.

Learning outcomes assessment required of all students graduating with MCL majors, including teacher education candidates. In order to complete the course with a passing grade, students must submit official results for each of the assessments identified for their program(s). Assessments vary by program, are subject to change, and may require the payment of registration fees by the student. Students are encouraged to consult departmental faculty or the department's web site for current information regarding assessments and fees. Students should only register for this course and schedule the requisite assessments during the semester or term in which they intend to graduate or during their final semester of residency. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Upon demand

MCL 550 Advanced Study Abroad

Prerequisite: FRN 311 or GRM 311 or SPN 205 and permission of instructor and language advisor.

Study in an area of the world where the target language is spoken. This may be taken through the Department's existing program or at any accredited institution. May be taught concurrently with MCL 650. Cannot receive credit for both MCL 650 and MCL 550.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-6			Upon demand

MCL 597 Topics for Teachers of Foreign Languages

Prerequisite: 60 hours.

Topics of discipline-specific interest to foreign language teachers, e.g., specialized technological resources or contemporary cultural materials. Sections may be specific to a particular language or concern general pedagogical issues. May be repeated up to 6 hours. Variable content course. May be taught concurrently with MCL 697. Cannot receive credit for both MCL 697 and MCL 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 650 Advanced Study Abroad

Study in an area of the world where the target language is spoken. This may be taken through the Department's existing program or at any accredited institution. May be taught concurrently with MCL 550. Cannot receive credit for both MCL 550 and MCL 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-6			Upon demand

MCL 688 Sociolinguistics for Language Teaching

This course explores various sociolinguistic topics, with an emphasis on those relevant for language teaching, such as language attitudes; standard languages; literacy; language variation; multilingualism; language planning and policy; and language maintenance and loss. Cannot receive credit for MCL 688 and ENG 688 or ENG 592.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

MCL 691 Principles of Linguistics

This advanced survey of linguistics covers areas such as phonology, morphology, syntax, semantics, discourse, pragmatics, language change, and language variation. Cannot receive credit for both MCL 691 and ENG 691 or 591.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MCL 695 Principles of Second Language Acquisition

This course blends a historical overview of language acquisition theories with a focus on recent developments and their impact on second-language instructional methodologies. Cannot receive credit for both MCL 695 and ENG 695 or ENG 595.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MCL 697 Topics for Teachers of Foreign Languages

Topics of discipline-specific interest to foreign language teachers, e.g., specialized technological resources or contemporary cultural materials. Sections may be specific to a particular language or concern general pedagogical issues. May be repeated up to 6 hours. Variable Content Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 700 Advanced Language Teaching Methods and Technology

This course will acquaint language teachers with current second language research and teaching practice, with emphasis on the uses of technology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MCL 701 Applied Foreign Language Practicum

Prerequisite: permission of instructor.

An independent studies option designed to allow students to work closely with a graduate faculty mentor to develop and implement a project that integrates principles and/or practices pertinent to second language acquisition or applied linguistics. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 706 Materials and Assessments in Foreign Language Teaching

Prerequisite MCL 700. This course reviews theoretical perspectives in foreign language teaching and learning, addressing their practical applications for the development of classroom materials and assessments. Students design teaching activities to promote the development of language knowledge and skills that focus on speaking, listening, reading, pronunciation, grammar, vocabulary, pragmatics and cultural competence.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MCL 710 Research Methods in Second Language Acquisition

This course focuses on methods of conducting research in the area of second-language acquisition. Students will learn how to read, interpret, synthesize, and apply SLA research and how to design and conduct studies and disseminate results.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MCL 724 Seminar in Linguistics for Foreign Languages

Focused exploration of topics in linguistics, phonetics and phonology, semantics, grammar and syntax, language history, language variation and change, and language acquisition as they pertain to French and/or Spanish. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MCL 730 Summer Invitational Institute

Prerequisite: permission of Program Coordinator or Department Head.

An intensive course in the writing process and the writing curriculum, designed for experienced K-16 teachers across the disciplines using the National Writing Project model. Readings of current theory and research will be related to participants' experiences as writers and as teachers. Cannot receive credit for both MCL 730 and ENG 730.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-6			Spring

MCL 735 Supervised Proficiency Development (Independent Study)

After an assessment of their language proficiency, students receive personalized guidance and complete assessments designed to help them to strengthen their interpretive, interpersonal, and presentational skills in the target language. This course is open to students at the Intermediate Level on the ACTFL Proficiency Scale. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MCL 798 Degree Papers

Prerequisite: permission of Department Head or Program Coordinator.

Independent research and writing toward completion of degree papers. Consultation with a designated MCL/ENG graduate faculty member and topic approval from the Program Coordinator or the Department Head are required. Not open to students writing theses to satisfy the master's research requirement. May not be repeated. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MCL 799 Thesis

Prerequisite: permission of instructor.

In consultation with MCL and Education advisors, a student may elect to write a thesis on a topic within the discipline. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Portuguese (PTG) courses

PTG 101 Elementary Portuguese I

This course is the first part of the introductory sequence in Portuguese. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Portuguese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	LANG 105 - Foreign Language I.

[Access the CORE 42 portal](#)

PTG 102 Elementary Portuguese II

Prerequisite: C or better in PTG 101.

This course is the second part of the introductory sequence in Portuguese. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational

communicative modes while continuing to explore the cultural perspectives, products, and practices of Portuguese-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring	LANG 106 - Foreign Language II.

SPN 102 Elementary Spanish II

Prerequisite: C or better in SPN 101.

This course is the second part of the introductory sequence in Spanish. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Spanish-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	LANG 104 - Spanish II.

[Access the CORE 42 portal](#)

SPN 103 Elementary Spanish I and II

This course encompasses in one semester what is typically offered as the first and second part of the introductory sequence in Spanish (SPN 101 and SPN 102). Students acquire Novice High-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Spanish-speaking peoples. The amount of contact time for class meetings per week is twice as much as in one SPN 101 or SPN 102 course. Students with prior credit for SPN 101 and/or SPN 102 cannot receive credit toward graduation for SPN 103.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6	6	0	Fall, Spring

SPN 201 Intermediate Spanish I

Prerequisite: C or better in SPN 102 or SPN 103.

This course is the first part of the intermediate sequence in Spanish. Students reinforce Novice High-Level proficiency and acquire Intermediate Low-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Spanish-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 202 Intermediate Spanish II

Prerequisite: C or better in SPN 201.

This course is the second part of the intermediate sequence in Spanish. Students reinforce Intermediate Low-Level proficiency and acquire Intermediate Mid-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Spanish-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 203 Intermediate Spanish I and II

Prerequisite: SPN 102 or SPN 103.

This course encompasses in one semester what is typically offered as the first and second part of the intermediate sequence in Spanish (SPN 201 and SPN 202). Students acquire Intermediate Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes, while exploring the cultural perspectives, products, and practices of Spanish-speaking peoples. The amount of contact time for class meetings per week is twice as much as in one SPN 201 or SPN 202 course. Students with prior credit for SPN 201 and/or SPN 202 cannot receive credit toward graduation for SPN 203.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6	6	0	Fall, Spring

SPN 205 Spanish Proficiency Skills

Prerequisite: C or better in SPN 201 or SPN 203.

This course focuses on the development of formal and informal oral communication skills through oral practice in authentic contexts stressing extensive vocabulary development and cultural information relevant to the Spanish-speaking world. Native and heritage speakers (students who grew up in households where Spanish was frequently spoken) must enroll in the heritage language section of this course. For details, contact a Spanish section faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 290 Intermediate Grammar Review

Prerequisite: SPN 202 or SPN 203.

This course is designed to review and practice previously-learned grammatical concepts in Spanish as well as to learn to recognize and use specific advanced structures in the Spanish language. To this end, students will expand their knowledge of vocabulary and grammar through practice in both spoken and written Spanish, and the class will be conducted in Spanish. This course is recommended for intermediate-level students who want and need more grammar instruction after recently completing SPN 202 or 203.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

SPN 297 Special Topics in Spanish

Prerequisite: permission of instructor and department head.

Topics of selected interest in Spanish studies, including travel-courses to Spanish-speaking countries. The specific subject matter and/or international component may change from semester to semester according to resources and demand. May be repeated, as topics change, to a maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

SPN 300 Service Learning in Spanish

Prerequisite: 30 hours and concurrent registration in a Spanish course at the 202 level or above.

This service component for the existing Spanish curriculum incorporates community service with classroom instruction to provide an integrative learning experience that addresses the practice of citizenship and promotes

an awareness of and participation in public affairs. Includes 40 hours of service providing instruction or other community service in the Springfield-area schools and other community groups. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

SPN 312 Spanish Composition

Prerequisite: SPN 202 or SPN 203 or SPN 205.

This course targets the development of composition skills, focusing on intensive grammar review, vocabulary building, and the discursive and stylistic elements of a variety of written genres. Several essays will be assigned to help students to develop into effective writers in Spanish. Native and heritage speakers (students who grew up in households where Spanish was frequently spoken) must enroll in the heritage language section of this course. For details, contact a Spanish section faculty member.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 314 Hispanic Contemporary Issues

Prerequisite: SPN 205 and SPN 312.

This course examines recent historical events and current popular trends and movements using multiple media sources (films, the internet, magazines, songs, music, photographs and television) to better understand contemporary Hispanic/Spanish culture. The focus of the course is on the development of topics for conversational content, analysis, presentations and written essays in Spanish.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 316 Spanish for the Professions

Prerequisite: SPN 312.

Students will learn Spanish-language skills needed in the professional field in order to communicate with Spanish-speaking individuals. This course emphasizes specialized vocabulary building, role-play, and an understanding of Hispanic cultures. The linguistic and cultural insights learned in this course will prepare students to function better in a complex multilingual and multicultural society. Topics may include Spanish for law enforcement, social services, education, medicine, business, and communications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 317 Medical Spanish

Prerequisite: SPN 312.

This course introduces students to Spanish terminology used in health care contexts. In addition to learning medical terminology, students practice and master basic concepts pertinent to communicating in Spanish with patients and health care providers. Students also practice straightforward medical interpreting scenarios.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 318 Spanish for Law Enforcement

Prerequisite: SPN 312.

This course is intended for students who wish to enhance their basic and intermediate Spanish skills in the law enforcement and the legal fields. Students will develop skills to interact successfully in informal and formal contexts with victims, witnesses, and other legal system participants. This course will also cover topics that relate to Hispanic cultural views, particularly with regard to the legal system, authority perceptions, and social justice to help students respond appropriately within the law enforcement context.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 320 Hispanic Cinema

Prerequisite: SPN 312.

A survey of major, twentieth-century films produced in Spanish throughout the Spanish-speaking world. Course features a study of directors and works, technique of cinematography, film content and theme development, and analysis of Spanish-language usage and culture in selected films. The relationship between film and Spanish literature and art is also studied. Selected films are also viewed and studied over the course of the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	1	Spring

SPN 324 Introduction to Spanish Linguistics

Prerequisite: SPN 312.

Develops students' understanding of issues in Spanish linguistics by exploring such topics as phonetics and phonology, morphology and syntax, semantics, history of the language, and regional and social language variation. Variable content course. May be repeated once with different content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 325 Civilization of Spain

Prerequisite: SPN 312.

Origin and development of Iberian culture; includes geography, history, philosophy and arts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

SPN 326 Civilization of Spanish America

Prerequisite: SPN 312.

Origin and development of Spanish American culture; includes geography, history, philosophy, and the arts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 410 Translation

Prerequisite: SPN 312.

Activities and exercises in oral and written translation focusing on career fields.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 415 Business Spanish

Prerequisite: SPN 312 or higher.

This course presents language skills and business terminology necessary for future careers in business, trade, marketing, or commerce. Emphasis is given to business related scenarios such as personal interviews, business writing etiquette, etc. Course also examines political, economic, social, and cultural factors which affect business in the Hispanic countries and the U.S. Hispanic community.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 450 Modern Peninsular Literature

Prerequisite: SPN 312.

Selected works or authors from Modern Peninsular literature. May be repeated once with a different topic. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

SPN 460 Spanish American Literature

Prerequisite: SPN 312.

Selected works or authors from Spanish American Literature. May be repeated once with a different topic. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

SPN 480 Directed Readings

Prerequisite: permission of instructor and department head.

May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

SPN 495 Advanced Undergraduate Seminar in Spanish

Prerequisite: SPN 325 or SPN 326; and SPN 450 or SPN 460; or permission of instructor.

Study of advanced topics relating to language and proficiency development or literary and cultural themes in Spanish or Hispanic cultures. Variable content course. May be repeated, as content changes, to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SPN 510 Advanced Translation

Prerequisite: SPN 410.

Builds on the translation and interpreting skills acquired in SPN 410. Students will be exposed to a variety of translation theories and methods and will increase their overall language proficiency as they gain further practical translation experience in a number of genres. May be taught concurrently with SPN 610. Cannot receive credit for both SPN 610 and SPN 510.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

SPN 524 Advanced Topics in Hispanic Linguistics

Prerequisite: SPN 324.

This course focuses on specific issues in Hispanic linguistics with an emphasis on their applicability to learning and teaching Spanish. Topics may include the study of Spanish in its social and political contexts, Spanish phonetics and phonology, Spanish syntax and morphology, language variation and change in the Spanish-speaking world, historical perspectives, and developments in theoretical and applied Spanish linguistics. May be taught concurrently with SPN 624. Cannot receive credit for both SPN 524 and SPN 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

SPN 590 Advanced Spanish Grammar

Prerequisite: SPN 312 or permission of instructor.

Students improve their mastery of complex grammatical features in Spanish through analysis of authentic written texts and spoken language and through practice and application. May be taught concurrently with SPN 690.

Cannot receive credit for both SPN 590 and SPN 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

SPN 610 Advanced Translation

Builds on the translation and interpreting skills acquired in SPN 410. Students will be exposed to a variety of translation theories and methods and will increase their overall language proficiency as they gain further practical translation experience in a number of genres. May be taught concurrently with SPN 510. Cannot receive credit for both SPN 510 and SPN 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

SPN 624 Advanced Topics in Hispanic Linguistics

This course focuses on specific issues in Hispanic linguistics with an emphasis on their applicability to learning and teaching Spanish. Topics may include the study of Spanish in its social and political contexts, Spanish phonetics and phonology, Spanish syntax and morphology, language variation and change in the Spanish-speaking world, historical perspectives, and developments in theoretical and applied Spanish linguistics. May be taught concurrently with SPN 524. Cannot receive credit for both SPN 524 and SPN 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (odd-numbered years)

SPN 690 Advanced Spanish Grammar

Students improve their mastery of complex grammatical features in Spanish through analysis of authentic written texts and spoken language and through practice and application. They will also explore theories pertaining to the acquisition of language structures and related approaches to teaching grammar to second language learners. May be taught concurrently with SPN 590. Cannot receive credit for both SPN 590 and SPN 690.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

SPN 725 Seminar in Hispanic Literature and Culture

This course will enhance students' language proficiency and cultural competence through the interpretation and analysis of selected literary, philosophical, and cultural texts from the Hispanic tradition. Variable content course. May be repeated once with changed content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

SPN 735 Advanced Spanish Proficiency

This course designation is used to grant credit for prior learning on the basis of established proficiency assessments. No more than three hours of SPN 735 credit may be applied toward the requirements of any master's program or certificate.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-12			Upon demand

Swahili (SWA) courses

SWA 101 Elementary Swahili I

This course is the first part of the introductory sequence in Swahili. Students acquire Novice Mid-level proficiency in the interpersonal, interpretive, and presentational communicative modes and begin to explore the cultural perspectives, products, and practices of Swahili-speaking peoples.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

SWA 102 Elementary Swahili II

Prerequisite: SWA 101.

This course is second part of the introductory sequence in Swahili. Students reinforce Novice Mid-level proficiency and acquire Novice High-level competence in the interpersonal, interpretive, and presentational communicative modes while continuing to explore the cultural perspectives, products, and practices of Swahili-speaking peoples.

Modern Language

Major(s)

Modern Language (non-comprehensive)

Bachelor of Science

Major requirements (39 hours):

Students pursuing the Bachelor of Science* in Modern Language (non-comprehensive) complete 33 hours of coursework in a single modern language and a minor. This flexible structure enables students to achieve advanced proficiency in at least one modern language, to understand the cultural factors that affect how members of other language communities view the world and express themselves, to analyze and interpret target-language texts and other cultural products, and to apply those skills and insights in a variety of professional and academic settings.

1. [MCL 100\(3\)](#) or [IDS 297\(3\)](#).
2. 33 hours in coursework beyond the 103 level in a single modern language, as approved by an advisor (language courses at the 101, 102, and 103 level may not be counted toward this major).
3. The 33-hour requirement must include at least one upper division literature course and one upper division culture or history course of the single Modern Language as approved by an advisor.
4. Public Affairs Capstone Experience: [MCL 495\(3\)](#).
5. Minor required (or second major). A minor chosen from within the Department of Modern and Classical Languages must be in a different language than the major.

* Students who wish to complete a Bachelor of Arts degree in a language may pursue an individualized major.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Modern Language (comprehensive)

Bachelor of Science

Major requirements (61-77 hours):

Students pursuing the Bachelor of Science¹ in Modern Language complete 33 hours of coursework in a single modern language and an option relating to that language. This flexible structure enables students to achieve advanced proficiency in at least one modern language, to understand the cultural factors that affect how members of other language communities view the world and express themselves, to analyze and interpret target-language texts and other cultural products, and to apply those skills and insights in a variety of professional and academic settings.

Major core (39 hours):

1. [MCL 100\(3\)](#) or [IDS 297\(3\)](#).
2. 33 hours in coursework beyond the 103 level in a single modern language, as approved by an advisor (language courses at the 101, 102 and 103 level may not be counted toward this major.)²
3. The 33-hour requirement must include at least one upper division literature course and one upper division culture or history course of the single Modern Language as approved by an advisor.
4. Public Affairs Capstone Experience: [MCL 495\(3\)](#).

Complete one of the following options:

Second Language option (24 hours):

1. Complete 24 hours in a second modern language or complete 12 hours beyond the 103 level in a second modern language and 12 hours in coursework related to that language or language family, as approved by an advisor.

Translation option (22 hours):

1. [ACC 201\(3\)](#) or [MGT 340\(3\)](#) or [MKT 350\(3\)](#); [COM 260\(3\)](#); [ENG 221\(3\)](#) or [ENG 321\(3\)](#); [ENG 296\(3\)](#); [MCL 310\(3\)](#); [MCL 410\(1\)](#).
2. [CHI 410\(3\)](#) and [415\(3\)](#); or [FRN 410\(3\)](#) and [415\(3\)](#); or [GRM 410\(3\)](#) and [415\(3\)](#); or [SPN 410\(3\)](#) and [415\(3\)](#). These courses will also count towards the 33 credit hours in coursework in a single Modern Language.

Applied Business option (24 hours):

1. [BUS 135\(3\)](#) and [MGT 340\(3\)](#).
2. [CHI 410\(3\)](#) and [415\(3\)](#); or [FRN 410\(3\)](#) and [415\(3\)](#); or [GRM 410\(3\)](#) and [415\(3\)](#); or [SPN 410\(3\)](#) and [415\(3\)](#). These courses will also count towards the 33 credit hours in coursework in a single Modern Language.
3. 12 hours of coursework related to a single business focus, industry, or profession, subject to approval from the Office of the Dean of the College of Business.³

Teacher Certification option (38 hours):

1. Complete the [Professional Education Courses and Competencies](#), including the Teaching Methods ([MCL 413](#)) and Supervised Teaching ([MCL 493](#) and [496](#)) courses, and all other applicable certification requirements. Refer to the [Teacher Education Program](#) section of catalog.

Notes:

¹ Students who wish to pursue a Bachelor of Arts in a language should review the [Individualized Major website \(/Individualized/default.htm\)](#). This option may be more attractive for students considering graduate studies or whose goals are better served by a Bachelor of Arts degree. Students should contact the Academic Advising and Transfer Center for detailed information and procedures early in their junior year.

² If a student pursues a minor in the Department of Modern and Classical Languages it must be in a different language than the major.

³ Prerequisites may apply. Students may not apply more than 24 credit hours of College of Business coursework toward this option.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Applied Second Language Acquisition

Eligible Missouri State undergraduate students in the Department of Modern and Classical Languages may apply for admission to the Applied Second Language Acquisition program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 9 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/Applied-Second-Language-Acquisition.htm\)](#) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Spanish for the Health and Human Services Certificate

Spanish for the Health and Human Services

This certificate is jointly offered by the School of Social Work and the Department of Classical and Modern Languages. The certificate is designed to improve Spanish skills and cultural competencies among health and human service students and professionals to address a growing need for bilingual service providers in southwest Missouri.

This certificate is administered by the School of Social Work.

Admission requirement

Complete SPN 312(3), Spanish Composition, with a grade of C or better or through accelerated pathway for Heritage speakers or proficiency placement exam.

Program requirements (12 hours)

1. [SPN 316\(3\)](#), [SPN 317\(3\)](#), [SWK 375\(3\)](#), [SWK 599\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a GPA of at least 2.50 or higher in courses used to complete the certificate requirements.

Admission and audition requirements

Admission and audition requirements

Music degrees are designed to develop the student's abilities for performance, public school certification for teaching, private teaching, or composition. These degrees also prepare students for graduate study in music.

Students desiring to pursue a BA, BMus, BME, or BS music major or minor must first audition for a committee of applied faculty in that student's desired performance area.* This audition should take place during the semester prior to the first semester of enrollment in applied lessons. All students will be required to demonstrate, through successful completion of a Music Theory Entrance Exam, a rudimentary ability to relate musical sound to notation and terminology before beginning the theory and ear-training sequence.

All music majors must apply for formal admission to the degree program. This typically will occur at the end of the sophomore year, and must be completed before the student has finished 75 hours. In order to be admitted to the degree program, students must pass MUS 298, the piano proficiency exam, and have a combined (Missouri State and transfer) GPA of at least 2.75 and a combined (Missouri State and transfer) GPA of at least 3.00 in Music courses. Students who have not been formally admitted to the degree program will be unable to enroll in 300-level and above applied study.

*Students pursuing the minor in either Composition or Recording Arts are not required to audition in a performance area.

Music Courses

Music (MUS) courses

MUS 100 Music Fundamentals

Rudiments of music (scales, key signatures, rhythms, intervals, notation) with their application within the context of music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
2	2	0	Upon demand	MUSC 101 - Music Fundamentals.

[Access the CORE 42 portal](#)

MUS 101 Beginning Piano

Group instruction for students who wish to explore music through the medium of piano. Course content includes development of keyboard familiarity and technique, introduction to music reading, improvisation, repertory pieces, and rudiments of music theory. No previous piano experience is required. Does not apply toward a major or minor in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 103 Theory and Musicianship I

Prerequisite: MUS 100 or permission of department.

Review and drill of music fundamentals; notation, clefs, intervals, scales, rhythm and meter; music terms; written and oral construction of triads and seventh chords; analysis and writing of four-part harmony; non-harmonic tones, cadences, figured bass. Sight singing and dictation of melodies and rhythms; intervals and chord quality identification; error detection.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

MUS 104 Theory and Musicianship II

Prerequisite: MUS 103.

Four-part harmony incorporated all diatonic chords in all inversions; secondary dominant and secondary leading tone chords. Sight singing and dictation of melodies and rhythms; intervals and chord quality identification; error detection; dictation of four-part harmony.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

MUS 107 Recital Attendance I

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. Requirements announced at the first convocation of each semester. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 108 Recital Attendance II

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. Requirements announced at the first convocation of each semester. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 119 Jazz Theory/Jazz Keyboard Skills

Prerequisite: MUS 103.

The study of jazz theory and the practical application of functional jazz keyboard skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 131 String Techniques and Skills for the Music Educator

Instruction in the basic skills of playing and teaching violin, viola, cello and bass in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to string instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

MUS 133 Guitar for the Music Educator I

Provides future music teachers with the working knowledge, experience and skills to use the guitar for accompanying music making as well as for teaching fretted instruments in school music classes and ensembles.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 135 Voice Class I

Fundamentals of voice production, breath management, resonance and diction. Voice diagnosis and application of vocal principles are given on an individual basis. Appropriate vocal exercises and song literature are employed for the development of a singing technique.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 136 Voice Class II

Prerequisite: MUS 135.

Application of vocal principles is given on individual basis with the introduction of interpretation, style, and Italian diction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 137 Piano Class I

Prerequisite: MUS 100 or MUS 103.

Coordination exercises, major scales, harmonization with I, IV, V7 chords, transposition, reading, elementary repertoire.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 138 Piano Class II

Prerequisite: MUS 137.

Minor scales, harmonization of major and minor melodies, transposition, reading, repertoire.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 141 Single Reed Techniques and Skills for the Music Educator

Introduction in the basic skills and playing and teaching clarinet and saxophone in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to

woodwind instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 142 Flute and Double Reed Techniques and Skills for the Music Educator

Introduction in the basic skills of playing and teaching flute and double reeds in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to woodwind instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

MUS 144 High Brass Techniques and Skills for the Music Educator

Introduction in the basic skills of playing and teaching trumpet and horn in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to brass instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 145 Low Brass Techniques and Skills for the Music Educator

Introduction in the basic skills of playing and teaching trombone and euphonium or tuba in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to brass instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

MUS 146 Percussion Techniques and Skills for the Music Educator I

Introduction in the basic skills of playing and teaching percussion instruments in a class situation. Examination of performance problems, diagnostic techniques, teaching strategies, and other specialized topics related to percussion instruction will be studied, and materials used in public school teaching will be examined and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 148 Introduction to Music Teaching

This course is an orientation to Pre-K12 school music teaching across different class settings (e.g. general music, ensembles, music technology, fretted instruments, keyboard, music analysis, composition, etc.) and to the music teacher education program. Students explore and experience varied roles and responsibilities of music teaching with a diversity of learners through hands-on practicum experiences. Students will design and lead musical activities, complete field observations and instruction and examine the working, knowledge experience and skills involved in teaching music. Initial formative assessments of the students' ability to lead instruction with their voice and fretted instruments (i.e., guitar ukulele) will be completed. The field observation and instruction component requires the student to carry professional liability insurance and obtain a Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI fingerprinting background check.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	1	Fall, Spring

MUS 149 String (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in violin, viola, violoncello, bass viola. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 151 Piano

Prerequisite: permission of instructor.

Applied instruction in piano. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 152 Organ

Prerequisite: permission of instructor.

Applied instruction in organ. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 153 Voice

Prerequisite: permission of instructor.

Applied instruction in voice. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 155 Woodwind (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in flute, oboe, clarinet, bassoon, saxophone. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 156 Brass (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in horn, trumpet, trombone, baritone, and tuba. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 157 Percussion

Prerequisite: permission of instructor.

Applied instruction in percussion instruments. May be repeated for credit.

MUS 158 Guitar

Prerequisite: permission of instructor.

Applied instruction in classical guitar. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 159 Harp

Prerequisite: permission of instructor.

Applied instruction in harp. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 160 Carillon

Prerequisite: permission of instructor.

Applied instruction in carillon. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 161 Men's Chorus

A choral ensemble of men's voices that studies and performs music of various historical periods and genres both on and off campus. The Men's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 162 Choral Union

Chorus Union, a mixed choir of students and community members, rehearses one evening per week and performs concerts throughout the year. Choral Union collaborates with other choral ensembles during the academic year and performs a variety of choral literature. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music. Open to all students and community members by audition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
1	0	2	Fall, Spring	PERF 102C - Music Performance-Choir.

[Access the CORE 42 portal](#)

MUS 163 Women's Chorus

A choral ensemble of women's voices that studies and performs music of various historical periods and genres both on and off campus. The Women's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 168 Chorale

Chorale is a chorus of mixed men's and women's voices that studies and performs advanced choral repertoire both on and off campus. The Chorale will collaborate with other vocal and instrumental ensembles during the academic year. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 172 Small Ensemble

Prerequisite: permission of instructor.

Ensembles may be arranged each semester in piano, voice, strings, wind instruments and percussion to meet needs of participating students and the department. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 173 Chamber Orchestra

Prerequisite: permission of instructor.

Small instrumental ensemble, consisting primarily of strings and varying combinations of wind, brass, percussion, and keyboard instruments, devoted to the study and performance of music written for that medium. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	1	Fall, Spring

MUS 174 Jazz Ensemble

Prerequisite: permission of instructor.

Laboratory course in instrumentation, materials, arranging and organization of Jazz Ensemble. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 175 Band

Band provides opportunities for performance with University Wind Bands, i.e. Wind Ensemble, Wind Symphony, Concert Band. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
1	0	4	Fall, Spring	PERF 102B - Music Performance-Band.

[Access the CORE 42 portal](#)

MUS 176 University Symphony

The symphony performs music from the standard symphonic literature and cooperates with other ensembles to perform major choral and operatic works. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
1	0	2	Fall, Spring	PERF 102O - Music Performance-Orchestra.

[Access the CORE 42 portal](#)

MUS 177 Marching Band

Marching band performs as a unit during football season. Band performs on campus, in area high schools, and in the stadia of other colleges. Auditions for placement and additional group work required. Band grants available to qualified students. Fees and assessments apply to course. May be repeated for credit. Only 8 hours of large ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 178 University/Community Band

Prerequisite: permission of instructor.

Traditional-style concert band which provides performance opportunities for musicians from the university and the community at large. At least one concert is presented each semester. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
1	0	2	Fall, Spring	PERF 102B - Music Performance-Band.

[Access the CORE 42 portal](#)

MUS 192 Accompanying

Prerequisite: permission of instructor.

Development of skills in accompanying for pianist. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 193 Opera Workshop

Prerequisite: permission of instructor.

Preparation and production of opera as it pertains to singing actors and ensembles. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 200 Principles and General Methods of Music Education

Prerequisite: MUS 148.

This serves as the gateway course to the teacher music education program. An overview of school organization, management techniques, goals, objectives, assessment, technology, curriculum preparation, unit planning, and diversity as a knowledge base for K-12 music teachers is developed through student projects. Students participate in a 30-hour field experience in area schools. The portfolio checkpoint required for admission to teacher education will occur during this course. A grade of "C" or better in this course is required to be admitted to the teacher education program. The field observation component requires the student to carry professional liability insurance, a current and valid TB test, and obtain a Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI fingerprinting background check.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	4	Fall, Spring

MUS 203 Theory and Musicianship III

Prerequisite: MUS 104.

Chromatic harmony including borrowed chords and augmented sixth chords; elementary and advanced modulation; smaller forms. Sight singing and dictation of melodies and rhythms; error detection; modulation to closely related keys; dictation and identification of chromatic harmony.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

MUS 204 Theory and Musicianship IV

Prerequisite: MUS 203.

Advanced chromatic harmony; twentieth-century and contemporary techniques; larger forms. Sight singing and dictation of melodies and rhythms; error detection; harmonic dictation; diatonic modes and other non-tonal scales; improvisation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

MUS 207 Recital Attendance III

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall

MUS 208 Recital Attendance IV

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 216 Introduction to Audio Techniques

Prerequisite: departmental permission.

The study and application of a wide variety of techniques used in the commercial music industry. Topic areas include sound and hearing, waveform theory, acoustics, microphones, multi-track recording, and basic usage of Musical Instrument Digital Interface (MIDI).

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

MUS 219 Jazz Improvisation I

Prerequisite: MUS 104.

The study of beginning improvisation including chord/scale relationship, ii-V-I in all twelve major keys, blues, standards, and solo transcription.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

MUS 220 Jazz Improvisation II

Prerequisite: MUS 219.

The study of improvisation including chord/scale relationship, ii-V-I in all twelve minor keys, all forms of minor scales, modes, standards and solo transcription.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

MUS 237 Piano Class III

Prerequisite: MUS 138.

Chord patterns for harmonization using secondary chords, broken chords, instrumental and vocal scores, ensemble playing, repertoire.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 239 Introduction to World Music

General Education Course (Focus on the Arts).

An exploration of what it means to be human through a comparison of various world musics and the associated recurring patterns of human behavior. Students will also develop a music vocabulary and listening skills through exposure to recordings, lectures and assignments about stylistic elements and analysis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	MUSC 102 - World Music.

[Access the CORE 42 portal](#)

MUS 241 The Language of Music

Prerequisite: Open to all students except music majors.

General Education Course (Focus on Humanities).

A study of various musical forms, styles and genres with emphasis on critical listening and how musical expression contributes to human knowledge and experience. Various analytical frameworks will be introduced within the context of history and cultural traditions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	MUSC 100 - Music Appreciation.

[Access the CORE 42 portal](#)

MUS 249 String Instrument

Prerequisite: permission of instructor.

Applied instruction available in violin, viola, violoncello, bass viol. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 251 Piano

Prerequisite: permission of instructor.

Applied instruction in piano. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 252 Organ

Prerequisite: permission of instructor.

Applied instruction in organ. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 253 Voice

Prerequisite: permission of instructor.

Applied instruction in voice. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 255 Woodwind (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in flute, oboe, clarinet, bassoon, saxophone. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 256 Brass (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in horn, trumpet, trombone, baritone, and tuba. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 257 Percussion

Prerequisite: permission of instructor.

Applied instruction in percussion instruments. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 258 Guitar

Prerequisite: permission of instructor.

Applied instruction in classical guitar. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 259 Harp

Prerequisite: permission of instructor.

Applied instruction in harp. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 260 Carillon

Prerequisite: permission of instructor.

Applied instruction in carillon. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 280 Musical Theatre Workshop

Prerequisite: permission of instructor.

Performance laboratory for students majoring in Musical Theatre. Preparation and performance of musical numbers from the musical theatre repertoire. Emphasis will be placed on the synthesis of performance techniques related to various musical styles. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 294 Singing Diction I

Proper pronunciation of English, Italian, and Latin; mastery of the International Phonetic Alphabet.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 295 Singing Diction II

Prerequisite: MUS 294.

Proper pronunciation of German and French; continued application of the International Phonetic Alphabet.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

MUS 298 Upper Division Applied Status

Prerequisite: permission of instructor.

Evaluation of lower division (100 and 200 level) applied studies is required by the end of the sophomore year of all pre-admitted music majors at the conclusion of the fourth semester of applied study. This evaluation is also required of transfer students. Grade of Pass/Not Pass will be assigned by the area coordinator in consultation with the area applied faculty. Specific requirements may vary by applied area and are found in the course syllabus. This course serves as a checkpoint/gateway to upper division applied courses and partially fulfills admission requirements to the major. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 301 Service Learning in Music

Prerequisite: 30 hours, concurrent registration in a Music course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in Music to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefit an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

MUS 307 Recital Attendance V

Prerequisite: piano proficiency.

Attendance at a combination of music major convocations, faculty recitals, and other recitals or concerts sponsored by the department. Requirements announced at the first convocation of each semester. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 308 Recital Attendance VI

Prerequisite: piano proficiency.

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 313 16th Century Counterpoint

Prerequisite: MUS 203.

Analysis and writing in the style of the vocal music of the late Renaissance as embodied in the sacred vocal works of Palestrina.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring (even-numbered years)

MUS 314 18th Century Counterpoint

Prerequisite: MUS 203.

Analysis and writing in the style of the instrumental music of the late Baroque as embodied in the keyboard works of J.S. Bach.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring (odd-numbered years)

MUS 315 Form and Analysis

Prerequisite: MUS 204.

The study of formal aspects of music, ranging from smaller structural units to complete movements. Analysis of forms and styles from selected historical periods.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

MUS 316 Advanced Audio Recording Techniques

Prerequisite: MUS 216.

Digital, advanced audio recording technology for radio, television, and video post production. Emphasis will be placed on the recording, editing, and mixdown of production projects. Topic areas include microphone placement, multi-track recording, digital theory, synchronization concepts, and the art of mixdown.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MUS 319 Jazz Improvisation III

Prerequisite: MUS 220.

The study of advanced improvisation including chord/scale relationship, continued study of ii-V-I in all twelve major and minor keys, diminished, whole-tone, and altered dominant scales. Standards and solo transcriptions will be analyzed and performed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

MUS 321 Conducting

Prerequisite: MUS 104.

Fundamentals of conducting, with emphasis upon basic baton techniques, transposition and score reading.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

MUS 322 Conducting-Choral

Prerequisite: MUS 321.

Conducting techniques specifically related to choral music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 323 Conducting-Instrumental

Prerequisite: MUS 321.

Conducting techniques specifically related to instrumental music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 327 Composition Class

Prerequisite: MUS 103.

Requires composition of short musical pieces using a variety of styles, and the analysis of works by 20th century composers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 328 Instrumentation

Prerequisite: MUS 203.

Techniques, arranging, scoring and transcribing for large and small ensembles; with attention given to the practical application in a teaching situation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

MUS 340 Adaptive Music for Special Learners

Prerequisite: music major and admitted to teacher education program.

Introduction to the teaching of music students with disabilities in a school setting. The course will provide an overview of characteristics and identification criteria for both individuals with disabilities and also the gifted. Legislation and process pertaining to special education will be addressed along with a focus on teaching individuals with diversity in the elementary, middle, and secondary educational setting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

MUS 343 Musical Theatre History I

Development of musical theatre in England, continental Europe and America from The Beggar's Opera, 1728 to Show Boat, 1927.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MUS 344 Musical Theatre History II

Development of musical theatre mainly in America from Show Boat, 1927 to present. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MUS 345 Music in Western Culture and Society I

The historical unfolding of western art music and the ways in which culture and society have played a central role in that development. Music from the Middle Ages to the Baroque will be studied from the perspective of the way in which it has been influenced and in turn influenced religion, politics, economics, and other social issues.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall	MUSC 103 - Music History I.

[Access the CORE 42 portal](#)

MUS 346 Music in Western Culture and Society II

This course explores the historical unfolding of Western art music and the ways in which culture and society have played a central role in that development. Students study music from the Classical era to the present to understand how music has influenced and been influenced by religion, politics, economics, and other social issues. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent

The development of jazz music in America. The historical unfolding of jazz art music and developmental advances from early 20th century to the present.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Spring (even-numbered years)	MUSC 100J - Music Appreciation-Jazz.

[Access the CORE 42 portal](#)

MUS 349 String (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in violin, viola, violoncello, bass viol. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 351 Piano

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in piano. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 352 Organ

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in organ. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 353 Voice

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in voice. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 355 Woodwind (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in flute, oboe, clarinet, bassoon, saxophone. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 356 Brass (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in French horn, trumpet, trombone, baritone, tuba. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 357 Percussion

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in percussion instruments. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 358 Guitar

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in classical guitar. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 359 Harp

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in harp. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 360 Carillon

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in carillon. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 361 Men's Chorus

A choral ensemble of men's voices that studies and performs music of various historical periods and genres both on and off campus. The Men's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 362 Choral Union

Chorus Union, a mixed choir of students and community members, rehearses one evening per week and performs concerts throughout the year. Choral Union collaborates with other choral ensembles during the academic year and performs a variety of choral literature. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music. Open to all students and community members by audition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 363 Women's Chorus

A choral ensemble of women's voices that studies and performs music of various historical periods and genres both on and off campus. The Women's Chorus collaborates with other vocal and instrumental ensembles in the

Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 368 Chorale

Chorale is a chorus of mixed men's and women's voices that studies and performs advanced choral repertoire both on and off campus. The Chorale will collaborate with other vocal and instrumental ensembles during the academic year. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 372 Small Ensemble

Prerequisite: permission of instructor.

Ensembles may be arranged each semester in piano, voice, strings, wind instruments and percussion to meet needs of participating students and the department. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 373 Chamber Orchestra

Prerequisite: permission of instructor.

Small instrumental ensemble, consisting primarily of strings and varying combinations of wind, brass, percussion, and keyboard instruments, devoted to the study and performance of music written for that medium. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	1	Fall, Spring

MUS 374 Jazz Ensemble

Prerequisite: permission of instructor.

Laboratory course in instrumentation, materials, arranging and organization of Jazz Ensemble. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 375 Band

Band provides opportunities for performance with University Wind Bands, i.e. Wind Ensemble, Wind Symphony, Concert Band. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	4	Fall, Spring

MUS 376 University Symphony

The symphony performs music from the standard symphonic literature and cooperates with other ensembles to perform major choral and operatic works. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 377 Marching Band

Marching band performs as a unit during football season. Band performs on campus, in area high schools, and in the stadia of other colleges. Auditions for placement and additional group work required. Band grants available to qualified students. Fees and assessments apply to course. May be repeated for credit. Only 8 hours of large ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall

MUS 380 Musical Theatre Workshop

Prerequisite: permission of instructor.

Performance laboratory for students majoring in Musical Theatre. Preparation and performance of musical numbers from the musical theatre repertoire. Emphasis will be placed on the synthesis of performance techniques related to various musical styles. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 392 Accompanying

Prerequisite: permission of instructor.

Development of skills in accompanying for pianist. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 393 Opera Workshop

Prerequisite: permission of instructor.

Preparation and production of opera as it pertains to singing actors and ensembles. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 398 Junior Recital

Prerequisite: MUS 298 and permission of instructor.

Preparation and public presentation of a solo recital in the student's major applied area. Required of all music majors on the Bachelor of Music-Performance degree. The student must pass a recital hearing before the performance can occur.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 399 Special Topics in Music

Prerequisite: permission of instructor.

Topic of interest determined by student and professor. May be repeated, as topics change, to maximum of 6 credit hours. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MUS 407 Recital Attendance VII

Prerequisite: piano proficiency.

Attendance at a combination of music major convocations, faculty recitals, and other recitals and concerts sponsored by the department. Requirements announced at the first convocation of each semester. The fulfillment of any part of these requirements by non-departmental concerts must be pre-approved by the department head. Credit will not be given to students who arrive after the recital/concert begins. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
0	0	0	Fall, Spring

MUS 410 Middle Childhood and Preadolescent Vocal Methods and Materials

Prerequisite: admission to Teacher Education Program, MUS 204 and MUS 322 and MUS 518.

Principles and techniques for working with middle or junior high school voices and teaching music classes at the middle level with special attention paid to vocal development, voice change, and vocal health for pre-adolescents. Pedagogical analysis of choral/vocal music literature, lesson planning, and classroom management specific to this age group. Includes organization and administration of vocal music classes commonly found in programs at this level. Requires a 20-hour practicum at the middle level.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 411 Secondary Instrumental Methods and Materials

Prerequisite: admission to Teacher Education Program; and MUS 204 and MUS 323 and MUS 328.

Explores effective music methods and teaching strategies utilized in instrumental programs in middle or junior high schools and in high schools. Includes organization and administration of instrumental music classes commonly found in programs at those levels. Survey and analysis of instrumental music for large and small instrumental ensembles of all types and levels (K-12).

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 416 Recording Arts Practicum

Practice in the recording studio environment, creating CD-quality music and soundtracks. Instruction will be provided in session conduct as well as advanced operations in tracking, editing, and mixing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MUS 430 Music in Early Childhood and the Elementary School

Prerequisite: admission to Teacher Education Program.

Methods of teaching music in early childhood and elementary school classrooms. A 20-hour practicum in elementary music classrooms is required as part of this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MUS 449 String (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in violin, viola, violoncello, bass viol. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 451 Piano

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in piano. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 452 Organ

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in organ. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 453 Voice

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in voice. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 455 Woodwind (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in flute, oboe, clarinet, bassoon, saxophone. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 456 Brass (Instrument)

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction available in horn, trumpet, trombone, baritone, and tuba. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 457 Percussion

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in percussion instruments. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 458 Guitar

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in classical guitar. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 459 Harp

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in harp. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 460 Carillon

Prerequisite: permission of instructor; and admission to Music degree program.

Applied instruction in carillon. May be repeated for credit. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Fall, Spring

MUS 480 Musical Theatre Workshop

Prerequisite: permission of instructor.

Performance laboratory for students majoring in Musical Theatre. Preparation and performance of musical numbers from the musical theatre repertoire. Emphasis will be placed on the synthesis of performance techniques related to various musical styles. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 488 Seminar in Student Teaching

Prerequisite: all course work required for the Bachelor of Music Education completed, including the senior recital and piano proficiency; minimum combined (Missouri State and transfer) GPA of 2.75; minimum GPA in Music of 3.00, with no grade lower than a "C"; minimum GPA of 3.00 in professional education; and concurrent enrollment in MUS 494 and MUS 496.

A blended seminar focused on the analysis of diverse teaching contexts, student learning, and field experiences during student teaching. Topics will include: Theory into Practice, The Job Search, Diversity, the Teacher Work Sample, Assessment, and Classroom Management. Students attend (in person or on-line) weekly 2-hour seminars. Public Affairs Capstone Experience course.

5			Fall, Spring

MUS 498 Senior Recital

Prerequisite: MUS 298, and permission of instructor, and at least three semesters Applied Music courses numbered 300 or above with grades of "B" or better in the major performance area or in composition.

Preparation and public presentation of a solo recital in the student's major applied area. The student must pass a recital hearing before the performance can occur. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 499 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BEd or appropriate masters-level certification programs. Can only receive credit for one of the

following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

MUS 501 Music Education Workshop

Variable topics related to music education instruction. Number of class hours determined by length of workshop and depth of topic. May be repeated for a maximum of 5 credit hours. May be taught concurrently with MUS 611. Cannot receive credit for both MUS 611 and MUS 501.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Spring

MUS 503 Orff in the Classroom

A study of music education using the approach developed by Carl Orff. Will include creative techniques including instruments, singing and movement. May be taught concurrently with MUS 613. Cannot receive credit for both MUS 613 and MUS 503.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 506 Band Administration and Materials

Practicum and experience in all aspects of the successful band program. Includes organizational strategies and review of large and small ensemble literature for marching band, stage band, jazz band, and concert band. May be taught concurrently with MUS 606. Cannot receive credit for both MUS 606 and MUS 506.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall (even-numbered years)

MUS 510 Adolescent and Early Adult Choral/Vocal Literature and Materials for Secondary Levels

Prerequisite: admission to Teacher Education Program; MUS 204 and MUS 321 and MUS 518.

Explores effective music methods and teaching strategies utilized in vocal programs in high schools. Includes pedagogy of the adolescent voice. Best practices for teaching a wide variety of vocal ensembles including curricular and extra-curricular groups. Rehearsal and lesson planning for achievement of outcomes. Practical administration of organizations commonly found in most choral music programs. Survey and analysis of choral music literature for individuals, large and small ensembles including glee clubs, mixed choruses and choirs of all levels of performance. A 20-hour practicum with an area vocal music program will be part of the course content. May be taught concurrently with MUS 609. Cannot receive credit for both MUS 510 and MUS 609.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MUS 516 Composition I

Prerequisite: permission of instructor.

Elementary composition of pieces in a variety of forms. Emphasis on works for piano, solo instruments or voice. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 616. Cannot receive credit for both MUS 616 and MUS 516.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 517 Composition II

Prerequisite: permission of instructor.

Intermediate level composition. Emphasis on writing for small groups of instrumentalists or vocalists. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 617. Cannot receive credit for both MUS 617 and MUS 517.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 518 Choral Arranging

Prerequisite: MUS 203.

Techniques of arranging for small and large choral ensembles; with attention given to the practical application in a teaching situation. May be taught concurrently with MUS 618. Cannot receive credit for both MUS 618 and MUS 518.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

MUS 520 Composition III

Prerequisite: permission of instructor.

Composing for larger groups of instrumentalists or vocalists. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 619. Cannot receive credit for both MUS 619 and MUS 520. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 521 Composition IV

Prerequisite: permission of instructor.

Advanced composition. A wide variety of mediums and styles are possible including electronic music of all types. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 621. Cannot receive credit for both MUS 621 and MUS 521. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 523 Keyboard Literature

Recommended Prerequisite: MUS 345 and MUS 346. Keyboard works from the 17th century to the present. May be taught concurrently with MUS 623. Cannot receive credit for both MUS 623 and MUS 523.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 524 Song and Opera Literature

Italian arias, German Lieder; representative songs by French, English, and American composers; standard operatic repertoire in relation to the composer's style and the period of theater and music history from which

they emanate. May be taught concurrently with MUS 624. Cannot receive credit for both MUS 624 and MUS 524.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall (even-numbered years)

MUS 526 Advanced Arranging

Prerequisite: MUS 204.

Independent study or three hour seminar per week. Techniques of arranging for various choral or instrumental groups, suited to the need of the individual student. May be repeated to a total of 6 hours when topic varies. Variable content course. May be taught concurrently with MUS 626. Cannot receive credit for both MUS 626 and MUS 526.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

MUS 529 Introduction to Commercial Music

Prerequisite: permission of instructor.

A comprehensive survey of various aspects of music associated with the entertainment industry. Students will be exposed to a wide variety of topics including song and advertising jingle writing, scoring for film and video, negotiating contracts, and dealing with music publishers. May be taught concurrently with MUS 629. Cannot receive credit for both MUS 629 and MUS 529.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MUS 530 Vocal Pedagogy and Materials

Understanding the basic principles of voice production and their application to the training of singers. A comparative study of different pedagogical approaches to voice training. Including a survey of materials needed in successful programs of choral and vocal education in secondary schools for all levels of performance. May be taught concurrently with MUS 630. Cannot receive credit for both MUS 630 and MUS 530.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

MUS 538 Survey of Pedagogical Methods

A study of methods of teaching applied music. May be taught concurrently with MUS 658. Cannot receive credit for both MUS 658 and MUS 538.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

MUS 539 String Pedagogy and Instrumental Literature and Materials for Elementary and Secondary Levels

Prerequisite: permission of instructor.

Students will explore all aspects of orchestra and string programs for elementary and secondary education. Literature appropriate for beginning and advanced levels in school string programs will be addressed. May be taught concurrently with MUS 659. Cannot receive credit for both MUS 659 and MUS 539.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MUS 543 Music of the Renaissance

Prerequisite: MUS 345.

A comprehensive study of Western music from the Franco-Netherlands composers to Monteverdi (c. 1450 to 1600). May be taught concurrently with MUS 683. Cannot receive credit for both MUS 683 and MUS 543.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 544 Music of the Baroque Era

Prerequisite: MUS 345.

A comprehensive study of Western music from monody to J.S. Bach and Handel (c. 1600 to 1750). May be taught concurrently with MUS 684. Cannot receive credit for both MUS 684 and MUS 544.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 545 Music of the Classical Era

Prerequisite: MUS 346.

A comprehensive study of Western music from pre-classicism to Beethoven (c. 1750 to 1810). May be taught concurrently with MUS 685. Cannot receive credit for both MUS 685 and MUS 545.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 546 Music of the Romantic Era

Prerequisite: MUS 346.

A comprehensive study of Western music from Beethoven to the post-romantic composers (c. 1800 to 1900). May be taught concurrently with MUS 686. Cannot receive credit for both MUS 686 and MUS 546.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 547 Music Since 1900

Prerequisite: MUS 346.

A comprehensive study of Western music from 1900 to the present. May be taught concurrently with MUS 687. Cannot receive credit for both MUS 687 and MUS 547.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 548 Choral Literature

Choral literature from the Renaissance through the 20th Century. May be taught concurrently with MUS 688. Cannot receive credit for both MUS 688 and MUS 548.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

MUS 561 Men's Chorus

A choral ensemble of men's voices that studies and performs music of various historical periods and genres both on and off campus. The Men's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 563 Women's Chorus

A choral ensemble of women's voices that studies and performs music of various historical periods and genres both on and off campus. The Women's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 580 Instrumental Conducting

Prerequisite: MUS 323.

A study of conducting techniques and problems in rehearsal and performance. Baton technique, repertoire development and practicum of conducting in rehearsals (may include a public performance). May be taught concurrently with MUS 670. Cannot receive credit for both MUS 670 and MUS 580. May be repeated for variable credit hours up to a total of 12.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

MUS 581 Choral Conducting

Prerequisite: MUS 322.

A study of conducting techniques and problems in rehearsal and performance. Baton technique, repertoire development, and practicum of conducting in rehearsals (may include a public performance). May be taught concurrently with MUS 671. Cannot receive credit for both MUS 671 and MUS 581. May be repeated for variable credit hours up to a total of 12.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

MUS 599 Special Topics in Music

Prerequisite: permission of instructor.

Topic of interest determined by student and professor. May be repeated, as topics change, to a maximum of 6 hours. Variable content course. May be taught concurrently with MUS 689. Cannot receive credit for both MUS 689 and MUS 599.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MUS 606 Band Administration and Materials

Practicum and experience in all aspects of the successful band program. Includes organizational strategies and review of large and small ensemble literature for marching band, stage band, jazz band, and concert band. May be taught concurrently with MUS 506. Cannot receive credit for both MUS 506 and MUS 606.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall (even-numbered years)

MUS 609 Choral Literature and Materials for Secondary Levels

Survey and analysis of choral music for large and small ensembles including glee clubs, mixed choruses, and choirs of all levels of performance (7-12 grade). May be taught concurrently with MUS 510. Cannot receive credit for both MUS 510 and MUS 609.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 611 Music Education Workshop

Variable topics related to music education instruction. Number of credit hours determined by length of workshop and depth of topic. May be repeated for a maximum of five hours. May be taught concurrently with MUS 501. Cannot receive credit for both MUS 501 and MUS 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Summer

MUS 613 Orff in the Classroom

A study of music education using the approach developed by Carl Orff. Will include creative techniques including instruments, singing, and movement. May be taught concurrently with MUS 503. Cannot receive credit for both MUS 503 and MUS 613.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 616 Composition I

Prerequisite: permission of instructor.

Elementary composition of pieces in a variety of forms. Emphasis on works for piano, solo instruments, or voice. Adapted to meet the needs of the individual student. May be taught concurrently with MUS 516. Cannot receive credit for both MUS 516 and MUS 616.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 617 Composition II

Prerequisite: permission of instructor.

Intermediate level composition. Emphasis on writing for small groups of instrumentalists or vocalists. Adapted to meet the needs of the individual student. May be taught concurrently with MUS 517. Cannot receive credit for both MUS 517 and MUS 617.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 618 Choral Arranging

Techniques of arranging for small and large choral ensembles; with attention given to the practical application in a teaching situation. May be taught concurrently with MUS 518. Cannot receive credit for both MUS 518 and MUS 618.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 619 Composition III

Prerequisite: permission of instructor.

Composing for larger groups of instrumentalists or vocalists. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 520. Cannot receive credit for both MUS 520 and MUS 619.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 621 Composition IV

Prerequisite: permission of instructor.

Advanced composition. A wide variety of mediums and styles are possible including electronic music of all types. Adapted to meet the needs of the individual student. May be repeated. May be taught concurrently with MUS 521. Cannot receive credit for both MUS 521 and MUS 621.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-4			Fall, Spring

MUS 623 Keyboard Literature

Keyboard works from the 17th century to the present. May be taught concurrently with MUS 523. Cannot receive credit for both MUS 523 and MUS 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

MUS 624 Song and Opera Literature

Italian arias, German Lieder; representative songs by French, English, and American composers; standard operatic repertoire in relation to the composer's style and the period of theater and music history from which they emanate. May be taught concurrently with MUS 524. Cannot receive credit for both MUS 524 and MUS 624.

1-3			Fall, Spring

MUS 674 Jazz Ensemble

A Laboratory course in instrumentation, materials, arranging, and organization of the jazz ensemble. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 675 Band

Band provides opportunities for performance with University Wind Bands, i.e. Wind Ensemble, Wind Symphony, Concert Band. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 678 University/Community Band

Traditional style concert band which provides performance opportunities for musicians from the university and the community at large. At least one concert is presented each semester. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 682 Piano Ensemble

Prerequisite: permission of instructor.

The student will strengthen ensemble and rehearsal techniques through the study and performance of piano four-hand and duo literature. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 683 Music of the Renaissance

A comprehensive study of Western music from the Franco-Netherlands composers to Monteverdi (c. 1450 to 1600). May be taught concurrently with MUS 543. Cannot receive credit for both MUS 543 and MUS 683.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 684 Music of the Baroque Era

A comprehensive study of Western music from monody to J.S. Bach and Handel (c. 1600 to 1750). May be taught concurrently with MUS 544. Cannot receive credit for both MUS 544 and MUS 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 685 Music of the Classical Era

A comprehensive study of Western music from pre-classicism to Beethoven (c. 1750 to 1810). May be taught concurrently with MUS 545. Cannot receive credit for both MUS 545 and MUS 685.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 686 Music of the Romantic Era

A comprehensive study of Western music from Beethoven to the post-romantic composers (c. 1800 to 1900). May be taught concurrently with MUS 546. Cannot receive credit for both MUS 546 and MUS 686.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 687 Music Since 1900

A comprehensive study of Western music from 1900 to the present. May be taught concurrently with MUS 547. Cannot receive credit for both MUS 547 and MUS 687.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 688 Choral Literature

Choral literature from the Renaissance through the 20th Century. May be taught concurrently with MUS 548. Cannot receive credit for both MUS 548 and MUS 688.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

MUS 689 Special Topics in Music

Prerequisite: permission of instructor.

Topic of interest determined by student and professor. May be repeated, as topics change, to a maximum of 6 hours. Variable content course. May be taught concurrently with MUS 599. Cannot receive credit for both MUS 599 and MUS 689.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MUS 700 Introduction to Graduate Study in Music

General introduction to graduate curriculum; planning the program; formal writing style; sources used in research; study of methods in research. Required of all degree candidates.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MUS 701 Music Education Curriculum

An examination of trends in elementary, middle, and secondary music education; evaluation of selected materials and techniques; and special projects in planning for change in music education curriculum.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 702 General Music Education

Study of problems in planning a music program to encourage lifelong participation in music; for guiding learning through creating, performing and responding; music integration with other subject areas; critical and creative thinking, and use of instructional media for providing music learning experiences.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MUS 706 Ethical Decision-Making in Music Education

Exploration of issues, problems and possibilities in music education through an applied ethics perspective.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

MUS 707 Psychology of Music

Adapted to the view of the music educator. Emphasis is placed upon the physics of sound, psychology of performances and teaching, and the principles of listening.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 708 Contemporary Music Education

A study of current trends and contemporary issues relevant to education and/or music education, as identified from various sources, and what impact they may or may not have on music education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 715 Advanced Composition

Prerequisite: permission of instructor.

Private compositional study for graduate students. Variable content course. May be repeated to a total of 9 hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 720 Directed Study in Music Education

Prerequisite: permission of instructor.

Individual study and research on projects approved by Music Education faculty; individual conferences with assigned faculty members; oral report, and a document at conclusion of semester. May be repeated to 3 hrs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

MUS 725 History and Philosophy of Music Education

History of educational philosophies and objectives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 727 Seminar: Music Theory

A study of various aspects of music theory, including analysis and pedagogy, researched from primary and secondary sources from the medieval period through the present. May be repeated to a total of 6 hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

MUS 728 Pedagogy of Music Theory

Techniques of teaching harmony and ear training as well as other theoretical aspects of music to high school and college music students.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Summer

MUS 738 Survey of Pre-College Repertoire

Prerequisite: MUS 538 or MUS 658.

An examination of appropriate repertoire from the Baroque, Classical, Romantic, and 20th Century style periods for beginner, intermediate, and advanced pre-college students.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring, Summer

MUS 739 Pedagogy Practicum I

Prerequisite: MUS 738.

A course consisting of three components: class meetings for the discussion of teaching techniques, observation of the teaching of experienced teachers, supervised student teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MUS 740 Pedagogy Practicum II

Prerequisite: MUS 739.

Private teaching of a prescribed number of pre-college students of various levels of advancement under guidance of pedagogy instructor. Pedagogy students must present assigned pre-college students in an end of semester recital.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

MUS 744 Directed Study in Music Theory

Prerequisite: permission of instructor.

Individual study on approved projects; individual conferences with assigned faculty member. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

MUS 745 Directed Study in Music History and Literature

Prerequisite: permission of instructor.

Advanced study in special topics of music history and literature. May be repeated to a total of 3 hours when topic varies. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MUS 746 Seminar: Symphonic Literature

A survey of the repertoire for orchestras of varying sizes and ability levels. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 747 Seminar: Wind Literature

A survey of the repertoire for wind groups of various sizes and ability levels. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 748 Seminar: Choral Literature

A survey of the repertoire for choral groups of various sizes and ability levels. Variable content course. May be repeated to a maximum of six hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MUS 749 String (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in violin, viola, violoncello, and bass viola. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 751 Piano

Prerequisite: permission of instructor.

Applied instruction in piano. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 752 Organ

Prerequisite: permission of instructor.

Applied instruction in organ. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 753 Voice

Prerequisite: permission of instructor.

Applied instruction in voice. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 755 Woodwind (Instrument)

Prerequisite: permission of instructor.

Applied instruction available in flute, oboe, clarinet, bassoon, and saxophone. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 756 Brass

Prerequisite: permission of instructor.

Applied instruction available in trumpet, French horn, trombone, euphonium and tuba. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 757 Percussion

Prerequisite: permission of instructor.

Applied instruction on percussion instruments. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 760 Carillon

Prerequisite: permission of instructor.

Applied instruction in carillon. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Fall, Spring

MUS 761 Men's chorus

A choral ensemble of men's voices that studies and performs music of various historical periods and genres both on and off campus. The Men's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 762 Choral Union

Chorus Union, a mixed choir of students and community members, rehearses one evening per week and performs concerts throughout the year. Choral Union collaborates with other choral ensembles during the academic year and performs a variety of choral literature. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music. Open to all students and community members by audition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 763 Women's Chorus

A choral ensemble of women's voices that studies and performs music of various historical periods and genres both on and off campus. The Women's Chorus collaborates with other vocal and instrumental ensembles in the Music Department. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 768 Chorale

Chorale is a chorus of mixed men's and women's voices that studies and performs advanced choral repertoire both on and off campus. The Chorale will collaborate with other vocal and instrumental ensembles during the academic year. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	4	Fall, Spring

MUS 772 Small Ensembles

Ensembles may be arranged each semester in the fields of piano, voice, strings, wind instruments, and percussion to meet the needs of participating students and the department. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 773 Chamber Orchestra

Prerequisite: permission of instructor.

Small instrumental ensemble, consisting primarily of strings and varying combinations of wind, brass, percussion, and keyboard instruments, devoted to the study and performance of music written for that medium. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	1	Fall, Spring

MUS 774 Jazz Ensemble

A laboratory course in instrumentation, materials, arranging, and organization of the jazz ensemble. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 775 Band

Band provides opportunities for performance with University Wind Bands, i.e. Wind Ensemble, Wind Symphony, Concert Band. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree program in music.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 776 University Symphony

Symphony performs and reads music from standard orchestral literature and accompanies opera productions. Open to all university orchestral players by audition. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	4	Fall, Spring

MUS 778 University/Community Band

Traditional-style concert band which provides performance opportunities for musicians from the university and the community at large. At least one concert is presented each semester. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 781 Score Reading and Analysis

Analysis of scores and its application to conducting. Development of skills in reading clefs and transpositions. Variable content course. May be repeated to a total of 6 hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MUS 790 Research Project

Research in the student's major area of concentration, culminating in a written document. Topic to be chosen through consultation with the student's major advisor. May be repeated for credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

MUS 792 Accompanying

Prerequisite: permission of instructor.

Development of skills in accompanying for pianists.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 793 Opera Workshop

Prerequisite: permission of instructor.

Preparation and production of opera as it pertains to singing actors and ensembles. Open to all University students by audition. May be repeated for credit. Only 8 hours of ensembles can be counted toward a degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

MUS 797 Directed Study in Pedagogy

Advanced study in special topics in pedagogy. Variable content course. May be repeated to a total of 3 hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MUS 798 Graduate Recital

Prerequisite: permission of instructor.

Fulfills half of the final project requirement for concentrations in performance, pedagogy, and conducting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall, Spring

MUS 799 Thesis

Prerequisite: permission of instructor.

Selection of thesis topic, research or compositional techniques to be employed, compilation of bibliography, guidance of compilation and interpretation of data; organization and writing of study or writing of composition and description including program notes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring

Undergraduate Catalog

Jazz Studies Certificate

Jazz Studies

This certificate provides coursework to prepare music students for the future with a basic knowledge of jazz. Students complete a sequence of courses including jazz ensemble performance, jazz improvisation, and jazz history. Completion of this set of courses will provide students with credentials on their academic transcript indicating to employers that they have completed an appropriate level of study in jazz specifically focused toward jazz education.

Admission requirements

Admission is met by auditioning and being selected to perform in the required jazz ensembles and completion of MUS 103(3).

Program requirements (12 hours)

1. [MUS 174\(2\)](#), [219\(2\)](#), [220\(2\)](#), [347\(3\)](#), [372\(1\)](#), [374\(2\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a GPA of 3.00 or higher in courses used to fulfill the certificate requirements.

Music

Major(s)

Music (Non-Comprehensive)

Bachelor of Arts

Admission and audition requirements

Music degrees are designed to develop the student's abilities for performance, public school certification for teaching, private teaching, or composition. These degrees also prepare students for graduate study in music.

Students desiring to pursue a BA, BMus, BME, or BS music major or minor must first audition for a committee of applied faculty in that student's desired performance area.* This audition should take place during the semester prior to the first semester of enrollment in applied lessons. All students will be required to demonstrate, through successful completion of a Music Theory Entrance Exam, a rudimentary ability to relate musical sound to notation and terminology before beginning the theory and ear-training sequence.

All music majors must apply for formal admission to the degree program. This typically will occur at the end of the sophomore year, and must be completed before the student has finished 75 hours. In order to be admitted to the degree program, students must pass MUS 298, the piano proficiency exam, and have a combined (Missouri State and transfer) GPA of at least 2.75 and a combined (Missouri State and transfer) GPA of at least 3.00 in Music courses. Students who have not been formally admitted to the degree program will be unable to enroll in 300-level and above applied study.

*Students pursuing the minor in either Composition or Recording Arts are not required to audition in a performance area.

Major requirements (38 hours):

Note: A grade of "C" or better is required in all Music courses counted toward the major.

1. Basic Theory (9 hours): [MUS 103\(3\)](#), [104\(3\)](#), [203\(3\)](#).
2. Music History/Literature (9 hours): [MUS 239\(3\)](#), [345\(3\)](#), [346\(3\)](#).
3. Applied Music (6 hours) to be selected from class and/or private instruction. At least four hours must be in private instruction in the major performance area.
4. Performing Ensemble electives (4 hours).
5. Additional electives (10 hours) selected in consultation with the advisor. Must include at least seven hours of upper division courses.
6. Recital Attendance: [MUS 107\(0\)](#), [108\(0\)](#), [207\(0\)](#), [208\(0\)](#), [307\(0\)](#), [308\(0\)](#), and [407\(0\)](#).
7. Pass Piano Proficiency Examination.
8. Upper Division Applied Status: [MUS 298\(0\)](#).
9. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 346\(3\)](#).
10. GPA Graduation Requirement: A grade of "C" or better is required in all Music courses counted toward the major.
11. Minor required (or second major).
12. [Specific Bachelor of Arts Degree Requirements](#)

Assessment

All undergraduate majors in all degrees will be required to take an assessment test in music prior to graduation. This test will be administered at no cost to the student and will not be used for any purpose other than that of assessing departmental programs and courses.

Applied music courses

Amount of credit for each course is determined by the Music Department at registration. All applied music courses may be repeated for credit. Applied music courses: 149, 151, 152, 153, 155, 156, 157, 158, 159, 160, 249, 251, 252, 253, 255, 256, 257, 258, 259, 260, 349, 351, 352, 353, 355, 356, 357, 358, 359, 360, 398, 449, 451, 452, 453, 455, 456, 457, 458, 459, 460, 498, 649, 651, 652, 653, 655, 656, 657, 660, 749, 751, 752, 753, 755, 756, 757, 760, 798.

Ensembles

All ensemble courses may be repeated for credit. Only eight hours of ensembles can be counted toward a degree. Ensembles courses: MUS 161, 162, 163, 168, 172, 173, 174, 175, 176, 178, 192, 193, 280, 361, 362, 363, 368, 372, 373, 374, 375, 376, 380, 392, 393, 480, 561, 563.

Major requirements (78-87 hours):

Note: A grade of "C" or better is required in all Music courses counted toward the major.

Major core (32 hours):

1. Foreign Language (6 hours) from: French, German, or Italian.
2. Basic Theory (12 hours): [MUS 103\(3\)](#), [104\(3\)](#), [203\(3\)](#), [204\(3\)](#).
3. Music History/Literature (9 hours): [MUS 239\(3\)](#), [345\(3\)](#), [346\(3\)](#).
4. Piano (3 hours-may be waived by examination): [MUS 137\(1\)](#), [138\(1\)](#), [237\(1\)](#).
5. Conducting (2 hours): [MUS 321\(2\)](#).
6. Recital Attendance: [MUS 107\(0\)](#), [108\(0\)](#), [207\(0\)](#), [208\(0\)](#), [307\(0\)](#), [308\(0\)](#), and [407\(0\)](#).
7. Upper Division Applied Status: [MUS 298\(0\)](#).

Complete one of the following options:

Composition option (52-53 hours):

1. Composition (15 hours): [MUS 498\(2\)](#) and 13 additional hours from: [MUS 327\(2\)](#), [516\(2-4\)](#), [517\(2-4\)](#), [520\(2-4\)](#), [521\(2-4\)](#).
2. Advanced Music History/Literature (5-6 hours) from: [MUS 523\(2\)](#), [524\(2\)](#), [543\(3\)](#), [544\(3\)](#), [545\(3\)](#), [546\(3\)](#), [547\(3\)](#), [548\(2\)](#).
3. Advanced Theory (11 hours): [MUS 313\(2\)](#), [314\(2\)](#), [315\(2\)](#), [328\(2\)](#); [MED 382\(3\)](#), [461\(3\)](#), [561\(3\)](#).
4. Large Ensembles (8 hours) as determined by audition; full-time students shall be in a large ensemble each semester until graduation. Select from: [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#), [563\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#); [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#); [MUS 192\(1\)](#), [392\(1\)](#).
5. Small Ensemble (1 hour) from: [MUS 172\(1\)](#), [372\(1\)](#); [MUS 173\(1\)](#), [373\(1\)](#); [MUS 174\(1\)](#), [374\(1\)](#).
6. Applied Music (12 hours):
 - a. Keyboard (4 hours) from: [MUS 137\(1\)](#), [138\(1\)](#), [151\(1\)](#), [251\(1\)](#), [351\(1\)](#), [451\(1\)](#).
 - b. Remaining hours in a single applied area (8 hours).
7. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 498\(2\)](#) and [MUS 520\(2\)](#) or [521\(2\)](#).

Instrumental Performance option (46-47 hours):

1. Advanced Music History/Literature (5-6 hours) from: [MUS 523\(2\)](#), [524\(2\)](#), [543\(3\)](#), [544\(3\)](#), [545\(3\)](#), [546\(3\)](#), [547\(3\)](#), [548\(2\)](#).
2. Advanced Music Theory (6 hours) from: [MUS 313\(2\)](#), [314\(2\)](#), [315\(2\)](#), [327\(2\)](#), [328\(2\)](#).
3. Large Ensembles (8 hours) as determined by audition; full-time students shall be in an instrumental ensemble each semester until graduation. Select from: [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#).
4. Small Ensembles (4 hours) from: [MUS 172\(1\)](#), [372\(1\)](#); [MUS 173\(1\)](#), [373\(1\)](#); [MUS 174\(1\)](#), [374\(1\)](#).
5. Pedagogy (2 hours): [MUS 538\(2\)](#).
6. Applied Music (21 hours), must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
7. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 498\(2\)](#) and 2 hours from [MUS 449](#), [455](#), [456](#), [457](#), [458](#), [459](#), [460](#).

Jazz Performance option (46-47 hours):

1. Jazz Studies (14 hours):
 - a. Jazz Theory/Jazz Keyboard Skills (2 hours): [MUS 119\(2\)](#).
 - b. Jazz Improvisation (6 hours): [MUS 219\(2\)](#), [220\(2\)](#), [319\(2\)](#).
 - c. Jazz History (3 hours): [MUS 347\(3\)](#).
 - d. Jazz Arranging (3 hours): [MUS 526\(3\)](#) Jazz section only.
2. Advanced Music History (6 hours) from: [MUS 543\(3\)](#), [544\(3\)](#), [545\(3\)](#), [546\(3\)](#), [547\(3\)](#).

3. Advanced Music Theory (6-7 hours) from: [MUS 313\(2\)](#), [314\(2\)](#), [315\(2\)](#), [327\(2\)](#), [328\(2\)](#), [529\(3\)](#).
4. Large Ensemble-Jazz (4 hours) as determined by audition from: [MUS 174\(1\)](#), [374\(1\)](#).
5. Small Ensemble-Jazz Symposium (6 hours) as determined by audition from: [MUS 172\(1\)](#), [372\(1\)](#)-Jazz section only.
6. Applied Music (10 hours), must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
7. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 498\(2\)](#) and 2 hours from [MUS 449](#), [451](#), [455](#), [456](#), [457](#), [458](#).

Keyboard Performance option (46-47 hours):

1. Advanced Music History/Literature (5-6 hours) from: [MUS 523\(2\)](#), [524\(2\)](#), [543\(3\)](#), [544\(3\)](#), [545\(3\)](#), [546\(3\)](#), [547\(3\)](#), [548\(2\)](#).
2. Advanced Music Theory (6 hours) from: [MUS 313\(2\)](#), [314\(2\)](#), [315\(2\)](#), [327\(2\)](#), [328\(2\)](#).
3. Large Ensembles (8 hours) as determined by audition; full-time students shall be in a large ensemble each semester until graduation. Select from: [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#), [563\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#); [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#); [MUS 192\(1\)](#), [392\(1\)](#).
4. Small Ensembles (4 hours) from: [MUS 172\(1\)](#), [372\(1\)](#); [MUS 173\(1\)](#), [373\(1\)](#); [MUS 174\(1\)](#), [374\(1\)](#). Keyboard majors may substitute up to three hours of Accompanying.
5. Pedagogy (2 hours): [MUS 538\(2\)](#).
6. Applied Music (21 hours). Complete one:
 - a. Primary Instrument-Piano:
 - i. 19 hours from MUS 151, 251, 351, 451, 398, 498. Must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
 - ii. 2 hours from MUS 152, 252, 352, 452, 160, 260, 360, 460 (Organ or Carillon).
 - b. Primary Instrument-Organ:
 - i. 19 hours from MUS 152, 252, 352, 452, 398, 498. Must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
 - ii. 2 hours from MUS 151, 251, 351, 451, 160, 260, 360, 460 (Piano or Carillon).
 - c. Primary Instrument-Carillon:
 - i. 19 hours from MUS 160, 260, 360, 460, 398, 498. Must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
 - ii. 2 hours from MUS 151, 251, 351, 451, 152, 252, 352, 452 (Piano or Organ).
7. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 498\(2\)](#) and 2 hours from [MUS 451](#) or [452](#) or [460](#).

Vocal Performance option (54-55 hours):

1. Advanced Music History/Literature (5-6 hours) from: [MUS 523\(2\)](#), [524\(2\)](#), [543\(3\)](#), [544\(3\)](#), [545\(3\)](#), [546\(3\)](#), [547\(3\)](#), [548\(2\)](#).
2. Advanced Music Theory (6 hours) select from: [MUS 313\(2\)](#), [314\(2\)](#), [315\(2\)](#), [327\(2\)](#), [328\(2\)](#).
3. Large Ensembles (8 hours) as determined by audition, full-time students shall be in one of the following choral ensembles each semester until graduation. Select from: [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#), [563\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#).
4. Small Ensembles (4 hours): [MUS 172\(1\)](#), [372\(1\)](#); [MUS 193\(1\)](#), [393\(1\)](#).
5. Pedagogy (2 hours): [MUS 530\(2\)](#).
6. Applied Music (21 hours), must include [MUS 398\(2-4\)](#) and [MUS 498\(2-4\)](#).
7. Foreign Language (6 additional hours in a language other than that used in the Music Core) select from: French, German, Italian.
8. Singing Diction I and II (2 hours): [MUS 294\(1\)](#) and [295\(1\)](#).
9. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 498\(2\)](#) and 2 hours of [MUS 453](#).

GPA graduation requirement for all options

A grade of "C" or better is required in all Music courses counted toward the major.

University level requirements

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Assessment

All undergraduate majors in all degrees will be required to take an assessment test in music prior to graduation. This test will be administered at no cost to the student and will not be used for any purpose other than that of assessing departmental programs and courses.

Applied music courses

Amount of credit for each course is determined by the Music Department at registration. All applied music courses may be repeated for credit. Applied music courses: 149, 151, 152, 153, 155, 156, 157, 158, 159, 160, 249, 251, 252, 253, 255, 256, 257, 258, 259, 260, 349, 351, 352, 353, 355, 356, 357, 358, 359, 360, 398, 449, 451, 452, 453, 455, 456, 457, 458, 459, 460, 498, 649, 651, 652, 653, 655, 656, 657, 660, 749, 751, 752, 753, 755, 756, 757, 760, 798.

Ensembles

All ensemble courses may be repeated for credit. Only eight hours of ensembles can be counted toward a degree. Ensembles courses: MUS 161, 162, 163, 168, 172, 173, 174, 175, 176, 178, 192, 193, 280, 361, 362, 363, 368, 372, 373, 374, 375, 376, 380, 392, 393, 480, 561, 563.

Bachelor of Music Education

(Certifiable grades K-12)

Admission and audition requirements

Music degrees are designed to develop the student's abilities for performance, public school certification for teaching, private teaching, or composition. These degrees also prepare students for graduate study in music.

Students desiring to pursue a BA, BMus, BME, or BS music major or minor must first audition for a committee of applied faculty in that student's desired performance area.* This audition should take place during the semester prior to the first semester of enrollment in applied lessons. All students will be required to demonstrate, through successful completion of a Music Theory Entrance Exam, a rudimentary ability to relate musical sound to notation and terminology before beginning the theory and ear-training sequence.

All music majors must apply for formal admission to the degree program. This typically will occur at the end of the sophomore year, and must be completed before the student has finished 75 hours. In order to be admitted to the degree program, students must pass MUS 298, the piano proficiency exam, and have a combined (Missouri State and transfer) GPA of at least 2.75 and a combined (Missouri State and transfer) GPA of at least 3.00 in Music courses. Students who have not been formally admitted to the degree program will be unable to enroll in 300-level and above applied study.

*Students pursuing the minor in either Composition or Recording Arts are not required to audition in a performance area.

Admission to Teacher Education Program

Application to Teacher Education Program is automatic upon completion of MUS 200 and is contingent upon completion of requirements. Admission to the program is required before students are allowed to enroll in additional courses in the professional education component. The criteria below are used to determine admission to the Teacher Education Program

1. Completion of 45 credit hours.
2. Combined GPA (Missouri State and transfer) of 2.75 or higher.
3. Combined GPA (Missouri State and transfer) of 3.00 or higher in the major requirements (music content).
4. Piano proficiency passed.
5. Completion of COM 115, MUS 148, and MUS 200 with a grade of "C" or higher and MUS 298 with a grade of "P".
6. Earned a composite score or superscore of 20 or better on the ACT or earned passing scores on all four sub-sets of the Missouri General Education Assessment (MoGEA). Refer to the [MoGEA website](#) for details.
7. Completion of Transition Point One.
8. Approval of the Educator Preparation Provider Council.

Major requirements (63-64 hours):

All students must be admitted to the Teacher Education Program and to Supervised Teaching in order to earn this degree. The curriculum for music education leads to the degree of Bachelor of Music Education and carries with it an Initial Professional Certificate (IPC) to teach in the state of Missouri.

Note: A grade of "C" or better is required in all Music courses counted toward the major.

1. Music Theory (14 hours): [MUS 103\(3\)](#), [104\(3\)](#), [203\(3\)](#), [204\(3\)](#), [315\(2\)](#).
2. Music History/Literature (9 hours): [MUS 239\(3\)](#), [345\(3\)](#), [346\(3\)](#).
3. Conducting (4 hours): [MUS 321\(2\)](#), [323\(2\)](#).
4. Secondary Instruments (6 hours): [MUS 131\(1\)](#), [141\(1\)](#), [142\(1\)](#), [144\(1\)](#), [145\(1\)](#), [146\(1\)](#).
5. Music Education Elective (1-2 hours): Select from: [MUS 135\(1\)](#), [136\(1\)](#), [216\(2\)](#), [219\(2\)](#), [327\(2\)](#).
6. Specialization (3 hours): [MUS 506\(3\)](#) or [539\(3\)](#).
7. Piano (3 hours – may be waived by examination): [MUS 137\(1\)](#), [138\(1\)](#), [237\(1\)](#).
8. Instrumental Arranging (2 hours): [MUS 328\(2\)](#).
9. Applied Music (14 hours): must include [MUS 398](#) or [498\(2-4\)](#).
10. Recital Attendance: [MUS 107\(0\)](#), [108\(0\)](#), [207\(0\)](#), [208\(0\)](#), [307\(0\)](#), [308\(0\)](#), [407\(0\)](#).
11. Upper Division Applied Status: [MUS 298\(0\)](#).
12. Large Ensemble (7 hours): As determined by audition, full-time students shall be in one of the following instrumental ensembles, each semester except the supervised teaching semester, until graduation: [MUS 174\(1\)](#), [374\(1\)](#); [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#); [MUS 177\(1\)](#), [377\(1\)](#). Applied keyboard majors may substitute up to three hours of Accompanying: [MUS 192\(1\)](#), [392\(1\)](#). All Brass, Woodwind, Percussion, Strings (except guitar) must audition for and play in an assigned instrumental ensemble for seven semesters. Brass, woodwind and percussion students are also required to complete two semesters in Pride Marching Band.
13. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 488\(2\)](#) and [496\(5\)](#).

Professional Education requirements (34 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Introduction to Music Teaching (2 hours): [MUS 148\(2\)](#).

2. Principles and General Methods of Music Education (3 hours): [MUS 200\(3\)](#).
3. Adaptive Music for Special Learners (2 hours): [MUS 340\(2\)](#).
4. Introduction to Multicultural Education and Diversity (3 hours): [EDC 345\(3\)](#).
5. Educational Psychology (3 hours): [PSY 360\(3\)](#).
6. Reading and Writing in the Content Fields (3 hours): [RDG 474\(3\)](#).
7. Secondary Instrumental Methods and Materials (3 hours): [MUS 411\(3\)](#).
8. Music in Early Childhood and the Elementary School (3 hours): [MUS 430\(3\)](#).
9. Student Teaching Seminar (2 hours): [MUS 488\(2\)](#).
10. Supervised Teaching (10 hours): [MUS 494\(5\)](#), [496\(5\)](#).
11. At least a 3.00 combined (Missouri State and transfer) GPA with no grade lower than a "C" in Professional Education requirements.
12. At least a 3.00 combined (Missouri State and transfer) GPA with no grade lower than a "C" in major requirements.
13. Additionally State Board of Education certification rules require the following:
 - a. Completed degree in music education.
 - b. Attainment of all Missouri Teacher Education Requirements in effect at the time of certification.
 - c. Successful completion of Missouri Educator Gateway Assessments (MEGA) as established by the Missouri Board of Education. Refer to the [MEGA website](#) for details.

Assessment

All undergraduate majors in all degrees will be required to take an assessment test in music prior to graduation. This test will be administered at no cost to the student and will not be used for any purpose other than that of assessing departmental programs and courses.

Applied music courses

Amount of credit for each course is determined by the Music Department at registration. All applied music courses may be repeated for credit. Applied music courses: 149, 151, 152, 153, 155, 156, 157, 158, 159, 160, 249, 251, 252, 253, 255, 256, 257, 258, 259, 260, 349, 351, 352, 353, 355, 356, 357, 358, 359, 360, 398, 449, 451, 452, 453, 455, 456, 457, 458, 459, 460, 498, 649, 651, 652, 653, 655, 656, 657, 660, 749, 751, 752, 753, 755, 756, 757, 760, 798.

Ensembles

All ensemble courses may be repeated for credit. Only eight hours of ensembles can be counted toward a degree. Ensembles courses: MUS 161, 162, 163, 168, 172, 173, 174, 175, 176, 178, 192, 193, 280, 361, 362, 363, 368, 372, 373, 374, 375, 376, 380, 392, 393, 480, 561, 563.

Diploma in Applied Music

A diploma recital may be given by Bachelor of Arts, Bachelor of Science, and Bachelor of Music Education majors. Based on excellence in performance, this departmental diploma is granted upon recommendation of the

Department of Music. It is not granted to those receiving the Bachelor of Music degree since excellence in performance is evident in the awarding of this degree. Contact the department for more information.

Vocal/Choral or Instrumental Optional Missouri Teacher Certification Endorsements (Certifiable grades K-12)

Bachelor of Music Education

1. Vocal/Choral Endorsement for Instrumental Music Major (14 hours). Note: A grade of "C" or better is required in all Music courses counted toward the endorsement.
 - a. Applied Voice (4 hours) select from: [MUS 153\(1\)](#), [253\(1\)](#), [353\(1\)](#), [453\(1\)](#) and/or Voice Class (2 hours) select from: [MUS 135\(1\)](#), [136\(1\)](#).
 - b. Singing Diction (2 hours): [MUS 294\(1\)](#), [295\(1\)](#).
 - c. Choral Conducting (2 hours): [MUS 322\(2\)](#).
 - d. Choral Literature (3 hours): [MUS 510\(3\)](#).
 - e. Choral Arranging (2 hours): [MUS 518\(2\)](#).
 - f. Large Choral Ensemble (2 hours) select from: [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#), [563\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#).
2. Instrumental Endorsement for Vocal/Choral Music Major (14 hours). Note: A grade of "C" or better is required in all Music courses counted toward the endorsement.
 - a. Applied Music-Instrumental (2 hours).
 - b. Techniques (6 hours - may be waived by examination) select from: [MUS 131\(1\)](#), [133\(1\)](#), [141\(1\)](#), [142\(1\)](#), [144\(1\)](#), [145\(1\)](#), [146\(1\)](#).
 - c. Instrumental Conducting (2 hours): [MUS 323\(2\)](#).
 - d. Instrumentation (2 hours): [MUS 328\(2\)](#).
 - e. Large Instrumental Ensemble (2 hours) select from: [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#).
 - f. GPA Graduation Requirement: A grade of "C" or better is required in all Music courses counted toward the endorsements.

11. Upper Division Applied Status: [MUS 298\(0\)](#).
12. Large Ensemble (7 hours): As determined by audition. Full-time students shall be in one of the following vocal ensembles, in their certification emphasis, each semester except the supervised teaching semester, until graduation (a minimum of seven hours must show on the completed transcript): [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#).
13. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 488\(2\)](#) and [496\(5\)](#).

Professional Education requirements (37 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Introduction to Music Teaching (2 hours): [MUS 148\(2\)](#).

2. Principles and General Methods of Music Education (3 hours): [MUS 200\(3\)](#).
3. Adaptive Music for Special Learners (2 hours): [MUS 340\(2\)](#).
4. Introduction to Multicultural Education and Diversity (3 hours): [EDC 345\(3\)](#).
5. Educational Psychology (3 hours): [PSY 360\(3\)](#).
6. Reading and Writing in the Content Fields (3 hours): [RDG 474\(3\)](#).
7. Music in Early Childhood and the Elementary School (3 hours): [MUS 430\(3\)](#).
8. Middle Childhood and Preadolescent Vocal Methods and Material: Vocal (3 hours): [MUS 410\(3\)](#).
9. Adolescent and Early Adult Choral/Vocal Literature and Materials for Secondary Levels: Vocal (3 hours): [MUS 510\(3\)](#).
10. Student Teaching Seminar (2 hours): [MUS 488\(2\)](#).
11. Supervised Teaching (10 hours): [MUS 494\(5\)](#), [496\(5\)](#).
12. At least a 3.00 combined (Missouri State and transfer) GPA with no grade lower than a "C" in Professional Education requirements.
13. At least a 3.00 combined (Missouri State and transfer) GPA with no grade lower than a "C" in major requirements.
14. Additionally State Board of Education certification rules require the following:
 - a. Completed degree in music education.
 - b. Attainment of all Missouri Teacher Education Requirements in effect at the time of certification.
 - c. Successful completion of Missouri Educator Gateway Assessments (MEGA) as established by the Missouri Board of Education.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Assessment

All undergraduate majors in all degrees will be required to take an assessment test in music prior to graduation. This test will be administered at no cost to the student and will not be used for any purpose other than that of assessing departmental programs and courses.

Applied music courses

Amount of credit for each course is determined by the Music Department at registration. All applied music courses may be repeated for credit. Applied music courses: 149, 151, 152, 153, 155, 156, 157, 158, 159, 160, 249, 251, 252, 253, 255, 256, 257, 258, 259, 260, 349, 351, 352, 353, 355, 356, 357, 358, 359, 360, 398, 449, 451, 452, 453, 455, 456, 457, 458, 459, 460, 498, 649, 651, 652, 653, 655, 656, 657, 660, 749, 751, 752, 753, 755, 756, 757, 760, 798.

Ensembles

All ensemble courses may be repeated for credit. Only eight hours of ensembles can be counted toward a degree. Ensembles courses: MUS 161, 162, 163, 168, 172, 173, 174, 175, 176, 178, 192, 193, 280, 361, 362, 363, 368, 372, 373, 374, 375, 376, 380, 392, 393, 480, 561, 563.

Diploma in Applied Music

A diploma recital may be given by Bachelor of Arts, Bachelor of Science, and Bachelor of Music Education majors. Based on excellence in performance, this departmental diploma is granted upon recommendation of the Department of Music. It is not granted to those receiving the Bachelor of Music degree since excellence in performance is evident in the awarding of this degree. Contact the department for more information.

Vocal/Choral or Instrumental Optional Missouri Teacher Certification Endorsements (Certifiable grades K-12)

Bachelor of Music Education

1. Vocal/Choral Endorsement for Instrumental Music Major (14 hours). Note: A grade of "C" or better is required in all Music courses counted toward the endorsement.
 - a. Applied Voice (4 hours) select from: [MUS 153\(1\)](#), [253\(1\)](#), [353\(1\)](#), [453\(1\)](#) and/or Voice Class (2 hours) select from: [MUS 135\(1\)](#), [136\(1\)](#).
 - b. Singing Diction (2 hours): [MUS 294\(1\)](#), [295\(1\)](#).
 - c. Choral Conducting (2 hours): [MUS 322\(2\)](#).
 - d. Choral Literature (3 hours): [MUS 510\(3\)](#).
 - e. Choral Arranging (2 hours): [MUS 518\(2\)](#).
 - f. Large Choral Ensemble (2 hours) select from: [MUS 161\(1\)](#), [361\(1\)](#), [561\(1\)](#); [MUS 162\(1\)](#), [362\(1\)](#); [MUS 163\(1\)](#), [363\(1\)](#), [563\(1\)](#); [MUS 168\(1\)](#), [368\(1\)](#).
2. Instrumental Endorsement for Vocal/Choral Music Major (14 hours). Note: A grade of "C" or better is required in all Music courses counted toward the endorsement.
 - a. Applied Music-Instrumental (2 hours).
 - b. Techniques (6 hours - may be waived by examination) select from: [MUS 131\(1\)](#), [133\(1\)](#), [141\(1\)](#), [142\(1\)](#), [144\(1\)](#), [145\(1\)](#), [146\(1\)](#).
 - c. Instrumental Conducting (2 hours): [MUS 323\(2\)](#).
 - d. Instrumentation (2 hours): [MUS 328\(2\)](#).
 - e. Large Instrumental Ensemble (2 hours) select from: [MUS 175\(1\)](#), [375\(1\)](#); [MUS 176\(1\)](#), [376\(1\)](#).
 - f. GPA Graduation Requirement: A grade of "C" or better is required in all Music courses counted toward the endorsements.

Musical Theatre

Major(s)

Musical Theatre

Bachelor of Fine Arts

This major is offered in cooperation with the Department of Theatre and Dance.

The primary objective of this program shall be the development of the singer/actor/dancer who possesses a strong foundation in the requisite skills to pursue a career as a performing professional in musical theatre, including "book" musicals and variety productions.

Admission and audition requirements

In addition to the University's admission requirements, students are required to audition for acceptance to the BFA in Musical Theatre program prior to the first semester of course work in the major. Auditions and interviews for a place in the program are held on campus in February and March of each year. Specific information as to the date and the process is available through the Department of Theatre and Dance.

Performance reviews

In addition to the curricular requirements for the degree, students must successfully complete two performance reviews prior to graduation. These include a mid-program review after specified upper-level courses have been completed and an exit review given in one of the two semesters of the senior year.

Major requirements (86 hours):

1. Acting (14 hours): [THE 121\(3\)](#), [221\(3\)](#), [321\(3\)](#), [421\(3\)](#), [451\(2\)](#).

2. Applied Voice (11 hours): [MUS 298\(0\)](#), [498\(2-4\)](#); and from [MUS 153\(1\)](#), [253\(1\)](#), [353\(1\)](#), and [453\(1\)](#).
3. Stage Voice and Movement (9 hours): [THE 122\(3\)](#), [226\(2\)](#), [328\(3\)](#), [424\(1\)](#).
4. History/Analysis (9 hours): [THE 130\(3\)](#); [MUS 343\(3\)](#), [344\(3\)](#).
5. Technology (10 hours): [THE 150\(2\)](#), [151\(1\)](#), [224\(1\)](#), and select 6 hours from: [THE 250\(2\)](#) and [251\(1\)](#); [THE 255\(3\)](#); [THE 260\(2\)](#) and [261\(1\)](#).
6. Musicianship (7 hours): [MUS 103\(3\)](#), [104\(3\)](#), [137\(1\)](#).
7. Dance (12 hours): [DAN 125\(2\)](#) or [225\(2\)](#); [DAN 130\(2\)](#) or [230\(2\)](#); [DAN 131\(2\)](#) or [216\(3\)](#); [DAN 146\(2\)](#) or [245\(3\)](#); and [DAN 323\(2\)](#). If necessary, select additional hours from [DAN 225\(2\)](#), [245\(3\)](#), [345\(3\)](#), or [348\(2\)](#) to reach 12 hours in Dance.
8. Musical Theatre Practicum (8 hours) select from: [MUS 193\(1\)](#), [280\(2\)](#), [380\(2\)](#), [480\(2\)](#); [THE 495\(1\)](#).
9. Electives (6 hours): choose from Theatre, Music, or Dance courses with approval of advisor.
10. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 344\(3\)](#) and [498\(2-4\)](#).

GPA graduation requirements:

1. A grade of "C" or better is required in all MUS courses counted toward the major.
2. An overall GPA of 2.50 is required for all courses listed under major requirements.

Theatre and Dance Courses

Dance (DAN) courses

DAN 125 Dance Fundamentals: Tap Dance

Fundamentals of tap dance, with an emphasis on steps, terminology and the rhythmic structure of tap dance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall, Spring

DAN 130 Dance Fundamentals: Ballet

Fundamentals of classical ballet technique, with an emphasis on alignment and basic movement vocabulary. Designed for students with little or no experience. May be repeated to a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall, Spring

DAN 131 Dance Fundamentals: Contemporary Dance

Fundamentals of contemporary dance techniques, with an emphasis on basic movement principles and vocabulary. Designed for students with little or no dance experience. Variable content course. May be repeated for a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall, Spring

DAN 146 Beginning Jazz Dance

Prerequisite: DAN 130 and DAN 131, or permission of instructor.

Fundamentals of jazz dance technique and vocabulary. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

DAN 180 Introduction to the Dance

General Education Course (Focus on the Arts).

Survey of dance from a historical retrospective through the creative process. Emphasis will be placed on historical multi-cultural and societal influences on dance. The approach will be from the viewpoint of the audience to help heighten awareness of and increase critical thinking in relationship to the artistic experience. Buying tickets to and attendance at local productions required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

DAN 216 Elementary Contemporary Dance

Prerequisite: permission of instructor.

Explores elements of contemporary dance technique. Designed for students with at least one year of formal dance training. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall, Spring

DAN 225 Tap Dance II

Prerequisite: permission of instructor.

Elementary tap dance technique and vocabulary. Variable content course. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

DAN 230 Elementary Ballet

Prerequisite: permission of instructor.

Elementary classical ballet technique and vocabulary. This course is designed for students with at least one to two years of formal and consistent ballet training. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall, Spring

DAN 235 Men's Dance Technique I

Prerequisite: DAN 216 and DAN 230.

Basic techniques for the male dancer. Emphasis will be on strength building and developing the male dancer's technique and style. Variable content course. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

DAN 240 First-Year Seminar: Introduction to the Profession

An introduction to the Missouri State University Dance program. Required of all new Dance majors and minors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

DAN 245 Elementary Jazz Dance

Prerequisite: permission of instructor.

Continues development of jazz dance technique and vocabulary. Elementary level technique designed for students with at least one year of formal dance training. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall, Spring

DAN 316 Intermediate Contemporary Dance

Prerequisite: permission of instructor.

Intermediate level contemporary dance technique. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

DAN 319 Contact Improvisation

Prerequisite: permission of instructor.

Contemporary dance improvisation that explores sharing weight, rolling, lifting, flying and finding one's center. Dancers will explore and focus on specific relationships in partnering.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

DAN 320 Dance Composition I: Improvisation and Solo Forms

Prerequisite: permission of instructor.

Contemporary dance improvisation techniques, and creative approaches to development of basic movement themes and simple and complex manipulations of those themes. The first course in the Dance Composition Series.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall

DAN 323 Musical Theatre Dance Styles

Prerequisite: permission of instructor.

Students will analyze and embody performance techniques as related to historical trends in choreography and staging for American Musical Theatre. A minimum of three production numbers featuring either original Broadway choreography or choreography devised by the instructor will be taught and performed during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring (odd-numbered years)

DAN 325 Tap Dance III

Prerequisite: permission of instructor.

Continues development of intermediate level tap dance technique and vocabulary. Variable content course. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

DAN 330 Intermediate Ballet

Prerequisite: permission of instructor.

Intermediate level ballet technique. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

DAN 335 Men's Dance Technique II

Prerequisite: DAN 235.

Continued techniques for the male dancer. Emphasis will be on strength building and developing the male dancer's technique and style. Variable content course. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

DAN 340 Third-Year Seminar: Preparation for the Profession

Prerequisite: 75 hours.

Professional preparation, including communication and leadership skills, promotional and website building.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall

DAN 345 Intermediate Jazz Dance

Prerequisite: permission of instructor.

Intermediate level jazz dance techniques. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

DAN 348 Partnering

Prerequisite: permission of instructor.

Basic and elementary techniques of classical and contemporary partnering. Variable content course. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring (even-numbered years)

DAN 350 Research Methods for Dance

Prerequisite: Writing II and 60 hours.

This course addresses research methods, writing about dance, and conference presentation opportunities for research in dance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

DAN 364 Applied Kinesiology for the Dancer

Prerequisite: BIO 101 and 111; or BIO 121; or BMS 110 and 111.

The specific study of dance techniques through the principles of motion, muscle action and joint mechanics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

DAN 365 Somatic Practices

Prerequisite: permission of instructor.

Application of selected somatic practices, designed to enhance performance skills and awareness. Variable content course. Repeatable up to 4 credit hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

DAN 372 Music Resources for Dancers

Prerequisite: permission of instructor.

A study of music for dance. Students will explore music from various times/cultures in terms of form, rhythm (meter, syncopation, subdivision), texture, mood, and instrumentation. Students will be introduced to new musical resources and an enhanced musical awareness, tools critical for the student's artistic growth.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring (even-numbered years)

DAN 390 Service Learning in Dance

Prerequisite: 30 hours and concurrent registration in a DAN course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in Dance to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Spring

DAN 416 Advanced Contemporary Dance

Prerequisite: permission of instructor.

Advanced level contemporary dance technique. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

DAN 420 Dance Composition II: Small Group Forms

Prerequisite: DAN 320.

Choreographic techniques that explore creative approaches to the development and manipulation of movement themes. Emphasis on small group studies that explore space, time and energy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Spring

DAN 430 Advanced Ballet

Prerequisite: permission of instructor.

Advanced level ballet technique. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

DAN 445 Advanced Jazz Dance

Prerequisite: permission of instructor.

Advanced level jazz dance techniques. Variable content course. May be repeated to a total of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

DAN 482 Senior Project in Dance

Prerequisite: permission of instructor and 90 hours.

Public presentation of performance or paper to demonstrate the student's mastery of the skills received during the completion of the major. Required of all BS in Dance majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

DAN 492 Senior BFA Review

Prerequisite: permission of BFA coordinator.

Public presentation of portfolio, project, or performance to demonstrate the student's mastery of the skills developed during the major. Required of all BFA Dance majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

DAN 496 Readings

Prerequisite: permission of dance area coordinator.

Individual experimental or research studies in dance. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

DAN 497 Topics

Prerequisite: permission of instructor or course supervisor.

Group creative or special topics in dance. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

DAN 499 Projects

Prerequisite: permission of dance area coordinator.

Supervised individual creative projects in dance. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

DAN 520 Choreography and Production

Prerequisite: DAN 420 and THE 150.

Choreographing and directing a large group composition that will culminate with a performance on stage. Students will explore aspects of staging a complete work that will include the creation of original theme, casting of performers, choices of accompaniment, and lighting and costume design. Management of technical, business and artistic procedures involved in producing and staging dance productions. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

DAN 530 Pointe

Prerequisite: permission of instructor.

Pointe technique that focuses on stability, correct alignment of the feet and use of turn-out. At least one classical variation will be taught.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

DAN 552 Dance History Seminar

Prerequisite: 60 hours and Writing II.

Selected topics in the history of dance from the 20th century to the present.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

DAN 565 Dance Pedagogy

Prerequisite: 45 hours and DAN 316 and DAN 330 and DAN 345.

Overview of general theories and practices of teaching. This course investigates class content and various methodologies used to teach dance techniques and creative movement. Emphasis is placed on methods for teaching the beginning and elementary level student. Opportunities to develop and implement lesson plans, and to develop comprehensive training syllabi. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	2	4	Fall (even-numbered years)

DAN 592 Performance

Prerequisite: permission of instructor.

Performance laboratory for students in Dance. Focused study of dance repertory from a variety of genres. Emphasis will be placed on performance techniques as related to various styles. Variable content course. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

Theatre (THE) courses

THE 101 Introduction to Theatre and Drama Arts

General Education Course (Focus on the Arts).

The creative processes of transforming drama to stage, film and television. A study of the collaborations and contributions that the various artists make to the process. Intended to increase the audience's ability to think critically about the artistic experience. Buying tickets to and attendance at local productions required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	THEA 100A - Theatre Appreciation.

[Access the CORE 42 portal](#)

THE 109 Performance Studies

Exploration of the social, cultural, and aesthetic aspects of performance through an examination of self and society. Course combines lecture, readings, and individual student performances of oral and literary texts. Course enrollment is limited and much one-on-one work takes place.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 121 Acting Studio I

Prerequisite: concurrent enrollment in THE 122; open only to BFA Acting and Musical Theatre majors admitted through the audition process.

Development of foundational acting skills for the pre-professional actor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

THE 122 The Tools of the Actor

Prerequisite: open only to admitted BFA Acting, BFA Musical Theatre, BA and BS Theatre, and BSED Speech and Theatre students.

An introduction to the fundamental tools of the actor: physical development, vocal development, and ensemble collaboration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

THE 125 Voice and Movement for the Stage

Exercises in physical and vocal development for the actor. Introductory tools regarding anatomy, breathing, and articulation; care and maintenance of body and voice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

THE 130 Introduction to Script Analysis

Analysis of the script and its translation from page to performance through an examination of the relationships of directors, designers, performers, and audience in the rehearsal process and theatrical performance. Buying tickets to and attendance at local productions required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 150 Introduction to Theatre Technology

An introduction to the working relationships of designers and basic principles of costuming, lighting, and stagecraft. Buying tickets to and attendance at local productions required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

THE 151 Introduction to Theatre Technology Lab

Prerequisite: THE 150 or concurrent enrollment.

Practical application of the principles addressed in THE 150.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 195 Theatre Laboratory

Supervised practical work in the theatre including both on and off stage work. Requires 50 laboratory hours; 25 must be in technical areas. May be repeated to a total of 4 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 205 Speech for the Elementary Classroom

Speech activities in the elementary grades, correlating storytelling, choral reading, creative dramatics and speech correction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 210 Writing for Theatre

Prerequisite: ENG 110 or equivalent and 30 hours.

Study and practice of the discourse conventions of writing about dramatic literature and performance from the perspective of an educated generalist in the field. Students will hone skills of research, analysis, and argumentation in order to become more skillful theatre patrons, historians, and critics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 221 Acting Studio II

Prerequisite: THE 121.

Builds upon the pre-professional foundation developed in THE 121. Emphasis on finding truth in performance through applicable acting techniques and actualization of text. Application of play analysis to character study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

THE 222 Acting Fundamentals

A foundation in characterization, scene study, and auditioning. Buying tickets and attending local performances is required. Cannot replace THE 121 requirement for BFA Acting and BFA Musical Theatre majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 224 Stage Makeup I

Laboratory course providing students with fundamentals of the art of two dimensional makeup.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 226 Intermediate Voice and Movement

Prerequisite: THE 122 or THE 125 and permission of instructor.

Development of dynamic physical and vocal expression of text. Exercises in discarding negative self-awareness and habitual physical/vocal patterns that inhibit emotional expression.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Spring

THE 228 Singing for the Actor

Prerequisite: THE 221 or permission of instructor.

Approaches to singing for actors, with emphasis upon honest characterization and discovery in song.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

THE 250 Stagecraft and Construction I

Prerequisite: THE 150.

Working illustrations, construction, rigging, painting, and shifting of scenic units.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

THE 251 Stagecraft and Construction Lab

Prerequisite: concurrent enrollment in THE 250.

Practical application of the principles addressed in THE 250. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 255 Lighting Design I

Prerequisite: THE 150.

Introduction to the basic principles and practices of theatrical lighting design with an emphasis upon practical application. This combined lecture-lab course will encompass most aspects of a complete lighting design process through the study and application of lighting instrumentation, basic electrics and signal flow, photometry, color theory, script analysis, lighting plots and paperwork, and research collaboration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 256 Lighting Lab

Prerequisite: concurrent enrollment in THE 255.

Practical application of the principles addressed in THE 255.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 260 Costume Construction I

Prerequisite: THE 150.

Fundamentals of costuming for the stage. A study of fabrics and construction; basic cutting and sewing techniques; costume shop organization and stage management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

THE 261 Costume Construction Lab

Prerequisite: THE 260 or concurrent enrollment.

Practical application of the principles addressed in THE 260. May be repeated to a maximum of two hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 270 Drawing and Rendering for Theatre I

A survey of drawing and the use of various media as applicable to theatrical design. Includes figure and perspective drawing techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 271 Drawing and Rendering for Theatre II

Prerequisite: THE 270.

A continuation of the study of drawing, including figure and perspective drawing techniques. The use of various color media as applicable to theatrical design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 275 Drafting for the Stage

Prerequisite: THE 150.

Basic drafting techniques and practices for theatrical applications. Study of tools, methods, and formulas used in generating designs and drawings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

THE 280 Design Seminar Design Principles

Prerequisite: THE 150.

Basic principles of design as these relate to the theatre, intensive laboratory experience in theatrical design. Buying tickets to and attendance at local performances required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 281 Design Seminar-Lighting and Scenic Design Principles

Prerequisite: THE 150; and THE 270 or THE 271.

Basic principles of lighting and scenic design as these relate to the theatre. Intensive laboratory experience in theatrical design. Buying tickets to and attendance at local performances required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 292 BFA Review

Prerequisite: permission of area coordinator.

Public presentation of a portfolio, a project, or a performance demonstrating the student's mastery of the skills received during the major.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 295 Production/Design/Stage Management Project

Prerequisite: permission of area coordinator.

Technical or design or stage management assignment requiring an intermediate level of expertise and responsibility connected with a specific departmental production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 306 Interrelated and Integrated Arts

Prerequisite: ELE 302.

Theory, methodology, and activities for teaching the arts to children, from early childhood through Grade 6. A creative experiential approach, emphasizing how the four primary art forms (drama, movement, music, and art) relate to and enhance one another and facilitate the child's learning in other content areas. Cannot receive credit for both THE 306 and MUS 306.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Upon demand

THE 321 Acting Studio III

Prerequisite: THE 221.

Builds upon the pre-professional foundation developed in THE 121 and THE 221. Projects in advanced scene study, including contemporary drama and comedy. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

THE 323 Acting-Performance and Literature

Prerequisite: THE 221 or THE 222.

Individual and group performance of plays, prose narrative and poetry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

THE 324 Stage Makeup II

Prerequisite: THE 224.

Laboratory course dealing with three-dimensional makeup. Emphasis on prosthetics of latex.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

THE 326 Advanced Voice for the Actor

Prerequisite: THE 226.

Introduction to scansion and its application to performing classical material. Techniques for vocal health, stamina, and longevity.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall

THE 327 Advanced Movement for the Actor

Prerequisite: THE 226.

Advanced characterization and physicalization in the actor's performance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

THE 328 Combat and Violence for Stage and Screen

Prerequisite: THE 226.

An introduction to the techniques and terminology used in the performance of combat and physical violence for stage and screen. Emphasis is placed upon safety and honest physicalization.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

THE 350 Stagecraft and Construction II

Prerequisite: THE 250 and THE 275.

Study of advanced building techniques. Work with "non-conventional" materials. Explore uses of mechanical stage machinery. Plan and budget productions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (odd-numbered years)

THE 354 Stage Management

Prerequisite: THE 150.

Development of a production book and understanding of all procedures used by a stage manager from the selection of a script to the final production. The role of the stage manager is discussed for both the professional and the non-professional theatre.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 377 Introduction to Giving Voice

Prerequisite: permission of Instructor.

This foundation course for THE 577 Giving Voice explores theatrical techniques and exercises inspired by the work of Augusto Boal, including forum theatre and image theatre. Students develop cultural competence pertinent to their own lives and community through various forms of performative activism. Students utilize these skills through participation in interactive forums for classroom and community presentations. Through these forum performances students develop leadership skills as they address issues of power, privilege, social identity and structures of oppression.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 380 Design Seminar-Costume and Sound Design Principles

Prerequisite: THE 150.

Basic principles of costume and sound design as these relate to the theatre. Intensive laboratory experience in theatrical design. Buying tickets to and attendance at local performances required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 381 Design Seminar-Collaborative Design Process

Prerequisite: THE 280 and THE 281 and THE 380.

Collaboration as it relates to all areas of theatrical design. Intensive laboratory experience in theatrical design. Buying tickets to and attendance at local performances required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

THE 382 Research and Concept Development

Research and dramaturgy as these apply to previsualization, design, production, and concept development for the theatre and the performing arts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

THE 390 Service Learning in Theatre

Prerequisite: 30 hours and concurrent registration in a Theatre course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in Theatre to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

THE 392 BFA Review

Prerequisite: permission of area coordinator.

Public presentation of a portfolio, a project, or a performance demonstrating the student's mastery of the skills received during the major.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 395 Production/Design/Stage Management Project

Prerequisite: permission of area coordinator.

Technical or design or stage management assignment requiring an advanced level of expertise and responsibility connected with a specific departmental production. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 412 Structures and Styles in Classical Drama

Prerequisite: permission of instructor.

Study and exploration of dramatic modes in period and stylistic material. Monologue and scenework exploring Greek, Restoration, Romantic, and other performance styles.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Upon demand

THE 417 Teaching of Speech and Theatre

Prerequisite: EDC 350, SPE 340, EDT 365, 12 hours in communication and 12 hours in theatre, and admitted to Teacher Education Program.

Scope and objectives of the speech and theatre program in secondary schools; organization and administration of curricular and co-curricular programs; general instruction methodology. Completion of Checkpoint II for the Professional Portfolio is a component of this course. This course is recommended to be completed the fall semester before student teaching. Credited only on BSEd (Secondary). A grade of "C" or better is required in this course in order to take THE 490 or THE 491. Cannot be taken Pass/Not Pass. Identical with COM 417. Cannot receive credit for both THE 417 and COM 417.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 421 Acting Studio IV

Prerequisite: THE 321.

Builds upon the pre-professional foundation developed in THE 121, THE 221, and THE 321. Advanced techniques and tutorial scene work as applicable to both classical and contemporary works. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

THE 422 Scene Study

Prerequisite: THE 321 or THE 323.

Tutorial scene study focusing on acting tools necessary for the rehearsal process. May be repeated up to 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

THE 424 Dialects

Prerequisite: THE 421.

A foundation in dialects for the actor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

THE 430 Directing I

Prerequisite: THE 130 and THE 150 and; either THE 121 or THE 222.

Basic principles, skills and techniques underlying directing. Procedures in selecting, analyzing, casting and producing a play.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 451 Auditions

Prerequisite: THE 321.

Audition techniques for actors. Includes audition performance, material preparation, resumes, headshots, and industry skills and development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall

THE 454 Scene Painting

Prerequisite: THE 270.

Study of painting equipment tools, brushes, pigments, binders, and vehicles and their relationship to the surfaces to be painted. Instruction in basic painting techniques and texturing for the stage.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (even-numbered years)

THE 460 Costume Construction II

Prerequisite: THE 260.

Costume construction techniques with emphasis on patterning, draping, tailoring, and more specialized sewing and fabric manipulation processes. Requires 45 hours of laboratory work.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

THE 482 Senior Project in Theatre

Prerequisite: permission of instructor and 90 hours.

Public presentation of portfolio, project, performance, or paper to demonstrate the student's mastery of the skills received during the completion of the major. Required of all BA and BS in Theatre majors.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 489 Advanced Actor Seminar

Prerequisite: THE 421 and permission of instructor.

Lecture and laboratory experience for the actor about to enter the professional arena.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Fall

THE 490 Supervised Teaching (Secondary Speech and Theatre)

Prerequisite: THE 417; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in THE 491.

Student observes, then teaches speech and theatre classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Cannot count toward the major GPA. Identical with COM 490. Cannot receive credit for both THE 490 and COM 490.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

THE 491 Supervised Teaching (Secondary Speech and Theatre)

Prerequisite: concurrent enrollment in THE 490.

Student observes, then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Cannot count toward the major GPA. Cannot receive credit for both THE 491 and COM 491. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

THE 492 Senior BFA Project

Prerequisite: permission of area coordinator.

Public presentation of portfolio, project, or performance to demonstrate the student's mastery of the skills received during the major. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 493 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

THE 495 Theatre Practicum

An administrative, instructional, supervisory or guided production experience not available through class work. Student typically serves as a production aide to a faculty member, or assumes a faculty supervised artistic or leadership role. May be repeated to a total of 5 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 496 Readings

Prerequisite: permission of department head.

Individual, experimental or research studies in theatre and performance studies. May be repeated to a total of 9 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 497 Topics

Prerequisite: permission of department head.

Group creative or special topics in theatre and performance studies. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

THE 499 Projects

Prerequisite: permission of department head.

Supervised individual creative projects in theatre and performance studies. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

THE 505 Theatre for Children and Youth

Special training and techniques involved in the preparation and development of productions for, and by, children and youth. Activities include directing, scenic and costume design, scripting, and a study of the history, literature and research of the field. May be taught concurrently with THE 605. Cannot receive credit for both THE 605 and THE 505.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 506 Creative Dramatics

The art of creative drama and how it can be used in the school and community with children, youth, adults, and "special populations." Students teach their own classes in creative drama during the latter part of the semester. May be taught concurrently with THE 606. Cannot receive credit for both THE 606 and THE 506.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 510 Scripting and Performing

Prerequisite: THE 323.

Theoretical and practical knowledge in developing performance skills for one-person shows, extended literary performances, performance art, stand-up comedy, personal narrative and other performer-composed theatrical texts. May be taught concurrently with THE 611. Cannot receive credit for both THE 611 and THE 510.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 511 Structures and Styles Shakespeare

Prerequisite: permission of instructor.

Understanding honesty, text, style, and dynamics of action in the performance of Shakespeare. Creating roles in Shakespeare's plays.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

THE 515 Theatre for Social Change

Prerequisite: THE 323.

Theoretical and practical knowledge for developing performances for, about, and in partnership with community-based nonprofit organizations. Includes volunteer assignment and techniques for journaling, interviewing, scripting, and directing original material. May be taught concurrently with THE 616. Cannot receive credit for both THE 616 and THE 515. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 522 Auditioning and Acting for the Camera

Prerequisite: permission of instructor.

A practical immersion into the on-camera market for the professional actor. Auditioning and acting skills for single and multi-camera formats including commercials, television comedy, television drama, industrials, film, and other digital mediums. Also covers industry and marketing logistics in relation to the on-camera market. May be taught concurrently with THE 623. Cannot receive credit for both THE 522 and THE 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

THE 524 Acting on Film

Prerequisite: permission of instructor.

A focused immersion in acting for film and digital single-camera applications. Focus upon scale, the development of internal character conflicts, and honesty and complexity in characterization when performing on film.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

THE 530 Directing II

Prerequisite: THE 430.

Advanced directing techniques. Directing of a one-act play. May be taught concurrently with THE 640. Cannot receive credit for both THE 640 and THE 530.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 541 Theatre History I

Prerequisite: Writing II.

Traces the important periods in the development of theatre from its beginning through the English Restoration. Through analysis of conventions of staging and dramatic literature, examines the aesthetic, cultural, ethical, and social dimensions of theatre in different cultures and time periods. May be taught concurrently with THE 631. Cannot receive credit for both THE 541 and THE 631.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 542 Theatre History II

Prerequisite: Writing II.

Traces the important periods in the development of theatre from the 18th century to the present. Through analysis of conventions of staging and dramatic literature, examines the aesthetic, cultural, ethical, and social dimensions of theatre in different cultures and time periods. May be taught concurrently with THE 632. Cannot receive credit for both THE 542 and THE 632.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 543 Development of Modern Theatre

Prerequisite: Writing II.

Examines the aesthetic, cultural, ethical, and social dimensions of modern theatre, from the development of naturalism to Theatre of the Absurd, through analysis of staging practices, theatrical theory, and dramatic literature. May be taught concurrently with THE 633. Cannot receive credit for both THE 543 and THE 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

THE 545 Contemporary Theatre

Prerequisite: Writing II.

Examines the aesthetic, cultural, ethical, and social dimension of theatre and drama since 1960. Emphasis will be on theatre as an art form and a social and cultural institution. May be taught concurrently with THE 634. Cannot receive credit for both THE 545 and THE 634.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

THE 547 Development of American Theatre

Prerequisite: Writing II.

Study of theatre in the United States from colonial times to the present; with a focus on the cultural and aesthetic variety of American theatrical practice and the theatre as a reflection of various cultural, and political beliefs. May be taught concurrently with THE 635. Cannot receive credit for both THE 635 and THE 547.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

THE 552 Scene Design II

Prerequisite: THE 275 and THE 281.

Advanced designs of selected plays including floor plans, front elevations, white and finished models and renderings. May be taught concurrently with THE 652. Cannot receive credit for both THE 652 and THE 552.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 555 Lighting Design II

Prerequisite: THE 275 and THE 281.

Advanced principles and techniques of lighting for theatre, dance, and other performance/presentational events. May be taught concurrently with THE 655. Cannot receive credit for both THE 655 and THE 555.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 558 Sound Design for the Theatre

Principles of sound design with an emphasis on practical application. Includes a study and practice of basic audio production, recording, editing, mixing, reinforcement, and playback techniques used in association with dramatic events. Study of sound design includes aesthetic, dramatic, and practical considerations of script analysis, creative collaboration, research, and problem solving. Practical class application will be in the form of simple projects, exercises, and designs. May be taught concurrently with THE 658. Cannot receive credit for both THE 658 and THE 558.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (odd-numbered years)

THE 561 History of Costume and Decor I

A survey of styles of dress, interior design and decoration, architecture, art, and historical events as they pertain to the design of theatrical productions, from ancient Egypt to circa 1700. Requires sketching. May be taught concurrently with THE 671. Cannot receive credit for both THE 671 and THE 561.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 562 History of Costume and Decor II

Survey of styles of dress, interior design and decoration, architecture, and art as they pertain to the design of theatrical productions, from circa 1700 to the present day. Requires sketching. May be taught concurrently with THE 672. Cannot receive credit for both THE 672 and THE 562.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 565 Costume Design II

Prerequisite: THE 380.

Emphasis on special problems in costume design including applications of concepts to design projects and presentation of completed design projects. May be taught concurrently with THE 665. Cannot receive credit for both THE 665 and THE 565.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 577 Giving Voice Workshop

Prerequisite: THE 377 and permission of instructor.

A studio class utilizing interactive theatre and various theatrical techniques where students fully develop and present public forums addressing issues of oppression, such as diversity and sexual harassment. It is designed to allow students to apply skills developed in THE 377 to help various audiences to develop cultural competence. Students further develop their own cultural competence and ethical leadership skills, as they continue to address issues of power, privilege, social identity and structures of oppression. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Fall, Spring

THE 595 Theatre Practicum

Prerequisite: permission of department head.

Acting, stagecraft, costuming and associated work in the Tent Theatre or other specified theatre production. May be taught concurrently with THE 694. Cannot receive credit for both THE 694 and THE 595.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

THE 605 Theatre for Children and Youth

Special training and techniques involved in the preparation and development of productions for, and by, children and youth. Activities include directing, scenic and costume design, scripting, and a study of the history, literature and research of the field. May be taught concurrently with THE 505. Cannot receive credit for both THE 505 and THE 605.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 606 Creative Dramatics

The art of creative drama and how it can be used in the school and community with children, youth, adults, and "special populations." Students teach their own classes in creative drama during the latter part of the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 611 Scripting and Performing

Theoretical and practical knowledge in developing performance skills for one-person shows, extended literary performances, performance art, stand-up comedy, personal narrative and other performer-composed theatrical texts. May be taught concurrently with THE 510. Cannot receive credit for both THE 510 and THE 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 616 Theatre for Social Change

Theoretical and practical knowledge for developing performances for, about, and in partnership with community-based nonprofit organizations. Includes volunteer assignment and techniques for journaling, interviewing, scripting, and directing original material. May be taught concurrently with THE 515. Cannot receive credit for both THE 515 and THE 615.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 623 Auditioning and Acting for the Camera

Prerequisite: permission of instructor.

A practical immersion into the on-camera market for the professional actor. Auditioning and acting skills for single and multi-camera formats including commercials, television comedy, television drama, industrials, film, and other digital mediums. Also covers industry and marketing logistics in relation to the on-camera market. May be taught concurrently with THE 522. Cannot receive credit for both THE 522 and THE 623.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

THE 631 Theatre History I

Traces the important periods in the development of theatre from its beginning through the English Restoration. Through analysis of conventions of staging and dramatic literature, examines the aesthetic, cultural, ethical, and social dimensions of theatre in different cultures and time periods. May be taught concurrently with THE 541. Cannot receive credit for both THE 541 and THE 631.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 632 Theatre History II

Traces the important periods in the development of theatre from the 18th century to the present. Through analysis of conventions of staging and dramatic literature, examines the aesthetic, cultural, ethical, and social dimensions of theatre in different cultures and time periods. May be taught concurrently with THE 542. Cannot receive credit for both THE 542 and THE 632.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 633 Development of Modern Theatre

Examines the aesthetic, cultural, ethical, and social dimension of modern theatre, from the development of naturalism to Theatre of the Absurd, through analysis of staging practices, theatrical theory, and dramatic literature. May be taught concurrently with THE 543. Cannot receive credit for both THE 543 and THE 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

THE 634 Contemporary Theatre

Examines the aesthetic, cultural, ethical, and social dimension of theatre and drama since 1960. Emphasis will be on theatre as an art form and a social and cultural institution. May be taught concurrently with THE 545. Cannot receive credit for both THE 545 and THE 634.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

THE 635 Development of American Theatre

Study of theatre in the United States from colonial times to the present with a focus on the cultural and aesthetic variety of American theatrical practice and the theatre as a reflection of various social, cultural, and political beliefs. May be taught concurrently with THE 547. Cannot receive credit for both THE 547 and THE 635.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (even-numbered years)

THE 640 Directing II

Advanced directing techniques. Directing of a one-act play. May be taught concurrently with THE 530. Cannot receive credit for both THE 530 and THE 640.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

THE 652 Scene Design II

Advanced designs of selected plays including floor plans, front elevations, white and finished models and renderings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 655 Lighting Design II

Advanced principles and techniques of lighting for theatre, dance, and other performance/presentational events. May be taught concurrently with THE 555. Cannot receive credit for both THE 555 and THE 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 658 Sound Design for the Theatre

Principles of sound design with an emphasis on practical application. Includes a study and practice of basic audio production, recording, editing, mixing, reinforcement, and playback techniques used in association with dramatic events. Study of sound design includes aesthetic, dramatic, and practical considerations of script analysis, creative collaboration, research, and problem solving. Practical class application will be in the form of simple projects, exercises, and designs. May be taught concurrently with THE 558. Cannot receive credit for both THE 558 and THE 658.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (odd-numbered years)

THE 665 Costume Design II

Emphasis on special problems in costume design including applications of concepts to design projects and presentation of completed design projects. May be taught concurrently with THE 565. Cannot receive credit for both THE 565 and THE 665.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

THE 671 History of Costume and Decor I

A survey of styles of dress, interior design and decoration, architecture, art, and historical events as they pertain to the design of theatrical productions, from ancient Egypt to circa 1700. Requires sketching. May be taught concurrently with THE 561. Cannot receive credit for both THE 561 and THE 671.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 672 History of Costume and Decor II

Survey of styles of dress, interior design and decoration, architecture, and art as they pertain to the design of theatrical productions, from circa 1700 to the present day. Requires sketching. May be taught concurrently with THE 562. Cannot receive credit for both THE 562 and THE 672.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

THE 700 Graduate Research Methods in Theatre and Interpretation

Exploration of the current state of theatre studies. Focuses on strategies for research with primary and secondary sources, critical and theoretical methodologies, and various methods of reporting research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

THE 707 Theatre Pedagogy: Theories and Practices

Designed to acquaint theatre teachers with the field of current theories and practices of theatre and performance pedagogy, and to develop instructional skills with specific application to teaching introductory level theatre courses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

THE 710 Seminar: Performance

Studies in rhetorical, cultural, social and aesthetic dimensions of performance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring (even-numbered years)

THE 742 Dramatic Theory and Criticism

Representative theories of dramatic form and function; works of major critics and philosophers from Aristotle to present.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

THE 790 Workshop in Theatre

Designed to improve the students' skill and knowledge in specific areas of theatrical production. Each workshop will be concerned with a single topic, either acting, directing, or design. The course will examine the intersections between theory and practice in the creation of theatrical works. May be repeated to a maximum of 9 hours credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-9			Spring

THE 793 Degree Paper

Research and writing of an extended paper originating in one of the 700-level courses. Students may choose to present the completed paper for their required research report. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Upon demand

THE 794 Theatre Practicum

Prerequisite: permission of department head.

Acting, stagecraft, costuming and associated work in the Tent Theatre or other specified theatre production. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Upon demand

THE 795 Applied Research Project

Prerequisite: permission of research advisor and, if applicable, host institution permission must be obtained the semester prior to enrollment.

The applied research project may consist of: 1) a creative project (directing, designing, scripting, performing), or 2) an internship with a host company or agency. For the non-thesis project, students must design specific educational and social as well as artistic objectives and appropriate assessment measures in consultation with the advisor. Students may choose to report on the applied research project for their required research report. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring, Summer

THE 796 Readings

Prerequisite: permission of graduate coordinator.

Individual, experimental or research studies in theatre and performance studies. May be repeated to total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

THE 797 Topics

Prerequisite: permission of graduate coordinator.

Creative or special topics in theatre and performance studies. May be repeated to total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

THE 798 Thesis Research

Prerequisite: permission of the graduate coordinator.

Research leading to a masters thesis. Students will present a proseminar on their research during the semester they are enrolled in this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring, Summer

THE 799 Thesis Writing

Prerequisite: permission of graduate coordinator.

Preparation of thesis. May be repeated, but no more than 3 hours may be counted toward a masters degree. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring, Summer

Dance

Major(s)

Dance (Non-Comprehensive)

Bachelor of Science

Admission Requirements

In addition to the University's admission requirements, students are required to take a placement class and have an interview with the Dance faculty prior to the first semester of coursework in the major. On-campus auditions and interviews for a place in the program takes place each year, during the fall and spring semesters. Specific information as to the date and the process is available through the Department of Theatre and Dance.

Major requirements (43 hours)

1. Dance techniques (21 hours). No fewer than six hours in each of the following:
 - a. [DAN 216](#)(3), [316](#)(3), [416](#)(3).
 - b. [DAN 230](#)(3), [330](#)(3), [430](#)(3).
 - c. [DAN 245](#)(3), [345](#)(3), [445](#)(3).
 - d. Additional three hours from the courses listed above.
2. Composition/Choreography (4 hours): [DAN 320](#)(2), [420](#)(2).
3. History (3 hours): [DAN 552](#)(3).
4. Technical theatre (3 hours): [THE 150](#)(2), [151](#)(1).
5. Anatomy and kinesiology, somatic practices and dance pedagogy (8 hours): [DAN 364](#)(3), [365](#)(1), [565](#)(4).
6. Professional development (3 hours): [DAN 240](#)(1), [350](#)(2).
7. BS Project (1 hour): [DAN 482](#)(1).
8. Public Affairs Capstone Experience will be fulfilled by completion of [DAN 552](#) and [565](#).
9. A grade of C or better in all DAN and THE courses required for the major.

10. Minor required (or second major).

Musical Theatre

Major(s)

Musical Theatre

Bachelor of Fine Arts

This major is offered in cooperation with the Department of Music.

The primary objective of this program shall be the development of the singer/actor/dancer who possesses a strong foundation in the requisite skills to pursue a career as a performing professional in musical theatre, including "book" musicals and variety productions.

Admission requirements

In addition to the University's admission requirements, students are required to audition for acceptance to the BFA in Musical Theatre program prior to the first semester of course work in the major. Auditions and interviews for a place in the program are held on campus in February of each year. Specific information as to the date and the process is available through the Department of Theatre and Dance.

Performance reviews

In addition to the curricular requirements for the degree, students must successfully complete two performance reviews prior to graduation. These include a mid-program review after specified upper-level courses have been completed and an exit review given in one of the two semesters of the senior year.

Major requirements (86 hours):

1. Acting (14 hours): [THE 121\(3\)](#), [221\(3\)](#), [321\(3\)](#), [421\(3\)](#), [451\(2\)](#).

2. Applied Voice (11 hours): [MUS 298\(0\)](#), [498\(2-4\)](#); and from [MUS 153\(1\)](#), [253\(1\)](#), [353\(1\)](#), and [453\(1\)](#).
3. Stage Voice and Movement (9 hours): [THE 122\(3\)](#), [226\(2\)](#), [328\(3\)](#), [424\(1\)](#).
4. History/Analysis (9 hours): [THE 130\(3\)](#); [MUS 343\(3\)](#), [344\(3\)](#).
5. Technology (10 hours): [THE 150\(2\)](#), [151\(1\)](#), [224\(1\)](#), and select 6 hours from: [THE 250\(2\)](#) and [251\(1\)](#); [THE 255\(3\)](#); [THE 260\(2\)](#) and [261\(1\)](#).
6. Musicianship (7 hours): [MUS 103\(3\)](#), [104\(3\)](#), [137\(1\)](#).
7. Dance (12 hours): [DAN 125\(2\)](#) or [225\(2\)](#); [DAN 130\(2\)](#) or [230\(2\)](#); [DAN 131\(2\)](#) or [216\(3\)](#); [DAN 146\(2\)](#) or [245\(3\)](#); and [DAN 323\(2\)](#). If necessary, select additional hours from [DAN 225\(2\)](#), [245\(3\)](#), [345\(3\)](#), or [348\(2\)](#) to reach 12 hours in Dance.
8. Musical Theatre Practicum (8 hours) select from: [MUS 193\(1\)](#), [280\(2\)](#), [380\(2\)](#), [480\(2\)](#); [THE 495\(1\)](#).
9. Electives (6 hours): choose from Theatre, Music, or Dance courses with approval of advisor.
10. Public Affairs Capstone Experience will be fulfilled by completion of [MUS 344\(3\)](#) and [498\(2-4\)](#).

GPA graduation requirements:

1. A grade of "C" or better is required in all MUS courses counted toward the major.
2. An overall GPA of 2.50 is required for all courses listed under major requirements.

Speech and Theatre Education

Major(s)

Speech and Theatre Education

Bachelor of Science in Education (Certifiable grades 9-12)

Major requirements (56 hours):

Students interested in teaching speech and theatre at the secondary level may choose one of two options: One option emphasizes theatre (see below) and the other emphasizes communication (see Department of Communication). Both options meet state certification requirements for Speech and Theatre Education.

Note: Nine hours may double count in General Education requirements.

Major core (35 hours):

1. Specific General Education requirements: [COM 115\(3\)](#), [MED 120\(3\)](#), [PSY 121\(3\)](#).
2. [COM 115\(3\)](#), [322\(3\)](#), [532\(3\)](#), [534\(3\)](#), [536\(2\)](#); [THE 130\(3\)](#), [150\(2\)](#), [151\(1\)](#), [222\(3\)](#), [323\(3\)](#), [430\(3\)](#); [MED 120\(3\)](#).
3. Public Affairs Capstone Experience will be fulfilled by completion of [THE 491\(6\)](#).

Theatre Option (21 hours):

[THE 125](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE125)(2), [224](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE224)(1), [250](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE250)(2), [251](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE251)(1), [255](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE255)(3), [260](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE260)(2), [261](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE261)(1), [530](#) (https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE530)(3), [541](#)

(https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE541)(3), [542](#)

(https://www.missouristate.edu/registrar/catalog/courses_td.htm#THE542)(3).

Professional Education requirements (32 hours):

Note: A grade of "C" or better in each course is required for state certification.

1. Teaching methods and supervised teaching (15 hours): [THE 417\(3\)](#), [THE 490\(6\)](#), [THE 491\(6\)](#).
2. Additional [Professional Education Required Core and Competencies](#) (17 hours).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval for supervised teaching; and recommendation for certification which includes following GPA requirements. All GPA requirements include both Missouri State and transfer grades.
 - a. at least a 2.75 GPA on all course work attempted at all colleges attended.
 - b. at least a 3.00 GPA in the certificate subject area (major field of study) which includes all courses listed under major requirements.
 - c. at least a 3.00 GPA in any additional certificate subject area.
 - d. at least a 3.00 GPA in the professional education courses which includes all courses in number 1 and 2 above; and no grade lower than a "C" in all professional education courses.

1. Design/Technology (10 hours): [THE 150\(2\)](#) and [151\(1\)](#); [224\(1\)](#); choose two groups from [THE 250\(2\)](#) and [251\(1\)](#), or [THE 255\(3\)](#), or [THE 260\(2\)](#) and [261\(1\)](#).
2. Directing (6 hours): [THE 130\(3\)](#); and [THE 430\(3\)](#) or [DAN 520\(3\)](#)-required for Dance option.
3. History (6 hours): [THE 541\(3\)](#); and [THE 542\(3\)](#) or [DAN 552\(3\)](#).
4. Acting (3 hours): [THE 121\(3\)*](#) or [222\(3\)](#). *THE 121 is open to admitted BFA in Theatre and Dance/Acting and Musical Theatre majors only.
5. Electives from approved courses inside or outside the department (5 hours). 2-3 hours of Dance courses suggested.
6. Senior BFA Project:
 - a. [THE 492\(1\)](#) required for Acting option, and for Design/Technology/Stage Management option
 - b. [DAN 492\(1\)](#) required for Dance option

Complete one of the following options:**Acting option (47 hours):**

1. [THE 122\(3\)](#), [221\(3\)](#), [226\(2\)](#), [228\(2\)](#), [321\(3\)](#), [326\(3\)](#), [327\(3\)](#), [328\(3\)](#), [421\(3\)](#), [424\(1\)](#), [451\(2\)](#), [489\(2\)](#), [511\(3\)](#), [522\(3\)](#), [524\(3\)](#).
2. Three hours from: [THE 510\(3\)](#), [530\(3\)](#), [THE 543\(3\)](#) or [545\(3\)](#).
3. Five hours from approved performance related electives from Dance, Music, or Theatre courses.
4. Each candidate will have a formal assessment with the Acting faculty at the end of each spring semester to evaluate individual progress, strengths, and goals.
5. Public Affairs Capstone Experience will be fulfilled by completion of and [THE 489\(2\)](#) and [492\(1\)](#).
6. Each candidate will complete a minimum of one performance assignment on the MSU mainstage or at a pre-arranged affiliate professional theatre.

Dance option (47 hours):

1. Dance Technique (27 hours):
 - a. No fewer than 9 hours in: [DAN 216\(3\)](#), [316\(3\)](#), [416\(3\)](#).
 - b. No fewer than 9 hours in: [DAN 230\(3\)](#), [330\(3\)](#), [430\(3\)](#).
 - c. No fewer than 9 hours in: [DAN 245\(3\)](#), [345\(3\)](#), [445\(3\)](#).
2. Composition/Choreography (6 hours): [DAN 320\(2\)](#), [420\(2\)](#), [372\(2\)](#).
3. Partnering (2 hours): [DAN 348\(2\)](#).
4. Performance Practicum: [DAN 592\(1\)](#).
5. Anatomy and Kinesiology, and Somatic Practices (4 hours): [DAN 364\(3\)](#), [365\(1\)](#).
6. Pedagogy (4 hours): [DAN 565\(4\)](#).
7. Professional development (3 hours): [DAN 240\(1\)](#), [350\(2\)](#).
8. Public Affairs Capstone Experience will be fulfilled by completion of [DAN 520\(3\)](#) and [565\(4\)](#).
9. Dance majors are strongly encouraged to take [DAN 180](#) and one course from the following: [MUS 241](#) (fulfills a General Education requirement), [MUS 345](#) or [MUS 346](#).

Design/Technology/Stage Management option (47 hours):

1. Design/Technology core course sequence (not selected in major core) from: [THE 250\(2\)](#) and [251\(1\)](#); [THE 255\(3\)](#); or [THE 260\(2\)](#) and [261\(1\)](#).
2. [THE 270\(3\)](#), [271\(3\)](#), [275\(3\)](#), [280\(3\)](#), [281\(3\)](#), [292\(1\)](#), [295\(1\)](#), [354\(3\)](#), [380\(3\)](#), [381\(3\)](#), [382\(3\)](#), [392\(1\)](#), [395\(1\)](#), [495\(1\)](#), [561\(3\)](#), [562\(3\)](#).
3. Six hours from: [THE 324\(1\)](#), [350\(3\)](#), [454\(3\)](#), [460\(3\)](#), [530\(3\)](#), [552\(3\)](#), [555\(3\)](#), [558\(3\)](#), [565\(3\)](#); [COM 205\(3\)](#) or [332\(3\)](#).
4. Public Affairs Capstone Experience will be fulfilled by completion of [THE 395\(1\)](#), [492\(1\)](#) and [THE 495\(1\)](#).

College of Business Core

Majors in the Department of Technology and Construction Management and the Department of Merchandising and Fashion Design are excluded from these admission and program requirements.

Admission requirements

All students who plan to apply for admission to the College of Business should declare a major in one of the five departments within the business unit of the College upon admission to the university and seek enrollment advice through the Business Advisement Center. Students who are uncertain at the time of admission to the University should declare a business major with the specific area undecided.

Students in good standing are eligible to be considered for admission to a specific degree program in the College of Business upon the completion of at least 54 hours including at least ten of the following preparation courses. Up to two of the twelve courses listed may be completed during the semester of admission; however, students should make every effort to complete all of the preparation courses prior to admission.

Courses required for admission

1. Accounting: [ACC 201\(3\)](#) and [211\(3\)](#); or [ACC 206\(4\)](#)
2. Critical and Creative Thinking Using Information Technology: [ITC 200\(3\)](#)
3. Public Speaking: [COM 115\(3\)](#)
4. Economics: [ECO 155\(3\)](#) and [ECO 165\(3\)](#)
5. Writing I: [ENG 110\(3\)](#)
6. Business Communications: [MGT 286\(3\)](#)
7. Mathematics: [MTH 134](#) or higher (3-5 hours) except [MTH 130](#) (previous number for [MTH 145](#))
8. Psychology: [PSY 121\(3\)](#)
9. Business Statistics: [QBA 237\(3\)](#)
10. Legal Environment of Business: [LAW 231\(3\)](#)

Admission decisions will be determined by applicants' combined (Missouri State plus transfer) grade point averages. All applicants whose combined grade point average is 2.50 or higher will be admitted. With written permission from the Business Advisement Center Director, a student may take up to, but not exceeding, 12 hours of upper level College of Business credit while working to satisfy the grade point average requirement.

Special procedural information

Students must gain admission to the College of Business by the semester in which they have earned a total of 60 semester hours of college credit (including transfer credit). Students who do not gain admission as expected are subject to being dropped as business majors and will not be permitted to register for the following semester without special permission.

Business (and undeclared) majors cannot be enrolled in upper-division business courses until their degree program has been finalized. Business (and undeclared) majors who have enrolled in upper-division business courses without having met all admission requirements (or without having met all of the specific course prerequisites) will be dropped from those courses.

Students should contact the Business Advisement Center regarding the granting of special permission to register.

Program requirements

In addition to the General Education and General Baccalaureate Degree Requirements, all Bachelor of Science candidates in the College of Business must meet the following requirements for graduation.

- A. Grade Point Average: All business majors must have a 2.50 or higher grade point average at the time of graduation for all upper-division College of Business courses attempted at Missouri State University.
- B. College of Business Core Requirements:
 1. [ACC 201\(3\)](#) and [ACC 211\(3\)](#); or [ACC 206\(4\)](#)
 2. [ITC 201\(3\)](#)
 3. [ECO 155\(3\)](#) and [ECO 165\(3\)](#). *Note: ECO 155 or ECO 165 may also be used toward General Education requirements.*
 4. [FIN 380\(3\)](#)
 5. [LAW 231\(3\)](#) and [LAW 332\(1\)](#)
 6. [MGT 286\(3\)](#) and [MGT 340\(3\)](#) and [MGT 487\(3\)](#)
 7. [MKT 350\(3\)](#)
 8. [PSY 121\(3\)](#) *Note: PSY 121 may also be used toward General Education requirements.*
 9. [QBA 237\(3\)](#)
 10. [ACC 341\(3\)](#) required for Accounting majors; [ITC 429\(3\)](#) required for all other majors
 11. [MKT 364\(3\)](#) or [MKT 450\(3\)](#) required for Marketing majors; [MKT 364\(3\)](#) required for all other majors.
- C. Public Affairs Capstone Experience will be fulfilled by completion of [MGT 340\(3\)](#).
- D. Globalization Requirement: The College of Business requires all business majors to participate in an experience that will increase their preparation for successful careers in a globally competitive business environment. While the College of Business encourages students to achieve this goal by completing an international educational experience (see #1 below) or by completing three hours of foreign language courses (see #2 below), students may satisfy this globalization requirement by completing any one or more of the following five options:
 1. Completion of a full-semester education abroad experience, approved by the Director of International Business Programs, where the duration of the program is at least four weeks and the student passes at least three hours of course credit. This action will not result in a reduction of the total hours required toward the degree.

2. Completion of three hours of [language courses](#) such as: ARB, CHI, FRN, GRK, GRM, HBW, HIN, ITL, JPN, KOR, LTN, PTG, RUS, SPN, SWA.
 3. Completion of an internship where the student will live and work abroad for a period of at least six weeks and earn three credit hours of course credit in one of the following: ACC 494, BUS 494, ITC 494, MGT 494, or MKT 494. Course credit for the internship experience must be approved by the respective Department Head prior to acceptance/commencement of the internship. Prerequisites may apply. This action will not result in a reduction of the total hours required toward the degree.
 4. Completion of a COB upper-division course of at least three credit hours as part of an international short-term faculty-directed program with a COB faculty member. This action will not result in a reduction of the total hours required toward the degree.
 5. Completion of three hours from the following:
 - a. Accounting: [ACC 506](#)
 - b. Anthropology: [ANT 100](#), [303](#), [330](#), [332](#), [334](#). *Note: ANT 100 or GRY 100 or REL 210 may be used toward General Education requirements.*
 - c. Economics: [ECO 346](#), [456](#), [565](#)
 - d. English: [ENG 341](#), [361](#)
 - e. Finance: [FIN 582](#), [586](#)
 - f. Geography: [GRY 100](#), [305](#), [320](#), [321](#), [323](#). *Note: GRY 100 or ANT 100 or REL 210 may be used toward General Education requirements.*
 - g. Global Studies: [GBL 250](#)
 - h. History: [HST 340](#), [350](#), [355](#), [380](#), [381](#)
 - i. Interdisciplinary Studies: [IDS 297](#), [397](#) *Note: IDS 297 may be used toward General Education requirements.*
 - j. Language: [LLT 215](#), [LLT 225](#), [MCL 303](#)
 - k. Law: [LAW 539](#)
 - l. Management: [MGT 447](#)
 - m. Marketing: [MKT 464](#), [474](#)
 - n. Music: [MUS 239](#) *Note: May be used toward General Education requirements.*
 - o. Political Science: [PLS 205](#), [232](#), [544](#), [545](#), [548](#), [550](#)
 - p. Religious Studies: [REL 210](#), [330](#), [350](#), [355](#), [360](#). *Note: REL 210 or ANT 100 or GRY 100 may be used toward General Education requirements.*
 - q. Sociology: [SOC 150](#)
- E. Recommendation for Course Work Outside the College of Business: It is recommended that all business majors complete at least 50 percent of the hours required for graduation outside the College of Business. For purposes of this recommendation, the following courses may be counted as hours outside of the College of Business: QBA 237 and QBA 337, and all courses offered in the Department of Technology and Construction Management and Department of Merchandising and Fashion Design.
- F. Other Requirements:
1. A minimum of 12 credit hours not counted as requirements on any other major or minor, and exclusive of "problems" and "readings" courses, is required for the completion of any additional major in business.
 2. A minimum of 9 credit hours not counted as requirements on any major or other minor, and exclusive of "problems" and "readings" courses, is required for the completion of any minor in business.

Transfer credit validation requirements

Students who plan to begin work at a community college or another four-year institution and later transfer to Missouri State should take only those lower-division courses in business numbered 1 through 299. Upper-division courses taught in the junior and senior years at Missouri State are numbered 300 or higher and should not be completed at a two-year college for transfer credit in the business core or major program area of specialization at Missouri State. If similar courses are taken at the lower-division level at a community college or a four-year institution, validation through additional course work or testing will be required. Validation by exam must be completed within the semester

of admission. Validation by additional course work must be requested in the Business Advisement Center the semester of transfer and must be completed within one year. Courses taken at *any* level must be approved by the appropriate department as equivalent to an upper-division course in the College of Business.

Residence requirement for transfer students

At least 50 percent of the College of Business credit hours required for a business degree must be earned from the Missouri State University Springfield campus.

Sequencing of courses

The College of Business has established an appropriate sequencing of courses in addition to specified course prerequisites. Additional information about course prerequisites and sequencing of classes are available on the Business Advisement Center website. The sequencing of courses and course prerequisites are enforced by computerized prerequisite checks.

High school preparation

Students entering the College of Business are expected to have computer keyboarding skills and an understanding of the accounting cycle. These skills may be acquired by taking keyboarding/typewriting and accounting.

Enrollment by non-business students

Students seeking degrees outside the College of Business, Business Unit, including majors in the Department of Technology and Construction Management and Department of Merchandising and Fashion Design, cannot exceed 30 hours of business courses (25 percent of the 120 hours required for graduation) unless all admission requirements to the College of Business have been met. All exceptions must have the written approval of the Dean of the College of Business. Students found to be in violation of this policy will be dropped from all courses exceeding the maximum number of business course hours.

With careful selection of elective courses, students can customize their degree to target specific interests, entry-level job markets, or professional certification examinations. Students should consult with their advisor (and other faculty) concerning this opportunity.

The Certified Public Accountant (CPA) certification is the premier credential for those who wish to pursue a career in public accounting. State law establishes the minimum academic, testing and practice requirements for this designation.

Accountancy Courses

Accounting (ACC) courses

ACC 109 The Accounting Cycle

Introduction to the basic accounting concepts related to the processing of transactions and preparation of an income statement and balance sheet. A student who has received credit for ACC 201 at the time of enrollment in ACC 109 will not receive credit for ACC 109.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

ACC 121 Individual Tax Return Preparation

Principles of income tax with emphasis on the preparation of returns for individual taxpayers. Attention will be given to the proper reporting of income and deduction items.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

ACC 201 Introduction to Financial Accounting

Prerequisite: completion of 24 hours; and MSU GPA of 2.00; and combined (MSU and transfer) GPA of 2.00; and the General Education Focus on Quantitative Literacy requirement with a grade of "C" or better.

Methods and procedures employed in financial accounting with emphasis on development and interpretation of financial statements. A grade of "B" or better is required to take ACC 301, 321, or 532.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 206 Accounting Choices and Methods

Prerequisite: UHC 110.

Comprehensive and accelerated examination of alternative accounting models, including electronic spreadsheet models, and their uses. Replaces ACC 201 and 211 for Honors College students. A grade of "C" or better is required in this course in order to take ACC 311. A grade of "B" or better is required in this course in order to take ACC 301 or ACC 321 or ACC 532. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	4	0	Fall, Spring

ACC 209 Accounting Applications for Microcomputers

Use of the microcomputer and electronic spreadsheets to master the basic accounting cycle.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Upon demand

ACC 211 Introduction to Managerial Accounting

Prerequisite: ACC 201.

Methods and procedures employed in managerial accounting with emphasis on the use of accounting data for decision making. At least one spreadsheet project will be assigned. A grade of "C" or better is required in this course in order to take ACC 311. A grade of "B" or better is required in this course in order to take ACC 301. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 297 Topics in Accounting

A variable content course with topics that can change from semester to semester. Topics are identified by title in the schedule of classes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 300 Professionalism in Accountancy

Prerequisite: grade of "B" or better in ACC 201 and ACC 211, or grade of "B" or better in ACC 206, or grade of "B" or better in ACC 600; and undergraduate business majors must be admitted to degree program.

Cases (including written and oral presentations) will focus on ethical and regulatory issues in accounting. Students will focus on professional behavior appropriate for accounting professionals. A grade of "C" or better is required in this course in order to take ACC 302 and ACC 341. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

ACC 301 Intermediate Accounting I

Prerequisite: grade of "B" or better in ACC 201 and ACC 211 or grade of "B" or better in ACC 206 or ACC 600; and undergraduate business majors must be admitted to degree program.

Financial Accounting Theory applications to the accounting process of corporations. Review of financial statements; accounting for current and long-term assets. A grade of "C" or better is required in this course in order to take ACC 302, 341, 553, or 653. Cannot be taken Pass/Not Pass. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 302 Intermediate Accounting II

Prerequisite: grade of "C" or better in ACC 300 and ACC 301; and undergraduate business majors must be admitted to degree program.

Continuation of intermediate accounting. Accounting for liabilities and equity. A grade of "C" or better is required in this course in order to take ACC 504, 604, 506, 606, 553, or 653. Cannot be taken Pass/Not Pass. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 311 Managerial Cost Accounting

Prerequisite: grade of "C" or better in one of ACC 211 or ACC 206 or ACC 600; and undergraduate business majors must be admitted to degree program.

Function of cost accounting; means and methods of its applications in specific accounting situations. A grade of "C" or better is required in this course in order to take ACC 513, 613, 553, or 653.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 321 Tax Accounting I

Prerequisite: grade of "B" or better in one of ACC 201 or ACC 206 or ACC 600; and undergraduate business majors must be admitted to degree program.

Principles of income tax accounting; current laws and income tax problems of individuals. A grade of "C" or better is required in this course in order to take ACC 524, 624, 525, 625, 553 or 653. Cannot be taken Pass/Not Pass. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 341 Accounting and Management Information Systems

Prerequisite: grade of "C" or better in ACC 300 and ACC 301; and undergraduate business majors must be admitted to degree program.

Accounting system examined as a crucial base for the desired comprehensive management information system of an organization. Impact of the computer on accounting systems controls and the auditing of EDP based accounting systems. A grade of "C" or better is required in this course in order to take ACC 553 OR 653. Cannot be taken Pass/Not Pass.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 394 Cooperative Education in Accounting

Prerequisite: permission of the School of Accountancy Director; and undergraduate business majors must be admitted to degree program.

The opportunity to earn academic credit in a planned learning process that integrates academic training with a supervised work experience. Variable content course. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 397 Topics in Accounting

Prerequisite: undergraduate business majors must be admitted to degree program.

Topics are identified by title in the schedule of classes. Examples are: inflation accounting, management advisory services, public utility accounting, financial reporting to regulatory agencies. Variable content course. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 421 Volunteer Income Tax Assistance VITA

Prerequisite: grade of "C" or better in ACC 321; and undergraduate business majors must be admitted to degree program.

Field work in the preparation of individual income tax return (state and federal) covering topics of gross income, deductions and credits.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

ACC 422 Advanced Volunteer Income Tax Assistance VITA

Prerequisite: undergraduate business majors must be admitted to degree program.

Experience in the planning and scheduling of the VITA program and provides final review of actual income tax returns prepared under field conditions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Spring

ACC 494 Internship in Accounting

Prerequisite: 20 hours of accounting courses and permission of the School of Accountancy Director; and undergraduate business majors must be admitted to degree program.

Internship experience in an organization emphasizing public, managerial or not-for-profit accounting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5	0	10	Upon demand

ACC 496 Readings in Business Administration-Accounting

Prerequisite: permission of the School of Accountancy Director; and undergraduate business majors must be admitted to degree program.

Planned readings designed to intensify and supplement the area of accounting.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

ACC 504 Advanced Accounting

Prerequisite: grade of "C" or better in ACC 302; and undergraduate business majors must be admitted to degree program.

Study of accounting for pensions, deferred taxes, business combinations, partnerships, and certain multicurrency accounting issues. May be taught concurrently with ACC 604. Cannot receive credit for both ACC 604 and ACC 504. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 506 International Accounting

Prerequisite: grade of "C" or better in ACC 302; and undergraduate business majors must be admitted to degree program.

Accounting practices in different nations; multi-national corporation and selected accounting problems. May be taught concurrently with ACC 606. Cannot receive credit for both ACC 506 and ACC 606. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 513 Managerial Cost Accounting II

Prerequisite: grade of "C" or better in ACC 311; and undergraduate business majors must be admitted to degree program.

A continuation of the topics examined in ACC 311. Specific topics covered include activity-based costing, strategic cost management, activity- and strategic-based responsibility accounting, quality costing, measurement and control of productivity, environmental cost management, cost-volume-profit analysis, activity resource usage, relevant costing, pricing and profitability analysis, capital investment decisions, and inventory management topics such as economic order quantity, just-in-time, and the theory of constraints. May be taught concurrently with ACC 613. Cannot receive credit for both ACC 513 and ACC 613.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 524 Tax Accounting II

Prerequisite: grade of "C" or better in ACC 321; and undergraduate business majors must be admitted to degree program.

Principles of federal tax accounting; research in income tax problems of partnerships and corporations; estate and gift tax problems of individuals. May be taught concurrently with ACC 624. Cannot receive credit for both ACC 524 and ACC 624. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 525 Individual Income Tax Assistance

Prerequisite: grade of "C" or better in ACC 321; and permission of instructor; and undergraduate business majors must be admitted to degree program.

To provide students with an opportunity to integrate intermediate tax accounting skills, critical thinking skills, communication skills, and research skills with community service. This course provides service-learning experience in the preparation and review of actual individual income tax returns (both federal and state) as well as the social and ethical issues inherent in U.S. tax policy. May be taught concurrently with ACC 625. Cannot receive credit for both ACC 525 and ACC 625.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

ACC 532 Governmental and Not-For-Profit Organizational Accounting

Prerequisite: 75 hours; and a grade of "C" or better in ACC 301; and undergraduate business majors must be admitted to degree program.

Governmental and not-for-profit organizational accounting records and funds, budgeting, budget control, analysis and interpretation of financial statements. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 542 Data Analytics in Accounting

Prerequisite: ACC 341; and undergraduate business majors must be admitted to degree program.

This course introduces students to data analytics tools and techniques in accounting. Topics include: statistical techniques, data analysis, and visualization. This course uses Microsoft Excel, Tableau, and other data analysis software to implement and apply applications of these concepts and techniques. May be taught concurrently with ACC 642. Cannot receive credit for both ACC 542 and ACC 642.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 553 Auditing

Prerequisite: grades of "C" or better in ACC 300 and ACC 301 and ACC 302 and ACC 311 and ACC 321 and ACC 341; and undergraduate business majors must be admitted to degree program.

Kinds of audits, the duties and obligations of the auditor, principles and procedures to be followed in conducting an audit. A grade of "C" or better is required in this course in order to take ACC 703, 750, 751, 752, 754 and 790. This course has a required assessment component. Research assignments are required. Cannot be taken Pass/Not Pass. May be taught concurrently with ACC 653. Cannot receive credit for both ACC 553 and ACC 653.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 555 Internal Auditing

Prerequisite: grade of "C" or better in ACC 341; and undergraduate business majors must be admitted to degree program.

Functions of internal audit, financial audit, and operations audit; importance of the changing professional status of the internal auditor. May be taught concurrently with ACC 655. Cannot receive credit for both ACC 655 and ACC 555.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 556 Operational Auditing

Prerequisite: 60 hours; and undergraduate business majors must be admitted to degree program.

Primarily a case study approach covering nonfinancial audits of efficient and effective resource utilization, accomplishment of operational goals, adherence to laws and regulations, fraud prevention and detection, integrity and security of computer systems, and achievement of program goals. May be taught concurrently with ACC 656. Cannot receive credit for both ACC 656 and ACC 556.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 596 Research Issues and Problems: Accounting

Prerequisite: 60 hours and permission of the School of Accountancy Director; and undergraduate business majors must be admitted to degree program.

Research issues and projects growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a maximum of three hours. May be taught concurrently with ACC 695. Cannot receive credit for both ACC 695 and ACC 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 600 Accounting Concepts for Managers

Prerequisite: permission of a director of a College of Business graduate program or the director of the Master of Professional Studies program.

Comprehensive study of the fundamentals of financial and managerial accounting. Designed for graduate students who have not had an undergraduate course in accounting. Cannot be counted toward the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 604 Advanced Accounting

Prerequisite: grade of "C" or better in ACC 302; and admitted to the MAcc Program.

Study of accounting for pensions, deferred taxes, business combinations, partnerships, and certain multicurrency accounting issues. Research assignments are required. May be taught concurrently with ACC 504. Cannot receive credit for both ACC 504 and ACC 604.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 606 International Accounting

Prerequisite: grade of "C" or better in ACC 302; and admitted to the MAcc Program.

Accounting practices in different nations; multi-national corporation and selected accounting problems. Research assignments are required. May be taught concurrently with ACC 506. Cannot receive credit for both ACC 506 and ACC 606.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 613 Managerial Cost Accounting II

Prerequisite: grade of "C" or better in ACC 311 and admitted to the MAcc Program.

A continuation of the topics examined in ACC 311. Specific topics covered include activity-based costing, strategic cost management, activity- and strategic-based responsibility accounting, quality costing, measurement and control of productivity, environmental cost management, cost-volume-profit analysis, activity resource usage, relevant costing, pricing and profitability analysis, capital investment decisions, and inventory management topics such as economic order quantity, just-in-time, and the theory of constraints. May be taught concurrently with ACC 513. Cannot receive credit for both ACC 513 and ACC 613.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 624 Tax Accounting II

Prerequisite: grade of "C" or better in ACC 321; and admitted to the MAcc Program.

Principles of federal tax accounting; research in income tax problems of partnerships and corporations; estate and gift tax problems of individuals. Research assignments are required. May be taught concurrently with ACC 524. Cannot receive credit for both ACC 524 and ACC 624.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 625 Individual Income Tax Assistance

Prerequisite: grade of "C" or better in ACC 321; and permission of instructor; and admitted to the MAcc Program.

To provide students with an opportunity to integrate intermediate tax accounting skills, critical thinking skills, communication skills, and research skills with community service. This course provides service-learning experience in the preparation and review of actual individual income tax returns (both federal and state) as well as the social and ethical issues inherent in U.S. tax policy. May be taught concurrently with ACC 525. Cannot receive credit for both ACC 525 and ACC 625.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

ACC 642 Data Analytics in Accounting

Prerequisite: admitted to the MAcc program or permission of the Director of the School of Accountancy.

This course introduces students to data analytics tools and techniques in accounting. Topics include: statistical techniques, data analysis, and visualization. This course uses Microsoft Excel, Tableau, and other data analysis tools to implement and apply applications of these concepts and techniques. May be taught concurrently with ACC 542. Cannot receive credit for both ACC 642 and ACC 542.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 653 Auditing

Prerequisite: grades of "C" or better in ACC 300 and ACC 301 and ACC 302 and ACC 311 and ACC 321 and ACC 341; and admitted to the MAcc Program.

Kinds of audits, the duties and obligations of the auditor, principles and procedures to be followed in conducting an audit. A grade of "C" or better is required in this course in order to take ACC 703, 750, 751, 752, 754 and 790. This course has a required assessment component. Research assignments are required. May be taught concurrently with ACC 553. Cannot receive credit for both ACC 553 and ACC 653.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 655 Internal Auditing

Prerequisite: grade of "C" or better in ACC 341; and admitted to the MAcc Program.

Functions of internal audit, financial audit, and operations audit; importance of the changing professional status of the internal auditor. May be taught concurrently with ACC 555. Cannot receive credit for both ACC 555 and ACC 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 656 Operational Auditing

Prerequisite: admitted to MAcc Program.

Primarily a case study approach covering nonfinancial audits of efficient and effective resource utilization, accomplishment of operational goals, adherence to laws and regulations, fraud prevention and detection, integrity and security of computer systems, and achievement of program goals. May be taught concurrently with ACC 556. Cannot receive credit for both ACC 556 and ACC 656.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 688 Healthcare Accounting Concepts

The role of accounting in the financial and operational management of healthcare organizations is approached via an introduction to healthcare financial and managerial accounting principles. This course addresses the definition of financial accounting; external reporting; development and use of the income statement, balance sheet and statement of cash flows. The course also addresses the managerial accounting topics of cost behavior and allocation; accounting data for pricing and service decisions; planning and budgeting in healthcare organizations; analysis of financial condition; and selected topics in ethics. The course is a core requirement for Master of Health Administration students and may be of interest to students in other graduate programs. Note that ACC 688 cannot be substituted for ACC 711 in the MBA program and cannot be counted in the 33 semester hours required for the MAcc degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

ACC 695 Research Issues and Problems: Accounting

Prerequisite: permission of the Director of the School of Accountancy; and admitted to the MAcc Program.

Research issues and projects growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a maximum of three hours. May be taught concurrently with ACC 596. Cannot receive credit for both ACC 596 and ACC 695.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 703 Seminar in Accounting Theory for Financial Executives

Prerequisite: grade of "C" or better in ACC 301; and admitted to the MAcc Program.

Critical evaluation and interpretation of accounting theory. Completion of a significant research project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 705 Advanced Financial Accounting Problems

Prerequisite: grade of "C" or better in ACC 302; and grade of "C" or better in ACC 504 or ACC 604; and admitted to MAcc program.

An in-depth study of contemporary advanced financial accounting topics for professional accountants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 711 Managerial Accounting

Prerequisite: grade of "C" or better in ACC 211 or ACC 206 or ACC 600; and admitted to MBA or MHA program.

Role of accounting in improving the practice of business management; budgeting, accounting analysis, the behavior of costs, accounting control. This course will not be counted in the 33 semester hours required for the MAcc degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 712 Controllership and Cost Analytics

Prerequisite: grade of "C" or better in ACC 311; and admitted to the MAcc Program.

An in-depth examination of the leadership and communication challenges associated with controllership and chief financial officer (CFO) roles. There will be an emphasis on developing a cost analytics skill set vital for modern day use of emerging technologies by controllers and CFOs. Students will develop written and oral communication skills required for success as a professional accountant.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ACC 715 Advanced Cost Accounting

Prerequisite: grade of "C" or better in ACC 613 or in ACC 513; and admitted to the MAcc Program.

An in-depth study of contemporary topics for cost accountants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 721 Research Techniques and Consulting in Tax

Prerequisite: grade of "C" or better in ACC 321; and admitted to MAcc program.

Case study approach to develop tax research, analytical, and communication skills. Incorporated into the case studies are ethical and legal constraints within which tax practitioners are obligated to operate.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 722 Public Service Tax Accounting

Prerequisite: permission of instructor; and admitted to MAcc program.

Students will learn theoretical foundations in public service tax accounting topics and develop skills; which will apply to practical situations that will help students be better citizens and employees. Students will assist low-income, elderly, and English as Second Language taxpayers in the community in identifying and meeting their tax rights and responsibilities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	3	Spring

ACC 723 Tax Considerations for Decision Makers

Prerequisite: grade of "C" or better in ACC 624 or in ACC 524; and admitted to MAcc program.

Tax course with emphasis on recognizing and understanding the importance of tax considerations in the process of making decisions in business and personal matters; developing a tax institution to anticipate and understand the effect of prospective tax law changes; examining U.S. tax policy issues; and motivating students to a lifetime of learning by engaging them in independent study.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ACC 726 Regulation Issues for Accountants

Prerequisite: ACC 624 or ACC 524; and admitted to the MAcc program.

The course is designed to provide students with a focused intensive study of regulation issues particularly relevant to professional accountants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 731 Control of Non-Profit Organizations

Prerequisite: grade of "C" or better in ACC 311 or in ACC 711; and admitted to MAcc program.

Case study approach to financial control in non-profit organizations. Special emphasis is on governmental and health care organizations, although other non-profit organizations are also studied.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 732 Governmental and Not-For-Profit Organizational Accounting

Prerequisite: grade of "C" or better in ACC 301; and admitted to the MAcc Program.

Governmental and not-for-profit organizational accounting records and funds, budgeting, budget control, analysis and interpretation of financial statements. Research assignments are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 741 Advanced Accounting and Management Information Systems

Prerequisite: grade of "C" or better in ACC 341; and admitted to MAcc program.

Application of the concepts of systems design and implementation. Study of the attributes of accounting information systems and their relationship with management information systems. Functions of accounting information systems including data collection and transmission, internal controls, data organizations and storage, processing data, and information retrieval and display. Characteristics and applications of both manual and automated information systems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ACC 750 Advanced Auditing

Prerequisite: grade of "C" or better in ACC 653 or in ACC 553; and admitted to MAcc program.

An in-depth study of contemporary topics for auditing professionals.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 751 Computer Forensics and IT Auditing

Prerequisite: grade of "C" or better in ACC 653 or in ACC 553; and admitted to MAcc program.

A study of information systems controls; auditing around, through, and with the computer; auditing advanced computer systems, spreadsheets and other fourth generation language applications. Hands-on computer auditing projects will be integrated into the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 752 Fraud Examination

Prerequisite: grade of "C" or better in ACC 653 or in ACC 553; and admitted to MAcc program.

An in-depth study of the fraud examination process, including fraud prevention, detection, investigation, and management and employee fraud, and the legal aspects of fraud. Case studies are used extensively throughout the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 754 Forensic Accounting: Litigation Support and Expert Witnessing

Prerequisite: grade of "C" or better in ACC 653 or ACC 553; and admitted to MAcc program.

This course explores one of the major areas of practice in forensic accounting. The course provides an in-depth investigation into the world of accounting litigation support and financial expert witnessing. The course requires students to actively participate in case analysis, development of expert reports, deposition testimony, and trial testimony. Students are exposed to the legal issues that impact on their role as an expert witness.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 762 Business and Accounting Concepts for Accountants

Prerequisite: admitted to the MAcc program.

The course is designed to provide students with a focused, intensive study of business and accounting concepts particularly relevant to professional accountants.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ACC 790 Current Topics in Corporate and International Accounting

Prerequisite: grade of "C" or better in ACC 301; and admitted to MAcc program.

Critical evaluation and interpretation of the current research and professional literature in accounting. Study of ethical and institutional features of the accounting environment. Completion of a significant research project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ACC 794 Internship: Accounting

Prerequisite: 12 graduate hours of accounting courses; and permission of instructor; and admitted to MAcc program.

In consultation with the coordinating professor, the student is engaged in first-hand experience with a business, organization, or other professional entity. A portfolio of assigned work shall be collected, examined, and evaluated during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ACC 796 Independent Study-Accounting

Prerequisite: permission of instructor; and admitted to the MAcc program.

In consultation with coordinating professor, student selects for intensive study of a specific area of concern related to the student's program, with emphasis on research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 797 Special Topics in Accounting

Prerequisite: 9 graduate hours of accounting courses; and admitted to the MAcc program.

In-depth study of contemporary topics in accounting. Each offering concerns a single topic. May be repeated with departmental permission to a maximum of nine hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ACC 799 Thesis

Prerequisite: permission of instructor; and admitted to the MAcc program.

Independent research and study connected with preparation of thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

General information

Actuarial Science

Students may pursue a career as an actuary by choosing a major and minor in related areas and selecting appropriate electives. Students interested in Actuarial Science typically major in Mathematics and minor in Insurance. Students wishing to pursue the Actuary Science program should contact the Department of Mathematics to declare their major and The Business Advisement Center to declare their minor.

Finance and General Business Courses

Business (BUS) courses

BUS 135 Introduction to Business

A survey of business which includes an evaluation of the social and economic environment in which it operates, followed by a look at business organization, management, finance, accounting, production, marketing, insurance, law, and data processing. Designed to serve three groups of students--those majoring in other departments who would like to develop a broad understanding of business through a single course; those who are undecided about a major and would like to explore business as a possibility; and those freshmen planning a major in some area of business who would like a broad understanding of business in order to make a specific selection of their major. A declared major in the College of Business who has accumulated more than 30 semester hours of credit at the time of enrollment in the course will not receive credit for the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

BUS 200 Topics in Business

A variable content course with topics that can change from semester to semester. Topics are identified by title in the class schedule. Examples are: Personal Budgeting, Residential Home Construction, Insurance for the Family, Personal Credit Management, and Business Ethics. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

BUS 303 History of Business

Prerequisite: undergraduate business majors must be admitted to degree program.

History of business; contributions of individuals and companies in evolution of modern business principles and practices.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

BUS 305 Service Learning in Business

Prerequisite: 30 hours and concurrent registration in a Finance and General Business department course designated as a service learning offering; and undergraduate business majors must be admitted to degree program.

This service component for an existing course incorporates community service with classroom instruction in business to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Upon demand

BUS 307 Business in the Community

Prerequisite: undergraduate business majors must be admitted to degree program.

Study and application of business within the community. Topics include: planning and management of organizations from the viewpoint of education, community, and business; development of new business; organizational structure; interpersonal skills; funding and allocation resources of private, public and non-profit organizations. Allows for direct contact with local community leaders in education and business as well as opportunity to develop individual skills. Group dynamics and individual initiative are emphasized. May be available with BUS 305 Service Learning option. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2			Upon demand

BUS 392 International Education Abroad in Business

Prerequisite: acceptance into the related Education Abroad program; and undergraduate business majors must be admitted to degree program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more international locations to be visited. This will address the economic, political, global, historical, social, ethical and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting, and presentations. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 394 Cooperative Education in Business

Prerequisite: acceptance into Cooperative Education Program and permission of department head; undergraduate business majors must be admitted to degree program.

The opportunity to earn academic credit in a planned learning process that integrates academic training with a supervised work experience. Variable content course. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

BUS 395 Domestic Field Experience in Business

Prerequisite: acceptance into the related field experience program; and undergraduate business majors must be admitted to degree program.

Offered in conjunction with a domestic field experience through the Office of Education Abroad, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more U.S. financial center(s) (e.g. New York City) to be visited. This will address the economic, political, global, historical, social, ethical and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting, and presentations. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 397 Topics in Business

Prerequisite: undergraduate business majors must be admitted to degree program.

A variable content course with topics that can change from semester to semester. Topics are identified by title in the schedule of classes. Examples include: Employment Discrimination Law, Tax Planning for Real Estate Investments,

and special courses in Insurance. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

BUS 494 Internship

Prerequisite: 80 hours; academic preparation in the field of internship; permission of department head; and undergraduate business majors must be admitted to degree program.

Opportunity to obtain practical understanding and professional growth through appropriate work experience with a cooperating business entity. Employment details and academic expectations must be instructor and company-approved prior to enrollment. Variable content course. May be repeated to a maximum of three hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

BUS 510 E-Business and Online Entrepreneurship

Prerequisite: 54 hours; and undergraduate business majors must be admitted to degree program.

A study of e-business and online entrepreneurship from an applied, best practices point of view. Classroom visits by online entrepreneurs provide unique, real-world insights into the advantages, disadvantages, and challenges of doing business over the internet. May be taught concurrently with BUS 610. Cannot receive credit for both BUS 510 and BUS 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 550 Negotiation, Mediation, and Arbitration in Business

Prerequisite: 60 hours; and undergraduate business majors must be admitted to degree program.

A practical, skills-based study of negotiation, mediation, and arbitration from the business manager's perspective. This hands-on course is designed to develop the skills necessary to enable the business manager to effectively participate in negotiation, mediation, and arbitration as alternatives to litigation for resolving business disputes. Identical with LAW 550. May be taught concurrently with BUS 650. Cannot receive credit for more than one of BUS 550, BUS 650, LAW 550, or LAW 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

BUS 601 Foundations and Applications of Business Principles

Prerequisite: permission of the director of the Master of Professional Studies program.

An exploration of business principles and their application. Designed for graduate students who do not have an undergraduate degree in business. This course may not be counted in the hours required for a College of Business undergraduate or graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

BUS 610 E-Business and Online Entrepreneurship

A study of e-business and online entrepreneurship from an applied, best practices point of view. Classroom visits by online entrepreneurs provide unique, real-world insights into the advantages, disadvantages, and challenges of doing business over the internet. May be taught concurrently with BUS 510. Cannot receive credit for both BUS 610 and BUS 510.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 650 Negotiation, Mediation, and Arbitration in Business

A practical, skills-based study of negotiation, mediation, and arbitration from the business manager's perspective. This hands-on course is designed to develop the skills necessary to enable the business manager to effectively participate in negotiation, mediation, and arbitration as alternatives to litigation for resolving business disputes. Identical with LAW 650. May be taught concurrently with BUS 550. Cannot receive credit for more than one of BUS 550, BUS 650, LAW 550, or LAW 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

BUS 790 Seminar in Contemporary Business Issues

Prerequisite: 15 graduate hours and admission to a graduate program.

A variable topics course focusing on contemporary issues in business. The course will include a significant writing/research project and presentation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 792 International Education Abroad in Business

Prerequisite: acceptance into the related Education Abroad program; and admission to a graduate program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more international locations to be visited. This will address the economic, political, global, historical, social, ethical and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting, and presentations with graduate level proficiency. Group interactions based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

BUS 795 Domestic Field Experience in Business

Prerequisite: acceptance into the related field experience program; and admission to a graduate program.

Offered in conjunction with a domestic field experience program through the Office of Education Abroad, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more major U.S. financial center(s) (e.g. New York City) to be visited. This will address the economic, political, global, historical, social, ethical and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting, and presentations with graduate level proficiency. Group interactions based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Finance (FIN) courses

FIN 150 Personal Finance

A study of personal finance topics from the consumer and societal perspectives. Topics include the preparation and interpretation of personal financial statements and budgets, the time value of money, personal saving, financial market and investment fundamentals, the effective use of consumer credit, personal bankruptcy, insurance principles, automotive and housing decisions, principles of personal taxation, and retirement planning. This course will provide students with the concepts and critical thinking skills to understand the effects of financial decisions on individuals, families, and society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

FIN 266 Principles of Real Estate

Prerequisite: 15 hours.

An introduction to the study of real estate. Topics covered include legal aspects of real property, real estate financing, appraisal, brokerage, land-use control, property management, and investing in real estate.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 310 Fundraising Principles and Practices for Nonprofit Agencies

Prerequisite: undergraduate business majors must be admitted to degree program.

Comprehensive study of various funding sources for not-for-profit organizations. Explores relationships with umbrella organizations, techniques of fundraising, government funding, grantsmanship, budget control and accountability.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 350 Entrepreneurial Finance

Prerequisite: ACC 211 and QBA 237; and undergraduate business majors must be admitted to degree program.

This course introduces students to the nuances of financing the small business. Topics include basic forecasting, leverage, break-even analysis, managing working capital, and preparation of financial statements for a business plan.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FIN 367 Principles of Real Estate Appraisal

Prerequisite: FIN 266; undergraduate business majors must be admitted to degree program.

An introduction to the study of real estate appraisal. Topics covered include data collection and analysis, neighborhood and regional analysis, land and building function and description, highest and best use analysis, land valuation and improved property valuation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 368 Real Estate Law

Prerequisite: FIN 266; and undergraduate business majors must be admitted to degree program.

Rights and interests in land; evidence of title; co-ownership; contracts for sale of land; deeds; wills and descent; mortgages; liens; landlord and tenant; restrictions; zoning; brokers. Identical with LAW 368. May not receive credit for both FIN 368 and LAW 368.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 369 Real Estate Development

Prerequisite: FIN 266; undergraduate business majors must be admitted to degree program.

This course introduces the development process through its four major phases: concept, land acquisition, construction, and sales. Topics covered include project selection, debt and equity funding (obtainable from individual, institutional, and governmental sources), regulatory approval, environmental impact, and marketing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 380 Financial Management

Prerequisite: 54 hours including ACC 201 and ACC 211 and ECO 155 and ECO 165; and QBA 237 or equivalent; and undergraduate business majors must be admitted to degree program.

An introduction to topics in corporate financial management, including financial markets, time value of money, asset valuation, risk and return, financial analysis and forecasting, capital budgeting, sources, and costs of capital.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 381 Financial Planning

Prerequisite: 54 hours; and a grade of C or better in MTH 134 or higher; and undergraduate business majors must be admitted to degree program.

Introductory analysis and planning for financial goals and problems of individuals and families utilizing the financial planning process. Topics include financial planner ethics, client communication, household financial statements/budgets, cash/credit management, income taxes, housing, risk management, saving/investment, education finance, and estate planning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 384 Financial Markets and Intermediaries

Prerequisite: ACC 201 and ACC 211 and ECO 155 and ECO 165; undergraduate business majors must be admitted to degree program.

An overview of the organization and operation of major financial markets including money, bond, mortgage, equity, derivative, and international markets, and financial intermediaries including lenders, insurance companies, pension funds, investment banks, investment companies, and real estate investment trusts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 390 Intermediate Financial Management

Prerequisite: grade of B- or better in FIN 380; and undergraduate business majors must be admitted to degree program.

An in-depth study of corporate financial management concepts, including risk and return, valuation, financial analysis and forecasting, capital budgeting, cost of capital, capital structure, working capital, leasing, and global finance. The course utilizes electronic spreadsheets as a tool to enhance the quality of financial decisions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 392 International Education Abroad in Finance

Prerequisite: B- or better in FIN 380; acceptance into the related Education Abroad program; and undergraduate business majors must be admitted to degree program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more international locations to be visited. This will focus primarily on financial aspects of companies and institutions, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 395 Domestic Field Experience in Finance

Prerequisite: B- or better in FIN380; acceptance into the related field experience program; undergraduate business majors must be admitted to degree program.

Offered in conjunction with a domestic field experience through the Office of Education Abroad, the course consists of three parts; 1. Background research and discussion of selected companies and institutions of one or more major U.S. financial center(s) (e.g. New York) and the economic, political, international, historical, social, ethical, and cultural environment in which they function. 2. A visit of approximately seven days' duration to the financial center(s) to visit selected companies, financial markets, and cultural icons. 3. A final written project and group discussion of the experience. The course involves extensive research, written and oral reporting, and group interaction based upon trust, respect and integrity.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 480 Financial Decision Making

Prerequisite: FIN 390; undergraduate business majors must be admitted to degree program.

Application of the concepts and techniques of finance to solve financial management problems faced by contemporary companies. The course emphasizes the development of financial decision-making skills through in-depth case analysis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FIN 485 Investments

Prerequisite: grade of B- or better in FIN 380; and undergraduate business majors must be admitted to degree program.

A survey of investment principles, investment environments, security valuation, and financial markets.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 487 Intermediate Investments

Prerequisite: FIN 485; and undergraduate business majors must be admitted to degree program.

An extension of FIN 485, Investments, including an in-depth study of security analysis, investment strategy, portfolio theory, risk analysis, and management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

FIN 494 Internship in Finance

Prerequisite: B- or Better in FIN 380; permission of department head; and undergraduate business majors must be admitted to degree program.

A variable content course. Opportunity to obtain practical understanding and professional growth through appropriate finance-related work experience at a cooperating financial institution, regulatory agency, etc., or in the finance area of a complex business entity. Employment details and academic expectations must be instructor and company-approved prior to enrollment. Graded Pass/Not Pass. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

FIN 496 Readings in Finance

Prerequisite: permission of department head; and undergraduate business majors must be admitted to degree program.

Planned readings designed to intensify and supplement the area of finance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

FIN 538 Introduction to Estate Planning

Prerequisite: LAW 231 or LAW 600; and FIN 380 or FIN 381 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

Estate planning process; estate distribution probate, wills, trusts, gifts, life insurance; taxes incidental to an estate; administration of estates and trusts; analysis and selection of devices for lifetime and testamentary transfers of property. Identical with RMI 538. May be taught concurrently with FIN 638. Cannot receive credit for more than one of FIN 538, FIN 638, RMI 538, or RMI 638.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FIN 581 Professional Financial Planning

Prerequisite: ACC 321 and FIN 381 and FIN 485 and RMI 211 and LAW 231; and RMI 314 or concurrent enrollment; and FIN 538 or RMI 538 or ACC 524 or concurrent enrollment; and undergraduate students must be admitted to degree program.

A case-oriented study of comprehensive financial planning for client families. This course integrates prior knowledge of financial planning principles and practice, investments, insurance, law, tax planning, retirement planning, and estate planning. Advanced topics in these subjects are also presented. The financial planning process, standards of professional practice, and planner ethics are emphasized. May be taught concurrently with FIN 681. Cannot receive credit for both FIN 581 and FIN 681.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FIN 582 International Financial Management

Prerequisite: grade of B- or better in FIN 380; and undergraduate business majors must be admitted to degree program.

This course is designed to survey how the key concepts of business finance can be applied in the context of a multinational firm. Topics include: the nature and functioning of the foreign exchange market, parity conditions, foreign exchange risk management, and international investment and financing decisions. May be taught concurrently with FIN 682. Cannot receive credit for both FIN 582 and FIN 682.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 586 International Financial Statement Analysis

Prerequisite: grade of B- or better in FIN 380; and undergraduate business majors must be admitted to degree program.

An introduction to the study of international financial statement analysis emphasizing the financial statement analysis portion of the common body of knowledge from the Chartered Financial Analyst (CFA) program. May be taught concurrently with FIN 686. Cannot receive credit for both FIN 586 and FIN 686.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 589 Management of Financial Institutions

Prerequisite: grade of B- or better in FIN 380; and either FIN 384 or ECO 305; and undergraduate business majors must be admitted to degree program.

A study of the theory and practice of managing depository and non-depository financial institutions. The principal focus is asset and liability management, especially with respect to the risks associated with establishing the ideal balance between the two. Such risks include interest rate, liquidity, credit, foreign exchange and capital risk. The use of money and credit markets, as well as derivative securities to minimize risk as well as to achieve strategic financial

objectives is stressed. Management implications of current developments in the interaction between financial institutions and markets are discussed. May be taught concurrently with FIN 689. Cannot receive credit for both FIN 589 and FIN 689.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

FIN 596 Research Issues and Problems: Finance

Prerequisite: 60 hours; and permission of department head; and undergraduate business majors must be admitted to degree program.

Research issues and problems growing from special areas of a student's interest which may require additional depth or breadth of study. Student's proposal and outline of study must be approved prior to enrolling. May be taught concurrently with FIN 697. Cannot receive credit for more than 6 hours of FIN 596 and FIN 697 combined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FIN 598 Financial Research and Portfolio Management

Prerequisite: FIN 485 and undergraduate business majors must be admitted to degree program.

An introduction to finance industry research tools and the use of those tools to conduct in-depth security analysis and portfolio management. The course emphasizes more advanced security analysis and portfolio management techniques, aided by the use of industry accepted research tools. May be taught concurrently with FIN 698. Cannot receive credit for both FIN 598 and FIN 698.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 599 Directed Study for CFA Level I Exam

Prerequisite: permission of instructor; and undergraduate business majors must be admitted to degree program.

The professor and student will devise a study plan, based upon the CFA Institute's Common Body of Knowledge, that will best-prepare the student to pass the CFA Level I Exam in June of the current year. May be taught concurrently with FIN 699. Cannot receive credit for both FIN 599 and FIN 699.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Spring

FIN 600 Managerial Finance

Prerequisite: ACC 600 and ECO 600; and permission of a director of a College of Business Graduate Program.

Comprehensive study of the finance function in the business enterprise, including financial analysis-planning-forecasting, capital budgeting, leasing, working capital management, capital structure, dividend policy, and multinational finance. Designed for graduate students who have not had an undergraduate course in financial management in the last five years. This course will not be counted in the hours required for a College of Business undergraduate or graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 638 Introduction to Estate Planning

Prerequisite: LAW 231 or LAW 600; and FIN 380 or FIN 381 or FIN 600 or concurrent enrollment.

Estate planning process; estate distribution, probate, wills, trusts, gifts, life insurance; taxes incidental to an estate; administration of estates and trusts; analysis and selection of devices for lifetime and testamentary transfers of property. Identical with RMI 638. May be taught concurrently with FIN 538. Cannot receive credit for more than one of FIN 538, FIN 638, RMI 538, or RMI 638.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FIN 681 Professional Financial Planning

Prerequisite: ACC 321 and FIN 381 and FIN 485 and RMI 211 and LAW 231; and RMI 314 or concurrent enrollment; and FIN 538 or RMI 538 or RMI 638 or ACC 524 or ACC 624 or concurrent enrollment.

A case-oriented study of comprehensive financial planning for client families. This course integrates prior knowledge of financial planning principles and practice, investments, insurance, law, tax planning, retirement planning, and estate planning. Advanced topics in these subjects are also presented. The financial planning process, standards of professional practice, and planner ethics are emphasized. May be taught concurrently with FIN 581. Cannot receive credit for both FIN 681 and FIN 581.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FIN 682 International Financial Management

Prerequisite: admission to the MBA program, or admission to a graduate certificate program within the Finance and General Business Department, or permission from the MBA Program Director, or a director of a graduate program within the College of Business; and grade of B- or better in FIN 380 or FIN 600.

This course is designed to survey how the key concepts of business finance can be applied in the context of a multinational firm. Topics include: the nature and functioning of the foreign exchange market, parity conditions, foreign exchange risk management, and international investment and financing decisions. May be taught concurrently with FIN 582. Cannot receive credit for both FIN 682 and FIN 582.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 686 International Financial Statement Analysis

Prerequisite: admission to the MBA program, or admission to a graduate certificate program within the Finance and General Business Department, or permission from the MBA Program Director, or a director of a graduate program within the College of Business; and a grade of B- or better in FIN 380 or FIN 600.

An introduction to the study of international financial statement analysis emphasizing the financial statement analysis portion of the common body of knowledge from the Chartered Financial Analyst (CFA) program. May be taught concurrently with FIN 586. Cannot receive credit for both FIN 686 and FIN 586.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 689 Management of Financial Institutions

Prerequisite: grade of B- or better in FIN 380 or FIN 600; and admission to the MBA program, or admission to a graduate certificate program within the Finance and General Business Department, or permission from the MBA Program Director or a director of a graduate program within the College of Business.

A study of the theory and practice of managing depository and non-depository financial institutions. The principal focus is asset and liability management, especially with respect to the risks associated with establishing the ideal balance between the two. Such risks include interest rate, liquidity, credit, foreign exchange and capital risk. The use of money and credit markets, as well as derivative securities to minimize risk as well as to achieve strategic financial objectives is stressed. Management implications of current developments in the interaction between financial institutions and markets are discussed. May be taught concurrently with FIN 589. Cannot receive credit for both FIN 589 and FIN 689.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

FIN 697 Research Issues and Problems: Finance

Prerequisite: permission of department head.

Research issues and problems growing from special areas of a student's interest which may require additional depth or breadth of study. Student's proposal and outline of study must be approved prior to enrolling. May be repeated to a

total of 6 hours. May be taught concurrently with FIN 596. Cannot receive credit for more than 6 hours of FIN 596 and FIN 697 combined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FIN 698 Financial Research and Portfolio Management

Prerequisite: FIN 485 or FIN 785.

An introduction to finance industry research tools and the use of those tools to conduct in-depth security analysis and portfolio management. The course emphasizes more advanced security analysis and portfolio management techniques, aided by the use of industry accepted research tools. May be taught concurrently with FIN 598. Cannot receive credit for both FIN 698 and FIN 598.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 699 Directed Study for CFA Level I Exam

Prerequisite: permission of instructor.

The professor and student will devise a study plan, based upon the CFA Institute's Common Body of Knowledge, that will best-prepare the student to pass the CFA Level I Exam in June of the current year. May be taught concurrently with FIN 599. Cannot receive credit for both FIN 699 and FIN 599.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Spring

FIN 780 Advanced Financial Management

Prerequisite: ACC 711; and a grade of B- or better in FIN 600; and admission to the MBA program, or admission to a graduate certificate program within the Finance and General Business Department, or permission from the MBA Program Director or a director of a graduate program within the College of Business.

An advanced study of the theory and practice of corporate financial management, including financial analysis and forecasting, working capital, capital budgeting, cost of capital, capital structure, mergers and acquisitions, and valuation. The course utilizes cases to emphasize both theory and technology in supporting sound financial decision-making.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 785 Investment Management

Prerequisite: FIN 780.

A study of investment theory and practice. Topics include portfolio theory, equilibrium in capital markets, equity and fixed income security analysis, derivatives (options, futures, swaps), portfolio management and strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FIN 787 Seminar in Derivatives

Prerequisite: FIN 780.

A study of the fundamentals, pricing, and trading strategies of options, forwards, futures and swaps. Emphasis is placed on the modeling tools most widely used for calculating their prices and related hedging parameters. The course includes an exploration of current/relevant literature concerning market mechanics, participants, and government regulation. Each student will participate in the preparation of a significant team project and presentation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FIN 788 Healthcare Financial Management

Prerequisite: ACC 688.

An introduction to fundamental financial management concepts and skills necessary for managers at a variety of levels in healthcare organizations. The course provides an overview of financial management and how the finance function is organized in healthcare organizations. Topics covered include: time value of money, risk and return, asset valuation, capital budgeting, financial analysis, costs of capital, and working capital management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FIN 790 Seminar in Finance

Prerequisite: 15 graduate hours in business administration and economics including FIN 780 and permission of the coordinator of graduate studies.

Critical evaluation and interpretation of research and literature in finance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Summer

FIN 792 International Education Abroad in Finance

Prerequisite: B- or better in FIN 380 or 600; acceptance into the related Education Abroad program; and admission to a graduate program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more international locations to be visited. This will focus primarily on financial aspects of companies and institutions, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations with graduate-level proficiency. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 794 Internship: Finance

Prerequisite: permission of the director of the appropriate graduate program and department head.

In consultation with the coordinating professor, the student is engaged in on-the-job experience with a business, organization, or other professional entity. A portfolio of assigned work shall be collected, examined and evaluated during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

FIN 795 Domestic Field Experience in Finance

Prerequisite: B- or better in FIN 380 or FIN 600; and admission to a graduate program.

Offered in conjunction with an domestic field experience through the Office of Education Abroad, the course consists of three parts; 1. Background research and discussion of selected companies and institutions of one or more major U.S. financial center(s) (e.g. New York) and the economic, political, international, historical, social, ethical, and cultural environment in which they function. 2. A visit of approximately seven days' duration to the financial center(s) to visit selected companies, financial markets, and cultural icons. 3. A final written project and group discussion of the experience. The course involves extensive research, written and oral reporting, and group interaction based upon trust, respect and integrity.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FIN 796 Independent Study: Finance

Prerequisite: permission of the director of the appropriate graduate program and department head.

In consultation with the advisor, student selects for intensive study a specific area of concern related to the student's program with emphasis on research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FIN 799 Directed Study for CFA Level II Exam

Prerequisite: permission of instructor and successful completion of the CFA Level I exam.

The professor and student will devise a study plan, based upon the CFA Institute's Common Body of Knowledge, that will best-prepare the student to pass the CFA Level II Exam in June of the current year.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

Law (LAW) courses

LAW 231 Legal Environment of Business

Prerequisite: 24 hours.

Ethical and legal issues in the domestic and international regulatory environment of business. Foundations of legal reasoning, case analysis, legal dispute resolution and reporting, court systems and sources of law. Substantive areas of torts, contracts, sales, products liability and consumer rights and remedies. Contemporary legal issues explored in such areas as: regulation of environmental practices, deceptive advertising, debt collection, employment, anti-trust and computer law.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

LAW 332 Debtor and Creditor Rights and Remedies

Prerequisite: LAW 231; undergraduate business majors must be admitted to degree program.

Legal aspects of financial transactions. The rules of law governing financial transactions in today's business and personal affairs. Topical areas include commercial paper, secured transactions, and bankruptcy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring, Summer

LAW 335 Business Enterprises, Rights/Liabilities

Prerequisite: LAW 231 and undergraduate business majors must be admitted to degree program.

Legal alternatives in the structuring of the business enterprise and its relationship with employees. Topical areas include personal property, bailments, real property, leaseholds, intellectual property rights, franchises, sole proprietorships, partnerships, corporations, LLC's, agency and employment law. Cannot receive credit for both LAW 335 and LAW 532.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

LAW 341 Legal Research and Writing

Prerequisite: LAW 231; undergraduate business majors must be admitted to degree program.

Use of primary and secondary legal sources and indexes are examined, including state and federal statutes, government regulations, cases, Shepard's, Missouri Practice series, law reviews and legal encyclopedias; types of legal writing are introduced; research techniques are applied to case analysis and legal writing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LAW 368 Real Estate Law

Prerequisite: FIN 266; and undergraduate business majors must be admitted to degree program Rights and interests in land; evidence of title; co-ownership; contracts for sale of land; deeds; wills and descent; mortgages; liens; landlord and tenant; restrictions; zoning; brokers.

Identical with FIN 368. Cannot receive credit for both LAW 368 and FIN 368.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LAW 531 Labor Law and Employment Discrimination

Prerequisite: LAW 231; and undergraduate business majors must be admitted to degree program.

Legal, regulatory, and ethical issues related to employer-employee relationship, including employment-at-will doctrine, discrimination and union contracts. May be taught concurrently with LAW 631. Cannot receive credit for both LAW 531 and LAW 631.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LAW 532 Legal Environment of Business Organizations for Professionals

Prerequisite: LAW 231; and 90 hours; and undergraduate business majors must be admitted to degree program.

Agency and employment responsibilities and liabilities facing new and traditional forms of business organizations are compared, along with selected tax and security regulation issues. Personal and real property concepts are examined, along with environmental exposure issues. Selected contract and UCC concepts are reviewed. Issue recognition, problem analysis approach and testing mechanisms are especially appropriate for individuals taking the CPA or other professional exams. Cannot receive credit for both LAW 532 and LAW 335. May be taught concurrently with LAW 632. Cannot receive credit for both LAW 532 and LAW 632.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LAW 537 Environmental Regulation

Prerequisite: undergraduate business majors must be admitted to degree program.

Laws and government environmental regulation of air, water and soil quality, energy resources, solid and toxic waste disposal, storage tanks, toxic torts, labeling of toxic substances, recycling; ethical, public policy and international implications such regulations pose for business practices, natural resource utilization, health quality and biodiversity. May be taught concurrently with LAW 637. Cannot receive credit for both LAW 537 and LAW 637.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LAW 539 Legal Regulation of International Commerce

Prerequisite: LAW 231; and undergraduate business majors must be admitted to degree program.

Legal and ethical issues associated with doing business in a global economy. Difference in approach to contracting and merchandising; product standards, protection and liability; trade barriers and regulation of business practices. May be taught concurrently with LAW 639. Cannot receive credit for both LAW 539 and LAW 639.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LAW 550 Negotiation, Mediation, and Arbitration in Business

Prerequisite: 60 hours; and undergraduate business majors must be admitted to degree program.

A practical, skills-based study of negotiation, mediation, and arbitration from the business manager's perspective. This hands-on course is designed to develop the skills necessary to enable the business manager to effectively participate in negotiation, mediation, and arbitration as alternatives to litigation for resolving business disputes. Identical with BUS 550. May be taught concurrently with LAW 650. Cannot receive credit for more than one of BUS 550, BUS 650, LAW 550, or LAW 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

LAW 600 Legal Environment for Business Managers

Prerequisite: permission of a director of a College of Business Graduate Program.

Contemporary legal and ethical issues encountered by business managers will be discussed, including issues related to torts, vicarious liability, products liability issues; formation and enforcement of contracts and sale of goods; regulatory environment affecting employment practices/discrimination, product advertising and environmental responsibility; economic development issues associated with environmental sustainability, property rights, constitutional law and city planning. Agency liabilities and fiduciary responsibilities of agents and managers in business organizations will be examined. An overview of the court system and legal dispute resolution mechanisms will be integrated. This course is primarily intended for MBA students who do not have equivalent undergraduate business law course work, and this course will not be counted in the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

LAW 631 Labor Law and Employment Discrimination

Prerequisite: LAW 231 or LAW 600.

Legal, regulatory, and ethical issues related to employer-employee relationship, including employment-at-will doctrine, discrimination and union contracts. May be taught concurrently with LAW 531. Cannot receive credit for both LAW 631 and LAW 531.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

LAW 632 Legal Environment of Business Organizations for Professionals

Prerequisite: LAW 231 or LAW 600.

Agency and employment responsibilities and liabilities facing new and traditional forms of business organizations are compared, along with selected tax and security regulation issues. Personal and real property concepts are examined, along with environmental exposure issues. Selected contract and UCC concepts are reviewed. Issue recognition, problem analysis approach and testing mechanisms are especially appropriate for individuals taking the CPA or other professional exams. May be taught concurrently with LAW 532. Cannot receive credit for both LAW 632 and LAW 532.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LAW 637 Environmental Regulation

Laws and government environmental regulation of air, water and soil quality, energy resources, solid and toxic waste disposal, storage tanks, toxic torts, labeling of toxic substances, recycling; ethical, public policy and international implications such regulations pose for business practices, natural resource utilization, health quality and biodiversity. May be taught concurrently with LAW 537. Cannot receive credit for both LAW 637 and LAW 537.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

LAW 639 Legal Regulation of International Commerce

Prerequisite: LAW 231 or LAW 600.

Legal and ethical issues associated with doing business in a global economy. Difference in approach to contracting and merchandising; product standards, protection and liability; trade barriers and regulation of business practices. May be taught concurrently with LAW 539. Cannot receive credit for both LAW 639 and LAW 539.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LAW 650 Negotiation, Mediation, and Arbitration in Business

A practical, skills-based study of negotiation, mediation, and arbitration from the business manager's perspective. This hands-on course is designed to develop the skills necessary to enable the business manager to effectively participate in negotiation, mediation, and arbitration as alternatives to litigation for resolving business disputes. Identical with BUS 650. May be taught concurrently with LAW 550. Cannot receive credit for more than one of BUS 550, BUS 650, LAW 550, or LAW 650.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

LAW 730 Seminar: Contemporary Legal Issues

Prerequisite: LAW 231 or LAW 600.

In-depth study of selected contemporary legal issues and their impact on the environment of business. Exploration of legal resources relevant to the topics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

LAW 733 Legal Regulation of Competition and Monopoly

Prerequisite: LAW 231 and LAW 335; or LAW 600.

Evolution of legal theory regarding governmental regulation of business. The judicial application of laws relating to anti-trust, price discrimination, entry regulation, rate making.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Risk management and insurance (RMI) courses

RMI 211 Principles of Risk Management and Insurance

Prerequisite: 15 hours.

An introduction to the nature of risk and strategies for managing personal and enterprise risks. Analysis of insurance coverage including life, health, retirement, property, and liability and the use of insurance in the risk management process.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

RMI 310 Theory of Risk and Measurement

Prerequisite: QBA 237 or equivalent; undergraduate business majors must be admitted to degree program.

Decision making under uncertainty: Theory of personal and corporate risk management, risk premiums, and measures of risk.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 312 Life Insurance

Prerequisite: RMI 211; undergraduate business majors must be admitted to degree program.

Nature and types of life insurance and annuity contracts insuring human life values for business and personal purposes; principles underlying the calculation of life insurance and annuity premiums, reserves, nonforfeiture values and dividends; introduction of group life insurance, pensions, health, social insurance, settlement options, taxation as related to life insurance programming.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

RMI 313 Property and Liability Insurance

Prerequisite: RMI 211; undergraduate business majors must be admitted to degree program.

Analysis and application of risk and insurance principles to direct and consequential losses in fire, marine, inland marine, multiple-line coverages, liability, workers' compensation, fidelity, surety, and crime perils.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 314 Employee Benefits and Social Insurance

Prerequisite: 30 hours; undergraduate business majors must be admitted to degree program.

The study of group life and health insurance, retirement programs, Social Security, and other social insurance programs as devices to mitigate economic losses from death, disability, medical costs, retirement, and unemployment in relation to personal and business risk problems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

RMI 392 International Education Abroad in Risk Management and Insurance

Prerequisite: RMI 211; acceptance into the related Education Abroad program; and undergraduate business majors must be admitted to degree program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more major international locations to be visited. This will focus primarily on risk management and insurance aspects, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies,

institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

RMI 395 Domestic Field Experience in Risk Management and Insurance

Prerequisite: RMI 211; acceptance into the related field experience program; and undergraduate business majors must be admitted to degree program.

Offered in conjunction with a domestic field experience through the Office of Education Abroad, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more major U.S. financial center(s) (e.g. New York City) to be visited. This will focus primarily on risk management and insurance aspects, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

RMI 397 Topics in Insurance

Prerequisite: undergraduate business majors must be admitted to degree program; students taking course as independent study, readings, or professional designation courses must obtain department head approval prior to enrollment.

A variable content course to intensify and supplement the study of insurance, designed for students desiring to develop toward professional competence in property/casualty, risk management, life/health, employee benefits, financial services, and insurance-related areas. Course design may include independent study, readings, professional designation courses, and/or traditional classroom work. May be repeated for a maximum of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

RMI 415 Risk Management

Prerequisite: 80 hours including RMI 211; undergraduate business majors must be admitted to degree program.

Identifying and analyzing the loss exposures. Developing alternative techniques for treating each exposure with emphasis on risk control and risk financing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

RMI 494 Internship in Risk Management and Insurance

Prerequisite: B- or Better in RMI 211; 2.80 GPA; permission of department head; and undergraduate business majors must be admitted to degree program.

A variable content course. Opportunity to obtain practical understanding and professional growth through appropriate risk management/insurance-related work experience at a cooperating insurance firm, regulatory agency, etc., or in the risk management area of a complex business entity. Employment details and outline of study must be instructor and company-approved prior to enrollment. Graded Pass/Not Pass. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

RMI 520 Risk Modeling and Analytics

Prerequisite: FIN 390 or FIN 485 or MTH 261 or RMI 310 or concurrent enrollment in any of these courses; undergraduate business majors must be admitted to degree program.

Actuarial and financial models of risk, statistical distributions, and simulations. Applications to operational, credit and market risks. May be taught concurrently with RMI 620. Cannot receive credit for both RMI 520 and RMI 620.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 530 Risk Transfer

Prerequisite: FIN 390 or FIN 485 or MTH 261 or RMI 310 or concurrent enrollment in any of these courses; undergraduate business majors must be admitted to degree program.

Insurance transfers including captives. Non-insurance transfers including derivative markets, asset backed and insurance linked securitizations. May be taught concurrently with RMI 630. Cannot receive credit for both RMI 530 and RMI 630.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

RMI 538 Introduction to Estate Planning

Prerequisite: LAW 231 or LAW 600; and FIN 380 or FIN 381 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

Estate planning process; estate distribution, probate, wills, trusts, gifts, life insurance; taxes incidental to an estate; administration of estates and trusts; analysis and selection of devices for lifetime and testamentary transfers of property. Identical with FIN 538. May be taught concurrently with RMI 638. Cannot receive credit for more than one of FIN 538, FIN 638, RMI 538, or RMI 638.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 620 Risk Modeling and Analytics

Prerequisite: FIN 390 or FIN 485 or MTH 261 or RMI 310 or QBA 600 or concurrent enrollment in any of these courses.

Actuarial and financial models of risk, statistical distributions, and simulations. Applications to operational, credit and market risks. May be taught concurrently with RMI 520. Cannot receive credit for both RMI 520 and RMI 620.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 630 Risk Transfer

Prerequisite: FIN 390 or FIN 485 or MTH 261 or RMI 310 or QBA 600 or concurrent enrollment in any of these courses.

Insurance transfers including captives. Non-insurance transfers including derivative markets, asset backed and insurance linked securitizations. May be taught concurrently with RMI 530. Cannot receive credit for both RMI 530 and RMI 630.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

RMI 638 Introduction to Estate Planning

Prerequisite: LAW 231 or LAW 600; and FIN 380 or FIN 381 or FIN 600 or concurrent enrollment.

Estate planning process; estate distribution, probate, wills, trusts, gifts, life insurance; taxes incidental to an estate; administration of estates and trusts; analysis and selection of devices for lifetime and testamentary transfers of property. Identical with FIN 638. May be taught concurrently with RMI 538. Cannot receive credit for more than one of FIN 538, FIN 638, RMI 538, or RMI 638.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

RMI 785 Advanced Topics in Risk Management and Insurance

Prerequisite: QBA 600 or equivalent.

Focus on the advanced study of risk management and insurance incorporating both theory and practice.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

RMI 792 International Education Abroad in Risk Management and Insurance

Prerequisite: RMI 211; acceptance into the related Education Abroad program; and admission to a graduate program.

Offered in conjunction with an international Education Abroad program, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more international locations to be visited. This will focus primarily on risk management and insurance aspects, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the international destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations with graduate-level proficiency. Group interaction based upon trust, respect, and integrity are required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

RMI 795 Domestic Field Experience in Risk Management and Insurance

Prerequisite: RMI 211; acceptance into the related field experience program; and admission to a graduate program.

Offered in conjunction with a domestic field experience program through the Office of Education Abroad, this course consists of three parts; 1. Background research and discussion on selected companies and institutions in one or more major U.S. financial center(s) (e.g. New York City) to be visited. This will focus primarily on risk management and insurance aspects, but will also address the economic, political, global, historical, social, ethical, and cultural environment in which they function. 2. A visit, typically of seven days or longer, to the destination(s) to explore the culture and visit companies, institutions, and cultural icons. 3. A final written project and discussion of the experience. The course involves research, written and oral reporting and presentations with graduate-level proficiency. Group interaction based upon trust, respect, and integrity are required.

Financial Awareness Certificate

Financial Awareness

This certificate is designed to provide non-Finance majors exposure to information and skills that are useful in making individual financial decisions. Specifically, the certificate provides insight into four subjects a person will likely encounter in their lifetime: real estate, financial planning, the legal environment, and insurance.

Program requirements (12 hours)

1. [FIN 266\(3\)](#), [FIN 381\(3\)](#), [LAW 231\(3\)](#), [RMI 211\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Program restriction

This certificate is only available to students who are not majoring in Finance.

Completion requirement

Attain a grade of C or better in all courses used to fulfill the certificate requirements.

Prerequisites

1. Prerequisite for FIN 266 is 15 hours.
2. Prerequisite for FIN 381 is 54 hours.
3. Prerequisite for LAW 231 is 24 hours.
4. Prerequisite for RMI 211 is 15 hours.

 - d. Markets and Economies: [ECO 314\(3\)](#), [385\(3\)](#); [FIN 266\(3\)](#), [384\(3\)](#), [395\(3\)](#); [MKT 365\(3\)](#), [450\(3\)](#).
 - e. Project and Technology Management: [ACC 341\(3\)](#); [ITC 235\(3\)](#), [260\(3\)](#), [290\(3\)](#), [295\(3\)](#), [388\(3\)](#), [420\(3\)](#); [TCM 359\(3\)](#).
 - f. Risk Management and Compliance: [ACC 321\(3\)](#), [524\(3\)](#); [FIN 589\(3\)](#); [FIN 538/RMI 538\(3\)](#); [LAW 531\(3\)](#), [537\(3\)](#); [MGT 345\(3\)](#); [RMI 310\(3\)](#), [312\(3\)](#), [313\(3\)](#), [314\(3\)](#), [415\(3\)](#); [TCM 337\(3\)](#).

*ENG 321 may also be used to meet the Focus on Written Communication and Integrative and Applied Learning requirement of General Education.

Students are strongly encouraged to pursue a minor in combination with the General Business major. With proper planning of courses, students may be able to complete a minor in as few as nine additional credit hours. Examples of minors that add value to the General Business major are: Accounting, Business Analytics, Business Application Development, Cybersecurity, Economics, Enterprise Risk Management, Entrepreneurship, Finance, Financial Planning, Human Resources/Industrial Relations, Information Technology, IT Infrastructure, Insurance, International Business, Legal Studies in Business, Marketing Research, Selling, and Supply Chain, Logistics and Operations Management.

Insurance Certificate

Insurance

This certificate provides non-Risk Management and Insurance majors the opportunity to gain knowledge of the risk and insurance industry. There is a high demand for talent in this industry due to an aging workforce and the relatively small number of risk and insurance programs in the U.S. This certificate is useful to both current students pursuing another major and individuals who have already achieved some level of education in another area, but want to obtain basic skills to join the risk and insurance industry.

Program requirements (12 hours)

1. [RMI 211\(3\)](#), [312\(3\)](#), [313\(3\)](#); [RMI 310\(3\)](#) or [314\(3\)](#).
2. All candidates must satisfy the General University Certificate Requirements.

Program restriction

This certificate is only available to students who are not majoring in Risk Management and Insurance.

Completion requirement

Attain a grade of C or better in all courses to advance in the certificate.

Prerequisites

1. Prerequisite for RMI 211 is 15 hours.
2. Prerequisite for RMI 312 is RMI 211.
3. Prerequisite for RMI 313 is RMI 211.
4. Prerequisite for RMI 310 is QBA 237 or equivalent.
5. Prerequisite for RMI 314 is 30 hours.

Undergraduate Catalog

Information Technology and Cybersecurity Courses

Information technology and cybersecurity (ITC) courses

ITC 200 Critical and Creative Thinking Using Information Technology

Prerequisite: 12 hours.

General Education Course (Focus on Public Issues).

Students learn and apply techniques that support critical and creative thinking when solving individual and public policy problems using information technology. Case studies with applied, real-world examples are used throughout. Instructional methods include lecture, discussion, demonstration, guided practice, and technology-supported collaboration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 201 Computer Applications for Business

A study of the use and applications of computer information systems concepts in business and public organizations. The course emphasizes the use of spreadsheet software to plan, analyze, design, develop and test business solutions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 205 Web Site Design and Development

A study of the design and development of web sites using HTML editors (such as Microsoft FrontPage or Macromedia Dreamweaver). Graphics packages and multimedia packages. The student will learn to create and deploy professional-grade web sites.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 235 Computer Hardware and Operating Systems

Introduction to computer hardware and operating systems. Topics include components of a computer, the Windows operating system, and the Linux operating system.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 260 Introduction to Java Programming

Introduction to the key concepts of object technology and the fundamentals of the Java programming language. Projects using Java involve the development of elementary applications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 290 Advanced Microcomputer Applications

Emphasis on problem-solving activities using advanced applications such as word processing, desktop publishing, database, graphics, and multimedia.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 295 Database Management Systems Concepts and Design

Study of database design, development and management concepts and techniques. Emphasis on data modeling using entity-relationship and/or UML diagrams. Discussion and application of SQL to develop and query databases.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 330 Introduction to Networking

Prerequisite: ITC 235; and undergraduate business majors must be admitted to degree program.

This is an introductory course of computer networking and its applications in business telecommunications. Topics to be covered include history of computer networks, revolution of internet and World Wide Web (WWW), switches, routers, packet switching, circuit switching, OSI models, IPv4, IPv6, DNS, DHCP, subnetting basics, firewall basics, wireless and mobile networks, and basics of network security.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 362 Mobile App Development

Prerequisite: ITC 260.

This course introduces students to programming technologies, design, and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using a standard Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 366 Introduction to .Net Development with C#

Prerequisite: ITC 260.

This course is an introduction to the study of object technology using the C# programming language. Topics include graphical user interfaces, event handling, exception handling, inheritance, and file I/O.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 370 Introduction to Web Development

Prerequisite: ITC 260; and undergraduate business majors must be admitted to degree program.

Introduction to the development of web-based computer applications. Provides extensive hands-on experience of an introductory nature in several important web technologies such as HTML, XHTML, CSS, XML, ASP, and scripting languages (e.g., JavaScript and/or VBScript). Additional new technologies in web development may also be presented.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ITC 388 Information Systems Analysis and Design

Prerequisite: ITC 235 or ITC 260 or ITC 295 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

A study of the analysis and design of computer information systems covering applications, data, and infrastructure.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 389 Digital Business Transformation

Prerequisite: undergraduate business majors must be admitted to degree program.

This course explores the strategic and innovative transformation of organizational business processes through information technology (IT). Digital transformation leverages IT to improve existing business process models or to enable profound new business processes, activities, and competencies not otherwise possible without IT. Students will gain understanding of digital transformation strategies and specific business process enabling technologies such as enterprise systems, big data/analytics, artificial intelligence, and workflow automation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 394 Cooperative Education in Information Technology and Cybersecurity

Prerequisite: acceptance into Cooperative Education Program and permission of department head; and undergraduate business majors must be admitted to degree program.

The opportunity to earn academic credit in a planned learning process that integrates academic training with a supervised work experience. Variable content course. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ITC 397 Topics in Information Technology and Cybersecurity

Prerequisite: permission; and undergraduate business majors must be admitted to degree program.

A variable content course with topics that can change from semester to semester. Topics are identified by title in the schedule of classes. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ITC 420 IT Project Management

Prerequisite: undergraduate business majors must be admitted to degree program.

A study of the concepts, practices, processes, tools, techniques and resources used to manage the entire life cycle of IT service projects. The importance of financial budgeting, accounting, and reporting will be stressed. Case studies will be used extensively.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 429 Information Systems with Business Intelligence

Prerequisite: ITC 201; and undergraduate business majors must be admitted to degree program.

An understanding of how information technology and systems are utilized in business organizations. Explore the impact of information technology and systems in facilitating business operations to accomplish business goals, improve interaction with external partners or constituents, improve organizational efficiency, achieve competitive advantage, and gain competitive insight for decision making. Topics include enterprise systems, systems

development, hardware/software concepts, networking concepts, database and data warehouse concepts, business intelligence impact, and e-business concepts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 430 Advanced Networking

Prerequisite: ITC 330; and undergraduate business majors must be admitted to degree program.

This is a hands-on advanced networking course. Topics to be covered include real-world device configuration, fiber core infrastructure, network design, troubleshooting, VLAN, VoIP, packet analysis, and penetration testing. Advanced computer security topics such as public/private key encryption, digital signature, and email security will also be introduced.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 466 Advanced .Net Development with C#

Prerequisite: ITC 295 and ITC 366; and ITC 388 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

Advanced methods and techniques of designing and implementing Windows software applications using C#. Case study will provide a framework for developing working prototypes of business applications using a graphical user interface, object-oriented language.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 475 Advanced Web Development

Prerequisite: ITC 295 and ITC 370; and ITC 388 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

Continuing coverage of the key concepts of developing intermediate to advanced web applications. Provides extensive hands-on experience of an advanced nature in several important web technologies and frameworks such as HTML, CSS, AJAX, Ruby, Ruby on Rails, and scripting languages (e.g., JavaScript).

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 494 Internship in Information Technology and Cybersecurity

Prerequisite: permission of department head; and undergraduate business majors must be admitted to degree program.

A work-study program providing students an opportunity to earn course credit while working in the Information Technology field. Students will 1) gain valuable, first-hand work experience as an employee, 2) network with Information Technology professionals, and 3) enhance prior classroom learnings by applying their knowledge and skills in actual work situation. Students must complete the minimum expected number of on-site contact hours and complete a portfolio of course assignments as determined by the course instructor. Students are responsible for acquiring a qualifying employment opportunity prior to enrollment. Graded Pass/Not Pass only. May be repeated to a maximum of three hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ITC 495 Advanced Database Management Systems Concepts

Prerequisite: ITC 295; and undergraduate business majors must be admitted to degree program.

The study of advanced database design, development, management, optimization and governance from the perspective of the database administrator (DBA). Includes in-depth coverage of physical database design and optimization, transaction control, assertions and other data integrity techniques. Particular attention will be given to query optimization and query processing. Students will become familiar with advanced database architectures and advanced data modeling designs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 528 Database Application Development with Oracle

Prerequisite: ITC 260 and ITC 295; and undergraduate business majors must be admitted to degree program.

Application of database principles toward the development of a business information system. Emphasis will be on the design, construction, testing, and installation of a comprehensive database application using Oracle DBMS, SQL, PL/SQL, HTML, or other data access tools. A significant course project is required, and may be an

individual or group project. May be taught concurrently with ITC 628. Cannot receive credit for both ITC 628 and ITC 528.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 535 Machine Learning

Prerequisite: undergraduate business majors must be admitted to degree program.

An introduction to machine learning, data mining, and statistical pattern recognition. The course will also cover recent applications of machine learning, such as speech recognition, bankruptcy, credit fraud, customer churn, cancer predictions, and facial recognition. Software will be provided for hands-on experience using a feed-forward neural network optimized with a genetic algorithm for business analytics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 545 Data Infrastructure for Data Analytics

Prerequisite: ITC 295 and QBA 237; and undergraduate business majors must be admitted to degree program.

This course focuses on emerging issues surrounding the modern data infrastructures that enable data analytics. Students will explore the challenges of working with Big Data (large, diverse datasets that often include varied data types and streaming data) in addition to traditional data infrastructures such as data warehouses. They will become familiar with capturing data from contemporary sources such as web and social media, mobile and sensors, and a variety of large, publically available datasets. Various data management techniques will be explored, including distributed file systems and associated query methods. The goal of this course is to prepare students to assess and recommend large-scale information storage and retrieval components which enable data analytics. May be taught concurrently with ITC 645. The graduate level (645) students will have a significant research project required above and beyond the undergraduate level (545) students. Cannot receive credit for both ITC 545 and ITC 645.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 555 Data Visualization

Prerequisite: QBA 237; and undergraduate business majors must be admitted to degree program.

This course introduces data visualization concepts, principles, techniques and tools. Data visualization is an effective approach to discover insights from data. It is a necessary component in the skills portfolio of a data analytics professional. Students will learn relevant principles from fields such as psychology and human computer interaction. This course is designed as hands-on, experience oriented. The principles, concepts, ideas and insights discovering are taught by using data visualization software. The designed learning outcome is that students are able to (1) interpret and explain commonly used data visualization presentations, (2) suggest visualization methods for specific decision making purpose, (3) understand special features of visualization formats such as possible biases that readers may be subject to, and (4) use a software package to design and implement a visualization project. May be taught concurrently with ITC 655. The graduate level (655) students will have a significant research project required above and beyond the undergraduate level (555) students. Cannot receive credit for both ITC 555 and 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 560 Fundamentals of Cybersecurity

Prerequisite: ITC 330 and undergraduate business majors must be admitted to degree program.

The course is an introduction to the basic issues in computer security. While technical in nature, this course is introductory in its approach in that the student is not required to have an extensive background in programming or technical support.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 563 Introduction to Network Security

Prerequisite: ITC 560 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

This hands-on course provides an introduction to tools and techniques used by security professionals to secure corporate networks. Topics include virtual private networks (VPNs), firewalls, and intrusion detection and prevention systems (IDS/IPS). Defense in depth will be taught through the installation and configuration of firewalls, VPNs, and IDS/IPS. Students will be able to recognize and prevent malicious attacks on corporate networks.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 564 Introduction to Ethical Hacking

Prerequisite: ITC 560 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

This hands-on course provides an introduction to tools and techniques used by hackers to penetrate corporate networks. Topics include vulnerabilities of operating systems, incident-handling methods, and an overview of the process and methodologies used in penetration testing including ethical and legal implications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 565 Computer Forensics

Prerequisite: ITC 560 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

This hands-on course addresses the fundamentals of computer system forensics. It will provide an overview of computer crimes, forensic methods, the role of computer forensics specialists, computer forensic evidence, and the application of forensic analysis skills. Emerging technology and future directions will be considered along with email, mobile, Window, Mac, and Linux forensics. May be taught concurrently with ITC 765. Cannot receive credit for both ITC 565 and ITC 765.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 566 Web Application Security

Prerequisite: ITC 560 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

This hands-on course addresses the fundamentals of computer system forensics. It will provide an overview of computer crimes, forensic methods, the role of computer forensics specialists, computer forensic evidence, and the application of forensic analysis skills. Emerging technology and future directions will be considered along with email, mobile, Window, Mac, and Linux forensics. May be taught concurrently with ITC 766. Cannot receive credit for both ITC 566 and ITC 766.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 581 Foundations of Business Analysis

Prerequisite: undergraduate business majors must be admitted to degree program.

This course provides a foundational overview of Business Analysis (BA), which enables enterprise change by defining needs and recommending solutions that deliver value to stakeholders. Topics covered in the course include foundational principals of IT strategy and governance, IT/business alignment, IT service management,

and the BA body of knowledge. May be taught concurrently with ITC 681. Cannot receive credit for both ITC 581 and ITC 681.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 583 Cloud Computing

Prerequisite: undergraduate business majors must be admitted to degree program.

A study of the concepts and applications of cloud computing. Cloud computing is a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g. networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. May be taught concurrently with ITC 683. Cannot receive credit for both ITC 583 and ITC 683.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 600 Information Systems in Business Organizations

Prerequisite: permission of a director of a College of Business graduate program.

Comprehensive study of the fundamentals of business information systems. Designed for graduate students who have not had undergraduate information systems courses. Will not be counted in the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 628 Database Application Development with Oracle

Prerequisite: ITC 466 or ITC 475 or permission of a director of a College of Business graduate program.

Application of database principles toward the development of a business information system. Emphasis will be on the design, construction, testing, and installation of a comprehensive database application using Oracle DBMS, SQL, PL/SQL, HTML, or other data access tools. A significant course project is required, and may be an individual or group project. May be taught concurrently with ITC 528. Cannot receive credit for both ITC 628 and ITC 528.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 645 Data Infrastructure for Data Analytics

This course focuses on emerging issues surrounding the modern data infrastructures that enable data analytics. Students will explore the challenges of working with Big Data (large, diverse datasets that often include varied data types and streaming data) in addition to traditional data infrastructures such as data warehouses. They will become familiar with capturing data from contemporary sources such as web and social media, mobile and sensors, and a variety of large, publically available datasets. Various data management techniques will be explored, including distributed file systems and associated query methods. The goal of this course is to prepare students to assess and recommend large-scale information storage and retrieval components which enable data analytics. May be taught concurrently with ITC 545. The graduate level (645) students will have a significant research project required above and beyond the undergraduate level (545) students. Cannot receive credit for both ITC 645 and ITC 545.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 655 Data Visualization

This course introduces data visualization concepts, principles, techniques and tools. Data visualization is an effective approach to discover insights from data. It is a necessary component in the skills portfolio of a data analytics professional. Students will learn relevant principles from fields such as psychology and human computer interaction. This course is designed as hands-on, experience oriented. The principles, concepts, ideas and insights discovering are taught by using data visualization software. The designed learning outcome is that students are able to (1) interpret and explain commonly used data visualization presentations, (2) suggest visualization methods for specific decision making purpose, (3) understand special features of visualization formats such as possible biases that readers may be subject to, and (4) use a software package to design and implement a visualization project. May be taught concurrently with ITC 555. The graduate level (655) students will have a significant research project required above and beyond the undergraduate level (555) students. Cannot receive credit for both ITC 655 and 555.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 660 Foundations of Cybersecurity

Prerequisite: permission of Cybersecurity program director.

This course is an introduction to the basic issues in computer security. While technical in nature, this course is introductory in its approach in that the student is not required to have an extensive background in programming or technical support. A significant research project is required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 663 Telecommunications and Network Security

Prerequisite: ITC 660 and admission to the Cybersecurity program or permission.

This hands-on course provides an introduction to tools and techniques used by security professionals to secure corporate networks. Topics include virtual private networks (VPNs), firewalls, and intrusion detection and prevention systems (IDS/IPS). Defense in depth will be taught through the installation and configuration of firewalls, VPNs, and IDS/IPS. Students will be able to recognize and prevent malicious attacks on corporate networks. A significant research project is required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 664 Ethical Hacking and Incident Response

Prerequisite: ITC 660 or concurrent enrollment; and admission to the Cybersecurity program or permission.

This hands-on course provides an introduction to tools and techniques used by hackers to penetrate corporate networks. Topics include vulnerabilities of operating systems, incident-handling methods, and an overview of the process and methodologies used in penetration testing including ethical and legal implications. A significant research project is required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 681 Foundations of Business Analysis

This course provides a foundational overview of Business Analysis (BA), which enables enterprise change by defining needs and recommending solutions that deliver value to stakeholders. Topics covered in the course include foundational principals of IT strategy and governance, IT/business alignment, IT service management, and the BA body of knowledge. May be taught concurrently with ITC 581. Cannot receive credit for both ITC 581 and ITC 681.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 682 Lean IT

Lean principles to manage IT with an emphasis on the reduction of waste and providing value to customers. Additional principles from Lean Six Sigma, continual improvement, IT Service Management, and other relevant areas will be covered. Course requires students to complete a project analyzing one or more of the existing IT processes of an organization.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 683 Cloud Computing

A study of the concepts and applications of cloud computing. Cloud computing is a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g. networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. May be taught concurrently with ITC 583. Cannot receive credit for both ITC 683 and ITC 583.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 696 Problems in Business: Information Technology and Cybersecurity

Prerequisite: permission of a director of a College of Business graduate program.

Technical or professional problems growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a maximum of three hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ITC 720 Project Management in Information Systems

A study of the concepts, practices, processes, tools, techniques and resources used by information system (IS) project managers. The entire project life cycle will be covered from inception to close-out. The course will closely follow the framework of the Project Management Body of Knowledge (PMBok). The course will focus on how to manage the scope, schedule, budget and risk of projects, with emphasis on information systems and information technology projects.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 732 Strategic IT Planning

Prerequisite: admission to the MS in Information Technology program.

Introduction to fundamental issues of information system (IS) planning. Current theory and specific IS planning practices are studied. Emphasis on strategic implications of information technology, IS planning vis-a-vis strategic planning, development and maintenance of IS plans, analysis of organization information requirements, and prioritizing IS projects. Implications for business and technology trends and application of planning concepts to IS planning projects are examined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 734 Staffing the Information Systems Function

Prerequisite: admission to the MS in Information Technology program.

Focus on current and emerging issues of recruitment, selection, training, motivation, retention and evaluation of IS staff. Issues include developing job descriptions, shifting demands for staffing, performance criteria, alternative approaches to training, alternative career tracks, and the role of personality types on performance. Influence of recent trends including downsizing, outsourcing, centralization and decentralization, and end-user computing will be examined. Current theory and specific practices are studied. Practical applications will be stressed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 735 Neural Networks for Machine Learning

Artificial neural networks and how they are being used for machine learning, as applied to data analytics in the business environment. Students will be required to collect original data for neural network analysis. Different

learning algorithms will be explored, including the Genetic Algorithm. This course will lead to a graduate level paper with possibilities for publication.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 736 Data Communications and Networking

Prerequisite: admission to the MS in Information Technology program.

Computer network planning, including physical layout, resource requirements, and budgeting. Administration of computer networks, including managing user accounts; selecting and loading applications software; managing upgrades and enhancements; monitoring and optimizing system performance; ensuring physical and logical system security.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 738 Information System Project Management

Prerequisite: admission to the MS in Information Technology program.

Objectives and techniques of planning, organizing, and managing complex information systems development projects. The course will include a study of resources and tools available for scheduling, tracking, and measuring system development productivity.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 740 IT System Development

Prerequisite: admission to the MS in Information Technology program.

Study of various systems development methodologies used to analyze, design, and implement information systems; selection criteria for a specific methodology, and how to introduce a new methodology within an existing environment. Specific tools and techniques for systems development and for business process reengineering will be explored and applied.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 742 Management of End User Computing

Prerequisite: admission to the MS in Information Technology program.

Planning, organizing, staffing, control, and support of end user computing. Various organizational structures used to support end user computing will be investigated. Methodology for development of end user computing systems will be identified for several forms and types of projects. A case project will involve development of an end user system using an appropriate methodology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 744 Information Systems Management

Prerequisite: admission to the MS in Information Technology program.

Overview of managerial applications of information technology (IT) to increase effectiveness. Use of IT to support decision making, cooperative work, organizational competitive advantage, and inter-organizational communication. Various planning approaches will illustrate the use of IT in organizations. Case method will be used.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 746 Data Management

Prerequisite: admission to the MS in Information Technology program.

Study of data modeling using tools such as Entity-Relationship and Semantic Object Models. Examination of the Database Administrator's responsibilities including monitoring and tuning of the database, establishment of database reliability, and security. A case project will include the development of a data model and a database administration plan for a client/server database system.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 747 IT Legal Issues

Prerequisite: admission to the MS in Information Technology program.

Focus on the legal and ethical environment relevant to advances in technology. Issues include intellectual property, jurisdiction, defamation, invasion of privacy, electronic contracts, computer crime, censorship,

unsolicited email, antitrust issues, and encryption. Recent developments, court decisions, federal and state statutes, treaties and international agreements, administrative rulings, and legal literature regarding internet law, will be explored and explained.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 748 Principles of Information Security

Prerequisite: admission to the MS in Information Technology program.

This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. The students will learn a balance introduction to both security management and technical components of information security; they will be exposed to the spectrum of security activities, methods, methodologies, and procedures. This spectrum includes inspection and protection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical and managerial responses and an overview of the information security planning functions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 750 Sourcing and Procurement

Prerequisite: admission to the MS in Information Technology program.

In-depth study of key factors and issues associated with hardware/software selection, acquisition and implementation. Emphasis on problem definition and analysis, comparative methodologies for evaluation and selection, identifying and qualifying vendors, and developing/evaluating request for proposals (RFP's). Management implications of enterprise-wide software solutions including software distribution, version and release management, and software standards and practices are discussed. Completion of an acquisition project will be included.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 752 IT Leadership

Prerequisite: admission to the MS in Information Technology program.

This course is designed to provide an understanding and appreciation of organizational behavior issues facing senior and mid-level IT managers. Topics to be examined include: organizational behavior from an individual, group and structural perspective, organizational culture, leadership, perception and decision-making values and attitudes, and emotional intelligence. The material should be of interest and benefit to IT professionals, irrespective of technical specialty, who are currently in or aspire to IT management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 754 Organizational Transformation

Prerequisite: admission to the MS in Information Technology program.

Study of interrelated economic, social, political, and technological forces requiring organizations to transform their systems and processes to survive and succeed. Students will examine a variety of typical transformations from the perspective of a work unit member and a manager of the change process.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 756 Special Topics in Information Technology

Prerequisite: admission to the MS in Information Technology program.

Variable content with topics that can change from semester to semester. Topics are identified by title in the schedule of classes. Practical applications will be stressed. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 761 Management Information Systems

Prerequisite: admission to the MBA program or permission from the MBA Program Director.

This course includes and goes beyond the typical management information system course material. It includes a macro application to the concepts, designs, and implementations of business information systems. Time is spent as well in exploring the importance of balancing technical innovation, business stewardship, and socially responsible and ethical uses of technology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ITC 762 Legal Issues in Cybersecurity

Prerequisite: ITC 660 or concurrent enrollment; and admission to the Cybersecurity program or permission.

This course provides an overview of the laws and legal processes involved in e-commerce, privacy, and intellectual property rights and cyberspace law. Risk analysis, incident response, and network forensic investigations. Objectives include recognizing the legal aspects of the security triad: confidentiality, integrity, and availability, examining the concepts of privacy and its legal protections, and being able to explain the importance of forensics examination in legal proceedings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 765 Computer Forensics

Prerequisite: ITC 660 and admission to the Cybersecurity program or permission.

This hands-on course addresses the fundamentals of computer system forensics. It will provide an overview of computer crimes, forensic methods, the role of computer forensics specialists, computer forensic evidence, and the application of forensic analysis skills. Emerging technology and future directions will be considered along with email, mobile, Window, Mac, and Linux forensics. A significant research project is required. May be taught concurrently with ITC 565. Cannot receive credit for both ITC 765 and ITC 565.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 766 Web Application Security

Prerequisite: ITC 660 or concurrent enrollment; and admission to the Cybersecurity program or permission.

This hands-on course provides an introduction to tools and techniques used to hack web applications. Security strategies will be presented that can help to mitigate risk associated with web applications and social networking. Course objectives include analyzing the impact of the internet and web applications on the business world, the evolution of social media and social networking, analyzing common website attacks, weaknesses, and security best practices. A significant research project is required. May be taught concurrently with ITC 566. Cannot receive credit for both ITC 766 and ITC 566.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 767 Management of Information Security

Prerequisite: ITC 660 or concurrent enrollment; and admission to the Cybersecurity program or permission.

This course surveys the management of the information security function within organizations. Topics include establishing and implementing information security policies; assessing and mitigating risk associated with IT infrastructure; and planning/auditing compliance with information security policies, laws and regulations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 770 Seminar in Cybersecurity

Prerequisite: 15 hours of graduate Cybersecurity courses and permission from the Cybersecurity Program Director.

Critical evaluation and interpretation of research and literature in Cybersecurity.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 790 Seminar in Management Information Systems

Prerequisite: 15 hours of graduate business administration courses and permission from the MBA Program Director.

Critical evaluation and interpretation of research and literature in information systems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ITC 794 Internship: Information Technology and Cybersecurity

Prerequisite: permission of the director of the appropriate graduate program and department head.

In consultation with the coordinating professor, the student is engaged in first-hand experience with a business, organization, or other professional entity. A portfolio of assigned work shall be collected, examined and

evaluated during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ITC 796 Independent Study-Information Technology and Cybersecurity

Prerequisite: permission of advisor.

In consultation with the advisor, student selects, for intensive study, a specific area of concern related to the student's program, with emphasis on research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ITC 797 Special Topics

Prerequisite: permission.

Study of topics in Information Technology and Cybersecurity. May be repeated to a maximum of six hours when topic varies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ITC 799 Thesis

Prerequisite: permission of instructor.

Independent research and study connected with the preparation of a thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Quantitative business analysis (QBA) courses

QBA 237 Basic Business Statistics

Prerequisite: grade of C or better in MTH 134 or higher.

Collection, analysis, interpretation and presentation of data related to business, measures of central tendency and dispersion, elementary probability, probability distributions, sampling, standard error, interval estimation, hypothesis testing, regression analysis. Computer statistical packages will be utilized in analysis of a variety of applications problems. Cannot receive credit toward a degree for more than one of the following courses: AGR 330, IPE 381, MTH 340, PSY 200, QBA 237, REC 328, SOC 302.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

QBA 337 Applied Business Statistics

Prerequisite: QBA 237 or equivalent; and undergraduate business majors must be admitted to degree program.

Business application of hypothesis testing, tests of goodness of fit and independence, analysis of variance, regression analysis and correlation, nonparametric methods, time series and forecasting, statistical process control, and decision theory. Computer statistical packages will be utilized in analysis of a variety of applications problems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

QBA 600 Statistical Methods in Business Research

Prerequisite: permission of a director of a College of Business Graduate Program.

Comprehensive study of the fundamentals of statistics. Designed for graduate students who have not had an undergraduate statistics course. This course will not be counted in the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

QBA 737 Research Design and Analysis

Prerequisite: QBA 775 or concurrent enrollment.

Advanced statistical methods for conducting research in business and economics. Discussion and application of design procedures, hypotheses formulation, data collection and data analysis. Topics include regression

analysis, and analysis of variance, multivariate analysis, experimental design, nonparametric methods, etc. Computer statistical packages will be used extensively.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

QBA 775 Quantitative Methods in Business Decision Making

Prerequisite: admission to the MBA program or permission from the MBA Program Director; and QBA 600 or equivalent.

A study of quantitative methods used to improve the decision-making process in business. Major topics include constrained optimization models, forecasting models, distribution/network models, simulation models, and project scheduling.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

Management Courses

Entrepreneurship (ENT) courses

ENT 201 Launching Your New Business Online

This course provides students with exposure to the basics of creating and launching a new business online. Students will be exposed to different platforms used to launch a new business online and will understand the unique features of each platform. Additional emphasis will be placed on sourcing and listing inventory. Finally, students will learn about the history of entrepreneurship, with particular emphasis placed on the move from offline to online platforms. This course is applicable for students wanting to start a new online business and students who want to take an existing business online.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENT 202 Managing Your New Business Online

Prerequisite: ENT 201.

This course will give students the skills to innovate and meet the evolving needs of their customers. Students will learn how to establish a business-level strategy to guide their business, how to identify and respond to customers' needs. Additional emphasis will be placed on developing new products through novel and incremental innovation. Students will learn the process for launching a new product on an online platform. This course is applicable for students wanting to start a new online business and students who want to take an existing business online.

ENT 203 Leading Your New Business Online

Prerequisite: ENT 202.

This course provides students with the knowledge of how to successfully grow their business online. Students will learn how to develop the resources needed to grow their new business and how to build and lead their team for success. Additional emphasis will be placed on developing a corporate-level strategy and how to create an effective company culture. Students will learn the current trends in entrepreneurship including the trend of moving from online to offline. This course is applicable for students wanting to start a new online business and students who want to take an existing business online.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENT 301 Principles of Entrepreneurship

Prerequisite: undergraduate business majors must be admitted to degree program.

This is an introductory course designed to help students understand the critical role entrepreneurs and entrepreneurship play in the global economy. This course will provide students with an overview of the fundamental principles and processes of entrepreneurship. Students learn the history of entrepreneurship and are exposed to entrepreneurship in its variety of forms from the firm- to the individual-level. Throughout the course, students are encouraged to apply theory and principles to real world situations to gain a better understanding of how the two interrelate.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENT 302 Creativity, Innovation, and Ideation

Prerequisite: undergraduate business majors must be admitted to degree program.

This course teaches students the psychology of how to be more creative and then how to turn that creativity into innovative business or non-profit ideas. Using a lean start-up approach, students create several iterations of a business model canvas to validate their ideas in the marketplace. Through this iterative process, they learn to fast prototype, when to "pivot", and how to adapt to market feedback to refine their ideas. By the end of the course, students have mastered this business model-validation process. Ideally, students have a proven business model that is beginning to produce revenue.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENT 494 Internship in Entrepreneurship

Prerequisite: permission of department head; and undergraduate business majors must be admitted to degree program.

Opportunity to obtain simultaneously the practical as well as the theoretical knowledge through internship with cooperating businesses. Employment details and academic expectations must be instructor and company-approved prior to enrollment. Variable content course. May be repeated to a maximum of three hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ENT 543 New Venture Management

Prerequisite: ENT 302; and undergraduate business majors must be admitted to degree program.

This course provides insight into the creation and development of an entrepreneurial venture. Students will gain an understanding of where operating 'levers' for the business are located, the going-to-market plan, and the impact of business dynamics/the marketplace on the entity's economics and organization. The course will explore evolving responses to change while maintaining operating control. The analysis and exercises will form the basis for a cogent business plan. Emphasis is placed on student preparation and presentation of a complete business plan. May be taught concurrently with ENT 643. Cannot receive credit for both ENT 543 and ENT 643.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENT 561 Small Business Consulting

Prerequisite: ENT 301; and undergraduate business majors must be admitted to degree program.

Students solve real problems within the small business environment. Students gain first-hand experience in assessing and improving the operations of existing entrepreneurial firms. Cases may be developed in-class and/or referred through the Small Business Development Center. May be taught concurrently with ENT 671. Cannot receive credit for both ENT 561 and ENT 671.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENT 584 Feasibility Study

Prerequisite: ENT 301 and FIN 350 and MKT 350; and undergraduate business majors must be admitted to degree program.

An exposure to the dynamics of identifying opportunities and dealing with the risks of implementing new ideas and ventures. In consultation with the instructor, students assess the viability of real business ventures. Cases may be developed in-class and/or referred through the Small Business Development Center. Emphasis is placed on team preparation and presentation of a feasibility study. May be taught concurrently with ENT 684. Cannot receive credit for both ENT 584 and ENT 684.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ENT 643 New Venture Management

This course provides insight into the creation and development of an entrepreneurial venture. Students will gain an understanding of where operating 'levers' for the business are located, the going-to-market plan, and the impact of business dynamics/the marketplace on the entity's economics and organization. The course will explore evolving responses to change while maintaining operating control. The analysis and exercises will form the basis for a cogent business plan. Emphasis is placed on student preparation and presentation of a complete business plan. May be taught concurrently with ENT 543. Cannot receive credit for both ENT 643 and ENT 543.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ENT 671 Small Business Consulting

Students solve real problems within the small business environment. Students gain first-hand experience in assessing and improving the operations of existing entrepreneurial firms. Cases may be developed in-class and/or referred through the Small Business Development Center. May be taught concurrently with ENT 561. Cannot receive credit for both ENT 561 and ENT 671.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ENT 684 Feasibility Study

An exposure to the dynamics of identifying opportunities and dealing with the risks of implementing new ideas and ventures. In consultation with the instructor, students assess the viability of real business ventures. Cases may be developed in-class and/or referred through the Small Business Development Center. Emphasis is placed on team preparation and presentation of a feasibility study. May be taught concurrently with ENT 584. Cannot receive credit for both ENT 684 and ENT 584.

Management (MGT) courses

MGT 211 Talent Management in Music and Entertainment

Prerequisite: 45 hours.

Introduction to the roles, knowledge, and skills helpful to the development and growth of talent in the entertainment industry. While the primary focus will be on the relationship between the personal manager and the recording artist/group in the music industry, attention will also focus on strategies for expanding opportunities across the entertainment industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 286 Business Communications

Prerequisite: ENG 110.

Managerial business communication theory and practice that includes speaking to large groups, interacting within small groups, improving listening skills, composing messages, writing reports based on library research, making ethical decisions, and communicating with other cultures and nationalities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 300 Service Learning in Management

Prerequisite: 54 hours, concurrent registration in a management course designated as a service learning offering; and undergraduate business majors must be admitted to degree program.

This service component for an existing course incorporates community service with classroom instruction in Management to provide an integrative learning experience that addresses the practice of citizenship and

promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

MGT 310 Introduction to the Entertainment Industry

Prerequisite: 54 hours; and undergraduate business majors must be admitted to degree program.

An introduction to the entertainment industry including facets unique to the field such as managerial roles and organizational structures. Topics will also include an exposure to policies, legal, social, economic, and financial characteristics of this industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MGT 320 Patterns of Management

Prerequisite: 54 hours.

A course designed specifically for non-business majors desiring a knowledge of management and its importance and application in various fields. Topical areas include: management functions and problems, decision-making, organizational design, managerial/non-managerial relationships, and management job opportunities. Cannot be taken for credit by students who have previously received credit for MGT 340.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 325 Fundamentals of Personnel Administration

Prerequisite: 54 hours.

This course is designed for non-business majors. Topics include principles of employee supervision, recruitment, selection, training and development, compensation, labor relations, and separation. This course will be of particular value to managerial, supervisory, administrative, professional, and technical personnel in a variety of organizational settings. Cannot be used to satisfy any requirement for a College of Business major. Cannot be taken for credit by students who have previously received credit for MGT 345.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 340 Principles of Management

Prerequisite: 54 hours, including PSY 121; and undergraduate business majors must be admitted to degree program.

A study of individual, interpersonal, and group behavior within organizations and the behavioral implications of management processes. The interaction of human, technological, structural, global, ethical, and environmental factors are also discussed. A "C" grade or better is required in this course in order to take ACC 555. Cannot be taken Pass/Not Pass. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 341 Organizational Behavior and Leadership

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

An in-depth study of individual and organizational behaviors, processes, and leadership. Such areas as individual differences, group dynamics, organizational processes, organizational change/development, and culture and ethics will be addressed utilizing a variety of interactive teaching methods.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 342 Leading and Designing Organizations

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

A study of the macro-organization functioning with emphasis on how organization design dimensions interrelate to effect performance. Organization dimensions studied include environment, technology, size, structure, leadership, and effectiveness.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 345 Designing, Managing and Evaluating Human Resources Management Programs

Prerequisite: MGT 340 and QBA 237; and undergraduate business majors must be admitted to degree program.

Developing competitive advantage through people by establishing strategic human resource programs including staffing, training, performance management, and compensation initiatives, with a focus on human resource metrics in decision-making and program evaluation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 394 Cooperative Education in Management

Prerequisite: acceptance into Cooperative Education Program and permission of department head; and undergraduate business majors must be admitted to degree program.

The opportunity to earn academic credit in a planned learning process that integrates academic training with supervised work experience. This is a variable content course that may be repeated to a total of 6 semester hours in Cooperative Education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

MGT 397 Business Report Writing

Prerequisite: MGT 286; and undergraduate business majors must be admitted to degree program.

Intensive preparation in the fundamentals of writing various types of business reports. Attention given to methods of and practice in determining the purpose, planning the investigation, collecting and organizing data, interpreting findings, and making oral and written presentations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 398 Managerial Communication

Prerequisite: UHC 110 and COM 115 and ENG 221; and undergraduate business majors must be admitted to degree program.

Accelerated study of organizational communications theory and practice. Emphasis on international communication and ethics. Individual and small group development of a variety of business documents and presentations. Replaces MGT 286 and 397.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 400 Topics in Management

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

A variable content course with topics that can change from semester to semester depending upon student and faculty interests. Topics generally require previous study in management. Examples: entrepreneurship, federal regulation of personnel management, designing structure for growth organizations, computerization and human resource management, stress and time management, managing not-for-profit organizations, women in management, and management feasibility studies. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MGT 408 Sponsorships in Entertainment and Sport

Prerequisite: MGT 310 or MGT 410; and undergraduate business majors must be admitted to degree program.

Study of how sponsorship is a symbiotic revenue relationship between a brand and an entertainment/sport property, including reasons for the growth of sponsorship, benefits for brands, and benefits for properties. Other concepts examined include activation, cross-promotion, sponsorship tiers, associative benefits, sponsorship sales, and evaluative techniques for sponsorships.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MGT 410 Venue Management

Prerequisite: undergraduate business majors must be admitted to degree program; Recommended: MGT 310.

Study of the management of venues such as convention centers, sports arenas, theme parks, performing arts centers, etc. Topics addressed include technical, financial, legal, risk, contracting, and political implications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 412 Managing Events in Entertainment and Sport

Prerequisite: MGT 310 and MGT 340; and undergraduate business majors must be admitted to degree program; others by permission of instructor.

Study of the financing, management and marketing processes of various entertainment and sport events. Topics addressed include alignment of events with organizational values and mission; strategic planning of an event; cost/benefit analysis; operational effectiveness; factors involving promotion, audience, partnerships, environment, revenue and cost centers; management of an event's stakeholder groups; analysis of pre- and post-event activities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 413 Managing the Sport Enterprise

Prerequisite: MGT 310 and MGT 340; and undergraduate business majors must be admitted to degree program; others by permission of instructor.

Study of the distinct nature of the sport business and the application of planning, organizing, leading, and evaluating techniques applied to the operation of sport enterprises. Topics include the unique nature of the sport product; sport financial management principles, including cost sources and revenue streams; and the impact of sport as a social institution on the marketplace.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Upon demand

MGT 440 Leadership Skill Development

Prerequisite: MGT 340 and MGT 341; and undergraduate business majors must be admitted to degree program.

The focus of this course is a comprehensive review of the theories and core behaviors of leadership, with minor emphasis given to trait, behavioral, and contingency approaches and associated core leader behaviors. Emphasis will also be placed on the applications of theory to management practice. Students will develop an understanding of and skill in applying leadership behaviors to management functions, roles and activities. The course includes self-assessments of leadership style, cases, and experiential exercises.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 441 Ethical Leadership in Business

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

This course examines the unique ethical demands of leadership and prepares students to meet these challenges. Alternative perspectives in leadership and ethics are explored and applied to emergent ethical issues facing organizations and society. The overall mission of the course is to promote ethical decision-making. The course seeks to teach students to recognize and be sensitive to moral issues, to consider such issues from multiple perspectives, to engage in a systematic and transparent analysis of alternatives, and to take individual responsibility for their decisions and ethical conduct. The course is student led and faculty facilitated, involves a significant amount of public speaking, and includes participation by various leaders from the community. The course and materials are structured around the Intercollegiate Ethics Bowl Competition and as part of the course, student teams will compete each November in the Regional Ethics Bowl Competition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MGT 442 Selected Topics in Organizational Behavior

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

This course will focus on major current and emerging issues in organizational behavior (OB). Issues include topics such as motivation and leadership, communications, stress and wellness programs, group dynamics, etc. A single or selected set of topics will be dealt with in any given offering of the course. Content, research findings, and practical application of major models and theories will be stressed through a variety of approaches intended to maximize student involvement. The course content will vary as demanded by student interest, faculty expertise, and environmental changes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 447 International Management

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

A study of management principles and practices as they relate to the management of international organizations. Emphasis is placed on understanding, analyzing, and integrating managerial concepts within the context of cross-cultural settings. Cannot receive credit for both MGT 447 and MGT 747.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 450 Human Resource Development

Prerequisite: MGT 345; and undergraduate business majors must be admitted to degree program.

The design, implementation and evaluation of employee development programs. Topics covered include: training needs, analysis, learning theory, training methods, validity, and legal requirements. Specific employee development programs are discussed as they relate to executives, managers, and supervisors in organizations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 451 Human Resource Acquisition

Prerequisite: MGT 345; and QBA 337 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

An in-depth study of the application of Federal and state laws and regulations to HRM practices regarding the acquisition of human resources, appropriate and effective techniques of job analysis, HR planning, recruitment, and a detailed study of techniques and procedures for ensuring valid and effective selection of employees.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 465 Managing the Human Resource Environment and Employment Relationship

Prerequisite: MGT 345; and undergraduate business majors must be admitted to degree program.

Managing the employment relationship and the environment of human resources through the study of the legal, regulatory, and contextual considerations of the work environment. Topics include labor and employment law, workplace safety and health regulation, compensation regulation, and employee rights and responsibilities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 466 Advanced Issues in Human Resources Management

Prerequisite: MGT 345 and QBA 237; and undergraduate business majors must be admitted to degree program.

An in-depth study of practical human resource management issues and the steps involved in the design and implementation of employee selection systems, training programs, and performance appraisal systems. Included are methods of job analysis and the design and utilization of appraisal forms useful to managers. Based on practical considerations, some experiential techniques are used. Recent developments relevant to human resources practices will also be covered.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 486 Administrative Communication

Prerequisite: MGT 286; and undergraduate business majors must be admitted to degree program.

Analysis of various business problem situations and development of appropriate communication strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 487 Strategic Management and Policy

Prerequisite: 102 hours including FIN 380 and MKT 350 and MKT 364; Marketing majors may substitute MKT 450 for MKT 364; and undergraduate business majors must be admitted to degree program.

Integration of specialized areas of business administration; coordination of various business functions from the standpoint of the formulation, implementation and control of business objectives, strategies and policies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 494 Internship in Management

Prerequisite: permission of department head and for Entertainment Management majors, completion of MGT 310 or MGT 410; and undergraduate business majors must be admitted to degree program.

Opportunity to obtain simultaneously the practical as well as the theoretical knowledge through internship with cooperating businesses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

MGT 496 Readings in Business Administration-Management

Prerequisite: permission of department head; and undergraduate business majors must be admitted to degree program.

Planned readings designed to intensify and supplement the area of management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-2			Upon demand

MGT 546 Direct Compensation System Management

Prerequisite: MGT 345; and QBA 337 or concurrent enrollment; and undergraduate business majors must be admitted to degree program.

Development and management of job-based and individual-based pay systems using job evaluation, skill/competency analysis and certification, wage surveys, and related techniques. The development of performance appraisal systems and the creation of individual-based, team-based, and aggregate performance-based pay systems are studied with emphasis on the strategic aspects of pay, internal consistency, external competitiveness, and legal compliance. May be taught concurrently with MGT 646. Cannot receive credit for both MGT 646 and MGT 546.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 560 History of Management Thought

Prerequisite: MGT 340; and undergraduate business majors must be admitted to degree program.

Background and interrelationship of classical, behavioral science, systems and quantitative management schools of thought; works of major contributors to contemporary management concepts, practices and theory. May be taught concurrently with MGT 680. Cannot receive credit for both MGT 680 and MGT 560.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 596 Research Issues and Problems: Management

Prerequisite: 90 hours; and permission of department head; and undergraduate business majors must be admitted to degree program.

Research issues and projects growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. Undergraduates only may repeat to a total of 6 hours. May be taught concurrently with MGT 697. Cannot receive credit for both MGT 697 and MGT 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MGT 600 Administrative, Organizational and Operations Concepts for Managers

Prerequisite: permission of a director of a College of Business graduate program.

Comprehensive study of the fundamentals of the management function, organizational behavior and design, and production and operations management. Designed for graduate students who have not had undergraduate courses in management or organizational behavior and operations management. This course will not be counted in the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 646 Direct Compensation System Management

Development and management of job-based and individual-based pay systems using job evaluation, skill/competency analysis and certification, wage surveys, and related techniques. The development of performance appraisal systems and the creation of individual-based, team-based, and aggregate performance-based pay systems are studied with emphasis on the strategic aspects of pay, internal consistency, external competitiveness, and legal compliance. May be taught concurrently with MGT 546. Cannot receive credit for both MGT 546 and MGT 646.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 680 History of Management Thought

Background and interrelationship of classical, behavioral science, systems and quantitative management schools of thought; works of major contributors to contemporary management concepts, practices and theory. May be taught concurrently with MGT 560. Cannot receive credit for both MGT 560 and MGT 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 697 Research Issues and Problems: Management

Prerequisite: permission of department head.

Research issues and projects growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be taught concurrently with MGT 596. Cannot

receive credit for both MGT 596 and MGT 697.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MGT 701 Health Services Organization

Introduction to the United States health services delivery system. Analysis of the organizing, financing, and distribution of health services. Hospitals, acute care facilities, long-term facilities, prepaid practices, fee-for-services group practices and others are examined. Forces shaping present and future health care are evaluated from a global perspective.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 702 Managing Healthcare Organizations

A broad overview of techniques and practices applied to managing healthcare organizations at all levels including governing board; professional staff; executive offices; and operational systems that deliver acute care, rehabilitation, diagnosis, therapy, ambulatory care, clinical information, clinical support, patient access, facilities and nutrition services. Organizational settings will include hospitals; physician practices; integrated health systems; rehabilitation and sub-acute facilities; behavioral medicine; long-term care; hospice; and home health. Course format will include a series of guest presentations from actively practicing, senior healthcare executives, along with visits to healthcare organizations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 703 Health Law and Ethics

This course will provide students with in-depth knowledge and understanding of legal and ethical issues facing healthcare managers. Statutory and common law legal doctrines applicable to hospitals, physicians, health systems and organizations, including current court decisions, Office of Inspector General and Internal Revenue Service determinations will be included. The course will touch on many legal and ethical subjects, including professional and institutional liability, provider-patient relationships, compliance-related areas that include Stark regulations, end-of-life care, physician-assisted suicide, and individual patient rights.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 704 Human Resources in Healthcare Organizations

Integration of human resources management into the strategic and operational decision-making processes of a contemporary healthcare organization. Functional topics include HR strategic planning, HR legal environment, organizational culture, diversity and inclusion, compensation strategies, recruitment/selection/retention, performance management and motivation, workforce development/training, employee/labor relations, employee safety and sexual harassment. Particular consideration of these HR concepts will be related to clinical and non-clinical professionals and employed and non-employed physicians.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 705 Strategic Management of Healthcare Organizations

Prerequisite: 18 graduate hours in health administration, including ACC 688 and FIN 788.

Integration of the functional areas of healthcare organizations via the strategic planning process. Emphasis is placed upon the identification of major strategic processes for healthcare organizations as well as policy issues related to the current and anticipated future healthcare environment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MGT 706 Organizational Communication

Intensive study of communication behavior within various types of business organizations; provides student opportunities to develop communication skills further and to apply one's capacity to use effective organizational communication concepts through written and oral presentations. Emphasis upon the study of oral communication within business.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MGT 708 Health Informatics and Data Analytics

Students will investigate the qualities necessary to strategically evaluate, select and implement system wide informatics. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications. The course also includes a focus on applying data analysis to health care data, problems and issues in the health care system, and on the data application necessary to make decisions based on the analysis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 711 Measurement and Management of Quality in Health Care

Design and management of quality systems in healthcare operations. Major emphasis placed on measurement, analysis, and improvement consistent with Lean Six Sigma principles. Acquisition of skill set and use of tools to increase value in the clinical and administrative settings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MGT 747 International Management

Prerequisite: admission to the MBA program or permission from the MBA Program Director; and MGT 600 or equivalent.

A study of management theory and practices as related to international organizations that are multinational in nature. Emphasis is placed on analyzing, understanding, and integrating managerial concepts as they apply to cross-cultural settings. Students are required to complete a research project. Cannot receive credit for both MGT 447 and MGT 747.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 760 Selected Topics in Management

Variable topics course in Management. Areas studied will be announced each semester in the class schedule. Course requirements include extensive readings, a paper, and, when appropriate, field trips.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 761 Operations Management: Comparative Theory and Practice

Advanced study of the operations function in organizations. Emphasis is placed on operations management, planning and controlling techniques as they apply to all types of domestic and international organizations. Cost output-profit decisional techniques and productivity issues are studied as they relate to managerial goals, environmental conditions, and economic developments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 762 Problems in Human Resources Management and Industrial Relations

Prerequisite: MGT 600 or equivalent.

Intensive examination of the institutional, legal, and policy considerations of the parties involved in human resources management and labor relations with an emphasis on current issues.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 764 Organizational Behavior and Leadership

Prerequisite: admission to the MBA program or permission from the MBA Program Director; and MGT 600 or equivalent.

Study of individual and group behavior viewed from a managerial perspective within the organizational setting. Attention is focused on applications by managers of theory and research about the interaction between human beings and the formal organization, with emphasis on individual differences, interpersonal relations, and small group dynamics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 765 Organization Structure and Design

An intensive macro approach to the study of the organization with emphasis on the interrelationships of organizational dimensions as they interact to effect organization design. Topics covered include environment, technology, work flows, structure, size, power, objectives, managerial philosophies, and effectiveness.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 767 Organization Strategy and Policy

Prerequisite: admission to the MBA program or permission from the MBA Program Director; 18 graduate hours in business administration and economics at the 700 level, including FIN 780 and MKT 772.

Integration of the functional areas of business via the strategic planning process. Emphasis is placed upon the formulation, implementation, and control of an organization's mission, objectives, strategies, and policies as determined by external and internal analyses.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 770 Leadership Development

Comprehensive review and application of various theories regarding leadership. The course involves significant reading and presentations. The course focuses on building skills through the use of comprehensive self-assessments, experiential exercises, and learning projects.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 790 Seminar in Management

Prerequisite: 15 hours of graduate business administration courses and permission from the MBA Program Director.

Critical evaluation and analysis of theory, research and practice in management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MGT 794 Internship: Management

Prerequisite: permission of the director of the appropriate graduate program and department head.

In consultation with the coordinating professor, the student is engaged in first-hand experience with a business, organization, or other professional entity. A portfolio of assigned work shall be collected, examined and evaluated during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MGT 796 Independent Study: Business Administration

Prerequisite: permission of advisor.

In consultation with the advisor, student selects for intensive study a specific area of concern related to the student's program with emphasis on research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall

MGT 799 Thesis

Prerequisite: permission.

Independent research and study connected with preparation of thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Bachelor of Science

Major requirements

All students majoring in business must also satisfy all [College of Business Core \(/Registrar/Catalog/college-of-business-core.htm\)](https://Registrar/Catalog/college-of-business-core.htm) requirements. Hours required in the college core range from 36 to 51 depending on major.

Major core:

Major core for this major is embedded within the college core.

Complete one of the following options:

Administrative Management option (24 hours):

1. [ACC 311\(3\)](#); [MGT 341\(3\)](#), [345\(3\)](#), [440\(3\)](#), [465\(3\)](#); [QBA 337\(3\)](#).
2. Two courses from: [ENT 301\(3\)](#), [302\(3\)](#), [584\(3\)](#); [LAW 335\(2\)](#); [MGT 342\(3\)](#), [397\(3\)](#), [442\(3\)](#), [447\(3\)](#); [MKT 367\(3\)](#), [368\(3\)](#).

Human Resources Management option (27 hours):

1. [ACC 311\(3\)](#); [MGT 341\(3\)](#), [345\(3\)](#), [450\(3\)](#) or [451\(3\)](#), [465\(3\)](#), [546\(3\)](#); [QBA 337\(3\)](#); [RMI 314\(3\)](#).
2. One course from: [ECO 310\(3\)](#); [MGT 410\(3\)](#), [447\(3\)](#), [466\(3\)](#).

International Business Administration option (37 hours):

1. [MGT 345\(3\)](#), [447\(3\)](#), [MKT 474\(3\)](#).

2. Foreign Language: Choose a language for a minimum of 12 hours. International students whose native language is not English may be waived from the language requirement subject to the following:
 - a. The student is a graduate of a secondary school in their home country.
 - b. The waiver will not result in a reduction of the total credit hours required toward the degree.
 - c. International students seeking this waiver may substitute 12 hours from Political Science, Public Administration, International Relations, Linguistics, Anthropology, Communication, History or Religious Studies.
3. Two courses from: [MKT 464\(3\)](#), [FIN 582\(3\)](#), [FIN 586\(3\)](#), [LAW 539\(3\)](#), [ACC 506\(3\)](#), [ECO 565\(3\)](#), or additional foreign language course.
4. Three courses from: [ENT 301\(3\)](#); [MGT 341\(3\)](#), [342\(3\)](#), [400\(3\)](#), [440\(3\)](#).
5. Completion of a minimum of six continuous weeks of approved international experience. International students whose native language is not English may substitute a Domestic Education Abroad experience or Domestic Internship experience for the international experience.

University level requirements:

Online Entrepreneurship Certificate

Online Entrepreneurship

This certificate will help students develop the needed skills to create, launch, sustain, and grow their own business online. The MGT 400 requirement that students take a project-based, discipline-specific course is intended to give students the opportunity to develop products in their area of expertise. This allows students to customize the certificate to suit their particular interests and needs. This certificate is applicable for students who want to start a new online business and those who want to take an existing business online.

Program requirements (12 hours)

1. [ENT 201\(3\)](#), [202\(3\)](#), [203\(3\)](#); [MGT 400\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Marketing Courses

Marketing (MKT) courses

MKT 150 Marketing Fundamentals

A survey of marketing designed to serve various groups of students - those from other colleges/departments who would like to develop a broad understanding of marketing, those who are undecided about a major and would like to explore marketing as a possibility; and those who desire to take a contemporary marketing course to assist them in their present career path. Cannot be taken for credit by students who have previously received credit for MKT 350.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 300 Service Learning in Marketing

Prerequisite: 30 hours and concurrent registration in a marketing course designated as a service learning offering; and undergraduate business majors must be admitted to degree program.

This service component for an existing course incorporates community service with classroom instruction in Marketing to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of and participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

1			Upon demand

MKT 350 Principles of Marketing

Prerequisite: 54 hours and PSY 121; and undergraduate business majors must be admitted to degree program.

Structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or users.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 351 Consumer Behavior

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

An overview of the applied social science of consumer behavior, which observes the psychological and behavioral processes of consumers as they engage in the selection, acquisition, usage, and disposition of products in the global marketplace. Specifically, the course examines the internal and external influences on the consumer decision making process. Theories of consumer behavior and current research in the field of study are employed to elucidate some implications for marketing management strategy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 352 Professional Sales

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

This course teaches the Principles of Sales as a toolkit, which in addition to being useful to a salesperson will also be found useful by most people in everyday life. Students will learn the nuts and bolts of a sales call from start to finish, as well as different customers that will be encountered, different kinds of relationships, ethics, communication skills and adaptive selling. Students will have the opportunity to apply what they have learned during the semester by participating in mock sales calls with salespeople from the community.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 354 Principles of Advertising

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

Advertising roles, principles and procedures; development of creative strategies, media selection-including traditional media as well as nontraditional media, social networking, guerrilla, online, promotion, mobile, and event-basic design, layout and copy development; measures of advertising effectiveness. Includes the development of an integrated campaign.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 355 Principles of Retailing

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

The application of retailing principles to real-world issues. Students are challenged to solve retailing scenarios using an "experience-based" format.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 360 Marketing Research

Prerequisite: MKT 350 and QBA 337; and undergraduate business majors must be admitted to degree program.

Basic research techniques designed to introduce the student to modern research procedures and the research process. Emphasis placed on research techniques to collect, analyze, and interpret research information as a basis for improved decision-making; and for the development of marketing strategies and policies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 364 Operations Management

Prerequisite: MGT 340; nonbusiness majors QBA 237 or equivalent; and undergraduate business majors must be admitted to degree program.

Exploration of competitive priorities to improve performance in a variety of business environments. Application of analytical tools to manage processes and projects within and across business functions. Flexible content to reflect trends in the occupational marketplace.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 365 Introduction to Logistics

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

Analysis of the activities and decisions necessary to plan, implement and control private and public physical distribution and transportation channel systems. Emphasis on physical, human, informational and organizational system components.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 367 Purchasing and Supply Management

Prerequisite: MKT 364; and undergraduate business majors must be admitted to degree program.

A study of the processes and problems involved in acquiring and controlling materials and services required for operations management in business, industry, and government. Includes source selection, quality and quantity control, value analysis, and negotiation and legal consideration.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 368 Supply Chain and Operations Modeling

Prerequisite: QBA 337; and MKT 364 or MKT 365 or MKT 450; and undergraduate business majors must be admitted to degree program.

Emphasis will be on application and development of quantitative modeling techniques for the analysis of decision problems encountered in supply chain and operations management. Applications include transportation models, network and location models, aggregate planning models, inventory management, and queueing models.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 380 Creative Advertising

Prerequisite: MKT 354; and undergraduate business majors must be admitted to degree program.

An advanced course in the creation of broadcast and print advertising. Emphasizes strategic planning, developing creative concepts and assistance in writing and polishing copy and visuals within an ad, execution of finished product, and refining presentation skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 394 Cooperative Education in Marketing

Prerequisite: acceptance into Cooperative Education Program and permission of the department head; and undergraduate business majors must be admitted to degree program.

The opportunity to earn academic credit in a planned learning process that integrates academic training with supervised work experience. This is a variable content course that may be repeated to a total of 6 semester hours in Cooperative Education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MKT 410 Services Marketing

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

An advanced look at modern marketing theory and practice in the services industries which comprise over 90 percent of marketing jobs in the 21st century. Specifically, the course examines the marketing of services and provides students with marketable managerial tools for securing and succeeding at jobs in the modern economy. Topics include the unique characteristics of services, service quality, customer relationship marketing, service blueprinting, service dominant logic, service expectations, service performance, and co-creation of service quality. Through theory and applied examples the student will learn cutting edge marketing principles, techniques and tools.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 450 Supply Chain Management and Sustainability

Prerequisite: MKT 350 or BUS 510; and undergraduate business majors must be admitted to degree program.

This course emphasizes the adoption of a supply chain orientation to achieve competitive advantage and value creation through efficient and effective inter-firm buyer/seller relationships and logistical processes. In addition to traditional supply chain management topics the course will emphasize social, economic and environmental dimensions of sustainability throughout all aspects of the course including: raw materials, procurement, production, transportation, packaging, distribution, marketing, facilities location and retail store design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 451 Advanced Professional Sales

Prerequisite: MKT 352; and undergraduate business majors must be admitted to degree program.

This course is designed for the serious sales student. Concepts discussed in MKT 352 will be applied during this course. In addition, the course will delve into issues in selling and sales management that will impact their future in these positions.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 452 Sales Management

Prerequisite: MKT 352; and undergraduate business majors must be admitted to degree program.

This course is designed to prepare students for a sales management position. Students will learn what information and resources are necessary to create and maintain a successful sales force. In addition, students will learn how to measure and influence performance, how to motivate salespeople, proper recruitment, selection and training techniques, compensation strategies and current trends in sales management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 455 Advanced Retailing Practices

Prerequisite: MKT 355; and undergraduate business majors must be admitted to degree program.

An advanced study of retail buying practices, resident buying offices, domestic and foreign markets, fashion, promotion, color dynamics, display, inventory control, store location, customer services, pricing, sales projection, and research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 456 Advanced Advertising

Prerequisite: MKT 354; and undergraduate business majors must be admitted to degree program.

Further develops skills in all aspects of advertising/promotion strategy and design. Includes overall campaign development. Explores careers in integrated marketing communications. Additional emphasis on business to business promotion, events marketing, and presentation skill development. Includes one or more service learning campaigns.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 460 Logistics and Supply Chain Strategy

Prerequisite: MKT 450; and undergraduate business majors must be admitted to degree program.

This course requires the students to integrate concepts learned throughout their academic experience into a combined analysis of current events and the completion of a corporate project or case study. Analysis of comprehensive cases incorporating strategic and tactical decisions throughout the entire supply chain management process is required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 464 International Logistics and Global Supply Chain Management

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

Principles of logistics activities in international business with special emphasis on transportation, global sourcing, customs issues, import-export opportunities, customs documentation, the role of government in international transactions, customer service, and global supply chain management. Special emphasis is placed on current events and their effect on the marketing and logistics activities of organizations. Cannot receive credit for both MKT 464 and MKT 764.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 472 Marketing Strategy

Prerequisite: MKT 351 and MKT 360; and undergraduate business majors must be admitted to degree program.

An analysis of the marketing concepts, functions, and principles involved in planning, implementing, and evaluating the total marketing program of various organizations. This course emphasizes market analysis, targeting and segmenting, and the development of marketing-mix strategies structured to deliver superior customer value proposition and organizational performance.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 474 International Marketing

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

This course investigates the cultural impact on markets and institutions affecting international trade. Students will study cross-cultural comparisons of attitudes and beliefs about marketing practices and products. The course provides an in-depth look into the effects of culture, business climate and business practices on each of the elements of marketing to provide an awareness of differences in markets and consumer behavior. Marketing management, competitiveness, sustainability and negotiation applications are discussed throughout the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 476 Futuristics: Business and Society

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

This course compares and analyzes the diverging views of an "economy of abundance" versus that of an "economy of scarcity." Major emphasis is directed toward predicting future changes in and the impact on the nature of firm, consumer life-styles, and society in general.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MKT 480 Advertising Campaigns

Prerequisite: MKT 350; and permission of instructor; and undergraduate business majors must be admitted to degree program.

Advanced advertising techniques are applied to the formation of a comprehensive advertising campaign while working in an advertising agency-like atmosphere. Presentation(s) of the campaign will be made formally to students, faculty, and advertising executives, and may culminate in participation in a national competition.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 485 Marketing Yourself

Prerequisite: MKT 350; and undergraduate business majors must be admitted to degree program.

A participative course designed to provide students with information regarding the skills necessary to succeed in their professional career.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 494 Executive Internship-Marketing

Prerequisite: permission of department head; and undergraduate business majors must be admitted to degree program.

Opportunity to obtain simultaneously the practical as well as the theoretical knowledge through internship with cooperating business executives. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring

MKT 496 Readings in Business Administration-Marketing

Prerequisite: permission of the department head; and undergraduate business majors must be admitted to degree program.

Planned readings designed to intensify and supplement the study of marketing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

MKT 497 Topics in Marketing

Prerequisite: MKT 350 and permission of the department head; and undergraduate business majors must be admitted to degree program.

A variable content course, with topics that can change from semester to semester depending upon student and faculty interests. Topics generally require previous study in marketing. Examples: marketing of professional services, marketing of not-for-profit organizations, international marketing research, industrial marketing, physical distribution, sales forecasting, and legal issues of marketing. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MKT 510 Digital and Social Media Marketing

Prerequisite: BUS 510 or MKT 354 or MKT 355; and undergraduate business majors must be admitted to degree program.

An exploration and evaluation of marketing activities as they pertain to social media and an organization's online presence. Topics include the various tools available to marketers for establishing a social media presence, evaluating the effectiveness of social media strategies, and the use of online tools like display ads as part of an integrated marketing campaign. May be taught concurrently with MKT 610. Cannot receive credit for both MKT 510 and MKT 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 515 Contemporary Issues in Advertising/Promotion

Prerequisite: MKT 350 and MKT 354; and undergraduate business majors must be admitted to degree program.

This course will develop problem-solving and strategic planning skills as they relate to contemporary issues in advertising. Specific topics covered will vary depending on the current issues occurring during the course. Case studies and contemporary readings will replace the traditional marketing textbook. In-class discussion, participation, and application will complement traditional lectures. May be taught concurrently with MKT 615. Cannot receive credit for both MKT 515 and MKT 615.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 565 Business Process Management

Prerequisite: MKT 364; and undergraduate majors must be admitted to degree program.

An in-depth analysis of business processes from an operations perspective. Study of specific practices and tools to design, improve, and support these processes in a variety of organizational settings. Use of professional BPM software is emphasized. May be taught concurrently with MKT 675. Cannot receive credit for both MKT 565 and MKT 675.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 570 Marketing Analytics

Prerequisite: MKT 350 and MKT 360; and undergraduate business majors must be admitted to degree program.

This course covers a wide variety of analytical techniques commonly used to interpret marketing data, including but not limited to multiple regression analysis, general linear modeling, cluster analysis (for market segmentation), and multidimensional scaling (for perceptual maps). Emphasis is placed on using data to inform marketing policies and strategy. Students will use SPSS to edit and analyze primary and secondary data. May be taught concurrently with MKT 670. Cannot receive credit for both MKT 570 and MKT 670.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 596 Research Issues and Problems: Marketing

Prerequisite: MKT 360 and permission of the department head; and undergraduate business majors must be admitted to degree program.

Research issues and projects growing from particular needs which may require additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MKT 600 Marketing Concepts for Managers

Prerequisite: permission of a director of a College of Business Graduate Program.

Comprehensive study of the fundamentals of marketing. Designed for graduate students who have not had an undergraduate course in marketing. Will not be counted in the hours required for a College of Business graduate degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 610 Digital and Social Media Marketing

Prerequisite: MKT 600 or MKT 772; and BUS 610.

An exploration and evaluation of marketing activities as they pertain to social media and an organization's online presence. Topics include the various tools available to marketers for establishing a social media presence, evaluating the effectiveness of social media strategies, and the use of online tools like display ads as part of an integrated marketing campaign. May be taught concurrently with MKT 510. Cannot receive credit for both MKT 510 and MKT 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 615 Contemporary Issues in Advertising/Promotion

Prerequisite: MKT 350 or MKT 600 or equivalent.

This course will develop problem-solving and strategic planning skills as they relate to contemporary issues in advertising. Specific topics covered will vary depending on the current issues occurring during the course. Case studies and contemporary readings will replace the traditional marketing textbook. In-class discussion, participation, and application will complement traditional lectures. May be taught concurrently with MKT 515. Cannot receive credit for both MKT 615 and MKT 515.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 670 Marketing Analytics

Prerequisite: 15 hours of graduate business administration courses including MKT 772 and permission from the MBA Program Director.

This course covers a wide variety of analytical techniques commonly used to interpret marketing data, including but not limited to multiple regression analysis, general linear modeling, cluster analysis (for market segmentation), and multidimensional scaling (for perceptual maps). Emphasis is placed on using data to inform marketing policies and strategy. Students will use SPSS to edit and analyze primary and secondary data. May be taught concurrently with MKT 570. Cannot receive credit for both MKT 570 and MKT 670.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 675 Business Process Management

An in-depth analysis of business processes from an operations perspective. Study of specific practices and tools to design, improve, and support these processes in a variety of organizational settings. Use of professional BPM software is emphasized. May be taught concurrently with MKT 565. Cannot receive credit for both MKT 675 and MKT 565.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 730 Logistics and Transportation

Prerequisite: MKT 600 or equivalent.

This course introduces students to the concepts and terminology associated with the planning and management of logistics activities. The course investigates introductory decisions in inventory management, warehousing, transportation, customer service, performance measurement, and others.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 740 Supply Chain Models and Systems

Prerequisite: MKT 730.

This course addresses concepts, techniques and systems used in supply chain management and decision support. Specific areas include ERP systems, manufacturing planning and management techniques and systems, inventory management, warehouse layout, distribution management, routing and scheduling, process analysis, network analysis and the application of simulation and optimization techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MKT 750 Supply Chain Management Seminar

Prerequisite: 15 hours of graduate business administration courses and permission from the MBA Program Director.

This course emphasizes the adoption of a supply chain orientation toward business and the need for more effective inter-firm relationships and operational processes. The course incorporates analyses of comprehensive cases involving strategic and tactical decisions throughout product and service supply chains in a domestic and global environment.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 760 Logistics and Supply Chain Management

Prerequisite: MKT 740 or MKT 750.

This course serves as a capstone experience involving actual company projects, a comprehensive supply chain simulation exercise, and the identification and discussion of current events in logistics and supply chain management. Class sessions are augmented by discussions of current events involving logistics and supply chain management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 764 International Logistics and Global Supply Chain Management

Prerequisite: admission to the MBA program or permission from the MBA Program Director; and MKT 600 or equivalent.

Theory and practice of logistics activities in international business with special emphasis on transportation, global sourcing, customs issues, import-export opportunities, customs documentation, the role of government in international transactions, customer service, and global supply chain management. Special emphasis is placed on current events and their effect on the marketing and logistics activities of organizations. Cannot receive credit for both MKT 764 and MKT 464.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MKT 772 Marketing Management

Prerequisite: admission to the MBA program or permission from the MBA Program Director; and MKT 600 or equivalent.

Theoretical bases of marketing concepts, principles and strategies; development, acceptance and expected future direction of emerging marketing practices.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 774 International Marketing

Prerequisite: admission to the MBA program or permission from the MBA Program Director; MKT 600 or equivalent.

Advanced management, theory, and analysis of marketing functions in a multinational context where the parameters differ from those of domestic marketing. Students are required to complete a research project in the course area. Cannot receive credit for both MKT 774 and MKT 474.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 776 Futuristics: Business and Society

Prerequisite: MKT 600 or equivalent.

This course compares and analyzes the diverging views of an "economy of abundance" versus that of an "economy of scarcity." Major emphasis is directed toward predicting further changes in and the impact on the nature of firm, consumer life-styles, and society in general. Students are required to complete a research project in the course area.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MKT 790 Seminar in Marketing

Prerequisite: 15 hours of graduate business administration courses and permission from the MBA Program Director.

Critical evaluation and analysis of theory, research, and practice in marketing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 794 Internship: Marketing

Prerequisite: permission of director of the appropriate graduate program and department head.

In consultation with the coordinating professor, the student is engaged in first-hand experience with a business, organization, or other professional entity. A portfolio of assigned work shall be collected, examined and evaluated during the semester.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MKT 796 Independent Study: Marketing

Prerequisite: MKT 670 and permission of department head.

In consultation with coordinating professor, student selects a specific area of emphasis (related to the degree program) for a significant, in-depth study, with particular emphasis on research.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

MKT 799 Thesis

Prerequisite: permission of department head.

Independent research and study connected with preparation of thesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Relationship Selling Certificate

Relationship Selling

This certificate is designed to provide students with a useful set of personal selling and sales force management skills.

Program requirements (12 hours)

1. [MKT 352\(3\)](#), [MKT 410\(3\)](#), [MKT 451\(3\)](#), [MKT 452\(3\)](#).
2. All candidates must satisfy the [General University Certificate Requirements](#).

Completion requirement

Attain a GPA of 2.50 or higher for all courses used to fulfill the certificate requirements.

Prerequisites

- Prerequisite for MKT 352 is MKT 350.
- Prerequisite for MKT 410 is MKT 350.
- Prerequisite for MKT 451 is MKT 352.
- Prerequisite for MKT 452 is MKT 352.

Missouri State

Office of the Registrar

Undergraduate Catalog

Supply Chain, Logistics and Operations Management

Major(s)

Supply Chain, Logistics and Operations Management (Comprehensive)

Bachelor of Science

Major requirements (30 hours):

All students majoring in business must also satisfy all [College of Business Core \(/Registrar/Catalog/college-of-business-core.htm\)](#) requirements. Hours required in the college core range from 36 to 51 depending on major.

1. [MKT 365\(3\)](#), [367\(3\)](#), [368\(3\)](#), [450\(3\)](#), [460\(3\)](#), [565\(3\)](#), [QBA 337\(3\)](#).
2. Three courses from: [MKT 351\(3\)](#), [352\(3\)](#), [354\(3\)](#), [355\(3\)](#), [360\(3\)](#), [380\(3\)](#), [410\(3\)](#), [451\(3\)](#), [452\(3\)](#), [456\(3\)](#), [472\(3\)](#), [474\(3\)](#), [480\(3\)](#), [485\(3\)](#), [510\(3\)](#), [515\(3\)](#), [570\(3\)](#).

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Accelerated graduate program in Business Administration

Eligible Missouri State undergraduate students may apply for admission to the Master of Business Administration program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of six hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-Business-Administration.htm\)](https://graduate.missouristate.edu/Catalog/prog-Business-Administration.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Cybersecurity

Eligible Missouri State undergraduate students in the College of Business may apply for admission to the Cybersecurity program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of six hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-cybersecurity.htm\)](https://graduate.missouristate.edu/Catalog/prog-cybersecurity.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(/Registrar/mixedcredit.htm\)](/Registrar/mixedcredit.htm) for additional information and procedures for obtaining permission for Mixed Credit.

Undergraduate Catalog

Merchandising and Fashion Design Courses

Merchandising and Fashion Design (MFD) courses

MFD 101 Fashion Fundamentals

Overview of fashion terminology, product development, and fashion careers.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Upon demand

MFD 103 Principles and Elements of Design

Fundamentals of design; introduction to principles and elements of design as applied to apparel line development through the use of fashion illustration and technical drawings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Upon demand

MFD 201 Fashion History

Applied approach to the history of dress from ancient times through the twenty-first century; examining dress in the context of social, economic, political, technological, and artistic development of Western culture.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MFD 202 Textiles

Study of textiles and their components (fibers, yarns, fabrics and finishes) as they relate to end use, performance, quality and customer satisfaction

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MFD 203 Kaledo for the Fashion Industry

Prerequisite: MFD 101 with grade of C grade or better; and MFD 210.

Introduction to the principles and techniques of computer aided design used in the fashion industry.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

MFD 210 Fashion Technology

Prerequisite: declared Merchandising and Fashion Product Development major or permission.

Learn how to apply current computer software in merchandising and fashion industry scenarios.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MFD 270 Fundamentals, Fit and Construction

Builds on current construction and fit evaluation skills. Industrial equipment is used to construct women's, men's, children's and accessories. Industry techniques are utilized.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MFD 300 Special Topics in Merchandising and Fashion Design

Selected topics of contemporary interest in merchandising and fashion design. Offered when resources and demand allow. May be repeated for a total of 6 hours when topics change. Variable Content Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MFD 301 Technical Planning

Prerequisite: MFD 202 with grade of C or better.

This course focuses on apparel development. Emphasis on quality, sourcing, and technical packages.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MFD 302 Merchandising and Fashion Design Study Tour

Study of and visits to museums, design studios, historic sites, trade shows, conferences, and conventions related to the fashion industry. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MFD 303 Product Development

Prerequisite: MFD 301 with a grade of C or better.

This course examines apparel line development from concept to consumer. A focus on seasonal collections for product categories and merchandising classifications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Upon demand

MFD 304 Forecasting and Branding

This course will provide students with tools for trend forecasting consumer analytics, using resources and visual imagery.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Upon demand

MFD 305 Portfolio

Prerequisite: junior standing.

Sourcing and acquisition of an internship are examined. Includes resume writing, interview skills, website portfolio instruction, and correspondence etiquette, including phone and email.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

MFD 306 Industry Formulas and Calculations

Prerequisite: MTH 130 or higher.

Merchandising/buying formulas are examined for the purpose of understanding six month merchandising plan and open-to-buy calculations. Case studies include vendor relations and negotiation strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

MFD 307 Advanced Fashion Technology

Prerequisite: MFD 210 with grade of C or better.

Learn how to use current industry software, such as InDesign and Illustrator, for fashion presentations and portfolio work.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

MFD 360 Merchandising

Prerequisite: MFD 304 with grade of C or better.

Special topics course in merchandising. Apply key marketing theories, frameworks, and tools to solve merchandising problems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MFD 361 Advanced Merchandising

Prerequisite: MFD 304 with grade of C or better; and junior standing.

Special topics course in merchandising. Go beyond theoretical knowledge to gain a practical understanding of merchandising problems.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

MFD 362 Visual Merchandising and Promotion

Prerequisite: MFD 301 with grade of C or better.

Hands-on visual merchandising and visual perspective through internet, print and branding. Promotions for community productions, and senior showcase and market.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MFD 370 Flat Pattern

Prerequisite: MFD 270 with grade of C or better.

Fundamental concepts of drafting for the basic female form and pattern manipulation techniques to develop original garments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MFD 371 Draping

Prerequisite: MFD 370 with C grade or better.

Fundamental concepts for developing original designs by using draping techniques. Full size dress forms are used for creation of basic sloper and original designs in knits and wovens.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

MFD 372 Contemporary Designers/Collection Development

Prerequisite: MFD 307 with grade of C or better.

A study of twenty first century designers in a variety of merchandise classifications while developing an apparel market collection from concept to consumer.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MFD 400 Problems in Merchandising and Fashion Design

Independent study for those who wish additional work in specific subject areas. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

MFD 401 Internship in Merchandising

Prerequisite: MFD 305 and MFD 306 with grades of C or better; and permission.

Supervised experienced in a pre-approved internship in a related field of Product Development or Merchandising. The student must work a minimum of 200 hours for a 3 credit hour internship, complete the student workbook, earn a satisfactory evaluation from the internship sponsor, and complete a weekly journal.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Summer, Upon demand

MFD 402 Internship in Fashion Design

Prerequisite: MFD 305 and MFD 306 and MFD 370 and MFD 371 with grades of C or better; and permission.

Supervised experience in a pre-approved internship in a related field of Product Development or Design. The student must work a minimum of 200 hours for a 3 credit hour internship, earn a satisfactory evaluation from the internship sponsor and complete a weekly journal.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Summer, Upon demand

MFD 403 Professional Development

Prerequisite: MFD 401 or MFD 402 with grade of C or better or concurrent enrollment.

Objectives include the completion of the website portfolio, research to identify major economic factors in the fashion industry, personal marketing, budgeting, and business etiquette.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Upon demand

MFD 460 Merchandise Buying and Assortment Planning

Prerequisite: MFD 306 with grade of C or better.

Advanced merchandise mathematics. Apply six month merchandise plan and OTB formulas through a simulated buying experience including store planning, merchandising and marketing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

MFD 470 Design Studio I

Prerequisite: MFD 371 with grade of C or better.

Senior Market Collection will be developed for critique. Students will design and construct group and individual looks using advanced flat pattern and draping techniques includes fitting and grading apparel for original garments based on industry sample size forms (female, male or child).

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

MFD 560 Business Analysis

Prerequisite: MFD 460 with grade of C or better or concurrent enrollment.

Analyzing fashion businesses including: target market, location, merchandising classification, human resources, cash flow sheets, profit and loss, store design, assortment planning, marketing strategies and funding. A grade of C or better is required for graduation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Upon demand

MFD 570 Design Studio II

Prerequisite: MFD 470 with a grade of C or better.

Senior Market Collection produced. Includes merchandising collaboration on fashion photoshoots, fashion videos, and booth preparation. Critiqued by a jury of fashion industry professionals for the senior market and showcase. A grade of C or better is required for graduation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

MFD 682 Graduate Seminar in Fashion Merchandising and Design

Prerequisite: 12 hours of graduate credit.

Selected topics in clothing and textiles that involve the areas of apparel manufacturing, fashion merchandising, and management trends are systematically explored through critical analysis of literature and through an individual research project. May be repeated for credit. A total of 4 hours may be applied to a degree program.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

Merchandising and Fashion Product Development

Major(s)

Merchandising and Fashion Product Development (Comprehensive)

Bachelor of Science

Major requirements (63 hours)

Note: Six hours may double count toward General Education requirements.

Core requirements (39 hours):

1. Specific General Education Requirements: [ECO 155\(3\)](#), [PSY 121\(3\)](#).
2. Grades of C or better are required in all MFD courses to advance to the next level of coursework and to graduate from this program.
3. [MFD 101\(1\)](#), [201\(3\)](#), [202\(3\)](#), [210\(3\)](#), [301\(3\)](#), [303\(3\)](#), [304\(3\)](#), [305\(1\)](#), [306\(3\)](#), [307\(3\)](#), [403\(1\)](#); [MKT 350\(3\)](#), [351\(3\)](#).
4. Public Affairs Capstone Experience Requirement will be fulfilled by completion of MFD 304(3); and MFD 401(3) or 402(3).

Complete one of the following options:

Fashion Design option (24 hours):

1. [MFD 103\(3\)](#), [270\(3\)](#), [370\(3\)](#), [371\(3\)](#), [372\(3\)](#), [402\(3\)](#), [470\(3\)](#), [570\(3\)](#).

Merchandising option (24 hours):

1. [ACC 201\(3\)](#); [MFD 362\(3\)](#), [401\(3\)](#), [460\(3\)](#), [560\(3\)](#); [MGT 340\(3\)](#), [MKT 354\(3\)](#), [MKT 365\(3\)](#).

Technology and Construction Management Courses

Technology and Construction Management (TCM) courses

TCM 110 Introduction to Engineering Design

Prerequisite: declared major in Mechanical Engineering Technology, Civil Engineering, Electrical Engineering, Mechanical Engineering, or Pre-Engineering.

Introduction to design, computational methods, and design communication techniques. Computer aided design and computational analysis tools are introduced. Orthographic drawing, sketching theory and conventions, auxiliaries, sections, traditional dimensioning and tolerancing, and geometric dimensioning and tolerancing are introduced.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

TCM 121 Construction Principles and Practice

An introductory course which investigates the principles and practices associated with common building structural systems-includes foundations, heavy timber, masonry, steel, sitecast concrete, and precast concrete. Course will focus on the development of a fundamental knowledge base for managing construction projects through case study and hands-on experience. Lab activities may include job site visits, Habitat for Humanity, and concrete field testing.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

TCM 122 Construction Materials and Methods

An introductory course which provides an overview of the materials and methods used in light framing and building finish systems from floor to roof and from exterior cladding to interior finishes. Includes wood light framing, light gage metal framing, roofing, glass and glazing, cladding systems, windows and doors, interior finishes, ceilings, and floors. This course will focus on development of a fundamental knowledge base through case-study, detailed product analysis, and hands-on experience. Lab activities may include job site visits and work with Habitat for Humanity or other service agencies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 123 Introduction to Construction for Non-Construction Majors

An introductory course which explores materials, principles and practices associated with building systems used in commercial and residential construction. Topics of discussion will include structural systems, light framing, roofing, exterior cladding systems and interior finishes. External class activities may include jobsite visits.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 221 Construction Documents and Quantity Take-off

Prerequisite: TCM 121 or TCM 122 or TCM 123.

An introduction to construction drawings and specifications. The course will focus on quantity take-offs to use and interpret plans, details, sections, and elevations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

TCM 223 Construction Surveying

Prerequisite: TCM 221; and MTH 261 or MTH 287.

Construction field engineering activities to include surveying, site layout and dimensional control. Interpretation of plot books, site plans, and topographic maps is also included.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

TCM 226 Construction Project Administration

Prerequisite: TCM 221.

A study of the legal and administrative aspects of construction projects. Includes use of documents, subcontracting, purchasing, changes, claims, payments, and closeout.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 267 Statics

Prerequisite: PHY 123 or PHY 203; and MTH 261 or 287.

A study of the mechanics of forces associated with rigid bodies in equilibrium. Development of problem solving skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 273 Mechanics of Materials

Prerequisite: PHY 233.

Introduces the principles of mechanics necessary for the solution of technical problems relating to strength, stiffness, and material selection, and is the student's first course in mechanical design. Topics covered include stress, strain, pressure vessel analysis, torsion, beams, columns, and combined stresses at a point.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 281 Dynamics

Prerequisite: PHY 233.

An in-depth, quantitative treatment of technical problems involving motion and acceleration. Topics include plane motion; three dimensional motion; force, mass and acceleration; mechanical work and energy; and impulse and momentum. Linear and angular momentum.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 296 Readings in Technology

Prerequisite: permission of department head.

Directed readings for individuals requiring additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

TCM 297 Topics in Technology

A variable content course with topics that can change from semester to semester depending on faculty and student interests. Consult the semester class schedule for the current offering under this number. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

TCM 299 Cooperative Education in Technology

Prerequisite: permission of department head.

The opportunity to earn academic credit in a planned learning process that integrates supervised work experience and education in an approved industrial setting. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

TCM 303 Facilities Operation and Maintenance

Introduces history and concepts of facility management, with emphasis on definition of key terms and concepts. Introduction to operations and maintenance of buildings with an emphasis on techniques utilized to maintain facilities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Upon demand

TCM 311 Product Conceptualization and Design

Prerequisite: TCM 331 or concurrent enrollment.

This course introduces product design as an iterative decision-making process. It also presents cost estimation and analysis. Students complete an integrative design project that applies the engineering design process to a real-world engineering problem.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 313 Facility Design

Prerequisite: TCM 221.

Using Building Information Modeling for facility space design and requirements analysis, construction materials selection, and quantity schedule development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 315 Thermodynamics and Heat Transfer

Prerequisite: MTH 280 and PHY 203.

Introduces the concepts, laws, and problem solving methodologies needed for the solution of technical problems involving energy conversion, thermodynamics, and heat transfer. Topics covered include gas, vapor, and fluid properties; the laws of thermodynamics; and convective, radiative, and conductive heat transfer.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 318 Structural Design Principles

Prerequisite: TCM 267.

The design of simple structural members used in construction. Topics include applications in concrete, steel, soils and wood, form design and other temporary structures used in construction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 320 Construction Contracts, Specifications and Law

Prerequisite: LAW 231 or TCM 303.

An introduction to basic construction contracts, specifications, and law. Discussion of the application of contract principles to construction contracts, together with a detail summary of specifications and other documents which form an essential part of construction contracts. Legal topics of special interest to construction professionals will also be discussed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 321 Mechanical Systems for Buildings

Prerequisite: TCM 121 or TCM 122 or TCM 123; and MTH 134 or higher.

This course addresses the principles and practices of heating, ventilation, cooling, plumbing and fire protection systems used in residential, commercial and industrial applications. Emphasis is placed on coordination of design, applicable codes, installation, and problem solving.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 322 Electrical Systems for Buildings

Prerequisite: TCM 221.

This course addresses the principles and practices of electrical and lighting systems used in residential, commercial and industrial applications. Emphasis is placed on coordination of the NEC, design, and installation of various systems in the building process.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 324 Construction Cost Estimating

Prerequisite: TCM 221.

A project oriented course where quantification and pricing of direct field costs and general condition costs from construction plans and specifications are developed. Course topics also include: development of feasibility, conceptual, lump sum, and unit costs estimates, production rates; development of bidding strategy; computerization estimates; and presentation of the bid.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

TCM 325 Fluid Mechanics

Prerequisite: TCM 315.

Fundamentals of fluid mechanics. Properties of liquids and gases; fluid statics; fluid dynamics; hydraulic and pneumatic machines. Theory of incompressible flow.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 326 Construction Soils and Foundations

Prerequisite: TCM 267.

An overview of the nature of soil materials and their engineering properties is coupled with simple, direct examples of analysis to show how construction methods and operations may be controlled or influenced. Introduces updated information developed in research and practices for applications to construction operations.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 331 Materials and Manufacturing Processes

Prerequisite: TCM 273.

Properties of engineering materials, heat treatment, measurement and inspection, casting, forging, machining, and other traditional manufacturing processes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

TCM 337 Quality Control and Measurement

Prerequisite: MTH 345 or QBA 237.

This course covers basic techniques of quality control and metrology. Topics covered include basic statistics, process capability, statistical process control, sampling, and measuring and gauging techniques.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 347 Electrical Circuits

Prerequisite: TCM 322 or PHY 204.

This course provides an in-depth treatment of electrical circuit analysis. Both theory and practical applications are discussed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

TCM 350 Management and Control of Quality

A study of management and control of quality as applied to both production and service enterprises. Topics include: basic quality systems, quality planning, international quality systems, supply chain management. In addition, an introduction to six sigma and design of experiments is included.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 354 Facility Planning

Investigates programming and space allocation for facility managers executing planned development. Master, strategic, and daily planning tools are explored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 355 Production Planning and Control

Prerequisite: 53 hours.

Production planning and control activities in the various industrial environments. Focus will be placed on the necessary prerequisites for an effective shop floor control system including computer simulation and modeling. Assemble-to-order, engineer-to-order, make-to-order, and make-to-stock are emphasized.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 358 Introduction to Technology Management

Provides students with a conceptual framework for understanding the social and economic environment of contemporary technology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 359 Principles of Project Management

Prerequisite: 53 hours.

A study of project management including the planning, organizing, directing, controlling, and coordinating functions used to achieve productivity enhancements in an industrial environment. Includes project management case studies from a variety of industries. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 361 Service Learning in Technology

Prerequisite: 30 hours and concurrent registration in an TCM course designated as a service learning offering.

This service component of an existing course incorporates community service with classroom instruction in industrial management to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of a participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

TCM 365 Computer Integrated Manufacturing

Prerequisite: TCM 110; and TCM 347 or concurrent enrollment.

A study of the design, integration, and information flow, associated with automated manufacturing systems. Topics covered include CAD/CAM, robotics, and PLC applications.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

TCM 366 Advanced Mechanical and Electrical Systems

Prerequisite: TCM 321 and TCM 322.

In depth analysis of various types of building mechanical, electrical, and low voltage systems. Emphasis will be placed on utilizing building automation controls and energy management strategies for maximizing building efficiency.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (odd-numbered years)

TCM 396 Readings in Technology

Prerequisite: permission of Department Head.

Directed readings for individuals requiring additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

TCM 397 Special Topics

A variable content course intended to provide opportunities for intensive study or research in an area of specific interest for students in the degrees offered by the Technology and Construction Management Department. Consult the semester class schedule for the current offering under this number. May be repeated for a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

TCM 399 Cooperative Education in Industry

Prerequisite: 60 hours and permission of Department Head.

The opportunity to earn academic credit in a planned learning process that integrates supervised work experience and education in an approved industrial setting. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

TCM 401 Construction Leadership

Prerequisite: TCM 494.

Students will examine the interpersonal, social and communication skills necessary to be successful in the construction industry. Emphasis will be placed on case study analyses and active learning strategies to improve overall emotional intelligence and leadership abilities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 402 Facility Administration

Prerequisite: TCM 354.

Covers the procedural, tracking, and resource requirements needed to carry out the responsibilities assigned to the facility function. Topics of study include portfolio management, contracts and specifications, and the coordination of personnel.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 411 Mechanical Design and Analysis

Prerequisite: TCM 331 or concurrent enrollment.

This course deals with mechanism design and design for manufacture. Topics include tolerancing, material selection, cost estimation, process planning, product fabrication, and mechanism synthesis.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 424 Mechanical and Electrical Systems Estimating

Prerequisite: TCM 321 and TCM 322 and TCM 324.

Quantity take-off and cost estimating for specialty construction work including plumbing, mechanical, and electrical systems. Students perform a complete take-off, pricing, and bid preparation for a small commercial construction project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring (even-numbered years)

TCM 425 Construction Planning and Scheduling

Prerequisite: TCM 324.

Introduction to the basic principles, techniques, and practices used by contractors to plan, schedule, and update construction projects timelines. Extensive use of commercial scheduling software.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

TCM 427 Construction Equipment Management

Prerequisite: TCM 324.

Study of the basic principles, practices, and techniques used in the construction industry for selecting and managing construction equipment. Focuses on understanding the time value of money, estimating equipment ownership and operating costs, selecting the proper equipment for specific construction tasks, and estimating equipment production.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 438 Systems Integration

Prerequisite: TCM 365 or TCM 366.

A project based course in distributed system integration and control. Students will gain experience in hardware interfacing, control software development, and system performance metric data collection and evaluation.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 453 Construction Cost Management

Prerequisite: ACC 201 and TCM 324.

Introduction to financial and cost concepts used in the construction industry. Emphasizes the analysis and use of financial statements, job cost accounting systems, and cost control.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 454 Construction Safety Management

Prerequisite: TCM 324.

Occupational safety and health standards and codes as they relate to the construction industry. Job-site safety assessment, safety program elements, accident costs and prevention, ethics and management practices.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 455 Safety Management

Occupational safety and health standards and codes. Hazard recognition, accident costs, accident prevention, ethics and administration. OSHA certification is not offered with this course. Cannot receive credit for both TCM 454 and TCM 455.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 456 Supervision

Prerequisite: 53 hours.

A study of the role of the supervisor and the concepts and techniques that may be utilized to optimize productivity. Topics include the legal aspects of supervision, roles and responsibilities of the supervisor and guiding teamwork.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 458 Technology Management

Prerequisite: TCM 358.

Technology issues related to operations and production management. Focuses on the design, management, and improvement of operation systems and processes.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 491 Management Competition

Prerequisite: permission.

Participation in planning, preparation, execution and debriefing for a management competition team sponsored by industry or an educational association, and coached by a member of the department faculty. The fulfillment of these requirements must be verified by the faculty coach and the department head. Participation in all aspects of the competition is required. May be repeated to a total of 3 hours. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

TCM 494 Professional Internship

Prerequisite: permission of department head.

Recommend completion during the summer preceding the senior year. The integration of supervised work experience and education in an approved industrial setting. May also serve as the information gathering phase of the capstone project in which students demonstrate achievement of program objectives through solution of a problem provided by an industry sponsor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring, Summer

TCM 497 Special Topics

Prerequisite: permission of department head.

A variable content course intended to provide opportunities for intensive study or research in an area of specific interest for students in the degrees offered by the Technology and Construction Management Department. Consult the semester class schedule for current offerings under this number. May be repeated to a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

TCM 498 Senior Design

Prerequisite: TCM 411.

Capstone experience for all engineering technology majors. Students will participate in interdisciplinary teams to perform applied research, bringing a product from conceptual design through manufacture. Activities will include detail design and tolerancing, material selection, cost estimation, process planning, schedule and material requirements planning, distribution system design, software planning and implementation, and product

fabrication. Course deliverables will include a written report, all design data and analyses, and one or more working, physical products.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

TCM 499 Senior Project

Prerequisite: permission of department head.

A capstone project in which students demonstrate attainment of program objectives through solution of a problem provided by an industry sponsor. Requires technical report and oral presentation. Evaluated by committee from faculty and industry. Team projects are permissible and encouraged. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 502 Healthcare Facility Management

Prerequisite: MTH 181 and TCM 401.

Examines facility management attributes related to maintenance and operations; regulatory compliance; planning, design and construction; and administration unique to healthcare. May be taught concurrently with TCM 602. Cannot receive credit for both TCM 502 and TCM 602.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 511 Product Design and Development

Prerequisite: TCM 359; and 80 hours; and undergraduate majors in the department of Technology and Construction Management must be admitted to degree program.

An overview of the product development process from concept generation to design in an entrepreneurial environment. The perspectives of marketing, design and manufacturing are blended into a single approach to product development. Provides students with an appreciation for the realities of industrial practice and for the complex and essential roles played by the various members of product development teams. May be taught concurrently with TCM 611. Cannot receive credit for both TCM 511 and TCM 611.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 545 Project Control Systems

Prerequisite: TCM 359; and undergraduate majors in the department of Technology and Construction Management must be admitted to degree program.

Advanced application of microcomputers with an emphasis on their use in project control. Topics include project control planning and objectives, change control processes, project documentation and communication, project progress/variance reports, payment requisitions, project closure activities, and project lessons learned systems. May be taught concurrently with TCM 645. Cannot receive credit for both TCM 545 and TCM 645.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

TCM 551 Cost Analysis for Project Management

Prerequisite: 80 hours; and undergraduate majors in the department of Technology and Construction Management must be admitted to degree program.

The use of cost analysis as a decision-making tool in the context of project management. Topics include the time value of money, analysis of alternatives, decision-making under risk, estimating, cost accounting, and capital budgeting. May be taught concurrently with TCM 651. Cannot receive credit for both TCM 551 and TCM 651.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 555 Statistical Quality Control and Design of Experiments

Prerequisite: QBA 237 or equivalent; and 80 hours; and undergraduate majors in the department of Technology and Construction Management must be admitted to degree program.

Topics include the practice of statistical techniques widely used in industry to improve quality, reduce costs, and optimize processes. Minimization of variability and basic approaches to statistically designed experiments are emphasized. May be taught concurrently with TCM 655. Cannot receive credit for both TCM 555 and TCM 655.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 596 Readings in Technology Management

Prerequisite: permission of department head.

Directed readings for individuals requiring additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a total of 6 hours. May be taught concurrently with TCM 696. Cannot receive credit for both TCM 696 and TCM 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

TCM 597 Topics in Technology Management

A variable content course with topics that depend on faculty and student interests. Consult the semester class schedule for the current offering under this number. May be repeated up to a total of 9 hours when content varies. May be taught concurrently with TCM 697. Cannot receive credit for both TCM 597 and TCM 697.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

TCM 602 Healthcare Facility Management

Prerequisite: permission.

Examines facility management attributes related to maintenance and operations; regulatory compliance; planning, design and construction; and administration unique to healthcare. May be taught concurrently with TCM 502. Cannot receive credit for both TCM 602 and TCM 502.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 611 Product Design and Development

Prerequisite: TCM 701 and acceptance in the Project Management MS or Graduate Certificate program; or permission of the Project Management MS program director.

An overview of the product development process from concept generation to design in an entrepreneurial environment. The perspectives of marketing, design and manufacturing are blended into a single approach to product development. Provides students with an appreciation for the realities of industrial practice and for the complex and essential roles played by the various members of product development teams. May be taught concurrently with TCM 511. Cannot receive credit for both TCM 611 and TCM 511.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 645 Project Control Systems

Prerequisite: TCM 701 and acceptance in the Project Management MS or Graduate Certificate program; or permission of the Project Management MS program director.

Advanced application of microcomputers with an emphasis on their use in project control. Topics include project control planning and objectives, change control processes, project documentation and communication, project progress/variance reports, payment requisitions, project closure activities, and project lessons learned systems. May be taught concurrently with TCM 545. Cannot receive credit for both TCM 645 and TCM 545.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

TCM 651 Cost Analysis for Project Management

Prerequisite: acceptance in the Project Management MS or Graduate Certificate program; or permission of the Project Management MS program director.

The use of cost analysis as a decision-making tool in the context of project management. Topics include the time value of money, analysis of alternatives, decision-making under risk, estimating, cost accounting, and capital budgeting. May be taught concurrently with TCM 551. Cannot receive credit for both TCM 651 and TCM 551.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 655 Statistical Quality Control and Design of Experiments

Topics include the practice of statistical techniques widely used in industry to improve quality, reduce costs, and optimize processes. Minimization of variability and basic approaches to statistically designed experiments are emphasized. May be taught concurrently with TCM 555. Cannot receive credit for both TCM 655 and TCM 555.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 696 Readings in Technology Management

Prerequisite: permission of department head.

Directed readings for individuals requiring additional depth or breadth of study. Outline of study must be approved prior to enrolling. May be repeated to a total of 6 hours. May be taught concurrently with TCM 596. Cannot receive credit for both TCM 696 and TCM 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

TCM 697 Topics in Technology Management

A variable content course with topics that depend on faculty and student interests. Consult the semester class schedule for the current offering under this number. May be repeated up to a total of 9 hours when content varies. May be taught concurrently with TCM 597. Cannot receive credit for both TCM 697 and TCM 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

TCM 701 Project Management

Prerequisite: acceptance in the Project Management MS or graduate certificate program; or permission of the Project Management Program Director.

This course provides a comprehensive overview of project management. The culture, principles, and basic techniques of project management are addressed using the project lifecycle as the primary organizational guideline. The project management functions of planning, organizing, motivating and controlling with an emphasis on the application to business and technology are explained. Basic tools of project management such as work breakdown structure, scheduling, contracting, earned value analysis, and risk management are explained and demonstrated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 703 Project Risk Analysis

Prerequisite: TCM 701 and acceptance in the Project Management MS or Graduate Certificate program; or permission of the Project Management MS program director.

In-depth analysis of the types of risks that threaten projects at each stage of development. Strategies used to recognize risks, assess probabilities and potential impacts, steps to respond to project risks. Tools used to

analyze and plan for managing project risk.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

TCM 710 Project Leadership

Prerequisite: acceptance in the Project Management MS or Graduate Certificate program, or permission of the Project Management MS program director.

A practical and relevant course that focuses on the people skills needed to manage a project successfully. Prepares students to handle project problems related to communication, motivation, performance, behavior, and crisis. Students analyze real life scenarios and develop solutions that are supported by the latest research to develop skills necessary for strong, effective project leadership.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 720 Project Management Training

Prerequisite: acceptance in the Project Management MS or Graduate Certificate program; or permission of the Project Management MS program director.

This course provides a comprehensive overview of advanced project management concepts and provides preparation for PMP or CAPM certification. The course focuses on project management functions and process groups.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

TCM 726 Seminar in Project Management

Prerequisite: TCM 701; total of 21 graduate hours in the Project Management MS program of study; and permission of Project Management Program Director.

Presentation and discussion of professional or technical problems in the organization and management of projects. Students are expected to demonstrate the ability to apply the knowledge and experience gained in their program of study to the critical evaluation and analysis of the theory, research and practice of project management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

TCM 740 Management of Innovation and Technology Seminar

Prerequisite: acceptance in the Project Management MS program or graduate certificate program; or permission of the Project Management Program Director.

Focuses on the strategic management of technology and innovation in organizations. Builds primarily on broad models of technological evolution and organizational change. Students analyze crucial organizational innovation and technology issues and identify concrete managerial actions to address innovation and technology problems and opportunities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Summer

TCM 750 Advanced Project Management

Prerequisite: TCM 701; and a total of 12 graduate hours in the Project Management MS program of study.

Builds upon the foundation of prerequisite courses by discussing advanced problems encountered in the discipline of project management in a seminar format. Practical examination of projects using the criteria of project excellence and project management maturity models. Students are expected to demonstrate the ability to apply the knowledge and experience gained in their program of study to the critical evaluation and analysis of the theory, research and practice of project management.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

TCM 760 Special Investigations

Prerequisite: permission of Project Management Program director.

The student in consultation with the advisor selects for in-depth study an area determined by the interest and background of the students. Based on demand and timeliness of the subject a cluster study group may engage in a joint investigation. May be repeated to a total of 5 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-5			Upon demand

TCM 792 Graduate Internship

Prerequisite: permission of Project Management Program Director.

Educational experience in cooperation with student's full-time employer. Written, oral, and classroom assignments related to workplace improvement. May be repeated, but no more than 6 hours may be counted as credit toward a masters degree.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

TCM 798 Research

Prerequisite: permission of Project Management Program Director.

Supervised research in technology. May be repeated, but not more than 3 hours may be counted toward a masters degree. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

TCM 799 Thesis

Prerequisite: permission of Project Management Program Director.

Preparation of a thesis. May be repeated, but no more than 3 hours may be counted as credit toward a masters degree. Graded Pass/Not Pass only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring, Summer

Housing and Interior Design (HID) courses

HID 140 Fundamentals of Design and Interiors

Art principles and elements applied to interior environments. Projects will expose the student to interior design skills, basic drafting techniques, design terminology, space planning, materials and applications. Interior design as a profession will be discussed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

HID 201 Studio I

Prerequisite: HID 140.

Space planning and design for both residential design and commercial design. This course will cover interior design specifications, material, and green design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

HID 202 Studio II

Prerequisite: HID 140 and HID 201 and HID 208.

Residential design projects with emphasis on color and light, presentation techniques as well as universal design.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

HID 208 CAD for Interior Design

Prerequisite: HID 140 or TCM 221.

An overview of AutoCAD, SketchUp, and other relevant software. Both 2- and 3- dimensional aspects are covered in order to design a structure. Design project required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

HID 241 Residential Design I

Prerequisite: HID 140 or concurrent enrollment.

The design of a residence including the drawing of floor plans and the study of both structural and decorative aspects. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

HID 300 Special Topics in Housing and Interior Design

Selected topics of contemporary interest in housing and interior design. Offered when resources and demand allow. May be repeated for a total of 6 hours when topics change. Variable Content Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

HID 302 Housing and Interior Design Study Tour

Study of and visits to museums, international hospitality tours, historic sites, trade shows, conferences, and conventions related to the interior design industry. May be taken for a total of 6 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

HID 303 Studio III

Prerequisite: HID 241.

Kitchen and bath designs and materials, preparing for the National Kitchen and Bath Association certification. Addresses kitchen and bath systems, products, and planning. Also, drawing, design principles, project and business management for kitchen and bath.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

HID 304 Studio IV

Prerequisite: HID 201.

Hotel, restaurant and healthcare design. The interior design of lounges and public dining facilities, guest lodging facilities from urban hotels to resorts, hospital and healthcare interior design using codes and universal design principles.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

HID 325 Pre-Internship Seminar

Prerequisite: HID 201 or concurrent enrollment; and HID 241.

Sourcing and acquisition of an internship are examined. Includes resume writing, phone, email and correspondence etiquette, and interview skills.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

HID 340 Sustainable Design

Examines sustainable design and building practices employed in residential and commercial structures.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

HID 344 Historical Design Pre 19th Century

Ancient, Medieval, and Renaissance art, furnishings, and decorative design with emphasis on historical relevance for the 21st century.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

HID 346 Historical Design: 19th - 21st Century

An overview of interiors, furnishings, and related structure design during the 19th - 21st century with emphasis on historical relevancy for the 21st century.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

HID 400 Problems in Housing and Interior Design

Independent study for those who wish additional work in specific subject areas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

HID 405 Studio V

Prerequisite: HID 140.

Retail design and display and presentation techniques design from store planning to merchandise display.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Fall

HID 406 Studio VI

Prerequisite: HID 208.

Advanced presentation techniques, digital portfolio and models.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

HID 408 Computer Applications for Interior Design

Prerequisite: HID 208.

Various computer programs with an emphasis on presentation and portfolios.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	0	6	Spring

HID 424 Business Practices

Prerequisite: HID 201 and HID 405 and LAW 231 and ACC 201; and 90 hours.

Business principles and practices of interior design and Senior Show.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Spring

HID 441 National Council of Interior Design Qualifications (NCIDQ) and Senior Show

Prerequisite: HID 201 and HID 405; and 90 hours.

Study of NCIDQ written and practical exams.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Spring

HID 499 Internship in Interior Design

Prerequisite: HID 201 and HID 241 and HID 325.

Off-campus, supervised experiences in a cooperative program with a kitchen and bath and/or interior design firm. The student is required to attend a beginning orientation, maintain weekly journals, communication with their faculty advisor and complete the assigned academic work and project appropriate to the experience. The student must work a minimum of 240 hours for a 4 credit hour internship and a minimum of 320 hours for a 6 credit hour internship.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4-6			Summer, Upon demand

Construction Management

Major(s)

Construction Management (Comprehensive)

Bachelor of Science

Admission requirement:

1. Passing grade in [MTH 261\(5\)](#) or [287\(3\)](#).

Major requirements (80 hours):

1. Specific General Education Requirements:
 - a. Focus on Social and Behavioral Sciences: [ECO 155\(3\)](#), [PSY 121\(3\)](#).
 - b. Focus on Public Issues: [ITC 200\(3\)](#) or [CSC 210\(3\)](#) is recommended.
 - c. Focus on Written Communication and Integrative and Applied Learning: [ENG 321\(3\)](#) is recommended.
 - d. Focus on Quantitative Literacy: [MTH 261\(5\)](#) or [287\(3\)](#).
 - e. Focus on Physical Sciences: [PHY 123\(4\)](#) or [PHY 203\(5\)](#).
 - f. Focus on Life Sciences: [BIO 101\(3\)](#) or [GLG 115\(3\)](#) is recommended.
2. [TCM 121\(3\)](#), [122\(3\)](#), [221\(3\)](#), [223\(3\)](#), [226\(3\)](#), [267\(3\)](#), [313\(3\)](#), [318\(3\)](#), [320\(3\)](#), [321\(3\)](#), [322\(3\)](#), [324\(3\)](#), [326\(3\)](#), [366\(3\)](#) or [424\(3\)](#); [401\(3\)](#), [425\(3\)](#), [427\(3\)](#); [453\(3\)](#), [454\(3\)](#), [494\(1\)](#), [499\(3\)](#); [ACC 201\(3\)](#); [GLG 110\(4\)](#) or [GRY 142\(4\)](#); [LAW 231\(3\)](#); [MGT 340\(3\)](#); [QBA 237\(3\)](#).
3. Three hours from: [ACC 211\(3\)](#), [311\(3\)](#); [BUS 135\(3\)](#); [ITC 201\(3\)](#); [ECO 165\(3\)](#); [FIN 380\(3\)](#), [FIN 368/LAW368\(3\)](#), [LAW 332\(1\)](#), [335\(2\)](#), [531\(3\)](#), [532\(3\)](#); [MGT 345\(3\)](#), [465\(3\)](#); [MKT 350\(3\)](#), [355\(3\)](#), [364\(3\)](#), [365\(3\)](#), [367\(3\)](#), [368\(3\)](#), [450\(3\)](#); [QBA 337\(3\)](#).
4. Public Affairs Capstone Experience will be fulfilled by completion of [TCM 499\(3\)](#).
5. No more than 31 hours of coursework from the business units of the College of Business will be allowed.

University level requirements:

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)

Construction Management

Bachelor of Arts

Bachelor of Science

1. [TCM 123\(3\)](#), [221\(3\)](#), [324\(3\)](#).
2. Six hours from: [TCM 223\(3\)](#), [226\(3\)](#), [425\(3\)](#), [427\(3\)](#), [454\(3\)](#).

Accelerated graduate program in Project Management

Eligible Missouri State undergraduate students may apply for admission to the Project Management program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/prog-project-management.htm) (<https://graduate.missouristate.edu/Catalog/prog-project-management.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Professional Studies

Eligible Missouri State undergraduate students may apply for admission to the Master of Professional Studies program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog](https://graduate.missouristate.edu/Catalog/professionalstudies.htm) (<https://graduate.missouristate.edu/Catalog/professionalstudies.htm>) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes](#) ([Registrar/mixedcredit.htm](#)) for additional information and procedures for obtaining permission for Mixed Credit.

General information

Child Development Center

The Center provides a high quality developmentally appropriate early childhood program for children 6 weeks to 5 years, and a laboratory for students. The laboratory experience allows students to link educational theory with practice by observing and working with young children.

Childhood Education and Family Studies Courses

Child and Family Development (CFD) courses

CFD 110 Health, Safety and Nutrition

Introduces curriculum, regulations, standards, policies, procedures and current trends related to health, safety and nutrition of children and families. Recognize and create safe environments for children, universal precautions and menu planning to meet the nutritional needs of children. Emphasis placed on integrating and maintaining optimal health, safety, and nutritional concepts in every day planning and program development for all children.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 150 Introduction to Child and Family Development

Prerequisite: permission of instructor.

The scope of this course is a study of the field of child and family development. Professional opportunities and analysis of personal proficiencies will be the focus.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

CFD 155 Principles of Human Development

General Education Course (Focus on Social and Behavioral Sciences).

Basic principles that govern human development from the prenatal period to death; developmental tasks and interrelations of family members through the life span.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered	CORE 42 (MOTR) equivalent
3	3	0	Fall, Spring	PSYC 200 - Lifespan Human Development.

[Access the CORE 42 portal](#)

CFD 160 Principles of Development in Early Childhood

Development of the child from conception through 8 years of age including weekly laboratory experience with preschool children.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

CFD 163 Relationships in Today's Families

General Education Course (Focus on Social and Behavioral Sciences).

Personal and family living in the early stages of family life cycle. Concepts and methods used in initiating, building, maintaining and enriching relationships.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 197 Introductory Topics in Child and Family Development

Variable content course for introductory concepts in Child and Family Development. May be repeated to a maximum of six hours when topics change.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

CFD 250 Parenting in Contemporary Society

Explores parenting and child rearing in today's society.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

CFD 255 Principles of Development in Infancy

Prerequisite: CFD 160.

Child from conception through two years, including prenatal environment. Two hours laboratory experience weekly in infant-toddler child development laboratory.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

CFD 256 Supervised Experience in the Infant Toddler Center

Experience in applying effective techniques that optimize infant toddler development with 2-hours per week of participation in the infant toddler laboratory.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

CFD 257 Principles of Development in Middle Childhood

Development of the child from six through twelve years in cognitive, physical, social, emotional aspects. Contact with groups of children in this age range is arranged.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 260 Observing, Assessing, and Creating Activities for Young Children

Prerequisite: CFD 160.

Experience in applying the most effective techniques for maximum growth in the physical, social, emotional and mental development of the whole child. Influences of a safe and healthful environment upon the child's development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	2	4	Fall, Spring

CFD 300 Special Topics in Child and Family Development

Prerequisite: permission of department.

Selected topics of contemporary interest in Child and Family Development, offered when resources and demand allow. Variable content course. May be repeated to a maximum of six hours when topics change.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

CFD 301 Play as Development

A study of play and its relationship to typical and atypical development in the physical, cognitive, language, moral, social, and emotional domains. Factors that influence play such as environment, adults, children, attitudes, and beliefs are discussed. The role of play for all people throughout the lifespan is examined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CFD 303 Service Learning Child and Family Development

Prerequisite: 30 hours and concurrent enrollment in a designated service learning offering within one of the major areas of study in Child and Family Development.

A service learning course incorporates a community service experience with classroom instruction to provide an integrative learning experience which addresses the practice of citizenship and promotes awareness of and participation in public affairs/service. Requires 40 hours of service to a community organization, agency, or public service provider. The community service placement and assignment will vary, depending on the specialization area and learning objectives. A list of approved placements will be available from the instructor and the Citizenship and Service Learning Office. Students are required to participate in a service learning training session(s) prior to beginning their service placement. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Upon demand

CFD 304 Outdoor Play

Provides information on the importance of outdoor play, how to choose materials and equipment, adult roles and current research on outdoor play. Students will learn how to evaluate outdoor play environments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 305 Multicultural Studies in Child and Family Development

A study of multicultural education for young children and their families. Emphasizes communication processes, recognizes cognitive and affective development, presents effective techniques and strategies that meet the needs of young children and families with diverse backgrounds.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

CFD 306 Death, Separation, and Loss

This course will provide a broad overview of the psychological aspects of death, separation, and loss from diverse perspectives. Topics include attitudes toward and preparation for death, children's developmentally appropriate understanding of death and loss, end-of-life decision making, the grief process, and bereavement support and interventions for children and their families. Course materials will be supplemented by students' self-reflection and writing on feelings, attitudes, and beliefs related to death, separation, and loss.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

CFD 350 Seminar in Child and Family Development

Readings, discussion and analysis of trends and issues in child and family development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 353 Childhood Illnesses, Injuries, Diseases and Disorders

This course provides an overview of the common childhood illnesses, injuries, diseases, and disorders for psychosocial support staff who work in the healthcare field. Students will develop the knowledge and skills necessary to work with diverse pediatric populations, including children with special needs and children who have experienced trauma. Additional pediatric topics include: cystic fibrosis, cancer, diabetes, sickle cell disease, traumatic brain injury, congenital heart deformities, psychiatric diagnoses, and gastrointestinal diseases.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Summer

CFD 354 Working with the Hospitalized Child

Prerequisite: admission into the CFD major-Child Life Option and CFD 160 and CFD 260.

This course will focus on children in the healthcare environment and will cover the six required topics set forth by the Association of Child Life Professionals (ACLP): (1) official ACLP documents; (2) scope of practice; (3) impact of illness, injury, and healthcare on patients and families; (4) family-centered care; (5) therapeutic play; and (6) psychological preparation. This course will include a weekly clinical laboratory experience under the supervision of a Certified Child Life Specialist within a child life program at a local hospital.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	2	Fall

CFD 360 Planning and Implementing Curriculum for Child Development Centers

Prerequisite: CFD 260.

Planning and implementing curriculum to meet the cognitive, emotional, physical, creative and social development needs for young children. Using literacy techniques learned and practiced in class and at the Child Development Center, the students will also share information within the community at libraries and in low-income child care facilities. Supporting young children, their families and teachers/caregivers in their environment is the focus of this course. This enhances our mission to encourage literacy in all parts of children's lives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
5	2	6	Spring

CFD 361 Principles of Family Development

Development trends occurring in family units from premarital interactions to death and/or divorce. Lectures and discussions will apply developmental principles to today's family life styles.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CFD 365 Families in Later Life

Prerequisite: PSY 121; and CFD 155 or CFD 163 or 30 hours.

Examination of the structure and function of families in later life. Topics of interest include demographic trends impacting the structure of the family, marriage, sibling relations, parent-adult child relations, grandparenthood, widowhood, and retirement. The application of family theories and their relevance to later life families will be discussed. Identical with GER 366, PSY 366 and SWK 365. Can only receive credit for one of following: CFD 365, GER 366, PSY 366 or SWK 365.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

CFD 366 Preparation for the Professional Internship

Prepares the Child and Family Development student for an internship and professional practice, including discussion of professional/ethical issues and behavior, choosing professional development sites, setting goals, writing resumes, and interviewing skills and certification.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

CFD 400 Problems in Child and Family Development

Prerequisite: 90 hours and permission.

Independent study for those who wish additional work in specific subject areas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

CFD 454 Therapeutic Play Activities for Hospitalized Children

Prerequisite: admission into the CFD major-Child Life Option and CFD 354.

This course will focus on the therapeutic aspects and developmental outcomes of play. Students will develop the skills needed to assess, plan, implement, and evaluate developmentally appropriate and therapeutic play interventions and activities with hospitalized children. This course will include a weekly clinical laboratory experience under the supervision of a Certified Child Life Specialist within a child life program at a local hospital.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

CFD 455 Infants and Toddlers: Development and Program Planning

Prerequisite: CFD 260 and 60 hours.

A study of the infant from conception through two years with a 3-hour weekly laboratory in an infant toddler center. Application of developmentally appropriate practice through laboratory participation, portfolios, and curriculum planning. A current negative TB test is required and students must obtain a Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI fingerprinting background check.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	3	Fall, Spring, Summer

CFD 466 Internship in Programs for Children, Youth, Adults, and Families

Prerequisite: CFD 366.

Supervised active learning experiences with children, youth, or families in human service agencies; observation, discussion, and evaluation of the student's experiences. Advance registration with course instructor required. May be repeated to a maximum of 12 hours. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6	0	12	Fall, Spring, Summer

CFD 499 Practicum in Child and Family Development

Prerequisite: permission of subject matter professor.

Off-campus, supervised experience in a cooperative program with business, government, community, or related establishments within any of the specialized areas of child and family development. In addition to the outline agency involvement, the student is (1) required to attend a beginning orientation and a follow-up seminar, and (2) complete assignments appropriate to subject matter specialization. May be repeated to a maximum of 12 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

CFD 500 Issues in Child and Family Development

Prerequisite: permission.

Advanced inquiry into specialized areas of study in Child and Family Development. Variable content course. May be repeated to a maximum of six hours when topics change. May be taught concurrently with CFD 600. Cannot receive credit for both CFD 600 and CFD 500.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

CFD 505 Trends and Issues in Youth Development

Advanced inquiry into historical and contemporary foundations of youth development primarily from ten to eighteen years in cognitive-, physical-, social-, emotional-, moral-, spiritual-, and creative aspects. The course involves student engagement in community-based observations, interactions, and applications related to youth developmental models.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 510 Child Life Theory and Practice

Prerequisite: admission into the CFD major-Child Life Option; and CFD 354 or concurrent enrollment.

This course will cover advanced topics related to the child life profession, including: stress and coping theory, psychological preparation for medical experiences, ethical issues related to healthcare delivery, non-pharmacological pain management, interdisciplinary team communication and advocacy, supervision of students, and child life program administration. May be taught concurrently with CFD 610. Cannot receive credit for both CFD 510 and CFD 610.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 532 Family Advocacy

A study of the advocacy process in both the public and private sectors for directing change to benefit families and children. The course involves field trips to locations where decisions are being made that impact families and children. May be taught concurrently with CFD 632. Cannot receive credit for both CFD 632 and CFD 532.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 533 Principles of Family Life Education

Prerequisite: junior standing.

A study of the philosophical and methodological considerations in facilitating family life education programs. Field experiences are a part of this course. May be taught concurrently with CFD 633. Cannot receive credit for both CFD 633 and CFD 533.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	4	0	Fall

CFD 534 Applied Interpersonal Communication Skills

This course utilizes an interactive format to teach basic communication skills. The course will cover talking and listening skills and a process for addressing relationship issues.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Spring

CFD 557 Growth and Development: Middle Childhood to Adolescence

Overview of current research on development, middle childhood through adolescence (8-18), including physical, cognitive, social and emotional development. The roles of culture and biology in development, including families and a variety of social settings such as child care, schools, neighborhoods, and communities. May be taught concurrently with CFD 657. Cannot receive credit for both CFD 557 and CFD 657.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CFD 560 Family Engagement

A study of family engagement programs including family education, volunteerism, leadership development, and advocacy. Students are involved in practicums working with families in a variety of community settings. Students must obtain a Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI fingerprinting background check. May be taught concurrently with CFD 660. Cannot receive credit for both CFD 660 and CFD 560.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 562 Prevention of Child Abuse and Neglect

The primary and secondary prevention of physical, emotional, and sexual abuse and neglect of children. Designed for professionals who work with children and families and are required by law to report suspected incidences of child abuse and neglect. May be taught concurrently with CFD 662. Cannot receive credit for both CFD 662 and CFD 562.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 563 Administration of Programs for Children and Families

Types, purposes, and administration of programs for children, youth, and families. Development of leadership and management skills. Includes an overview of office policy and procedure, staff and volunteer management, public relations, budgeting, and quality assurance. May be taught concurrently with CFD 663. Cannot receive credit for both CFD 563 and CFD 663.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

CFD 580 Introduction to Research in Child and Family Development

Prerequisite: 60 hours.

Provides an introduction to empirical research and a variety of research approaches common to the social sciences. Relevant terms and statistical concepts will be presented. Research methods and experimental designs, including locating and analyzing research articles from the professional literature will be introduced. May be taught concurrently with CFD 680. Cannot receive credit for both CFD 580 and CFD 680.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CFD 600 Issues in Child and Family Development

Prerequisite: permission.

Advanced inquiry into specialized areas of study in Child and Family Development. Variable content course. May be repeated to a maximum of six hours when topics change. May be taught concurrently with CFD 500. Cannot receive credit for both CFD 500 and CFD 600.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

CFD 610 Child Life Theory and Practice

Prerequisite: admission into the CFD major-Child Life Option and completion of or concurrent enrollment in CFD 354 or admission into the Child Life Studies Graduate Program.

This course will cover advanced topics related to the child life profession, including: stress and coping theory, psychological preparation for medical experiences, ethical issues related to healthcare delivery, non-pharmacological pain management, interdisciplinary team communication and advocacy, supervision of students, and child life program administration. May be taught concurrently with CFD 510. Cannot receive credit for both CFD 610 and CFD 510.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 632 Family Advocacy

A study of the advocacy process in both the public and private sectors for directing change to benefit families and children. The course involves field trips to locations where decisions are being made that impact families and children. May be taught concurrently with CFD 532. Cannot receive credit for both CFD 532 and CFD 632.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 633 Principles of Family Life Education

A study of the philosophical and methodological considerations in facilitating family life education programs. Field experiences are a part of this course. May be taught concurrently with CFD 533. Cannot receive credit for both CFD 533 and CFD 633.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	4	0	Upon demand

CFD 657 Growth and Development: Middle Childhood to Adolescence

Overview of current research on development, middle childhood through adolescence (8-18), including physical, cognitive, social and emotional development. The roles of culture and biology in development, including families and a variety of social settings such as child care, schools, neighborhoods, and communities. May be taught concurrently with CFD 557. Cannot receive credit for both CFD 657 and CFD 557.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 660 Family Engagement

A study of family engagement programs including family education, volunteerism, leadership development, and advocacy. Students are involved in practicums working with families in a variety of community settings. Students

must obtain a Missouri Volunteer and Employee Criminal History Service (MOVECHS) FBI fingerprinting background check. May be taught concurrently with CFD 560. Cannot receive credit for both CFD 560 and CFD 660.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 662 Prevention of Child Abuse and Neglect

The primary and secondary prevention of physical, emotional, and sexual abuse and neglect of children. Designed for professionals who work with children and families and are required by law to report suspected incidences of child abuse and neglect. May be taught concurrently with CFD 562. Cannot receive credit for both CFD 562 and CFD 662.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 663 Administration of Programs for Children and Families

Types, purposes, and administration of programs for children, youth, and families. Development of leadership and management skills. Includes an overview of office policy and procedure, staff and volunteer management, public relations, budgeting, and quality assurance. May be taught concurrently with CFD 563. Cannot receive credit for both CFD 663 and CFD 563.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

CFD 680 Introduction to Research in Child and Family Development

Prerequisite: 60 hours with minimum cumulative GPA (MSU and combined) of 3.00 or admission into accelerated graduate program or graduate student status.

Provides an introduction to empirical research and a variety of research approaches common to the social sciences. Relevant terms and statistical concepts will be presented. Research methods and experimental designs, including locating and analyzing research articles from the professional literature will be introduced. May be taught concurrently with CFD 580. Cannot receive credit for both CFD 680 and CFD 580.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

CFD 701 Orientation to Early Childhood and Family Development

Prerequisite: admission to the Early Childhood and Family Development graduate program.

Orientation to the program and examination of seminal reading in the field.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

CFD 702 Community Engagement

Analysis of service-learning/community engagement. The main tenets of community engagement/service learning are analyzed, the community need, the academic enhancement, and reflection. The roles of all involved in community engagement/service learning, the teachers, the students, and the community partners are studied. Ethical, moral, and civic implications of community engagement/service-learning are also explored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 705 Growth and Development: Infancy through Early Childhood

Overview of current research on children's development, prenatal through age 5 years, including physical, cognitive, social and emotional development. The roles of culture and biology in development, including families and a variety of social settings such as child care, schools, neighborhoods, and communities.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CFD 750 Advanced Human Development Studies

Analysis of theories and trends in human development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

CFD 761 Advanced Family Studies

Provides students with an understanding of theories used in the study of families; awareness of current demographics and trends of today's families; examines characteristics of various family structures and social influences impacting family functioning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 775 Parent and Child Relations

This course examines relevant theories and current research in parent-child relationships across the life span.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

CFD 776 Advanced Studies in Infant Development

Current research on infant development, prenatal through two years of age. The roles of families and culture in early development. Applications of research findings to practice in infant and toddler care.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

Child Life Studies (CLS) courses

CLS 701 Introduction to Child Life Studies

This course is designed to be a formal introduction into the Child Life Studies graduate program and the field of child life. It will include discussion of professional/ethical practices and behavior, mentorship for clinical training components, and setting of goals to meet academic and career objectives.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
--------------	-----------------------	-------------------	-------------------

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

CLS 705 Aspects of Childhood Illness and Disease

Childhood disease processes and pathophysiology, symptoms, diagnostic tests, and treatment of diseases will be discussed. Information on how disease affects a child and family's behavioral, social and emotional development and coping strategies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CLS 710 Childhood Death and Bereavement

Various theories and practice specific interventions that assist children/youth or family members when they encounter issues of death, loss, and/or grief. Examination of those issues affecting the student personally or professionally. Development of epistemology regarding death, loss, and grief.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CLS 715 Play and Therapeutic Intervention

Developmental aspects of play and therapy related to developmental stages of children and family in the context of health-care setting. Apply play therapy techniques in dealing with childhood problems such as molestation, physical abuse, depression, trauma, and family conflict.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CLS 720 Trends and Issues in Child Life

Topics of interest from the profession of Child Life will be discussed through readings, case studies, and review of research. The application of theory and research to current practices in Child Life will be discussed. Potential research topics will be investigated and the thesis literature review will begin. Should be taken prior to SFR 780.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CLS 790 Practicum in Child Life

Prerequisite: permission of Child Life Studies Program Director.

Students carry out play activities; supervise activities that foster creativity, divert child/youth from stress and worry and normalize their environment; and provide opportunities for children/youth to socialize and engage in developmentally appropriate activities. Practicum must be supervised by a certified Child Life Specialist.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

CLS 791 Practicum in Child Life

Prerequisite: permission of the Child Life Studies Graduate Director.

Students carry out play activities; supervise activities that foster creativity, divert child/youth from stress and worry and normalize their environment; and provide opportunities for children/youth to socialize and engage in developmentally appropriate activities. Practicum must be supervised by a certified Child Life Specialist. May be repeated to a maximum of six hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

CLS 794 Evidence-Based Practice Proposal

This course is designed for students to prepare their proposal for their evidence-based practice (EBP) statements. Information and guidance for creating evidence-based practice questions and evidence-based practice processes will be overviewed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

CLS 795 Child Life Internship

Prerequisite: permission of Child Life Studies Program Director.

Student will work with children/teens and families in a hospital and/or related clinical setting under the supervision of a certified Child Life Specialist. The student will accumulate 600 hours to meet the eligibility requirement to sit for the Child Life Professional Certification Exam. Special attention will be given to legal, ethical, moral, educational, cultural, spiritual, and gender issues as they relate to working with children, youth, teens and their families.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring, Summer

CLS 796 Child Life Internship

Prerequisite: permission of the Child Life Studies Graduate Director.

Student will work with children/teens and families in a hospital and/or related clinical setting under the supervision of a certified Child Life Specialist. In combination with CLS 795, the student will accumulate 600 hours to meet the eligibility requirement to sit for the Child Life Professional Certification Exam. Special attention will be given to legal, ethical, moral, educational, cultural, spiritual, and gender issues as they relate to working with children, youth, teens and their families. May not be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Fall, Spring, Summer

CLS 797 Evidence-Based Practice Research

This course is designed for students to complete their evidence-based practice research project/statement.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

CLS 798 Proposal Development for Child Life Thesis

Prerequisite: SFR 780.

Students will prepare a proposal for their thesis paper. Information and guidance completing Human Subjects Review will be provided.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring, Summer

CLS 799 Thesis Research in Child Life

Prerequisite: CLS 798 and SFR 780.

Guided development of original research and reporting in a five chapter format.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Fall, Spring, Summer

Early Childhood Education (ECE) courses

ECE 301 Emerging Literacy and Communication Arts

Prerequisite: CFD 260 and ECE 304; admission to Teacher Education Program; admission to Early Childhood Education major; concurrent enrollment in ECE 302 and ECE 303; and permission.

This course will focus on the broad areas of emerging literacy and communication arts with particular attention to the early childhood years. The development of listening, oral language, and written comprehension skills as well as an understanding of the contribution of appropriate children's literature to literacy development will be the essential components of this course. Activities, materials, and lessons in these areas will be developed with particular attention to developmentally appropriate methodology. Field experiences are a part of the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 302 Social Studies and Sociomoral Development

Prerequisite: CFD 260 and ECE 304; admission to Teacher Education Program; admission to Early Childhood Education major; concurrent enrollment in ECE 301 and ECE 303; and permission.

This course will combine the concepts found in the sociomoral domain of Project Construct as well as concepts taught in an elementary social studies curriculum. Students will develop activities, materials, and lessons that focus on the building of relationships with adults and peers, negotiating and applying rules, demonstrating confidence and creativity. Additionally, the curriculum sequences for grades Kindergarten through third, including self, home, school community, school and family, neighborhoods, and communities will be part of this course. Field experiences are a part of the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

ECE 303 Mathematics and Science for Young Children

Prerequisite: CFD 260 and ECE 304; admission to Teacher Education Program; admission to Early Childhood Education major; concurrent enrollment in ECE 301 and ECE 302; and permission.

This course will teach the student methods for the active involvement of young children in the areas of mathematics and science. Students will develop problem solving experiences and hands-on activities of these two areas. The areas of beginning mathematics concepts such as classification, seriation, and counting, as well as problem solving, applications, communication and reasoning will be part of the course. Additionally, the development of concepts in both physical, biological, and earth/space sciences and active student involvement and discovery will be included. Developmentally appropriate methodology will be presented. Field experiences are a part of the course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 304 Introduction to Early Childhood Education

Prerequisite: CFD 260 or concurrent enrollment; and declared Early Childhood Education major.

An overview of professionalism in the early childhood education field; being a reflective practitioner, integrating play and inquiry-based learning, formatting professional materials, personalizing teaching for children with exceptionalities, learning culturally sustaining pedagogy, and exploring the early childhood professional code of ethics. Initial public school field experience of 30 clock hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

ECE 315 Classroom Management and Positive Guidance in the Early Childhood Classroom

Prerequisite: admission to Early Childhood Education major.

Designed to provide the pre-service early childhood teacher with an introduction to P-3 classroom management strategies. Topics covered include best practices for classroom organization, classroom management, and positive guidance of children.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 399 Field Experiences in Early Childhood Education

Prerequisite: permission of instructor.

Student participates in field experiences in area schools or approved organizations. Designed for transfer students who have partially completed the field experiences requirement, students working on early childhood certification which requires additional field experience, or it is deemed necessary that a student needs additional experiences in the field.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Upon demand

ECE 400 Special Topics in Early Childhood Education

Prerequisite: 45 hours and permission of instructor.

Independent study for those who wish additional work in specific topic areas. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Upon demand

ECE 401 Curriculum For Early Childhood Education

Prerequisite: ECE 301 and ECE 302 and ECE 303 and ECE 304; admission to Teacher Education Program; admission to Early Childhood Education major; concurrent enrollment in ECE 402 and ECE 403.

Curriculum for early childhood education; underlying principles and applications; relationship to the skills of reading, writing, numbers, spelling, the creative arts, social studies, science. Field experiences are a part of the course. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 402 Assessing Young Children

Prerequisite: ECE 301 and ECE 302 and ECE 303 and ECE 304; admission to Teacher Education Program; admission to Early Childhood Education major; concurrent enrollment in ECE 401 and ECE 403.

An overview and analysis of screening and diagnostic techniques and procedures for use by general classroom teachers in determining instructional programs for children from birth-grade three. Procedures for helping teachers develop programs for children from different cultural backgrounds and exceptional students integrated in general classrooms are included. Field experiences are a part of the course.

ECE 490 Supervised Teaching (Infant/Toddler Settings)

Prerequisite: all program courses except CFD 560 and CFD 563 which may be taken with or at the completion of supervised teaching; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching.

Students will observe and then teach under the supervision of cooperating teacher and university supervisor. Participation in extra-curricular activities and other duties as assigned by the cooperating teacher and supervisor will be expected. Students will be involved in the development of lessons, materials, and units for infants and toddlers. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

ECE 499 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

ECE 501 Home/School/Community Relationships with Young Children and Their Families

This course offers a transdisciplinary approach designed to enhance the student's understanding of the transactional relationship between the school, child and family. Particular emphasis is placed on family development and dynamics within a pluralistic society including the role that family functioning has on the child's total educational experience. May be taught concurrently with ECE 601. Cannot receive credit for both ECE 601 and ECE 501.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 575 Working with Culturally and Linguistically Diverse Children and Families in Early Childhood

Prerequisite: EDC 345.

Begins exploring the disposition toward inquiry needed for ongoing self-development, and focuses on the knowledge and skills needed to infuse culturally and linguistically responsive curriculum. Students will gain an understanding of their professional role in strengthening respectful, collaborative family/child partnerships through effective use of community and family resources. An emphasis will be on learning from families and focusing on how best to support culturally and linguistically diverse young children and their families. May be offered concurrently with ECE 675. Cannot receive credit for both ECE 575 and ECE 675.

ECE 705 Field Experiences in Early Childhood Education

Students participate in field experiences in area schools and other educational settings. This course will provide field experiences with three different age groups (birth-3; 3-5; 5-8). Course is designated for graduate students needing field experiences to meet certification requirements in Early Childhood Education. Students will attend weekly scheduled class discussion sessions on campus in addition to the required field work of 15 clock hours for every credit hour. May be repeated for a maximum of three hours of credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

ECE 724 Foundations of Early Childhood Education

Course will focus on the historical, psychological, philosophical, and social foundations of early childhood education. Theories and research are integrated with practical knowledge. Students will examine philosophy, curriculum, methodology, service delivery systems, and family involvement issues.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 725 Inquiry in Early Childhood and Family Development

Inquiry in early childhood and family development. Introduction to the techniques used by education and social scientists to answer empirical questions. Includes in-depth analysis of current program-relevant theoretical and empirical studies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ECE 726 Programming and Policy Issues for Early Childhood Settings

Analysis of programs, policies and theories appropriate for young children and their families in a variety of early childhood settings.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ECE 727 Children and Families in a Diverse Society

Examination of diverse cultures in American society. An analysis of racism, sexism, and other diversity issues within the school and community. Discussion of child development within different cultures and identifying changing family and community structures.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 728 The Educational Role of Play

A study of the social, emotional, cognitive, and language development of young children through play. Attention is given to the use of play in the organization and development of the early childhood classroom and curriculum. Current models of early childhood curriculum and their relationship to support of play will be explored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 729 Literacy in Early Childhood

Develops awareness of and support for children's literacy knowledge as it grown and changes in the years from birth through early elementary school. This course emphasizes the supportive nature of the adult's role in young children's literacy learning. Descriptions of relevant, meaningful literacy events and suggestions for classroom or home support will be presented. Current research that has a bearing on methodology will be explored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 730 Family Literacy

Introduction to the philosophy and theory behind family literacy, as well as discussion on the development and implementation of a family literacy program. The four-component model of adult education, early childhood education, parent and child together (PACT), and parenting will be covered, both in theory and practical application. Explores the rationale for and characteristics of comprehensive family literacy, focusing upon the families being served, services being provided, outcomes being achieved, and the role and responsibilities of individuals, organizations, and communities involved.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ECE 731 Advanced Curriculum Development for Early Childhood Programs

Analysis of programs, methods, materials, and activities appropriate for early childhood education programs. Emphasis will be on developing and/or selecting strategies for a variety of programs such as day care centers, public school kindergartens and primary grades, Head Start programs, private preschools, etc.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 762 Seminar in Early Childhood and Family Development

Prerequisite: ECE 771.

Guided development of research paper focused on field of Early Childhood and Family Development.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ECE 771 Proposal Development

Prerequisite: ECE 725 and SFR780.

Development of proposal for seminar paper. Proposal must be approved prior to data collection. Human subjects review will also be completed via a lab section with research advisor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	1	Fall, Spring

Early Childhood and Elementary Education (EEM) courses

EEM 305 Field Experiences in Education

Prerequisite: admitted to Teacher Education Program.

Student attends scheduled discussion sessions on campus and participates in field experiences at Greenwood Laboratory School and/or area schools. Designed for transfer students who have partially completed the field experiences requirement and students working on a certification which requires a second field experience. 1(0-2) or

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall, Spring

EEM 399 Problems in Education

Prerequisite: admitted to Teacher Education Program and permission of department head.

Independent research conducted on topics relevant to the field of education. The student and instructor mutually agree upon the direction and extent of the project. Credited only on the BSEd degrees. May be repeated to a maximum of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

EEM 501 Introduction to Technology-Based Inquiry Instruction

Prerequisite: admitted to Teacher Education Program.

Introduction to eMINTS philosophy and instructional model for teachers, emphasis on constructivist-based pedagogies, questioning strategies and critical thinking; use of educational software, internet resources and classroom website design and development. Eight clock hours field experience embedded. May be taught concurrently with EEM 601. Cannot receive credit for both EEM 501 and EEM 601.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

EEM 502 Applications of Technology-Based Inquiry Instruction

Prerequisite: admitted to Teacher Education Program; and EEM 501 with grade of C or better.

Application of eMINTS philosophy, instructional model and teaching strategies; emphasis on cooperative learning, instructional use of interactive whiteboards, information literacy and modes of classroom communication, digital file management, Webquest development and multimedia project design and

development. Eight clock hours field experience embedded. May be taught concurrently with EEM 602. Cannot receive credit for both EEM 502 and EEM 602.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

EEM 503 Implementing Technology-Based Inquiry Instruction

Prerequisite: admitted to Teacher Education Program; and EEM 501 and EEM 502 with grades of C or better.

Third course in eMINTS 3-course sequence. Emphasis on building a learning community, classroom management, instructional planning and implementation in a technology enriched classroom, interdisciplinary teaching methods, technology-assisted assessment, collaborative reflection to improve student performance. Eight clock hours field experience embedded. May be taught concurrently with EEM 603. Cannot receive credit for both EEM 503 and EEM 603.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

EEM 516 Nature Unfolds

Prerequisite: one college level science course, BIO 100 recommended; GPA of at least 2.75.

Students will increase their awareness, knowledge, and appreciation of Missouri habitats and wildlife resources and learn fundamental life and earth science related concepts by experiencing ways to use inquiry-based instructional methods in primary grades. This is one of four courses required to satisfy the conservation education area of emphasis. May be taught concurrently with EEM 616. Cannot receive credit for both EEM 516 and EEM 616.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 517 Nature Unleashed

Prerequisite: one college level science course, BIO 100 recommended; GPA of at least 2.75.

Students will increase their awareness, knowledge, and appreciation of Missouri habitats and wildlife resources and learn fundamental life and earth science related concepts by experiencing ways to use inquiry-based instructional methods in intermediate grades. This is one of four courses required to satisfy the conservation education area of emphasis. May be taught concurrently with EEM 617. Cannot receive credit for both EEM 517 and EEM 617.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 518 Project Wet, WILD, and Learning Tree

Prerequisite: one college level science course, BIO 100 recommended; GPA of at least 2.75.

Students will develop skills and knowledge of conservation education using the Project Wet, WILD, and Learning Tree curriculums, which requires handling specific materials, using technology in science learning, and learning from investigations. This is one of four courses required to satisfy the conservation education area of emphasis. May be taught concurrently with EEM 618. Cannot receive credit for both EEM 518 and EEM 618.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 519 Nature Unhooked: Conserving Missouri's Aquatic Ecosystems

Prerequisite: one college level science course, BIO 100 recommended; GPA of at least 2.75.

Students will develop foundational field biology skills related to Missouri's aquatic ecosystems in order to teach in a structured educational mode, via an outdoor setting. This is one of four courses required to satisfy the conservation education area of emphasis. May be taught concurrently with EEM 619. Cannot receive credit for both EEM 519 and EEM 619.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 576 Topical Issues in Education

Prerequisite: permission may be required, see schedule.

To develop further understanding and skills in the improvement of teaching procedures, curriculum, supervision, or administration. Each course is concerned with a single topic. Number of class hours determined by semester hours of credit. A maximum of 3 hours may be used on a degree program. Variable content course. May be taught concurrently with EEM 676. Cannot receive credit for both EEM 676 and EEM 576. 1-5 D. Approved recurring course topic: B.E.A.R.S. Seminars. A series of seven (7) seminars with different topics designed to enhance and develop further understanding and skills in the improvement of teaching procedures for beginning educators. Seminars are offered monthly, with the exception of December, beginning in September and ending in April. Participation in at least six (6) of these seminars is required for credit. Participants will receive an "I"

grade for the course due to the course extending through the spring semester. Grades will be changed at the end of the spring semester as requirements are met. This course is available to both beginning and veteran educators and satisfies the initial certification requirement of attending a beginning teacher assistance program with a college or university.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

EEM 596 Orientation for Intensive Language and Cultural Experience for Educators

Prerequisite: previous foreign language experience, participation in Hispanic Educational Access Initiative, and permission of instructor; students selected by application and interview process.

Prepare for international travel and exposure to the people, cultures and primary language of the host country. Students develop an introspective case study proposal to be carried out during and/or after the experience abroad. Field trips outside class are required. May be taught concurrently with EEM 606. Cannot receive credit for both EEM 606 and EEM 596.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Spring

EEM 597 Intensive Language and Cultural Experience for Educators

Prerequisite: EEM 596 and permission of instructor.

Experience three weeks of exposure to the educational system, culture and language of the host country while reflecting on their own learning. Students will conducted an introspective case study, keep a journal, and create a portfolio. May be taught concurrently with EEM 607. Cannot receive credit for both EEM 607 and EEM 597.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	3	2	Summer

EEM 598 Post-Travel Seminar for Intensive Language and Cultural Experience for Educators

Prerequisite: EEM 596 and EEM 597 and permission of instructor.

Post-travel seminar deconstructs experience abroad. Students discuss strategies used as a learner and analyze effective teaching techniques. Participants compare cultural and language differences that teachers need to consider in teaching students in a new language. Introspective case study research and portfolios will be shared. May be taught concurrently with EEM 608. Cannot receive credit for both EEM 608 and EEM 598.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

EEM 601 Introduction to Technology-Based Inquiry Instruction

Introduction to eMINTS philosophy and instructional model for teachers, emphasis on constructivist-based pedagogies, questioning strategies and critical thinking; use of educational software, internet resources and classroom website design and development. Eight clock hours field experience embedded. May be taught concurrently with EEM 501. Cannot receive credit for both EEM 601 and EEM 501.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

EEM 602 Applications of Technology-Based Inquiry Instruction

Prerequisite: EEM 601 with grade of C or better.

Application of eMINTS philosophy, instructional model and teaching strategies; emphasis on cooperative learning, instructional use of interactive whiteboards, information literacy and modes of classroom communication, digital file management, Webquest development and multimedia project design and development. Eight clock hours field experience embedded. May be taught concurrently with EEM 502. Cannot receive credit for both EEM 602 and EEM 502.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

EEM 603 Implementing Technology-Based Inquiry Instruction

Prerequisite: EEM 601 and EEM 602 with grades of C or better.

Third course in eMINTS 3-course sequence. Emphasis on building a learning community, classroom management, instructional planning and implementation in a technology enriched classroom, interdisciplinary teaching methods, technology-assisted assessment, collaborative reflection to improve student performance.

Eight clock hours field experience embedded. May be taught concurrently with EEM 503. Cannot receive credit for both EEM 603 and EEM 503.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 676 Topical Issues in Education

Prerequisite: permission.

To develop further understanding and skills in the improvement of teaching procedures, curriculum, supervision, or administration. Each course is concerned with a single topic. Number of class hours determined by semester hours of credit. A maximum of 3 hours may be used on a degree program. Variable Content Course. Approved recurring course topic: B.E.A.R.S. Seminars. 1(1-0) F. A series of seven (7) seminars with different topics designed to enhance and develop further understanding and skills in the improvement of teaching procedures for beginning educators. Seminars are offered monthly, with the exception of December, beginning in September and ending in April. Participation in at least six (6) of these seminars is required for credit. Participants will receive an "I" grade for the course due to the course extending through the spring semester. Grades will be changed at the end of the spring semester as requirements are met. This course is available to both beginning and veteran educators and satisfies the initial certification requirement of attending a beginning teacher assistance program with a college or university. Variable Content Course. May be taught concurrently with EEM 576. Cannot receive credit for both EEM 576 and EEM 676.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-5			Upon demand

EEM 720 Introduction to Learner Development and Differences in Gifted and Talented Education

An introduction to gifted education and the models of giftedness, strategies of identification, and facilitation of assessment for placement of children in gifted programs. Examination of resources available to classroom teachers and exploration of the challenges and rewards involved in working with gifted students. Historical and legal aspects of the evolution of gifted education will be explored.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

EEM 721 Curriculum Planning, Instruction and Assessment in Gifted and Talented Education I

This course explores curriculum planning, instructional delivery and assessments for gifted and talented students. Understanding and selecting content that promotes higher order cognition and the processes involved in creating contexts for discovery-based learning is examined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

EEM 722 Curriculum Planning, Instruction and Assessment in Gifted and Talented Education II

This course expands the exploration of curriculum planning, instructional delivery, and assessments for gifted and talented students with special emphasis on social-emotional aspects of gifted students.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

EEM 723 Learning Environments and Collaborations in Gifted and Talented Education

This course explores the creation of learning environments conducive to higher-order thought processes, exploration and discovery. Professional collaborative processes; techniques and means of communicating/collaborating with families, content experts/professionals, and other educators in the field of Gifted and Talented education will be examined and practiced.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

EEM 796 Problems in Education

Specific problems in education related to needs and interests of the student. May be repeated to a total of 3 hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

EEM 799 Thesis

Prerequisite: ELE 711 and SFR 780 and permission.

May be repeated to a maximum of 6 hours credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

Elementary Education (ELE) courses

ELE 300 Service Learning in Elementary Education

Prerequisite: EDC 150 and completion of 30 hours; and concurrent registration in an ELE course designated as a service learning offering.

This service component for an existing course incorporates community service with classroom instruction in Elementary Education to provide an integrative learning experience that addresses the practice of citizenship and promotes an awareness of an participation in public affairs. Includes 40 hours of service that benefits an external community organization, agency, or public service provider. Approved service placements and assignments will vary depending on the specific course topic and learning objectives; a list of approved placements and assignments is available from the instructor and the Citizenship and Service Learning Office. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Upon demand

ELE 302 Introduction to Elementary Education and Clinical/Field Experience

Prerequisite: 30 hours, and earned a composition score or superscore of 20 or better on the ACT or attempted Missouri State Board of Education entry examination.

An overview of elementary school organization, management techniques, and personalized teaching styles for use with children including those from various cultural backgrounds and exceptional children who are mainstreamed in regular classrooms. Students will participate in a 30 clock hour field experience at Greenwood Laboratory School and/or area elementary schools. A grade of "B" or better is required in this course to enroll in supervised teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall, Spring

ELE 400 Elementary Integrated Methods and Practicum

Prerequisite: concurrent enrollment in KIN 400 required when enrolling in ELE 400 for 2 hours; and SPE 310; and concurrent enrollment in ELE 429 and/or ELE 434 and/or ELE 438; and admitted to Teacher Education Program.

Comprehensive practicum application of techniques and materials for promoting learning in the arts and physical education with language arts, mathematics, science, social studies, in area school classrooms where students will plan, teach, and assess integrated learning opportunities in the elementary core and integrated arts curriculum.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2-3			Upon demand

ELE 410 Teaching and Learning in the Elementary Classroom

Prerequisite: admitted to Teacher Education Program.

This course introduces approaches to instruction and assessment and supporting learning and motivation theories; physical, social, emotional, and cognitive characteristics of children; methods of designing instruction to meet diverse learner needs; and educator's professional code of ethical conduct. Required first portfolio checkpoint will occur in this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 425 Methods of Teaching Communication Arts in Elementary Schools

Prerequisite: grade of "B" or better in ELE 410 and RDG 420 and RDG 421; and grade of "C" or better in ENG 110 and ENG 210; and admitted to Teacher Education Program.

Emphasis on instruction and assessment in the teaching of basic English Language Arts skills (writing, speaking and listening) and individualized instruction in English Language Arts for elementary and middle school programs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 429 Methods of Teaching of Mathematics in Elementary Schools

Prerequisite: a grade of "B" or better in ELE 410 and RDG 420 and RDG 421; and a grade of "C" or better in MTH 320 and MTH 360; and admitted to Teacher Education Program.

Emphasis upon diagnosis of skill level development, teaching basic mathematical skills, and individualizing instruction in mathematics for elementary and middle school programs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 434 Methods of Teaching Science in Elementary Schools

Prerequisite: a grade of "B" or better in ELE 410 and RDG 420 and RDG 421; and a grade of "C" or better in 8 hours of science (one biology and one physical science); and admitted to Teacher Education Program.

Recommended Prerequisite: concurrent enrollment in GRY 240. Current issues and approaches in teaching elementary school science to children, including exceptional children who are mainstreamed in regular classrooms.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 438 Methods of Teaching Social Studies in Elementary Schools

Prerequisite: a grade of "B" or better in ELE 410 and RDG 420 and RDG 421; and a grade of "C" or better in HST 121 or HST 122 and PLS 101 and GRY 100; and admitted to Teacher Education Program.

Emphasis upon teaching social studies, skills generalizations, attitudes, and values and the development and use of appropriate learning materials and evaluation instruments for elementary and middle school programs.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 440 Classroom Management and Assessment in the Elementary Classroom

Prerequisite: concurrent enrollment in ELE 429 and/or ELE 434 and/or ELE 438; and admitted to Teacher Education Program.

Planning, constructing, using, and analyzing a variety of assessment practices to support reflective decision making in the elementary classroom. Theoretical foundations of current approaches and application of best practices in classroom management including management of time, space, transactions and activities effectively

with an emphasis on approaches to prevent and/or manage disruptive behavior. A 30 hour field experience in area school classrooms is required as a part of this course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	1	2	Upon demand

ELE 458 Theory Into Practice

Prerequisite: concurrent enrollment in ELE 495.

Experiences to integrate knowledge of methodology in practical teaching situations. Individual experiences designed to supplement previous coursework will be provided. Professional development plans, placement activities and sources of professional assistance will be examined.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

ELE 495 Supervised Teaching (Elementary)

Prerequisite: a grade of "B" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in ELE 496.

Student observes then teaches under the direction of the cooperating teacher and university supervisor. Students participate in extra-curricular activities and attend both individual and group conferences. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

ELE 496 Supervised Teaching (Elementary)

Prerequisite: concurrent enrollment in ELE 495.

Student observes then teaches under the direction of the cooperating teacher and university supervisor. Student participates in school-related activities and attends both individual and group conferences. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

5-6			Fall, Spring

ELE 499 Clinical Experiences in Teaching II

Prerequisite: a grade of "B" or better in EDC 199; and admitted to Teacher Education Program; and a grade of "B" or better in all professional education courses; and a grade of "B" or better in ELE 429 or ELE 603 and ELE 434 or ELE 604 and ELE 438 or ELE 602 and ELE 500 or ELE 600 and ELE 510 or ELE 605 and RDG 420 or RDG 656 and RDG 421 or RDG 656; and a grade of "C" or better in MTH 320 and MTH 360 and HST 121 or HST 122 and PLS 101 and GRY 100 and GRY 240 and 8 hours of science (one biology and one physical science); and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

ELE 500 Current Issues and Applications in Elementary Education

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438 and RDG 420 and RDG 421; and grade of "C" or better in GRY 240; and concurrent enrollment in ELE 510.

Application of current innovations and examination of contemporary issues facing elementary teachers including classroom management, inclusion, English language learners, integrated planning and instruction with art, music, health and physical education. A comprehensive field experience in area school classrooms is required. May be taught concurrently with ELE 600. Cannot receive credit for both ELE 600 and ELE 500. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-5			Fall, Spring

ELE 501 Home/School/Community Relationships with Elementary Children and their Families

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438 and RDG 420 and RDG 421; and concurrent enrollment in ELE 500.

This course is designed to enhance the teacher candidate's collaboration skills and understanding of the relationships between school, colleagues, community, child and family. Emphasis is placed on diverse family dynamics within a pluralistic society including the role family functioning has on the child's total educational experience and children as individual learners.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

ELE 502 Integrated Arts in Elementary Education Curriculum

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438 and RDG 420 and RDG 421; and concurrent enrollment in ELE 500.

Methods and strategies for using the arts as tools for learning in the contemporary regular elementary school classroom which includes children of diverse cultures and abilities. Provides culturally responsive instructional models and materials that meaningfully integrate visual and theatre arts and music as primary modes of communication and insight to enhance teaching and learning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring

ELE 510 The Reflective Practitioner

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438 and RDG 420 and RDG 421; and concurrent enrollment in ELE 500.

Introduces students to action research as reflection on their own teaching and learning, and their students' learning and achievement. Requires an intensive field experience in area elementary school. May be taught concurrently with ELE 605. Cannot receive credit for both ELE 605 and ELE 510. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 530 Teaching English Language Learners in the Elementary Classroom

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438 and RDG 420 and RDG 421.

Focuses on state and federal mandates for educating English language learners in U.S. public schools. Introduces the fundamentals of second language acquisition and instructed academic language learning. Emphasis on current, standards-based approaches to teaching English language learners in the regular elementary classroom through differentiation and sheltered instruction of grade-level content.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Fall, Spring

ELE 600 Current Issues and Applications in Elementary Education

Prerequisite: grade of "B" or better in ELE 429 or ELE 603, and ELE 434 or ELE 604, and ELE 438 or ELE 602, and RDG 420 or RDG 656, and RDG 421 or RDG 656; and grade of "C" or better in GRY 240; and concurrent enrollment in ELE 605.

Application of current innovations and examination of contemporary issues facing elementary teachers including classroom management, inclusion, English language learners, integrated planning and instruction with art, music, health and physical education. A comprehensive field experience in area school classrooms is required. May be taught concurrently with ELE 500. Cannot receive credit for both ELE 500 and ELE 600.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3-5			Fall, Spring

ELE 601 Communication Arts Instruction in the Elementary School

Prerequisite: ELE 302 and permission of Director of Graduate Program in consultation with the Teacher Certification and Compliance Office.

Study of the development of language and communication abilities, procedures and instruments for assessing language development, and techniques and materials for promoting development in communication skills for elementary and middle school programs. Critical review of current research-based practices will be required as well as application of those strategies in lesson planning. Course limited to certification students only.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 602 Social Studies Instruction in the Elementary School

Prerequisite: grade of "B" or better in ELE 410, and RDG 420 or RDG 656, and RDG 421 or RDG 656; and grade of "C" or better in HST 121 or 122, and PLS 101 and GRY 100; and admission to graduate Elementary Education program.

Current issues and approaches in teaching elementary school social studies to children including exceptional children who are mainstreamed in the regular classroom. Critical review of current research-based practices will be required as well as application of those strategies in lesson planning and teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 603 Mathematics Instruction in Elementary Schools

Prerequisite: grade of "B" or better in ELE 410, and RDG 420 or RDG 656, and RDG 421 or RDG 656; and grade of "C" or better in MTH 320 and MTH 360; and admission to graduate Elementary Education program.

Emphasis upon diagnosis of skill level development, teaching basic mathematical skills, and individualizing instruction in mathematics for elementary and middle school programs. Critical review of current research-based practices will be required as well as application of those strategies in lesson planning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 604 Science Instruction in the Elementary School

Prerequisite: grade of "B" or better in ELE 410, and RDG 420 or RDG 656, and RDG 421 or RDG 656; and grade of "C" or better in 8 hours of science (one biology and one physical science); and admission to graduate Elementary Education program.

Current issues and approaches in teaching elementary school science to children including exceptional children who are mainstreamed in the regular classroom. Critical review of current research-based practices will be required as well as application of those strategies in lesson planning and teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 605 The Reflective Practitioner

Prerequisite: grade of "B" or better in ELE 429 and ELE 434 and ELE 438, and RDG 420 or RDG 656, and RDG 421 or RDG 656; and concurrent enrollment in ELE 600.

Introduces students to action research as reflection on their own teaching and learning, and their students' learning and achievement. Requires an intensive field experience in area elementary school. May be taught

concurrently with ELE 510. Cannot receive credit for both ELE 510 and ELE 605.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

ELE 710 Elementary School Curriculum

The purpose of this course is to analyze the philosophical and theoretical frameworks that guide elementary curriculum for the assumptions that each makes with regard to teaching and learning. Students will be introduced to the development of curriculum and curriculum materials for use in elementary educational settings. Students will examine the social, political and institutional contexts in which curriculum is developed and used, curriculum development methods and process, and various methods for the implementation, evaluation and distribution of curriculum materials.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ELE 711 Contemporary Issues in Elementary Curriculum

Contemporary issues confronting the modern elementary school; current problems, innovations and proposed changes which affect the total elementary school program. Trends and issues that are developing at the national level.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring, Summer

ELE 713 Advanced Theory and Practice in the Teaching of Communication Arts

Materials, methods and procedures for effective classroom presentation of communication arts. Selection, organization and development of content materials; current issues and trends in the field.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ELE 714 Advanced Theory and Practice in the Teaching of Social Studies

Materials, methods and procedures for effective classroom presentation of social studies. Selection, organization and development of content materials; current issues and trends in the field.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ELE 715 Advanced Theory and Practice in the Teaching of Mathematics

Materials, methods and procedures for effective classroom presentation of elementary mathematics. Selection, organization and development of content materials; current trends and issues in the field.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ELE 716 Advanced Theory and Practice in the Teaching of Science

Materials, methods and procedures for effective classroom presentation of elementary science. Emphasis is placed on teaching science as inquiry and experimentation. Selection, organization and development of content materials; current trends and issues in science education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ELE 717 Advanced Theory and Practice in the Teaching of Economic Education

Materials, methods, and procedures for effective classroom presentation of economic education. Selection, organization, and development of curriculum materials, current issues and trends in the field of economics. Presents students with a framework for proper scope and sequencing of economics concepts to develop an awareness of appropriate benchmarks for economic education instruction.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ELE 720 Advanced Theory and Practice in Student Assessment and Evaluation

Materials, methods, and procedures for effective assessment and evaluation of students. Planning, selection, construction, use, and analysis of a variety of assessment practices including formal and informal approaches. Application of knowledge learned throughout course will help students make judicious and reflective decisions while teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ELE 721 Standards-Based Integrated Curriculum, Learning, and Teaching

Analysis and application of current theories and research on integrated curriculum and learning, performance assessment, and standards-based education. Develop classroom, school-wide and/or district-wide curricula based on state standards. Focus is on deciding what is essential to teach and on improving learners' math and literacy skills across the curriculum.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

ELE 722 Differentiated Instruction for Early Childhood, Elementary, and Middle School

Materials, methods, and procedures for effective differentiation of instruction and evaluation of students. Planning, selection, construction, use and analysis of a variety of differentiated instructional practices across grade levels and disciplines, paying close attention to elementary and middle school learners. Application of knowledge learned throughout course will help students made judicious and reflective decisions while teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

ELE 725 The Emerging Master Teacher

Prerequisite: minimum GPA of 3.00 in the last 60 hours.

This course is designed to engage students in collective and individual inquiry regarding the "problem space" of teaching and learning. It explores current and historical trends/theories that have shaped teaching practices, curriculum design, and assessments of learning.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring, Summer

ELE 730 Internship in Number and Operations

Prerequisite: admission to the Elementary Mathematics Specialist program; and two years of elementary or middle school teaching; and concurrent enrollment in MTH 750.

A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teachers and parents) on concepts related to numbers and operations in base ten appropriate in K-5 students.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

ELE 732 Internship in Rational Numbers and Proportional Thinking

Prerequisite: admission to the Elementary Mathematics Specialist Program; and two years of elementary or middle school teaching; and concurrently enrollment in MTH 752.

A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teachings and parents) on rational number and proportional thinking concepts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

ELE 734 Internship in Algebraic Reasoning

Prerequisite: admission to the Elementary Mathematics Specialist Program; and two years of elementary or middle school teaching; and concurrently enrollment in MTH 754.

A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teacher and parents) on concepts related to algebraic reasoning appropriate in K-5 students.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

ELE 736 Foundations of Mathematical Leadership I for Elementary Mathematics Specialists

Prerequisite: admission to the Elementary Mathematics Specialist Program; and two years of elementary or middle school teaching.

This introductory course provides opportunities for participants to develop knowledge and understanding of leadership principles and the process of continuous improvement as it relates to the roles and responsibilities of elementary mathematics specialists.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	2	0	Upon demand

ELE 737 Foundations of Mathematical Leadership II for Elementary Mathematics Specialists

Prerequisite: admission to the Elementary Mathematics Specialist Program; and two years of elementary or middle school teaching.

This second leadership course in the Elementary Mathematics Specialists program focuses on research and practice related to teamwork, interaction, communication, conflict resolution, and leadership in K-5 schools. Candidates will also examine effective strategies for influencing and facilitating school/district improvement (e.g., mentoring and observing colleagues, conducting professional development, and making data-informed decisions to improve student learning) collaborating with colleagues and administration. Candidates will focus on mentoring and observing colleagues, conducting professional development, and making data-informed decisions to improve student learning school- and district-wide.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

ELE 738 Internship in Geometry and Measurement

Prerequisite: admission to the Elementary Mathematics Specialist Program; and two years of elementary or middle school teaching; and concurrent enrollment in MTH 760.

A supervised mathematics teaching practicum with online seminars in which the candidate acquires experience working with a range of students and adult learners (teachers and parents) on geometry and measurement concepts.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	0	2	Upon demand

ELE 771 Proposal Development

Prerequisite: currently enrollment in SFR 780.

Development of proposal for seminar paper or thesis. Proposal must be approved prior to data collection. Human subjects review will also be completed.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall, Spring, Summer

ELE 772 Research Seminar in Elementary Education

Prerequisite: ELE 711 and SFR 780.

Guided development of a research paper or a creative project.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Fall, Spring

ELE 775 Research Study in Elementary Education

Prerequisite: SFR 780; and ELE 711 in which a project has been identified for completion in ELE 772.

Guided development of a research paper or creative project. Individual work with faculty member on developing the proposal for a research study or continued work on a study beyond the duration of ELE 772. Variable content course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Fall, Spring

ELE 803 Curriculum and Assessment in Mathematics Education

Prerequisite: Master's degree in Education, Mathematics Education or related field; ELE 737; and may be taken concurrently with ELE 804.

This course is designed to deepen students understanding of current mathematics curriculum, curriculum alignment with current standards and textbooks, and assessment tools for meeting the diverse needs of students. Students will also learn to develop and provide professional development in various areas of mathematics teaching and how to communicate assessment results to teachers, parents and other constituents.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years)

ELE 804 Mathematical Leadership III for Mathematics Specialists

Prerequisite: Master's degree in Education, Mathematics Education or related field; ELE 737; and ELE 803 or concurrent enrollment.

This course focuses on research and practice related to teamwork, coaching, communication, conflict resolution, and more intensive leadership training. It examines effective strategies for influencing and facilitating school/district improvement and includes an embedded practicum.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall (odd-numbered years), Spring (even-numbered years)

ELE 805 Seminar in Mathematics Education

Prerequisite: ELE 803 and ELE 804.

This course is designed to guide students in conducting a research paper or creative project focused on mathematics education.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall (odd-numbered years), Spring (even-numbered years)

Family and Consumer Sciences (FCS) courses

FCS 110 Housing, Environments, and Design

Examines physical, psychological and sociological influences that impact families in various living environments.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FCS 120 Family Health and Nutrition

Current trends in family health care and home nursing care; practice in the laboratory. Basic concepts of human nutrition which includes carbohydrates, lipids, proteins, vitamins, minerals, absorption, digestion, and energy utilization as they relate to health and food consumption at different states in the life cycle.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FCS 197 Introductory Topics in Family and Consumer Sciences

Variable content course for introductory concepts in Family and Consumer Sciences. May be repeated to a total of 6 hours when topics change.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 299 Work Experience

Prerequisite: permission of subject matter faculty member or coordinator.

Students will secure positions in their area of specialization in order to gain work experience. This practicum is usually scheduled between their freshman and sophomore years. Working in a coordinated program the student will be evaluated by both the company supervisor and the practicum coordinator. Besides work experience, the student can be expected to gain in career direction as well as in the application of the principles and practices of their respective specialization. 200 minimum work hours.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	4	Fall, Spring

FCS 300 Special Topics in Family and Consumer Sciences

Selected topics of contemporary interest in Family and Consumer Sciences, offered when resources and demand allow. May be repeated to a total of 6 hours when topics change. Variable Content Course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 301 Textiles, Apparel, and Fashion

Textiles and apparel course for teachers of Family the Consumer Sciences. Study of textiles used in apparel, selection and care of apparel, apparel construction techniques, and cultural, aesthetic, historical, legal and environmental aspects of textiles, apparel and fashion.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	1	4	Spring

FCS 302 Family and Consumer Sciences Study Tour

Study of mills, factories, stores, hospitals, laboratories, hospitality facilities, museums, design studios, historic sites, and/or trade markets, and not-for-profit agencies.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-4			Upon demand

FCS 303 Service Learning in Family and Consumer Sciences

Prerequisite: 30 hours and concurrent registration in a designated service learning offering within one of the major areas of study in Family and Consumer Sciences.

A service learning course incorporates a community service experience with classroom instruction to provide an integrative learning experience which addresses the practice of citizenship and promotes an awareness of and participation in public affairs/service. Requires 40 hours of service to a community organization, agency, or public service provider. The community service placement and assignment will vary, depending on the specialization area and learning objectives. A list of approved placements will be available from the instructor and the Citizenship and Service Learning Office. Students are required to participate in a service learning training session(s) prior to beginning their service placement. May be repeated.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1			Fall, Spring

FCS 335 Presentation Techniques

Prerequisite: COM 115 and 60 hours.

Planning and presenting techniques for teaching in the classroom, business, industry, or extension settings. A focus on professional presentation strategies incorporating the use of multimedia technology.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FCS 373 Family Economics

Recommended Prerequisite: ECO 155. Family as a consumer unit, its financial well-being and interrelationship with the market and the economy.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall, Spring

FCS 400 Problems in Family and Consumer Sciences

Independent study for those who wish additional work in specific subject areas.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 472 Resource Management Theory and Practicum

Prerequisite: CFD 163 and FCS 373.

Study of family and individual resource management concepts and application of resource management principles and techniques with emphasis on group dynamics and problem solving. Public Affairs Capstone Experience course.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

FCS 477 Seminar in Home Management and Family Economics

Prerequisite: senior standing and major in Family and Consumer Science BSEd program.

Readings, discussion and analysis of trends and developments in home management and family economics.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
2	0	2	Spring

FCS 493 Supervised Teaching (Family and Consumer Sciences)

Prerequisite: completion of all methods courses in Family and Consumer Sciences; a grade of "C" or better in all professional education courses; current pre-professional liability insurance; and approval for supervised teaching; and concurrent enrollment in FCS 494.

Student observes then teaches family and consumer sciences classes under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
6			Fall, Spring

FCS 494 Supervised Teaching (Family and Consumer Sciences)

Prerequisite: concurrent enrollment in FCS 493.

Student observes then teaches under the direction of the cooperating teacher and the university supervisor. Student participates in school-related activities appropriate to the assignment and attends all required meetings. In order to receive a grade in this course, the student's professional portfolio must meet or exceed final criteria. Course will not count toward the major GPA.

FCS 498 Clinical Experiences in Teaching II

Prerequisite: EDC 199; and admitted to Teacher Education Program; and grades of "C" or better in all professional education courses; and completion of portfolio checkpoints 1 and 2; and current pre-professional liability insurance; and program approval.

This course is designed to meet HB 1711 for student's experience as a Teacher's Aide or Assistant Rule (Rule 5 CSR 80-805.040), to that of conventional student teachers within the same program. It is also designed to support completion of additional clinical requirements within that program including: seminars and workshops, required meetings, school related activities appropriate to the assignment, demonstrated mastery of the MoSPE standards and completion and overall assessment of a Professional Preparation Portfolio. This course is credited only on BSEd or appropriate masters-level certification programs. Can only receive credit for one of the following: AGE 499, AGT 499, ART 469, COM 493, ECE 499, ELE 499, ENG 434, FCS 498, HST 499, KIN 498, MCL 491, MID 499, MTH 496, MUS 499, SCI 499, SEC 499, SPE 499, THE 493.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4			Fall, Spring

FCS 499 Internship in Family and Consumer Sciences

Prerequisite: permission of subject matter faculty member.

Off-campus, supervised experience in a cooperative program with business, government, community, or related establishments within any of the specialized areas of family and consumer sciences. In addition to the outline agency involvement, the student is (1) required to attend a beginning orientation and a follow-up seminar, and (2) complete assignments appropriate to subject matter specialization. May be repeated up to 12 hours credit.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-6			Upon demand

FCS 500 Issues in Family and Consumer Sciences

Prerequisite: senior standing.

Advanced inquiry into specialized areas of study in Family and Consumer Sciences such as: Blended Families, Historic Building Preservation, Textile Conservation, Preservation Techniques, Advanced Culinary Techniques, and International Trends in Hospitality. May be repeated to a total of 6 hours when topics change. Variable content course. May be taught concurrently with FCS 600. Cannot receive credit for both FCS 600 and FCS 500.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 502 Study Tour

Prerequisite: junior or senior standing.

Study of and/or visits to mills, factories, stores, museums, hospitals, laboratories, design studios and/or trade markets. May be taught concurrently with FCS 602. Cannot receive credit for both FCS 602 and FCS 502.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 507 Student Organizations in Family and Consumer Sciences

Prerequisite: FCS 335; and concurrent enrollment in FCS 512.

Methods of organizing student groups in Family and Consumer Sciences programs, techniques of working with students in individual and group projects; leadership training. May be taught concurrently with FCS 607. Cannot receive credit for both FCS 607 and FCS 507.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

FCS 512 Teaching Family and Consumer Sciences

Prerequisite: FCS 335; and EDC 350; and concurrent enrollment in FCS 507; and admitted to Teacher Education Program.

An overview of the philosophy and history of family and consumer sciences education; includes curriculum building with emphasis on critical thinking and reflective decision-making, problem-based learning, and the development of authentic assessments. Includes the planning of lessons, units, and development of teaching materials in the family and consumer sciences discipline and practice implementation of such lessons. Completion of checkpoint II for the Professional Portfolio is a component of this course. Credited only on BSEd Family and Consumer Sciences major. Cannot be taken Pass/Not Pass. May be taught concurrently with FCS 612. Cannot receive credit for both FCS 612 and FCS 512.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

FCS 515 Organization of Family and Consumer Sciences Programs

Prerequisite: FCS 507 and FCS 512; and admitted to Teacher Education Program.

Investigation of the organization and administration of family and consumer sciences programs; identification of types of programs; program planning, program evaluation and career counseling with emphasis on critical thinking and reflective decision-making. Credited only on BSEd Family and Consumer Sciences major. Cannot not be taken Pass/Not Pass. May be taught concurrently with FCS 615. Cannot receive credit for both FCS 615 and FCS 515.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

FCS 600 Issues in Family and Consumer Sciences

Advanced inquiry into specialized areas of study in Family and Consumer Sciences such as: Blended Families, Historic Building Preservation, Textile Conservation, Preservation Techniques, Advanced Culinary Techniques, and International Trends in Hospitality. May be repeated to a total of 6 hours when topics change. Variable content course. May be taught concurrently with FCS 500. Cannot receive credit for both FCS 500 and FCS 600.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 602 Study Tour

Study of and/or visits to mills, factories, stores, museums, hospitals, laboratories, design studios and/or trade markets. May be taught concurrently with FCS 502. Cannot receive credit for both FCS 502 and FCS 602.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1-3			Upon demand

FCS 607 Student Organizations in Family and Consumer Sciences

Prerequisite: concurrent enrollment in FCS 612.

Methods of organizing student groups in Family and Consumer Sciences programs, techniques of working with students in individual and group projects; leadership training. May be taught concurrently with FCS 507. Cannot

receive credit for both FCS 507 and FCS 607.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
1	1	0	Fall

FCS 612 Teaching Family and Consumer Sciences

Prerequisite: concurrent enrollment in FCS 607.

An overview of the philosophy and history of family and consumer sciences education; includes curriculum building with emphasis on critical thinking and reflective decision-making, problem-based learning, and the development of authentic assessments. Includes the planning of lessons, units, and development of teaching materials in the family and consumer sciences discipline and practice implementation of such lessons. Completion of checkpoint II for the Professional Portfolio is a component of this course. A grade of "C" or better is required in this course. May be taught concurrently with FCS 512. May be receive credit for both FCS 512 and FCS 612.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Fall

FCS 615 Organization of Family and Consumer Sciences Programs

Prerequisite: FCS 607 and FCS 612.

Investigation of the organization and administration of family and consumer sciences programs; identification of types of programs; program planning, program evaluation and career counseling with emphasis on critical thinking and reflective decision-making. May be taught concurrently with FCS 515. Cannot receive credit for both FCS 515 and FCS 615.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	2	2	Spring

FCS 701 Supervision of Student Teachers in Family and Consumer Sciences

Prerequisite: teaching experience in Family and Consumer Sciences; and permission.

Experiences in creating an environment that will encourage Family and Consumer Sciences student teachers to realize their potentials and gain competence in teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Upon demand

FCS 715 Child and Family Development Instruction in the Middle and High School

Current issues and approaches in teaching child and family development at the middle and high school levels. Critical review of current research-based practices will be required as well as application of those strategies in lesson planning and teaching.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Spring

FCS 720 Advanced Curriculum Development for Family and Consumer Sciences Programs

Analysis of programs, methods, materials, and activities appropriate for Family and Consumer Sciences programs. Emphasis will be on developing and/or selecting strategies for a variety of programs such as middle school, high school, ProStart, HTMP, Early Childhood.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FCS 725 Career and Technical Education Leadership

Advanced inquiry into career and technical education as a teacher leader. Emphasis will be on developing and/or selecting strategies for a variety of programs such as FCCLA, SkillsUSA, ACTE.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3	3	0	Fall

FCS 795 Advanced Technical Practice

Prerequisite: permission.

Work in CAD, EDI, Child Life, mental health, hospitality, clinical hospitals, schools, manufacturing, retailing, and/or other settings. Ninety clock hours required.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
3			Upon demand

FCS 796 Practicum

Prerequisite: permission.

The assumption of responsibilities at an approved practicum site under the direction of a professor and practicum site supervisor.

Credit hours	Lecture contact hours	Lab contact hours	Typically offered
4	0	8	Upon demand

Child and Family Development

Major(s)

Child and Family Development (Comprehensive)

Bachelor of Science

Admission Requirements for the Child Life Option

The Child and Family Development Child Life Option has a selective admission policy. Child Life Option students must complete and meet the following application requirements. Students will write a one page essay describing their interest in a career to become a Child Life Specialist and the role of a Child Life Specialist. Students must have a 3.00 cumulative GPA, 100 hours of verified volunteer experience in a hospital setting, two letters of recommendation, one of which must be from the hospital volunteer site. Applications for the Child Life Option must be submitted to the Childhood Education and Family Studies Department office during the semester prior to junior year by February 1. As this is a competitive program, admission is not guaranteed.

Transfer students must also apply for admission for the Child Life Option. Transfer students must meet with a Child Life advisor to determine when they are eligible to complete the application and essay. All students must adhere to the deadlines stated above.

The application and resume will be reviewed by a committee appointed by the Department Head. Criteria for selection will be based on GPA, written essay, two letters of recommendation and verified volunteer hours. Students will be notified of the decision in writing by March 31. Students who are not accepted into the program may reapply in the following semester.

Major requirements (60-84 hours)

Note: 10 hours may double count toward the General Education requirements.

Major core (39 hours):

1. Specific General Education requirements (10 hours double count):
 - a. Child Life option requires [BMS 110\(3\)](#) and [111\(1\)](#). All other options require [BIO 100\(4\)](#), or [BIO 101\(3\)](#) and [111\(1\)](#).
 - b. All options require [CFD 155\(3\)](#) and [PSY 121\(3\)](#).
2. [CFD 110\(3\)](#), [150\(1\)](#), [160\(3\)](#), [163\(3\)](#), [305\(3\)](#), [366\(1\)](#), [466\(6\)](#), [557\(3\)](#), [562\(3\)](#), [563\(3\)](#).
3. Public Affairs Capstone Experience will be fulfilled by completion of [CFD 466\(6\)](#).
4. With approval of advisor, complete support electives to bring total hours in degree to a minimum of 120: Child Development option (18 hours), Family Studies option (17 hours), Youth Development option (22 hours).
5. Candidates for the Bachelor of Science in Child and Family Development are required to attain a grade of C or better in each CFD course or any required course for the options required for graduation.

Complete one of the following options:**Child Development (25 hours):**

1. [CFD 250\(3\)](#), [255\(3\)](#), [260\(4\)](#), [301\(3\)](#), [360\(5\)](#), [455\(4\)](#), [560\(3\)](#).

Child Life (45 hours):

1. [CFD 260\(4\)](#), [301\(3\)](#), [306\(3\)](#), [353\(3\)](#), [354\(4\)](#), [454\(3\)](#), [455\(4\)](#), [499\(3\)](#), [510\(3\)](#), [560\(3\)](#), [580\(3\)](#); [LLT 102\(2\)](#); [BMS 307\(4\)](#); [COM 206\(3\)](#).

Family Studies (26 hours):

1. [CFD 250\(3\)](#), [361\(3\)](#); [306\(3\)](#) or [365\(3\)](#); [532\(3\)](#), [533\(4\)](#), [534\(1\)](#), [560\(3\)](#); [COM 506\(3\)](#); [FCS 373\(3\)](#).

Youth Development (21 hours):

1. [CFD 250\(3\)](#), [260\(4\)](#), [301\(3\)](#), [360\(5\)](#), [505\(3\)](#), [560\(3\)](#).

University level requirements

1. [General Education Program and Requirements](#)
2. [General Baccalaureate Degree Requirements](#)

Minor(s)**Child and Family Development**

Bachelor of Arts

Bachelor of Science

Bachelor of Social Work

1. Six hours from the following, with approval of a CFD advisor: [CFD 155\(3\)](#), [160\(3\)](#), [163\(3\)](#).

2. 12 additional hours from any CFD course or [FCS 373\(3\)](#) with approval of a CFD advisor to bring total to at least 18 hours.

Accelerated graduate program in Child Life Studies

Eligible Missouri State Child and Family Development/Child Life option students may apply for admission to the Child Life Studies program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 12 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-elementary-education.htm\)](https://graduate.missouristate.edu/Catalog/prog-elementary-education.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Accelerated graduate program in Early Childhood and Family Development

Eligible Missouri State undergraduate students may apply for admission to the Early Childhood and Family Development program and begin taking graduate course work as they complete the work for a bachelor's degree. A maximum of 10 hours of graduate credit may be counted toward both the undergraduate and graduate degree (Mixed Credit). Refer to the [Graduate Catalog \(https://graduate.missouristate.edu/Catalog/prog-early-childhood-and-family-development.htm\)](https://graduate.missouristate.edu/Catalog/prog-early-childhood-and-family-development.htm) for specific admission requirements.

Refer to [Undergraduate Students Taking Graduate Classes \(Registrar/mixedcredit.htm\)](#) for additional information and procedures for obtaining permission for Mixed Credit.

Early Childhood Education

Major(s)

Early Childhood Education

Bachelor of Science in Education (Certifiable Birth-Grade 3)

The curriculum for early childhood teaching leads to the degree of Bachelor of Science in Education and carries with it an initial professional certificate (PCI) to teach in the state of Missouri. Holders of this early childhood certificate may be employed to teach from birth through grade 3.

Admission Requirements

All students must be admitted to the Teacher Education Program. Refer to [Teacher Education Program \(/Registrar/Catalog/teacher-certification-teacher-education-secondary-ed.htm\)](#) for application procedures. In addition to meeting all requirements for admission to the Teacher Education Program, those wishing to pursue a degree in Elementary Education must have a combined (Missouri State and transfer) GPA of 2.75 or higher.

Degree Requirements

In order to meet Missouri state teacher certification requirements, candidates for the Bachelor of Science in Education degree are required to meet the following grade point average requirements. All GPA requirements are a combination of Missouri State and transfer grades.

1. a combined (Missouri State and transfer) GPA of 2.75 or higher.
2. a grade of "C" or higher in all courses listed under 1.
3. a combined (Missouri State and transfer) GPA of 3.00 or higher across all courses listed under 2; and a grade of "C" or higher in all courses listed under 2 (except items 2d and 2g, which requires a grade of "B" or higher).

Additionally, students must earn a composite score or superscore of 20 or better on the ACT or earn passing scores on all four sub-tests of the Missouri General Education Assessment (MoGEA) and successfully complete the Missouri Educator Gateway Assessments (MEGA) as established by the Missouri Board of Education.

All students must be admitted to the Teacher Education Program and have successfully completed Supervised Teaching in order to earn this degree. Refer to [Teacher Education Program](#) ([/Registrar/Catalog/teacher-certification-teacher-education-secondary-ed.htm](#)) for application procedures.

Program requirements

1. Specific courses required for major and/or certification which may be used to satisfy General Education Requirements:
 - a. Focus on Written Communication (6 hours): Completion of general education requirement with a grade of "C" or better: [ENG 110\(3\)](#) and [ENG 210\(3\)](#).
 - b. Focus on Quantitative Literacy: Completion of general education requirement with a grade of "C" or better. [MTH 130\(3\)](#) recommended.
 - c. Focus on Oral Communication: Completion of general education requirement with a grade of "C" or better: [COM 115\(3\)](#).
 - d. Focus on Life Sciences: Completion of general education requirement with a grade of "C" or better: [BIO 100\(4\)](#).
 - e. Focus on Physical Sciences: Completion of general education requirement with a grade of "C" or better: Choose one course from [PHY 101\(4\)](#), [GLG 110\(4\)](#), [GLG 171\(3\)](#), [GRY 142\(4\)](#), [GRY 135\(4\)](#).
 - f. Focus on Social and Behavioral Sciences: Completion of general education requirement with a grade of "C" or better: [PSY 121\(3\)](#).
 - g. Courses used to meet the Focus on Humanities and the Focus on the Arts must have two (2) different course codes to meet state certification requirements. Completion of general education requirement with a grade of "C" or better: [ART 200](#) or [MUS 241](#) recommended.
 - h. Focus on Constitution of U.S. and Missouri and American History and Institutions: Completion of general education requirement with a grade of "C" or better: [HST 121\(3\)](#) or [HST 122\(3\)](#); and [PLS 101\(3\)](#).
2. Professional Education Degree Requirements for Teacher Certification (78 hours):
 - a. Content Planning and Instruction. Completion of requirement with a grade of "C" or better: [RDG 318\(3\)](#).
 - b. Individual Student Needs. Completion of requirement with a grade of "C" or better: [CFD 160\(3\)](#), [SPE 310\(3\)](#), [SPE 523\(3\)](#), [ECE 315\(3\)](#), [EDC 345\(3\)](#), [PSY 360\(3\)](#).
 - c. Schools and the Teaching Profession. Completion of the requirement with a grade of "C" or better: [ECE 304\(3\)](#).
 - d. Teaching and Supporting Learning of the Young Child (minimum of 30 hours). Completion of requirements with a grade of "B" or higher: [CFD 260\(4\)](#), [CFD 455\(4\)](#), [CSD 312\(3\)](#), [ECE 301\(3\)](#), [ECE 302\(2\)](#), [ECE 303\(3\)](#), [ECE 401\(3\)](#), [ECE 402\(2\)](#), [ECE 403\(1\)](#), [RDG 420\(3\)](#), [RDG 421\(2\)](#).
 - e. Home-School-Community Relations (minimum of 6 hours). Completion of requirement with a grade of "C" or better: [CFD 560\(3\)](#), [ECE 501\(3\)](#).
 - f. Program Management (minimum of 6 hours). Completion of requirement with a grade of "C" or better: [CFD 110\(3\)](#), [CFD 563\(3\)](#).
 - g. Field and Clinical Experiences (minimum of 12 hours). Completion of requirement with a grade of "B" or better: [ECE 495\(6\)](#), [ECE 496\(6\)](#).
 - h. Public Affairs Capstone Experience will be fulfilled by completion of [ECE 401\(3\)](#).
3. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval for supervised teaching; and recommendation for certification.

Elementary Education

Major(s)

Elementary Education

Bachelor of Science in Education (Certifiable grades 1-6)

The curriculum for elementary teaching leads to the degree of Bachelor of Science in Education and carries with it an initial professional certificate (IPC) to teach in the state of Missouri. Holders of this elementary certificate may be employed to teach in grades 1-6.

Admission Requirements

All students must be admitted to the Teacher Education Program. Refer to [Teacher Education Program \(/Registrar/Catalog/teacher-certification-teacher-education-secondary-ed.htm\)](#) for application procedures. In addition to meeting all requirements for admission to the Teacher Education Program, those wishing to pursue a degree in Elementary Education must have a combined (Missouri State and transfer) GPA of 2.75 or higher.

Degree requirements

In order to meet Missouri state teacher certification requirements, candidates for the Bachelor of Science in Education degree are required to meet the following grade point average requirements. All GPA requirements are a combination of Missouri State and transfer grades.

1. a combined (Missouri State and transfer) GPA of 2.75 or higher.
2. a grade of "C" or higher in all courses listed under 1 and 2 below.
3. a combined (Missouri State and transfer) GPA of 3.00 or higher across all courses and a grade of "B" or higher in each course listed under 4 below.

Additionally, students must earn a composite score or superscore of 20 or better on the ACT or earn passing scores on all four sub-tests of the Missouri General Education Assessment (MoGEA) and successfully complete the Missouri Educator Gateway Assessments (MEGA) as established by the Missouri Board of Education.

All students must be admitted to the Teacher Education Program and have successfully completed Supervised Teaching in order to earn this degree. Refer to [Teacher Education Program](#) ([/Registrar/Catalog/teacher-certification-teacher-education-secondary-ed.htm](#)) for application procedures.

Pre-service teacher training experience (the 500's)

To assure an optimal pre-service teacher training experience and adhere to quality standards established by the Missouri State Department of Education and the Council for the Accreditation of Educator Preparation, all students seeking the Bachelor of Science in Education – Elementary Education (grades 1-6 certification) are required to enroll in a 12 credit hour block of courses in the semester preceding supervised teaching. This block of courses includes ELE 500(4), ELE 501(2), ELE 510(3), ELE 530(2), and EDT 520(1). An extensive field experience in area public school classrooms is included in this block and students must commit two full school days to the field experience that semester which equates to 7:30 a.m. to 4:00 p.m.

Program requirements

1. Specific courses required for major and/or certification which may be used to satisfy General Education Requirements:
 - a. Focus on Written Communication (6 hours): [ENG 110\(3\)](#) and [ENG 210\(3\)](#) with a grade of "C" or higher.
 - b. Focus on Quantitative Literacy: Completion of general education requirement with a grade of "C" or better. [MTH 130\(3\)](#) recommended with a grade of "C" or higher.
 - c. Focus on Oral Communication: [COM 115\(3\)](#) with a grade of "C" or higher.
 - d. Focus on Life Sciences: [BIO 100\(4\)](#) with a grade of "C" or higher.
 - e. Focus on Physical Sciences: [PHY 101\(4\)](#) with a grade of "C" or higher.
 - f. Focus on Social and Behavioral Sciences: [PSY 121\(3\)](#) or [CFD 155\(3\)](#) with a grade of "C" or higher.
 - g. Focus on Cultural Competence: [GRY 100\(3\)](#) with a grade of "C" or higher.
 - h. Courses used to meet the Focus on Humanities and the Focus on the Arts must have two (2) different course codes to meet state certification requirements with one (1) course from either Art or Music to meet state certification requirements. [ART 200](#) or [MUS 241](#) recommended with a grade of "C" or higher.
 - i. Focus on Constitution of U.S. and Missouri and American History and Institutions: [HST 121\(3\)](#) or [HST 122\(3\)](#) recommended; and [PLS 101\(3\)](#) with a grade of "C" or higher.
2. Degree Requirements for Teacher Certification (10 hours):
 - a. Mathematics: [MTH 320\(3\)](#) and [MTH 360\(3\)](#) with a grade of "C" or higher.
 - b. Earth Science: [GRY 240\(4\)](#) with a grade of "C" or higher.
3. Area of Concentration (minimum 21 hours):

Elementary Education majors are required by DESE to have a 21 hour area of concentration. The Elementary Education program has been structured to include an area of concentration with a minimum of 21 hours in communication arts. Therefore, no additional hours will be required to meet the area of concentration.
4. Professional Education (65 hours): A grade of "B" or higher in each course is required.
 - a. Foundations of Teaching: [EDC 345\(3\)](#), [ELE 302\(3\)](#); [PSY 360\(3\)](#); [SPE 310\(3\)](#).
 - b. Teaching Methods: [EDT 365\(3\)](#), [EDT 520\(1\)](#), [ELE 410\(3\)](#), [ELE 425\(3\)](#), [ELE 429\(3\)](#), [ELE 434\(3\)](#), [ELE 438\(3\)](#), [ELE 500\(4\)](#), [ELE 501\(2\)](#), [ELE 510\(3\)](#), [ELE 530\(2\)](#), [ENG 334\(3\)](#), [RDG 318\(3\)](#), [RDG 420\(3\)](#), [RDG 421\(2\)](#).
 - c. Supervised Teaching: [ELE 495\(6\)](#), [ELE 496\(6\)](#).
5. Public Affairs Capstone Experience will be fulfilled by completion of [ELE 500\(4\)](#) and [ELE 510\(3\)](#).
6. This program also requires compliance with the [Teacher Education Program](#) for eligibility to enroll in Professional Education courses; admission to and continuance in the Teacher Education Program; approval

for supervised teaching; and recommendation for certification.
